7. RIGHT TO APPEAL DECISION

Persons who are dissatisfied with a decision of the City Council may have the right to a review of that decision by a court. The City has adopted Section 1094.6 of the California Code of Civil Procedure, which generally limits to ninety days (90) the time within which the decision of the City Boards and Agencies may be judicially challenged.

8. CONSENT CALENDAR

The following items listed are considered routine and will be enacted by a single motion and roll call vote by the City Council. Items may be removed from the Consent Calendar upon request of a Councilmember or a citizen in which event the item will be considered at the completion of all other items on the agenda. The motion by the City Council on the Consent Calendar will approve and make findings in accordance with Administrative Staff and/or Planning Commission recommendations.

8.a. Report of Disbursements for the Month of April 2023.

Recommended Action: Approve the Report of Disbursements for the Month of April 2023.

Attachments:
1. April 2023 Summary of Disbursements
2. Account Codes for Reference
3. Object Codes for Reference

16. ADJOURNMENT

Please be advised that the City needs to be notified 72 hours in advance of a meeting if any specific accommodations or interpreter services are needed in order for you to attend. The City complies with ADA requirements and will attempt to reasonably accommodate individuals with disabilities upon request. Materials related to an item on this Agenda submitted to the City Council after distribution of the agenda packet are available for public inspection at the front counter at the Ukiah Civic Center, 300 Seminary Avenue, Ukiah, CA 95482, during normal business hours, Monday through Friday, 8:00 am to 5:00 pm.

I hereby certify under penalty of perjury under the laws of the State of California that the foregoing agenda was posted on the bulletin board at the main entrance of the City of Ukiah City Hall, located at 300 Seminary Avenue, Ukiah, California, not less than 72 hours prior to the meeting set forth on this agenda.

Kristine Lawler, CMC

Agenda Item No: 4.a.

MEETING DATE/TIME: 6/21/2023

ITEM NO: 2023-2818

AGENDA SUMMARY REPORT

City of Ukiah

SUBJECT: Presentation of the PFM Group on an Update to the City Council on the City's Investment Portfolio.

DEPARTMENT: Finance **PREPARED BY:** Dan Buffalo, Finance Director

PRESENTER: Wale Kajopaiye, PFM Asset Management

ATTACHMENTS:

1. Quarterly Investment Report - CITY OF UKIAH CALIFORNIA - 1Q2023_final
2. Investment Policy_June 2022_approved_REVIEW 2023
3. Ukiah_InvestmentPolicy_Memo June 2023

Summary: Council will receive a presentation from PFM Asset Management LLC (PFM) on the City's investment portfolio, including a discussion on sustainable investing, and consider revision to the City's investment policy.

Background: The City of Ukiah contracts with PFM Asset Management LLC (PFM), an independent investment advisor, to manage the investment of the City's funds. PFM completes an annual review of the City's Statement of Investment Policy to ensure the Policy is in compliance with the sections of the California Government Code ("Code") that govern the investment of public funds.

Each year, PFM meets with the Investment Oversight Committee - which includes the City Manager, Director of Finance, a City Councilmember, a public member, and the City Treasurer – to review and discuss the City's portfolio. The first quarter (calendar year) 2023 report is attached (Attachment 1).

Finally, PFM is recommending minor changes to the City's investment policy, included here in Attachment 2. These changes are explained in the memo from PFM (Attachment 3).

Discussion: PFM, the City's investment portfolio manager, will provide an update to the City Council on the performance of its investment portfolio.

Recommended Action: Receive a presentation from PFM Asset Management LLC (PFM) on the City's investment portfolio, and consider and approve recommended revisions to City's investment policy.

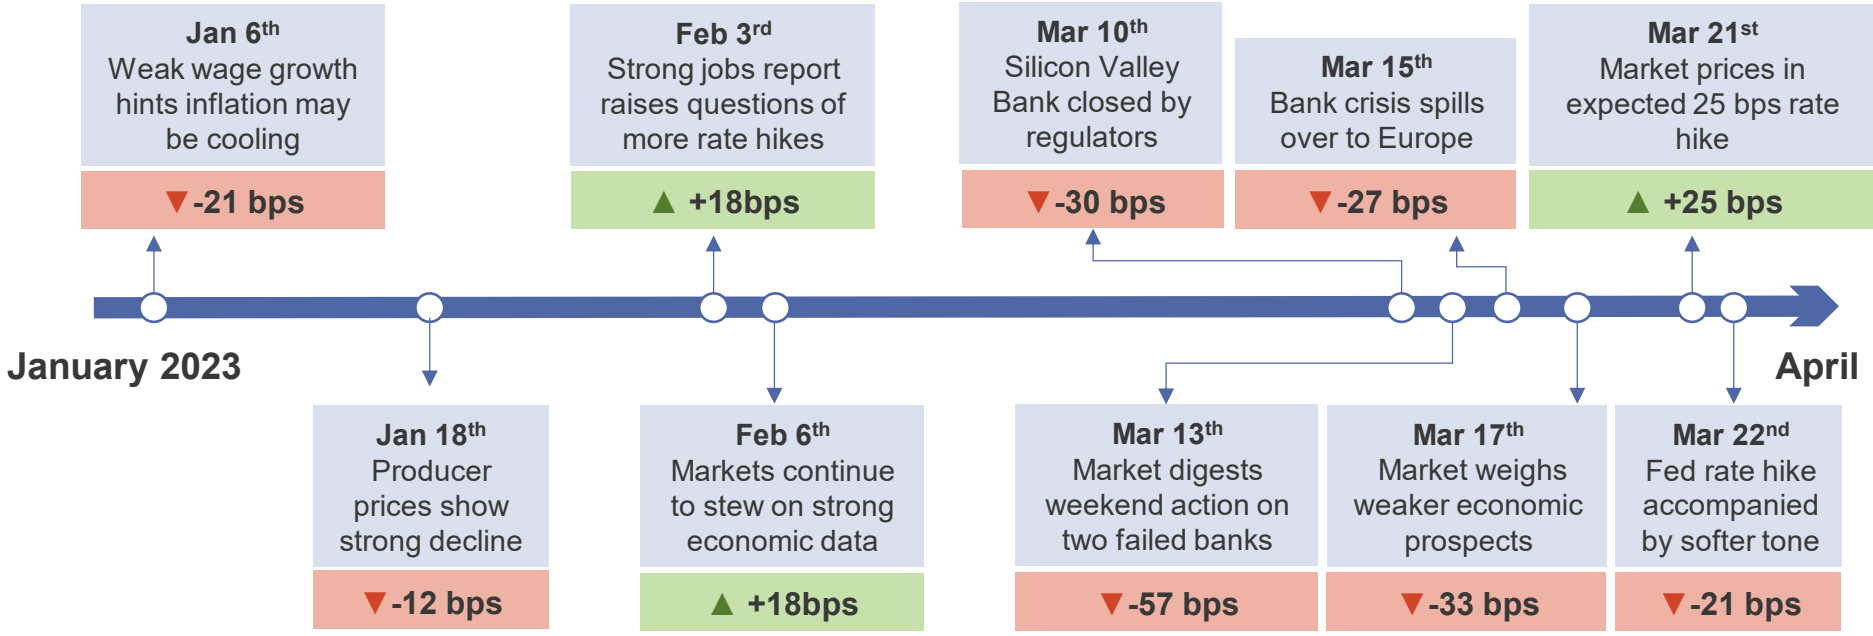
Market Update

© PFM Asset Management LLC | pfmam.com

Current Market Themes

- The U.S. economy is characterized by:
  - Lingering inflation that remains well above the Fed's long-term inflation target
  - A labor market showing the first signs of moderation
  - Greater economic uncertainty following the surprise failure of Silicon Valley Bank and Signature Bank

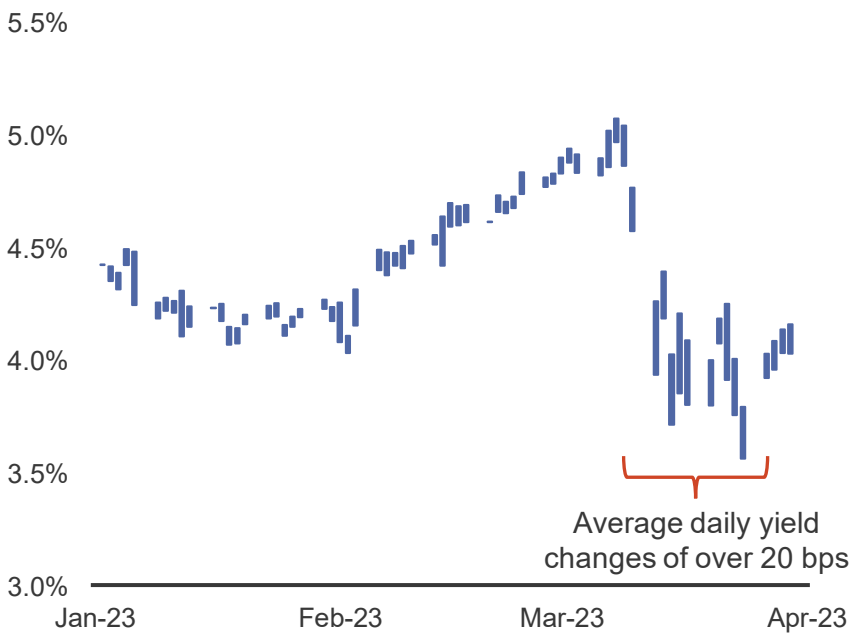


- Fed policy tightening may be nearly complete
  - The most recent FOMC statement noted that "some additional policy firming may be appropriate," but the need for more rate hikes has become less clear
  - Although the Fed acknowledged the impact of the recent bank failures, their March updated Summary of Economic Projections were little changed from December
  - The Fed has maintained that they will keep rates elevated for some time, but the market is pricing in rate cuts beginning mid-year

- Bond markets saw unprecedented volatility in March
  - In a classic "flight to quality," Treasury yields fell sharply, with the 2-year Treasury yield falling from 5.07% on March 8 to under 4.00% on March 17
  - The curve inversion from 3 months to 10 years reached the deepest levels in over 40 years
  - Credit yield spreads widened, especially those on banks, but not nearly to levels seen during the global financial crisis

Market Events Drive Large Yield Moves

Major Economic and Market Events and the Daily Change in the 2-Year U.S. Treasury Yield



▼/▲ *Changes in 2-Year Treasury*

Bond Markets Saw Unprecedented Volatility in March

The surprise failure of two large U.S. banks caused volatility in the markets. In a classic "flight to quality", Treasury yields fell sharply, with the 2-year Treasury yield falling from 5.07% on March 8 to 4.03% on March 31.

Ratings shown are calculated by assigning a numeral value to each security rating, then calculating a weighted average rating for each security type / issuer category using all available security ratings, excluding Not-Rated (NR) ratings. For security type / issuer categories where a rating from the applicable NRSRO is not available, a rating of NR is assigned. Includes accrued interest and excludes balances invested in overnight funds.

Important Disclosures

This material is for general information purposes only and is not intended to provide specific advice or a specific recommendation, as it was prepared without regard to any specific objectives or financial circumstances.

Investment advisory services are provided by PFM Asset Management LLC ("PFMAM"), an investment adviser registered with the U.S. Securities and Exchange Commission and a subsidiary of U.S. Bancorp Asset Management, Inc. ("USBAM"). USBAM is a subsidiary of U.S. Bank National Association ("U.S. Bank"). U.S. Bank is a separate entity and subsidiary of U.S. Bancorp. U.S. Bank is not responsible for and does not guarantee the products, services or performance of PFMAM. The information contained is not an offer to purchase or sell any securities. Additional applicable regulatory information is available upon request.

PFMAM professionals have exercised reasonable professional care in the preparation of this performance report. Information in this report is obtained from sources external to PFMAM and is generally believed to be reliable and available to the public; however, we cannot guarantee its accuracy, completeness or suitability. We rely on the client's custodian for security holdings and market values. Transaction dates reported by the custodian may differ from money manager statements. While efforts are made to ensure the data contained herein is accurate and complete, we disclaim all responsibility for any errors that may occur. References to particular issuers are for illustrative purposes only and are not intended to be recommendations or advice regarding such issuers. Fixed income manager and index characteristics are gathered from external sources. When average credit quality is not available, it is estimated by taking the market value weights of individual credit tiers on the portion of the strategy rated by a NRSRO.

It is not possible to invest directly in an index. The index returns shown throughout this material do not represent the results of actual trading of investor assets. Third-party providers maintain the indices shown and calculate the index levels and performance shown or discussed. Index returns do not reflect payment of any sales charges or fees an investor would pay to purchase the securities they represent. The imposition of these fees and charges would cause investment performance to be lower than the performance shown.

The views expressed within this material constitute the perspective and judgment of PFMAM at the time of distribution and are subject to change. Any forecast, projection, or prediction of the market, the economy, economic trends, and equity or fixed-income markets are based upon certain assumptions and current opinion as of the date of issue and are also subject to change. Some, but not all assumptions are noted in the report. Assumptions may or may not be proven correct as actual events occur, and results may depend on events outside of your or our control. Changes in assumptions may have a material effect on results. Opinions and data presented are not necessarily indicative of future events or expected performance.

Important Disclosures

- Market values that include accrued interest are derived from closing bid prices as of the last business day of the month as supplied by Refinitiv, Bloomberg, or Telerate. Where prices are not available from generally recognized sources, the securities are priced using a yield-based matrix system to arrive at an estimated market value.
- In accordance with generally accepted accounting principles, information is presented on a trade date basis; forward settling purchases are included in the monthly balances, and forward settling sales are excluded.
- Performance is presented in accordance with the CFA Institute's Global Investment Performance Standards (GIPS). Unless otherwise noted, performance is shown gross of fees. Quarterly returns are presented on an unannualized basis. Returns for periods greater than one year are presented on an annualized basis. Past performance is not indicative of future returns.
- Bank of America/Merrill Lynch Indices provided by Bloomberg Financial Markets.
- Money market fund/cash balances are included in performance and duration computations.
- Standard & Poor's is the source of the credit ratings. Distribution of credit rating is exclusive of money market fund/LGIP holdings.
- Callable securities in the portfolio are included in the maturity distribution analysis to their stated maturity date, although, they may be called prior to maturity.
- MBS maturities are represented by expected average life.

Glossary

- Accrued Interest: Interest that is due on a bond or other fixed income security since the last interest payment was made.
- Agencies: Federal agency securities and/or Government-sponsored enterprises.
- Amortized Cost: The original cost of the principal of the security is adjusted for the amount of the periodic reduction of any discount or premium from the purchase date until the date of the report. Discount or premium with respect to short-term securities (those with less than one year to maturity at time of issuance) is amortized on a straight line basis. Such discount or premium with respect to longer-term securities is amortized using the constant yield basis.
- Asset-Backed Security: A financial instrument collateralized by an underlying pool of assets – usually ones that generate a cash flow from debt, such as loans, leases, credit card balances, and receivables.
- Bankers' Acceptance: A draft or bill or exchange accepted by a bank or trust company. The accepting institution guarantees payment of the bill as well as the insurer.
- Commercial Paper: An unsecured obligation issued by a corporation or bank to finance its short-term credit needs, such as accounts receivable and inventory.
- Contribution to Total Return: The weight of each individual security multiplied by its return, then summed for each sector to determine how much each sector added or subtracted from the overall portfolio performance.
- Effective Duration: A measure of the sensitivity of a security's price to a change in interest rates, stated in years.
- Effective Yield: The total yield an investor receives in relation to the nominal yield or coupon of a bond. Effective yield takes into account the power of compounding on investment returns, while nominal yield does not.
- FDIC: Federal Deposit Insurance Corporation. A federal agency that insures bank deposits to a specified amount.
- Interest Rate: Interest per year divided by principal amount and expressed as a percentage.
- Market Value: The value that would be received or paid for an investment in an orderly transaction between market participants at the measurement date.
- Maturity: The date upon which the principal or stated value of an investment becomes due and payable.
- Negotiable Certificates of Deposit: A CD with a very large denomination, usually $1 million or more, that can be traded in secondary markets.
- Par Value: The nominal dollar face amount of a security.
- Pass-through Security: A security representing pooled debt obligations that passes income from debtors to its shareholders. The most common type is the mortgage-backed security.

Glossary

- Repurchase Agreements: A holder of securities sells these securities to an investor with an agreement to repurchase them at a fixed price on a fixed date.
- Settle Date: The date on which the transaction is settled and monies/securities are exchanged. If the settle date of the transaction (i.e., coupon payments and maturity proceeds) occurs on a non-business day, the funds are exchanged on the next business day.
- Supranational: A multinational union or association in which member countries cede authority and sovereignty on at least some internal matters to the group, whose decisions are binding on its members.
- Trade Date: The date on which the transaction occurred; however, the final consummation of the security transaction and payment has not yet taken place.
- Unsettled Trade: A trade which has been executed; however, the final consummation of the security transaction and payment has not yet taken place.
- U.S. Treasury: The department of the U.S. government that issues Treasury securities.
- Yield: The rate of return based on the current market value, the annual interest receipts, maturity value, and the time period remaining until maturity, stated as a percentage on an annualized basis.
- YTM at Cost: The yield to maturity at cost is the expected rate of return based on the original cost, the annual interest receipts, maturity value, and the time period from purchase date to maturity, stated as a percentage on an annualized basis.
- YTM at Market: The yield to maturity at market is the rate of return based on the current market value, the annual interest receipts, maturity value, and the time period remaining until maturity, stated as a percentage on an annualized basis.

CITY OF UKIAH
STATEMENT OF INVESTMENT POLICY
June 1, 2022

I. PURPOSE

The purpose of this document is to establish and organize investment policies, which will govern the investment activities of the City of Ukiah.

II. SCOPE

This investment policy covers all the City's surplus funds and investments (except retirement funds and bond proceeds) and investment activities under the direction of the City. Investment of bond proceeds will be governed by the provisions of relevant bond documents.

The investment policies of the City of Ukiah are based on state law and prudent money management practices. All funds will be invested in accordance with this Investment Policy and applicable California Government Codes, including § 53601 et seq.

III. OBJECTIVES

The primary objectives of the City, in order of priority, shall be:

1) **Safety**: Safety of principal is the foremost objective of the investment program. Investments of the City shall be undertaken in a manner that seeks to ensure preservation of capital in the portfolio.

2) **Liquidity**: The investment portfolio of the City will remain sufficiently liquid to enable the City to meet its cash flow requirements.

3) **Yield**: The investment strategy of the City shall be to earn a reasonable investment return, considering current market conditions, and within the parameters set forth by priorities (1) and (2) above.

An adequate percentage of the portfolio shall be maintained in liquid, short-term securities that can be converted into cash if necessary to meet forecasted disbursement requirements. The portfolio shall also be appropriately diversified to avoid unreasonable and avoidable risks regarding specific security types or individual financial institutions.

IV. POLICIES

1. **Public Funds**: It is the policy of the City of Ukiah to invest public funds in a manner which will provide the maximum safety and liquidity, while earning an investment return consistent with the objectives and parameters set forth by this policy.

2. **Prudent Investor Standard**: Ukiah operates its investments program under the

Prudent Investor Standard, which states that the governing body of the local agency or the persons authorized to make investment decisions on behalf of the local agency are trustees, and, therefore, subject to the Prudent Investor Standard. When investing, reinvesting, purchasing, acquiring, exchanging, selling, or managing public funds, a trustee shall act with care, skill, prudence, and diligence under the circumstances then prevailing, including, but not limited to, the general economic conditions and the anticipated needs of the agency, that a prudent person acting in a like capacity and familiarity with those matters would use in the conduct of funds of a like character and with like aims, to safeguard the principal and maintain the liquidity needs of the agency.

3. **Management Responsibilities**: Management responsibility for the investment program is delegated, for a one-year period, subject to annual review and delegation, to the City Treasurer. The City Treasurer may further delegate day-to-day management of the investment program to a professional external investment advisor.

4. **Internal Controls**: A system of internal controls shall be established and documented in writing by the Finance Director. The controls shall be designed to prevent losses of public funds arising from fraud, employee error, misrepresentation of third parties, unanticipated changes in financial markets, or imprudent actions by employees and officers of the City of Ukiah. Controls deemed most important include: minimization of opportunities for collusion, separation of duties, separation of transaction authority from accounting and recordkeeping, avoidance of bearer-form securities, specific limitations regarding securities losses and remedial actions, written confirmation of all transactions, minimizing the number of authorized investment officials, documentation of transactions and strategies, and proper review and approval of brokerage accounts and investment transactions.

5. **Safekeeping, Custody, and Delivery**: The City's investments shall be held in safekeeping, in the name of the City of Ukiah, by a third party custodian bank. Investment transactions shall be executed and settled using the "delivery vs. payment" method.

6. **Reporting**: The Finance Director shall review and have available monthly reports in the Finance Department, and available for public review, which shall include type of investment, issuer, purchase and maturity dates, rating, purchase price, par, current market value as of the date of the report and the source of this valuation, and yield to maturity. These reports shall include a list of all transactions during the past month.

   The Investment Advisor will also deliver periodic market updates and portfolio reviews to the Finance Director. The Finance Director will deliver investment reports to the Investment Oversight Committee and City Council.

   The Oversight Committee will meet at least once annually in order to conduct a comprehensive review of the investment activities of the City so as to ensure that regulations are being adhered to and that strategies are being followed.

7. **Conflict of Interest**: In accordance with California Government Code sections 1090, et seq. and 87100, et seq., officers and employees of the City will refrain from any activity that could conflict with the proper execution of the investment program or which could impair their ability to make impartial investment decisions. All investment personnel shall comply with the reporting requirements of the Political Reform Act, to include the annual filing of Statements of Economic Interest.

8. **Return on Investment**: The City's investment portfolio shall be designed to attain a market-average rate of return through economic cycles. The Investment Oversight Committee will measure the portfolio against an appropriate benchmark.

9. **Annual Review of Policy**: The Investment Advisor shall review the Investment Policy annually and provide the City Manager and Finance Director with recommendations if any are needed. The Finance Director will present the Policy, and any recommended changes, to the Investment Oversight Committee and City Council. City Council will review the Policy and recommended changes at a public meeting.

V. AUTHORIZED INVESTMENTS

Generally, investments shall be made in the context of the Prudent Investor Standard. The City is further governed by applicable California Government Codes, including sections 53600 and 53601 et seq. Within the context of these regulations, the following investments are authorized, and further limited herein:

(a) **Ukiah Bonds**: Bonds issued by the City of Ukiah, including bonds payable solely out of the revenues from a revenue-producing property owned, controlled, or operated by the City or by a department, board, agency, or authority of the City.

(b) **U.S. Treasury Obligations**: United States Treasury notes, bonds, bills, or certificates of indebtedness, or those for which the full faith and credit of the United States are pledged for payment of principal and interest.

(c) **California State Obligations**: Registered state warrants or treasury notes or bonds of this state, including bonds payable solely out of the revenues from a revenue-producing property owned, controlled, or operated by the state or by a department, board, agency, or authority of the state.

(d) **Non-California State Obligations**: Registered treasury notes or bonds of any of the other 49 United States in addition to California, including bonds payable solely out of the revenues from a revenue-producing property owned, controlled, or operated by a state or by a department, board, agency, or authority of any of the other 49 United States in addition to California.

(e) **Local Agency Obligations**: Bonds, notes, warrants, or other certificates of

indebtedness of any local agency within this state, including bonds payable solely out of the revenues from a revenue-producing property owned, controlled, or operated by the state or by a department, board, agency, or authority of the state.

(f) **Federal Agency or Government Sponsored Enterprise Obligations**: Federal agency or United States government-sponsored enterprise obligations, participations, or other instruments, including those issued by or fully guaranteed as to principal and interest by Federal Agencies or United States Government Sponsored Enterprises.

(g) **Bankers' Acceptances**: Bills of exchange or time drafts that are drawn on and accepted by a commercial bank. Purchases of bankers' acceptances may not exceed 180 days maturity or 40% of the portfolio, and no more than 5% of the portfolio may be invested in the banker's acceptance of any one commercial bank.

(h) **Commercial Paper**: Commercial paper of "prime" quality of the highest ranking or of the highest letter and number rating as provided for by a nationally recognized statistical-rating organization. The entity that issues the commercial paper shall meet all of the following conditions in either paragraph (1) or paragraph (2):

(1) The entity meets the following criteria: (a) is organized and operating in the United States as a general corporation; (b) has total assets in excess of five hundred million dollars ($500,000,000); and (c) has debt other than commercial paper, if any, that is rated in a rating category of "A" or its equivalent or higher by an NRSRO.

(2) The entity meets the following criteria: (a) is organized within the United States as a special purpose corporation, trust, or limited liability company; (b) has program-wide credit enhancements, including, but not limited to, over collateralization, letters of credit or surety bond; and (c) has commercial paper that is rated "A-1" or higher, or the equivalent, by an NRSRO.

Eligible commercial paper shall have a maximum maturity of 270 days. Purchases of commercial paper may not exceed 25% of the City's portfolio. No more than 5% of the portfolio may be invested in commercial paper of any one institution.

(i) **Negotiable Certificates of Deposit**: Negotiable certificates of deposit or deposit notes issued by a nationally or state-chartered bank, a state or federal savings and loan association, or a federally-licensed or state-licensed branch of a foreign bank provided that the senior debt obligations of the issuing institution are rated in a rating category of "A"(long-term) or its equivalent or better or A-1 (short-term) or its equivalent or better by an NRSRO. Purchases of negotiable certificates of deposit may not exceed 30% of the portfolio, and no more than 5% of the City's portfolio may be invested in any one financial institution.

(j) **Repurchase Agreements**: The City may invest in repurchase agreements with banks and dealers with which the City has entered into a master repurchase agreement. The maturity of repurchase agreements shall not exceed 365 days. The market value of

securities used as collateral for repurchase agreements shall be valued at 102% or greater of the funds borrowed against those securities at all times and shall be monitored daily by the investment staff. In order to conform with provisions of the Federal Bankruptcy Code, which provide for the liquidation of securities held as collateral for repurchase agreements, the only securities acceptable as collateral shall be direct obligations of the United States or any agency of the United States as described in §V of this policy.

In addition, the City may enter into repurchase agreements only with "primary dealers" as designated by the Federal Reserve Bank of New York. All securities underlying Repurchase Agreements must be delivered to the City's custodian bank (delivery vs. payment) or be handled under a properly executed "tri-party" repurchase agreement. The market value must be recalculated each time there is a substitution of collateral. The City or its trustee shall have a perfected first security interest under the Uniform Commercial Code in all securities subject to Repurchase Agreement.

(k) **Reverse Repurchase Agreements**: The City may invest in reverse repurchase agreements only with "primary dealers" with which the City has entered into a master repurchase agreement contract. The City may invest in reverse repurchase agreements with the following conditions:

Reverse repurchase agreements may be used only after prior approval of the City Council. The City may only use reverse repurchase agreements to (1) cover a temporary cash shortage, or (2) augment earnings. Reverse repos may not be used to leverage the portfolio. In addition:

If a reverse repurchase agreement is authorized, it may be utilized only if the security to be sold on a reverse repurchase agreement has been owned and fully paid for by the City for a minimum of 30 days prior to the sale; the total of all reverse repurchase agreements on investments owned by the City does not exceed 20% of the portfolio; and the agreement does not exceed a term of 92 days, unless the agreement includes a written codicil guaranteeing a minimum earning or spread for the entire period between the sale of the security using a reverse repurchase agreement and the final maturity date of the same security. The proceeds of the reverse repurchase agreement may not be invested in securities whose maturity exceeds the term of the reverse repurchase agreement.

(l) **Medium-term Notes**: The City may invest in all corporate and depository institution debt securities with a maximum remaining maturity of five year or less, issued by corporations organized and operating within the United States, or by depository institutions licensed in the United States or any state and operating within the United States. Notes eligible for investment shall be rated in a rating category of "A" or its equivalent or better by an NRSRO. Purchase of corporate notes may not exceed 30% of the portfolio, and no more than 5% of the corporate notes in the portfolio may be invested in the same corporation.

(m) **Money Market Funds**: Shares of beneficial interest issued by diversified management companies that invest in the securities and obligations as authorized by California Government Code section 53601 subdivisions (a) to (k), inclusive, and subdivisions (m) to (q), inclusive and that are money market funds registered with the Securities and Exchange Commission under the Investment Company Act of 1940. To be eligible for investment these companies shall either: (i) attain the highest ranking or highest letter and numerical rating provided by not less than two nationally recognized statistical rating organizations, or (ii) have an investment advisor registered or exempt from registration with the Securities and Exchange Commission with not less than five years experience managing money market mutual funds with assets under management in excess of five hundred million dollars ($500,000,000). The purchase price of shares of beneficial interest purchased shall not include any commission that these companies may charge and shall not exceed 20% of the City's portfolio.

(n) **Local Agency Investment Fund**: The City may invest in the Local Agency Investment Fund (LAIF) established by the State Treasurer for the benefit of local agencies under §16429.1 of the Government Code. The maximum balance that can be held in the fund is the maximum amount permitted by LAIF's Local Investment Advisory Board.

(o) **Time Deposits**: The City may invest in non-negotiable time deposits that are FDIC insured or fully collateralized in financial institutions located in California, including U.S. branches of foreign banks licensed to do business in California. To be eligible to receive local agency deposits, a financial institution must receive a minimum overall "satisfactory rating" for meeting the credit needs of California Communities in its most recent evaluation. All time deposits must be collateralized in accordance with the California Government Code § 53650, et seq. Since time deposits are not liquid, no more than 25% of the cost value of the portfolio may be invested in this category.

(p) **Mortgage-Backed and Asset-Backed Securities**: Any mortgage pass-through security, collateralized mortgage obligation, mortgage-backed or other pay-through bond, equipment lease-backed certificate, consumer receivable pass-through certificate, or consumer receivable-backed bond. Securities eligible for investment under this subdivision shall be rated in a rating category of "AA" or equivalent or higher by an NRSRO and have a maximum remaining maturity of five years or less. Purchase of securities authorized by this subdivision may not exceed 20% of the agency's surplus money that may be invested pursuant to this section.

(q) **Local Government Investment Pools (LGIPs).** Shares of beneficial interest issued by a joint powers authority organized pursuant to Section 6509.7 that invests in the securities and obligations authorized in California Government Code section 53601 subdivisions (a) to (r), inclusive. Each share shall represent an equal proportional interest in the underlying pool of securities owned by the joint powers authority. To be

eligible under this section, the joint powers authority issuing the shares shall have retained an investment adviser that meets all of the following criteria: (1) The adviser is registered or exempt from registration with the Securities and exchange Commission. (2) The adviser has not less than five years of experience investing in the securities and obligations authorized in subdivisions (a) to (q), inclusive. (3) The adviser has assets under management in excess of five hundred million dollars ($500,000,000).

(r) **Supranational Debt.** United States dollar denominated senior unsecured unsubordinated obligations issued or unconditionally guaranteed by the International Bank for Reconstruction and Development, International Finance Corporation, or Inter-American Development Bank, with a maximum remaining maturity of five years or less, and eligible for purchase and sale within the United States. Investments under this subdivision shall be rated in a rating category of "AA" or its equivalent or better by an NRSRO and shall not exceed 30% of the portfolio.

Credit criteria listed in this section refers to the credit quality of the issuing organization at the time the security is purchased. The maturity limits are applied at the time of purchase. A security purchased in accordance with this Policy shall not have a forward settlement date exceeding 45 days from the time of investment.

VI. INELIGIBLE INVESTMENTS

The City may only invest in those obligations authorized by this policy. The City shall not invest any funds in inverse floaters, range notes, or interest-only strips that are derived from a pool of mortgages, or in any security that could result in zero interest accrual if held to maturity. However, the City may hold prohibited investments until their maturity dates.

Notwithstanding the prohibition in the above paragraph, the City may invest in securities issued by, or backed by, the United States government that could result in zero- or negative-interest accrual if held to maturity, in the event of, and for the duration of, a period of negative market interest rates. The City may hold these instruments until their maturity dates. This paragraph shall remain in effect only until January 1, 2026, and as of that date is repealed.

VII. PORTFOLIO LIMITS AND DIVERSIFICATION

1. **Maximum Investment Maturity**: Unless otherwise noted within this investment policy, the City may not invest in a security with a maturity that exceeds five years from the date of purchase. For purposes of compliance with this Policy, an investment's term or remaining maturity shall be measured from the settlement date to final maturity. Investments which exceed five years in maturity require authority granted by City Council before purchase. Written authority of the City Council must be granted specifically or as part of an investment program no less than three months prior to the date of purchase.

2. **Maximum Weighted Average Maturity:** The maximum weighted average maturity of

the City's investment portfolio shall not exceed 3 years to control overall exposure to interest rate risk.

3. **Diversification:** With the exception of obligations of the United States Government and its Agencies and authorized investment pools, no more than 10% of the portfolio may be invested in the securities of any single issuer, regardless of sector. For certain investment types, a 5% issuer limit is imposed and is stated in the investment description in the Authorized Investment section.

Adopted on the ~~1st~~ 21st day of June, ~~2022~~ 2023 by the Ukiah City Council.

Memorandum

To: Dan Buffalo, Finance Director
Members of the Investment Oversight Committee
City of Ukiah

From: Monique Spyke, Managing Director
Wale Kajopaiye, AAMS, AIF, Senior Managing Consultant
PFM Asset Management LLC

RE: 2023 Investment Policy Review

PFM Asset Management LLC has completed its review of the City of Ukiah's June 2022 Investment Policy (the "Policy"). At this time, we are recommending Policy changes in response to changes to California Government Code (the "Code") that went into effect on January 1, 2023, following the passage of Senate Bill 1489 ("SB 1489") in September 2022. Below, we have summarized the Code changes resulting in Policy recommendations. We have also attached a marked-up version of the City's Policy to illustrate our recommendations.

Senate Bill 1489, also known as the Local Government Omnibus Act of 2022, made a number of changes to Code, including several that impact the investment of public funds. Changes made to Code section 53601, the section of Code that governs the investment of public funds, include the addition of language stating that an investment's term or remaining maturity shall be measured from the settlement date to final maturity, and, that a security purchased in accordance with Code section 53601 shall not have a forward settlement date exceeding 45 days from the time of investment. Previously, Code was silent on both items.

- To address the new Code language regarding forward settlement, we recommend adding the new Code language to the final paragraph of Policy section *V. Authorized Investments.*
- To address the new Code language regarding calculating a security's term to maturity, we recommend adding the new Code language to Policy section *VII. 1. Maximum Investment Maturity.*

Please let us know if you'd like to schedule a call to discuss our recommendations or to answer any questions you may have. Thank you.

Agenda Item No: 4.b.

MEETING DATE/TIME: 6/21/2023

ITEM NO: 2023-2816

City of Ukiah

AGENDA SUMMARY REPORT

SUBJECT: Emergency Preparedness and Prevention Presentation

DEPARTMENT: City Manager / Admin

PREPARED BY: Traci Boyl, Management Analyst

PRESENTER: Traci Boyl, Senior Analyst to the City Manager's Office

ATTACHMENTS:
None

Summary: The City of Ukiah Office of Emergency Management will provide a presentation and overview of the City's current preparedness activities, prevention efforts, and community resources.

Background: The City of Ukiah Office of Emergency Management (OEM) coordinates with Ukiah Police, Ukiah Valley Fire Authority, City staff, partner agencies, businesses, and the community to prepare for, respond to, and mitigate hazards, to successfully recover from emergencies and disasters when they occur. In an effort to always be ready, the Office of Emergency Management coordinates training events; coordinates, prepares, and distributes preparedness communication; partners with City staff and partner agencies to apply for mitigation, recovery, and preparedness funding; and develops and maintains partnerships with stakeholders to ensure timely, coordinated response and recovery to disasters and emergencies.

Discussion: As a part of the ongoing community preparedness program, the Office of Emergency Management will provide a presentation and update of the current preparedness activities, an overview of updated technology and resources, current mitigation projects, and community resources.

Recommended Action: Receive presentation.

Agenda Item No: 8.b.

MEETING DATE/TIME: 6/21/2023

ITEM NO: 2023-2759

City of Ukiah

AGENDA SUMMARY REPORT

SUBJECT: Authorization for the City Manager to Terminate Existing Contract with Welty, Weaver, and Currie, and Negotiate and Execute a Contract for Specialty Legal Services with Philip A. Williams.

DEPARTMENT: City Attorney

PREPARED BY: Darcy Vaughn, Assistant City Attorney

PRESENTER: Darcy Vaughn, Assistant City Attorney

ATTACHMENTS:

1. Welty, Weaver ad Currie 2019-08-13
2. Ukiah Consultant Contract Williams Scope of Services Attachment A

Summary: Council will consider authorizing the City Manager to terminate the existing contract with Welty, Weaver, and Currie, and to negotiate and execute a contract for specialty legal services with Philip A. Williams.

Background: On March 29, 2017, the Water Resources Department held a Water Supply Planning Workshop. At that workshop, Staff was directed to retain specialty counsel for water supply planning and related issues. On February 20, 2019, the City entered into a contract with the firm of Briscoe, Ivester, and Bazel to utilize the services of Philip Williams. On or about August 7, 2019, the City terminated the contract with Briscoe, Ivester, and Bazel and entered into a contract with the firm of Welty, Weaver, and Currie to utilize the services of Philip Williams (Attachment #1).

Discussion: Phillip A. Williams, who has been providing specialty legal services to the City since 2019, is leaving the firm of Welty, Weaver, and Currie to open his own office in Ukiah. Staff recommends terminating the existing contract with Welty, Weaver, and Currie, and entering a contract with Mr. Williams as a solo practitioner to continue utilization of his expertise. The draft scope in substantial form for Mr. William's services is included for review as Attachment #2. Note, the rates for the services are the same as the existing contract, and a minor revision in scope has been made and denoted in redline. The legal services will be used on an as-needed basis, and contingent upon available budgeted funds each fiscal year.

Recommended Action: Authorize the City Manager to Terminate Existing Contract with Welty, Weaver, and Currie, and Negotiate and Execute a Contract for Specialty Legal Services with Philip A. Williams.

COU No. 1920-105

AGREEMENT FOR PROFESSIONAL CONSULTING SERVICES

This Agreement, made and entered into this 13th day of August, 2019 ("Effective Date"), by and between CITY OF UKIAH, CALIFORNIA, hereinafter referred to as "City" and Welty, Weaver and Currie, a limited liability partnership, organized and in good standing under the laws of the state of California, hereinafter referred to as "Consultant" or "Attorney".

RECITALS

This Agreement is predicated on the following facts:

a. City requires consulting services related to providing strategic counsel and legal advice on land use planning efforts by the City's Water Resources Department, including issues related to water and natural resources.

b. Consultant represents that it has the qualifications, skills, experience and properly licensed to provide these services, and is willing to provide them according to the terms of this Agreement.

c. City and Consultant agree upon the Scope-of-Work and Work Schedule attached hereto as Attachment "A", describing contract provisions for the project and setting forth the completion dates for the various services to be provided pursuant to this Agreement.

TERMS OF AGREEMENT

1.0 DESCRIPTION OF PROJECT

1.1 The Project is described in detail in the attached Scope-of-Work (Attachment "A").

2.0 SCOPE OF SERVICES

2.1 As set forth in Attachment "A".

2.2. Additional Services. Additional services, if any, shall only proceed upon written agreement between City and Consultant. The written Agreement shall be in the form of an Amendment to this Agreement.

3.0 CONDUCT OF WORK

3.1 Time of Completion. Consultant shall commence performance of services as required by the Scope-of-Work upon receipt of a Notice to Proceed from City and shall complete services as requested to the City's reasonable satisfaction, even if contract disputes arise or Consultant contends it is entitled to further compensation.

4.0 COMPENSATION FOR SERVICES

4.1 Basis for Compensation. For the performance of the professional services of this Agreement, Consultant shall be compensated on a time and expense basis. Labor charges shall be based upon hourly billing rate by Consultant to perform the Scope of Work as set forth in the attached Attachment "A", which shall include all indirect costs and

expenses of every kind or nature. The direct expenses and the fees to be charged for same shall be as set forth in Attachment "A".

4.2 Changes. Should changes in compensation be required because of changes to the Scope-of-Work of this Agreement, the parties shall agree in writing to any changes in compensation. "Changes to the Scope-of-Work" means different activities than those described in Attachment "A" and not additional time to complete those activities than the parties anticipated on the date they entered this Agreement.

4.3 Sub-contractor Payment. The use of sub-consultants or other services to perform a portion of the work of this Agreement shall be approved by City prior to commencement of work. The cost of sub-consultants shall be included within guaranteed not-to-exceed amount set forth in Section 4.1.

4.4 Terms of Payment. Payment to Consultant for services rendered in accordance with this contract shall be based upon submission of monthly invoices for the work satisfactorily performed prior to the date of the invoice less any amount already paid to Consultant, which amounts shall be due and payable thirty (30) days after receipt by City. The invoices shall provide a description of each item of work performed, the time expended to perform each task, the fees charged for that task, and the direct expenses incurred and billed for. Invoices shall be accompanied by documentation sufficient to enable City to determine progress made and to support the expenses claimed.

5.0 ASSURANCES OF CONSULTANT

5.1 Independent Contractor. Consultant is an independent contractor and is solely responsible for its acts or omissions. Consultant (including its agents, servants, and employees) is not the City's agent, employee, or representative for any purpose.

It is the express intention of the parties hereto that Consultant is an independent contractor and not an employee, joint venturer, or partner of City for any purpose whatsoever. City shall have no right to, and shall not control the manner or prescribe the method of accomplishing those services contracted to and performed by Consultant under this Agreement, and the general public and all governmental agencies regulating such activity shall be so informed.

Those provisions of this Agreement that reserve ultimate authority in City have been inserted solely to achieve compliance with federal and state laws, rules, regulations, and interpretations thereof. No such provisions and no other provisions of this Agreement shall be interpreted or construed as creating or establishing the relationship of employer and employee between Consultant and City.

Consultant shall pay all estimated and actual federal and state income and self-employment taxes that are due the state and federal government and shall furnish and pay worker's compensation insurance, unemployment insurance and any other benefits required by law for himself and his employees, if any. Consultant agrees to indemnify and hold City and its officers, agents and employees harmless from and against any claims or demands by federal, state or local government agencies for any such taxes or benefits due but not paid by Consultant, including the legal costs associated with defending against any audit, claim, demand or law suit.

Consultant warrants and represents that it is a properly licensed professional or professional organization with a substantial investment in its business and that it maintains its own offices and staff which it will use in performing under this Agreement.

5.2 Conflict of Interest. Consultant understands that its professional responsibility is solely to City. Consultant has no interest and will not acquire any direct or indirect interest that would conflict with its performance of the Agreement. Consultant shall not in the performance of this Agreement employ a person having such an interest. If the City Manager determines that the Consultant has a disclosure obligation under the City's local conflict of interest code, the Consultant shall file the required disclosure form with the City Clerk within 10 days of being notified of the City Manager's determination.

6.0 INDEMNIFICATION

6.1 Insurance Liability. Consultant shall not begin work under this Agreement until it procures and maintains for the full period of time allowed by law, surviving the termination of this Agreement insurance against claims for injuries to persons or damages to property, which may arise from or in connection with its performance under this Agreement.

A. Minimum Scope of Insurance

Coverage shall be at least as broad as:

1. Insurance Services Office ("ISO) Commercial General Liability Coverage Form No. CG 20 10 10 01 and Commercial General Liability Coverage – Completed Operations Form No. CG 20 37 10 01.

2. ISO Form No. CA 0001 (Ed. 1/87) covering Automobile Liability, Code 1 "any auto" or Code 8, 9 if no owned autos and endorsement CA 0025.

3. Worker's Compensation Insurance as required by the Labor Code of the State of California and Employers Liability Insurance.

4. Errors and Omissions liability insurance appropriate to the consultant's profession. Architects' and engineers' coverage is to be endorsed to include contractual liability.

B. Minimum Limits of Insurance

Consultant shall maintain limits no less than:

1. General Liability: $1,000,000 combined single limit per occurrence for bodily injury, personal injury and property damage including operations, products and completed operations. If Commercial General Liability Insurance or other form with a general aggregate limit is used, the general aggregate limit shall apply separately to the work performed under this Agreement, or the aggregate limit shall be twice the prescribed per occurrence limit.

2. Automobile Liability: $1,000,000 combined single limit per accident for bodily injury and property damage.

3. Worker's Compensation and Employers Liability: Worker's compensation limits as required by the Labor Code of the State of California and Employers Liability limits of $1,000,000 per accident.

4. Errors and Omissions liability: $1,000,000 per occurrence.

C. Deductibles and Self-Insured Retentions

Any deductibles or self-insured retentions must be declared to and approved by the City. At the option of the City, either the insurer shall reduce or eliminate such deductibles or self-insured retentions as respects to the City, its officers, officials, employees and volunteers; or the Consultant shall procure a bond guaranteeing payment of losses and related investigations, claim administration and defense expenses.

D. Other Insurance Provisions

The policies are to contain, or be endorsed to contain, the following provisions:

1. General Liability and Automobile Liability Coverages

a. The City, it officers, officials, employees and volunteers are to be covered as additional insureds as respects; liability arising out of activities performed by or on behalf of the Consultant, products and completed operations of the Consultant, premises owned, occupied or used by the Consultant, or automobiles owned, hired or borrowed by the Consultant for the full period of time allowed by law, surviving the termination of this Agreement. The coverage shall contain no special limitations on the scope-of-protection afforded to the City, its officers, officials, employees or volunteers.

b. The Consultant's insurance coverage shall be primary insurance as respects to the City, its officers, officials, employees and volunteers. Any insurance or self-insurance maintained by the City, its officers, officials, employees or volunteers shall be in excess of the Consultant's insurance and shall not contribute with it.

c. Any failure to comply with reporting provisions of the policies shall not affect coverage provided to the City, its officers, officials, employees or volunteers.

d. The Consultant's insurance shall apply separately to each insured against whom claim is made or suit is brought, except with respect to the limits of the insurer's liability.

2. Worker's Compensation and Employers Liability Coverage

The insurer shall agree to waive all rights of subrogation against the City, its officers, officials, employees and volunteers for losses arising from Consultant's performance of the work, pursuant to this Agreement.

3. Professional Liability Coverage

If written on a claims-made basis, the retroactivity date shall be the effective date of this Agreement. The policy period shall extend one year from date of final invoice.

4. All Coverages

Each Insurance policy required by this clause shall be endorsed to state that coverage shall not be suspended, voided, canceled by either party, reduced in coverage or in limits except after thirty (30) days prior written notice by certified mail, return receipt requested, has been given to the City.

E. Acceptability of Insurers

Insurance is to be placed with admitted California insurers with an A.M. Best's rating of no less than A- for financial strength, AA for long-term credit rating and AMB-1 for short-term credit rating.

F. Verification of Coverage

Consultant shall furnish the City with Certificates of Insurance and with original Endorsements effecting coverage required by this Agreement. The Certificates and Endorsements for each insurance policy are to be signed by a person authorized by that insurer to bind coverage on its behalf. The Certificates and Endorsements are to be on forms provided or approved by the City. Where by statute, the City's Workers' Compensation - related forms cannot be used, equivalent forms approved by the Insurance Commissioner are to be substituted. All Certificates and Endorsements are to be received and approved by the City before Consultant begins the work of this Agreement. The City reserves the right to require complete, certified copies of all required insurance policies, at any time. If Consultant fails to provide the coverages required herein, the City shall have the right, but not the obligation, to purchase any or all of them. In that event, the cost of insurance becomes part of the compensation due the contractor after notice to Consultant that City has paid the premium.

G. Subcontractors

Consultant shall include all subcontractors or sub-consultants as insured under its policies or shall furnish separate certificates and endorsements for each sub-contractor or sub-consultant. All coverage for sub-contractors or sub-consultants shall be subject to all insurance requirements set forth in this Paragraph 6.1.

7.0 CONTRACT PROVISIONS

7.1 Ownership of Work. All documents furnished to Consultant by City and all documents or reports and supportive data prepared by Consultant under this Agreement are owned and become the property of the City upon their creation and shall be given to City immediately upon demand and at the completion of Consultant's services at no additional cost to City. Deliverables are identified in the Scope-of-Work, Attachment "A". All documents produced by Consultant shall be furnished to City in digital format and hardcopy. Consultant shall produce the digital format, using software and media approved by City.

7.2 Governing Law. Consultant shall comply with the laws and regulations of the United States, the State of California, and all local governments having jurisdiction over this Agreement. The interpretation and enforcement of this Agreement shall be governed by California law and any action arising under or in connection with this Agreement must be filed in a Court of competent jurisdiction in Mendocino County.

7.3 Entire Agreement. This Agreement plus its Attachment(s) and executed Amendments set forth the entire understanding between the parties.

7.4 Severability. If any term of this Agreement is held invalid by a court of competent jurisdiction, the remainder of this Agreement shall remain in effect.

7.5 Modification. No modification of this Agreement is valid unless made with the agreement of both parties in writing.

7.6 Assignment. Consultant's services are considered unique and personal. Consultant shall not assign, transfer, or sub-contract its interest or obligation under all or any portion of this Agreement without City's prior written consent.

7.7 Waiver. No waiver of a breach of any covenant, term, or condition of this Agreement shall be a waiver of any other or subsequent breach of the same or any other covenant, term or condition or a waiver of the covenant, term or condition itself.

7.8 Termination. This Agreement may be terminated upon written notice by either party to the other party. A party shall notify the other party of any alleged breach of the Agreement and of the action required to cure the breach. If the breaching party fails to cure the breach within the time specified in the notice, the contract shall be terminated as of that time. If terminated for lack of funds or abandonment of the project, the contract shall terminate on the date notice of termination is given to Consultant. City shall pay the Consultant only for services performed and expenses incurred as of the effective termination date. In such event, as a condition to payment, Consultant shall provide to City all finished or unfinished documents, data, studies, surveys, drawings, maps, models, photographs and reports prepared by the Consultant under this Agreement. Consultant shall be entitled to receive just and equitable compensation for any work satisfactorily completed hereunder, subject to off-set for any direct or consequential damages City may incur as a result of Consultant's breach of contract.

7.9 Execution of Agreement. This Agreement may be executed in duplicate originals, each bearing the original signature of the parties. Alternatively, this Agreement may be executed and delivered by facsimile or other electronic transmission, and in more than one counterpart, each of which shall be deemed an original, and all of which together shall constitute one and the same instrument. When executed using either alternative, the executed agreement shall be deemed an original admissible as evidence in any administrative or judicial proceeding to prove the terms and content of this Agreement.

8.0 NOTICES

Any notice given under this Agreement shall be in writing and deemed given when personally delivered or deposited in the mail (certified or registered) addressed to the parties as follows:

ATTACHMENT A – SCOPE OF WORK & FEE SCHEDULE

MATTER: City of Ukiah Water Rights

Scope of Work

Work will be performed as needed, and include providing strategic counsel and legal advice on land use planning efforts by the City, including issues related to water and natural resources. Work will also include engaging with Mendocino Local Agency Formation Commission (LAFCo), local water agencies, other special districts and government entities in the Ukiah Valley to arrive at durable solutions for sustainable growth and municipal service delivery.

Fee Schedule

Legal services will be provided by the following individuals at the following rates:

Billing Attorney:	Philip A. Williams
Billing Rate:	$350 an hour, billed at 15 minute increments.
Travel Rate:	$200 an hour, billed at 15 minute increments, minus first 45 minutes of each one-way trip.

Additional persons may be authorized to perform services only upon written amendment to this Agreement.

MATTER: General Water Resources and Land Use Counsel

Scope of Work

Provide legal counsel and representation in variety of issues related to water management and land resource use: manage the City's efforts, attend meetings and workshops, and represent the City before local and state agencies and commissions on issues related to resources, services and jurisdiction.

Fee Schedule

Legal services will be provided by the following individuals at the following rate tiers:

Billing Attorney:	Philip A. Williams
Billing Rate:	Tier 1: $300 an hour, first 25 hours/month Tier 2: $250 an hour, 26-55 hours/month Tier 3: $200 an hour, 56 hours or more/month
Travel Rate:	$200 an hour, billed at 15 minute increments, minus first 45 minutes of each one-way trip.

Additional persons may be authorized to perform services only upon written amendment to this Agreement.

ADDITIONAL TERMS

The following provisions supplement the terms of the agreement. In any conflict between the agreement and these additional terms, the following terms prevail.

HOURLY RATES. Attorney will bill hourly rates at actual time with no minimum time. Attorney will be entitled to reimbursement at $.50/mile for use of a private automobile.

COSTS & EXPENSES. In addition to paying legal fees, City shall reimburse Attorney for all costs and expenses incurred by Attorney, including but not limited to, process servers' fees, fees fixed by law or assessed by courts or other agencies, court reporters' fees, long distance telephone calls, messenger and other delivery fees, investigation expenses authorized in advance by City, consultants' fees, expert witness fees and other similar items authorized in advance by City.

STATEMENTS. Attorney shall send City statements for fees and costs incurred, on a monthly or as needed basis. Statements shall state the date of each service, the name and hourly rate of the professional performing the service, a description of the service performed, and the amount of time devoted to each item. Expenses payable by City will be itemized. City shall pay Attorney's statements within thirty (30) days after each statement's date, unless disputed by City. Statements shall be final and conclusive as between the parties unless any problem or disagreement is communicated from City to Attorney within twenty (20) days after rendition.

DISCHARGE & WITHDRAWAL. City may discharge Attorney at any time. Attorney may withdraw with City's consent for good cause. Good cause includes City's breach of this Contract, City's refusal to cooperate with Attorney or to follow Attorney's advice on a material matter or any other fact or circumstance that would render Attorney's continuing representation unlawful or unethical.

CONCLUSION OF SERVICES. When Attorneys' services conclude, all unpaid undisputed charges shall become immediately due and payable. After Attorney's services conclude, Attorney will, upon City's request, deliver to City any City funds or property in Attorney's possession, including any files or documents produced or possessed by Attorney as a result of Attorney's representation of City.

DISCLAIMER OF GUARANTEE. Nothing in this Contract and nothing in Attorney's statements to City will be construed as a promise or guarantee about the outcome of City's matter. Attorney makes no such promises or guarantees. Attorney's comments about the outcome of City's matter are expressions of opinion only.

Agenda Item No: 8.c.

MEETING DATE/TIME: 6/21/2023

ITEM NO: 2023-2776

City of Ukiah

AGENDA SUMMARY REPORT

SUBJECT: Adoption of Plans and Specifications for the Ukiah Electric Utility Fire Mitigation Undergrounding Project, Specification No. 23-08 to Underground 12kV Primary Conductor in Various Areas on the Western Side of the City of Ukiah.

DEPARTMENT: Electric Utility **PREPARED BY:** Sonu Upadhyay, Senior Power Engineer

PRESENTER: Sonu Upadhyay, Senior Power Engineer

ATTACHMENTS:

1. Spec 23-08 - Ukiah Electric Utility Fire Mitigation Undergrounding Project
2. Project Drawings Combined
3. Engineer Estimates Combined

Summary: Council will consider adopting Plans and Specifications, Specification No. 23-08, for the Electric Utility Fire Mitigation Undergrounding Project, to reduce potential sources of ignition along critical electric utility line corridors on the west side of the City of Ukiah by undergrounding more than one mile of primary overhead wires and equipment to minimize the risk of wildfire.

Background: Ukiah is at high risk of wildland-urban interface fires, with high fuel loads adjacent to the city limits. In 2018, the Mendocino Complex Fire burned in northern California for more than three months. It consisted of two wildfires, the River Fire and Ranch Fire, which burned in Mendocino, Lake, Colusa, and Glenn Counties. Both fires burned dangerously close to the city limits. Prior to 2018, the Redwood Complex Fire burned just nine miles from downtown Ukiah. Any major wind shifts with these three fires could have been catastrophic for more than 16,000 residents and hundreds of businesses and community services in Ukiah. Despite current efforts by CAL FIRE to mitigate these hazards, the mixed oak woodland and chaparral ecosystems of the western hills still present a high fire risk.

On February 11, 2022, the California Office of Emergency Services (CalOES) approved Hazard Mitigation Grant Program (HMGP) funds for the City of Ukiah in the amount of $3,613,567. The fundamental mitigation goal of the grant is to reduce the impact of wildland fire on Ukiah's critical electric power infrastructure through the implementation of hazardous fuel reduction activities and undergrounding vulnerable overhead lines. This project will address the undergrounding portion of the grant.

As part of the grant application process, Staff evaluated areas west of Dora Street for the feasibility of advanced vegetation management versus undergrounding. Several criteria were used to identify locations for undergrounding, including the presence of heritage trees. Three areas were designated for undergounding; West Standley, Barnes Street and Park Boulavard. See Specification No. 23-08 for review as Attachment 1.

Discussion: Please refer to Attachment 1 for Project Specifications, Attachment 2 for Project Drawings, and Attachment 3 for the Engineer's Estimate. The total cost for Ukiah Electric Utility Fuel Reduction and Undergrounding project is estimated at $4,818,090. The federal share covers 75% of the total project cost and the Electric Utility covers the remaining 25% of the project cost.

Of the total available funds, approximately $4,710,000 is estimated to go towards the undergrounding portion of the project. Approximately 7,000 feet of overhead 12kV primary lines and related equipment will be

undergrounded, leaving only secondary power and communication overhead. This project will consist of trenching, backfilling, compacting, installing underground conduits for electric primary and and associated equipment for the underground duct system.

The project is budgeted in the FY-24 Capital Improvement Plan. Staff recommends approval of plans and specifications for the Ukiah Electric Utility Fuel Reduction and Undergrounding project.

Recommended Action: Adopt Plans and Specifications for the Ukiah Electric Utility Fire Mitigation Undergrounding Project, Specification No. 23-08 to Underground 12kV Primary Conductor in Various Areas on the Western Side of the City of Ukiah.

BUDGET AMENDMENT REQUIRED: No

CURRENT BUDGET AMOUNT: 80126100.80230.18260; $4,750,000

PROPOSED BUDGET AMOUNT: N/A

FINANCING SOURCE: Series 2022 Electric Revenue Bonds with 75% being reimbursed through the Hazard Mitigation Grant Program (HMGP)

Plans and Special Provisions may be inspected and/or copies obtained from the City's website at www.cityofukiah.com/purchasing. No bid will be considered unless it is made on the forms furnished by the City and is made in accordance with the details of the Special Provisions. Each bidder must be licensed as required by law. Further information regarding the work or these specifications can be obtained by calling Mary Horger, Procurement Manager at (707) 463-6233 or by email at mhorger@cityofukiah.com.

The City Council reserves the right to reject any or all bids and to determine which proposal is, in its opinion, the lowest responsive bid by a responsible bidder and which it deems in the best interest of the City to accept. The City Council also reserves the right, but not the obligation, to waive any irregularity or failure to strictly comply with the bidding requirements, that the City determines in the reasonable exercise of its discretion does not provide the bidder with a competitive advantage over other bidders.

No contractor or subcontractor may be listed on a bid proposal for a public works unless registered with the Department of Industrial Relations ("DIR") pursuant to Labor Code section 1725.5 except as allowed. under Labor Code section 1771.1(aThe prime contractor shall be responsible for posting job site notices as prescribed by regulation. This project is subject to compliance monitoring and enforcement by the DIR.

Pursuant to provisions of Section 1770, including amendments thereof, of the Labor Code of the State of California, the DIR Director has ascertained the general prevailing rate of wages for straight time, overtime, Saturdays, Sundays and Holidays including employer payment for health and welfare, vacation, pension and similar purposes for the City of Ukiah. Copies of his General Prevailing Wage Determination are available on the Internet at web address: http://www.dir.ca.gov/DLSR/PWD/ The prime contractor for the work herein shall possess a current, valid State of California, Class A (General Engineering) or Class C-10 (Electrical) Contractor's License. Pursuant to California Public Contract Code §22300, this contract includes provisions that allow substitutions of

DRAFT

INSTRUCTIONS TO BIDDERS

UKIAH ELECTRIC UTILITY FIRE MITIGATION UNDERGROUNDING PROJECT shall be performed in accordance with the Plans and Special Provisions therefor adopted, to which special reference is hereby made.

Each bidder must supply all the information required by the bid documents and Special Provisions.

Minority business enterprises will be afforded full opportunity to submit bids in response to this invitation and will not be discriminated against on the grounds of race, color or national origin in consideration for an award of any contract entered into pursuant to this advertisement. Women will be afforded equal opportunity in all areas of employment. However, the employment of women shall not diminish the standards or requirements for the employment of minorities.

All proposals or bids shall be accompanied by a cashier's check or certified check payable to the order of the City of Ukiah amounting to 10 percent of the bid, or by a bond in said amount and signed by the bidder and a corporate surety, payable to said City. Said check shall be forfeited, or said bond shall become payable to said City in case the bidder depositing the same does not, within fifteen (15) days after written notice that the contract has been awarded to him: (a) enter into a contract with the City and (b) furnish certificates of insurance and endorsements, a bond of faithful performance and a payment bond as described in the Special Provisions.

No bidder shall withdraw his or her bid for a period of thirty (30) calendar days after the date set by the City for the opening thereof.

The Contractor and any subcontractors shall each possess a valid City of Ukiah Business License prior to the start of any work.

The Contractor shall furnish a project schedule to the Engineer prior to the start of any work and start work as scheduled.

The work is to be completed within ONE HUNDRED AND EIGHTY (180) calendar days. The Contractor will pay to the City the sum of five hundred ($500.00) dollars per day for each and every calendar days delay beyond the time prescribed.

The staff shall notify a bidder by telephone, email, or fax, if it intends to recommend the rejection of the bidder's bid. Any bid protest must be filed with the City Clerk not more than five calendar days following the bid opening, or 2 calendar days following notice that staff is recommending the rejection of a bid. If any such timely written protest is filed, all bidders shall be provided a copy of the protest within 2 calendar days of its receipt, which may be delivered to the bidders as an email attachment or by fax. All such bidders may file with the City Manager a written objection or other response to the protest.

All objections or responses filed not more than 5 days after receipt of the written protest will be presented to the City Council at its next regular meeting occurring not less than 12 calendar days following the bid opening. The City Council will resolve the bid protest at that meeting based on the written protest, any staff recommendation and all timely written objections and responses. In accordance with the Brown Act, any person may address the City Council on this item during the meeting. The City Council action on the protest shall represent a final decision by the City on the protest.

Examination of Site, Drawings, Etc.

Each bidder shall visit the site of the proposed work and fully acquaint himself with local conditions, construction and labor required so that he or she may fully understand the facilities, difficulties and restrictions attending the execution of the work under the Contract. Bidders shall thoroughly examine and be familiar with the Plans and Special Provisions. The failure of any bidder to receive or examine any form, instrument, addendum, or other document, or to visit the site and acquaint himself with conditions there existing, shall in no way relieve the bidder from any obligation with respect to his or her proposal or to the contract. The drawings for the work show conditions as they are supposed or believed by the Engineer to exist; but, it is neither intended nor shall it be inferred that the conditions as shown thereon constitute a representation by the Engineer, the City or its officers that such conditions are actually existent, nor shall the City, the Engineer or any of their officers or representatives

be liable for any loss sustained by the Contractor as a result of a variance between the conditions shown on the drawings and the conditions actually revealed during the progress of the work or otherwise.

The bidder's attention is directed to the possible existence of obstructions and public improvements within the limits of the work or adjacent thereto, which may or may not be shown on the Drawings. Any bid shall take into consideration that conditions may exist underground or otherwise that are not known to the City or easily detected during a site inspection that could impact the time or cost of completing the project. The City expects the bids to anticipate such conditions so that it can know for budgeting and other purposes the total cost to complete the project before accepting a bid and undertaking the legal obligation to construct the project. In awarding the contract the City relies on the contractor's representation that its bid anticipates differing site conditions and the additional time or cost that such conditions may necessitate.

The bidder shall investigate to his or her satisfaction the conditions to be encountered, the character, quality and quantities of work to be performed and materials to be furnished and the requirements of the Plans, Special Provisions, Standard Specifications, Standard Plans, and Contract Documents. The submission of a proposal shall be considered conclusive evidence that the bidder has made such examination and has accepted the project workplace as a safe workplace to perform the work of the Contract.

Bidder Inquiries and Questions

Inquiries and questions must be submitted in writing via email to the following designated contact person:

Mary Horger, Financial Services Manager
Email: mhorger@cityofukiah.com

The City reserves the right to not respond to inquiries or questions submitted within 3 business days of the bid opening.

Location of the Work

All of the work to be performed is within the City of Ukiah. Project is located at BID ITEM #1 – 1200 BLOCK OF WEST STANDLEY STREET, BID ITEM #2 – NORTH BARNES STREET AND PARK BOULVARD, BID ITEM #3 – 12OO BLOCK OF STANDLEY AND GIORNO AVENUE IN UKIAH CA.

DRAFT

GENERAL CONDITIONS

SECTION 1. PROPOSAL REQUIREMENTS AND GENERAL CONDITIONS

1-01. Definitions. Whenever any word or expression defined in this section, or pronoun used in its stead, occurs in these contract documents, it shall have and is mutually understood to have the meaning given:

a. "City of Ukiah" or "City" shall mean the City of Ukiah, Mendocino County, California, acting through its City Council or any other board, body, official or officials to which or to whom the power belonging to the Council shall by virtue of any act or acts, hereafter pass or be held to appertain.

b. "Engineer" shall mean the Engineer duly and officially appointed by the City to supervise and direct the work of construction under this contract, acting personally or through agents or assistants duly authorized by him, such agents or assistants acting within the scope of the particular duties entrusted to them.

c. "Inspector" shall mean the engineering or technical inspector or inspectors duly authorized or appointed by the Engineer, limited to the particular duties entrusted to him or her or them.

d. "Contractor" shall mean the party entering into contract with the City of Ukiah for the performance of work covered by this contract and his or her authorized agents or legal representatives.

e. "Date of signing of contract" or words equivalent thereto, shall mean the date upon which this contract, with the signature of the Contractor affixed, together with the prescribed bonds, shall be or shall have been delivered to the City or its duly authorized representatives.

f. "Day" or "days", unless herein otherwise expressly defined, shall mean a calendar day or days of twenty-four hours each.

g. "The work" shall mean and include all the work specified, indicated, shown or contemplated in the contract to construct the improvement, including all alterations, amendments or extensions thereto made by contract change order or other written orders of the Engineer.

h. "Contract drawings", "drawings", "plans" shall mean and include 1) all drawings or plans which may have been prepared by or on behalf of the City, as a basis for proposals, when duly signed and made a part of this contract by incorporation or reference, 2) all drawings submitted in pursuance of the terms of this contract by the successful bidder with his or her proposal and by the Contractor to the City if and when approved by the Engineer and 3) all drawings submitted by the Engineer to the Contractor during the progress of the work as provided for herein.

i. Where "as shown", "as indicated", "as detailed" or words of similar import are used, it shall be understood that reference to the drawings accompanying these Special Provisions is made unless stated otherwise.

Where "as directed", "as permitted", "approved" or words of similar import are used, it shall be understood that the direction, requirements, permission, approval or acceptance of the Engineer is intended unless stated otherwise.

As used herein, "provide" or "install" shall be understood to mean "provide or install complete in place", that is, "furnish and install". "Shall" is mandatory; "may" is permissive.

1-02. Examination of Plans, Special Provisions and Site of Work. The bidder shall examine carefully the Proposal, Plans, Special Provisions, Contract forms and the site of the work contemplated therefor. It will be assumed that the bidder has investigated to his or her satisfaction the conditions to be encountered and the character, quality and requirements of all Plans, Special Provisions, Standard Specifications, and Standard Plans involved.

1-03. Proposal. Bids shall be made on the blank forms prepared by the City. All bids shall give the prices bid, both in writing and in figures and shall be signed by the bidder or his or her authorized representative, with his or her address. If the bid is made by an individual or partner, his or her name and the post office address of his or her business or partnership, along with his or her signature or the signature of one or more partners must be shown; if made by a corporation, the bid shall show the name of the state under the laws of which the corporation is chartered, the name of the corporation and the title of the person who signs on behalf of the corporation.

Each proposal shall be enclosed in a sealed envelope, endorsed as specified in the notice to bidders. Bidders are warned against making erasures or alterations of any kind and proposals which contain omissions, erasures, conditions, alterations, additions not called for, additional proposals or irregularities of any kind may be rejected.

1-04. Withdrawal of Bids. Any bid may be withdrawn at any time prior to the hour fixed in the notice to bidders for the openings of bids, provided that a request in writing, executed by the bidder or his or her duly authorized representative, for the withdrawal of such bid is filed with the City. The withdrawal of a bid will not prejudice the right of a bidder to file a new bid.

1-05. Public Opening of Bids. Bids will be opened and read publicly at the time and place indicated in the notice to bidders. Bidders or their agents are invited to be present.

1-06. Bid Guaranty. Each bid must be accompanied by a certified check, cashier's check or bidder's bond executed by an admitted surety insurer, payable to the order of the City of Ukiah in an amount not less than 10 percent of the bid as a guarantee that the bidder will enter into a contract, if awarded the work.

1-07. Qualification of Bidders. No contractor or subcontractor may be listed on a bid proposal for a public works project (submitted on or after March 1, 2015) unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5 [with limited exceptions from this requirement for bid purposes only under Labor Code section 1771.1(a)]. No contractor or subcontractor may be awarded a contract for public work on a public works project (awarded on or after April 1, 2015) unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. The prime contractor shall be responsible for posting job site notices as prescribed by regulation. This project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

Each bidder shall be licensed under the provisions of Chapter 9, Division 3 of the Business and Professions Code and shall be skilled and regularly engaged in the general class or type of work called for under this contract. A statement setting forth this experience and business standing shall be submitted by each bidder on the form provided herewith. It is the intention of the City to award a contract only to a bidder who furnishes satisfactory evidence that he or she has the requisite experience and ability and that he or she has sufficient capital, facilities and equipment to enable him or her to prosecute the work successfully and promptly within the time and in the manner agreed.

In determining the degree of responsibility to be credited to a bidder, the City may weigh evidence that the bidder or his or her personnel charged with the responsibility in the work, has performed satisfactorily other contracts of like nature and magnitude or comparable difficulty at similar rates of progress.

1-08. Disqualification of Bidders. More than one bid from an individual business, partnership, corporation or association, under the same or different names, will not be considered. Reasonable grounds for believing that any bidder is financially interested in more than one bid for the work will cause the rejection of all bids in which he or she is so interested. If there is reason to believe that collusion exists among the bidders, none of the participants in such collusion will be considered. Bids in which the prices obviously are unbalanced may be rejected.

1-09. Identification of Subcontractors. All bids shall comply with the Subletting and Subcontracting Fair Practices Act (Public Contract Code Section 4100 and following) and shall set forth:

> (a) The name and the location of the place of business of each subcontractor who will perform work or labor, or render service to the prime contractor in or about the construction of the work, or to a subcontractor licensed by the State of California who, under subcontract to the prime contractor, specially fabricates and installs a portion of the work according to detailed drawings contained in the plans and Special Provisions, in an amount in excess of one-half of 1 percent of the prime contractor's total bid.

(b) The portion of the work which will be done by each such subcontractor. The prime contractor shall list only one subcontractor for each such portion defined by the prime contractor in his or her bid.

1-10. General Provisions of the Standard Specifications. All provisions of the General Provisions, Sections 1 through 11, of the Standard Specifications, shall be applicable to the contract except as modified by these Special Provisions. The Standard Specifications are set forth in Section 12-06 of these Special Provisions.

1-11. Addenda. If it becomes necessary to revise any part of these plans and specifications after they have been released, the City will issue an addendum containing the revision. All addenda will be posted on the City's website at www.cityofukiah.com/purchasing with the rest of the bid documents. Anyone who intends to submit a bid in response to this Request for Bid must check the website frequently for any posted addenda. Anyone submitting a bid will be deemed to have seen and agreed to be bound by the posted addenda.

SECTION 2. AWARD AND EXECUTION OF CONTRACT

2-01. Award of Contract. Award of the contract, if it be awarded, will be to the lowest responsible bidder whose bid complies with all the specified requirements. The award, if made, will be made within thirty (30) days after opening of the bids. The City reserves the right to reject any and all bids and to waive any irregularity in the proposal not pertaining to cost.

2-02. Return of Proposal Guaranties. All bid guaranties will be held until the contract has been fully executed, after which they will be returned upon request to the respective bidders whose bids they accompany.

2-03. Execution of Contract. The contract agreement shall be executed in duplicate by the successful bidder and returned, together with the contract bonds, insurance certificates and endorsements, within fifteen (15) days after written notice of the award of the contract. After execution by the City; one copy shall be filed with the City and one copy shall be returned to the Contractor. If the bidder fails or refuses to enter into the contract agreement within the required time, then the bid guaranty accompanying the bid shall be forfeited to the City.

SECTION 3. SCOPE AND INTENT OF CONTRACT

3-01. Effect of Inspection and Payments. Neither the inspection by the Engineer or an inspector, nor any order, measurement or approved modification, nor certificate or payment of money, nor acceptance of any part or whole of the work, nor any extension of time, nor any possession by the City or its agents, shall operate as a waiver of any provision of this contract or of any power reserved therein to the City, or of any right to damages thereunder; nor shall any breach of this contract be held to be a waiver of any subsequent breach. All remedies shall be construed as cumulative.

3-02. Effect of Extension of Time. The granting of any extension of time on account of delays which, in the judgement of the City, are avoidable delays shall in no way operate as a waiver on the part of the City of its rights under this contract.

3-03. Extra Work. If extra work orders are given in accordance with provisions of this contract, such work shall be considered a part hereof and shall be subject to each and all of its terms and requirements.

3-04. Assignment of Contract. The contract may be assigned or sublet in whole or in part only upon the written consent of the City acting through its authorized agents. Consent will not be given to any proposed assignment which would relieve the original contractor or its surety of their responsibilities under the contract nor will the Engineer consent to any assignment of a part of the work under the contract.

3-05. Subcontractors. The Contractor shall be as fully responsible for the acts and omissions of his or her subcontractors and of persons either directly or indirectly employed by them, as he or she is for the acts and omissions of persons directly employed by him.

The Contractor shall cause appropriate provisions to be inserted in all subcontracts relative to the work to bind subcontractors to the terms of this Contract which are applicable to the work of subcontractors.

Nothing contained in this contract shall be construed to create or shall be relied upon to create any contractual relationship between any subcontractor and the City and no action may be brought by any subcontractor against the City based on this contract.

3-06. Interpretation of Special Provisions and Drawings. The Special Provisions and the Contract Drawings are intended to be explanatory of each other. Any work indicated in the Contract Drawings and not in the Special Provisions, or vice versa, is to be executed as if indicated in both. In case of a discrepancy or conflict between the Technical Specifications and Contract Plans, the Technical Specifications shall govern. All work shown on the Contract Drawings, the dimensions of which are not figured, shall be accurately followed to the scale to which the drawings are made, but figured dimensions are in all cases to be followed, where given, though they differ from scaled measurements. Large scale drawings shall be followed in preference to small scale drawings. Should it appear that the work to be done, or any of the matters relative thereto, are not sufficiently detailed or explained in these contract documents, including the contract drawings, the Contractor shall apply to the Engineer for such further explanations as may be necessary and shall conform thereto as part of this contract, so far as may be consistent with the terms of this contract. In the event of any doubt or questions arising respecting the true meaning of the Special Provisions, reference shall be made to the Engineer and his or her decision thereon shall be final. If the Contractor believes that a clarification or interpretation justifies an increase in the contract price or contract time, the Contractor must comply with the written notice provisions of Sections 9-05 and 10-07 of these Special Provisions. Contractor's attention is directed to Section 12-06 of the Technical Specifications regarding the Standard Specifications and Standard Plans.

3-07. Addenda. If it becomes necessary to revise any part of these plans and specifications after they have been released, the City will issue an addendum containing the revision. All addenda will be posted on the City's website at www.cityofukiah.com/purchasing with the rest of the bid documents. Anyone who intends to submit a bid in response to this Request for Bid must check the website frequently for any posted addenda. Anyone submitting a bid will be deemed to have seen and agreed to be bound by the posted addenda.

3-08. Liability of City Officials. No city official, nor the Engineer, nor any authorized assistant of any of them, shall be personally responsible for any liability arising under this contract.

3-09. Dispute Resolution. Claims of $375,000 or less by the Contractor that arise under this Contract are subject to the mandatory dispute resolutions provisions in Public Contract Code Sections 20104-20104.6.

SECTION 4. BONDS

4-01. Faithful Performance Bond. As a part of the execution of this contract, the Contractor shall furnish a bond of a surety company or other securities providing equivalent protection such as cash, letter of credit, or certificates of deposit, acceptable to the City, conditioned upon the faithful performance of all covenants and stipulations under this contract. The amount of the bond shall be 100 percent of the total contract price, as this sum is set forth in the agreement.

4-02. Material and Labor Bond. As a part of the execution of this contract, the Contractor shall furnish a bond of a surety company or other securities providing equivalent protection such as cash, letter of credit or certificates of deposit acceptable to the City in a sum not less than 50 percent of the total contract price, as this sum is set forth in the agreement for the payment in full of all persons, companies or corporations who perform labor upon or furnish materials to be used in the work under this contract, in accordance with the provisions of Sections 3247 through 3252 inclusive of the Civil Code of the State of California and any acts amendatory thereof.

4-03. Defective Material and Workmanship Bond. As a condition precedent to the completion of this contract, the Contractor shall furnish a bond of a surety company acceptable to the City in an amount not less than 5 percent (5%) of the final contract price, to hold good for a period of one (1) year after the completion and acceptance of the work, to protect the City against the results of defective materials, workmanship and equipment during that time. This bond shall be delivered to the City before the final payment under this contract will be made.

4-04. Notification of Surety Companies. The surety companies shall familiarize themselves with all of the conditions and provisions of this contract and they waive the right of special notification of any change or modification of this contract or of extension of time, or decreased or increased work, or of the cancellation of the contract, or of any other act or acts by the City or its authorized agents, under the terms of this contract; and failure

to so notify the aforesaid surety companies of changes shall in no way relieve the surety companies of their obligation under this contract.

SECTION 5. INSURANCE REQUIREMENTS FOR CONTRACTORS (WITH CONSTRUCTION RISKS)

Contractor shall procure and maintain for the duration of the contract insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the work hereunder by the Contractor, his or her agents, representatives, employees or subcontractors.

5-01. Minimum Scope of Insurance

Coverage shall be at least as broad as:

1. Insurance Services Office Commercial Liability Coverage (occurrence form CG 0001).
2. Insurance Services Office form number CA 0001 (Ed. 1/87) covering Automobile Liability, code 1 (any auto).
3. Worker's Compensation insurance as required by the State of California and Employer's Liability Insurance.
4. Course of Construction insurance covering for “all risks” of loss.

5-02. Minimum Limits of Insurance

Contractor shall maintain limits no less than:

1. General Liability: $1,000,000 per occurrence for bodily injury, personal injury and property damage including operations, products and completed operations. If Commercial General Liability Insurance or other form with a general aggregate limit is used, either the general aggregate limit shall apply separately to this project/location or the general aggregate limit shall be twice the required occurrence limit.

2. Automobile Liability: $1,000,000 per accident for bodily injury and property damage.

3. Employer's Liability: $1,000,000 per accident for bodily injury and property damage.

4. Course of Construction: Completed value of the project with no co-insurance penalty provisions.

5-03. Deductibles and Self-insured Retentions. Any deductibles or self-insured retentions must be declared to and approved by the City. At the option of the City, either: the insurer shall reduce or eliminate such deductibles or self-insured retentions as respects the City, its officers, officials, employees and volunteers; or the Contractor shall provide a financial guarantee satisfactory to the City guaranteeing payment of losses and related investigations, claim administration and defense expenses.

5-04. Other Insurance Provisions

The general liability and automobile liability policies are to contain, or be endorsed to contain, the following provisions:

1. The City, its officers, officials, employees and volunteers are to be covered as Additional Insured with respect to liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the contractor; and with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts or equipment furnished in connection with such work or operations. General liability coverage can be provided in the form of an endorsement to the Contractor's insurance, or as a separate owner's policy.

2. The workers’ compensation policy is to be endorsed with a waiver of subrogation. The insurance company, in its endorsement, agrees to waive all rights of subrogation against the City, its officers,

officials, employees and volunteers for losses paid under the terms of this policy which arises from the work performed by the named insured for the City.

3. For any claims related to this project, the Contractor's insurance coverage shall be primary insurance as respects the City, its officers, officials, employees or volunteers. Any insurance or self-insurance maintained by the City, its officers, officials, employees or volunteers shall be excess of the Contractor's insurance and shall not contribute with it.

4. Each insurance policy required by this clause shall be endorsed to state that coverage shall not be canceled by either party, except after thirty (30) days' prior written notice by certified mail, return receipt requested, has been given to the City.

5. Coverage shall not extend to any indemnity coverage for the active negligence of the additional insured in any case where an agreement to indemnify the additional insured would be invalid under Subdivision (b) of Section 2782 of Civil Code.

6. Course of Construction policies shall contain the following provisions:
   a.) The City shall be named as loss payee.
   b.) The insurer shall waive all rights of subrogation against the City.

5-05. Acceptability of Insurers

Insurance is to be placed with insurers with a current A.M. Best's rating of no less than the following:

A++ VII	A- VIII
A+ VII	B++ X
A VII	B+ X

5-06. Verification of Coverage. Contractor shall furnish the City with original certificates and amendatory endorsements effecting coverage required by this clause. The endorsements shall be on forms provided by the City or on other than the City's forms, provided those endorsements or policies conform to the requirements. All certificates and endorsements are to be received within 15 days from written notice of contract award, and the work shall not commence until the certificates and endorsements have been approved by the City. The City reserves the right to require complete certified copies of all required insurance policies, including endorsements affecting the coverage required by these Special Provisions at any time.

5-07. Subcontractors. Contractor shall include all subcontractors as insureds under its policies or shall furnish separate certificates and endorsements for each subcontractor. All coverages for subcontractors shall be subject to all of the requirements stated herein.

SECTION 6. RESPONSIBILITIES AND RIGHTS OF CONTRACTOR

6-01. Legal Address of Contractor. Both the address given in the proposal and the Contractor's office in the vicinity of the work are hereby designated as places to either of which drawings, samples, notices, letters or other articles or communications to the Contractor may be mailed or delivered. The delivery at either of these places of any such thing from the City or its agents to the Contractor shall be deemed sufficient service thereof upon the Contractor and the date of such service shall be the date of such delivery. The address named in the proposal may be changed at any time by notice in writing from the Contractor to the City. Nothing herein contained shall be deemed to preclude or render inoperative the service of any drawing, sample, notice, letter or other article or communication to or upon the Contractor personally.

6-02. Office of Contractor at Site. During the performance of this contract, the Contractor shall maintain a suitable office at the site of the work which shall be the headquarters of a representative authorized to receive drawings and any such thing given to the said representatives or delivered at the Contractor's office at the site of work in his or her absence shall be deemed to have been given to the Contractor.

6-03. Attention to Work. The Contractor shall give his or her personal attention to and shall supervise the work to the end that it shall be prosecuted faithfully and when he or she is not personally present on the work, he or she

shall at all reasonable times be represented by a competent superintendent or foreman who shall receive and obey all instructions or orders given under this contract and who shall have full authority to execute the same and to supply materials, tools and labor without delay and who shall be the legal representative of the Contractor. The Contractor shall be liable for the faithful observance of any instructions delivered to him or her or to his or her authorized representative.

6-04. Liability of Contractor. The Contractor shall do all of the work and furnish all labor, materials, tools and appliances, except as otherwise herein expressly stipulated, necessary or proper for performing and completing the work herein required in the manner and within the time herein specified. The mention of any specific duty or liability imposed upon the Contractor shall not be construed as a limitation or restriction of any general liability or duty imposed upon the Contractor by this contract, said reference to any specific duty or liability being made herein merely for the purpose of explanation.

The right of general supervision by the City shall not make the Contractor an agent of the City and the liability of the Contractor for all damages to persons or to public or private property, arising from the Contractor's execution of the work, shall not be lessened because of such general supervision.

Until the completion and final acceptance by the City of all the work under and implied by this contract, the work shall be under the Contractor's responsible care and charge. The Contractor shall rebuild, repair, restore and make good all injuries, damages, re-erections and repairs, occasioned or rendered necessary by causes of any nature whatsoever, excepting only acts of God and none other, to all or any portions of the work, except as otherwise stipulated.

To the fullest extent permitted by law, Contractor shall indemnify and hold harmless the City and its officers, directors, agents and employees from and against all claims, damages, losses and expenses including but not limited to attorneys' fees, costs of suit, expert witness fees and expenses and fees and costs of any necessary private investigators arising out of or resulting from the performance of the work, provided that any such claim, damage, loss or expense (1) is attributable to bodily injury, sickness, disease or death, or to injury to or destruction of tangible property, other than the work itself, including the loss of use resulting therefrom and (2) is caused in whole or in part by any act or omission of the Contractor, any subcontractor, or anyone directly or indirectly employed by any of them, or anyone for whose acts any of them may be liable, regardless of whether or not it is caused in part by a party indemnified hereunder, or by the negligence or omission of a party indemnified herein.

In any and all claims against the City or any of its agents or employees by any employee of the Contractor, any subcontractor, anyone directly or indirectly employed by any of them, or anyone for whose acts any of them may be liable, the indemnification obligation shall not be limited in any way by any limitation on the amount or type of damages, compensation or benefits payable by or for the Contractor or any subcontractor under workers' or workmen's compensation acts, disability benefit acts, or other employee benefit acts. The obligation to indemnify shall extend to and include acts of the indemnified party which may be negligent or omissions which may cause negligence.

The City shall have the right to estimate the amount of such damage and to cause the City to pay the same and the amount so paid for such damage shall be deducted from the money due the Contractor under this contract; or the whole or so much of the money due or to become due the Contractor under this contract as may be considered necessary by the City, shall be retained by the City until such suits or claims for damages shall have been settled or otherwise disposed of and satisfactory evidence to that effect furnished to the City.

6-05. Protection of Persons and Property. The Contractor shall furnish such watchman, guards, fences, warning signs, walks and lights as shall be necessary and shall take all other necessary precautions to prevent damage or injury to persons or property.

All property line fences and improvements in the vicinity of the work shall be protected by the Contractor and, if they are injured or destroyed, they and any other property injured by the Contractor, his or her employees or agents, shall be restored to a condition as good as when he or she entered upon the work.

6-06. Protection of City Against Patent Claims. All fees, royalties or claims for any patented invention, article or method that may be used upon or in any manner connected with the work under this contract shall be included in the price bid for the work and the Contractor and his or her sureties shall protect and hold the City, together with all of its officers, agents, servants and employees, harmless against any and all demands made for such fees or

claims brought or made on account of this contract. The Contractor shall, if requested by the Engineer, furnish acceptable proof of a proper release from all such fees or classes.

Should the Contractor, his or her agents, servants or employees, or any of them be enjoined from furnishing or using any invention, article, material or appliance supplied or required to be supplied or used under this contract, the Contractor shall promptly substitute other articles, materials or appliance, in lieu thereof, of equal efficiency, quality, finish, suitability and market value and satisfactory in all respects to the Engineer. Or, in the event that the Engineer elects, in lieu of such substitution, to have supplied and to retain and use, any such invention, article, material or appliance, as may by this contract be required to be supplied, in that event the Contractor shall pay such royalties and secure such valid licenses as may be requisite and necessary for the City, its officers, agents, servants and employees, or any of them, to use such invention, article, material or appliance without being disturbed or in any way interfered with by any proceeding in law or equity on account thereof. Should the Contractor neglect or refuse to make the substitution promptly, or to pay such royalties and secure such licenses as may be necessary, then in that event the Engineer shall have the right to make such substitution, or the City may pay such royalties and secure such licenses and charge the cost thereof against any money due to the Contractor from the City or recover the amount thereof from him or her and his or her sureties notwithstanding final payment under this contract may have been made.

6-07. Protection of Contractor's Work Property. The Contractor shall protect his or her work, supplies and materials from damage due to the nature of the work, the action of the elements, trespassers, or any cause whatsoever under his or her control, until the completion and acceptance of the work. Neither the City nor any of its agents assumes any responsibility for collecting indemnity from any person or persons causing damage to the work of the Contractor.

6-08. Regulations and Permits. The Contractor shall secure and pay for all permits, give all notices and comply with all laws, ordinances, rules and regulations bearing on the conduct of the work as drawn and specified. If the Contractor observes that the Plans and Special Provisions are at variance therewith, he or she shall promptly notify the Engineer in writing and any necessary changes shall be adjusted as provided in the contract for changes in the work. The contractor and any subcontractors shall each secure and maintain a valid City of Ukiah Business License. The City of Ukiah will issue a no fee encroachment permit to the Contractor allowing him or her to perform work within City right of way or within City property after the Contract Documents have been executed and insurance certificates and endorsements have been approved by the City.

6-09. Construction Utilities. The Contractor shall be responsible for providing for and in behalf of his or her work under this contract, all necessary utilities, such as special connection to water supply, telephones, power lines, fences, roads, watchmen, suitable storage places, etc.

6-10. Approval of Contractor's Plans. The approval by the Engineer of any drawing or any method of work proposed by the Contractor in accordance with paragraph 8-06 shall not relieve the Contractor of any of his or her responsibility for his or her errors therein and shall not be regarded as any assumption of risk or liability by the City or any officer or employee thereof and the Contractor shall have no claim under this contract on account of the failure or partial failure or inefficiency of any plan or method so approved. Such approval shall be considered to mean merely that the Engineer has no objection to the Contractor's using, upon his or her own full responsibility the plan or method approved.

6-11. Suggestions to the Contractor. Any plan or method of work suggested by the Engineer to the Contractor, but not specified or required, if adopted or followed by the Contractor in whole or in part, shall be used at the risk and responsibility of the Contractor; and the Engineer and the City shall assume no responsibility thereof.

6-12. Termination of Unsatisfactory Subcontracts. Should any subcontractor fail to perform in a satisfactory manner the work undertaken by him, such subcontract shall be terminated immediately by the Contractor upon notice from the Engineer.

6-13. Preservation of Stakes and Marks. The Contractor shall preserve carefully bench marks, reference points and stakes and in case of destruction he or she shall replace his or her stakes, reference points and bench marks and shall be responsible for any mistakes that may be caused by their unnecessary loss or disturbance. Contractor’s attention is directed to Section 7-03 of these Special Provisions.

6-14. Assistance to Engineer. At the request of the Engineer the Contractor shall provide men from his or her force and tools, stakes and other materials to assist the Engineer temporarily in making measurements and surveys and in establishing temporary or permanent reference marks. Payment for such materials and assistance will be made as provided for under the caption "Extra Work," provided, however, that the cost of setting stakes and marks carelessly lost or destroyed by the Contractor's employees will be assessed to the Contractor.

6-15. Removal of Condemned Materials and Structures. The Contractor shall remove from the site of the work, without delay, all rejected and condemned materials or structures of any kind brought to or incorporated in the work and upon his or her failure to do so, or to make satisfactory progress in so doing, within forty-eight (48) hours after the service of a written notice from the Engineer, the condemned material or work may be removed by the City and the cost of such removal shall be taken out of the money that may be due or may become due the Contractor on account of or by virtue of this contract. No such rejected or condemned material shall again be offered for use by the Contractor under this Contract.

6-16. Proof of Compliance with Contract. In order that the Engineer may determine whether the Contractor has complied with the requirements of this contract, not readily enforceable through inspection and tests of the work and materials, the Contractor shall, at any time when requested, submit to the Engineer properly authenticated documents or other satisfactory proofs as to his or her compliance with such requirements.

6-17. Errors and Omissions. If the Contractor, in the course of the work, finds any errors or omissions in plans or in the layout as given by survey points and instruction, or if he or she finds any discrepancy between the plans and the physical conditions of the locality, he or she shall immediately inform the Engineer, in writing and the Engineer shall promptly verify the same. Any work done after such discovery, until authorized, will be done at the Contractor's risk.

6-18. Cooperation. The Contractor shall cooperate with all other contractors who may be performing work in behalf of the City and workmen who may be employed by the City on any work in the vicinity of the work to be done under this contract with the work of such contractors or workmen. he or she shall make good promptly, at his or her own expense, any injury or damage that may be sustained by other contractors or employees of the City at his or her hands.

Any difference or conflict which may arise between the Contractor and other contractors, or between the contractor and workmen of the City in regard to their work shall be adjusted and determined by the Engineer. If the work of the Contractor is delayed because of any acts or omissions of any other contractor or of the City, the Contractor shall on that account have no claim against the City other than for an extension of time.

6-19. Right of Contractor to Stop Work. Under the following conditions the Contractor shall have the right, if he or she so desires, to stop the work and terminate the contract upon ten (10) days written notice to the Engineer and recover from the City payment for all work actually performed and for all satisfactory materials actually delivered to the site of the work for permanent incorporation therein, all as may be shown by the estimate of the Engineer.

(1) If the work is stopped under an order of any court or other competent public authority for a period of time of three (3) months through no act or fault of the Contractor or of anyone employed by him.

(2) If the Engineer fails to issue the monthly certificate for payment in accordance with the terms of this contract.

(3) If the City fails to pay the Contractor within sixty (60) days after it shall have become due, as provided by the terms of this contract, any sum certified by the Engineer or awarded by the City.

All provided that if such action to terminate the contract be not instituted by the Contractor within ten (10) days after the alleged existence of such condition and if written notice of such action be not at that time delivered to the City and the Engineer, then such right shall lapse until another occasion arises according to this section.

6-20. Hiring and Dismissal of Employees. The Contractor shall employ only such foremen, mechanics and laborers as are competent and skilled in their respective lines of work and whenever the Engineer shall notify the Contractor that any person on the work is, in his or her opinion, incompetent, unfaithful, intemperate or disorderly,

or refuses to carry out the provisions of this contract, or uses threatening or abusive language to any person on the work representing the City, or is otherwise unsatisfactory, such person shall be discharged im
mediately from the work and shall not be re-employed upon it except with the consent of the Engineer.

6-21. Wage Rates.

1. Contractor shall pay all mechanics and laborers employed or working upon the site of the work unconditionally and without subsequent deductions or rebate on any account the full amounts due at the time of payment at wage rates not less than those contained in the applicable prevailing wage determination, regardless of any contractual relationship which may be alleged to exist between the Contractor and subcontractors and such laborers and mechanics.

2. Contractor shall comply with the California Labor Code Section 1775. In accordance with said Section 1775, Contractor shall forfeit as a penalty to the Owner, $50.00 (or the higher minimum penalty as provided in Section 1775(B)(ii) – (iii)) for each calendar day or portion thereof, for each workman paid less than the stipulated prevailing rates for such work or craft in which such workman is employed for any work done under the Contract by him or her or by any subcontractor under him or her in violation of the provisions of the Labor Code and in particular, Labor Code Sections 1770 to 1780, inclusive. In addition to said penalty and pursuant to Section 1775, the difference between such stipulated prevailing wage rates and the amount paid to each workman for each calendar day or portion thereof for which each workman was paid less than the stipulated prevailing wage rate shall be paid to each workman by the Contractor.

3. Pursuant to the provision of Section 1770 of the Labor Code of the State of California, Owner has ascertained the general prevailing rate of wages (which rate includes employer payments for health and welfare, vacation, pension and similar purposes) applicable to the work to be done, for straight time work. The holiday wage rate listed shall be applicable to all holidays recognized in the collective bargaining agreement of the particular craft, classification or type of workmen concerned. Copies of the General Prevailing Wage Determination are available on the Internet at web address: http://www.dir.ca.gov/DLSR/PWD The Contractor shall post the wage determination at the site of work in a prominent place where it can easily be seen by the workers.

4. City will not recognize any claim for additional compensation because the Contractor has paid any rate in excess of the prevailing wage rate obtained by the Contractor. The possibility of wage increases is one of the elements to be considered by the Contractor in determining his or her bid and will not in any circumstances be considered as the basis for a claim against the City.

5. The Labor Commissioner through the Division of Labor Standards Enforcement (DLSE) may at any time require contractors and subcontractors to furnish electronic certified payroll records directly to DLSE. Commencing with contracts awarded or after April 1, 2015, all contractors and subcontractors must furnish electronic certified payroll records directly to the DLSE.

6. Travel and Subsistence Payments.

   Contractor shall make travel and subsistence payments to each workman needed to execute the work in accordance with the requirements in Section 1773.8 of the Labor Code (Chapter 880, Statutes of 1968).

7. Apprentices.

   Attention is directed to the provisions in Sections 1777.5 (Chapter 1411, Statutes of 1968) and 1777.6 of the California Labor Code concerning the employment of apprentices by the Contractor or any subcontractor under him. Contractor and any subcontractor under him or her shall comply with the requirements of said sections in the employment of apprentices.

   Information relative to apprenticeship standards, wage schedules and other requirements may be obtained from the Director of Industrial Relations, ex officio the Administrator of Apprenticeship, San Francisco, California, or from the Division of Apprenticeship Standards and its branch offices.

6-22. Cleaning Up. The Contractor shall not allow the site of the work to become littered with trash and waste material but shall maintain the same in a neat and orderly condition throughout the construction period. The Engineer shall have the right to determine what is or is not waste material or rubbish and the place and manner of disposal.

On or before the completion of the work, the Contractor shall without charge therefore carefully clean out all pits, pipes, chambers or conduits and shall tear down and remove all temporary structures built by him or her and shall remove rubbish of all kinds from any of the grounds which he or she has occupied and leave them in first class condition.

6-23. Guaranty. All work shall be guaranteed for a period of one year from the date of acceptance by the City. The Contractor shall promptly make all needed repairs arising out of defective materials, workmanship, and equipment.

The City is hereby authorized to make such repairs if within ten days after the mailing of a notice in writing to the Contractor or his or her agent, the Contractor shall neglect to make or undertake with due diligence the aforesaid repairs, provided, however, that in case of an emergency where, in the opinion of the City delay would cause serious loss or damage, repairs may be made without notice being sent to the Contractor and the Contractor shall pay the costs thereof.

Pursuant to the provisions of Section 4-03 of these Special Provisions, the Contractor shall furnish a Defective Material and Workmanship Bond in an amount not less than 5 percent of the final contract price, which shall be effective for a period of one (1) year after the completion and acceptance of the work.

SECTION 7. RESPONSIBILITIES AND RIGHTS OF CITY

7-01. Authority of the Engineer. All work done under this contract shall be done in a workmanlike manner and shall be performed to the reasonable satisfaction of the Engineer, who shall have general supervision of all work included hereunder. To prevent disputes and litigation, the Engineer (1) shall in all cases determine the amount, quality, acceptability and fitness of the several kinds of work and materials which are to be paid for under this contract, (2) shall decide all questions relative to the true construction, meaning and intent of the Special Provisions and Drawings, (3) shall decide all questions which may arise relative to the classifications and measurements of quantities and materials and the fulfillment of this contract and (4) shall have the power to reject or condemn all work or material which does not conform to the terms of this contract. his or her estimate and decision in all matters shall be a condition precedent to an appeal for arbitration, or the right of the Contractor to receive, demand, or claim any money or other compensation under this agreement and a condition precedent to any liability on the part of the City to the Contractor on account of this contract. Whenever the Engineer shall be unable to act, in consequence of absence or other cause, then such engineer as the Engineer or the City shall designate, shall perform any and all of the duties and be vested with any or all of the powers herein given to the Engineer.

7-02. Inspection. The City will provide engineering personnel for the inspection of the work.

The Engineer and his or her representatives shall at all times have access to the work whenever it is in preparation or progress and the Contractor shall provide proper facilities for such access and inspection.

If the Special Provisions, the Engineer's instruction, laws, ordinances, or any public authority require any work to be specially tested or approved, the Contractor shall give the Engineer timely notice of its readiness for inspection and, if the inspection is by an authority other than the Engineer, of the date fixed for such inspection. Inspections by the Engineer shall be promptly made at the source of supply where practicable. If any work shall be covered up without approval or consent of the Engineer, it must, if required by the Engineer, be uncovered for examination and properly restored at the Contractor's expense.

Re-examination of any work may be ordered by the Engineer and, if so ordered, the work must be uncovered by the Contractor. If such work is found to be in accordance with the contract documents, the City shall pay the cost of re-examination and replacement. If such work is not in accordance with the contract documents, the Contractor shall pay such cost.

Properly authorized and accredited inspectors shall be considered to be the representatives of the City limited to the duties and powers entrusted to them. It will be their duty to inspect materials and workmanship of those portions of the work to which they are assigned, either individually or collectively, under instructions of the Engineer and to report any and all deviations from the Drawings, Special Provisions and other contract provisions which may come to their notice. Any inspector may be considered to have the right to order the work entrusted to his or her supervision stopped, if in his or her opinion such action becomes necessary, until the Engineer is notified and has determined and ordered that the work may proceed in due fulfillment of all contract requirements.

7-03. Surveys. Contractor shall furnish all land surveys, establish all base lines and bench marks and make sufficient detailed surveys needed for working points, lines and elevations. The Contractor shall develop all slope stakes and batter boards. Contractor shall also develop all additional working points, lines and elevations as he or she may desire to facilitate his or her methods and sequence of construction.

7-04. Rights-of-Way. The City will provide all necessary rights-of-way and easements in or beneath which work will be performed by the Contractor under this contract.

7-05. Retention of Imperfect Work. If any portion of the work done or material furnished under this contract shall prove defective and not in accordance with the Plans and Special Provisions, and if the imperfection in the same shall not be of sufficient magnitude or importance to make the work dangerous or undesirable, the Engineer shall have the right and authority to retain such work instead of requiring the imperfect work to be removed and reconstructed, but he or she shall make such deductions therefor in the payments due or to become due the Contractor as may be just and reasonable.

7-06. Changes in the Work. The Engineer shall have the right, in writing, to order additions to, omissions from, or corrections, alterations and modifications in the line, grade, form, dimensions, plan, or kind or amount of work or materials herein contemplated, or any part thereof, either before or after the beginning of construction. However, the arithmetical sum of the cost to the City of additions and subtractions from the work under this contract shall not exceed 10 percent of original contract amount or $5,000, whichever is the greater, unless based upon a supplementary agreement to be made therefore.

The order of such additions, omissions, corrections, alterations and modifications shall be in writing and signed by the Engineer and, in order, shall then be binding upon the Contractor. The Contractor shall proceed with the work as changed and the value of such change shall be determined as provided for in section 10-07 of these Special Provisions.

Such alterations shall in no way affect, vitiate, or make void this contract or any part thereof, except that which is necessarily affected by such alterations and is clearly the evident intention of the parties to this contract.

7-07. Additional Drawings by City. The drawings made a part of this contract at the time of its execution are intended to be fairly comprehensive and to indicate in more or less detail the scope of the work. In addition to these drawings, however, the Engineer shall furnish such additional drawings from time to time during the progress of the work as are necessary to make clear or to define in greater detail the intent of the Special Provisions and the contract drawings and the Contractor shall make his or her work conform to all such drawings.

7-08. Additional and Emergency Protection. Whenever, in the opinion of the Engineer, the Contractor has not taken sufficient precautions for the safety of the public or the protection of the works to be constructed under this contract, or of adjacent structures or property which may be injured by the processes of construction on account of such neglect and whenever, in the opinion of the Engineer, an emergency shall arise and immediate action shall be considered necessary in order to protect public or private, personal or property interest, then and in that event, the Engineer, with or without notice to the Contractor may provide suitable protection to the said interests by causing such work to be done and such material to be furnished as shall provide such protection as the Engineer may consider necessary and adequate.

The cost and expense of such work and material so furnished shall be borne by the Contractor and, if the same shall not be paid on presentation of the bills therefor, then such costs shall be deducted from any amounts due or to become due the Contractor.

The performance of such emergency work under the direction of the Engineer shall in no way relieve the Contractor from any damages which may occur during or after such precaution has been taken by the Engineer.

7-09. Suspension of Work. The City may at any time suspend the work or any part thereof by giving five (5) days written notice to the Contractor. The work shall be resumed by the Contractor within ten (10) days after the date fixed in the written notice from the City to the Contractor so to do. The City shall reimburse the Contractor for expense incurred by the Contractor in connection with the work under this contract as a result of such suspension.

If the work, or any part thereof, shall be stopped by the notice in writing aforesaid and if the City does not give notice in writing to the Contractor to resume work at a date within ten (10) days of the date fixed in the written notice to suspend, then the Contractor may abandon that portion of the work so suspended and he or she will be entitled to the estimates and payments for all work done on the portions so abandoned, if any, plus 5 percent of the value of the work so abandoned, to compensate for loss of overhead, plant expense and anticipated profit.

7-10. Right of City to Terminate Contract. If the Contractor should be adjudged a bankrupt, or if he or she should make a general assignment for the benefit of his or her creditors, or if a receiver should be appointed on account of his or her insolvency, or if he or she should persistently or repeatedly refuse or should fail, except in cases for which extension of time is provided, to supply sufficient properly skilled workmen or proper materials, or if he or she should fail to make prompt payments to subcontractors or for material or labor, or persistently disregard laws, ordinances or the instructions of the Engineer, or otherwise be guilty of a substantial violation of any provision of the contract, then the City, upon the certificate of the Engineer that sufficient cause exists to justify such action, may, without prejudice to any other right or remedy and after giving the Contractor seven days written notice, terminate the employment of the Contractor and take possession of the premises and of all materials, tools and appliances and finish the work by whatever method the City may deem expedient. In such case, the Contractor shall not be entitled to receive any further payment until the work is finished. If the unpaid balance of the contract price shall exceed the expense of finishing the work, including compensation for additional managerial and administrative services, such excess shall be paid to the Contractor. If such expense shall exceed such unpaid balance, the Contractor shall pay the difference to the City. The expense incurred by the City as herein provided and the damage incurred through the Contractor's default, shall be certified by the Engineer. In the event that a termination under this section is determined to be improper, such termination shall be deemed a constructive termination for convenience taken pursuant to section 7-12 below.

7-11. Use of Completed Portions. The City shall have the right to take possession of and use any completed or partially completed portions of the work, notwithstanding the time for completing the entire work or such portions which may not have expired; but such taking possession and using shall not be deemed an acceptance of any work not completed in accordance with the contract documents. If such prior use increases the cost of or delays the work, the Contractor shall be entitled to such extra compensation, or extension of time or both, as the Engineer may determine.

7-12. **Right of City to Terminate Contract for Convenience**. The City may terminate performance of the work called for by the contract documents in whole or, from time to time, in part, if the City determines that a termination is in the City's best interest. The Contractor shall terminate all or any part of the work upon delivery to the Contractor of a notice of termination specifying that the termination is for the convenience of the City, the extent of termination, and the effective date of such termination. After receipt of notice of termination, and except as directed by the Engineer, the Contractor shall, regardless of any delay in determining or adjusting any amounts due under this termination for convenience clause, immediately proceed with the following obligations:

1. Stop work as specified in the notice.
2. Complete any work specified in the notice of termination in a least cost/shortest time manner while still maintaining the quality called for under the contract documents.
3. Leave the property upon which the Contractor was working and upon which the facility (or facilities) forming the basis of the contract documents is situated in a safe and sanitary manner such that it does not pose any threat to the public health or safety.
4. Terminate all subcontracts to the extent that they relate to the portions of the work terminated.
5. Place no further subcontracts or orders, except as necessary to complete the continued portion of the contract.
6. Submit to the Engineer, within ten (10) calendar days from the effective date of the notice of termination, all of the usual documentation called for by the contract documents to substantiate all costs incurred by the Contractor for labor, materials and equipment through the effective date of the notice of termination. Any documentation substantiating costs incurred by the Contractor solely as a result of the City's exercise of its right to terminate this Contract pursuant to this clause, which costs the contractor is authorized under the contract documents to incur, shall: (1) be submitted to and received by the Engineer no later than 30

calendar days after the effective date of the notice of termination; (2) describe the costs incurred with particularity; and (3) be conspicuously identified as “Termination Costs occasioned by the City's Termination for Convenience.”

Termination of the contract shall not relieve Surety of its obligation for any just claims arising out of or relating to the work performed. In the event that the City exercises its right to terminate this contract pursuant to this clause, the City shall pay the Contractor, upon the Contractor's submission of the documentation required by this clause and other applicable provisions of the contract documents, the following amounts:

All actual reimbursable costs incurred according to the provisions of this contract.

1. A reasonable allowance for profit on the cost of the Work performed, provided Contractor establishes to the satisfaction of the Engineer that it is reasonably probable that Contractor would have made a profit had the contract been completed and provided further, that the profit allowed shall in no event exceed fifteen (15%) percent of the costs.
2. A reasonable allowance for Contractor's administrative costs in determining the amount payable due to termination of the contract under this Article.

Notwithstanding any other provision of this Article, when immediate action is necessary to protect life and safety or to reduce significant exposure or liability, the City may immediately order Contractor to cease work on the project until such safety or liability issues are addressed to the satisfaction of the City or the contract is terminated.

SECTION 8. WORKMANSHIP, MATERIALS and EQUIPMENT

8-01. General Quality. Materials and equipment shall be new and of a quality equal to that specified or approved. Work shall be done and completed in a thorough and workmanlike manner.

8-02. Quality in Absence of Detailed Specifications. Whenever under this contract it is provided that the Contractor shall furnish materials or manufactured articles or shall do work for which no detailed specifications are set forth, the materials or manufactured articles shall be of the best grade in quality and workmanship obtainable in the market from firms of established good reputation, or, if not ordinarily carried in stock, shall conform to the usual standards for first-class materials or articles of the kind required, with due consideration of the use to which they are to be put. In general, the work performed shall be in full conformity and harmony with the intent to secure the best standard of construction and equipment of the work as a whole or in part.

8-03. Materials and Equipment Specified by Name. Whenever any material or equipment is indicated or specified by patent or proprietary name or by the name of the manufacturer, such specification shall be considered as used for the purpose of describing the material or equipment desired and shall be considered as followed by the words "or approved equal". The Contractor may offer any material or equipment which shall be equal in every respect to that specified, provided that written approval first is obtained from the Engineer.

8-04. Source of Materials. Price, fitness and quality being equal, preference shall be given by the Contractor for supplies grown, manufactured or produced in the State of California and, next, for such products partially produced in this State in accordance with Government Code Section 4332.

8-05. Storage of Materials. Materials shall be so stored to ensure the preservation of their quality and fitness for the work. They shall be so located and disposed that prompt and proper inspection thereof may be made.

8-06. Drawings, Samples and Tests. As soon as possible after execution of the contract, the Contractor shall submit to the Engineer, in quintuplicate, sufficient information including, if necessary, assembly and detail drawings to demonstrate fully that the equipment and materials to be furnished comply with the provisions and intent of these Special Provisions and Drawings. If the information thus submitted indicates the equipment or materials is acceptable, the Engineer will return one copy stamped with his or her approval; otherwise, one copy will be returned with an explanation of why the equipment or material is unsatisfactory. The Contractor shall have no claims for damages or for extension of time on account of any delay due to the revision of drawings or rejection of material. Fabrication or other work performed in advance of approval shall be done entirely at the Contractor's risk. After approval of equipment or material, the Contractor shall not deviate in any way from the design and specifications given without the written consent of the Engineer.

When requested by the Engineer, a sample or test specimens of the materials to be used or offered for use in connection with the work shall be prepared at the expense of the Contractor and furnished by him or her in such

quantities and sizes as may be required for proper examination and tests, with all freight charges prepaid and with information as to their sources.

All samples shall be submitted before shipment and in ample time to permit the making of proper tests, analyses, or examination before the time at which it is desired to incorporate the material into the work. All tests of materials furnished by the Contractor shall be made by the Engineer. Samples shall be secured and tested whenever necessary to determine the quality of the material.

SECTION 9. PROSECUTION OF WORK

9-01. Equipment and Methods. The work under this contract shall be prosecuted with all materials, tools, machinery, apparatus, and labor and by such methods as are necessary to the complete execution of everything described, shown, or reasonably implied. If at any time before the beginning or during the progress of the work, any part of the Contractor's plant or equipment, or any of his or her methods of execution of the work, appear to the Engineer to be unsafe, inefficient, or inadequate to insure the required quality or the rate of progress of the work, he or she may order the Contractor to increase or improve his or her facilities or methods and the Contractor shall comply promptly with such orders; but, neither compliance with such orders nor failure of the Engineer to issue such orders shall relieve the Contractor from his or her obligation to secure the degree of safety, the quality of the work and the rate of progress required of the Contractor. The Contractor alone shall be responsible for the safety, adequacy and efficiency of his or her plant, equipment and methods.

9-02. Time of Completion. The Contractor shall promptly begin the work under this contract and shall complete and make ready for full use all portions of the project made the subject of this contract within the time set forth in the agreement bound herewith.

9-03. Avoidable Delays. Avoidable delays in the prosecution or completion of the work shall include all delays which might have been avoided by the exercise of care, prudence, foresight, and diligence on the part of the Contractor. The City will consider as avoidable delays within the meaning of this contract (1) delays in the prosecution of parts of the work, which may in themselves be unavoidable, but do not necessarily prevent or delay the prosecution of other parts of the work nor the completion of the whole work within the time herein specified, (2) reasonable loss of time resulting from the necessity of submitting plans to the Engineer for approval and from the making of surveys, measurements, inspections, and testing and (3) such interruptions as may occur in the prosecution of the work on account of the reasonable interference of other contractors employed by the City which do not necessarily prevent the completion of the whole work within the time herein specified.

9-04. Unavoidable Delays. Unavoidable delays in the prosecution or completion of the work under this contract shall include all delays which may result, through cause beyond the control of the Contractor and which he or she could not have provided against by the exercise of care, prudence, foresight, and diligence. Orders issued by the City changing the amount of work to be done, the quantity of material to be furnished or the manner in which the work is to be prosecuted and unforeseen delays in the completion of the work of other contractors under contract with the City will be considered unavoidable delays, so far as they necessarily interfere with the Contractor's completion of the whole of the work. Delays due to normally adverse weather conditions will not be regarded as unavoidable delays. However, truly abnormal amounts of rainfall, temperatures, or other weather conditions for the location of the work and time of year may be considered as unavoidable delays if those conditions necessarily cause a delay in the completion of the work.

9-05. Notice of Delays. Whenever the Contractor foresees any delay in the prosecution of the work and, in any event, immediately upon the occurrence of any delay which the contractor regards as an unavoidable delay, he or she shall notify the Engineer in writing of the probability of the occurrence of such delay and its cause, in order that the Engineer may take immediate steps to prevent, if possible, the occurrence or continuance of the delay, or, if this cannot be done, may determine whether the delay is to be considered avoidable or unavoidable, how long it continues and to what extent the prosecution and completion of the work are to be delayed thereby.

9-06. Extension of Time. Should any delays occur which the Engineer may consider unavoidable, as herein defined, the Contractor shall, pursuant to his or her application, be allowed an extension of time proportional to said delay or delays, beyond the time herein set forth, in which to complete this contract; and liquidated damages

for delay shall not be charged against the Contractor by the City during an extension of time granted because of unavoidable delay or delays.

Any claim by Contractor for a time extension based on unavoidable delays shall be based on written notice delivered to the Engineer within 15 days of the occurrence of the event giving rise to the claim. Failure to file said written notice within the time specified shall constitute a waiver of said claim. Notice of the full extent of the claim and all supporting data must be delivered to the Engineer within 45 days of the occurrence unless the Engineer specifies in writing a longer period. All claims for a time extension must be approved by the Engineer and incorporated into a written change order.

9-07. Unfavorable Weather and Other Conditions. During unfavorable weather and other conditions, the Contractor shall pursue only such portions of the work as shall not be damaged thereby. No portions of the work whose satisfactory quality or efficiency will be affected by any unfavorable conditions shall be constructed while these conditions remain, unless, by special means or precautions approved by the Engineer, the Contractor shall be able to overcome them.

The Contractor shall be granted a time extension of one day for each unfavorable weather day which prevents him or her from placing concrete forms or placing and finishing concrete or asphalt concrete. Such unfavorable weather day is defined as a rain day where precipitation prevents the contractor from performing the work more than four (4) continuous hours within the authorized work period or a temperature day where the ambient temperature is below that specified for the placement of materials associated with the controlling work item for more than four (4) continuous work hours of the authorized work period.

9-08. Saturday, Sunday, Holiday and Night Work. No work shall be done between the hours of 6 p.m. and 7 a.m., nor on Saturdays, Sundays or legal holidays except such work as is necessary for the proper care and protection of work already performed, or except in cases of absolute necessity and in any case only with the permission of the Engineer.

It is understood, however, that night work may be established as a regular procedure by the Contractor if he or she first obtains the written permission of the Engineer and that such permission may be revoked at any time by the Engineer if the Contractor fails to maintain at night adequate force and equipment for reasonable prosecution and to justify inspection of the work.

9-09. Hours of Labor. Eight (8) hours of labor shall constitute a legal day's work and the Contractor or any subcontractor shall not require or permit more than eight hours of labor in a day from any person employed by him or her in the performance of the work under this contract, unless paying compensation for all hours worked in excess of eight (8) hours per day at not less than 1½ times the basic rate of pay. The Contractor shall forfeit to the City, as a penalty, the sum of twenty-five dollars ($25.00) for each workman employed in the execution of the contract by him or her or by any subcontractor, for each calendar day during which such laborer, workman, or mechanic is required or permitted to labor more than eight hours in violation of the provisions of Section 1810 to 1816, inclusive, (Article 3, Chapter 1, Part 7, Division 2) of the Labor Code of the State of California and any acts amendatory thereof.

SECTION 10. PAYMENT

10-01. Certification by Engineer. All payments under this contract shall be made upon the presentation of certificates in writing from the Engineer and shall show that the work covered by the payments has been done and the payments thereof are due in accordance with this contract.

10-02. Progress Estimates and Payment. The Engineer shall, within the first seven (7) days of each month, make an estimate of the value of the work performed in accordance with this contract during the previous calendar month.

The first estimate shall be of the value of the work satisfactorily completed in place and meeting the requirements of the contract. And every subsequent estimate, except the final estimate, shall be of the value of the work satisfactorily completed in place since the last preceding estimate was made; provided, however, that should the Contractor fail to adhere to the program of completion fixed in this contract, the Engineer shall deduct from the next and all subsequent estimates the full calculated accruing amount of the liquidated damages to the date of said estimate, until such time as the compliance with the program has been restored.

The estimate shall be signed by the Engineer and, after approval, the City shall pay or cause to be paid to the Contractor in the manner provided by law, an amount equal to 95 percent of the estimated value of the work satisfactorily performed and complete in place.

10-03. Substitution of Securities.

1. At such times that Pubic Contract Code Section 22300 is in effect Contractor may propose the substitution of securities of at least equal market value for any moneys to be withheld to ensure performance under the Contract. Market value shall be determined as of the day prior to the date such substitution is to take place. Such substitution shall be made at the request and expense of the Contractor. The securities shall be one or more of the following types:

(a) Bonds or interest-bearing notes or obligations of the United States, or those for which the faith and credit of the United States are pledged for the payment of principal and interest.

(b) Bonds or interest-bearing notes on obligations that are guaranteed as to principal and interest by a federal agency of the United States.

(c) Bonds of the State of California, or those for which the faith and credit of the State of California are pledged for the payment of principal and interest.

(d) Bonds or warrants, including, but not limited to, revenue warrants, of any county, city, metropolitan water district, California water district, California water storage district, irrigation district in the State of California, municipal utility district, or school district of the State of California, which are rated by Moody's or Standard and Poor as A or better.

(e) Bonds, consolidated bonds, collateral trust debentures, consolidated debentures, or other obligations issued by federal land banks or federal intermediate credit banks established under the Federal Farm Loan Act, as amended; debentures and consolidated debentures issued by the Central Bank for Cooperatives and banks for cooperatives established under the Farm Credit Act of 1933, as amended; bonds, or debentures of the Federal Home Loan Bank Board established under the Federal Home Loan Bank Act; and stock, bonds, debentures and other obligations of the Federal National Mortgage Association established under the National Housing Act as amended and bonds of any Federal Home Loan Mortgage Corporation.

(f) Commercial paper of "prime" quality as defined by a nationally recognized organization which rates such securities. Eligible paper is further limited to issuing corporations: (1) organized and operating within the United States; (2) having total assets in excess of five hundred million dollars ($500,000,000); and (3) approved by the Pooled Money Investment Board of the State of California. Purchases of eligible commercial paper may not exceed 180 days' maturity, nor represent more than 10 percent of the outstanding paper of an issuing corporation.

(g) Bills of exchange or time drafts on and accepted by a commercial bank, otherwise known as bankers acceptances, which are eligible for purchase by the Federal Reserve System.

(h) Certificates of deposits issued by a nationally or state-chartered bank or savings and loan association.

(i) The portion of bank loans and obligations guaranteed by the United States Small Business Administration or the United States Farmers Home Administration.

(j) Student loan notes insured under the Guaranteed Student Loan Program established pursuant to the Higher Education Act of 1965, as amended (20 U.S.C. 1001, et seq.) and eligible for resale to the Student Loan Marketing Association established pursuant to Section 133 of the Education Amendments of 1972, as amended (20 U.S.C. 1087-2).

(k) Obligations issued, assumed or guaranteed by International Bank for Reconstruction and Development, the Inter-American Development Bank, the Asian Development Bank, or the Government Development Bank of Puerto Rico.

(l) Bonds, debentures and notes issued by corporations organized and operating within the United States. Such securities eligible for substitution shall be within the top three ratings of a nationally recognized rating service.

2. The securities shall be deposited with City or with any commercial bank as escrow agent, who shall arrange for transfer of such securities to the Contractor upon satisfactory completion of the contract. Any interest accrued or paid on such securities shall belong to the Contractor and shall be paid upon satisfactory completion of the contract.

The market value of the securities deposited shall at all times be maintained in an amount at least equal, in the sole judgment of City, to the moneys to be withheld pursuant to the Contract Documents to ensure performance of the Contract. In order to comply with this condition, Contractor shall deposit additional securities as necessary upon request by City or the escrow agent.

3. Upon acceptance of any Proposal that includes substituting securities for amounts withheld to ensure performance, a separate escrow agreement satisfactory in form and substance to City shall be prepared and executed by City, the Contractor and the escrow agent, which may be City. The escrow agreement shall specify, among other matters, value of securities to be deposited; procedures for valuing the securities and for adding or withdrawing securities to maintain the market value of the deposited securities at least equal to the amount of moneys which would otherwise be withheld; the terms and conditions of conversion to cash in case of the default by the Contractor; and terms, conditions and procedure for termination of the escrow. City shall have no obligation to enter any such Agreement that does not provide the City with the unilateral right to convert securities to cash and to gain immediate possession of the cash.

10-04. Acceptance. The work must be accepted by vote of the City Council of the City of Ukiah when the whole shall have been completed satisfactorily. The Contractor shall notify the Engineer, in writing, of the completion of the work, whereupon the Engineer shall promptly, by personal inspection, satisfy himself as to the actual completion of the work in accordance with the terms of the contract and shall thereupon recommend acceptance by the City Council.

10-05. Final Estimate and Payment. The Engineer shall, as soon as practicable after the final acceptance of the work done under this contract, make a final estimate of the amount of work done thereunder and the value thereof.

Such final estimate shall be signed by the Engineer, and after approval, the City shall pay or cause to be paid to the Contractor, in the manner provided by law, the entire sum so found to be due hereunder, after deducting therefrom all previous payments and such other lawful amounts as the terms of this contract prescribe.

In no case will final payment be made in less than thirty-five (35) days after the filing of the notice of completion with the County Recorder.

10-06. Delay Payments. Should any payment due the Contractor or any estimate be delayed, through fault of the City beyond the time stipulated, such delay shall not constitute a breach of contract or be the basis for a claim for damages, but the City shall pay the Contractor interest on the amount of the payment at the rate of 6 percent per annum for the period of such delay. The terms for which interest will be paid shall be reckoned, in the case of any monthly or progress payment, from the twentieth day of the month next succeeding the month in which the work was performed to the date of payment of the estimate; and in the case of the final estimate, from the forty-fifth day after acceptance to the date of payment of the final estimate.

The date of payment of any estimate shall be considered the day on which the payment is offered or mailed as evidenced by the records of the Treasurer of the City. If interest shall become due on any delayed payment, the amount thereof, as determined by the City, shall be added to a succeeding payment. If the interest shall become due on the final payment, it shall be paid on a supplementary voucher to interest or any sum or sums which, by the terms of this contract, the City is authorized to reserve or retain.

10-07. Extra Work and Work Omitted. Whenever corrections, alterations, or modifications of the work under this contract ordered by the Engineer and approved by the City increase the amount of work to be done, such added work shall be known as "extra work"; and when such corrections, alterations, or modifications decrease the amount of work to be done, such subtracted work shall be known as "work omitted".

When the Contractor considers that any changes ordered involve extra work, he or she shall immediately notify the Engineer in writing and subsequently keep him or her informed as to when and where extra work is to be performed and shall make claim for compensation therefor each month not later than the first day of the month following that in which the work claimed to be extra work was performed and he or she shall submit a daily complete statement of materials and labor used and expenses incurred on account of extra work performed, showing allocation of all materials, labor and expenses.

All such claims shall state the date of the Engineer's written order and the date of approval by the City authorizing the work on account of which claim is made. Unless such notification is made in writing within the time specified and unless complete statements of materials used and expenses incurred on account of such extra work are furnished as above required, the Contractor shall not be entitled to payment on account of extra work and Contractor shall be deemed to have waived the right to make any future claims for compensation for such extra work.

When changes decrease the amount of work to be done, they shall not constitute a claim for damages on account of anticipated profits on the work that may be omitted.

10-08. Compensation for Extra Work or Work Omitted. Whenever corrections, additions, or modifications in the work under this contract change the amount of work to be done or the amount of compensation due the Contractor, excepting increases or decreases in contract items having unit contract prices for each measurable quantity installed in place, and such changes have been ordered in writing by the Engineer and approved by the City prior to the Contractor performing the extra work, then a price may be agreed upon. Failing such an agreement in price, the Contractor shall be compensated for performing extra work pursuant to the provisions of Section 4-1.03 D,"Extra Work", and Section 9-1.03,"Force Account Payment" of the Standard Specifications.

This method of determining the price of work shall not apply to the performance of any work which is required or reasonably implied to be performed or furnished under this contract.

10-09. Compensation to the City for Extension of Time. In case the work called for under this contract is not completed within the time limit stipulated herein, the City shall have the right as provided hereinabove, to extend the time of completion thereof. If the time limit be so extended, the City shall have the right to charge to the Contractor and to deduct from the final payment for the work the actual cost to the City of engineering, inspection, superintendence and other overhead expenses which are directly chargeable to the contract and which accrue during the period of such extension, except that the cost of final unavoidable delays shall not be included in such charges.

10-10. Liquidated Damages for Delay. It is agreed by the parties to the contract that time is of the essence and that, in case all the work is not completed before or upon the expiration of the time limit as set forth, damage, other than those cost items identified in section 10-09, will be sustained by the City and that it is and will be impracticable to determine the actual amount of damage by reason of such delay; and it is therefore agreed that the Contractor will pay to the City the sum of five hundred dollars ($500.00) per day for each and every calendar day's delay beyond the time prescribed.

In compliance with the provisions of California Public Contract Code § 7102, the Contractor will be compensated for damages incurred due to delays in completing the work due solely to the fault of the City, where such delay is unreasonable under the circumstances and not contemplated by the parties. The Contractor and City agree that determining actual damages is impracticable and extremely difficult. As such, the Contractor shall be entitled to the appropriate time extension and to payment of liquidated damages in the sum of $250 per day of delay in excess of the time specified for the completion of the work. Such amount shall constitute the only payment allowed and shall necessarily include all overhead (direct or indirect), all profit, all administrative costs, all bond costs, all labor, materials, equipment and rental costs, and any other costs, expenses and fees incurred or sustained as a result of such delay. The Contractor expressly agrees to be limited solely to the liquidated damages for all such delays as defined in this subsection.

SECTION 11. MISCELLANEOUS

11-01. Notice. Whenever any provision of the contract documents requires the giving of written notice, it shall be deemed to have been validly given if delivered in person to the individual or to a member of the firm or to an officer of the corporation for whom it is intended, or if delivered at or sent by registered or certified mail, postage prepaid, to the last business address known to the giver of the notice. If mailed, the notice shall be deemed received on the date of delivery stated in the return receipt.

11-02. Computation of Time. When any period of time is referred to in the Contract Documents by days, it shall be computed to exclude the first and include the last day of such period. If the last day of any such period falls on a Saturday or Sunday or on a day made a legal holiday by the law of the applicable jurisdiction, such day shall be omitted from the computation.

11-03. Claims Procedure

Contractor shall timely comply with all notices and requests for changes to the contract time or contract price, as a prerequisite to filing any claim governed by this Article. The failure to timely submit a notice of delay or notice of change, or to timely request a change to the contract time or contract price, or to timely provide any other notice or request required herein shall constitute a waiver of the right to further pursue the claim under the contract or at law.

A. **Intent.** Effective January 1, 1991, Section 20104 et seq., of the California Public Contract Code prescribes a process utilizing informal conferences, non-binding judicial supervised mediation, and judicial arbitration to resolve disputes on construction claims of $375,000 or less. Effective January 1, 2017, Section 9204 of the Public Contract Code prescribes a process for negotiation and mediation to resolve disputes on construction claims. The intent of this Article is to implement Sections 20104 et seq. and Section 9204 of the California Public Contract Code. This Article shall be construed to be consistent with said statutes.

B. **Claims.** For purposes of this Article, “Claim” means a separate demand by the Contractor, for (A) a time extension, (B) payment of money or damages arising from work done by or on behalf of the Contractor pursuant to the Contract, or (C) an amount the payment of which is disputed by the District. Claims governed by this Article may not be filed unless and until the Contractor completes all procedures for giving notice of delay or change and for the requesting of a time extension or change order. Claims governed by this Article must be filed no later than the date of final payment. The claim shall be submitted in writing to the District and shall include on its first page the following in 16 point capital font: “THIS IS A CLAIM.” Furthermore, the claim shall include the documents necessary to substantiate the claim. Nothing herein is intended to extend the time limit or supersede notice requirements otherwise provided by contract for the filing of claims, including all requirements pertaining to compensation or payment for extra work, disputed work, and/or changed conditions. Failure to follow such contractual requirements shall bar any claims or subsequent lawsuits for compensation or payment thereon.

C. **Supporting Documentation.** The Contractor shall submit all claims in the following format:

Summary of claim merit and price, reference Contract Document provisions pursuant to which the claim is made
List of documents relating to claim:
Specifications
Drawings
Clarifications (Requests for Information)
Schedules
Other
Chronology of events and correspondence
Analysis of claim merit
Analysis of claim cost
Time impact analysis in CPM format

If Contractor's claim is based in whole or in part on an allegation of errors or omissions in the Drawings or Specifications for the project, Contractor shall provide a summary of the percentage of the claim subject to design errors or omissions and shall obtain a certificate of merit in support of the claim of design errors and omissions.

D. City's Response. Upon receipt of a claim pursuant to this Article, City shall conduct a reasonable review of the claim and, within a period not to exceed 45 days, shall provide the Contractor a written statement identifying what portion of the claim is disputed and what portion is undisputed. Any payment due on an undisputed portion of the claim will be processed and made within 60 days after the City issues its written statement.

If the City needs approval from its governing body to provide the Contractor a written statement identifying the disputed portion and the undisputed portion of the claim, and the City's governing body does not meet within the 45 days or within the mutually agreed to extension of time following receipt of a claim sent by registered mail or certified mail, return receipt requested, the City shall have up to three days following the next duly publicly noticed meeting of the City's governing body after the 45-day period, or extension, expires to provide the Contractor a written statement identifying the disputed portion and the undisputed portion.

Within 30 days of receipt of a claim, the City may request in writing additional documentation supporting the claim or relating to defenses or claims the District may have against the Contractor. If additional information is thereafter required, it shall be requested and provided pursuant to this subdivision, upon mutual agreement of City and the Contractor. The City's written response to the claim, as further documented, shall be submitted to the Contractor within 30 days (if the claim is less than $15,000, within 15 days) after receipt of the further documentation, or within a period of time no greater than that taken by the Contractor in producing the additional information or requested documentation, whichever is greater.

E. Meet and Confer. If the Contractor disputes the City's written response, or the City fails to respond within the time prescribed, the Contractor may so notify the City, in writing, either within 15 days of receipt of the City's response or within 15 days of the City's failure to respond within the time prescribed, respectively, and demand in writing an informal conference to meet and confer for settlement of the issues in dispute. Upon receipt of a demand, the City shall schedule a meet and confer conference within 30 days for settlement of the dispute.

F. Mediation. Within 10 business days following the conclusion of the meet and confer conference, if the claim or any portion of the claim remains in dispute, the City shall provide the Contractor a written statement identifying the portion of the claim that remains in dispute and the portion that is undisputed. Any payment due on an undisputed portion of the claim shall be processed and made within 60 days after the City issues its written statement. Any disputed portion of the claim, as identified by the Contractor in writing, shall be submitted to nonbinding mediation, with the City and the Contractor sharing the associated costs equally. The City and Contractor shall mutually agree to a mediator within 10 business days after the disputed portion of the claim has been identified in writing, unless the parties agree to select a mediator at a later time.

If the parties cannot agree upon a mediator, each party shall select a mediator and those mediators shall select a qualified neutral third party to mediate with regard to the disputed portion of the claim. Each party shall bear the fees and costs charged by its respective mediator in connection with the selection of the neutral mediator.

For purposes of this section, mediation includes any nonbinding process, including, but not limited to, neutral evaluation or a dispute review board, in which an independent third party or board assists the parties in dispute resolution through negotiation or by issuance of an evaluation. Any mediation utilized shall conform to the timeframes in this section.

Unless otherwise agreed to by the City and the Contractor in writing, the mediation conducted pursuant to this section shall excuse any further obligation under Public Contract Code Section 20104.4 to mediate after litigation has been commenced.

The mediation shall be held no earlier than the date the Contractor completes the work or the date that the Contractor last performs work, whichever is earlier. All unresolved claims shall be considered jointly in a single mediation, unless a new unrelated claim arises after mediation is completed.

G. Procedures After Mediation. If following the mediation, the claim or any portion remains in dispute, the Contractor must file a claim pursuant to Chapter 1 (commencing with Section 900) and Chapter 2 (commencing with Section 910) of Part 3 of Division 3.6 of Title 1 of the Government Code prior to initiating

litigation. For purposes of those provisions, the running of the period of time within which a claim must be filed shall be tolled from the time the Contractor submits his or her written claim pursuant to subdivision (a) until the time the claim is denied, including any period of time utilized by the meet and confer conference.

H. Civil Actions. The following procedures are established for all civil actions filed to resolve claims of $375,000 or less:

Within 60 days, but no earlier than 30 days, following the filing or responsive pleadings, the court shall submit the matter to non-binding mediation unless waived by mutual stipulation of both parties or unless mediation was held prior to commencement of the action in accordance with Public Contract Code section 9204 and the terms of this Contract. The mediation process shall provide for the selection within 15 days by both parties of a disinterested third person as mediator, shall be commenced within 30 days of the submittal, and shall be concluded within 15 days from the commencement of the mediation unless a time requirement is extended upon a good cause showing to the court.

If the matter remains in dispute, the case shall be submitted to judicial arbitration pursuant to Chapter 2.5 (commencing with Section 1141.10) of Title 3 of Part 3 of the Code of Civil Procedure, notwithstanding Section 1114.11 of that code. The Civil Discovery Act of 1986 (Article 3 (commencing with Section 2016) of Chapter 3 of Title 3 of Part 4 of the Code of Civil Procedure) shall apply to any proceeding brought under this subdivision consistent with the rules pertaining to judicial arbitration. In addition to Chapter 2.5 (commencing with Section 1141.10) of Title 3 of Part 3 of the Code of Civil Procedure, (A) arbitrators shall, when possible, be experienced in construction law, and (B) any party appealing an arbitration award who does not obtain a more favorable judgment shall, in addition to payment of costs and fees under that chapter, also pay the attorney's fees on appeal of the other party.

I. Government Code Claims. In addition to any and all contract requirements pertaining to notices of and requests for compensation or payment for extra work, disputed work, construction claims and/or changed conditions, the Contractor must comply with the claim procedures set forth in Government Code Sections 900, et seq. prior to filing any lawsuit against the City. Such Government Code claims and any subsequent lawsuit based upon the Government Code claims shall be limited to those matters that remain unresolved after all procedures pertaining to extra work, disputed work, construction claims, and/or changed conditions have been followed by Contractor. If no such Government Code claim is submitted, or if the prerequisite contractual requirements are not satisfied, no action against the City may be filed. **A Government Code claim must be filed no earlier than the date the work is completed or the date the Contractor last performs work on the project, whichever occurs first. A Government Code claim shall be inclusive of all unresolved claims unless a new unrelated claim arises after the Government Code claim is submitted.**

J. Non-Waiver. The City's failure to respond to a claim from the Contractor within the time periods described in this Article or to otherwise meet the time requirements of this Article shall result in the claim being deemed rejected in its entirety.

11-04. Litigation and Forum Selection. Contractor and City stipulate and agree that any litigation relating to the enforcement or interpretation of this contract, arising out of Contractor's performance or relating in any way to the work shall be brought in Mendocino County and that venue will lie in Mendocino County.

Except as otherwise expressly provided by law, the parties waive any objections they might otherwise have to the propriety of jurisdiction or venue in the state courts in Mendocino County and agree that California law shall govern any such litigation.

The duties and obligations imposed by these General Conditions and the rights and remedies available hereunder to the parties hereto and, in particular but without limitation, the warranties, guaranties and obligations imposed upon the Contractor and all of the rights and remedies available to the City thereunder, shall be in addition to and shall not be construed in any way as a limitation of, any rights and remedies available to any or all of them which are otherwise imposed or available by law or contract, by special warranty or guaranty, or by other provisions of the contract documents and the provisions of this paragraph shall be as effective as if repeated specifically in the contract documents in connection with each particular duty, obligation, right and remedy to which they apply. All warranties and guaranties made in the contract document shall survive final payment and termination or

completion of this contract. The City disclaims an express or implied warranty that the plans and specifications identify all site conditions that could affect the time or cost to complete the Work.

11-05. Waiver. The Contractor shall strictly comply with all notices and other contract requirements. Waiver by the City of any failure of the Contractor to comply with any term of the contract, including the notice provisions, shall not be deemed a waiver of a subsequent breach.

TECHNICAL SPECIFICATIONS

SECTION 12. GENERAL INFORMATION

12-01. Location and Scope of Work. All of the work to be performed is within the City of Ukiah and consists of; Trench, backfill, compact, install underground conduits for electric primary, installing padmount transformer and pedestal box pads, primary pull box and 504LA vault(s) (box pads, vault and pull box are installed by Contractor, provided by City) for underground duct system. General locations of the work are as:

1. 1100 Block of West Standley Street,
2. North Barnes Street and Park Boulevard and
3. 1200 Block of West Standley Street and Giorno Avenue.

The Contractor should familiarize themselves with the local conditions of the project sites. Failure to do so will in no way relieve them of the responsibility for performing any of the work or operations required as a part of this contract. Further information regarding the work or these specifications can be obtained from Mary Horger at (707) 463-6233.

12-02. Arrangement of Technical Specifications. The Technical Specifications are arranged in sections covering the various phases of work as follows:

Section No.	Title
12	General Information
13	Construction Details
14	Exclusions from General Conditions
15	Amendments to General Conditions

12-03. Arrangement of Plans. General locations and linear quantities of the work are shown in Appendix "A". A map will be provided to the successful bidder showing the exact locations of the work to be done.

12-04. Business Licenses. The Contractor and any subcontractors shall each secure and maintain a valid City of Ukiah Business License prior to the start of any portion of the work.

12-05. Permits. The Contractor shall provide, procure, and pay for all permits required to complete this work.

12-06. Standard Specifications and Standard Plans. The Standard Specifications and Standard Plans of the California State Department of Transportation, 2018, are hereby made a part of these Special Provisions and are hereinafter referred to as "California Standard Specifications" and "California Standard Plans."

Whenever in the California Standard Specifications and the California Standard Plans the following terms are used, they shall be understood to mean and refer to the following:

Department of Transportation - The City Council.

Director of Public Works - The City of Ukiah Director of Public Works.

Engineer - The Engineer, designated by the City Council, acting either directly or through properly authorized agents, such agents acting within the scope of the particular duties entrusted to them.

Laboratory - The designated laboratory authorized by the City of Ukiah to test materials and work involved in the contract.

State - The City of Ukiah

Other terms appearing in the California Standard Specifications and the California Standard Plans shall have the intent and meaning specified in Section I, Definition of Terms of the California Standard Specifications.

In case of discrepancy between the contract documents, the order of precedence from the highest to lowest is as follows:
1. (City) Special Provisions
2. (City) Project Plans
3. City Standard Plans and Details
4. California Standard Plans
5. California Standard Specifications

12-07. Temporary Facilities. All temporary facilities are the responsibility of the Contractor. The removal of said facilities shall be the responsibility of the Contractor. The Contractor shall be responsible for any and all damages to existing facilities which are a result of the work.

12-08. Public Convenience and Safety. The Contractor shall conduct operations so as to cause the least possible obstruction and inconvenience to public traffic. The Contractor shall, at his or her expense, furnish such flag persons and furnish, erect, construct and maintain such fences, barriers, lights, signs, detours, pedestrian walkways, driveway ramps and bridging as may be necessary to give adequate warning to the public that work is in progress and that dangerous conditions exist, to provide access to abutting properties and to permit the flow of pedestrian and vehicular traffic to safely and expeditiously pass the work.

12-09. Maintaining Traffic. Attention is directed to Section 7-1.08, "Public Convenience," 7-1.09, "Public Safety," 7-1.092, "Lane Closure," and 7-1.095, "Flagging Costs," of the California Standard Specifications.

Streets shall be open to through vehicular traffic during non-working hours. All public traffic shall be permitted to pass through the work with as little inconvenience and delay as possible.

Full costs for "Maintaining Traffic", including "Flagging Costs", shall be considered as included in the various items of work and no additional compensation will be made.

12.10. Stream Pollution. The Contractor shall exercise every reasonable precaution to prevent muddying or silting of live streams, and the Contractor's attention is called to the fact that the terms of this contract do not relieve him or her of responsibility for compliance with Sections 5650 and 12015 of the Fish and Game Code or other applicable statutes relating to pollution prevention or abatement.

12-11. Warranties. Unless otherwise indicated, the Contractor shall warrant all materials provided and work performed under this contract for a period of one year from the date of final acceptance. He shall replace promptly and at his own expense any materials and/or workmanship which fail during this warranty period.

12-12. Utilities. No water, sewer or electrical services will be provided by the owner. It is the Contractor's sole responsibility to arrange such services as necessary.

12-13. Preconstruction Conference. A preconstruction conference will be held before any work will be allowed to commence. This meeting will cover inspection, schedule for work, and among other items, the responsibilities and procedures of each of the interested parties to assure that the project will be completed in accordance with the contract documents.

12-14. Safety Requirements. The Contractor shall comply with all pertinent provisions of the Department of Labor "Safety and Health Regulations for Construction (29 FCS Part 1518, 36 CFR 7340)", with additions or modifications thereto, in effect during construction of this project.

SECTION 13 - CONSTRUCTION DETAILS

13-01. General. Contractor shall be responsible for furnishing all labor, materials, equipment, tools and incidentals necessary for trenching, backfilling and compacting, provide and install conduits, install vault(s) (furnished by City), blacktopping, sidewalk, curb and gutter removal and replacement and other incidental and related work, all as shown on the plans and specifications for the **UKIAH ELECTRIC UTILITY UNDERGROUNDING PROJECT - REMOVAL OF OVERHEAD 12kV PRIMARY CONDUCTOR in VARIOUS AREAS**. Location of the work will be #1 1100 Block of West Standley Street, #2 North Barnes Street and Park Boulevard and #3 1200 Block of West Standley Street and Giorno Avenue in Ukiah, California, as more specifically in the construction drawings defined in Appendix "A".

13-02. Materials. Materials shall be new and of merchantable grade, free from defect. Contractor shall be responsible for providing any and all materials necessary for the completion of the project, which include, but are not limited to, all conduits, conduit sweeps and conduit fittings. Conduit sizes shall be as specified on the plans. PVC conduit, elbows and sweeps shall meet NEMA TC-2, TC-3 and UL 651 (Conduit) and 514b (Fittings) specifications for type Sch 40 and Sch 80. Rigid steel conduit at all riser pole locations shall be U.L. 6 listed and meet ANSI C80.1 specifications. The ¾" NPT threads (ANSI B1.20.1) shall be full cut and hot galvanized after cutting. All elbows and sweeps shall be minimum 48" radius for 6" conduit, minimum 36" radius for 4" conduit and minimum 24" for 2" conduit. Long line couplings shall be used. Five degrees angle couplings, flexible adapters and PVC flexible couplings shall not be used. Standard type duct spacers which proved for a 2" air space between conduits shall be throughout the project on electric duct system. All conduits shall be proved in a manner acceptable to the Electric Utility Department. Conduit shall be free of dirt, rocks or other obstructions which could prevent, hinder or harm the installation of electric cable. Mule Tape must be installed in each electric conduit. The open end of all conduits must be protected in such a manner that it prohibits dirt and debris from entering. Electronic conduit markers shall be installed at all conduit stub ends. Insulated bonding bushings will be required on metal conduit. No substitutions shall be permitted from the original specifications unless bidder obtains prior written approval.

13-03. Quantities. The preliminary estimate of the quantities of work to be done and materials to be furnished shown in the proposal are approximate only, being given as a basis for the comparison of bids. The City of Ukiah does not expressly or by implication agree that the actual amount of work will correspond therewith but reserves the right to increase or decrease the amount of any class or portion of work or to omit portions of the work that may be deemed necessary or expedient by the City.

Upon completion of successful bid, the Contractor shall furnish to the Engineer a cost break-down for each contract lump sum item.

The contractor shall determine the quantities of the items required to complete all work shown on the plans. Such quantities and their values (including labor, equipment, and materials) shall be included in the cost break-down submitted to the Engineer for approval. The sum of the quantity units' times the unit price shall equal the contract quantities and values used in the cost break-down submitted for approval. Unbalancing of the unit prices will not be allowed.

Overhead, profit, bond premium, temporary construction facilities, and other such items shall be included in each individual unit listed in the cost break-down, however, costs for traffic control system shall not be included.

No adjustment of the compensation will be made in the contract lump sum prices paid for various work items due to any differences between quantities shown in the cost break-down furnished by the Contractor and the quantities required to complete the work as shown on the plans and as specified in these Special Provisions.

The cost break-down shall be submitted to the Engineer within 10 working days after the contract has been approved. The cost break-down shall be approved by the Engineer, in writing, before any partial payments for the items of work will be made. The approved cost break-down will be used to determine partial payments during the progress of the work and as the basis of calculating the adjustment of compensation for the items(s) of work due to the changes ordered by the Engineer. When an ordered change increases or decreases the quantities of an approved cost break-down, the adjustment in the compensation will be determined in the same manner specified for increases and decreases in the quantity of a contract item of work in accordance with increases and decreases in the quantity of a contract item of work in accordance with the Contractor bid

price.

Additions or deletions in the quantity of work as set forth in these specifications and accompanying drawings for lump sum items may be ordered by the Engineer after the contract price has been adjusted accordingly to the satisfaction of both the Contractor and the City of Ukiah, and they have been accepted in writing by the Engineer.

13-04. Payment. Payment will be at the unit price bid and will be compensation in full for all labor, materials, equipment, tools, including any and all incidentals.

13-05. Primary Junction Boxes and Primary Pedestals. Primary Junction Boxes and Primary Pedestals shall be provided by the City and installed by the Contractor. Primary Junction Box grade shall be equal to or slightly (maximum 0.5") above adjacent grade. Asphaltic vault sealant shall be installed between the junction box cover and the extension ring (if used) and between the extension ring (if used) and the junction box. Bottom of the primary junction box excavation shall be compacted to 90% compaction prior to installation of drain rock and junction box. Where "term-a duct" conduit ends are not installed in the vault, bell ends shall be installed on the conduit ends and grouted in flush with the vault surface. Grounding shall be installed per Ukiah Electric Utility Department specifications at each primary junction box and primary pedestal location. Primary Pedestals shall be installed per Ukiah Electric Utility Department specifications.

13-06. Bonding and Grounding Bonding and grounding shall conform to Ukiah Electric Utility Department specification, 314 1007.

13-07. Maintaining Traffic The Contractor shall notify local authorities of the Contractor's intent to begin work at least 5 days before work is begun. The Contractor shall cooperate with local authorities relative to handling traffic through the area and shall make all arrangements relative to keeping the working area clear of parked vehicles.

Lane closures shall conform to the provisions in the section of these special provisions entitled "Traffic Control".

Payment – Full compensation for conforming to the requirements of this section shall be considered as included in the prices paid for the various contract items of work involved and no additional compensation will be allowed, therefore.

13-08. Dust Control and Watering Dust control and watering shall conform to the provisions in Sections 10 "Dust Control" and 17 "Watering" of the California Standard Specifications and these Special Provisions.

The Contractor at their expense shall provide their own water for dust control and project construction.

Necessary precautions to prevent dust nuisance shall be taken during all phases of construction, on non-working days, and to final acceptance of the work.

Payment for dust control and watering shall be considered as included in the various items of work and no additional compensation will be allowed, therefore.

13-09. Traffic Control Traffic control shall conform to Section 12 "Construction Area Traffic Control Devices" of the California Standard Specifications and these Special Provisions. Attention is particularly directed to the "MANUAL OF TRAFFIC CONTROLS FOR CONSTRUCTION AND MAINTENANCE WORK ZONES" published by Caltrans. Nothing in these Specifications is to be construed as to reduce the minimum standards set in said manual.

Traffic shall be always maintained as provided in these Special Provisions except as otherwise approved by the Engineer.

The Contractor will be required to keep all residents and businesses notified of the work schedule as it affects their access.

The Contractor shall maintain contact with the Ukiah Electric Utility Department dispatch office regarding start and completion of the following:

- Construction activity that may impede emergency vehicles, school buses, etc.
- Construction activity such as trenches or other excavation that prohibit access.
- Construction activity that removes a fire hydrant from service.

The Contractor shall provide the name and telephone number of a person directly responsible for the construction activity to the Ukiah Police and Fire Departments and Life Medical Paramedic Ambulance Service

The City will furnish "No Parking" signs which shall be posted by the Contractor.

The Contractor shall be responsible for supplying, installing, and maintaining such fences, barriers, lights, signs and flaggers as are necessary to give adequate warning to the public at all times that the road or street is under construction and of any dangerous conditions to be encountered as a result thereof.

All traffic control equipment shall be removed when it is no longer required.

Upon request, the Contractor shall submit to the Engineer a sketch showing the proposed signing and barricading to be used in the project.

All existing warning, regulatory, and information signs shall be maintained in a visible location during all phases of the construction by the Contractor.

If it becomes necessary for the City of Ukiah to replace or place additional barricades in order to provide adequate safety to the public, the Contractor will be charged $1 per barricade per day or portion thereof plus the cost of placement and removal. The Contractor will also be charged for replacement of damaged City barricades. The Contractor shall furnish and place barricades within 3 working days. No removal charge will be made if the Contractor returns City barricades to the Municipal Service Center.

Full compensation for furnishing all labor, materials, tools, equipment and incidentals for doing all work involved in furnishing and placing barricades, warning devices, and for flaggers as may be required by the Engineer shall be considered as included in the price paid for the various items of work, and no additional compensation will be allowed, therefore.

13-10. Protection of Existing Facilities Protection of existing facilities shall conform to all the applicable provisions in Section 8-1.10 "Utility and Non-Highway Facilities" and Section 15 "Existing Highway Facilities" of the California Standard Specifications and these Special Provisions.

All known obstructions to the work are indicated on the plans. However, the City cannot guarantee the accuracy of this information. The Contractor will be held responsible for the maintenance and protection of or damage to existing facilities, structures, obstructions and all underground facilities shown on the Plans or brought to the Contractor's attention during the course of the work.

The Contractor shall notify owner agencies for locations of utilities or facilities prior to excavation.

The owning utility shall be immediately notified of any damage which is caused by the operations of the Contractor to any facility, utility or structure. At the owning utility's discretion, repairs shall be made by the Contractor at the owning utility's direction or by the utility, all to the satisfaction of the Engineer.

13-11. Removal Methods Removal of existing improvements shall conform to Section 15-2 "Miscellaneous Highway Facilities" of the California Standard Specifications, these Special Provisions and as shown on the Plans.

All portions of existing concrete to be removed shall be removed in a smooth, neat, vertical plane. Where expansion, contraction or construction joints are not present, the concrete shall be saw cut to a minimum depth of 1-1/2 inches. If an expansion, contraction or construction joint is within 3 feet of the concrete to be removed, the concrete shall be removed to that joint.

Prior to final paving, all portions of existing pavement to be removed shall be cut on a neat, straight line. Pavement removed outside the removal line shall be cut parallel to and at right angles to the removal line. The face of the cut

shall be smooth and shall not overhang the removal area. Drop hammers are not allowed. Jackhammers may be used if the cuts are overlapped and meet the above criteria. Where edges of remaining pavement are raised by the removal method used, they shall be flattened with a mechanical tamper prior to setting frames or replacing pavement.

Where an excavation leaves less than 2 feet of pavement adjacent to the gutter, the remaining pavement shall be removed and replaced.

All removed material, unless otherwise specified, shall become the property of the Contractor and shall be disposed of outside of the right-of-way.

Payment for removal and disposal of existing improvements shall be in accordance with Section 15-2.07 "Payment" of the California Standard Specifications.

13-12. Vacuum Excavation All pothole work to expose existing utilities shall be done by vacuum excavation methods. The preferred method of excavation shall be by high pressure air. Use of water fluid for excavation shall only be by permission of the City Engineer. Maximum dimension of the pothole shall be 12 inches by 12 inches. All excavation material shall be removed and disposed of by the contractor. Backfill material shall be Class 2 aggregate base compacted to 90% relative compaction. Prior to paving, the pothole shall be cut to provide a clean vertical edge to pave against. The final dimension of the pothole prior to paving shall be 12 inches by 12 inches maximum. The asphalt concrete shall be a ½ inch mix having a depth of 4 inches.

All pothole work shall comply with the Traffic Control provisions of these specifications.

Full compensation for furnishing all labor, materials, tools, equipment and incidentals for doing the work involved in performing the pothole operation shall be considered as included in the price paid for the various items of work, and no additional compensation will be allowed, therefore.

13-13. Pipe and Structure Excavation, Backfill and Compaction Excavation and backfill for pipe, manholes and miscellaneous structures shall conform to the provisions in Section 19.3 "Structure Excavation and Backfill" of the California Standard Specifications, and these Special Provisions.

Pavement and concrete removal shall conform to Section 13-11 "Removal Methods" of these Special Provisions.

All excavation shall be made to the lines and grades shown on the Plans. Trench edges shall be no closer than 1 foot to the toe of the gutter unless otherwise approved by the Engineer. Where mud, peat or any unstable or objectionable material is encountered at or within 6 inches of the bottom of any excavation, such material shall be removed to a depth of at least 12 inches below the established grade and the trench brought to grade by placing a suitable material thoroughly compacted in place, all as approved by the Engineer.

Trench width, bedding and backfill for pipe shall conform to "Pipe Bedding and Backfill Requirements", as shown on plans.

Ponding or jetting of backfill is not allowed unless specifically shown on the Plans.

Trench backfills shall attain a relative compaction of 90 percent around conduit duct bank and 95 percent within 30” of finish grade. Backfill compaction within the structural section shall be as shown on the Plans. Structural backfill around all structures and manholes shall attain a relative compaction of 92 percent. The Contractor shall be responsible for scheduling compaction testing per City requirements. The cost for compaction testing shall be included in the total bid cost.

Backfill in street areas shall be brought to subgrade and the existing surfacing shall be replaced with the structural section shown on the Plans.

Trench backfills shall be accomplished as soon as possible after the pipe has been installed.

The Contractor shall conduct the construction operations so that trench backfill at all intersections is adequate to allow 2-way traffic in both directions during all phases of construction unless otherwise specified.

Payment for pipe and structure excavation and backfill shall be considered as included in the price paid for the various items of work requiring excavation and backfill and no additional compensation will be allowed, therefore.

13-14. Excavation Safety Excavation Safety shall conform to the provisions in Sections 5-1.02A "Trench Excavation Safety Plans" and 7-1.01E "Trench Safety" of the California Standard Specifications and these Special Provisions.

In making excavations for the project, the Contractor shall be fully responsible for providing and installing adequate sheeting, shoring and bracing as may be necessary as a precaution against slides or cave-ins and to fully protect all existing improvements of any kind from damage.

The Contractor shall obtain a permit from the Division of Industrial Safety and shall submit a copy of the approved permit to the Engineer prior to the start of excavation. The cost of the permit shall be included in the total bid cost. If the shoring and bracing plan varies from the shoring system standards established by the Construction Safety Orders, the plan shall be prepared by a registered civil or structural engineer.

The criteria given by the California Department of Industrial Relations are MINIMA for the conditions shown thereon. In addition to shoring the excavation as specified, it shall be the Contractor's responsibility to provide any and all additional shoring required to support the sides of the excavation against the effects of loads which may exceed those derived by using the criteria set forth by said governing agency. The Contractor shall be solely responsible for any damages which may result from failure to provide adequate shoring to support the excavations under any or all of the conditions of loading which may exist, or which may arise during the construction project.

The contract price paid per lump sum for excavation safety shall include full compensation for furnishing all labor, materials, permits and equipment and for doing all work involved as specified under these Special Provisions and no additional compensation will be allowed, therefore.

13-15. Sprinklers and Landscaping All sprinkler systems, landscaping, sod or turf shall be reinstalled to its original condition.

13-16. Clean-Up Clean-up shall conform to the provisions in Section 22 "Finishing Roadway" of the California Standard Specifications and these Special Provisions.

Upon completion of the work, and prior to requesting final inspection, the work area shall be thoroughly cleaned of all rubbish, construction forms, stakes, excess material, and equipment, and all portions of the work shall be left in a neat and orderly condition. The final inspection will not be made until this has been accomplished.

Full compensation for clean-up shall be considered as included in the price paid for the various contract items of work requiring finishing, and no additional compensation will be allowed therefore.

13-17. Aggregate Base Aggregate base shall be Class 2 and shall conform to the provisions of Section 26 "Aggregate Bases" of the California Standard Specifications and these Special Provisions.

Aggregate grading shall be 3/4" maximum unless otherwise approved by the Engineer. The Contractor shall submit current gradation, R-value, sand equivalent, and durability index test results as requested by the Engineer.

Aggregate base shall not be placed until the subgrade has been approved by the Engineer. In lieu of the placement requirements specified in Section 26, aggregate base material shall be placed upon prepared subgrade in a uniform windrow or layer, and after placing, the material shall be graded, compacted and watered in accordance with the requirements of Section 26-1.05 "Compaction" of the California Standard Specifications and the construction plans. Motor graders may be used for the aforementioned grading.

Aggregate base shall be compacted as specified in the Standard Specifications to a relative compaction of 95 percent.

Finished grade shall be within 0.05 feet of plan grade.

The contract price paid per ton of aggregate base shall include full compensation for furnishing all labor, materials, tools and equipment and for doing all work involved in

placing, compacting and watering aggregate base as shown on the plans and as specified in these Special Provisions, and no additional compensation will be allowed, therefore.

13-18. Asphalt Concrete Asphalt concrete shall be Type B and shall conform to these Special Provisions and the following sections of the Standard Specifications:

39-1	General
39-2	Materials
39-3	Storing, Proportioning and Mixing Materials
39-4.01	Subgrade
39-4.02	Prime Coat and Paint Binder

All bituminous binder shall be viscosity grade AR-4000 liquid asphalt except AR-8000 liquid asphalt shall be used when the ambient temperature is over 90 to 95° F. Asphalt shall conform to those applicable parts of Section 92 "Asphalt" of the California Standard Specifications.

The mineral aggregate shall be 3/4-inch maximum size for base courses when such work constitutes 100 or more tons and shall be as specified on the plans for the finish course.

Medium gradations shall be used. For base course work less than 100 tons, the aggregate size may be the same as the finish course. Asphalt concrete work required at manholes, water valves, feathering, and other miscellaneous facilities shall be 3/8-inch maximum size.

Asphalt concrete shall not be placed until the subgrade has been approved by the Engineer. Unstable subgrade shall not be paved. A prime coat is not required.

SS-1 asphaltic emulsion shall be applied to existing pavements, lower courses of new pavements (unless upper course is being applied in the same day and the lower course is clean), and vertical edges of new or existing pavements, prior to paving. If recommended by the manufacturer, the emulsion may be diluted up to 1:1. Immediately before applying the emulsion, the surface shall be cleaned of all dirt and loose material. Asphaltic emulsion and application shall conform to the applicable parts of Sections 94 "Asphaltic Emulsions" and 39-4.02 "Prime Coat and Paint Binder" of the California Standard Specifications.

13-19. Curbs, Sidewalks and Miscellaneous Concrete Curb, gutter, sidewalk, driveways, alley approaches and any other miscellaneous concrete structures shall be constructed as shown on the plans, and applicable City of Ukiah Standard Plans, and shall conform to the provisions in Section 73 "Concrete Curbs and Sidewalks" of the California Standard Specifications and these Special Provisions.

a.) Earthwork: Earthwork shall conform to the plans and Section 13-12 of these Special Provisions.

The area between the right-of-way line and the back of sidewalk shall be graded to 1/4-inch per foot and sufficient compactive effort and moisture shall be applied to this area to prevent settlement. Voids shall be filled with topsoil, not sand. Water service or other boxes and facilities shall be adjusted to grade.

b.) Curb, gutter, and sidewalk: Curb, gutter and sidewalk shall be of monolithic construction. Construction joints shall be edged and shall conform to the proposed scoring pattern.

Expansion joint material shall be installed to the full depth of the concrete at locations shown on the plans and as designated by the Engineer.

Side inlet catch basin and drop inlet catch basin concrete may be placed against neat excavation of undisturbed earth.

Concrete retaining walls shall be formed with plywood and all exposed edges shall be edged. After the back form has been removed, the void shall be backfilled to grade with clean native top soil.

c.) Commercial curb, gutter, and sidewalk: Commercial curb, gutter and sidewalk shall be of monolithic construction. Construction joints shall be edged and shall conform to the existing scoring pattern.

Curb, gutter and sidewalk shall be constructed per City of Ukiah Standard Plan.

The driveway section from the back of walk to two feet past the substation wall must be of the commercial type. The last two feet of driveway inside the substation from the substation wall must slope to match the existing ground grade. The driveway and approach shall be 6" thick with #4 rebar on 6" centers throughout. The driveway, when finished, shall appear equal to existing driveway (i.e. same scoring and joints).

d.) Concrete: Portland cement concrete shall be Class "B" conforming to Section 90 "Portland Cement Concrete" of the Standard Specifications with a minimum compressive strength of 2500 psi at 28 days.

All concrete used shall be mixed completely in a truck mixer, commonly known in the industry as "transit-mixed concrete".

e.) Forms: Forming requirements shall conform to the provisions in Section 73-1.04 "Forms" of the California Standard Specifications. If clean neat lines can be cut, the Contractor may pour against undisturbed earth with prior approval by the Engineer. If any sloughing or caving of material occurs, both front and back forms may be required.

Forms shall be true to lines and grades as shown on the plans.

Forms previously used shall be thoroughly cleaned before re-use. Before concrete is placed within any form, all inside surfaces of the forms shall be thoroughly coated with an approved oil.

All forms shall be free of any foreign material previous to placing concrete.

f.) Concrete Reinforcement: Mesh and reinforcing steel shall conform to the provisions in Section 52-1.02 "Materials" of the California Standard Specifications.

All reinforcing steel shall be accurately placed as shown on the plans.

All reinforcement shall be cleaned of dirt, rust, grease, loose scale and any other substance that may prevent concrete bonding. All reinforcement shall be securely positioned and supported so as to maintain the proper position during placement of concrete.

g.) Concrete Placement: Concrete shall not be placed without approval of the Engineer. Placing concrete without notifying the Engineer may be reason for rejection of the work.

Prior to placing concrete, the subgrade and inside face of the forms shall be thoroughly wetted as the Engineer may direct.

Concrete shall not be deposited when it appears likely that the air temperature may fall below 40°F during the placing of concrete or within the following 24 hours, unless special approval has been received from the Engineer prior to placing of concrete. Concrete which, in the opinion of the Engineer, has been damaged by freezing shall be removed and replaced.

Monolithic curb, gutter and sidewalk or median curb and gutter may be placed with extrusion machinery. The machinery shall be approved by the Engineer prior to use.

The Contractor shall install benchmark monuments as shown on the plans. The City of Ukiah will furnish the benchmark monuments without cost to the Contractor.

If the plans do not call for sidewalk, side inlet catch basins shall be constructed with a 3-foot by 5-foot section unless otherwise indicated on the plans.

h.) Finishing: After steel troweling, the concrete surfaces shall be given a fine hair broom finish. Brooming on sidewalk shall be transverse to the length of curb.

All exposed concrete surfaces shall be finished unless otherwise directed by the Engineer.

Score marks and weakened plane joints shall be located as shown on the plans and as directed by the Engineer.

i.) Cure: Concrete cure shall be accomplished by either the water, pigmented curing compound or waterproof membrane method and shall conform to the provisions in Section 90-7 "Curing Concrete" of the California Standard Specifications. White pigmented curing compound shall not be used on exposed surfaces.

j.) Tolerances: Dimensional tolerances for concrete work are listed below. Work done outside of these tolerances will be rejected by the Engineer.

Curb, gutter, sidewalk thickness: Up to 1/4-inch below specified thickness.

Flow line: Puddles shall not exceed 1/4-inch in depth, 6 inches in width or 10 feet in length. Grinding in excess of 1/2-inch and the use of epoxy fillers are not acceptable.

Sidewalk crossfall: Total crossfall on 5-foot sidewalks shall be within 1/2-inch of design.

Catch basins: The opening shall be a full 8 inches across the face of the catch basin with the top properly aligned within 3 inches of the base.

k.) Payment: Curb and gutter, sidewalk, street sign posts, driveways and mow strips shall be paid for under the various contract items and shall include full compensation for furnishing all labor, materials, including the cast-iron frames and grates, adjusting facilities within the sidewalk to grade, grading and adjustments at the back of walk, removal of existing facilities, tools and equipment, and for doing all work involved in their construction as shown on the plans and as specified under these Special Provisions, and no additional compensation will be allowed therefore.

13-20. Traffic Stripes and Pavement Markings The Contractor shall install painted traffic stripes as shown on the plans and in accordance with these Special Provisions, and applicable portions of Section 84-1 "General" and Section 84-3 "Traffic Stripes and Pavement Markings" of the California Standard Specifications.

a.) Materials: Paint and glass spheres shall conform to the following Caltrans Specifications:

Section 84-3.02, "Materials," of the California Standard Specification is amended to read:

Paint for traffic stripes and pavement markings shall conform to the following: Morton White #2675A5, Morton Yellow #2676A5 (3427 Resin) or approved equal. Thinning of paint will not be allowed.

Glass beads shall conform to State Specification No. 8010-21C-22 Type II.

Paint manufacturer shall provide the Engineer with a Certificate of Compliance in accordance with the provisions of Section 6-1.07, "Certificate of Compliance" of the California Standard Specifications. Said certificate shall certify that the paint complies with the specifications and that paint manufactured to the same formulation and process has previously passed State of California testing.

b.) Maintaining Traffic: Attention is directed to Sections 7-1.08, "Public Convenience," and 7-1.09, "Public Safety," of the California Standard Specifications and these Special Provisions.

All delineators used on the project shall conform to the requirements of the Caltrans Manual of Traffic Controls for Construction and Maintenance Work Zones.

The Contractor will be responsible for the posting of "No Parking" signs for streets as needed to accomplish scheduled work.

c.) Paint Traffic Stripes and Pavement Markings: This work shall consist of painting traffic stripes, pavement markings (arrows, legends, symbols, etc.), and applying glass spheres on asphalt concrete pavement at

locations shown on the plans or designated by the Engineer in conformance with these Special Provisions.

Traffic stripes and pavement markings shall be painted on pavement surfaces by mechanical means with a surface application of glass spheres, except glass spheres shall not be applied to black paint.

All additional work necessary to establish satisfactory lines for stripes shall be performed by the Contractor at Contractor's expense, including correction of minor irregularities in the line established by the Engineer and spotting with cat tracks.

Cat tracking shall consist of placing spots of paint not more than 3 inches in width and not more than 5 feet apart along the line established by the Engineer. Paint for cat tracks shall be the same as that used for the traffic stripe for which it is placed. Dribble lines shall not be used.

Traffic stripes and pavement markings shall be applied only on dry surfaces and during periods of favorable weather. Painting shall not be performed when the atmospheric temperature is below 40°F, or when freshly painted surfaces may become damaged by rain, fog or condensation, or when it can be anticipated that the atmospheric temperature will drop below 40°F during the drying period.

Surfaces which are to receive traffic stripes shall be dry and shall be cleaned of all dirt and loose material.

Paint may be heated to a maximum temperature of 125°F.

Traffic stripes shall be applied in two coats. Glass spheres shall be applied immediately after application of the second coat.

The completed pavement marking, and stripe shall have clean and well-defined edges and its maximum deviation shall not exceed 1/4-inch in width of one inch in length from the dimensions shown on the plans. Drips, overspray, excessive tracking, or improper markings shall be immediately removed from the pavement surface by blast cleaning or methods approved by the Engineer at the Contractor's expense. Grinding will not be allowed.

Paint shall be applied to provide the following minimum thicknesses:

	Wet	Dry
1st coat	0.009”	0.005”
2nd coat	0.015”	0.008”

Application of the second coat may be delayed if, in the opinion of the Engineer, bleeding or other discoloration will adversely affect the finished product.

Glass spheres shall be applied at a rate of five to six pounds per gallon of paint.

d.) Equipment and Operation: All of the equipment used in the application of traffic stripes shall produce stripes of uniform quality that conform to the specified requirements.

The striping machine shall be capable of operating at a speed of at least three miles per hour and it shall be thusly operated. Two colors of paint, including glass spheres where required, shall be applied in one pass of the striping machine.

Double stripes, consisting of two four-inch wide yellow stripes separated by a three-inch wide commercial quality black traffic paint shall be applied simultaneously.

The striping machine shall consist of a rubber-tired vehicle with a wheelbase of at least 100 inches and it shall be maneuverable to the extent that straight lines can be followed and normal curves can be made in true arcs. It shall be capable of applying traffic paints at the rate specified above and it shall be equipped with the following:

- A point or sighting device not less than five feet long and extending from the front thereof.

- A point or sighting device extending from the side of the machine to gauge the distance from centerline for shoulder stripes.
- Accurate gauges or dials to indicate the rates at which the paint and spheres are being applied.
- Positive acting cutoff device to prevent deposition of paint in gaps of dashed stripes.
- Shield or an adjustable air curtain for line control.
- Pressure regulators and gauges (if pneumatically operated) in full view of the operator at all times.
- Paint strainer in the paint supply line.
- Paint Storage tank with mechanical agitator operating continuously; and
- Attached glass sphere dispenser located approximately 18 inches behind, and controlled simultaneously with, the paint applicator nozzle.

The glass sphere dispenser shall be equipped with a gauge showing the rate of application of the glass spheres and it shall uniformly distribute the glass spheres upon the traffic paint. Spheres shall be imbedded in the coat of traffic paint to a depth of at least one-half their diameters.

Spray equipment shall be of a proper and adequate type for the work and shall include oil and water extractors, pressure regulators, and adequate air volume and compressor recovery capacity. Spray gun tip needle assemblies and orifices shall be of the proper size.

Where the traffic stripe is of such a nature, either due to configuration or location, as to render the striping machine unsuitable for use, traffic paint and glass spheres may be applied by other approved methods and equipment. The Engineer will determine if the striping machine is unsuitable for a particular use.

Upon completion of the project, the Engineer shall be furnished with the following information:
- The number of gallons of black, white and yellow paint used.
- Certificate of compliance regarding all materials used.
- Pounds of beads used.

e.) Measurement: Traffic stripes will be measured by the linear foot along the line of the traffic stripes, including gaps in broken traffic stripes. Double traffic stripes will be measured as one.

f.) Payment: The lump sum contract prices for the traffic stripes applied or removed shall include full compensation for furnishing all labor, materials (including paint and glass spheres), mixing paint, tools, equipment, posting “No Parking” as needed, and incidentals, and for doing all the work involved complete in place, as specified in the Standard Specifications and these Special Provisions, and as directed by the Engineer.

13-21. Signal, Lighting and Electrical Systems All work shall meet the requirements of Section 86-1.02 “Regulations and Code” of the California Standard Specifications.

13-22. Maintaining Existing Systems The Contractor shall maintain existing signal and lighting systems in accordance with Section 86-1.05 “Maintaining Existing and Temporary Electrical Systems” and these Special Provisions.

Traffic signal system shutdowns shall be limited to periods between the hours of 9:00 a.m. and 3:00 p.m.

The Contractor shall place “Stop Ahead” and “Stop” sign to direct vehicle and pedestrian traffic through the intersection during traffic signal system shutdown. All signal faces shall be covered when the system is shut down overnight. Temporary “Stop Ahead” and “Stop” signs shall be either covered or removed. “Stop Ahead” and “Stop” signs shall be furnished by the Contractor and shall conform to the provisions in Section 12-3.06, “Construction Area Signs,” of the California Standard Specifications except that the base material for the signs shall not be plywood.

One “Stop Ahead” sign and one “Stop” sign shall be placed for each direction of traffic. Location of the signs shall be as directed by the Engineer. Full compensation for furnishing, installing, maintaining and removing temporary “Stop Ahead” and “Stop” signs and for covering signs not in use shall be considered as included in the contract lump sum price paid for the signal item involved and no additional compensation will be allowed therefore.

SECTION 14. EXCLUSIONS FROM GENERAL CONDITIONS

14-01. Provisions to be Excluded from General Conditions. The following designated provisions of the General Conditions are hereby determined to be inapplicable to the proposed work and, therefore, are hereby excluded from the terms of the Notice to Bidders, Proposal, Agreement and other contract documents as though entirely omitted from said General Conditions:

(1) Section 6-02. Office at the Site
(2) Section 7-03. Surveys

No other exclusions.

SECTION 15. AMENDMENTS TO GENERAL CONDITIONS

15-01. Sections of General Conditions to be Amended.

The following designated sections of the Special Provisions are hereby amended to read as follows:

No amendments.

BID SUBMITTAL CHECKLIST

The following is a checklist to assist you in your submission of your bid documents. Please make sure you include the following when submitting your bid documents to reduce the risk of having your bid rejected:

Did you include?...

CITY OF UKIAH
MENDOCINO COUNTY, CALIFORNIA

PROPOSAL

FOR
UKIAH ELECTRIC UTILITY FIRE MITIGATION UNDERGROUNDING PROJECT

Specification No. 23-08

The undersigned, as bidder, declares that he or she has examined thoroughly all of the contract documents herein contained, that this proposal is made without collusion with any other person, firm or corporation and that all laws and ordinances relating to the interest of public officers in this contract have been complied with in every respect.

AND he or she proposes and agrees, if this proposal is accepted,

1) that he or she will contract with the City of Ukiah, Mendocino County, California, in the form of the copy of the agreement herein contained

   a) to provide all necessary machinery, tools, apparatus and other means of construction;

   b) to furnish all materials;

   c) to provide all superintendence, overhead expenses and all labor and expenses of whatever nature necessary to complete the job in conformity with the specifications and drawings and other contract provisions herein or reasonably implied hereby or as necessary to complete the work in the manner and within the time named herein and according to the requirements and to the reasonable satisfaction of the City Engineer;

   d) to pay all charges of freight transportation and hauling;

2) that he or she indemnifies the City against any loss or damage arising from any act of the undersigned as Contractor; and

3) that he or she will accept as full payment therefor the following sums:

BIDDING SCHEDULE

In the case of any discrepancy between the unit price and the total set forth for the item, the unit price shall prevail; provided, however, that if the amount set forth as a unit price is ambiguous, unintelligible or uncertain for any reason, or is omitted, or in the case of lump sum items, is not the same amount as the entry in the "Total" column, then the amount set forth in the "Total" column for the item shall prevail in accordance with the following:

1. As to lump sum items, the amount set forth in the "Total" column shall be the unit price;
2. As to unit basis items, the amount set forth in the "Total" column shall be divided by the estimated quantity for the item and the price thus obtained shall be the unit price.

The Total Base Bid shall be the sum of the items in the "Total" column. In case of discrepancy between the sum of the items in the "Total" column and the amount entered as Total Base Bid, the sum of the "Total" column items shall prevail. The bid comparison will be based on the sum of the items in the "total" column for each bidder.

The Unit prices for the various Construction Items below include all costs associated with the General Conditions, Special Provisions, Requirements of the Construction Contract, and represent the total, complete, in-place cost for each specific Construction Item in accordance with the Construction Documents, including all elements, work components, accessories, and connections, shown in applicable details or required to yield a complete, sound and functional component or system appropriate for its intended function, whether or not such is specifically described or listed in any description of measurement or payment. The total amount of the Construction items below shall represent the total and complete cost of the fully functional Project. All work not specifically listed below be required to complete the work of the various construction items and the cost of such shall be considered as included throughout the various unit prices indicated.

Lowest bid will be based on the lowest Base Bid.

We, the undersigned, acknowledge that the City Council has reserved the right to reject any or all bids and to determine which proposal is, in its opinion, the lowest responsive bid from a responsible bidder and that which it deems in the best interest of the City to accept. We, the undersigned, further agree, if this proposal shall be accepted, to sign the agreement and to furnish the required bonds with satisfactory surety, or sureties, within fifteen (15) calendar days after written notice that the contract is ready for signature; and, if the undersigned shall fail to contract, as aforesaid, it shall be understood that he or she has abandoned the contract and that, therefore, this proposal shall be null and void and the proposal guaranty accompanying this proposal, or the amount of said guaranty, shall be forfeited to and become the property of the City. Otherwise, the proposal guaranty accompanying this proposal shall be returned to the undersigned.

BIDDER'S BOND

KNOW ALL MEN BY THESE PRESENTS,

That we, _____

_____, as PRINCIPAL and

_____

_____, as SURETY,

are held and firmly bound unto the City of Ukiah in the penal sum of 10 PERCENT OF THE TOTAL AMOUNT OF THE BID of the Principal above named, submitted by said Principal to the City of Ukiah, as the case may be, for the work described below, for the payment of which sum in lawful money of the United States, well and truly to be made, to the City Clerk to which said bid was submitted, we bind ourselves, our heirs, executors, administrators and successors jointly and severally, firmly by these presents. In no case shall the liability of the surety hereunder exceed the sum of $_____

THE CONDITION OF THIS OBLIGATION IS SUCH,

That whereas the Principal has submitted the above mentioned bid to the City of Ukiah, as aforesaid, for certain construction specifically described as follows, for which bids are to be opened at the Office of the City Clerk, Ukiah Civic Center, Ukiah, California, on <<DATE OF BID OPENING>> for UKIAH ELECTRIC UTILITY FIRE MITIGATION UNDERGROUNDING PROJECT, SPEC. NO. 23-08.

NOW, THEREFORE, If the aforesaid Principal is awarded the contract and, within the time and manner required under the specifications, after the prescribed forms are presented to him or her for signatures, enters into a written contract, in the prescribed form, in accordance with the bid and files two bonds with the City of Ukiah, one to guarantee faithful performance and the other to guarantee payment for labor and materials, as required by law, then this obligation shall be null and void; otherwise, it shall be and remain in full force and virtue.

CITY OF UKIAH
Mendocino County, California

AGREEMENT

FOR

UKIAH ELECTRIC UTILITY FIRE MITIGATION UNDERGROUNDING PROJECT

Specification No. 23-08

THIS AGREEMENT, made this _____ day of _____, 20____, by and between the City of Ukiah, Mendocino County, California, hereinafter called the City and _____ hereinafter called the Contractor,

WITNESSETH:

WHEREAS, the City has caused to be prepared in accordance with law, specifications, drawings and other contract documents for the work herein described and shown and has approved and adopted these contract documents, specifications and drawings and has caused to be published in the manner and for the time required by law a notice to bidders inviting sealed proposals for doing the work in accordance with the terms of this contract and

WHEREAS, the Contractor, in response to the notice to bidders, has submitted to the City a sealed proposal accompanied by a proposal guaranty in an amount of not less than 10 percent of the bid price for the construction of the proposed work in accordance with the terms of this contract and

WHEREAS, the City, in the manner prescribed by law, has publicly opened, examined and canvassed the proposals submitted and as a result has determined and declared the Contractor to be the lowest and best regular responsible bidder for the work and for the sums named in the proposal,

NOW, THEREFORE, THIS AGREEMENT WITNESSETH:

Article 1. Work to be Done and Contract Days Allowed.

That the Contractor shall provide all necessary machinery, tools, apparatus and other means of construction; shall furnish all materials, superintendence, overhead, expenses, all labor and expenses of whatever nature necessary for completion of the work in conformity with the Special Provisions and other contract documents hereto attached and according to such instructions as may be given by the Engineer. The Contractor shall complete the work within <<ONE HUNDRED AND EIGHTY>> (<<180>>) calendar days. Contract days shall be counted starting with the 10th day following receipt of notice that the contract has been executed by the City. Contractor, at his or her option, may begin work prior to start of counting contract days, however, in no event shall the Contractor start work without giving notification to the Engineer at least 72 hours prior to the start of work, without obtaining an encroachment permit from the City, or without having submitted certificates of insurance that have been accepted and approved by the Engineer.

Article II. Contract Prices.

That the City shall pay the Contractor the prices stated in the proposal submitted by the Contractor, for complete performance of the contract by the Contractor. The Contractor hereby agrees to accept the prices as full compensation for all material and appliances necessary to the work, for all labor and use of tools and other implements necessary to execute the work contemplated in this contract; for all loss or damage arising out of the nature of the work or from the action of the elements, or from any unforeseen obstructions or difficulties which may be encountered in the prosecution of the work; for all risks of every description connected therewith; for all expenses of the work, as herein specified; for all liability and other insurance, for all overhead and other expenses incident to the work; all according to the Contract Drawings, the Special Provisions, the Details, the instructions and the requirements of the City.

Article III. Labor Discrimination.

Attention is directed to Section 1735 of the Labor Code, which reads as follows:

> "No discrimination shall be made in the employment of persons upon public works because of the race, color, national origin or ancestry, or religion of such persons and every contractor for public works violating this section is subject to all the penalties imposed for a violation of this chapter."

In connection with the performance of work under this contract, the Contractor agrees as follows:

(a) The Contractor will not willfully discriminate against any employee or an applicant for employment because of race, color, religion, ancestry, or national origin. The Contractor will take affirmative action to ensure that applicants are employed and that employees are treated during employment without regard to their race, color, religion, ancestry, or national origin. Such action shall include, but not be limited to, the following: employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the awarding authority setting forth the provisions of this Fair Employment Practice section.

(b) The Contractor will send to each labor union or representative of workers with which he or she has a collective bargaining agreement or other contract or understanding, a notice, to be provided by the awarding authority, advising the said labor union or worker's representative of the Contractor's commitments under this section, to employees and applicants for employment.

(c) The Contractor will permit access to his or her records of employment, employment advertisements, application forms and other pertinent data and records by the Fair Employment Practices Commission, City of Ukiah or any other appropriate agency of the State of California designated by the awarding authority, for the purposes of investigation to ascertain compliance with the Fair Employment Practices section of this contract.

(d) A finding of willful violation of the Fair Employment Practices section of this Contract or of the Fair Employment Practices Act shall be regarded by the awarding authority as a basis for determining the Contractor to be not a "responsible bidder" as to future contracts for which such Contractor may submit bids, for revoking the Contractor's pre-qualification rating, if any and for refusing to establish, reestablish or renew a pre-qualification rating for the Contractor.

The City of Ukiah shall deem a finding of willful receipt of written notice from the Fair Employment Practices Act to have occurred upon that it has investigated and determined that the Contractor has violated the Fair Employment Practices Act and has issued an order under Labor Code Section 1426 or obtained an injunction under Labor Code Section 1429.

Upon receipt of such written notice from the Fair Employment Practices Commission, the City shall notify the Contractor that unless he or she demonstrates to the satisfaction of the awarding authority within a stated period that the violation has been corrected, his or her pre-qualification rating will be revoked at the expiration of such period.

(e) The Contractor agrees that should the City determine that the Contractor has not complied with the Fair Employment Practices section of this Contract, then pursuant to Labor Code Section 1735 and 1775 the Contractor shall, as a penalty to the City, forfeit for each calendar day or portion thereof, for each person who was denied employment as a result of such non-compliance, the penalties provided in the Labor Code for violation of prevailing wage rates. Such monies may be recovered from the Contractor. The City may deduct any such damages from any monies due the Contractor.

(f) Nothing contained in this Fair Employment Practices section shall be construed in any manner of fashion so as to prevent the City or the State of California from pursuing any other remedies that may be available at law.

(g) Prior to awarding the Contract, the Contractor shall certify to the awarding authority that he or she has or will meet the following standards for affirmative compliance, which shall be evaluated in each case by the awarding authority:

(1) The Contractor shall provide evidence, as required by the City that he or she has notified all supervisors, foremen and other personnel officers in writing of the content of the anti-discrimination clause and their responsibilities under it.

(2) The Contractor shall provide evidence, as required by the City, that he or she has notified all sources of employees' referrals (including unions, employment agencies, advertisements, Department of Employment) of the content of the anti-discrimination clause.

(3) The Contractor shall file a basic compliance report, as required by the City. Willfully false statements made in such reports shall be punishable as provided by law. The compliance report shall also spell out the sources of the work force and who has the responsibility for determining whom to hire, or whether or not to hire.

(4) Personally, or through his or her representatives, the Contractor shall, through negotiations with the unions with whom he or she has agreements, attempt to develop an agreement which will:

a. Spell out responsibilities for nondiscrimination in hiring, referral, upgrading and training.

b. Otherwise implement an affirmative anti-discrimination program in terms of the unions' specific areas of skill and geography to the end that qualified minority workers will be available and given and equal opportunity for employment.

(5) The Contractor shall notify the City of opposition to the anti-discrimination clause by individuals, firms or organizations during the period of its pre-qualification.

(h) The Contractor will include the provisions of the foregoing paragraphs 1 through 5 in every first tier subcontract so that such provisions will be binding upon each such subcontractor.

(i) The "Fair Employment Practices Certification" must be completed and signed prior to the time of submitting the bid.

Article IV. Parts of the Contract.

That the complete contract consists of the following documents, all of which shall be considered a part of this agreement.

1. Notice to Bidders
2. Wage Rates
3. General Conditions
4. Technical Specifications
5. Proposal
6. Fair Employment Practices Certification
7. Agreement
8. Contract Bonds
9. Contract Drawings and Construction Details
10. Standard Drawings
11. Indemnification Agreement

INDEMNIFICATION AGREEMENT

This Indemnification Agreement is made and entered in Ukiah, California, on _____, 20____, by and between the City of Ukiah (Ukiah) and _____ (Contractor).

Contractor is

_____

_____ for Ukiah.

As a condition of issuing the work order, attached hereto, Ukiah requires assurance that Contractor will protect Ukiah from damage or damage claims which arise from its performance of the work.

Accordingly, Contractor agrees as follows:

1. **Indemnification**. Contractor shall indemnify and hold harmless Ukiah and its officers, agents, and employees from and against any claim, loss, or damage, including the legal and other costs of defending against any claim of damage or loss which arises out of the Contractor's negligent or wrongful performance under the work order attached hereto, except for claims, losses, or damages resulting from the sole and exclusive negligence or other wrongful conduct of Ukiah or its officers, agents and employees.

CONTRACTOR

BY: _____

TITLE: _____

CITY OF UKIAH
Mendocino County, California

PERFORMANCE BOND

BOND No._____

KNOW ALL PERSONS BY THESE PREESNTS:

THAT WHEREAS, the City of Ukiah, organized and operating under the laws of the State of California, (hereinafter referred to as the "City") has awarded to _____, (hereinafter referred to as the "Contractor") an agreement for Contract No. _____ (hereinafter referred to as the "Project").

WHEREAS, the work to be performed by the Contractor is more particularly set forth in the Contract for the Project dated _____, (hereinafter referred to, together with all attachments and exhibits thereto, as "Contract Documents"), the terms and conditions of which are expressly incorporated herein by reference; and

WHEREAS, the Contractor is required by the Contract Documents to perform the terms thereof and to furnish a bond for the faithful performance of said Contract Documents.

NOW, THEREFORE, we, _____, the undersigned Contractor and _____, as Surety, a corporation organized and duly authorized to transact business under the laws of the State of California, are held firmly bound until the City in the sum of _____ ($_____), for which amount well and truly to be made, we bind ourselves, our heirs ,executors and administrators, successors and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH that, if the Contractor, his or its heirs, executors, administrators, successors or assigns, shall in all things stand to and abide by, and well and truly keep and perform the covenants, conditions and agreements in the Contract Documents and any alteration thereof made as therein provided, on its part, to be kept and performed at the time and in the manner therein specified, and in all respects according to their intent and meaning; and shall faithfully fulfill all obligations; and shall indemnify and save harmless the City, its officials, officers, employees, and authorized volunteers, as stipulated in said Contract Documents, then this obligation shall become null and void; otherwise it shall be and remain in full force and effect.

As part of the obligation secured hereby and in addition to the face amount specified therefore, there shall be included costs and reasonable expenses and fees including reasonable attorneys' fees, incurred by the City in enforcing such obligation.

As a condition precedent to the satisfactory completion of the Contract Documents, unless otherwise provided for in the Contract Documents, the above obligation shall hold good for a period of one (1) year after the acceptance of the work by the City, during which time if Contractor shall fail to make full, complete, and satisfactory repair and replacements and totally protect the City from loss or damage resulting from or caused by defective materials or faulty workmanship. The obligations of Surety hereunder shall continue so long as any obligation of Contractor remains. Nothing herein shall limit the City's rights or the Contractor or Surety's obligations under the Contract Documents, law or equity, including, but not limited to, California Code of Civil Procedure Section 337.15.

Whenever Contractor shall be, and is declared by the City to be, in default under the Contract Documents, the Surety shall remedy the default pursuant to the Contract Documents, or shall promptly, at the City's option:

i. Take over and complete the Project in accordance with all terms and conditions in the Contract Documents; or

ii. Obtain a bid or bids for completing the Project in accordance with all terms and conditions in the Contract Documents and upon determination by Surety of the lowest responsive and responsible bidder, arrange for a contract between such bidder, the Surety and the City, and make available as work progresses sufficient funds to pay the cost of completion of the Project, less the balance of the contract

price, including other costs and damages for which Surety may be liable. The term “balance of the contract price” as used in this paragraph shall mean the total amount payable to Contractor by the City under the Contract and any modification thereto, less any amount previously paid by the City to the Contractor and any other set offs pursuant to the Contract Documents.

iii. Permit the City to complete the Project in any manner consistent with California law and make available as work progresses sufficient funds to pay the cost of completion of the Project, less the balance of the contract price, including other costs and damages for which Surety may be liable. The term “balance of the contract price” as used in this paragraph shall mean the total amount payable to Contractor by the City under the Contract and any modification thereto, less any amount previously paid by the City to the Contractor and any other set offs by the City pursuant to the Contract Documents.

Surety expressly agrees that the City may reject any contractor or subcontractor which may be proposed by Surety in fulfillment of its obligations in the event of default by the Contractor.

Surety shall not utilize Contractor in completing the Project nor shall Surety accept a bid from Contractor for completion of the Project if the City, when declaring the Contractor in default, notifies Surety of the City’s objection to Contractor’s further participation in the completion of the Project.

The Surety, for value received, hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the Contract Documents or to the Project to be performed thereunder shall in any way affect its obligation on this bond, and it does hereby waive notice of any such change, extension of time, alteration or addition to the terms of the Contract Documents or to the Project.

CITY OF UKIAH
Mendocino County, California

PAYMENT BOND

BOND No. _____

KNOW ALL PERSONS BY THESE PRESENTS:

WHEREAS, the City of Ukiah ("City") has awarded to _____ ("Contractor/Principal") a contract (City Agreement No. _____, dated _____, _____, referred to as the "Agreement") for the work described as _____. The Agreement is incorporated by this reference into this Payment Bond ("Bond"); and

WHEREAS, Contractor/Principal is required to furnish a bond in connection with the Agreement and pursuant to California Civil Code section 9550;

NOW, THEREFORE, we _____, the undersigned Contractor/Principal, and _____ ("Surety"), a corporation organized and existing under the laws of the State of _____, and duly authorized to transact business under the laws of the State of California, as Surety, are held firmly bound until the City, and to any and all persons, companies, or corporations entitled by law to file stop payment notices under California Civil Code Section 9100, or any person, company, or corporation entitled to make a claim on this bond, in the sum of $_____, for which payment will and truly be made, we bind ourselves, our heirs, executors and administrators, successors and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH that if Contractor/Principal, its heirs, executors, administrators, successors, or assigns, or subcontractor, shall fail to pay any person or persons named in Civil Code section 9100; or fail to pay for any materials, provisions, or other supplies, used in, upon, for , or about the performance of the work contracted to be done, or for any work or labor thereon of any kind, or for amounts due under the Unemployment Insurance Code, with respect to work or labor thereon of any kind; or shall fail to deduct, withhold, and pay over to the Employment Development Department, any amounts required to be deducted, withheld, and paid over by Unemployment Insurance Code Section 13020 with respect to work and labor thereon of any kind, then Surety will pay for the same, in an amount not exceeding the amount herein above set forth, and in the event suit is brought upon this bond, also will pay such reasonable attorneys' fees as shall be fixed by the court, awarded and taxed as provided in California Civil Code Section 9550, et seq.

It is further stipulated and agreed that the Surety of this bond shall not be exonerated or released from the obligation of the bond by any change, extension of time for performance, addition, alteration or modification in, to, or of any contract, plans, or specifications, or agreement pertaining or relating to any scheme or work of improvement herein above described; or pertaining or relating to the furnishing of labor, materials, or equipment therefor; nor by any change or modification of any terms of payment or extension of time for payment pertaining or relating to any scheme or work of improvement herein above described; nor by any rescissions or attempted rescission of the contract, agreement or bond; nor by any conditions precedent or subsequent in the bond attempting to limit the right of recovery of claimants otherwise entitled to recover under any such contract or agreement or under the bond; nor by any fraud practiced by any person other than the claimant seeking to recover on the bond; and that this bond be construed most strongly against the Surety and in favor of all persons for whose benefit such bond is give; and under no circumstances shall the Surety be released from liability to those for whose benefit such bond has been given, by reason of any breach of contract between the Owner and Contractor/Principal or on the part of any oblige named in such bond; that the sole condition of recovery shall be that the claimant is a person described in California Civil Code section 9100, and who has not been paid the full amount of his or her claim; and that the Surety does hereby waive notice of any such change, extension of time, addition, alteration or modification herein mentioned, including but not limited to the provisions of section 2819 and 2845 of the California Civil Code.

Any notice to Surety may be given in the manner specified in the Agreement and delivered or transmitted to Surety as follows:

NOTE: Signatures of those executing for Surety must be properly acknowledged, The bond must be accompanied by a properly acknowledged Power of Attorney from the Surety authorizing its agent to bind it to this bond. A copy of such Power of Attorney must be in file with the City.

DIRECTIONS FOR PREPARATION OF PERFORMANCE AND MATERIAL AND LABOR BOND

1. Individual sureties, partnerships, or corporations not in the surety business will not be acceptable.

2. The name of the Principal shall be shown exactly as it appears in the Contract.

3. The penal sum shall not be less than required by the Specifications.

4. If the Principals are partners or joint venturers, each member shall execute the bond as an individual and state his place of residence.

5. If the Principal is a corporation, the bond shall be executed under its corporate seal.
If the corporation has no corporate seal, it shall so state and affix a scroll or adhesive seal following the corporate name.

6. The official character and authority of the person(s) executing the bond for the Principal, if a corporation, shall be certified by the Secretary or Assistant Secretary thereof under the corporate seal, or copies attached to such records of the corporation as will evidence the official character and authority of the officer signing, duly certified by the Secretary or Assistant Secretary, under the corporate seal, to be true copies.

7. The current power-of-attorney of the person signing for the surety company must be attached to the bond.

8. The date of the bond must not be prior to the date of the Contract.

9. The following information must be placed on the bond by the surety company:

   a. The rate of premium in dollars per thousand; and

   b. The total dollar amount of premium charged.

10. The signature of a witness shall appear in the appropriate place attending to the signature of each party of the bond.

11. Type or print the name underneath each signature appearing on the bond.

12. An executed copy of the bond must be attached to each copy of the Contract (original counterpart) intended for signing.

DEFECTIVE MATERIAL AND WORKMANSHIP (MAINTENANCE) BOND

KNOW ALL MEN BY THESE PRESENTS,

That we, _____

_____, as **PRINCIPAL**

and_____

_____, as **SURETY**,

are held and firmly bound unto the **City of Ukiah** as Obligee, in the penal sum of

_____

_____($_____),
(5 PERCENT OF THE FINAL CONTRACT AMOUNT)

to which payment well and truly to be made, we do bind ourselves, our and each of our heirs, executors, administrators successors and assigns jointly and severally, firmly by these presents.

WHEREAS, the said Principal entered into a Contract with the City of Ukiah
dated_____
for _____
_____

WHEREAS, said Contract has been completed, and was approved on the _____ day of _____, _____,

NOW, THEREFORE, THE CONDITION OF THIS OBLIGATION IS SUCH, that if the Principal shall guarantee that the work will be free of any defective materials or workmanship which become apparent during the period of one (1) year following completion of the Contract, then this obligation shall be void, otherwise to remain in full force and effect, provided however, any additional warranty or guarantee whether expressed or implied is extended by the Principal or Manufacturer only, and the surety assumes no liability for such a guarantee.

ATTACHMENT 2

STANDLEY ST - UG PROJECT

STANDLEY - HIGHLAND AVE

CONSTRUCTION RESPONSIBILITIES

A. CONTRACTOR TO FURNISH AND/OR INSTALL:

1. All trenching, backfill and compaction per City Specifications. Construction work shall be done according to applicable rules and regulations.
2. Clean sand shall be used to backfill to a minimum of 3 in. above conduit(s) when a single layer of conduit is placed. Slurry cement per Caltrans Specification 19.3.02E shall be used when more than one conduit layer is present or conduits are placed in spacers.
3. All conduit, see Conduit Table A. Including all stubs for future.
4. Remove and replace existing asphalt concrete and sidewalk as required to install conduits and related equipment.
5. Prove and install pull line (Mule Tape - 2500 lbs., ¾" polyester) in all conduit.
6. Exact grade and location for all equipment:
   a. Padmount transformer box pad (installation only) Specification 922 5402 & 317 2425 (4)
   b. Primary Pedestal enclosure box pad (installation only) Specification # 922 5405 & 317 2431
   c. Grounding per Electrical Construction Standard 314 1007 at each primary vault, primary junction box and grounding per Electrical Construction Standard 314 1008 at each transformer pad, primary pedestal enclosure, primary riser and each location otherwise noted on plans.
   d. Secondary electric boxes (installation only)
   e. Bumper posts per City of Ukiah Specification 326 1503.
   f. Retaining wall per City of Ukiah Specification 311 3025

B. CITY OF UKIAH TO SUPPLY THE FOLLOWING MATERIALS AND SERVICES:

8. Conductor, terminations, equipment and labor necessary to convert the existing overhead system to an underground system.
9. Answer questions regarding the drawing, specifications and locations of all electrical substructures.
10. Inspection of all electrical substructures prior to backfill.
11. Padmount transformer box pad(s) (material only).
12. Primary pedestal enclosure box pad(s) (material only).
13. Secondary services boxes (material only).

CONSTRUCTION NOTES:

a. Electrical substructures including conduit and grounding shall be inspected by the UEUD for proper installation prior to backfill of any excavation. You may call the UEUD at (707) 467-5775 to schedule inspection. The Contractor shall notify the UEUD 48 hours in advance of any inspection to be performed outside the normal workday (Monday through Thursday)

b. Contractor to be responsible for condition of all substructures (for example, trench settlement, damaged substructures, etc.) until one year after the date of completion of project.

c. Contractor shall do no excavating until all utility agencies have been given the opportunity to mark their facilities in the field.

d. Contractor shall pothole all underground utilities locations to determine exact depth prior to trenching.

e. All landscape shall be returned to its original condition, or better; including repairs of all water lines that were removed due to construction.

f. All road closures must be approved by the City of Ukiah 72 hours in advance.

g. Existing utilities are shown in approximate locations based on available records. Service laterals are not indicated. However it is the Contractor's responsibility to determine actual vertical and horizontal alignments of any and all utilities in the vicinity of the work area prior to any work being performed and shall adjust the depth of the new utilities to clear as directed by the Engineer. The City of Ukiah and the Engineer assume no responsibility for underground obstructions that may be encountered.

h. Any damages to City or other utilities caused by project operations shall be the contractor's responsibility. Contractor must repair all disturbed or damaged conduit regardless if the conduit appears abandoned.

i. Caution shall be exercised when digging within the dripline of any tree. Roots larger than 2 inches shall not be cut without permission from the Engineer. In the event that a tree root larger than 2 inches needs to be removed, the root pruning shall be performed by a City approved licensed arborist only. Contact the City Public Works Department for a list of approved arborists.

j. Contractor shall protect and preserve City survey monuments. If not possible contractor shall coordinate 10 days in advance with City of Ukiah for referencing of existing monuments prior to work in the area. If monument(s) are disturbed contractor shall reconstruct per City Standards.

k. Contractor shall notify all customers within the construction zone of proposed work schedule at the start of project.

l. Contractor shall notify all customers 48 hours in advance of any construction or disruption of traffic flow impacting the property and any driveway closures.

m. Contractor shall remove and replace sidewalk and concrete planter strips to the nearest transverse score mark on both sides as required by the Engineer for conduit installations.

n. All trenches shall be backfilled and compacted per City Specifications.

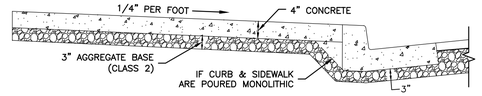
o. Trench depth and location may have to be adjusted in the field to avoid existing facilities.

p. All conduit shall be proved with the appropriate size mandrel to match conduit size and must be acceptable to the UEUD. Conduit shall be free of dirt, rocks or other obstructions which could prevent, hinder or harm the installation of electric cable.

q. Mule Tape shall be installed in all conduits (electric, phone & cable). The open end of all conduits must be protected in a manner that prohibits dirt or debris from entering.

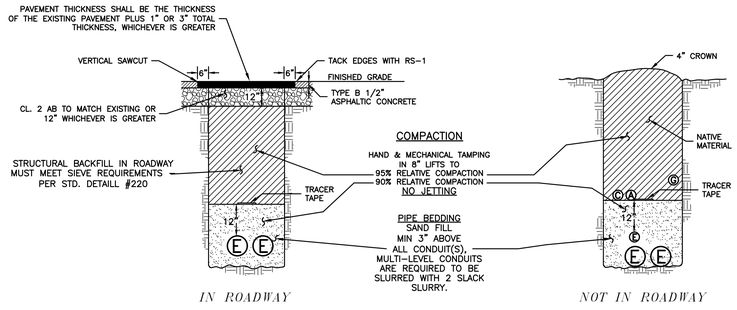
r. Maximum deflection of a 20' section of conduit shall be 5" unless pre-made bends are used.

s. Standard interlocking conduit spacers that provide a separation of 2" (min) between conduit shall be used, where specified. Spacers shall be spaced 5' apart (max.) or where conduit transitions are made. Provisions must be made ahead of time to keep conduit from floating during slurry pour.



t. The ends of all stub conduits shall be securely capped. All trenching of electrical conduit shall have tracer tape installed above electrical conduit.

u. The City of Ukiah Electric Utility Department will assist the contractor with the installation of all conduit into any energized equipment (vaults, pads or boxes). Customer service outage time should be held to a minimum and shall not exceed one working day. All outages shall be coordinated with the City of Ukiah Electric Department.



CONDUIT TABLE A

		Size	Electric	Cable TV	Phone

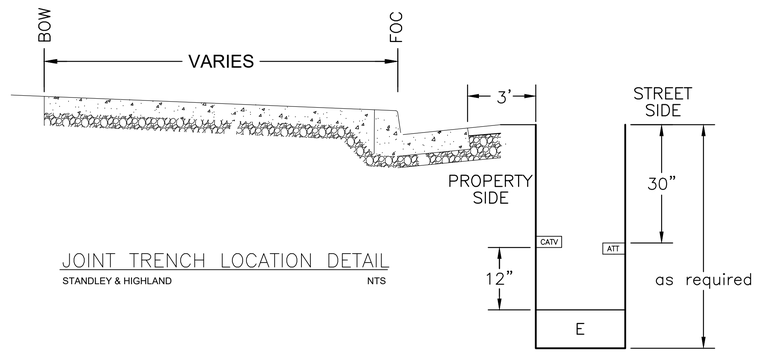
	Standards	All	NEMA TC-2 UL 651 UL 514B		
	Color	All	Gray	White	Gray or White
	Marking	All		"CATV" Every 5'	
Streetlight Boring Conduit[3]	Conduit Type	1"	HDPE Smoothwall Sch 40	N/A	N/A
	Standards	All	NEMA TC 7 ANSI D1248	N/A	N/A
	Color	All	Gray	N/A	N/A

1. Conduits shall be joined using a medium body, clear, electrical conduit PVC solvent cement approved by the UEUD.
2. Risers locations to be schedule 80 elbows and conduit. Conduit shall be stubbed 6" above ground level and mounted per spec 311 2007.
3. Conduit shall be installed by horizontal directional drilling (boring). Conduit shall be equipped with SILICORE® inner lining or approved equivalent system for ease of installing conductor. Conduit shall be continuous - couplings or joints are not permitted except couplings may be used immediately adjacent to streetlight foundations, junction boxes and /or power sources for connection of a schedule 40 elbow to the HDPE conduit. Couplings shall be of the compression type.



CURB & SIDEWALK SECTION

TRENCH DETAILS

TRENCH SPECIFICATION

1) CONFORM TO THESE SPECIFICATIONS AND REQUIREMENTS OF THE CITY ENGINEER.
2) COMPACTION: CONFORM TO SECTION 19-5, "COMPACTION" OF CALTRANS STANDARD SPECIFICATIONS, THESE PLANS, AND REQUIREMENTS OF THE CITY ENGINEER. CONTRACTOR TO PROVIDE INDEPENDENT MATERIALS AND COMPACTION TESTING.
3) AGGREGATE SUBBASE: CLASS 3. CONFORM TO SECTION 25, "AGGREGATE SUBBASES", OF CALTRANS STANDARD SPECIFICATIONS. SUBJECT TO CITY ENGINEER'S INSPECTION AND APPROVAL, REUSE EXITING SURFACING AND AGGREGATE BASE. CRUSH A.C. PAVEMENT FOR REUSE AS REQUIRED. IF EXISTING MATERIAL IS INSUFFICIENT IN QUALITY OR QUANTITY USE CLASS 2 AGGREGATE SUBBASE.
4) AGGREGATE BASE: CLASS 2, CONFORM TO SECTION 26, "AGGREGATE BASES", OF CALTRANS STANDARD SPECIFICATIONS.
5) ASPHALT CONCRETE: TYPE B. CONFORM TO SECTION 39, "ASPHALT CONCRETE", OF CALTRANS STANDARD SPECIFICATIONS.
6) FOG SEAL COAT: CONFORM TO SECTION 37, "BITUMINOUS SEALS", OF CALTRANS STANDARD SPECIFICATIONS.
7) CONCRETE: CLASS B. CONFORM TO SECTION 90, "PORTLAND CEMENT CONCRETE", OF CALTRANS STANDARD SPECIFICATIONS.
8) TRAFFIC STRIPES: CONFORM TO SECTION 84, "TRAFFIC STRIPES AND PAVEMENT MARKINGS", OF CALTRANS STANDARD SPECIFICATIONS.
9) ANY SIDEWALK REMOVAL AND REPLACEMENT SHALL BE DONE TO SCORE LINES.
10) TRENCH WIDTH TO BE 24" IN THE STREET AND 12" FOR RESIDENTIAL SERVICE UNLESS OTHERWISE SPECIFIED. DEPTH TO VARY DEPENDING ON CONDUIT SIZE AND CLEARANCE.
11) TWELVE INCHES OF SEPARATION MUST BE KEPT BETWEEN ELECTRIC AND ALL OTHER UTILITIES.

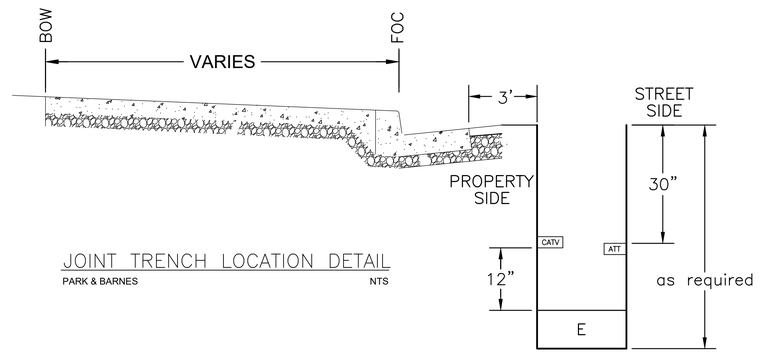
1. Conduits shall be joined using a medium body, clear, electrical conduit PVC solvent cement approved by the UEUD.
2. Risers locations to be schedule 80 elbows and conduit. Conduit shall be stubbed 6" above ground level and mounted per spec 311 2007.
3. Conduit shall be installed by horizontal directional drilling (boring). Conduit shall be equipped with SILICORE® inner lining or approved equivalent system for ease of installing conductor. Conduit shall be continuous - couplings or joints are not permitted except couplings may be used immediately adjacent to streetlight foundations, junction boxes and /or power sources for connection of a schedule 40 elbow to the HDPE conduit. Couplings shall be of the compression type.



CURB & SIDEWALK SECTION

TRENCH DETAILS

TRENCH SPECIFICATION

1) CONFORM TO THESE SPECIFICATIONS AND REQUIREMENTS OF THE CITY ENGINEER.
2) COMPACTION: CONFORM TO SECTION 19-5, "COMPACTION" OF CALTRANS STANDARD SPECIFICATIONS, THESE PLANS, AND REQUIREMENTS OF THE CITY ENGINEER. CONTRACTOR TO PROVIDE INDEPENDENT MATERIALS AND COMPACTION TESTING.
3) AGGREGATE SUBBASE: CLASS 3. CONFORM TO SECTION 25, "AGGREGATE SUBBASES", OF CALTRANS STANDARD SPECIFICATIONS. SUBJECT TO CITY ENGINEER'S INSPECTION AND APPROVAL, REUSE EXITING SURFACING AND AGGREGATE BASE. CRUSH A.C. PAVEMENT FOR REUSE AS REQUIRED. IF EXISTING MATERIAL IS INSUFFICIENT IN QUALITY OR QUANTITY USE CLASS 2 AGGREGATE SUBBASE.
4) AGGREGATE BASE: CLASS 2, CONFORM TO SECTION 26, "AGGREGATE BASES", OF CALTRANS STANDARD SPECIFICATIONS.
5) ASPHALT CONCRETE: TYPE B. CONFORM TO SECTION 39, "ASPHALT CONCRETE", OF CALTRANS STANDARD SPECIFICATIONS.
6) FOG SEAL COAT: CONFORM TO SECTION 37, "BITUMINOUS SEALS", OF CALTRANS STANDARD SPECIFICATIONS.
7) CONCRETE: CLASS B. CONFORM TO SECTION 90, "PORTLAND CEMENT CONCRETE", OF CALTRANS STANDARD SPECIFICATIONS.
8) TRAFFIC STRIPES: CONFORM TO SECTION 84, "TRAFFIC STRIPES AND PAVEMENT MARKINGS", OF CALTRANS STANDARD SPECIFICATIONS.
9) ANY SIDEWALK REMOVAL AND REPLACEMENT SHALL BE DONE TO SCORE LINES.
10) TRENCH WIDTH TO BE 24" IN THE STREET AND 12" FOR RESIDENTIAL SERVICE UNLESS OTHERWISE SPECIFIED. DEPTH TO VARY DEPENDING ON CONDUIT SIZE AND CLEARANCE.
11) TWELVE INCHES OF SEPARATION MUST BE KEPT BETWEEN ELECTRIC AND ALL OTHER UTILITIES.

CONSTRUCTION RESPONSIBILITIES

A. CONTRACTOR TO FURNISH AND/OR INSTALL:

1. All trenching, backfill and compaction per City Specifications. Construction work shall be done according to applicable rules and regulations.
2. Clean sand shall be used to backfill to a minimum of 3 in. above conduit(s) when a single layer of conduit is placed. Slurry cement per Caltrans Specification 19.3.02E shall be used when more than one conduit layer is present or conduits are placed in spacers.
3. All conduit, see Conduit Table A. Including all stubs for future.
4. Remove and replace existing asphalt concrete and sidewalk as required to install conduits and related equipment.
5. Prove and install pull line (Mule Tape - 2500 lbs., ¾" polyester) in all conduit.
6. Exact grade and location for all equipment:
   a. Padmount transformer box pad (installation only) Specification 922 5402 & 317 2425 (4)
   b. Primary Pedestal enclosure box pad (installation only) Specification # 922 5405 & 317 2431
   c. Grounding per Electrical Construction Standard 314 1007 at each primary vault, primary junction box and grounding per Electrical Construction Standard 314 1008 at each transformer pad, primary pedestal enclosure, primary riser and each location otherwise noted on plans.
   d. Secondary electric boxes (installation only)
   e. Bumper posts per City of Ukiah Specification 326 1503.
   f. Retaining wall per City of Ukiah Specification 311 3025

B. CITY OF UKIAH TO SUPPLY THE FOLLOWING MATERIALS AND SERVICES:

8. Conductor, terminations, equipment and labor necessary to convert the existing overhead system to an underground system.
9. Answer questions regarding the drawing, specifications and locations of all electrical substructures.
10. Inspection of all electrical substructures prior to backfill.
11. Padmount transformer box pad(s) (material only).
12. Primary pedestal enclosure box pad(s) (material only).
13. Secondary services boxes (material only).

CONSTRUCTION NOTES:

a. Electrical substructures including conduit and grounding shall be inspected by the UEUD for proper installation prior to backfill of any excavation. You may call the UEUD at (707) 467-5775 to schedule inspection. The Contractor shall notify the UEUD 48 hours in advance of any inspection to be performed outside the normal workday (Monday through Thursday)

b. Contractor to be responsible for condition of all substructures (for example, trench settlement, damaged substructures, etc.) until one year after the date of completion of project.

c. Contractor shall do no excavating until all utility agencies have been given the opportunity to mark their facilities in the field.

d. Contractor shall pothole all underground utilities locations to determine exact depth prior to trenching.

e. All landscape shall be returned to its original condition, or better; including repairs of all water lines that were removed due to construction.

f. All road closures must be approved by the City of Ukiah 72 hours in advance.

g. Existing utilities are shown in approximate locations based on available records. Service laterals are not indicated. However it is the Contractor's responsibility to determine actual vertical and horizontal alignments of any and all utilities in the vicinity of the work area prior to any work being performed and shall adjust the depth of the new utilities to clear as directed by the Engineer. The City of Ukiah and the Engineer assume no responsibility for underground obstructions that may be encountered.

h. Any damages to City or other utilities caused by project operations shall be the contractor's responsibility. Contractor must repair all disturbed or damaged conduit regardless if the conduit appears abandoned.

i. Caution shall be exercised when digging within the dripline of any tree. Roots larger than 2 inches shall not be cut without permission from the Engineer. In the event that a tree root larger than 2 inches needs to be removed, the root pruning shall be performed by a City approved licensed arborist only. Contact the City Public Works Department for a list of approved arborists.

j. Contractor shall protect and preserve City survey monuments. If not possible contractor shall coordinate 10 days in advance with City of Ukiah for referencing of existing monuments prior to work in the area. If monument(s) are disturbed contractor shall reconstruct per City Standards.

k. Contractor shall notify all customers within the construction zone of proposed work schedule at the start of project.

l. Contractor shall notify all customers 48 hours in advance of any construction or disruption of traffic flow impacting the property and any driveway closures.

m. Contractor shall remove and replace sidewalk and concrete planter strips to the nearest transverse score mark on both sides as required by the Engineer for conduit installations.

n. All trenches shall be backfilled and compacted per City Specifications.

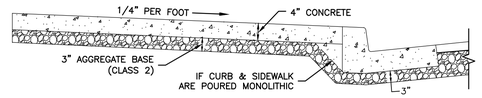
o. Trench depth and location may have to be adjusted in the field to avoid existing facilities.

p. All conduit shall be proved with the appropriate size mandrel to match conduit size and must be acceptable to the UEUD. Conduit shall be free of dirt, rocks or other obstructions which could prevent, hinder or harm the installation of electric cable.

q. Mule Tape shall be installed in all conduits (electric, phone & cable). The open end of all conduits must be protected in a manner that prohibits dirt or debris from entering.

r. Maximum deflection of a 20' section of conduit shall be 5" unless pre-made bends are used.

s. Standard interlocking conduit spacers that provide a separation of 2" (min) between conduit shall be used, where specified. Spacers shall be spaced 5' apart (max.) or where conduit transitions are made. Provisions must be made ahead of time to keep conduit from floating during slurry pour.



t. The ends of all stub conduits shall be securely capped. All trenching of electrical conduit shall have tracer tape installed above electrical conduit.

u. The City of Ukiah Electric Utility Department will assist the contractor with the installation of all conduit into any energized equipment (vaults, pads or boxes). Customer service outage time should be held to a minimum and shall not exceed one working day. All outages shall be coordinated with the City of Ukiah Electric Department.

AGENDA SUMMARY REPORT

SUBJECT: Consideration of Award for a One (1) Year Extension for Pre-Hospital Emergency Medical Services Consulting to AP Triton LLC in the Amount of $60,000.

DEPARTMENT: Fire

PREPARED BY: Doug Hutchison, Fire Chief

PRESENTER: Doug Hutchison, Fire Chief

ATTACHMENTS:

1. AP Triton - Phems - 2021-184 -A2 - Amendment

Summary: The Council will consider awarding a one-year extension of the agreement with AP Triton LLC for Pre-Hospital Emergency Medical Services consulting.

Background: The agreement with AP Triton LLC for Pre-Hospital Emergency Medical Services consulting expired on April 30, 2023.

Discussion: The Ukiah Valley Fire Authority (UVFA) has partnered with AP Triton LLC since 2019, for their expertise in system design and analysis of Pre-Hospital Emergency Medical Services (PHEMS).

As the City, and Fire Authority, continue to work with the County of Mendocino on the possible formation of a Joint Powers Agreement (JPA) for Pre-Hospital Emergency Medical Services (PHEMS) in the inland portions of the county, their continued support of staff will be required.

The agreement (Attachment 1) allows for two (2) one-year extensions by consent of both parties. Staff is asking the Council to extend the agreement an additional year, which will be the second extension of this agreement.

Recommended Action: Approve a one (1) year extension of our agreement with AP Triton LLC in the amount of $60,000 and authorize the City Manager to sign.

BUDGET AMENDMENT REQUIRED: No

City of Ukiah / Ukiah Valley Fire Authority
300 Seminary Avenue
Ukiah, CA 95482-5400

SUBJECT: Agreement for consulting services for PHEMS for Ukiah Valley Fire Authority

Dear Mr. Sangiacomo and Chief Hutchison:

The professional services agreement between AP Triton and the City of Ukiah (COU No. 2021-184), which was entered into effective May 1, 2021, and has been extended by mutual agreement to April 30, 2023. Both parties have expressed interest in extending the current professional services agreement for one year. Furthermore, there are no changes needed to any sections in the current agreement, including Exhibits A and B.

Therefore, by way of this letter, parties agree to:

- Extend the current professional services agreement for one year, May 1, 2023 through April 30, 2024.

This letter serves as a formal extension of the agreement once signed by both parties.

City of Ukiah

AGENDA SUMMARY REPORT

SUBJECT: Adoption of Resolution Identifying the 23/24 Slurry Seal Project as the Project Funded by SB1: The Road Repair and Accountability Act for 23/24; and Approval of Corresponding Budget Amendment.

DEPARTMENT: Public Works

PREPARED BY: Seth Strader, Administrative Analyst

PRESENTER: Tim Eriksen, Director of Public Works

ATTACHMENTS:

1. LSRcicoSummaryFy23Fy24
2. SB 1 Project List Resolution DRAFT
3. GIS PAGE 1 R1

Summary: Council will consider adopting a resolution to identify a slurry seal project on forty-six (46) city streets and roads which will utilize Senate Bill 1, The Road Repair and Accountability Act funds, in addition to bond revenue funds; and consider approving a corresponding budget amendment.

Background: With the adoption of Senate Bill 1 - the Road Repair and Accountability Act (SB 1) - into law, local agencies are required to submit a list of projects using the funding amount identified as the Road Maintenance Rehabilitation Account (RMRA). The City of Ukiah's estimated RMRA funding amount available for Fiscal Year 2023-24, is $402,341. Further detailed information on RMRA funding can be found in Attachment 1, an excerpt from the League of California Cities bulletin on transportation funding and the projected FY 2023-24 revenues.

Discussion: City Staff have reviewed the City's Pavement Management Program and identified a list of closely-knit city streets as well as Leslie Street and a portion of the airport for slurry seal to be applied to prolong the street's useful life. The engineer's estimate for the project is $708,109.41. RMRA funds would cover $402,341.00 of this project with 2022 Lease Revenue Bonds being used for the remaining street portions and airport funds for applicable sections.

As a condition to receive RMRA funding, cities are required to select a project through a City resolution (Attachment 2), which Council is being asked to adopt, and submit a copy of the resolution to the California Transportation Commission. A detailed map of the proposed project area can be found in Attachment 3.

A budget amendment will be required once the bids for the project are received and the contract is awarded, which will be in the new fiscal year.

Recommended Action: Adopt resolution identifying the 2023-24 Project Funded by SB 1: The Road Repair and Accountability Act; and approve corresponding budget amendment.

BUDGET AMENDMENT REQUIRED: No

CITY OF UKIAH RESOLUTION NO. 2023-

RESOLUTION ADOPTING A LIST OF PROJECTS FOR FISCAL YEAR 2023-24 FUNDED BY SB 1: THE ROAD REPAIR AND ACCOUNTABILITY ACT OF 2017

WHEREAS, Senate Bill 1 (SB 1), the Road Repair and Accountability Act of 2017 (Chapter 5, Statutes of 2017) was passed by the Legislature and Signed into law by the Governor in April 2017 to address the significant multi-modal transportation funding shortfalls statewide; and

WHEREAS, SB 1 includes accountability and transparency provisions that will ensure the residents of our City are aware of the projects proposed for funding in our community and which projects have been completed each fiscal year; and

WHEREAS, the City must adopt by resolution a list of projects proposed to receive fiscal year funding from the Road Maintenance and Rehabilitation Account (RMRA), created by SB 1, which must include a description and the location of each proposed project, a proposed schedule for the project's completion, and the estimated useful life of the improvement; and

WHEREAS, the City, will receive an estimated $402,341 in RMRA funding in Fiscal Year 2023-24 from SB 1; and

WHEREAS, this is the seventh year in which the City is receiving SB 1 funding and will enable the City to continue essential road maintenance and rehabilitation projects, safety improvements, repairing and replacing aging bridges, and increasing access and mobility options for the traveling public that would not have otherwise been possible without SB 1; and

WHEREAS, the City has undergone a robust public process to ensure public input into our community's transportation priorities/the project list; and

WHEREAS, the City used a Pavement Management System to develop the SB 1 project list to ensure revenues are being used on the most high-priority and cost-effective projects that also meet the community's priorities for transportation investment; and

WHEREAS, the funding from SB 1 will help the City maintain and rehabilitate 46 streets and roads, add active transportation infrastructure throughout the City this year and of similar projects into the future; and

WHEREAS, 2018 California Statewide Local Streets and Roads Needs Assessment found that the City of Ukiah's streets and roads are in a "poor" condition and this revenue along with Measure "Y" street maintenance sales tax revenue will help us increase the overall quality of our road system and over the next decade will bring our streets and roads into a "fair" condition; and

WHEREAS, the SB 1 project list and overall investment in our local streets and roads infrastructure with a focus on basic maintenance and safety, investing in complete streets infrastructure, and using cutting-edge technology, materials and practices.

NOW, THEREFORE IT IS HEREBY RESOLVED, ORDERED AND FOUND by the City Council of the City of Ukiah, State of California, as follows:

1. The foregoing recitals are true and correct.

2. The following list of newly proposed projects will be funded in-part or solely with Fiscal Year 2023-24 Road Maintenance and Rehabilitation Account revenues:

   Project Title: 2023 Slurry Seal Project
   Project Description: Slurry seal and restriping of 46 streets and roads within the City.
   Project Location: Portions of 46 streets W. Perkins St., W. Church St., W. Clay St., Jones St, S. Oak St., Leslie St., and various connecting streets primarily located on the central west side of the City.
   Estimated Project Schedule: Start (7/23)– Completion (8/23) based on the component being funded with RMRA funds
   Estimated Project Useful Life: 7 years

PASSED AND ADOPTED by the City Council of the County of Ukiah, State of California this 21st day of June, 2023, by the following roll call vote:

AGENDA SUMMARY REPORT

SUBJECT: Adopt a Resolution Approving a Side Letter Agreement to the Current Memorandum of Understanding Between the City of Ukiah and the International Brotherhood of Electrical Workers Local 1245, and authorize the City Manager to Execute.

DEPARTMENT: Human Resources / Risk Management

PREPARED BY: Sheri Mannion, H.R. Director/Risk Manager, Cindy Sauers, Electric Utility Director

PRESENTER: Cindy Sauers, Electric Utility Director; Sheri Mannioon, HR/Risk Management Director

ATTACHMENTS:

1. Side Letter Agreement Between COU and IBEW Local 1245
2. Resolution to Approve Side Letter between COU and IBEW Local 1245

Summary: Council will consider adopting a Resolution approving a Side Letter Agreement to the current Memorandum of Understanding (MOU) between the City of Ukiah and the International Brotherhood of Electrical Workers Local 1245 (IBEW Local 1245), and authorize the City Manager to execute.

Background: As part of the overall routine maintenance of the classification and compensation schedules for the City of Ukiah, the Human Resources Department is responsible for evaluating classifications, developing new classifications (including appropriate salary levels), examining salary grade adjustments, and making recommendations for additions, modifications, and corrections.

The Electric Utility Department has 14 budgeted positions in the IBEW Local 1245 bargaining unit, consisting of Linemen, Utility Technicians, and Engineering Technicians. All classifications within the unit are highly skilled, and require a substantial amount of experience and training. Qualified electrical workers in the Lineman and Utility Technician positions complete a minimum of a 42-month apprenticeship, a combination of class work and on-the-job training to attain the status of Journeyman. Recruitment and retention of these positions has become increasingly difficult as they are highly competitive.

In the past several years, attempts have been made to improve the Utility's success in recruitment for these positions. In spite of the offer of signing bonuses, relocation assistance and a housing allowance, the Utility continues to have two vacant lineman positions. The last successful recruitment of a lineman was over seven years ago. Additionally, the Utility offers an apprenticeship program and has developed excellent, local candidates over a four year timeframe, only to have three of the last four graduates leave for higher paying opportunities with Pacific Gas & Electric(PG&E) or contract work through the IBEW hiring hall. Attrition is an additional stressor on the Utility workforce, with 75% of the crew being eligible to retire within seven years. Proactive measures are required to ensure the Utility can operate for years to come.

The current Memorandum of Understanding between the City of Ukiah and IBEW Local 1245 is set to expire in September 2024. Due to the challenges in recruitment and retention, the City Manager, Human Resources Director and Electric Utility Director completed a comprehensive review of market wages for lineman and determined that the Utility has fallen below the market again. The City's negotiating team (City Manager and Human Resources/Risk Management Director), including the Electric Utility Director, requested to meet with IBEW Local 1245 to discuss.

Discussion: In review of the current market conditions, the City will deviate signifcanlly behind market wages for electrical utility workers by July 2023. The negotiating parties met and conferred, and reached a tentative side letter agreement. The proposed side letter (Attachment 1) is a one-year extension of the current MOU and contains the following notable changes:

- The term of the agreement shall be extended from September 19, 2018 through September 18, 2025.
- Effective upon the first full pay period following council approval and ratification of the agreement, unit members will receive salary adjustments as outlined in the side letter agreement.
- Effective the first full pay period in September 2023, all unit members will still receive a 5% equity adjustment, as agreed to in the current MOU.
- Effective the first full pay period following September 19, 2024, unit members will receive a 3% salary increase to base salary, unless the local economic benchmark – consisting of total revenue collected for property tax, sales tax and transient occupancy tax – falls below the combined total for the past audited Fiscal Year of 2022/2023. Should the audited revenues fall below the benchmark, the increase will revert to the CPI calculation of the average of U.S. City and SF-Oakland-Hayward figures for April, to a maximum of 3%. In no case shall this result in a decrease in compensation.
- Modifications to MOU provisions to bring them in-line with current practices and/or industry standards - Lineman Apprentice Program, High Voltage Electric Glove Certification, and Safety.

The City received notice that IBEW Local 1245 ratified the side letter agreement at a level consistent with City Council provided authorization. The remaining substantive provisions of the current MOU remain in effect. A budget amendment is not necessary; the first year costs of this agreement are included in the FY 2023/2024 budget, expected to be adopted at tonight's council meeting.

Both the City and IBEW Local 1245 recognize the need to offer competitive salaries and benefits in order to attract and retain highly qualified team members. The City is facing significant challenges attracting qualified electrical workforce candidates and is expecting continued natural attrition due to retirements in the near future. Wildfire mitigation and other safety programs statewide have greatly increased the need for qualified electric utility employees. Furthermore, other private and public utility agencies have offered substantial increases to their team members in an effort to retain and attract qualified electric utility employees. Without these increases our small City Utility runs a real risk of continuing to lose employees and not being able to replace them.

Staff recommends that Council adopt a Resolution (Attachment 2) approving the Side Letter Agreement with IBEW Local 1245 and authorizing the City Manager to execute.

Recommended Action: Adopt a Resolution approving a side letter agreement to the current Memorandum of Understanding between the City of Ukiah and IBEW Local 1245, and authorize the City Manager to Execute.

BUDGET AMENDMENT REQUIRED: N/A

CURRENT BUDGET AMOUNT: Included in the FY 2023/24 Budget.

PROPOSED BUDGET AMOUNT: Included in the FY 2023/24 Budget.

FINANCING SOURCE: Electric Enterprise Fund

PREVIOUS CONTRACT/PURCHASE ORDER NO.: N/A

COORDINATED WITH: Dan Buffalo, Finance Director; Sheri Mannion, HR/Risk Management Director

SIDE LETTER OF AGREEMENT

Between

The City of Ukiah

And

International Brotherhood of Electrical Workers, Local 1245

This Side Letter of Agreement ("Agreement") is entered into by and between the City of Ukiah ("City") and the International Brotherhood of Electrical Workers, Local 1245 ("Local 1245") (collectively referred to as "Parties"). Having met and conferred in accordance with Government Code section 3500, *et. seq.*, the City and the Local 1245, effective upon execution of this Agreement and adoption by City Council, agree to amend, add to and clarify the Parties' current Side Letter Agreements and Memorandum of Understanding ("MOU") as follows:

1. **Side Letter Agreement 1. and Article 3.1 Salary of the MOU is replaced with the following**:

   Effective upon the first full pay period following Council approval and ratification of this agreement, unit members will receive salary adjustments per the attached salary schedule (Exhibit A).

   Effective the first full pay period in September 2023, all unit members shall receive a 5% salary increase.

   Effective the first full pay period following September 19, 2024, all classifications will receive a 3% salary increase to base salary, unless the local economic benchmark – consisting of total revenue collected for property tax, sales tax and transient occupancy tax – falls below the combined total for the past audited Fiscal Year of 2022/2023. Should the audited revenues fall below the benchmark, the increase will revert to the CPI calculation of the average of U.S. City and SF-Oakland-Hayward figures for April, to a maximum of 3%. In no case shall this result in a decrease in compensation.

2. **Article 3.7 Lineman Apprentice Program of the MOU will be replaced with the following:**

   The Apprentice Program has established an Electric Lineman Apprentice Program.

   Apprentice positions will only be considered when a new Lineman position has been created or a vacancy exists. An apprentice position will be created solely at the discretion of the Electric Utility Director and the approval of the City Manager.

   A. Qualifications

   The Program duration will be forty-two months. To be eligible to enter into the apprenticeship program, a candidate must pass an appropriate entrance examination and meet whatever other minimum requirements may be established for that classification. Vacancies in apprenticeship program will be announced through the normal recruitment procedures.

B. Probationary Period

Employees in the Apprentice Lineman and Apprentice Utility Technician classifications remain on a probationary status that is in effect for 1 year. The City retains its sole discretion to determine whether an Apprentice completes probation.

C. Advancement

Progress through the apprentice program will require passing tests for each step of the program as part of the individual's participation in the Joint Apprenticeship Training Program as provided by the City. The Electric Superintendent shall review and evaluate the progress of each Apprentice during the program. Employees in the Apprentice classification shall receive a performance evaluation every six months during their apprenticeship and be eligible for a step increase upon receipt of a satisfactory evaluation.

3. Side Letter Agreement 2. and Article 3.13 High Voltage Electrical Glove Certification of the MOU will be replaced with the following:

Rubber glove certification is required for all Lineman within 60 days following their date of hire, subject to the City providing said training within that timeframe. The City will provide High Voltage Rubber Glove Certification training and refresher training for Journey level Lineman and apprentices.

4. Side Letter Agreement 3. and Article 25. Term of the MOU will be replaced with the following:

The term of this agreement shall be extended from September 19, 2018 through September 18, 2025.

5. Article XVI. SAFETY will be replaced with the following:

The City desires to maintain a safe place of employment for City employees and to that end, shall make all reasonable provisions necessary for the safety of employees in the performance of their work.

In order to accomplish this, the City shall:

a. Take steps to assure that capable, responsible supervision regularly make inspections of all operations on the job site.
b. Take adequate steps to control job hazards; both unsafe physical conditions, including methods and processes, and unsafe actions of people.
c. Assure that tailgate meetings are held on all jobs in order to brief the employees on hazards connected with the work to be performed, to plan the work and to emphasize safety in the performance of the work.
d. Hold regular monthly safety meeting for the purpose of reviewing accidents and preventing their recurrence, eliminating hazardous conditions, familiarizing employees with safe work procedures and applicable State Safety Orders and providing training in first aid.

16.1 Uniforms and Safety Equipment

City will comply with all applicable Title 8, SB198, Cal-OSHA, and Federal OSHA Safety rules.

A. Inclement Weather Gear

The City will provide rain and protective gear for all employees required to work outside in inclement weather, to include hat, coat, pants and boots.

B. Safety Clothing

If by law or regulation, due to hazard evaluation or Cal OSHA, an employee is required to wear Fire Retardant (FR) clothing on a daily basis, the City shall provide all required FR clothing. The City shall provide five (5) FR pants, and five (5) FR shirts annually and one (1) FR sweatshirt. This is required for all qualified electrical workers.

1) Uniforms

When and employee, who is not a qualified electrical worker, is required to wear a uniform on a daily basis, as determined by the Utility Director, the City will provide one shirt, selected by the City to wear during working hours, for every workday the employee is schedule to work.

2) Boots

Climbing Boots. As needed and determined by the Utility Director or designee, the City shall provide an employee who is required to wear climbing boots with one pair of climbing boots with a cost that does not exceed $400. The $400 may include maintenance and repair costs of the climbing boots including but not limited to: shoe laces, toe guards and insoles and shall not exceed the $400 annual cost. At the City's discretion, the City may provide climbing boots through any method that allows an employee to choose climbing boots that do not cost more than $400 and meet applicable safety requirements. Examples of methods the City could elect to use to provide climbing boots, depending on the circumstances, include, but are not limited to:

a. The City could authorize an employee to purchase climbing boots and submit the original receipt for reimbursement. The Reimbursement method requires the supervisor's advance authorization.
b. An employee could select appropriate climbing boots, and the City would order and pay for the selected boots.

Employees who do not require climbing boots, but work in the field and need work boots, the City will pay up to $300 boot allowance per fiscal year, to be reimbursed as needed upon submission of receipt.

6. This Agreement supersedes any provisions or language in previous policies, the Parties' current MOU and/or other documents that may conflict with the terms of this Agreement. All MOU articles, sections and/or supplements not identified herein are to remain as-is.

CITY OF UKIAH

RESOLUTION NO. [2023-XX]

RESOLUTION OF THE CITY COUNCIL OF THE CITY OF UKIAH APPROVING THE SIDE LETTER AGREEMENT BETWEEN THE CITY OF UKIAH AND INTERNATIONAL BROTHERHOOD OF ELECTRICAL WORKERS, LOCAL 1245

WHEREAS, the Memorandum of Understanding (MOU) is the collective bargaining agreement between the City of Ukiah and International Brotherhood of Electrical Workers, Local 1245 (IBEW Local 1245); and

WHEREAS, the current MOU between the City of Ukiah and IBEW Local 1245 is effective September 19, 2018 through September 18, 2024; and

WHEREAS, the Employee/Employer Relations Officer and Human Resources Director have met and conferred in good faith with representatives of IBEW Local 1245, and have reached a Side Letter Agreement and; and

WHEREAS, said Side Letter Agreement has been presented to the City Council for its consideration at its regular meeting on June 21, 2023;

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Ukiah that:

1. An amendment to the MOU with IBEW Local 1245 is hereby approved, a copy of said amendment entitled “Side Letter Agreement to the MOU between the City of Ukiah and IBEW Local 1245” is attached hereto, marked Exhibit A, and incorporated herein by reference.
2. The Resolution shall become effective June 21, 2023.

PASSED AND ADOPTED this 21st day of June, 2023 by the following roll call vote:

SIDE LETTER OF AGREEMENT

Between

The City of Ukiah

And

International Brotherhood of Electrical Workers, Local 1245

This Side Letter of Agreement ("Agreement") is entered into by and between the City of Ukiah ("City") and the International Brotherhood of Electrical Workers, Local 1245 ("Local 1245") (collectively referred to as "Parties"). Having met and conferred in accordance with Government Code section 3500, *et. seq.*, the City and the Local 1245, effective upon execution of this Agreement and adoption by City Council, agree to amend, add to and clarify the Parties' current Side Letter Agreements and Memorandum of Understanding ("MOU") as follows:

1. **Side Letter Agreement 1. and Article 3.1 <u>Salary</u> of the MOU is replaced with the following**:

   Effective upon the first full pay period following Council approval and ratification of this agreement, unit members will receive salary adjustments per the attached salary schedule (Exhibit A).

   Effective the first full pay period in September 2023, all unit members shall receive a 5% salary increase.

   Effective the first full pay period following September 19, 2024, all classifications will receive a 3% salary increase to base salary, unless the local economic benchmark – consisting of total revenue collected for property tax, sales tax and transient occupancy tax – falls below the combined total for the past audited Fiscal Year of 2022/2023. Should the audited revenues fall below the benchmark, the increase will revert to the CPI calculation of the average of U.S. City and SF-Oakland-Hayward figures for April, to a maximum of 3%. In no case shall this result in a decrease in compensation.

2. **Article 3.7 <u>Lineman Apprentice Program</u> of the MOU will be replaced with the following:**

   The Apprentice Program has established an Electric Lineman Apprentice Program.

   Apprentice positions will only be considered when a new Lineman position has been created or a vacancy exists. An apprentice position will be created solely at the discretion of the Electric Utility Director and the approval of the City Manager.

   A. <u>Qualifications</u>

   The Program duration will be forty-two months. To be eligible to enter into the apprenticeship program, a candidate must pass an appropriate entrance examination and meet whatever other minimum requirements may be established for that classification. Vacancies in apprenticeship program will be announced through the normal recruitment procedures.

B. Probationary Period

Employees in the Apprentice Lineman and Apprentice Utility Technician classifications remain on a probationary status that is in effect for 1 year. The City retains its sole discretion to determine whether an Apprentice completes probation.

C. Advancement

Progress through the apprentice program will require passing tests for each step of the program as part of the individual's participation in the Joint Apprenticeship Training Program as provided by the City. The Electric Superintendent shall review and evaluate the progress of each Apprentice during the program. Employees in the Apprentice classification shall receive a performance evaluation every six months during their apprenticeship and be eligible for a step increase upon receipt of a satisfactory evaluation.

3. **Side Letter Agreement 2. and Article 3.13 High Voltage Electrical Glove Certification of the MOU will be replaced with the following**:

Rubber glove certification is required for all Lineman within 60 days following their date of hire, subject to the City providing said training within that timeframe. The City will provide High Voltage Rubber Glove Certification training and refresher training for Journey level Lineman and apprentices.

4. **Side Letter Agreement 3. and Article 25. Term of the MOU will be replaced with the following:**

The term of this agreement shall be extended from September 19, 2018 through September 18, 2025.

5. **Article XVI. SAFETY will be replaced with the following:**

The City desires to maintain a safe place of employment for City employees and to that end, shall make all reasonable provisions necessary for the safety of employees in the performance of their work.

In order to accomplish this, the City shall:

a. Take steps to assure that capable, responsible supervision regularly make inspections of all operations on the job site.
b. Take adequate steps to control job hazards; both unsafe physical conditions, including methods and processes, and unsafe actions of people.
c. Assure that tailgate meetings are held on all jobs in order to brief the employees on hazards connected with the work to be performed, to plan the work and to emphasize safety in the performance of the work.
d. Hold regular monthly safety meeting for the purpose of reviewing accidents and preventing their recurrence, eliminating hazardous conditions, familiarizing employees with safe work procedures and applicable State Safety Orders and providing training in first aid.

16.1 Uniforms and Safety Equipment

City will comply with all applicable Title 8, SB198, Cal-OSHA, and Federal OSHA Safety rules.

A. Inclement Weather Gear

The City will provide rain and protective gear for all employees required to work outside in inclement weather, to include hat, coat, pants and boots.

B. Safety Clothing

If by law or regulation, due to hazard evaluation or Cal OSHA, an employee is required to wear Fire Retardant (FR) clothing on a daily basis, the City shall provide all required FR clothing. The City shall provide five (5) FR pants, and five (5) FR shirts annually and one (1) FR sweatshirt. This is required for all qualified electrical workers.

1) Uniforms

When and employee, who is not a qualified electrical worker, is required to wear a uniform on a daily basis, as determined by the Utility Director, the City will provide one shirt, selected by the City to wear during working hours, for every workday the employee is schedule to work.

2) Boots

Climbing Boots. As needed and determined by the Utility Director or designee, the City shall provide an employee who is required to wear climbing boots with one pair of climbing boots with a cost that does not exceed $400. The $400 may include maintenance and repair costs of the climbing boots including but not limited to: shoe laces, toe guards and insoles and shall not exceed the $400 annual cost. At the City's discretion, the City may provide climbing boots through any method that allows an employee to choose climbing boots that do not cost more than $400 and meet applicable safety requirements. Examples of methods the City could elect to use to provide climbing boots, depending on the circumstances, include, but are not limited to:

a. The City could authorize an employee to purchase climbing boots and submit the original receipt for reimbursement. The Reimbursement method requires the supervisor's advance authorization.
b. An employee could select appropriate climbing boots, and the City would order and pay for the selected boots.

Employees who do not require climbing boots, but work in the field and need work boots, the City will pay up to $300 boot allowance per fiscal year, to be reimbursed as needed upon submission of receipt.

6. This Agreement supersedes any provisions or language in previous policies, the Parties' current MOU and/or other documents that may conflict with the terms of this Agreement. All MOU articles, sections and/or supplements not identified herein are to remain as-is.

MEETING DATE/TIME: 6/21/2023

ITEM NO: 2023-2814

City of Ukiah

AGENDA SUMMARY REPORT

SUBJECT: Approval of Contract Amendment for Additional SCADA System Upgrade Work at the Water Treatment Plant, and Approval of Corresponding Budget Amendment Using Water Reserve Funds in the Amount of $133,869.21.

DEPARTMENT: Public Works

PREPARED BY: Seth Strader, Administrative Analyst

PRESENTER: Sean White, Water Resources Director

ATTACHMENTS:

1. February 3, 2021, Staff Report - WTP SCADA Upgrade
2. JM Original Proposal
3. JM CO 1

Summary: Council will consider approval of a contract amendment for additional SCADA system upgrade work for the Water Treatment Plant, and consider approval of a corresponding budget amendment using Water Reserve Funds in the amount of $133,869.21.

Background: On March 3, 2021, JM Integration, Inc was awarded the contract for SCADA system upgrades at the Water Treatment Plant, wells and other supporting facilities. See Attachment 1 for a copy of the ASR Award and Attachment 2 for the original proposal. The upgrade work consists of replacing the original SCADA system installed in 2005, which has not been supported by the manufacturer since 2017. Upgrades include expanded functionality, cloud access and training Staff on the new system.

Discussion: As JM Integration began the upgrade process, it was determined that the existing controllers would need to be changed to allow for the latest required software, future programming and expanded ethernet connectivity and security. These controllers will be supported by two Dell servers and workstations. JM Integration proposed a change for this additional work. See Attachment 2. Staff found the proposed fee to commensurate with the Scope of Work.

The budget amendment, if approved, will authorize increasing this project's total to $393,625.21.

Recommended Action: Approve a Contract Amendment for additional SCADA system upgrade work for the Water Treatment Plant, and consider approving a corresponding budget amendment using Water Reserve Funds in the amount of $133,869.21.

BUDGET AMENDMENT REQUIRED: YES

CURRENT BUDGET AMOUNT: 82027111.80100.18050: $0

PROPOSED BUDGET AMOUNT: 82027111.80100.18050: $133,869.21

FINANCING SOURCE: Water Reserve Funds

City of Ukiah

AGENDA SUMMARY REPORT

SUBJECT: Approval of Agreement with JM Integration for SCADA Upgrades at the Water Treatment Plant in the amount of $259,756, and Approval of Corresponding Budget Amendment.

DEPARTMENT: Water Resources
PREPARED BY: Sean White, Water Resources Director, Jarod Thiele, Public Works Management Analyst
PRESENTER: Consent Calendar

ATTACHMENTS:
1. JM Integration Proposal

Summary: Council will consider approving an agreement with JM Integration for SCADA upgrades at the Water Treatment Plant in the amount of $259,756, and approving a corresponding budget amendment.

Background: The Supervisory Control and Data Acquisition (SCADA) System at the Water Treatment Plant is the main software tool for managing the City's drinking water system. The current system was installed in 2005. The system has become obsolete and the manufacturer stopped support in 2017. Since that time, the Water Resources Department has been working with the Procurement Department to secure a new vendor in order to upgrade the system.

Discussion: A Request for Proposal (RFP) was released and three firms responded: JM Integration, Systems Integrated and Telstar Instruments. Staff reviewed the proposals. The proposal received from JM Integration (Attachment 1) was found the most responsive, with a proposed amount of $259,756. Telstar Instruments submitted a price of $48,700, but the price did not cover the scope as requested. Systems Integrated submitted a price of $295,900.

Staff is therefore recommending the approval of a contract with JM Integration in the amount of $259,756, as well as approval of a corresponding budget amendment.

Please note that this project was on the 5-Year Capital Improvement Plan, and budget was approved for the 19/20 fiscal year. However, at the time it was known that this would not be awarded in that year, it was too late to amend the budget for the 20/21 fiscal year - thus the corresponding request for a budget amendment.

Recommended Action: Approve agreement with JM Integration for SCADA upgrades at the Water Treatment Plant in the amount of $259,756, and approve corresponding budget amendment.

BUDGET AMENDMENT REQUIRED: Yes
CURRENT BUDGET AMOUNT: 82027111.80100.18050: $0
PROPOSED BUDGET AMOUNT: 82027111.80230.18050: $259,756
FINANCING SOURCE: Water Fund

A. Cover Letter

JM Integration LLC is pleased to submit this proposal for services to support City of Ukiah in achieving its goals for the SCADA System Upgrade and Ongoing Maintenance at the Water Treatment Plant

JM Integration LLC is a leading systems integrator specializing in industrial automation and controls for water and wastewater applications. With over 20 years of experience in electrical, instrumentation, and PLC/HMI programming we can offer a wide range of services that is both professional and cost-effective. We are committed to exceeding our clients' needs by providing simple effective solutions based on industry standards and best practices that are functional, sustainable and value driven.

JM Integration LLC was established February 6, 2018 as a single member LLC located in Vacaville, California. Jack Miller is both the owner and operator, a bona fide Jack of all trades. Although we are a relatively new company, our personal experience in the Water and Wastewater Industry is not. With over 20 years of experience working specifically but not exclusively on:

- Allen Bradley
- Automation Direct
- GE
- Siemens
- Emerson
- Rockwell Software
- Wonderware
- Schneider Electric
- Inductive Automation

Most of these are considered to be the top manufacturers in automation and control products and we take pride in staying up to date on the latest technology so we can provide our clients' with the best solutions our industry has to offer.

We believe our wide range of services is what sets us apart from other providers. JM Integration LLC currently has no employees. At first glance, that may seem like a disadvantage but when we arrive on site or answer your call you have electrical, instrumentation and PLC/HMI programming at your full disposal. Most companies must coordinate and schedule different departments within their organizations, and even some may not provide all these services. This can sometimes lead to further delays and additional costs which in turn increases downtime on mission critical processes.

Our mission is to **build trust and deliver value**. We do this by applying a 3-step process in every project:

1. We listen. Listening is key to all effective communication. Without the ability to listen effectively, messages are easily misunderstood. We realize that no one understands a process or piece of equipment better than the people working on it every day. By taking the first step and listening to our customers ensures understanding, improves accuracy, and places value on your opinions and experience.

2. We plan. Planning facilitates goals and determines success. It reduces risk and increases efficiency. Having a plan keeps everyone on the same page. It is an invaluable tool in the decision-making process during a project. By combining customer input with industry standards, we create a plan that guarantees the best service every time.

3. We exceed. We believe that by giving our customers more than what is expected we are providing value-added service. It says that we care and have a strong attention to detail. By listening to your needs and creating a plan for success, we are given the opportunity to exceed expectations. We are customer focused and your experience is at the center of every decision we make.

Thank you for your time and consideration,

Jack Miller | Owner | JM Integration LLC
jack.miller@jmintegration.com

B. Project Understanding and Proposed Approach

Scope of Work

The primary goal of this project is to provide services related to upgrading the existing SCADA system at the City's Water Treatment Plant. The City would also like to add several additional facilities for monitoring to the proposed new SCADA system. This includes but is not limited to the following locations:

- Well 3
- Well 7
- Well 8
- Ford Lift Station
- El Dorado Lift Station
- Vichy Lift Station

The selected contractor shall provide engineering, installation and wiring for new PLCs, conversion of the general control programs to the new PLCs including documentation, all programming for the SCADA and alarms, testing of system, as-built drawings and copies of all logic programming. It is our understanding that the overall project will be broken down into these 5 general areas:

1) Review the existing SCADA system for the Water Utility
2) Propose recommended update to software and hardware,
3) Complete recommended updates,
4) Provide post-project support, and
5) On-going maintenance for an initial 3-year term after project completion.

To ensure a successful execution of this project and its goals we recommend organizing the project into 3 main components: (1)Network Communications, (2)Process Automation System (PAS), and (3)Supervisory Control and Data Acquisition (SCADA). Similarly to building a house a robust and reliable communication network is the foundation of a well operating Industrial Control System (ICS). Without this, the accuracy and integrity of the data you are monitoring and controlling is considered untrustworthy and will cause operations to doubt the system. The PAS is the link between your process and SCADA. Creating clear and concise control strategies will provide effective and efficient process control. Collaboration with the City staff and JM Integration LLC's industry experience results in a customized solution based on industry standards and best practices. The final piece of the execution phase is SCADA. By this stage of the project, we will have gained tremendous insight on how the system will be used and can design an interface that is functional, sustainable and value driven. In todays world with the advancement of technology we can do more with less. Because of this, the demands of an operator require remote access and controls that are safe and secure as oppose to a standard stationary console. This can be accomplished by using Cybersecurity standards. An assessment can be performed to determine what specific needs there are without having to sacrifice accessibility and performance. Once the Site Acceptance Test (SAT) is complete we will provide training for the City's operation and maintenance staff to familiarize themselves with the new SCADA system.

The following tasks shall be completed to fulfill the aforementioned project goals. It is by these deliverables that the success of the project will be determined.

Task 1 – Design Planning Services

1.1 Develop Communications Network Design

The existing local control network is a combination of Category 5 (CAT5) and Fiber-optic cables that communicate via Ethernet, serial cables that communicate via RS-232, and wireless technology using unlicensed radios (900MHz), mobile broadband and Wi-Fi. Furthermore, existing documentation no longer provides an accurate depiction of the network and makes troubleshooting cumbersome. To remedy this, a simple and reliable solution must first be developed. For example, adding high availability features which provide redundancy and fault tolerance ensure this network is always available even in the event of a failure.

1.1.1 Collaborate with the City of Ukiah Project Management Team (PMT) to determine hardware and software specifications based on industry standards and best practices.
1.1.2 Collaborate with the selected network equipment vendor to determine hardware and software specifications based on industry standards and best practices.
1.1.3 Design a network system that provides an acceptable level of redundancy and fault tolerance.
1.1.4 Design a network system that provides an acceptable level of security and control access
1.1.5 Provide drawings and specifications for the upgrade or replacement of existing communication network for SCADA and programmable logic controllers (PLCs).

1.2 Develop Cloud SCADA Architecture Design

Cloud based servers are increasingly common, but it is important to educate your organization on the risks associated with them. Cyberspace and its underlying infrastructure are vulnerable to a wide range of risk stemming from both physical and cyber threats and hazards. This design scheme will provide some guidelines that address many potential security issues and offer recommendations on how to better protect your system. This type of architecture is ideal in smaller organizations since you do not have to worry about maintaining a server. Additionally, there is no on-site IT staff required to monitor the system.

1.2.1 Collaborate with the City of Ukiah PMT to determine hardware and software specifications based on industry standards and best practices.
1.2.2 Collaborate with the selected SCADA software vendor to determine hardware and software specifications based on industry standards and best practices.
1.2.3 Design a SCADA system that provides an acceptable level of redundancy and fault tolerance
1.2.4 Design a SCADA system that provides an acceptable level of security and control access
1.2.5 Provide drawings and specifications for the upgrade or replacement of existing SCADA software architecture.

1.3 Develop Programmable Logic Controller (PLC) Standards

To simplify design, improve operations, and increase safety and reliability, standards that define how PLCs are to be programmed and installed will be needed. When standards are in place, there are fewer problems that could lead to costly delays or safety incidents.

1.3.1 Collaborate with the City of Ukiah PMT to determine hardware and software specifications based on industry standards and best practices.
1.3.2 Collaborate with the selected PLC vendor to determine hardware and software specifications based on industry standards and best practices.
1.3.3 Provide documentation that defines the standards to be used for the supply and programming of all new PLCs. This includes hardware, software, and wiring tag designations.

1.4 Develop Human-Machine Interface (HMI) Standards

To simplify design, improve operations, and increase safety and reliability, standards that define how HMIs are to be programmed and installed will be needed. When standards are in place, there are fewer problems that could lead to costly delays or safety incidents.

1.4.1 Collaborate with the City of Ukiah PMT to determine development and software specifications based on industry standards and best practices.
1.4.2 Collaborate with the selected HMI vendor to determine hardware and software specifications based on industry standards and best practices.
1.4.3 Provide documentation that defines the standards to be used for the development and programming of all new HMIs. This includes database definitions, displays, access controls, security, alarms, and templates.

1.5 Develop Asset Tag Standards

The need to share data among plant floor and management is becoming more common. As we continue to advance with technology and automation, a common standardized naming system for assets will be developed that will enhance integration capabilities to other types of business software such as Computerized Maintenance Management Software (CMMS) or Systems, Applications and Products (SAP).

1.5.1 Collaborate with the City of Ukiah PMT to determine development and specifications of all new and upgraded asset tags based on industry standards and best practices.
1.5.2 Provide documentation that defines the standards to be used for the development and identification of asset tags throughout the SCADA system.

1.6 Develop Control Strategies

The existing programming will need to be converted to the new programming language and to comply with the standards developed under Task 1.3. Additional monitoring and controls may need to be developed, as determined during detailed design. Therefore, it is recommended that control strategy narratives be developed for all PLCs.

1.6.1 Collaborate with the City of Ukiah PMT to design specifications based on existing operations, industry standards and best practices.
1.6.2 Develop process and instrumentation diagrams (P&IDs) from existing plant drawings and documentation, based on as-built drawings from the 1992 and 2005 projects.
1.6.3 Develop narratives for control strategies based on existing logic programming, and include additional monitoring and controls determined during design.

1.7 Develop PLC Panels Design

The existing PLCs are GE Series 90-30 controllers and have reached the end of their lifecycle on October 1, 2017. Replacement of these controllers is an essential element of the SCADA upgrade process. Some examples of things to consider when selecting and designing are reliability, serviceability, cost, long-term effectiveness, compatibility, and vendor support.

1.7.1 Collaborate with the City of Ukiah PMT to design specifications based on existing operations, complexity of the process developed under Task 1.6, communication protocols developed under Task 1.1, and industry standards and best practices for the replacement of all PLCs.
1.7.2 Provide drawings and specifications that define the guidelines to be used for the manufacturing of all new PLC control panels.

1.8 Develop Execution Documentation

The final step in the design phase is to prepare construction documents for the execution phase of the City of Ukiah SCADA Improvements Project. These documents will combine most of the drawings and specifications developed in the preceding Tasks. The success of this project will be determined by the adherence to the guidelines and standards for the manufacturing, installation, programming, testing and operation of a new SCADA system.

1.8.1 Drawings will be prepared using AutoCAD or similar. 11”x17” will be provided in the submittal
1.8.2 Specifications will be prepared using Microsoft Word. PDF format will be provided in the submittal.

Task 2 – Design Execution Services

2.1 Project Management Team

Provide overall project management, which includes supervision of work, planning and monitoring schedule, reviewing, and submitting invoices, coordination with City of Ukiah staff, and training.

2.1.1 Documentation will include project scope, organization chart, roles and responsibilities, communication protocols, schedules, task assignments and other items as needed.
2.1.2 Coordinate meetings and prepare agendas as needed, draft and final minutes.
2.1.3 Prepare and provide invoices, field reports, purchasing documents, and other items as needed upon request.
2.1.4 Coordinate and provide training of new SCADA system for City of Ukiah staff.

2.2 Build and Commission New PLC Panels

The existing treatment facility must remain functional during the construction periods. Modification of project execution elements must be sequenced to allow the treatment process to function without interruption of treatment capability.

2.2.1 All other existing PLCs shall remain operational until cut over to the new PLCs is completed.
2.2.2 All new PLCs shall be fully tested and approved by City of Ukiah staff before installation.
2.2.3 Build, install & test new Package Plant Control Panel (PPCP) PLC panel. After completion, removal of pre-existing PLC panel.
2.2.4 Build, install & test new High Service Pump Station (HSPS) PLC panel. After completion, removal of pre-existing PLC panel.
2.2.5 Build, install & test new Raw Water Pump Station (RWPS) PLC panel. After completion, removal of pre-existing PLC panel.

2.3 Build and Commission New SCADA Software

The existing treatment facility must remain functional during the construction periods. Modification of project execution elements must be sequenced to allow the treatment process to function without interruption of treatment capability.

2.3.1 All existing operator workstations shall remain operational until cut over to the new SCADA system is completed.
2.3.2 All new HMIs shall be fully tested and approved by City of Ukiah Supervisor before installation. Coordinate with JM Integration LLC staff for location of new thin client console.
2.3.3 Build, install & test new SCADA software. After completion, removal of pre-existing SCADA software and related equipment.

2.4 Programming Services

Provide system integration by way of PLC/HMI programming and development, startup and testing as defined by role of System Integrator in the City of Ukiah SCADA Improvements Project documents.

2.4.1 All hardware and software for this project shall be furnished and installed by JM Integration LLC
2.4.2 Develop, install & test new Package Plant Control Panel (PPCP) PLC/HMI programming using the corresponding control strategy.
2.4.3 Develop, install & test new High Service Pump Station (HSPS) PLC/HMI programming using the corresponding control strategy.
2.4.4 Develop, install & test new Raw Water Pump Station (RWPS) PLC/HMI programming using the corresponding control strategy.

2.5 Install RTU Communications

The existing facilities must remain functional during the construction periods. Modification of project execution elements must be sequenced to allow the process to function without interruption of treatment capabilities. Provide system integration by way of telemetry programming and development, startup and testing as defined by role of System Integrator in the City of Ukiah SCADA Improvements Project documents.

2.5.1 All hardware and software for this project shall be furnished and installed by JM Integration LLC
2.5.2 Install & test new communications equipment including programming and integration into new SCADA system

Task 3 – Support and Ongoing Maintenance

3.1 Post Project Support

Once the Site Acceptance Test (SAT) is complete we will provide training for the City's operation and maintenance staff to familiarize themselves with the new SCADA system.

3.2 Ongoing Maintenance

Responding to requests promptly and following through on promises in a timely manner is important as this demonstrates reliability. In addition to regularly submitted documents such as field reports and invoices, copies and other records can be provided upon request. Our office provides all necessary space and support to operate at no additional cost or expense to customers.

Our normal business hours are Monday-Friday from 9 AM to 5 PM. We can be reached outside normal business hours by visiting our website https://www.jmintegration.com/contact or calling (888) 536-8623. Calls are answered in the order received and response times are typically within 2 hours.

Deliverables

- SCADA system documentation, as requested
- Onsite support, as needed
- Remote support, as needed

On-site Support Service Response Time

JM Integration LLC is available to respond to any emergency or troubleshooting calls on a 24/7 basis, including weekends and holidays. Typical response time for non-emergency requests is less than 2 hours of receipt of the request with a maximum of 4 hours. On-site support is provided in a timely manner and can be scheduled within 24 hours.

Virtual Private Network Access

JM Integration LLC maintains reliable internet access and understands Virtual Private Network (VPN) technology. We are familiar and help several water wastewater customers using this and other methods such as LogMeIn, TeamViewer, VNC, etc.

C. Project Team

Jack Miller is both the owner and operator and has over 20 years of experience working with industrial automation and controls. JM Integration LLC will perform all tasks and responsibilities, no subconsultants or subcontractors will be used for this project.

JACK MILLER

I love innovation and problem-solving. Over the course of my career I have been fortunate enough to experience first-hand how each part of the process is put together which allows me to have a deep level of understanding.

My mission is to deliver the best customer service by exceeding clients' needs and providing simple effective solutions based on industry standards and best practices that are functional, sustainable and value driven.

Every day is another opportunity to build trust and deliver value to others.

EXPERIENCE

California Air National Guard Financial Management
May 2019–Present
Financial Management specialists manage the accounting records and systems. From determining the availability of funds to processing the dispersal of payments to performing audits, we review and approve financial data to ensure that our funds are being utilized responsibly and efficiently.

JM Integration LLC Owner
February 2018–Present
JM Integration LLC is a systems integrator specializing in industrial automation and controls for water and wastewater applications. With over 20 years of experience in electrical, instrumentation, and PLC/HMI programming we can offer a wide range of services that is both professional and cost-effective. We are committed to exceeding our clients' needs and providing simple, effective solutions based on industry standards that are functional, sustainable and value driven.

Telstar Instruments Senior Instrument Specialist/Programmer
April 2013–March 2018
Design, install, or repair electronic equipment for industrial automation. Establish and maintain proper business relationships with customers and peers as well as understanding process controls, electrical drawings, networking technologies and several types of computer programming platforms. Complete projects within budget and on schedule, communicate effectively with team members.

City of Napa Control System Administrator
March 2010–April 2013
Under general direction, oversees the system functions and staff of the water treatment facilities responsible for the maintenance, repair, replacement, design and calibration of process instrumentation, electronic, electrical and mechanical instrumentation and equipment employed in the operation of the water treatment plants and pumping stations. Create new and modify existing PLC/HMI programming, SCADA applications and data collection used for reporting and compliance.

Telstar Instruments PLC/HMI Programmer
January 2006–March 2010
Design, develop, and troubleshoot new and existing PLC/HMI programming. Provide commissioning and startup support for SCADA/DCS systems and work with others as needed to provide insight on the functionality of any controls component. Train customer end users on functionality of the system and provide documentation such as user manuals, control narratives, etc.

Telstar Instruments Instrumentation & Controls Technician
January 2001–January 2006
Inspect, test, calibrate, repair, and adjust instruments that detect, measure, and record changes in industrial environments. Provide in-depth technical knowledge on projects and assist engineers in improving instrument and system performance.

Telstar Instruments Industrial Electrician
October 1997–January 2001
Install, maintain, and repair electrical components, such as control panels. Working in industrial plants and facilities, job sites, or shop environments. Make decisions based on blueprints, schematics, or instructions. Extensive knowledge of electrical safety codes and regulations.

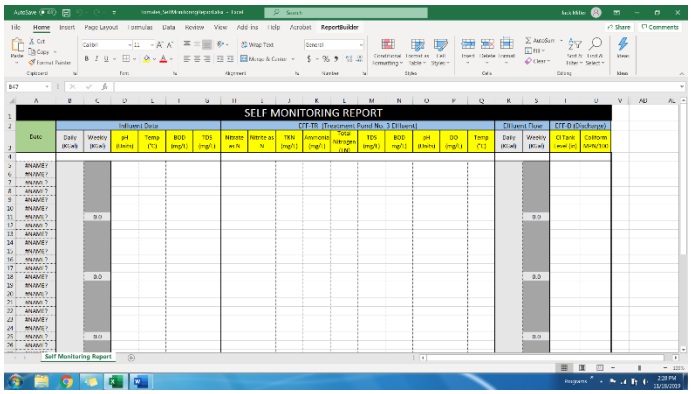
D. Experiences and References

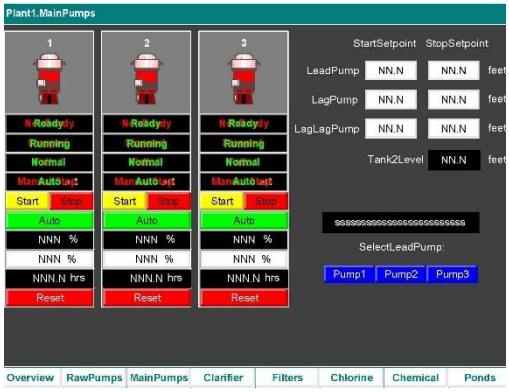
North Bay Regional Water Treatment Plant (NBRWTP): SCADA Upgrade
Brandan Hiltman, Plant Manager (707) 249-1234
bhiltman@fairfield.ca.gov



Performed upgrade of existing control system to a PlanPAx certified control system. PlantPAx is a series of standards set by Rockwell Automation to guarantee delivery of a high availability modernized Distributed Control System (DCS) platform. Existing PLC programming was converted to new PLCs using project specifications control strategies. Collaboration with the City IT staff to implement safe and reliable networking capabilities (VLANs, VPN, etc.) and a virtualized HMI environment. *Note: this experience was performed during a previous employment. The example is shown to display the intellectual property gained.*

Syar Industries: Recycle Plant Upgrade
Ian Anderson, Plant Manager (707) 975-7632
ianderson@syar.com

Replaced existing controls programming and interface for Recycle Plant process. No documentation was provided, control narratives were created from scratch by collaboration with operators and supervisors. Automation Direct PLCs and HMI hardware and software were used to provide automatic and manual controls with features such as bumpless transfer, alarms, and interlocks. Ongoing maintenance and support are provided as needed.



Tomales Village Community Services District (TVCSD): Monthly Reports and Troubleshooting
Jose Ortiz, General Manager (707) 330-3542
jose91946@sbcglobal.net

Tomales Village Community Services District repaired existing reports spreadsheet using ReportBuilder software. Complete rebuild of reports SQL database, ScadaPhone application, Server OS, and FactoryTalk View SE project from previous versions (RSView32), including alarm notifications, data logs and trends. Performed Cybersecurity assessment and provided recommendations based on industry standards and best practices. Replaced or repaired non-operational instrumentation and calibrated for service and verified scaling against SCADA. On-site services are provided as needed.

Solano Irrigation District (SID): Cement Hill Plant SCADA Upgrade
Jeff Sullivan, IC Supervisor (707) 249-3482
jsullivan@sidwater.org

Upgraded existing SCADA system with new PLCs and SCADA server(s) using Schneider Electric ClearSCADA for the main HMI server and Rockwell Automation FactoryTalk View ME for the remote PLC panels. The project included new electrical distribution, instrumentation, control panels and computer hardware/software components. Two nearly identical water treatment plants running side by side with ethernet communications and a chemical feed control system. State reporting and historical data logging were also a part of this project. Siemens flowmeters were installed and calibrated for the chemical feed process. *Note: this experience was performed during a previous employment. The example is shown to display the intellectual property gained.*

City of Ukiah Water Treatment Plant: Repair/Update SCADA Servers
Michelle Whyburn, Plant Manager (707) 489-3927
mwhyburn@cityofukiah.com

Installed and configured updated SCADA equipment and software such as hard drives, memory, UPS backup, networking, radios, and PC peripherals. Most current revisions of SCADA software and operating system were installed to bring system up to date. Communication failures and alarm notifications were repaired, and system was made operational.

F. Cost Proposal

JM Integration LLC cost proposal includes a Not-to-exceed (NTE) amount for all work identified in the Scope of Work section. Travel expenses are in accordance with our current fee schedule which is included as part of this proposal. This NTE cost proposal includes a detailed bill of materials (BOM) and labor for a total of **$259,755.88**.

Labor

TASK	DESC	HRS	RATE	COST
1	**Design Planning Services**			
	PMP	32	$ 170.00	$ 5,440.00
	ENGR	150	$ 140.00	$ 21,000.00
	PROG	0	$ 130.00	$ -

	ELEC	0	$ 120.00	$ -

Monthly Invoices

JM Integration LLC shall provide detailed monthly invoices for completed tasks or hardware/software received. Invoices will include but not be limited to:

- number of hours per task and associated hourly rate(s)
- field service report(s)
- calibration data sheet(s), if applicable

JMIntegration
Listen. Plan. Execute.

BILLING RATES
Rev20201201

License # 1040899

December 1, 2020

The following rates will be used without increase through December 30, 2021 when preparing fee proposals for specific task orders. All services shall be compensated based on the hourly rates schedule.

Rates

Professional Services	Standard ($/hr)
Project Management	170
Engineering	140
Programming	130
Electrical	120
Instrumentation	110
Administrative Support	90
Panel Shop	80

Service calls carry a 4-hour minimum per person. Overtime rates are 1.5x the standard rate and will be charged for hours worked more than 8 hours per day (5 days per week, Monday through Friday). Saturdays and Sundays are also billed at the Overtime rate. National Holidays and City of Ukiah Holidays are invoiced at the Holiday rate which 2x the standard rate. Travel time shall be billed at the corresponding Rate.

Travel

	Price
POV (Privately Owned Vehicle) Mileage	Standard Government Rate
Airfares	At cost plus 10%
Meals & Incidental	Standard Government Rate
Lodging	At cost plus 10%

Materials

Material purchases are invoiced at cost plus:

Price	Markup
$0-999	30%
$1000-4999	20%
$5000 or more	10%

Tools & Equipment

Standard tools are included. Special test equipment that may be required will be rented or purchased and billed at cost.

250 Brookdale Drive, Vacaville CA 95687 • Office (888) 536-8623 • Fax (707) 890-3595

G. Proposed Project Schedule

Proposed project schedule is shown below.

TASK	DESCRIPTION	START	END
1.1	**Develop Communications Network Design**	2/1/21	2/12/21
1.1.1	Collaborate with the UWTP Project Management Team (PMT) to determine hardware and software specifications based on industry standards and best practices.		
	Meeting to discuss existing network architecture		
	Provide draft of proposed new network design that addresses customer inputs and industry standards and best practices		
	City review for approval (document review process)		
1.1.2	Collaborate with the selected network equipment vendor to determine hardware and software specifications based on industry standards and best practices.		
	Meeting with vendors to select hardware based on approved design requirements		
	Provide hardware and software specifications from selected vendor equipment based on approved design requirements		
	City review for approval (document review process)		
1.1.3	Design a network system that provides an acceptable level of redundancy and fault tolerance.		
	Provide draft of proposed new network design that addresses redundancy and fault tolerance using the approved design requirements		
	City review for approval (document review process)		
1.1.4	Design a network system that provides an acceptable level of security and control access		
	Provide draft of proposed new network design that addresses security and control access using the approved design requirements.		
	City review for approval (document review process).		
1.1.5	Provide drawings and specifications for the upgrade or replacement of existing communication network for SCADA and programmable logic controllers (PLCs).		
	Provide draft of proposed new design drawings and specifications.		
	City review for approval (document review process).		
1.2	**Develop Cloud SCADA Architecture Design**	2/15/21	2/26/21
1.2.1	Collaborate with the UWTP PMT to determine hardware and software specifications based on industry standards and best practices.		
	Meeting to discuss cloud hosting solutions.		
	Provide draft of proposed Cloud SCADA Architecture Design that addresses customer inputs and industry standards and best practices.		
	City review for approval (document review process)		
1.2.2	Collaborate with the selected SCADA software vendor to determine hardware and software specifications based on industry standards and best practices.		
	Meeting with vendors to select hardware and software based on approved design requirements		
	Provide hardware and software specifications from selected vendor equipment based on approved design requirements		
	City review for approval (document review process)		
1.2.3	Design a SCADA system that provides an acceptable level of redundancy and fault tolerance.		
	Provide draft of proposed new network design that addresses redundancy and fault tolerance using the approved design requirements.		
	City review for approval (document review process).		
1.2.4	Design a SCADA system that provides an acceptable level of security and control access.		
	Provide draft of proposed new network design that addresses security and control access using the approved design requirements.		

	City review for approval (document review process)		
1.2.5	Provide drawings and specifications for the upgrade or replacement of existing SCADA software architecture.		
	Provide draft of proposed new design drawings and specifications		
	City review for approval (document review process)		
1.3	**Develop Programmable Logic Controller (PLC) Standards**	3/1/21	3/5/21
1.3.1	Collaborate with the UWTP PMT to determine hardware and software specifications based on industry standards and best practices.		
	Meeting to discuss existing PLC Standards		
	Provide draft of proposed PLC Standards that addresses customer inputs and industry standards and best practices		
	City review for approval (document review process)		
1.3.2	Collaborate with the selected PLC vendor to determine hardware and software specifications based on industry standards and best practices.		
	Meeting with vendors to select hardware and software based on approved standards and specifications		
	Provide hardware and software specifications from selected vendor equipment based on approved standards and specifications		
	City review for approval (document review process)		
1.3.3	Provide documentation that defines the standards to be used for the supply and programming of all new PLCs. This includes hardware, software, and wiring tag designations.		
	Provide draft of proposed standards and specifications		
	City review for approval (document review process)		
1.4	**Develop Human-Machine Interface (HMI) Standards**	3/1/21	3/5/21
1.4.1	Collaborate with the UWTP PMT to determine development and software specifications based on industry standards and best practices.		
	Meeting to discuss existing HMI Standards		
	Provide draft of proposed HMI Standards that addresses customer inputs and industry standards and best practices		
	City review for approval (document review process)		
1.4.2	Collaborate with the selected HMI vendor to determine hardware and software specifications based on industry standards and best practices.		
	Meeting with vendors to select hardware and software based on approved standards and specifications		
	Provide hardware and software specifications from selected vendor equipment based on approved standards and specifications		
	City review for approval (document review process)		
1.4.3	Provide documentation that defines the standards to be used for the development and programming of all new HMIs. This includes database definitions, displays, access controls, security, alarms and templates.		
	Provide draft of proposed standards and specifications		
	City review for approval (document review process)		
1.5	**Develop Asset Tag Standards**	3/1/21	3/5/21
1.5.1	Collaborate with the UWTP PMT to determine development and specifications of all new and upgraded asset tags based on industry standards and best practices.		
	Meeting to discuss existing Asset Tag Standards		
	Provide draft of proposed Asset Tag Standards that addresses customer inputs and industry standards and best practices		
	City review for approval (document review process)		
1.5.2	Provide documentation that defines the standards to be used for the development and identification of asset tags throughout the SCADA system.		
	Provide draft of proposed standards and specifications		

	City review for approval (document review process)		
1.6	**Develop Control Strategies**	3/8/21	3/19/21
1.6.1	Collaborate with the UWTP PMT to design specifications based on existing operations, industry standards and best practices.		
	Meeting to discuss existing control strategies documentation methods		
	Provide draft of control strategy document template that will be used for programming		
	City review for approval (document review process)		
1.6.2	Develop process and instrumentation diagrams (P&IDs) from existing plant drawings and documentation, based on as-built drawings from the 1992 and 2005 projects.		
	Provide draft of P&IDs that will replace existing plant drawings and documentation		
	City review for approval (document review process)		
1.6.3	Develop narratives for control strategies based on existing logic programming, and include additional monitoring and controls determined during design.		
	Provide draft of control strategies using the template, includes additional monitoring and controls determined during design		
	City review for approval (document review process)		
1.7	**Develop PLC Panels Design**	3/22/21	3/26/21
1.7.1	Collaborate with the UWTP PMT to design specifications based on existing operations, complexity of the process developed under Task 1.6, communication protocols developed under Task 1.1, and industry standards and best practices for the replacement of all PLCs.		
	Meeting to discuss proposed PLC panel upgrades and locations		
1.7.2	Provide drawings and specifications that define the guidelines to be used for the manufacturing of all new PLC control panels.		
	Provide drawings and specifications for proposed PLC panel upgrades and/or replacements		
	City review for approval (document review process)		
1.8	**Develop Execution Documentation**	3/22/21	3/26/21
1.8.1	Drawings will be prepared using AutoCAD or similar. 11”x17” will be provided in the submittal.		
	50% submittal. City review for approval (document review process)		
	90% submittal. City review for approval (document review process)		
1.8.2	Specifications will be prepared using Microsoft Word. PDF format will be provided in the submittal.		
	50% submittal. City review for approval (document review process)		
	90% submittal. City review for approval (document review process)		
	Provide final drawings and specifications documents		
2.1	**Project Management Team**	2/1/21	6/1/21
2.1.1	Documentation will include project scope, organization chart, roles and responsibilities, communication protocols, schedules, task assignments and other items as needed.		
2.1.2	Coordinate meetings and prepare agendas as needed, draft and final minutes.		
2.1.3	Prepare and provide invoices, field reports, purchasing documents, and other items as needed upon request.		
2.1.4	Coordinate and provide training of new SCADA system for UWTP staff.		
2.2	**Build, Install & Test New PLC Panels**	5/10/21	5/21/21
2.2.1	All other existing PLCs shall remain operational until cut over to the new PLCs is completed.		
2.2.2	All new PLCs shall be fully tested and approved by UWTP staff before installation.		
2.2.3	Build, install & test new Package Plant Control Panel (PPCP) PLC panel. After completion, removal of pre-existing PLC panel.		
	Build PLC panel per drawings and specifications		
	Factory acceptance testing (FAT)		
	Install PLC panel per drawings and specifications onsite		

	Site acceptance testing (SAT)		
	Test and commssion PLC panel per drawings and specifications		
	System integration testing (SIT)		
	Removal of pre-existing PLC panel		
2.2.4	Build, install & test new High Service Pump Station (HSPS) PLC panel. After completion, removal of pre-existing PLC panel.		
	Build PLC panel per drawings and specifications		
	Factory acceptance testing (FAT)		
	Install PLC panel per drawings and specifications onsite		
	Site acceptance testing (SAT)		
	Test and commssion PLC panel per drawings and specifications		
	System integration testing (SIT)		
	Removal of pre-existing PLC panel		
2.2.5	Build, install & test new Raw Water Pump Station (RWPS) PLC panel. After completion, removal of pre-existing PLC panel.		
	Build PLC panel per drawings and specifications		
	Factory acceptance testing (FAT)		
	Install PLC panel per drawings and specifications onsite		
	Site acceptance testing (SAT)		
	Test and commssion PLC panel per drawings and specifications		
	System integration testing (SIT)		
	Removal of pre-existing PLC panel		
2.3	**Build, Install & Test New SCADA Software**	4/5/21	5/28/21
2.3.1	All existing operator workstations shall remain operational until cut over to the new SCADA system is completed.		
2.3.2	All new HMIs shall be fully tested and approved by UWTP Supervisor before installation. Coordinate with UWTP staff for location of new thin client console.		
2.3.3	Build, install & test new SCADA software. After completion, removal of pre-existing SCADA software and related equipment.		
	Install thin client console and configure per specifications		
	Build SCADA software architecture and configure per specifications		
	System integration testing (SIT)		
	Removal of pre-existing SCADA equipment and software		
2.4	**Programming Services**	4/5/21	5/28/21
2.4.1	All hardware and software for this project shall be furnished and installed by JM Integration LLC		
2.4.2	Develop, install & test new Package Plant Control Panel (PPCP) PLC/HMI programming using the corresponding control strategy.		
	Develop and download PLC/HMI programming per specifications and corresponding control strategy		
	System integration testing (SIT)		
2.4.3	Develop, install & test new High Service Pump Station (HSPS) PLC/HMI programming using the corresponding control strategy.		
	Develop and download PLC/HMI programming per specifications and corresponding control strategy		
	System integration testing (SIT)		
2.4.4	Develop, install & test new Raw Water Pump Station (RWPS) PLC/HMI programming using the corresponding control strategy.		
	Develop and download PLC/HMI programming per specifications and corresponding control strategy		
	System integration testing (SIT)		

H. Exceptions

JM Integration LLC takes no exceptions with respect to the City of Ukiah Scope of Services, insurance requirements and/or the draft agreement as shown in the RFP documentation.

EXHIBIT B - INSURANCE REQUIREMENTS FOR CONTRACTORS

Contractor shall procure and maintain for the duration of the contract insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the work hereunder by the Contractor, his agents, representatives, employees or subcontractors.

I. Minimum Scope of Insurance

Coverage shall be at least as broad as:

A. Insurance Services Office Commercial **General Liability coverage** (Form No. CG 20 10 10 01 and Commercial General Liability – Completed Operations Form No. CG 20 37 10 01).

B. Insurance Services Office form number CA 0001 (Ed. 1/87) covering **Automobile Liability**, code 1 (any auto).

C. **Worker's Compensation** insurance as required by the State of California and Employer's Liability Insurance.

II. Minimum Limits of Insurance

Contractor shall maintain limits no less than:

A. General Liability: $2,000,000 per occurrence for bodily injury, personal injury and property damage **including operations, products and completed operations.** If Commercial General Liability Insurance or other form with a general aggregate limit is used, either the general aggregate limit shall apply separately to this project/location or the general aggregate limit shall be twice the required occurrence limit. Insurance must be written on an occurrence basis.

B. Automobile Liability: $2,000,000 per accident for bodily injury and property damage. Insurance must be written on an occurrence basis.

C. Worker's Compensation Employer's Liability: $1,000,000 per accident for bodily injury or disease.

III. Deductibles and Self-Insured Retentions

Any deductibles or self-insured retentions must be declared to and approved by the City. The City may require the insurer to reduce or eliminate such deductibles or self-insured retentions with respect to the City, its officers, officials, employees and volunteers; or the Contractor to provide a financial guarantee satisfactory to the City guaranteeing payment of losses and related investigations, claim administration and defense expenses; or to approve the deductible without a guarantee.

IV. REQUIRED Insurance Provisions

Proof of **general liability and automobile liability** policies are to contain, or **be endorsed** to contain, the following provisions:

A. The City, its officers, officials, employees, and volunteers are to be covered as **ADDITIONAL INSURED** with respect to liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the contractor; and with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts or equipment, furnished in connection with such work or operations. General liability coverage can be provided in the form of an endorsement to the Contractor's insurance, or as a separate owner's policy.

B. **The workers' compensation policy is to be endorsed with a waiver of subrogation**. The insurance company, in its endorsement, agrees to waive all rights of subrogation against the City, its officers, officials, employees and volunteers for losses paid under the terms of this policy which arises from the work performed by the named insured for the City. NOTE: You cannot be added as an additional insured on a workers' compensation policy.

C. For any claims related to this project, the Contractor's insurance coverage shall be **primary insurance** with respect to the City, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the City, its officers, officials, employees, or volunteers shall be in excess of the Contractor's insurance and shall not contribute with it.

D. Each insurance policy required by this clause shall be endorsed to state that coverage shall **not be canceled** by either party, except after thirty (30) days' prior written notice by certified mail, return receipt requested, has been given to the City.

E. **Note: (This protects the Contractor)** -Coverage shall not extend to any indemnity coverage for the active negligence of the additional insured in any case where an agreement to indemnify the additional insured would be invalid under Subdivision (b) of Section 2782 of Civil Code.

V. **RATING - Acceptability of Insurers**

Insurance is to be placed with admitted California insurers with a current A.M. Best's rating of no less than A- for financial strength, AA for long-term credit rating and AMB-1 for short-term credit rating.

VI. **Verification of Coverage**

Contractor shall furnish the City with original certificates and amendatory endorsements affecting coverage required by this clause. The endorsements should be on **forms provided by the City.** If endorsements are on forms other than the City's forms, those endorsements or policies must provide coverage that is equivalent to or better than the forms requested by the City. All certificates and endorsements are to be received and approved by the City before work commences. The City reserves the right to require complete, certified copies of all required insurance policies, including endorsements affecting the coverage required by these specifications at any time.

VII. **Subcontractors**

Contractor shall include all subcontractors as insured under its policies or shall furnish separate certificates and endorsements for each subcontractor. All coverage for subcontractors shall be subject to all of the requirements stated herein.

AGENDA SUMMARY REPORT

SUBJECT: Consideration of Nominations and Possible Adoption of Resolution Making Appointments to the Public Spaces Commission and Diversity and Equity Committee.

DEPARTMENT: City Clerk

PREPARED BY: Kristine Lawler, City Clerk

PRESENTER: Kristine Lawler, City Clerk

ATTACHMENTS:

1. Resolution 2014-48
2. Megan Parker Application from 2015
3. Memo - Nomination for Megan Parker
4. Diversity and Equity Application - Lorena Akin_Redacted
5. Memo - Nomination for Lorena Akin
6. Proposed Resolution

Summary: The City Council will consideration nominations and a possible adoption of a resolution making appointments to the Public Spaces Commission and Diversity and Equity Committee.

Background: Per Resolution 2014-48 (Attachment 1), the right to nominate a candidate shall rotate among the Councilmembers.

Public Spaces Commission (PSC) – There are currently two *At Large – City or County Resident* positions vacant that have been noticed since May 20, 2022. The Clerk's office has received an application from Megan Parker, who is seeking reappointment to one of those positions, with no other applications having been received. Per Resolution 2014-48, as an incumbent seeking reappointment, Ms. Parker is not required to fill out the questionnaire; therefore, her application from 2015 has been attached (Attachment 2) for information and reference to her qualifications. Mayor Rodin, being the next in line, has made the nomination to reappointment Ms. Parker to the At-large position on the Public Spaces Commission (Attachment 3).

Diversity and Equity Committee (DEC) – The "Persons from the Hispanic/Latino Community" position on the DEC has been noticed since January 26, 2023. The Clerk's office has received an application from Lorena Akin (Attachment 4), with no other applications having been received. Ms. Akin meets the requirements for the position, and a nomination has been received from Councilmember Orozco (Attachment 5), who is next in line for making the nomination.

Discussion: Staff is recommending that Council Adopt the resolution (Attachment 6) accepting the nominations and appointing Megan Parker to continue to serve on the Public Spaces Commission as an *At-large City or County Resident*, term to expire 6/21/26; and Lorena Akin to serve on the Diversity and Equity Committee as the *Persons from the Hispanic/Latino Community* representative, term to expire 6/21/25.

Recommended Action: Adopt Resolution reappointing Megan Parker to the Public Spaces Commission as an *At-large City or County Resident*, term to expire 6/21/26; and appointing Lorena Akin to serve on the Diversity and Equity Committee as the *Persons from the Hispanic/Latino Community* representative, term to expire 6/21/25..

Sage Sangiacomo, City Manager

RESOLUTION NO. 2014-48

RESOLUTION OF THE CITY COUNCIL OF THE CITY OF UKIAH AMENDING PROCEDURE FOR FILLING VACANCIES ON CITY BOARDS AND COMMISSIONS

WHEREAS,

1. Ukiah City Code 1151 and 1161 provides that members of the Design Review Board and Planning Commission shall be appointed in accordance with a procedure established by resolution of the City Council; and

2. The City Council has determined that using a uniform procedure will insure fair and consistent treatment of candidates and Councilmembers; and

3. The City Council has determined to amend its procedures for appointing board members and commissioners.

NOW, THEREFORE, BE IT RESOLVED, that the Ukiah City Council hereby adopts the following amended procedure for filling vacancies on the City's boards and commissions:

- The City Council shall develop a pool of applicants for vacancies by posting a general advertisement once a year, preferably in June before the June 30th expirations, in a newspaper of general circulation in Ukiah, and by noticing available vacancies as they occur on the city's website, in the library, on popular social media sites (Facebook and Twitter), and in the glass cabinet located in front of the Civic Center subject to Government Code Section 54970-54974. Applications shall be received, reviewed for eligibility, and brought forward as they are submitted.

- If more applications have been received than position(s) available, the City Council will conduct interviews for the position.

- All applications received shall be kept on file in the City Clerk's office for a period of one (1) year.

- Incumbents seeking reappointment for an additional term only need to complete the contact portion of the application and not the questionnaire.

- City staff seeking appointment in their capacity as City staff and elected officials seeking appointment in their capacity as elected officials do not need to fill out an application.

- **Nominations:** Each Councilmember, including the Mayor, shall have the right to nominate a candidate from the available pool of applicants.

  a. The right to place a name before the City Council for consideration shall rotate among the Councilmembers based on seniority with the most senior Councilmember going first.

  b. The Council shall vote on nominations presented.

  c. A councilmember's right to make a nomination shall rotate to the next most senior Councilmember, once that Councilmember's nomination is approved by a majority vote of the Councilmembers present, or the Councilmember agrees to pass the nomination to the next most senior Councilmember.

  d. This process for rotating the right to nominate candidates among Councilmembers to fill vacancies shall be followed for each separate board or commission.

1. The City Clerk shall maintain a record of the last Councilmember to make a nomination for each board or commission.

2. When another vacancy must be filled on that board or commission, the next Councilmember in line to make a nomination for that board or commission shall make the first nomination to fill the vacancy.

PASSED AND ADOPTED this 17th day of December, 2014, by the following roll call vote:

AYES: Councilmembers Mulheren, Doble, Brown, Scalmanini, and Mayor Crane
NOES: None
ABSTAIN: None
ABSENT: None

Megan Parker Prout
July 27, 2015

City of Ukiah Paths, Open Spaces and Creeks Commission Application

Supplemental Questions

1. *Why are you applying to serve on the City of Ukiah's Paths, Open Space, and Creeks Commission?*

I have always been drawn to nature and one of the things I appreciate most about Ukiah is not only its proximity to but also its incorporation of the natural world. I recently completed the naturalist course at the University of California Cooperative Extension and learning more about the flora and fauna of inland Mendocino County has further inspired me to work to protect the open spaces and creek systems that comprise an essential part of Ukiah as well as to work to make them more available to all of Ukiah's residents.

2. *What is your understanding of the purpose, role and responsibility of the Paths, Open Space, and Creeks Commission?*

It is my understanding that the Commission advises the City Council on how best to use and/or preserve open spaces in Ukiah, as well as how best to maintain the city creeks, which includes restoring them and their riparian corridors.

3. *How do you believe your own skills, experience, expertise and perspectives will be beneficial to the work of the Paths, Open Space, and Creeks Commission?*

I believe that my diverse experiences living in many different areas, owning a small business, parenting two young children and completing the CA Naturalist course would all contribute to my ability to engage in thoughtful research and discussion about relevant topics, and to engage in community outreach when appropriate (e.g., restoration or clean-up of a section of creek).

4. *In your opinion, what type of programs or development should the City encourage?*

I think any type of program that encourages Ukiah's citizens to interact with--and help protect--the amazing natural resources that surround us should be encouraged. Free naturalist walks for children (and/or grown-ups!), community creek restoration days and educational walks/hikes along the city paths would all be fun ways to engage the public.

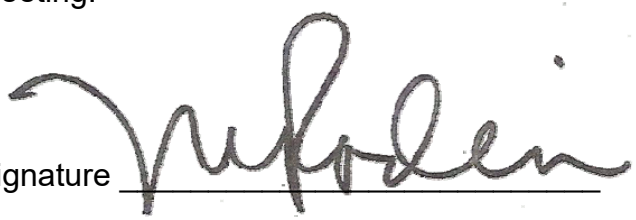
5. *What kind of ideal community do you envision for Ukiah?*
An ideal community in my mind would be a diverse but tolerant one; whose citizens enjoy coming together; whose citizens are active in the areas they are most passionate about (recreation, government, education, business, etc.); whose citizens contribute to the overall vibrancy of the community; whose citizens feel heard and respected; whose citizens benefit from a good quality of life.

6. *Do you have any known projects or conflict of interest related to this Commission?*
No.

7. *Are there any other City of Ukiah Committees/Commissions in which you are interested and on which you would be willing to serve?*
Not at this time.

MEMORANDUM

City of Ukiah



Date: 6/21/23

To: Kristine Lawler, City Clerk

From: Mari Rodin

Subject: Nomination for Megan Parker

I nominate Megan Parker to be reappointed to the Public Spaces Commission as an At-large Representative, to be considered at the June 21, 2023, Regular City Council meeting.

APPLICATION FOR DIVERSITY AND EQUITY COMMITTEE

NAME: Lorena (First) Akin (Last)

STREET ADDRESS: [redacted]

CITY: Ukiah STATE: CA ZIP CODE: 95482

PHONE: Home n/a Work/Cell [redacted] Email: [redacted]

Please list the organizations(s) you serve as a member of, and **clearly identify the demographic group you wish to represent:**

Please attach a resume or description outlining your educational background and/or experience, and complete all questions on this application *(If there is not enough room in the field, please use an attached page. Incumbents that are applying for reappointment need not fill out the questionnaire.)* Applications can be submitted in person or mailed to: City of Ukiah, Attn: City Clerk, 300 Seminary Ave., Ukiah, CA 95482.

1. What is your understanding of the purpose, role, and responsibility of the Diversity and Equity Committee?

The committee aims to promote diversity, equity, and inclusion within the City of Ukiah by advising the Mayor, City Council, and City Manager. Developing, through cooperation processes and procedures to improve equity and diversity in the workforce and municipal services, while representing and advocating for various marginalized groups in the community.

2. What is your understanding of/and ability to meet the responsibilities of committee members in regards to meeting attendance? (Can you attend regular committee meetings? Do you have any scheduling conflicts or are there any other circumstances that would prevent you from regular attendance?)

I can attend regular committee meetings without scheduling conflicts or circumstances that would prevent me from regular attendance. I am committed to fulfilling this responsibility and will communicate any unforeseen conflicts promptly.

3. How do you believe your own skills, experience, expertise, and perspectives will be beneficial to the work of the Diversity and Equity Committee?

As a Mexican immigrant with a Master of Architecture degree, I bring a unique perspective on the challenges faced by diverse communities. My expertise in architecture allows me to propose solutions for inclusive urban design, and my experience in community engagement equips me with the skills to collaborate effectively. Overall, my background, skills, and commitment will contribute positively to the committee's goals of promoting diversity, equity, and inclusion in the City of Ukiah.

4. **Diversity, Equity, and Inclusion are priorities for the City of Ukiah. Tell us about your experience working with diverse groups and how you would work to create an environment that is welcoming, inclusive, and increasingly diverse?**

I have experience working with diverse groups through my involvement in architecture studies and professional endeavors. I participated in the development of self-sustaining housing projects for marginalized groups and contributed to the construction of schools in isolated and poor communities.I have also had the opportunity to collaborate with individuals from diverse cultures and perspectives. I have found that embracing and incorporating these diverse perspectives enhance the quality of the outcomes.

5. **Are you interested in serving on any other Boards or Commissions of the City? If so, which one(s)?**

In addition to the Diversity and Equity Committee, I am interested in serving on the Ukiah Design Review Board. As someone with a background in architecture, I believe I can contribute valuable insights to the review and development process of the city's design projects. I am passionate about creating aesthetically appealing and sustainable urban environments that enhance the quality of life for residents and reflect the diverse character of the community.

6. **Diversity, Equity, and Inclusion are priorities for the City of Ukiah. Tell us about your experience working with diverse groups and how you would work to create an environment that is welcoming, inclusive, and increasingly diverse?**

As a Mexican immigrant, I have witnessed firsthand the transformative power of embracing diversity and promoting equity in creating thriving communities. My motivation for wanting to serve on the City of Ukiah Diversity and Equity Committee stems from a genuine passion for fostering a community that is inclusive, equitable, and diverse. Hoping to contribute to the improvement of the City, ensuring that all community members have equal opportunities and a sense of belonging in shaping the city's future.

7. **Is there anything you would like to add?**

My motivation for wanting to serve on the City of Ukiah Diversity and Equity Committee and/or Design Review Board stems from my personal and professional experiences as a Mexican immigrant and architect. I am driven to contribute to creating a community that values diversity, promotes equity, and fosters inclusion. By utilizing my skills, experiences, and perspectives, I aim to actively collaborate with the committee in addressing disparities and advocating for the needs of underrepresented groups.

I declare under penalty of perjury under the laws of the State of California that I am a resident of the City of Ukiah, California, registered to vote in the City of Ukiah, and that all information stated in this application and all attached pages are true, correct and complete. I also acknowledge that if appointed, I will be subject to filing a Form 700 Statement of Economic Interest, and I have read and understand the City's Code of Ethics and Conduct.*

Signature of Applicant

05/25/2023
Date

**Form 700 – Every elected official and public employee who makes or influences governmental decisions is required by State Law to submit a Statement of Economic Interest, also known as the Form 700. The Form 700 provides transparency and ensures accountability in two ways:*

1. *It provides necessary information to the public about an official's personal financial interests to ensure that officials are making decisions in the best interest of the public and not enhancing their personal finances.*
2. *It serves as a reminder to the public official of potential conflicts of interest so the official can abstain from making or participating in governmental decisions that are deemed conflicts of interest.*

ITEM NO: 2023-2788

City of Ukiah

AGENDA SUMMARY REPORT

SUBJECT: Approval and Adoption of 2023-24 Fiscal Year City Budget through Resolution, Five-Year Capital Improvement Plan, the Gann Limit Resolution, and Budget Agreement with the Ukiah Valley Sanitation District.

DEPARTMENT: Finance

PREPARED BY: Jessie Brunell, Senior Accountant
Sage Sangiacomo, City Manager

PRESENTER: Dan Buffalo, Finance Director
Mary Horger, Financial Services Manager

ATTACHMENTS:

1. FY 23-24 Budget Resolution
2. Five Year Capital Improvement Plan - FYE 24
3. Vehicle and Equipment Justifications - FYE 24
4. Gann Limit Resolution 2024
5. Budget Approval Agreement, FY 2024 Draft
6. Budget Changes

Summary: The Council will consider for approval and adoption through resolution the City budget for the 2023-24 fiscal year, the City's Five-Year Capital Improvement Program Plan, the City's Gann Limit for the 2023-24 fiscal year, and the wastewater budget agreement with the Ukiah Valley Sanitation District for 2023-24.

Background: Presented here is the operating and capital budget for the City of Ukiah and related documents for the fiscal year 2023-24. This is the final step in the budget development and adoption process.

As part of this packet, the following are provided:

1. Budget unit pages (OpenGov stories). The Finance Department continues to enhance the usability and navigation of the budget document, turning to the OpenGov platform to deliver the budget document in its entirety. Budget units (departments and divisions) are presented in a standardized format in what are called "stories." They are dynamic, navigable web pages designed to be read electronically through a web browser. They offer the reader drill down features so that data can be presented as generally or as granularly as desired.

The best way to access stories is by clicking this link and finding each subsequent link in the table of contents:

https://stories.opengov.com/ukiahca/published/_3dOjPVjE

This page is the cover of the budget document (in draft), including a table of contents at the bottom. Each budget story can be accessed by clicking on its respective link in the table of contents. As the budget document is further developed, links will be activated for any reader to examine.

The OpenGov platform is best viewed through the Google Chrome web browser. It is a free application and can be found at the following link, complete with download and installation instructions.

https://www.google.com/chrome/

Discussion: To adopt the budget, Council will approve and adopt:

1. Budget Resolution (Attachment 1) approving the annual City of Ukiah Budget for Fiscal Year 2023-24.

2. Five-Year Capital Improvement Program Schedule (Attachment 2) and the Vehicle & Heavy Equipment Justifications (Attachment 3) - resolution not required.

3. The Appropriations (Gann) Limit calculations and associated resolution (Attachment 4). This information is part of the overall budget document.

4. Budget Agreement with the Ukiah Valley Sanitation District for FY 2023-24 (Attachment 5), including preliminary cost sharing splits, which will be further revised and updated at a later Council meeting in August. This agreement is presented in substantial form. Staff is requesting Council approve and adopt it as such and authorize the City Manager to complete any final negotiated changes and sign the agreement. No further substantive changes are anticipated.

Additionally, the Council will be updated on the following:

1. Changes since the Budget Hearings on June 7 and June 8, 2023 (Attachment 6).

2. Recommended changes to personnel covered during the City-wide budget presentation on June
7. General information was presented with detail provided in the budget document (OpenGov). The City Manager would like to present additional detail in a brief presentation slide to ensure the Council has complete information to aid in its consideration of the overall budget and operations plan for the 2023-24 fiscal year.

Recommended Action: Taken Separately:
1. Approve and adopt budget resolution for the fiscal year 2023-24,
2. Approve and adopt the updated Five-Year Capital Improvement Program Schedule for the fiscal year 2023-24
3. Approve and adopt Gann Limit resolution for fiscal year 2023-24,
4. Approve (in substantial form) and authorize City Manager to sign fiscal year 2023-24 budget agreement with the Ukiah Valley Sanitation District.

RESOLUTION NO. 2023 -

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF UKIAH APPROPRIATING FUNDS FOR THE GENERAL FUND AND OTHER FUNDS IN THE FISCAL YEAR 2023-24 BUDGET

WHEREAS, the Ukiah Municipal Code requires the City Manager to prepare and submit an Annual Budget to the City Council for its approval; and

WHEREAS, it is good management practice to have comprehensive operating and capital improvement budgets to implement the various policies, programs and projects of the City Council, and the City Council has established a policy to review, adopt, and provide multiple updates to Fiscal Year (FY) Budgets; and

WHEREAS, on June 7, 2023, the City Council reviewed Draft FY 2023-24 revenue and expenditures for all budgeted governmental (including the general fund), proprietary, and fiduciary funds; and

WHEREAS, on June 8, 2023, the City Council reviewed Draft FY 2023-24 revenue and expenditures for the departmental budget units and capital improvements; and

NOW, THEREFORE BE IT RESOLVED that the City Council of the City of Ukiah does hereby adopt the budget for the General Fund and other budgeted funds for Fiscal Year 2023-24.

NOW THEREFORE BE IT FURTHER RESOLVED that,

1. Funds are appropriated at the Fund level for total expenditures, transfers and other uses as summarized in Exhibit A, attached hereto;
2. Transfers between funds are authorized as summarized in Exhibit B, attached hereto;
3. The FY 2023-24 Budget provides detail to the sources and uses of the authorized appropriations by fund and the final adopted document is incorporated herein by reference;
4. The Council has not made any changes to its financial management and budget policies since the last fiscal year (2022-23) and, accordingly, all existing policies are in effect; and
5. The open encumbrances outstanding at year-end are hereby designated as reserved in fund balance or working capital and appropriated July 1, 2023 for the 2023-24 fiscal year.

PASSED AND ADOPTED at a regular meeting of the City Council of the City of Ukiah on the 21st day of June 2023, by the following roll call vote:

AYES:
NOES:
ABSENT:
ABSTAIN:

_____

Josefina Duenas, Vice Mayor

Pavement Rehabilitation of Taxiways A, A3 and A - Design	This project is for the pavement rehabilitation design of Taxiways A (4,540'x55'), A3 (250'x45'), and A5 (250'x45') due to thermal and aging related cracking with localized structural related cracking but no evidence of structural failure. Proposed rehabilitation is milling top 2 inches of AC crack sealing and pavement repair, and placement of 2 inch layer of new AC and markings. **Add'l Comments:** The FAA has made cost and project scope adjustments. Moved from FY 21/22, and increased by $88,385. Moved from FY 22/23, and increased from $148,385. Moved from FY 23/24.	77825200.80230	18034	N/A	1403 S State	New	Grant	Yes	Contingent upon FAA Grant Funding.		$ 250,000					**$ 250,000**	Reviewed	**X**
Pavement Rehabilitation of Taxeways A, A3 and A5 - Construction	This project will cover construction to rehabilitate pavements of Taxiways A (4,540'x55'), A3 (250'x45') and A5 (250'x45'). **Add'l Comments:** The FAA has made cost and project scope adjustments. Moved from FY 2/23, and increased by $839,200. Moved from 24/25, and increased from $1,339,200.	77825200.8023	18035	N/A	1403 S State	New	Grant	Yes	Contingent upon FAA Grant Funding.					$ 2,850,000		**$ 2,850,000**	Reviewed	
Airport Apron Slurry Seal	As an ongoing maintenance item, slurry seal on airport aprons. **Add'l Comments:** As an ongoing maintenance item, slurry seal on airport aprons. Added budget for future years.	77725200.56600	18332	N/A	1403 S State	Ongoing	Enterprise	Yes	Aiport Operations Budget.		$ 11,000	$ 11,500	$ 12,000	$ 12,500	$ 13,000	**$ 60,000**	Reviewed	**X**
Master Plan	The Master Plan would focus on updating aviation activity forecasts, runway length analysis, long-term development plans, and financial self-sufficiency/revenue generation. **Add'l Comments:** Conduct study in FY 3/24 and complete in FY 24/25.	77825200.5210	TBD	N/A	1403 S State	New	Grant	Yes	Contingent upon FAA Grant Funding.		$ 450,000					**$ 450,000**	Reviewed

Definition of terms used:

Project Name	The name of the project.
Project Description	Provides a description and additional narrative to assist in the understanding of the need and value of the proposed project
Org/Object	The proposed account code where the expense will be accounted for.
Project Number	The number assigned to track all expenses related to the project.
Allocation to Multi-funds	Indicates if the cost of the proposed cost is shared. In this case, here it will state what other funds are sharing the cost.
Project Status	This indicates whether the project is "NEW", "IN PROGRESS", "ONGOING", "DEFERRED", or "COMPLETED".
Funding Source	The Fund the actual expense will come out of.
Funding Identified	"Yes" indicating funding has been identified and will be available, "No" indicating funding has not yet been identified and is unavailable.
Funding Source Add'l Comments	To further explain, as necessary, the funding type used selected.
Costs to date	Costs spent on the project.
Estimated Costs per Fiscal Year	Costs estimated to be spent in each of the fiscal years.
Totals	The sum of the five year estimate for each project.
Comments	Additional information as needed.
City Council Status	"Not Reviewed"- First time that Council has been presented the project; "Reviewed" - Council has been presented the project during an agendized meeting; "Explore" - Council has reviewed and has asked staff to further explore; "Reviewed anc Supported" - Council has reviewed and supports the placement of the project on the CIP Plan; "Budget Adopted" - Council has approved the project through the Council action that takes place through either the full budget adoption process, or through a specific agendized item brought to Council.

Definition of terms used:

Project Name	The name of the project.
Project Description	Provides a description and additional narrative to assist in the understanding of the need and value of the proposed project
Org/Object	The proposed account code where the expense will be accounted for.
Project Number	The number assigned to track all expenses related to the project.
Allocation to Multi-funds	Indicates if the cost of the proposed cost is shared. In this case, here it will state what other funds are sharing the cost.
Project Status	This indicates whether the project is "NEW", "IN PROGRESS", "ONGOING", "DEFERRED", or "COMPLETED".
Funding Source	The Fund the actual expense will come out of.
Funding Identified	"Yes" indicating funding has been identified and will be available, "No" indicating funding has not yet been identified and is unavailable.
Funding Source Add'l Comments	To further explain, as necessary, the funding type used selected.
Costs to date	Costs spent on the project.
Estimated Costs per Fiscal Year	Costs estimated to be spent in each of the fiscal years.
Totals	The sum of the five year estimate for each project.
Comments	Additional information as needed.
City Council Status	"Not Reviewed"- First time that Council has been presented the project; "Reviewed" - Council has been presented the project during an agendized meeting; "Explore" - Council has reviewed and has asked staff to further explore; "Reviewed and Supported" - Council has reviewed and supports the placement of the project on the CIP Plan; "Budget Adopted" - Council has approved the project through the Council action that takes place through either the full budget adoption process, or through a specific agendized item brought to Council.
Shovel Ready	Project is ready to be sent out to bid.

McGarvey Park Pathways	Pathways deteriorating beyond repair, need to be replaced. **Additional Comments:** Moved from FYE 22. Moved from FYE 24. Prioritization and funding source(s) under review. Estimated cost is $75k. Exploring the Urban Greening Grant for possible funding.	30022200.80220	18116	N/A	310 Dora St.	New	TBD	No	Fiscal Year Allocation TBD - Seeking Grant Funding							$ -	Reviewed	
Pool Pump House	The pool pump house pool is in need of replacement due to age and general deterioration of the building. **Additional Comments:** Project was formerly called "Pool Block House". Looking for funding. Moved from starting FYE 21. Prioritization and funding source(s) under review. Estimated cost is $250k. Project deferred if we pursued pool replacement as below. Consider incorporating into Municipal Pool Replacement.	10022100.80220	18012	N/A	511 Park Blvd.	New	TBD	No	Fiscal Year Allocation TBD							$ -	Reviewed	
Riverside Park	State grant to provide some grading, flood surveying, debris removal and planting. **Additional Comments:** RFP for design process is complete 12/2018; Hydrology studies and CEQA complete. Work expected to start in late spring or early summer, with expectation of project completion in FYE 22. Most recent schedule indicates bidding in the Spring of 2023. Construction anticipated to start in Summer of 2023.	30522250.80220	18014	N/A	1281 E. Gobbi	In Progress	Grant	Yes	Grant funded.		$ 760,728					**$ 760,728**	Reviewed	
Wagenseller Park Plan	Park master plan needed once a site is identified. **Additional Comments:** Location and funding source(s) under review; Need to explore grant funding. Department estimate/request is $3-5 million.	30022250.80220	18063	N/A	Orchard & Brush	New	TBD	No	Seeking grant funding.							$ -	Reviewed	
Wagenseller Park Development	In 2017 the Community Development Department began work on a Wagenseller Park Feasibility Analysis. It has been determined through the analysis and other surveys a park is needed in the Wagenseller area. Extensive landscaping, equipment purchase and installation needed. **Additional Comments:** Working with RCHDC to determine location along with seeking grant funding. Reduced the amount from $950k, to break out the Master Plan into a separate line item. Moved from FYE 23. Funding from RCHDC now seems unlikely. Moved from FYE 24. Departm estimate/request is $3-5M.	30022200.80220	18063	N/A	Orchard & Brush	New	TBD	No	Seeking grant funding.							$ -	Reviewed	
Observatory House and Buildings Exterior Paint	Paint, repair and replace trim as needed. **Additional Comments:** House paint has deteriorated and must be repainted to retain the integrity of the wood siding and trim. Historic Observatory also in need of maintenance.	30222220.56300	18322	N/A	432 Observatory	New	General	Yes			$ 20,000					**$ 20,000**	Reviewed	X

Observatory House ADA Ramp	Replace temporary ADA ramp built ten years ago with a permanent ADA ramp. **Additional Comments:** Priority item for building code compliance.	30222220.56300	18323	N/A	432 Observatory	New	General	Yes			$ 15,000						**$ 15,000**	Reviewed	X
Oak Manor Playground Equipment Replacement	Replacement of this equipment is necessary, due to the age and high usage of this equipment, as well as safety concerns. Staff will be seeking grant funds to assist with the cost. **Additional Comments:** Staff applied for Prop 68 funds for park renovations including new playground equipment. Department estimated request is 100k.	30322230.80100	18010	N/A	500 Oak Manor	New	Grant	No	Seeking grant funding								**$ -**	Reviewed	X
Softball Fields Restroom Concession Building Roof Replacement	Replace roof at softball fields. **Additional Comments:** Prioritization and funding source(s) under review. Roof currently has some leakage and panels are pealing up. Staff is currently evaluating the project. Need to explore grant funding. Department estimate/request is $50,000.	30022210.80220	18110	N/A	901 River Street	New	TBD	No	Fiscal Year Allocation TBD								**$ -**	Reviewed	
Softball Fields Irrigation Replacement	Replace irrigation at softball fields. **Additional Comments:** Irrigation system is inefficient and difficult to control coverage to maintain healthy turf. Needed to remain competitive for tournaments and reduce liability. Need to explore grant funding. Department estimate/request is $500,000.	30022210.80220	TBD	N/A	901 River Street	New	TBD	No	Seeking grant funding								**$ -**	Reviewed	
Skate Park Phase 2 Back Lot Development	Develop additional area for meeting, band stand, viewing platforms. Install lighting. **Additional Comments:** Prioritization and funding source(s) under review; Need to explore grant funding. Department estimate/request is $250,000.	30022200.80220	TBD	N/A	1043 Low Gap	New	TBD	No	Seeking grant funding								**$ -**	Reviewed	
Municipal Pool Replacement	The Municipal Pool at Todd Grove park is approx. 100 years old. Maintenance costs are becoming prohibitive. The existing facility needs to be demolished and remove and a new facility needs to be designed and built. Addition of Recreation Building to the Pool Facility where the unusable kiddie pool is. This will eliminate the Splash Pad and Day Camp Office projects from this CIP list. Facility will serve Day Camp, Recreation Classes, Facility Rentals, Trainings, Meetings, Youth Sports Practices and Green Room for Concerts. **Additional Comments:** Funding will need to come from some combination of grants, fundraising, bond measures, and/or special district. Estimated cost: $12M.	TBD	TBD	N/A	512 Park Blvd.	New	TBD	No	Fiscal Year Allocation TBD								**$ -**	Reviewed	
Day Camp Office and Storage Building Replacement	The Day Camp Office and Storage Buildings are premanufactured buildings that have reached their life expectancy. **Additional Comments:** Frequency of maintenance needs and costs are increasing. Estimated cost: $240k.	TBD	TBD	N/A	512 Park	New	TBD	No	Fiscal Year Allocation TBD								**$ -**	Reviewed	
Oak Manor Restroom	Oak Manor Park is a popular Park with significant daily use, currently served by a "porta-potty." **Additional Comments:** Grant funds currently being applied for. Department estimate/request is $130k.	TBD	TBD	N/A	501 Oak Manor	New	TBD	No	Seeking grant funding								**$ -**	Reviewed

Replacement Truck	Replacement of vehicles that are no longer cost effective to repair. **Additional Comments:** Moved to FYE 24. Moved from FYE 24.	10022100.8010	18066	N/A	300 Seminary	Deferred	General	Yes				$ 55,000				**$ 55,000**	Reviewed	X
Mini Street Sweeper	Parks are maintaining two miles of the Great Redwood Trail (GRT), up from less than one mile. Will soon be expanded to four miles. Parks team spent over 600 hours leaf blowing in calendar year 2021. Manual leaf blowing of GRT and parking lots is inefficient and not the best use of Park worker's time. There is deferred maintenance at all City parks and staff can't get to these projects as they are spending their time blowing leaves in parking lots. Complete Streets efforts will see additional infrastructure installed that will require a smaller sweeper. **Additional Comments:** Consider as a future purchase as additional paved trails are built.	10022100.80100	TBD	N/A	1320 Airport Rd. Project Name	Project Description	Org/Obj	Project #	Allocation to Multi-funds	Project Location	Project Status	Funding Source	Funding Identified	Funding Source Add'l Comments	Costs to date	23/24	24/25	25/26	26/27	27/28	Totals	City Council Status	Shovel Ready
Electric Utility Service Center - Remodel & Facility Improvements	Provides offices and warehouse facilities for the Electric Utility Dept. to better serve the community. Currently offices are located in 40 year old temporary modular buildings with no foundation. The electrical construction and maintenance materials are stored in an uninsulated unsealed tin building. **Add'l Comments:** Expanded scope including re-roof task. Reduced FYE 20 by $1.550 mil and moved into FYE 21. Project is currently out to bid. Increased FYE 22 from $120k, and FYE 23 from $30k. Project is 60% complete. Supply chain issues with electrical equipment. Delayed. Moved $750k to FYE 23 for interior improvements. Project bid specifications are near completion, and is anticipated to be awarded this Spring. Estimates for the interior redesign of the building have exceeded the budget in the 22/23 year by nearly double. Budget amendment will likely be necessary at time of project award. Due to fire at Hastings, project is moving to FYE 24. Project cost has increased from $750k due to inflation, as well as additional scope due to fire. Anticipating $1.2M offset in insurance reimbursement.	80126100.80220	17023	N/A	1350 Hastings Road	In Progress	Enterprise	Yes	Mostly covered by Series 2022 Electric Revenue Bonds, $1.2M anticipated in Insurance Reimbursement	$ 3,416,861	$ 3,000,000					**$ 3,000,000**	Reviewed	**X**
Renewable Resource Development - Solar	Renewable energy development for the Utility's resource portfolio in meeting the States green energy mandates. **Add'l Comments:** Rebudgeted to insure replacement roofing system meets building, solar and grading requirements. Moved $1.2 mil out of FYE 20, and moved into FYE 21. Increased FYE 22 and FYE 24 from $50k, reduced FYE 25 from $1 mil. Pushed to 22/23 fiscal year, and increased overall amount from $2,750,000 due to size of Hasting solar system. Moved out from FYE 23 due to budgetary constraints, and increased by $225k.	80126100.80220	ECC01	N/A	1350 Hasting Road	In Progress	Enterprise	Yes	Funded by Greenhouse Gas Funds	$ 55,000		$ 2,225,000				**$ 2,225,000**	Reviewed	**X**
Hydroelectric Plant Warehouse, Shop and Restroom	Needed to store hydro specialized plant materials, spare parts, provides staff workspace and restroom/sink facilities. **Add'l Comments:** Moved from FYE 21 due to COVID-19. Received approval from Army Corp to tie into water line. Pushed to 22/23 FY and increased funding due to inflation. Moved from FYE 23.	80126100.80230	18038	N/A	1229 Lake Mend.	In Progress	Enterprise	Yes	Series 2022 Electric Revenue Bonds			$ 225,000				**$ 225,000**	Reviewed	
Substation Site Development	Evaluate the need and sites available to construct a future electrical substation to serve future loads based on planning forecasts of the City's growth. **Add'l Comments:** $20k moved from FYE 21, and $300k from FYE 22 due to COVID-19. Moved to 23/24 due to heavy workload. Moved from FYE 24.	80126100.80230	18046	N/A	TBD	New	Enterprise	Yes	Series 2022 Electric Revenue Bonds			$ 300,000				**$ 300,000**	Reviewed	
Material Storage Yard	Purchase of land for material storage yard. **Add'l Comments:** Moved from FYE 22. Moved from FYE 24. Prioritization and funding source(s) under review. Estimated cost is $75k. Exploring the Urban Greening Grant for possible funding. Moved from FYE 23, and added $100k.	80126100.80210	18263	N/A	TBD	New	Enterprise	Yes				$ 250,000.00				**$ 250,000**	Reviewed

Oak Manor Dr. Overhead to Underground Conversion	Install cable and associated equipment for replacing the overhead facilities. **Add'l Comments:** Reduced amount from $500k, moved from FYE 21. Moved from FYE 22. Increased amount from $200k. Funding from 2022 bonds, funding increased to include AT&T and Comcast for joint trench project, approx. 40% to be reimbursed by AT&T and Comcast. Per Council directive, undergrounding focus will be redirected to Talmage, the completion of Oak Manor is being pushed until adequate rate revenue is available.	80126100.80230	18121 N/A	Oak Manor Dr.	New	Enterprise	Yes						$ 800,000			**$ 800,000**	Reviewed	**X**
Hydroelectric Plant Transfer Trip Upgrade	Upgrade existing and provide redundancy for Hydro transfer trip circuit. **Add'l Comments:** Reduced amount for FYE 20 from $225k, and added funds to FYE 21. Moved from FYE 21. Moved budget from FYE 22, increased overall amount from $195k due to inflation, and added budget to subsequent years to include radio redundancy. Moved from beginning in FYE 23 in order to complete preliminary work that will be completed as part of Streetscape Phase 2 project.	80126100.80230	18125 N/A	Hydro Plant	New	Enterprise	Yes	Series 2022 Electric Revenue Bonds	$ 15,545	$ 275,000	$ 50,000	$ 50,000				$ 375,000	Reviewed	**X**
State St. Underground Phase II, District 5: Overhead to Underground	Relocates or underground overhead electric, phone and cable TV utilities - Henry to Norton, Mill to Gobbi. Will be part of the overall Streetscape project. **Add'l Comments:** Budget increased from $885k to fund complete joint trench project. Approximately 40% to be reimbursed by AT&T and Comcast, balance covered by Series 2022 Electric Revenue Bonds. Project scheduled to go out to be in April 2023.	80126100.80230	18259 N/A	State Street	New	Enterprise	Yes	Approximately 40% Reimbursed by AT&T and Comcast, balance Series 2022 Electric Revenue Bonds	$ 30,261	$ 500,000						**$ 500,000**	Reviewed	
Fire Mitigation Grant ~~Matching~~	Matching 25% funds for FEMA HMG for fire mitigation undergrounding, vegetation management and design services. Electric equipment and wire. Locations include Clay and Standley Streets, Park Boulevard, Barnes and Jones. **Add'l Comments:** Increased overall amount from $850k. Moved from FYE 22. Grant received Feb. 2022, 25% grant matching funds. Design completed. Waiting on a few easements before going out to bid. Work likely won't start until summer '23. Pushing out project start from FYE 23, and combining amounts all to fall in FYE 24.	80126100.80230	18260 N/A	Multiple	New	Enterprise	Yes	75% Covered by FEMA Hazard Mitigation Grant/Balance from Series 2022 Electric Revenue Bonds		$ 4,750,000						**$ 4,750,000**	Reviewed	X
Western Hills	Electrical infrastructure for Western Hills development. **Add'l Comments:** Removed $525k from FYE 23, and reduced to $300k.	80126100.80230	18350 N/A	Western Hills	New	Enterprise	Yes	Series 2022 Electric Revenue Bonds	$ 243,549		$ 300,000					$ 300,000	Reviewed	**X**

FIVE YEAR CAPITAL IMPROVEMENT PLAN*
23/24 FISCAL YEAR
ELECTRIC UTILITY

Definition of terms used:

Project Name	The name of the project.
Project Description	Provides a description and additional narrative to assist in the understanding of the need and value of the proposed project
Org/Object	The proposed account code where the expense will be accounted for.
Project Number	The number assigned to track all expenses related to the project.
Allocation to Multi-funds	Indicates if the cost of the proposed cost is shared. In this case, here it will state what other funds are sharing the cost.
Project Status	This indicates whether the project is "NEW", "IN PROGRESS", "ONGOING", "DEFERRED", or "COMPLETED".
Funding Source	The Fund the actual expense will come out of.
Funding Identified	"Yes" indicating funding has been identified and will be available, "No" indicating funding has not yet been identified and is unavailable
Funding Source Add'l Comments	To further explain, as necessary, the funding type used selected.
Costs to date	Costs spent on the project.
Estimated Costs per Fiscal Year	Costs estimated to be spent in each of the fiscal years.
Totals	The sum of the five year estimate for each project.
Comments	Additional information as needed.
City Council Status	"Not Reviewed"- First time that Council has been presented the project; "Reviewed" - Council has been presented the project during an agendized meeting; "Explore" - Council has reviewed and has asked staff to further explore; "Reviewed and Supported" - Council has reviewed and supports the placement of the project on the CIP Plan; "Budget Adopted" - Council has approved the project through the Council action that takes place through either the full budget adoption process, or through a specific agendized item brought to Council.
Shovel Ready	Project is ready to be sent out to bid.

Project Name	Project Description	Org/Obj	Project #	Allocation to Multi-funds	Project Location	Project Status	Funding Source	Funding Identified	Costs to date	23/24	24/25	25/26	26/27	27/28	Totals	City Council Status	Shovel Ready
Redundant Internet Gateway (Fall-over Load Balancer)	Our current AT&T Internet gateway provides service to all of the City of Ukiah departments for Internet access, as well as Public Safety access to law enforcement websites and other important services. If service fails, we do not have a failover scenario in place. A failover scenario would involve an additional Internet Gateway with a different Internet service provider (ISP). If one ISP fails, the gateway would failover to the alternate one available. This would ensure service availability, virtually 100% of the time. **Additional Comments:** Moved from FYE 21 due to COVID-19. Reduced FYE 22 amount from $166,800, and FYE 23 from $48,400. This is contingent on our Cloud Data and Server Migration in 21/22, which will determine necessary bandwidth for our current gateway. Moved from FYE 23.	20913900.80100	17046	N/A	300 Seminary Ave.	Ongoing	Internal Service	Yes		$ 24,200					**$ 24,200**	Reviewed	**X**
Cisco Access Switch EOL Replacement	These switches connect the City's computers, phones, printers, and Wi-Fi units into the core infrastructure. The switches allow these devices to connect to the Internet and internal servers. They will be End-Of-Life and will no longer be supported by the manufacturer. **Additional Comments:** Some switches are already acquired and will be installed 22/23. Moved the project from FYE 23.	20913900.80100	18100	N/A	300 Seminary Ave.	New	Internal Service	Yes			$ 90,000	$ 90,000			**$ 180,000**	Reviewed	**X**
Cisco Nexus Switch EOL Replacement	These switches are the center core of our network infrastructure. They serve as data conduits for all City of Ukiah operations. They will be end-of-life, as warranty and support runs out during this time-frame. **Additional Comments:**	20913900.80100	TBD	N/A	300 Seminary Ave.	New	Internal Service	Yes			$ 110,000				**$ 110,000**	Reviewed	**X**
Wireless Mesh	This will provide a broadband wireless communication network for our Police Department across the Ukiah Valley, as well as provide Wi-fi access for other departments and divisions. Site surveys will be required to establish back-haul points which will accommodate multi-point wireless antennas. A pilot site will begin Phase I, to establish the first back-haul point for testing purposes. Phase II will establish the installation of additional multi-point wireless antennas, followed by the Wi-Fi implementation that will supplement other City department projects. **Additional Comments:** Prioritization and funding source(s) under review. Need to explore grant funding. Department estimate/request is not known at this time. Phase I will be started on FY 23/24 and Phase II will be started on FY 24/25 as funding is acquired.	20913900.54330	18329	N/A	300 Seminary Ave.	New	TBD	No							**$ -**	Reviewed	
								SUB-TOTAL:	**$ -**	**$ 24,200**	**$ 200,000**	**$ 90,000**	**$ -**	**$ -**	**$ 314,200**

Project Name	Project Description	Org/Obj	Project #	Allocation to Multi-funds	Project Location	Project Status	Funding Source	Funding Identified	Costs to date	23/24	24/25	25/26	26/27	27/28	Totals	City Council Status	Shovel Ready
Truck - Utility Service Attendant	Current vehicle approaching the end of it's useful life. **Additional Comments:** Moved from FYE 23 to allow for more EV options; Electric vehicle. Move from FYE 24.	20513300.80100	TBD	N/A	300 Seminary	New	TBD	No			$ 35,000				**$ 35,000**	Reviewed	X
Vehicle for Information Technology	Vehicle needed for Information Technology staff. Will explore EV options. **Additional Comments:** Will be financing.	20913900.80100	TBD	N/A	300 Seminary	New	TBD	No		$ 35,000					**$ 35,000**	Reviewed	X
Telephone System Replacement	Staff will be looking to a cloud-based telephone system that will provide features and diversity of operation, including "soft phones" that can be mobile to any location desired, not withstanding on-premise, home, conferences, etc. All features move with the phone and provide complete mobility with full functionality. The beginning of the project would address external City of Ukiah sites first, and then move to the Civic Center, Annex, and finally to the Police Department. This multi-phase project would span over one site at a time, until all sites are completed. Our current Mitel phone system is antiquated and at end of life. **Additional Comments:** $50k for phone replacements. Note: 75k per year in cloud-based service charges ($25 per phone per month @ 250 phones).	20913900.80100	TBD	N/A	300 Seminary Ave.	New	TBD	No			$ 50,000				**$ 50,000**	Reviewed	X
In-Rack Cooler Replacement	Our current in-rack cooling system provides cooling for all of our network infrastructure, which includes servers, routers, switches and batter-backup banks within the racks. The cooler is approximately 15 years old, and is the oldest in the state of California, end of life, and at risk of failure. Replacement is critical, as turnaround time would be quesionable in te event of a failure. **Additional Comments:**	20913900.80100	TBD	N/A	300 Seminary Ave.	New	TBD	No		$ 18,900					**$ 18,900**	Reviewed	X
								SUB-TOTAL:	**$ -**	**$ 53,900**	**$ 85,000**	**$ -**	**$ -**	**$ -**	**$ 138,900**

FIRE AUTHORITY

FIVE YEAR CAPITAL IMPROVEMENT PLAN*
23/24 FISCAL YEAR
UKIAH VALLEY FIRE AUTHORITY

FACILITIES/BUILDINGS/LAND

FIRE AUTHORITY

Project Name	Project Description	Org/Obj	Project #	Allocation to Multi-funds	Project Location	Project Status	Funding Source	Funding Identified	Funding Source Add'l Comments	Costs to date	23/24	24/25	25/26	26/27	27/28	Totals	City Council Status	Shovel Ready
South Station Replacement	The South Station (Station-681) has surpassed its useful life span as the facility infrastructure no longer meets the needs of the UVFA as current staffing levels have outgrown the existing living space. Station-681, initially a California Highway Patrol station, was converted into a fire station and designed to house one full-time staff member; UVFA currently staffs the station with three full-time team members per day (24-hours). Additionally, as UVFA grows, it is anticipated that a full-time ambulance with another two full-time team members will be there per day in the foreseeable future. Station-681's current footprint would not be equitable or appropriate for use or a remodel due to size. Complete replacement of the station is necessary, also a consideration for station location, selecting a strategic location to give the most optimal service to the Ukiah Valley. **Additional Comments:** Prioritization and funding source(s) under review; Need to explore grant funding. Department estimate/request is $10 million.	91521400.80220	18334	N/A	1500 S State/141 Lovers Ln.	New	TBD	No	Seeking grant funding.							$ -	Reviewed	
North Station Replacement	The North Station (Station-683) has surpassed its useful life span as the facility infrastructure no longer meets the needs of the UVFA as current staffing levels have outgrown the existing living space and equipment storage. Station-683 was purchased as a temporary solution to have equipment and personnel stationed in the north end of Ukiah Valley for strategic planning and deployment of services. UVFA currently staffs the station with three full-time team members per day (24-hours). As with all other UVFA stations, it is anticipated that a full-time ambulance with another two full-time team members will be there per day in the foreseeable future. Station-683's current footprint would not be equitable or appropriate for use or a remodel due to size. Complete replacement of the station is necessary, also a consideration for station location, selecting a strategic location to give the most optimal service to the Ukiah Valley. **Additional Comments:** Prioritization and funding source(s) under review; Need to explore grant funding. Department estimate/request is $10 million.	91521400.80220	18334	N/A	1500 S State/141 Lovers Ln.	New	TBD	No	Seeking grant funding.							$ -	Reviewed	
Central Station Retrofit	The Central Fire Station (Station-682) is in need of upgrades and retrofit. Station-682, until recently, was used as equipment storage and base of operations for volunteers, along with housing the On-Duty Duty Officer. It currently is staff with the Duty Officer and one full-time ambulance staffed by two team members per day (24-hours). Retrofits and upgrades are needed for bedrooms, bathrooms, office space, kitchen, living space, apparatus bay, the exterior (including roof repairs), heating and cooling systems, and installing security measures to protect the facility and fire equipment. These upgrades/retrofits will maintain the building's footprint utilizing a change in layout to accommodate the Department's current and future needs as it is anticipated that additional staffing (fire/EMS) will be added in the foreseeable future. **Additional Comments:** Prioritization and funding source(s) under review; Need to explore grant funding. Department estimate/request is $850,000.	10021210.80220	18336	N/A	1500 S State/141 Lovers Ln.	New	TBD	No	Seeking grant funding.							$ -	Reviewed	

Refer to last page of this document for definition of terms used.

Training Room - Central Station	The Training Room and the Central Fire Station (Station-682) require upgrades and retrofitting. The central training room is currently the primary training classroom; it also serves as the Emergency Center of Operations (EOC) in a catastrophic event for the city or surrounding area. As technology has rapidly changed, the room needs to be upgraded to match the changes to give our team members the tools needed to complete our mission. Additionally, UVFA identified an issue with the availability or lack of training relying on outside resources. After identifying the problem, strategic planning was put into place to bring our team members the necessary and required training in-house, thus requiring upgrades. Upgrades include tables, chairs, audio, video, internet accessibility, phone systems (including 911 operability), internal & external communication capabilities, whiteboards, planning boards, etc. **Additional Comments:** Prioritization and funding source(s) under review; Need to explore grant funding. Department estimate/request is $50,000.	10021210.80220	18338	N/A	1500 S State/141 Lovers Ln.	New	TBD	No	Seeking grant funding.							$ -	Reviewed

Type VI Brush Squad	The crucial component utilized by the Fire Service allows team members to respond to any emergency ranging from fire, medical, rescue, hazmat, vehicle fire/crashes, etc. Fire engines and trucks are broken down into various classes (Type-I, Type-II, Type-III, etc.) based on the capabilities or specialized equipment of the apparatus. The most notable benchmark is response volume which indicates usage hours. Other aspects include accepted future use, mileage, past apparatus required maintenance, and downtime (out of service due to repairs); it is recommended that front-line vehicles be placed in reserve status at 6k hrs or 7 to 10 yrs of front-line service. Additionally, it is recommended that all reserve apparatus be retired after 12k hrs of service or 15 to 20 yrs of service. BR-6861 (Type-VI): This new purchase will be recommended in 2023, switching from our current Type-II apparatus to a more versatile and maneuverable Type-VI for our front-line team members and stations. E-6861 (Type-II): recommended to be repurposed as a reserve with the purchase of B-6861 in 2023; current E-6861 will replace E-6872. E-6872 (Type-III): will be replaced as the current front-line apparatuses (Type-II) are moved to reserve status and be listed as surplus. **Additional Comments:** Following UVFA Current Fleet Replacement Plan.	TBD	TBD	N/A	1500 S. State St.	New	TBD	No							$ 547,000	**$ 547,000**	Reviewed	
Rescue Boat (Specialized Vehicle)	The Boat is used for water operations and rescue. The recommended replacement is front-line for 7 to 10 years and retired after 15 to 20 years of service. Based on the degrading of the marine material over time and hard use. B68-1: recommended replacement in 2023; the current B68-1 will be placed in reserve status as B68-2. B68-2: will be replaced as current front-line vehicles are moved to reserve status and be listed as surplus. **Additional Comments:** Following UVFA Current Fleet Replacement Plan.	10021210.80100	TBD	N/A	1500 S State St.	New	General	No				$ 32,000				**$ 32,000**	Reviewed	X
Quint Aerial Apparatus	The crucial component utilized by the Fire Service allows team members to respond to any emergency ranging from fire, medical, rescue, hazmat, vehicle fire/crashes, etc. Fire engines and trucks are broken down into various classifications (Type-I, Type-II, Type-III, etc.) based on the capabilities or specialized equipment of the apparatus. The most notable benchmark is response volume which indicates usage hours. Other aspects include accepted future use, mileage, past apparatus required maintenance, and downtime (out of service due to repairs); it is recommended that front-line vehicles be placed in reserve status at 6,000 hours or 7 to 10 years of front-line service. Additionally, it is recommended that all reserve apparatus be retired after 12,000 hours of service or 15 to 20 of service. T-6852 recommended replacement in 2024; the current T-6852 will be removed from service and listed as surplus. **Additional Comments:** Following UVFA Current Fleet Replacement Plan.	TBD	TBD	N/A	1500 S State St.	New	TBD	No				$ 1,800,000				**$ 1,800,000**	Reviewed	X

The most notable benchmark is response volume which indicates usage hours. Other aspects include accepted future use, mileage, past apparatus required maintenance, and downtime (out of service due to repairs); it is recommended that front-line vehicles be placed in reserve status at 6,000 hours or 7 to 10 years of front-line service. Additionally, it is recommended that all reserve apparatus be retired after 12,000 hours of service or 15 to 20 of service. Due to the current use (Hours), E-6881 and E-6883 will be well over 6,000 before the seven-year mark as, on average, each apparatus puts approximately 1,500 hours of usage per year. E-6881 has the higher use of the two, which puts it first for replacement. E-6881 (Type-I): It is recommended for replacement in 2025; the current E-6881 will be repurposed as a reserve and replace E-6882. **Additional Comments:** Following UVFA Current Fleet Replacement Plan.	TBD	TBD	N/A	1500 S State St.	New	TBD	No					$ 935,000			**$ 935,000**	Reviewed	X

Fire Engine Apparatus	The crucial component utilized by the Fire Service allows team members to respond to any emergency ranging from fire, medical, rescue, hazmat, vehicle fire/crashes, etc. Fire engines and trucks are broken down into various classifications (Type-I, Type-II, Type-III, etc.) based on the capabilities or specialized equipment of the apparatus. The most notable benchmark is response volume which indicates usage hours. Other aspects include accepted future use, mileage, past apparatus required maintenance, and downtime (out of service due to repairs); it is recommended that front-line vehicles be placed in reserve status at 6,000 hours or 7 to 10 years of front-line service. Additionally, it is recommended that all reserve apparatus be retired after 12,000 hours of service or 15 to 20 of service. Due to the current use (Hours), E-6881 and E-6883 will be well over 6,000 before the seven-year mark as, on average, each apparatus puts approximately 1,500 hours of usage per year. E-6883 has the second highest use of the two, which puts it second for replacement. E-6883 (Type-I): recommended replacement in 2026; between former E-6881 and E-6883, one will be used as a reserve as (E-6882) while the other will be listed as surplus. **Additional Comments:** Following UVFA Current Fleet Replacement Plan.	TBD	TBD	N/A	1500 S State St.	New	TBD	No						$ 956,000		**$ 956,000**	Reviewed	**X**
Tech Rescue Tow/Haul (Specialized Vehicle)	Specialized vehicles are generally designed for a specific purpose (Support/Air Unit, USAR, Boat) utilized by the UVFA. These units play a critical role in the success of the UVFA's mission. The USAR (Urban Search & Rescue) is designed for natural disasters, confined space rescue, and collapse rescue. Support/Air and USAR were based on usage of the vehicle; it is recommended for replacement at 12,000 or 15 to 20 years of service. A significant change, USAR-68 is currently a pull-behind trailer without a dedicated vehicle for towing; this will be a utility truck with a crane to haul the specialty trailers (USAR/Swiftwater rescue trailers). It will allow for a rapid response in a time sensitive environment, with the small crane attached making the vehicle more versatile and adaptable for any situation that team members encounter. USAR-68: recommended replacement in 2027; the current USAR-68 trailer will be placed as surplus or utilized by another City Department. **Additional Comments:** Following UVFA Current Fleet Replacement Plan.	TBD	TBD	N/A	1500 S State St.	New	TBD	No							$ 260,000	**$ 260,000**	Reviewed	**X**
Swiftwater Rescue Equipment Trailer	This trailer will be dedicated to swift water rescue equipment including a boat. This trailer gives team members the ability to maintain and rapidly respond to any water rescue incident. All water rescue equipment will be stored within the trailer, including the inflatable boat. The trailer allows the ability to maintain all equipment in a controlled environment. **Additional Comments:** Following UVFA Current Fleet Replacement Plan.	TBD	TBD	N/A	1500 S State St.	New	TBD	No							$ 35,000	**$ 35,000**	Reviewed	**X**

Definition of terms used:

Project Name	The name of the project.
Project Description	Provides a description and additional narrative to assist in the understanding of the need and value of the proposed project
Org/Object	The proposed account code where the expense will be accounted for.
Project Number	The number assigned to track all expenses related to the project.
Allocation to Multi-funds	Indicates if the cost of the proposed cost is shared. In this case, here it will state what other funds are sharing the cost.
Project Status	This indicates whether the project is "NEW", "IN PROGRESS", "ONGOING", "DEFERRED", or "COMPLETED".
Funding Source	The Fund the actual expense will come out of.
Funding Identified	"Yes" indicating funding has been identified and will be available, "No" indicating funding has not yet been identified and is unavailable
Funding Source Add'l Comments	To further explain, as necessary, the funding type used selected.
Costs to date	Costs spent on the project.
Estimated Costs per Fiscal Year	Costs estimated to be spent in each of the fiscal years.
Totals	The sum of the five year estimate for each project.
Comments	Additional information as needed.
City Council Status	"Not Reviewed"- First time that Council has been presented the project; "Reviewed" - Council has been presented the project during an agendized meeting; "Explore" - Council has reviewed and has asked staff to further explore; "Reviewed and Supported" - Council has reviewed and supports the placement of the project on the CIP Plan; "Budget Adopted" - Council has approved the project through the Council action that takes place through either the full budget adoption process, or through a specific agendized item brought to Council.
Shovel Ready	Project is ready to be sent out to bid.

Police Department Computer Aided Dispatch & Mobile Digital Terminal Software	The Ukiah Police Department has been using the same Computer Aided Dispatch (CAD) platform since 1998. The provider of this CAD system changed ownership multiple times, since our initial purchase. Currently there are only 6 agencies in the state using this system and it does not have standard functionality such as mapping. It is likely that this CAD system will be discontinued in the future. Fortunately, the current owner of this old system is our Records Management System provider and offers a modernization upgrade. This would allow for the seamless flow of information from our CAD system, Records Management System and our MDT's. This modernization software would also provide a mapping component to our CAD and MDT software which is an industry standard now. **Additional Comments:** Cost of project per Fiscal year may vary depending on start date, but total cost is identified. Moved from starting in FYE 24, and increased total project amount from $491,593. Staff is still looking for grant funding. Additionally, current staff resources are unable to support a project of this size.	1002210.54330/.54320	TBD	N/A	300 Seminary Ave.	Deferred	TBD	No	Seeking grant funding, and may explore financing options.			$ 90,325	$ 90,325	$ 180,651	$ 220,617	**$ 581,918**	Reviewed	**X**

Annual Police Car Replacement	Annually the Police Department schedules the replacement of two patrol cars. Typically, a patrol car lasts about 3 years before it reaches the end of it's service life. It takes the department about a year to order, receive and outfit a car for patrol use. By scheduling regular replacement of cars, the department ensures we have enough cars available for use. **Additional Comments:** The Department has maintained a vehicle replacement plan of two vehicles per year, which was previously reduced due to COVID-19. The budget has been increased from $100k yearly, as current vehicle replacement actual cost exceeds prior budgeted amounts. This is also a consideration of inflation. Revised PC's. Increased amount in FYE 23 from $150k to reflect cost increase for two hybrid vehicles currently on order. Increased future years from $150k as well in consideration of inflation.	10020210.80100	V4215 & V4218	N/A	300 Seminary Ave.	Ongoing	General	No	May explore financing options.		$ 175,000	$ 175,000	$ 175,000			**$ 525,000**	Reviewed	**X**
Replace Tasers	The Ukiah Police Department has deployed Tasers since 2018, utilizing a 5-year purchasing program to maintain current equipment and which provides support for hardware, supplies, and technology through the term of the agreement. The current agreement with Axon expires in 2022. **Additional Comments:** As explained in our prior CIP plan, the department has maintained a purchasing plan to support our tasers, which is expiring this year. Unless renewed, equipment will not be repairable or supported. Yearly pricing has increased from $15k. Unencumbered contract was awarded FYE 23. Reduced amount in FYE 23/24/25/26/27 from $32k to reflect five-year contract commitment that will have to be rebudgeted for the life of the	10020210.54100	18345	N/A	300 Seminary Ave.	In Progress	General	Yes		$ 26,697	$ 26,974	$ 26,974	$ 26,974	$ 26,974	**$ 107,896**	Reviewed	**X**
Replace Body Cameras	The Ukiah Police Department has deployed body-cameras to memorialize officer contacts, criminal conduct, and investigative activities for more than 10 years. These video and audio recordings are used as evidence in criminal and civil cases, as well as for internal quality assurance. The current purchasing program expires in 2023, and provides for evidence storage, current and reliable equipment, and support for hardware and software for the term of the agreement. **Additional Comments:** As explained in our prior CIP plan, the department has maintained a purchasing plan to support our body worn cameras, which is expiring in May of 2023. Unless renewed, equipment will not be repairable or supported, essentially making them inoperable. Due to the fact that our tasers are also due for renewal, the department is exploring a bundling option as a cost saving measure. Overall cost has increased from $79k. Unencumbered contract was awarded FYE 23. Reduced amount in FYE 23/24/25/26/27 from $52k to reflect five-year contract commitment that will have to be rebudgeted for the life of the contract.	10020210.54100	18346	N/A	300 Seminary Ave.	In Progress	General	Yes		$ 47,683	$ 47,954	$ 47,954	$ 47,954	$ 47,954	**$ 191,816**	Reviewed	**X**

FIVE YEAR CAPITAL IMPROVEMENT PLAN*
23/24 FISCAL YEAR
POLICE

Unmanned Aircraft	The Ukiah Police Department would like to purchase two "DJI Mavic 3T" unmanned aircraft systems (drones) from Axon. The drones are $7,500 each. Each drone has an annual software cost of $2,200 a year and a $360 pilot license fee. Ideally the Ukiah Police Department would have two staff trained to pilot the drones. The training for each pilot would be a one time cost of $999. **Additional Comments:** Unmanned Aircraft could be very useful and important if working a barricaded hostage situation, natural disaster such as flood, or fire.	10020210.54100	TBD	N/A	300 Seminary Ave.	New	General	No			$ 22,000						$ 22,000	Reviewed	X
Flock Cameras	The Ukiah Police Department would like to purchase and implement an additional 14 Flock cameras in or around the Ukiah City Limits to help with solving felony crimes occurring in our community. **Additional Comments:** Flock cameras have been proven to assist officers in locating stolen vehicles, wanted persons and helped in solve crimes around the City of Ukiah. Currently we have some areas of the City of Ukiah that are not covered by Flock Cameras.	10020210.54100	TBD	N/A	300 Seminary Ave.	New	General	No			$ 41,000						$ 41,000	Reviewed	X
LPR Fleet Cameras	The Ukiah Police Department would like to update it's Fleet Cameras inside the police patrol vehicles. Currently the 9 UPD patrol vehicles are outfitted with Fleet 2 Axon cameras. These cameras are becoming outdated and will need an upgrade in the next few years. Updating our Fleet 2 cameras to Fleet 3 cameras would give the police department a wider view and the Feel 3 cameras are also License Plate Reader compatible. **Additional Comments:** For an additional fee the LPR can be turned on to assist officers in locating stolen vehicles or felony wanted vehicles entered into the State of California DMV system and Stolen Vehicle System. The proposed Axon quote for Fleet 3 cameras would provide new cameras for all 9 patrol vehicles, include all hardware, software, and warranty. The payment would be broken up into 5 years for a total of $122,193 (FYE 29 not currently on CIP).	10020210.54100	TBD	N/A	300 Seminary Ave.	New	General	No				$ 24,439	$ 24,439	$ 24,439	$ 24,439	$ 97,756	Reviewed	X
Body Armor	The Ukiah Police Department is in need of 13 new body armor vests for our police officers. We have several that are end of life and need replacement in the upcoming year. The cost of a bullet proof vest is approximately $1,000 a vest. **Additional Comments:** Vests are personally fitted for each officer and are for the safety of our staff.	10020210.54100	TBD	N/A	300 Seminary	New	General	No			$ 13,000						$ 13,000	Reviewed	X

PUBLIC WORKS

Orr Street Bridge	This project will improve the bridge on Orr Street at Orr Creek. **Add'l Comments:** The City has received $150k to fund a planning study for Orr Street Bridge and the Orr Street transportation corridor. Activities include completion of a study to analyze existing conditions of the street, including the transportation corridor and bridge, as well as the completion of a plan and preparation of plans and specifications and an Engineer's Cost Estimate to be used for a future public improvement project. Request for Proposal completed and awarded to GHD November 2021, study has begun. Moved construction to FYE 24 as this work is completed.	12024200.80230 25124220.80230	18065	Yes	Orr Street at Orr Creek	In Progress	Capital Projects	Grant	Yes	CDBG Grant	$ 150,000	$ 254,438					**$ 254,438**	Reviewed	**X**
Low Gap Road and North Bush Street Roundabout	This project will complete the environmental, ROW, and design phases for a roundabout at Low Gap Road and N. Bush St. Construction phase not currently funded. **Add'l Comments:** Design authorized, but project requires additional Council review. Moved from FYE 22, and reduced from $1.5 mil due to COVID-19. Moved from FYE 21. Moved from FYE 22 to FYE 23 and FYE 24 due to delays in grant processing.	50924210.80230	15024	N/A	Low Gap Rd & N. Bush	In Progress	Special Revenues		Yes	MCOG Revenues		$ 450,000					**$ 450,000**	Reviewed	**X**
Slurry Seal Project	This project will improve the Streets network. **Add'l Comments:** Going out to bid. Budget will be utilizing FYE 21 anticipated revenue. Had utilized this year's budget for other projects. Increased budget from $200k FYE 22. Increased budget from $400k FYE 21, from $200k in FYE 23, and from $200k in FYE 24. Added budget in FYE 25 and 26. Increased budget in FYE 24, 25, and 26 from $250k each due to increasing funding sources, expanding scope, and inflation. Bid for FYE 23 is anticipated to be awarded prior to end of this fiscal year, so increasing this year's budget from $350k, and not budgeting anything for FYE 23.	12024200.52100	18332	N/A	Various Streets	Ongoing	Special Revenues		Yes	Measure Y			$ 400,000	$ 400,000			**$ 800,000**	Reviewed	**X**
Main Street Reconstruction Project	Reconstruct Main Street, from Gobbi to Norton. **Add'l Comments:** Moved from FYE 22 due to COVID-19. Increased amount from $500k. RFP for design was awarded to Coastland in February of 2022. Funding source has changed from Measure Y. Part of 3 project grant application. Chance of grant award could move up timeline. Currently not funded. Estimated amount is $6M.	25224220.80230	18343	N/A	Main Street	New	Bond Funding		Yes	TBD							**$ -**	Reviewed	**X**
Leslie Street Rehabilitation Project	Rehabilitate Leslie Street, Gobbi to Perkins. **Add'l Comments:** Moved from FYE 21. Moved from FYE 22 due to a number of various projects, timelines, and severity of street conditions.	12024200.80230	TBD	N/A	Leslie Street	New	Grant		Yes	CDBG Funding Opportunity					$ 1,500,000		**$ 1,500,000**	Reviewed	**X**
Perkins Street Storm Drain and Widening Project	This project will add a storm drain on East Perkins Street and widen the intersection at Orchard Avenue to add another East Bound through lane. **Add'l Comments:** Request for Proposal completed and contract awarded to BKF in February of 2022. Engineering underway. Construction moved to FY 23/24. Part of 3 project grant applications. Chance of grant award could move up timeline. Currently not funded. Estimated amount is $2.2M.	25224220.80230	18308	N/A	E. Perkins St.	In Progress	Grant		Yes	TBD	$ 211,889						**$ -**	Reviewed	**X**
Great Redwood Trail- Phase 4	This project will extend the Great Redwood Trail from Commerce Drive to Norgard Lane **Add'l Comments:** Grant has been awarded. Moved full project for completion in FYE 22. Moved from FYE 22. Costs to date are for engineering. Moved from FYE 23. On pause waiting for railbanking announcement.	51124210.80230	18253	N/A	Railroad ROW	In Progress	Grant		Yes	Urban Greening Grant	$ 483,234		$ 3,563,212				**$ 3,563,212**	Reviewed	**X**

Definition of terms used:

Project Name	The name of the project.
Project Description	Provides a description and additional narrative to assist in the understanding of the need and value of the proposed project
Org/Object	The proposed account code where the expense will be accounted for.
Project Number	The number assigned to track all expenses related to the project.
Allocation to Multi-funds	Indicates if the cost of the proposed cost is shared. In this case, here it will state what other funds are sharing the cost.
Project Status	This indicates whether the project is "NEW", "IN PROGRESS", "ONGOING", "DEFERRED", or "COMPLETED".
Funding Source	The Fund the actual expense will come out of.
Funding Identified	"Yes" indicating funding has been identified and will be available, "No" indicating funding has not yet been identified and is unavailable
Funding Source Add'l Comments	To further explain, as necessary, the funding type used selected.
Costs to date	Costs spent on the project.
Estimated Costs per Fiscal Year	Costs estimated to be spent in each of the fiscal years.
Totals	The sum of the five year estimate for each project.
Comments	Additional information as needed.
City Council Status	"Not Reviewed"- First time that Council has been presented the project; "Reviewed" - Council has been presented the project during an agendized meeting; "Explore" - Council has reviewed and has asked staff to further explore; "Reviewed and Supported" - Council has reviewed and supports the placement of the project on the CIP Plan; "Budget Adopted" - Council has approved the project through the Council action that takes place through either the full budget adoption process, or through a specific agendized item brought to Council.
Shovel Ready	Project is ready to be sent out to bid.

Definition of terms used:

Project Name	The name of the project.
Project Description	Provides a description and additional narrative to assist in the understanding of the need and value of the proposed project.
Org/Object	The proposed account code where the expense will be accounted for.
Project Number	The number assigned to track all expenses related to the project.
Allocation to Multi-funds	Indicates if the cost of the proposed cost is shared. In this case, here it will state what other funds are sharing the cost.
Project Status	This indicates whether the project is "NEW", "IN PROGRESS", "ONGOING", "DEFERRED", or "COMPLETED".
Funding Source	The Fund the actual expense will come out of.
Funding Identified	"Yes" indicating funding has been identified and will be available, "No" indicating funding has not yet been identified and is unavailable.
Funding Source Add'l Comments	To further explain, as necessary, the funding type used selected.
Costs to date	Costs spent on the project.
Estimated Costs per Fiscal Year	Costs estimated to be spent in each of the fiscal years.
Totals	The sum of the five year estimate for each project.
Comments	Additional information as needed.
City Council Status	"Not Reviewed"- First time that Council has been presented the project; "Reviewed" - Council has been presented the project during an agendized meeting; "Explore" - Council has reviewed and has asked staff to further explore; "Reviewed and Supported" - Council has reviewed and supports the placement of the project on the CIP Plan; "Budget Adopted" - Council has approved the project through the Council action that takes place through either the full budget adoption process, or through a specific agendized item brought to Council.
Shovel Ready	Project is ready to be sent out to bid.

RESOLUTION NO. 2023-

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF UKIAH ESTABLISHING THE FISCAL YEAR 2023-24 APPROPRIATIONS LIMIT FOR THE CITY OF UKIAH

WHEREAS, pursuant to *Government Code* Section 7910, the City Council must, by resolution, establish its appropriations limit for each fiscal year.

NOW, THEREFORE, BE IT RESOLVED THAT the appropriations limit for the City of Ukiah for the 2023-24 Fiscal Year shall be fifty-three million, two hundred sixty-one thousand, seventy-five dollars ($53,261,075). The appropriations subject to this limit are estimated to be twenty million, three hundred seven thousand, thirty-five dollars ($20,307,035).

This resolution was adopted by the City Council of the City of Ukiah at a regular meeting thereof on the 21st day of June, 2023, by the following vote:

AYES:
NOES:
ABSTAIN:
ABSENT:

_____
Josefina Duenas, Vice Mayor

ATTEST:

_____
Kristine Lawler, City Clerk

Other governmental taxes	800
Interest earning from taxes	15,765
	$ 20,307,035
Percentage Use of Appropriations Limit	**38.13%**

(1) When calculating its appropriation limit, the City may use either the change in population for the City or Mendocino County as a whole.

BUDGET APPROVAL AGREEMENT

This Agreement is entered on July 1, 2023, in Ukiah, California, between the City of Ukiah ("City"), a general law municipal corporation, and the Ukiah Valley Sanitation District ("District"), a county sanitation district.

1. The City and the District agree to approve as shared costs of the Combined CITY/DISTRICT Sewer System ("Combined System") for fiscal year 2023-24 the City budget for direct expenditures of personnel, operations, and capital outlay, and the indirect expenditures of internal service use of the Wastewater Enterprise, as set forth in the attached Exhibit A. Total *direct* operating budgeted costs, defined as costs of Personnel and Operations in Exhibit A of $[4,632,567] as well as an Operating Indirect Rate ("OIR") on such costs of 14.20% ([672,225]) for a total budgeted estimate of $[5,304,792] will be shared [ ]% District and [ ]% City. This share is for 2023-24 fiscal year and will be effective July 1, 2023.

Total *direct* costs of $[160,000] for Capital Outlay in Exhibit A will be funded by both the City and District at [ ]% District and [ ]% City, as well as an Indirect Rate on such costs incurred not to exceed 9.0%, which is the five-year average of Indirect Costs incurred and budgeted by the Combined System related to purchasing, insurance, and other applicable indirect costs, excluding administrative and overhead. This rate will be referred to as the Capital Indirect Rate ("CIR"). The City and District will use the CIR on all Capital Outlay with costs less than $200,000 unless either party desires to negotiate the rate for any individual project. The indirect rate will be negotiated for projects over $200,000 based on an estimate of required indirect costs to complete the capital project. The City Engineer or City's Water Resources Director will communicate verbally or in writing to the District Manager when such expenditures are expected to accrue. The District will pay to the City the District's share of the cost for an approved capital expense within fifteen (15) days of the date of an invoice given to the District for that expense. On and after the effective date of this Agreement, any portion of capital projects paid by the District will be capitalized on its books as intangible assets and depreciated.

The shared costs presented in Exhibit A exclude District and City administrative and other overhead costs allocated directly to the wastewater activities of the City and District. The City and District shall incur 100% of each agency's own administrative and other costs not shown on Exhibit A.

2. For any costs incurred for District-only activities or projects (e.g. a main line replacement of a District asset), that the City is required to perform or contracted to perform on the District's behalf, the City may include in total project costs an amount to cover the City's indirect administrative and overhead costs. Before the City is required to perform the work, the parties shall negotiate and agree on the amount thereof to include in the project costs to be paid by the District. In the event of an emergency or urgent need to commence work before the parties can negotiate and agree on the total project costs, including indirect administrative and overhead costs, the City and the District shall negotiate and agree on those costs before a

final cost settlement is made.

3. The District shall pay to the City by the 1st of every month starting July 1, 2023, 1/12th of the District's share of the agreed operating budget (Personnel, Operations, and Operating Indirect Rate) shown in Exhibit A (i.e., $425,524 x 0.5009 = $213,144.97). City is not required to generate an invoice for these payments which are fixed monthly payments to the City by the District. As provided in Section II.D.4.a of the Operating Agreement, the City and District will review every quarter the actual costs incurred. The City and District will reconcile differences between actual costs incurred, budget costs, and over/under payments made by either agency no later than 90 days after the end of the fiscal year (June 30) or after any quarterly review as agreed upon by both parties

Per Section 6 of the Refinancing Agreement between the City and District, the true up process results in a true up payment of the City to the District of $[ ] (see Exhibit B). The parties agree the City will remit this payment to the District after the third quarter reconciliation, no later than April 15, 2024.

4. Payments under Sections 1, 2, and 3 above shall be subject to interest as provided in Section II.D.4.b of the Operating Agreement.

The parties have entered this agreement on the date first written above.

ITEM NO: 2023-2758

City of Ukiah

AGENDA SUMMARY REPORT

SUBJECT: Public Benefits Program Update, and Approval of New Customer Programs and Rebates.

DEPARTMENT: Electric Utility

PREPARED BY: Diann Lucchetti, Administrative Secretary

PRESENTER: Diann Lucchetti, Program Coordinator and Cindy Sauers, Electric Utilities Director.

ATTACHMENTS:

1. Residential and Commercial Rebates Charts - DRAFT
2. Residential DI Program SOW- Final
3. DI Customer Letter-Flyer and Door Hanger
4. Electric Yard Equipt. Rebate Chart - DRAFT

Summary: The Electric Utility will provide an overview of the Department's updated Public Benefit Programs and available rebates for City Council's consideration and approval.

Background: Ukiah Electric Utility administers the Public Benefit (PB) Program created by State Assembly Bill 1890 in 1996. The legislation specifically requires programs to benefit electric customers in four areas, including Low-Income Programs, Energy Conservation, Renewable Energy, and Research Development & Demonstration projects. AB1890 requires funding to be 2.85 percent of gross electric energy sales.

The Electric Utility works closely with our program administrator, Efficiency Services Group (ESG), to design, implement, and administer energy efficiency and renewable customer programs to provide the best use of available funding.

Discussion: Public Benefit funds are utilized to provide services for Energy Efficiency Programs and Services and Low-Income Billing Assistance. Brief descriptions of the existing programs are below:

Energy Efficiency Programs and Services: The Utility offers energy efficiency programs to save energy and reduce demand, providing customers with cost savings on their electric bills. The Electric Utility continually evaluates existing programs to ensure customers have opportunities to reduce their energy usage by utilizing funding through rebates and programs. In 2022, these programs benefited customers 59,558 kilowatt-hours (kWh) of energy savings. Staff anticipates significantly more savings in 2023 as a result of the first phase of the Direct Install Program that was approved by Council in August of 2022.

Low-Income Billing Assistance: Currently, the City has two low-income bill assistance programs; Senior Citizen Monthly Discount and Non-Senior Household Monthly Discount programs to help low-income and senior customers pay their electric bills. The Utility provides over $150,000/year assistance to our low-income customers.

Comprehensive lists of rebates available to Ukiah Electric customers are included for the Council's review. (Attachment 1)

Staff recommends implementation of the following programs:

Residential Direct Install Program: On August 17, 2022, Council approved a Residential Direct Install (DI) Program, which provided energy-saving opportunities to lower-income customers that are currently participating in Ukiah's bill assistance program. The DI program provided 194 eligible customers with instant saving measures, identified opportunities for additional savings, and helped increase customer awareness about Ukiah's Energy Efficiency programs. The program consisted of the installation of energy and water saving measures to deliver real savings on customer electric, water, and sewer costs. These measures were installed in the customer's home at no charge to them, while helping Ukiah achieve their energy savings goals. In addition, snapshot audits were completed for the customer to identify other potential savings. The recent DI program expects to reduce energy use by 121,000 kWh/year, which results in a customer savings of approximately $20,000/year. The enthusiastic response to the DI Program indicated that customers are eager to save energy and reduce their monthly bills. There are still many people who would benefit from this program. Therefore, the Utility would like to implement a second phase and provide others with this cost-saving opportunity.

The program may become available to all electric customers if the budget allows. See Attachments 2 and 3 for the Scope of Work, Draft letter to customers, flyer and door hanger.

Electric Yard Equipment Rebate: According to the US Environmental Protection Agency (EPA), a new gas-powered lawn mower produces as much air pollution in one hour of operation as 11 new cars being driven for 1 hour. (https://cleantechnica.com/2021/10/13/its-time-to-ban-gas-powered-landscaping-equipment/). In an effort to reduce carbon emissions, the Electric Utility recommends implementing a new Electric Yard Equipment Rebate. The rebate would offset the cost of new electric yard equipment by 50% and includes trimmers, pruners, leaf blowers, power washers, chainsaws and lawn mowers to help customers beautify and electrify their outdoor space.

See Attachment 4, Electric Yard Equipment Rebate Chart for details. This rebate will be funded through the Utility Cap-and-Trade Fund.

These programs not only assist our customers with reducing their energy bills, they contribute to our goals for energy efficiency and further decarbonization. In June 2022, Council, approved a Resolution endorsing the declaration of a climate emergency. These programs fit squarely into two of the actions the Utility is taking toward restoring a safe climate; continuing to explore rebate programs to benefit commercial and residential properties, and decarbonizing existing building stock by providing incentives for increased energy efficiency.

Funds are available this Fiscal Year for the Residential Direct Install Program and the Electric Yard Equipment Rebate. The Utility will have the materials translated into Spanish once approved.

Staff is recommending that Council approve the Electric Department's Public Benefit Program's new additions.

Recommended Action: Receive report on the Electric Department's Public Benefit Program, and approve program additions.

BUDGET AMENDMENT REQUIRED: No

CURRENT BUDGET AMOUNT: 80626450.52135 $200,000; 80726441.59301 $25,000

PROPOSED BUDGET AMOUNT: N/A

FINANCING SOURCE: 80626450; Public Benefits Fund; 80726441; Cap-and-Trade Fund

PREVIOUS CONTRACT/PURCHASE ORDER NO.: N/A

COORDINATED WITH: N/A

DIVERSITY-EQUITY INITIATIVES (DEI): **Goal 2** – Eliminate internal and external barriers to Diversity, Equity, and Inclusion within the systems of our organization.

CLIMATE INITIATIVES (CI): **1c** – Install energy-efficient outdoor lighting. **1f** – Continue to explore rebate programs.

GENERAL PLAN ELEMENTS (GP):GP-A4 - Public Facilities, Services, and Infrastructure Element

Approved: _____

RH	Central AC	Existing	Single-Family / Manufactured Homes	Standard Efficiency Unit	16 SEER (15.3 SEER2) and 13 EER (12.5 EER2)	Ton	$75.00
RH	Central AC	Existing	Single-Family / Manufactured Homes	Standard Efficiency Unit	17 SEER (16.2 SEER2) and 13.3 EER (12.8 EER2)	Ton	$100.00
RH	Ductless Mini-Split AC	Existing	Single-Family / Manufactured Homes	Standard Efficiency Unit	16 SEER (15.3 SEER2) and 13 EER (12.5 EER2)	Ton	$100.00
RH	Air Source Heat Pump (includes ductless)	Existing	Single-Family / Manufactured Homes	Standard Efficiency Unit	16 SEER (15.3 SEER2) and 9.0 HSPF (7.7 HSPF2)	Ton	$300.00
RH	Smart Thermostats	Existing	Single-Family / Manufactured Homes	Central AC or Heat Pump with programmable or non-programmable thermostat	Central AC or Heat Pump with ENERGY STAR Certified Smart Thermostat	Unit	$50.00
RH & RC-DS	Duct Sealing with Duct Blaster Pre- and Post-Test	Existing	Single-Family	Central AC with Existing Duct System with Excessive Leakage of Conditioned Air into Unconditioned Space	Central AC with Existing Duct System Sealed and Repaired and Overall CFM Reduction of 20% or Greater	System	$75.00
Seasonal Energy Efficiency Rating (SEER/2), Energy Efficiency Ratio (EER/2) and Heating Seasonal Performance Factor (HSPF/2) represent the efficiency ratings 12,000 Btuh = 1 Ton of Cooling Cubic Feet per Minute (CFM) represents the amount of airflow							
RESIDENTIAL ELECTRIC VEHICLES							
EV-B	Approved Electric-CARE customer E-Bike	New / Existing	Single-Family / Manufactured Homes	Income approved applicants only. Intended to replace trips otherwise taken by automobile: E-bikes purchased solely for recreation do not qualify (i.e. Mountain Bikes).	New E-Bike; maximum one E-Bike rebate per account	Bike	$700.00
EV-B	E-Bike purchased at a local Ukiah retailer	New / Existing	Single-Family / Manufactured Homes	Intended to replace trips otherwise taken by automobile: E-bikes purchased solely for recreation do not qualify (i.e. Mountain Bikes).	New E-Bike; maximum one E-Bike rebate per account	Bike	$400.00
EV-B	E-Bike purchased from a retailer outside of Ukiah	New / Existing	Single-Family / Manufactured Homes	Intended to replace trips otherwise taken by automobile: E-bikes purchased solely for recreation do not qualify (i.e. Mountain Bikes).	New E-Bike; maximum one E-Bike rebate per account	Bike	$300.00
EV-B	E-Bike conservation kit	New / Existing	Single-Family / Manufactured Homes	Intended to replace trips otherwise taken by automobile: E-bikes purchased solely for recreation do not qualify (i.e. Mountain Bikes).	New E-Bike; maximum one E-Bike rebate per account	Bike	$50.00
EV-C	Home Level 2 Charger	New / Existing	Single-Family / Manufactured Homes	No existing home charger; Pre-approval is required to ensure eligibility and availability of funds	Level 2 Qualifying Charger	Charger	$500.00
RESIDENTIAL WEATHERIZATION							
RW	Ceiling/Attic Insulation	Existing	Single-Family / Multifamily	Central AC or Electric Space Heat with Insulation Less Than or Equal To R-19	Central AC or Electric Space Heat with Insulation R-30 or Greater	Sq/Ft	$1.00
RW	Wall Insulation	Existing	Single-Family / Multifamily	Central AC or Electric Space Heat with Insulation R-0	Central AC or Electric Space Heat with Insulation R-13 or Greater	Sq/Ft	$0.50
RW	Solar Attic Fan	Existing	Single-Family / Multifamily	Hard wire or plug-in Electric-Powered Unit	Solar-Powered Unit (before and after photos showing disconnected electric fan are required)	CFM	$0.20
RW	Replacement Windows	Existing	Single-Family / Multifamily	Central AC or Electric Space Heat with Single or Dual-Pane Windows	Central AC or Electric Space Heat with Replacement Windows with U-Value 0.32 or Less and SHGC 0.25 or Less	Sq/Ft	$3.00
RW & RW-AS	Air Sealing with Blower Door Pre- and Post-Test	Existing	Single-Family	Central AC with Air Leakage of 0.35 ACH or Greater	Central AC with Building Air Gaps Sealed and Overall ACH Reduction of 30% or Greater	Home	$25.00
NC	New Construction	New	Single Family & Multi Family	Title 24 minimum required to meet code	Rebate is based on annual kWh's saved over Title 24 minimum, documented by Title 24 report	kWh	$0.20
R-Value represents resistance to heat transfer Solar Heat Gain Coefficient (SHGC) represents the solar transmittance Air Changes per Hour (ACH) represents the amount of air leakage							
RESIDENTIAL EQUIPMENT							
RE-N	Clothes Washer	New / Existing	Single-Family / Multifamily / Manufactured Homes	Electric Water Heat with Standard Efficiency Unit	Electric Water Heat with ENERGY STAR Certified Unit with Integrated Modified Energy Factor (IMEF) of 2.06 minimum	Unit	$100.00
RE-N	Clothes Dryer	New / Existing	Single-Family / Multifamily / Manufactured Homes	Standard efficiency electric unit	Electric ENERGY STAR Certified Unit with 2.68 Combined Energy Factor (CEF) minimum	Unit	$100.00
RE-N	Standard Size Dishwasher	New / Existing	Single-Family / Multifamily / Manufactured Homes	Electric Water Heat with Standard Efficiency Unit	Electric Water Heat with ENERGY STAR Certified Unit with 270 kWh maximum Annual Energy Use	Unit	$50.00
RE-N	Induction Range	Existing	Single-Family / Multifamily / Manufactured Homes	Existing natural gas range	Electric oven with Induction cooktop or standalone Induction cooktop (before and after photos required to document existing gas appliance)	Unit	$750.00
RE-N	Portable Induction Cooktop	New / Existing	Single-Family / Multifamily / Manufactured Homes	Existing electric resistance range or cooktop	Portable Induction cooktop	Unit	$100.00
RE-N	Refrigerator (New)	New / Existing	Single-Family / Multifamily / Manufactured Homes	Standard Size Efficiency Unit >7.75 cu. ft. Compact < 7.75 cu. ft. are not eligible.	ENERGY STAR Certified Unit >7.75 cu. ft.	Unit	$100.00
RE-N	Heat Pump Water Heater	New / Existing	Single-Family / Multifamily / Manufactured Homes	Forced Air Electric Space Heat with Electric Resistance Unit with EF 0.89 or Lower	Forced Air Electric Space Heat with ENERGY STAR Certified Unit with Energy Factor (EF) 2.2 or Greater	Unit	$150.00
RE-N	Heat Pump Water Heater	New / Existing	Single-Family / Multifamily / Manufactured Homes	Heat Pump Space Heat with Electric Resistance Unit with EF 0.89 or Lower	Heat Pump Space Heat with ENERGY STAR Certified Unit with EF 2.2 or Greater	Unit	$500.00
RE-N	Smart Power Strip	New / Existing	Single-Family / Multifamily / Manufactured Homes	Single Switch Unit without Control Mechanism	Smart Unit with Control Device	Unit	$15.00
RE-N	Variable Speed Pool Pump	Existing	Single-Family	Standard Unit 1 hp or Greater	Variable Speed Unit with Variable Speed Unit Control	Unit	$400.00

Additional Terms and Conditions

All rebates are subject to availability of funds and may be changed or discontinued at any time.
All rebate requests must be received within 6 months of purchase/installation.
All rebates are limited to 100% of purchase/installation cost and $2000 per measure
Some measures may be subject to additional installation and specification requirements - Call (707) 467-5700 for more information.

APPLIANCES	BUILDING VINTAGE	EXISTING CONDITION	FINAL CONDITION	REBATE UNIT	REBATE PER UNIT
Electric Combination Oven	Existing Construction	Standard Electric Combination Oven - Various Sizes of pans for Half and Full Size Ovens	Qualifying electric combination oven/steamer models must have a tested steam mode cooking energy efficiency of ≥ 50% and convection mode cooking energy efficiency of ≥ 70% utilizing ASTM F2861, and meet the idle rate requirements in Table 1. (see below) ASTM F2861 Idle Rate Requirements for Commercial Comination Oven/Steamers. See Qualified Products List.	Cavity	$2,500 per Cavity
Electric Convection Oven	Existing Construction	Standard Electric Convection Oven - Half and Full Size	Electric ovens must meet ENERGY STAR specifications and have a tested heavy load potato cooking energy efficiency of 71% or more, utilizing ASTM Standard F1496. Full-size electric ovens must have an idle rate of 1.6 kW or less. Half-size electric ovens must have an idle rate of 1.0 kW or less. See Qualified Products List.	Oven	$600 for Half size $750 for Full size per cavity
Electric Deck Oven	Existing Construction	Standard, Full Size Electric Deck Oven	Qualifying electric deck ovens must have a tested heavy load cooking energy efficiency of ≥ 60% and an idle energy rate ≤ 1,300 W, utilizing ASTM Standard F1965. Multiple-deck oven configurations are paid per qualifying oven deck. See Qualified Products List.	Cavity	$1,500 per cavity
Electric Conveyor Toaster	Existing Construction	Standard performance electric conveyer toaster	Only countertop and standalone machines are eligible. Qualifying electric conveyor toasters must have an energy per sandwich less than or equal to 3.75 W/sandwich utilizing ASTM Standard F2380. See Qualified Products List.	Unit	$600 per unit
Electric Fryer	Existing Construction	Electric Fryer < and > 18 inch Vats	Qualifying electric fryer models (vat width < 18-inches) must meet ENERGY STAR specifications for energy efficiency and have a tested heavy load cooking energy efficiency of 83% and an idle energy rate ≤ 800 W utilizing ASTM Standard F1361. Qualifying electric fryer models (vat width ≥ 18-inches) must meet ENERGY STAR specifications for energy efficiency and have a tested heavy load cooking energy efficiency of 80% and an idle energy rate ≤ 1,100 W utilizing ASTM Standard F2144. See Qualified Products List.	Unit	$650 per vat
Electric Griddle	Existing Construction	Electric Griddle - Need base case info for Cooking Efficiency; Idle Energy Rate (KW); Preheat Energy (kWH); Production Capacity (Lb/Hr)	Qualifying electric griddle models must have a tested heavy-load cooking energy efficiency of 70% or greater and an idle energy rate of 355 Watts per ft² of cooking surface or less, utilizing ASTM Standard F1275. See Qualified Products List.	Ft	$200 per ft (nominal width)

APPLIANCES	BUILDING VINTAGE	EXISTING CONDITION	FINAL CONDITION	REBATE UNIT	REBATE PER UNIT
Electric Insulated Hot Food Holding Cabinet	Existing Construction	Half Size (10 Cu Ft) or Full Size (25 Cu Ft)	Measure does not include cook and hold equipment. All measures must be electric hot food holding cabinest that are fully insulated. Qualifying full-size cabinets must have an idle energy rate ≤ 25 W/cu.ft. and qualifying half-size cabinets must have an idle energy rate ≤ 35 W/cu.ft. in accordance with ASTM F2140. See Qualified Products List.	Unit	$200 for 1/2 size $750 for full size
Electric Steam Cooker	Existing Construction	Electric Steam Cooker various pan configurations	Qualifying electric steam cooker models must have a tested heavy load potato cooking energy efficiency of ≥50% and meet the idle rate requirements in Table 2 utilizing ASTM Standard F1484. See Qualified Products List.	Unit	$2,000 per cavity
APPLIANCES	**BUILDING VINTAGE**	**EXISTING CONDITION**	**FINAL CONDITION**	**REBATE UNIT**	**REBATE PER UNIT**
Dishwasher, Under-Counter	Existing Construction	Existing Under-Counter standard efficiency dishwasher	Qualifying high temperature sanitizing under counter dishwashers must meet ENERGY STAR® Version 3.0 specifications and have an idle energy rate ≤ 0.30 kW, a washing energy of ≤ 0.35 kWh/rack, and a water consumption ≤ 0.86 gal/rack to meet Tier 1 requirements. High temperature sanitizing under counter machines must have an idle energy rate ≤ 0.30 kW, a washing energy ≤ 0.30 kWh/rack, and a water consumption ≤ 0.73 gal/rack to meet Tier 2 requirements. Qualifying low temperature sanitizing under counter dishwashers must meet ENERGY STAR® Version 3.0 specifications and have an idle energy rate ≤ 0.25 kW, a washing energy of ≤ 0.15 kWh/rack, and a water consumption ≤ 1.19 gal/rack to meet Tier 1 requirements. Low temperature sanitizing under counter machines must have an Tier 2 requirements. idle energy rate ≤ 0.25 kW, a washing energy ≤ 0.13 kWh/rack, and a water consumption ≤ 1.01 gal/rack to meet Tier 2 requirements. See Qualified Products List.	Unit	$500 per unit
Dishwasher, Door-Type	Existing Construction	Existing Door-Type standard efficiency dishwasher	Qualifying high temperature sanitizing door-type dishwashers must have an idle energy rate ≤ 0.55 kW, a washing energy ≤ 0.35 kWh/rack, and a water consumption ≤ 0.76 gallons/rack per the ENERGY STAR test method. Qualifying low temperature sanitizing door-type dishwashers must have an idle energy rate ≤ 0.30 kW, a washing energy ≤ 0.15 kWh/rack, and a water consumption ≤ 1.00 gallons/rack per the ENERGY STAR test method. See Qualified Products List.	Unit	$500 per unit
Hand Wrap Machines	Existing	Always-on hand wrap machine	Qualifying models must be from the utility qualified products list. On-demand machine must utilize a mechanical or optical sensor to activate the largest heating element. See Qualified Products List.	Unit	$250 per unit
Induction Range	Existing	Existing natural gas range	Electric oven with Induction cooktop or standalone Induction cooktop (before and after photos required documenting existing gas appliance)	Unit	$750.00
Portable Induction Cooktop	New / Existing	Existing electric resistance range or cooktop	Portable Induction cooktop	Unit	$100.00
Multifamily Clothes Washer, In Tenant Unit	New or Existing	Electric Water Heat with Standard Efficiency Unit	Electric Water Heat with ENERGY STAR Unit with minimum 2.06 Modified Energy Factor and maximum 4.3 Integrated Water Factor	Unit	$100.00
Multifamily Clothes Washer, In Common Area	New or Existing	Electric Water Heat with Standard Efficiency Unit	Electric Water Heat with ENERGY STAR Unit with minimum 2.20 Modified Energy Factor and maximum 4.0 Integrated Water Factor	Unit	$300.00
Kitchen Demand Ventilation Control	New or Existing	Type I Standard Unit with No Control	Type I Unit with VFD Control	Exhaust Fan Hp	$450.00

1-For-1 or Other Upgrades		Varies	Varies	Annual kWh	$0.15
Special Projects with Pre-Approval		Varies	Varies	Project	Varies

Additional Terms and Conditions

All rebates are subject to availability of funds and may be changed or discontinued at any time.
All rebate requests must be received within 6 months of purchase/installation.
Commercial Rebates are limited to 70% of job cost up to $7,500 per project.
Some measures may be subject to additional installation and specification requirements - Call (707) 467-5700 for more information.

V 05/23

EXHIBIT A

RESIDENTIAL DIRECT INSTALL PROGRAM SCOPE OF WORK

Efficiency Services Group (ESG) is pleased to present this Scope of Work to the City of Ukiah (Ukiah) for a Residential Income-Qualified (IQ) Direct Install (DI) Program (Residential IQ DI Program).

The budget for this Scope of Work is $75,000 for FY23-24.

1. RESIDENTIAL DIRECT INSTALL PROGRAM

The goal of the Residential Direct Install (DI) Program is to provide lower-income customers that are currently participating in Ukiah's bill assistance programs additional opportunities for energy savings. The program will provide customers with instant savings measures, identify opportunities for additional major measures, and increase customer awareness of Ukiah's Energy Efficiency programs. Non-lower income customers may also be served if the program budget allows. The funding mechanism for this program is Ukiah's Public Benefit fund.

Lower income customers often do not have the financial resources to qualify for Ukiah's standard energy efficiency rebates, even though the customers contribute to the Public Benefit fund. The Residential Direct Install Program provide these customers with a program that delivers instant energy savings and benefits and is not cost-restrictive for their participation. ESG recommends the installation of energy and water saving measures to deliver real savings on customer electric, water, and sewer costs. These measures can be installed in the customer's home at no charge to them, while helping Ukiah reach their energy savings goals. In addition, ESG recommends completing a snapshot audit while in the customer's home.

Benefits

ESG believes that offering this program will provide the following benefits to Ukiah:

- Strengthen residential customer relationships by providing a great customer experience
- Provide energy and cost savings to targeted customers

- Serve customers that are not traditionally able to participate in PB programs
- Collect information and site data to be used in future offerings and targeted marketing

Customer Eligibility
The program will be open to Ukiah residential customers with an emphasis on customers who are currently participating in bill assistance programs and other tenants of multi-family complexes with one eligible customer. ESG will coordinate with Ukiah to finalize a strategy to approach customers and generate sign-ups for the program.

Pricing
The fees for the DI Program are on a per-measure-installed basis. Prices include all labor, materials and expenses associated with installation of the products and delivery of services. Fees for direct installed measures and snapshot audits are shown in the following table. Additional measures can be added to the program with prior approval.

Measure	Cost Unit	Fee per Cost Unit
Home Snapshot Audit	Audit	$40.00
Screw-In LEDs (DI)	Lamp	$18.00
Screw-In LEDs (direct delivery)	Lamp	$ 9.00
Standard Showerhead (DI)	Showerhead	$20.00
Standard Showerhead (direct delivery)	Showerhead	$20.00
Handheld Showerhead (DI)	Showerhead	$30.00
Handheld Showerhead (direct delivery)	Showerhead	$30.00
Thermostatic Shower Valve (DI)	Valve	$50.00
Faucet Aerator (DI)	Aerator	$ 5.00
Faucet Aerator (direct delivery)	Aerator	$ 5.00
Advanced Power Strips (DI)	Power Strip	$90.00
~~**Advanced Power Strip (direct delivery)**~~	~~Power Strip~~	~~$90.00~~
~~**PC Interaction Power Strip (direct delivery)**~~	~~Power Strip~~	~~$90.00~~

Note: DI: Measures are installed by an Energy Efficiency Advisor
Direct Delivery: Measures are left with the customer for the customer to install

Measure Descriptions
Home Snapshot Audit
While in the customer's home installing products, Energy Efficiency Advisors (EEAs) will acquire the customer demographic and site/equipment data, which will be helpful in developing and marketing programs.

LED Lamps (screw-in based)
All LED lamps, reflectors, globes and candelabras offered in the program will be UL listed and ENERGY STAR certified.

Advanced Power Strips
Advanced Power Strips (APS) utilize infrared and in some cases, motion detection to monitor the remote-control activity and motion in the room. If the APS does not sense activity with the remote control or motion in the room, it will signal with a flashing LED light that it is going to turn off the TV. If no remote activity or motion in the room is detected after sending out signal, it will turn off power to the TV and any other devices plugged into the controlled outlets in the power strip, reducing energy use.

~~PC Interaction Power Strips~~
~~PC interaction power strips save energy by turning off peripheral devices (such as monitors) when the PC is turned off.~~

High Performance Showerheads
High performance showerheads reduce the amount of water used to shower, saving costs on water, sewer and energy. Only customers with electric water heating will qualify for this measure.

Thermostatic Shower Valves
Thermostatic shower valves are designed to reduce water and energy waste by reducing the water flow of a shower to a trickle once the water reaches 95 degrees. This prevents the waste that occurs when people leave the shower running to get warm before they get in. Only customers with electric water heaters are eligible. ??? (as stated above)

Thermostatic Shower Valve and Showerhead Combination
This unit combines the valve and high performance 1.5 gallons per minute showerhead.

Professional Installations
All DI services for will be performed by experienced staff, with an emphasis on providing a great customer experience.

Customer Satisfaction
The program is designed to be easy for customers to participate in, and all staff are focused on providing a great customer experience. ESG and our partners understand the importance of emphasizing with the customer that the program is coming from Ukiah and using the program experience to help Ukiah build and strengthen their relationships with their customers.

Reporting and Invoicing
ESG thoroughly understands the SB1037 reporting requirements for utility energy efficiency programs. DI program activity will be included in Ukiah's monthly EE program reports.

Marketing Activities
ESG will work with Ukiah to develop marketing materials for the Residential Program. This may include a letter informing the customers about the Residential Program and requesting that they call in to

schedule an appointment, a flyer discussing the benefits of the measures installed and any other promotional materials as agreed upon to be distributed by the EEAs.

Implementation Partner
ESG will serve as the program administrator. We plan to utilize RD Energy Solutions in the implementation of the program. ESG has had a relationship with this partner for several years and have successfully delivered utility programs with them.

RD Energy Solutions is the installation partner for our commercial and residential direct install programs. ESG and RD have partnered to implement EE programs to over twenty utilities in California and the Northwest. RD will perform the following tasks:

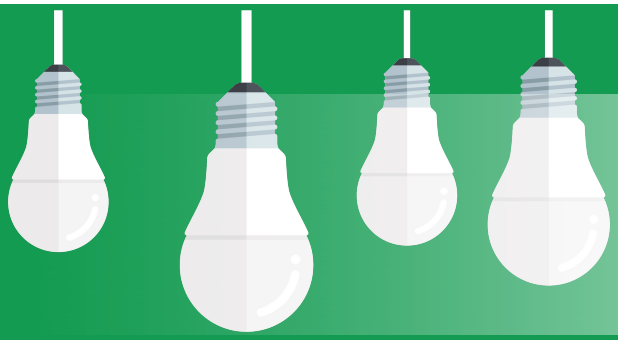
- Contacting customers to schedule DI visits
- Ordering product needed to complete DI installs
- Installing DI measures
- Entering DI activity for each home served
- Providing all DI measure install data to ESG for each home served

Payment Schedule
ESG will submit invoices to Ukiah monthly, accompanied by detailed reports on services performed for each customer served. ESG's payment terms are Net 20 days. If an invoice error is identified by Ukiah, a corrected invoice will be submitted by ESG within five business days of receiving notification from Ukiah.

City of Ukiah

Dear Electric Customer,

As a valued City Assistance for Relief through Energy Support (C.A.R.E.S.) customer, you have been selected to participate in a special program being offered by the City of Ukiah's Electric Department to help you reduce your monthly utility costs. This is a ***FREE*** offer with no obligation from you. This program is available for a limited time while program funding is available.



If you choose to participate, the City of Ukiah will supply and install instant energy saving products. For example:

- **Light Emitting Diodes (LED) light bulbs**: LED light bulbs use 85% less energy and last up to ten times longer than standard light bulbs while providing the same amount of light.
- **Water saving products** such as showerheads, thermostatic shower valves, kitchen and bathroom aerators (customer must have an electric water heater).
- **Thermostatic Shower Valve (TSV)**: TSVs monitor the temperature of the water from your showerhead during initial warm-up. When the water reaches 95 degrees, water is reduced to a trickle, reducing wasted hot water (and energy) that normally goes down the drain. When you step into the shower, a simple pull on the lanyard restores the normal flow of water out of your showerhead.

Our contractor, Efficiency Services Group, LLC (ESG) will be administering this program for the Ukiah Electric Utility. ESG has been administering Ukiah Electric Utility's energy efficiency programs and providing energy audits for residential and commercial customers since 2007. ESG may be contacting you soon about this limited-time offer. If you would like to ensure your opportunity to participate, please contact the Ukiah Electric Utility's Efficiency Services Department at 707-467-5700.

Sincerely,

Cindy Sauers
Electric Utility Director

City of Ukiah

The City of Ukiah Electric Utility
Direct-Install Program

The City of Ukiah Electric Utility

Is pleased to provide our residential customers with FREE installation of energy and water saving products. We hope these products help you save energy, water, and reduce your monthly water and electric use. The following products will be available for a limited time while program funds last.

Why switch to LEDs?

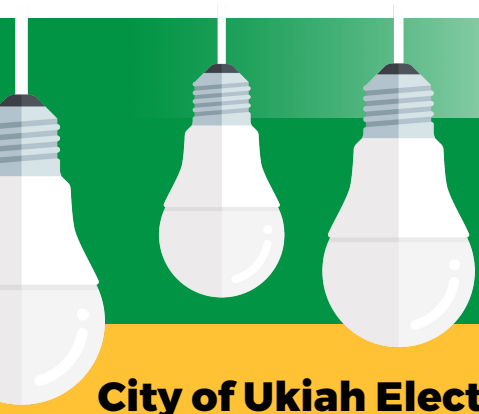
The LEDs provided through this program use 85% less energy than standard incandescent light bulbs of the same brightness. LEDs can also last 10 times longer than standard incandescent light bulbs. LEDs are by far the most energy efficient and reliable way to light your home, which makes them great for indoor or outdoor use.

Why use high performance showerheads?

High Performance showerheads deliver a satisfying shower while at the same time reducing water use and saving on your water and sewer costs.

Why use a thermostatic shower valve?

This clever innovation saves the water and energy used while waiting for the shower to become warm. The valve turns off the water once it reaches 95 degrees. Simply pull the cord to resume full flow and begin showering, and this product will help you save on your energy costs.



- Standard LEDs
- Reflector LEDs
- Globe LEDs
- Load-sensing power strips
- Kitchen faucet aerators
- Bathroom faucet aerators

Agenda Item No: 13.c.

MEETING DATE/TIME: 6/21/2023

ITEM NO: 2023-2783

City of Ukiah

AGENDA SUMMARY REPORT

SUBJECT: Status Report of the Emergency Contract with West Coast Fire & Water for Fire Remediation Work at the Electric Utility Service Center at Hastings.

DEPARTMENT: Electric Utility

PREPARED BY: Cindy Sauers, Electric Utility Director

PRESENTER: Cindy Sauers, Electric Utility Director.

ATTACHMENTS:
None

Summary: The Council will receive a status report of the emergency contract with West Coast Fire & Water for fire remediation work at the Electric Utility Service Center at Hasting, and will consider approving the work to continue under the emergency contract.

Background: The Ukiah City Council approved the purchase of 2.8 acres with a 15,800 sq. ft. building located at 1350 Hasting Rd (The Electric Service Center) to house the Electric Utility Department's operations. The Electric Service Center will centralize electric operations for Engineering, Construction and Technical Services. In addition, the Department intends to use the Electric Service Center for training, material warehousing and construction preparation.

On August 5, 2020, the City Council adopted the plans and specifications for the grading, fencing, roofing and electric equipment relocation. This work was completed on March 2, 2023.

On the morning of March 8, 2023, a fire broke out at the Electric Utility Department's Service Center located at 1350 Hastings Road. The source of the fire was the electrical failure of a bathroom ceiling fan. The Ukiah Valley Fire Authority responded to the incident, and was successful in putting the fire out. However, significant smoke and water damage occurred, as well as structural damage to the building. Please see Attachment 1 for pictures of the damage.

West Coast Fire and Water was contacted and was able to respond in a timely manner to assess the fire, smoke and water damage. They were able to secure the building and cover exposed areas to prevent additional water intrusion from the impending precipitation. The City Purchasing, Risk Management, and Electric Departments worked with McLarens, the Claims Adjuster for the City's self-insured liability Program through its membership in the California Intergovernmental Risk Authority (CIRA), and West Coast Water and Fire to develop a Scope of Work and Contract for the remediation of the fire, water, and smoke damage. Please see Attachment 2 for a copy of the agreement.

There are no expected costs to the City at the time, as the City opted to review all invoices and provide authority to McLarens to pay West Coast directly. The City, however, executed a contract with West Coast Fire and Water to complete the Scope of Work.

The initial cost estimate for this remediation was over $200,000. The scope of work that is being performed under this contract falls under the definition of "public project", as it involves demolition and repair work involving a publicly owned facility. The City Manager, under his authority, authorized proceeding with the work as an emergency, since the event was sudden and unexpected, and required immediate action for

the protection of City (public) property. Due to structural issues, and immediate mold growth, time was of the essence, and bidding for this work as per the normal requirements of the California Uniform Cost Accounting Act, was not an option. Under these circumstances, public bidding is excused. At their Council meeting on April 5, 2023, the Council initially received the report regarding this contract, and approved by a four-fifths vote (one councilmember absent) for the work to continue under these emergency circumstances.

Discussion: As of Friday, April 7, 2023, the remediation work on the structure was completed. The remainder of the work to be completed is the cleaning of the electronics. West Coast delivered the electronics on May 3, 2023 however, after testing the equipment, several items were found to be unusable. Staff is continuing to work with the West Coast Fire and Water and the insurance provider on next steps to ensure the items are replaced or in working order.

Staff is requesting the Council's approval to continue using the emergency contract.

Recommended Action: Receive a status report, and approve the continued work on the emergency contract with West Coast Fire & Water for Fire Remediation Work at the Electric Utility Service Center at Hastings.

AGENDA SUMMARY REPORT

SUBJECT: Approval of Plans and Specifications for the Orr Street Bridge Replacement, Specification 23-06, and Authorize Staff to Issue Bids.

DEPARTMENT: Public Works

PREPARED BY: Seth Strader, Administrative Analyst

PRESENTER: Tim Eriksen, Director of Public Works

ATTACHMENTS:

1. Plans
2. Engineer Estimate

Summary: Staff is requesting City Council Approval of the Plans and Specifications for the Orr Street Bridge Replacement, Specification 23-06, and authorization for Staff to issue bids.

Background: The Orr Street Bridge has been closed to traffic and in a significant state of disrepair for more than a decade. Approximately three years ago, the City of Ukiah applied for and was awarded a Community Development Block Grant (CDBG) to perform a study and make recommendations regarding the bridge and the Orr Street corridor. Community input was solicited through various outreach methods in 2022, and conceptional options for improvements were developed. Options included a bridge that would be open to traffic and a bridge that would be open to bicycles and pedestrians only. Additionally, a City Council Ad Hoc Committee was coordinate with Staff for final recommendations to the Council.

In the meantime, Federal Emergency Management Authority (FEMA) has proposed changes to the floodplain maps in the area, changes that could significantly impact design of any future bridge in this area. While logistical considerations for bridge and corridor development, funding options, and FEMA direction are still pending, the Ad Hoc Committee has stressed the importance of a safe pathway for bicycles and pedestrians.

Therefore, the City of Ukiah coordinated with LACO Engineers to develop the plans, specifications and estimate for the replacement of the existing bridge deck, which would allow for safe passage by bikes and pedestrians but would not include vehicular traffic. The drawings for the project can be found in Attachment 1. The engineer's estimate can be found in Attachment 2.

Discussion: The CDBG-funded study for the Orr Street corridor is ongoing and the final bridge project will be defined as part of that study. It is likely that grant funding will be sought as a result of the final study.

In the meantime, Staff recommends approval of the Plans and Specifications for the Orr Street Bridge Replacement, Specification 23-06, and authorization for Staff to issue bids. If approved, construction is anticipated for the fall of 2023.

Recommended Action: Approve the Plans and Specifications for the Orr Street Bridge Replacement, Specification 23-06, and authorize Staff to issue bids.

11. CREST OF CORRUGATION TO ABUT END ANGLE OR CLOSURE PLATE.

CONTECH RECOMMENDED WELDING PROCEDURES:

11. ALL 70XX WELDING ELECTRODES SHALL BE IN CONFORMANCE TO AWS SPECIFICATIONS.
12. PRIOR TO WELDING, ALL METAL SURFACES SHALL BE FREE OF CORROSION AND SLAG
13. WELD EACH PLANK TO ALL STRINGERS WITH FILLET WELDS 3" LONG WITH 1/8" BEAD THICKNESS.
14. OVERLAPPED PLANKS ARE JOINED WITH A 1/8"x1" LONG FILLET WELD EVERY 12" ALONG THE LENGTH OF THE PLANKS.
15. END SPLICES ARE TO BE STAGGERED, LOCATED OVER THE STRINGERS AND BUTT WELDED AT THE CRESTS.

CORRUGATION	MATERIAL	THICKNESS	ELECTRODE TYPE	ELECTRODE DIAMETER	AMPERES
9" X 3"	ASTM A1108 BLACK GRADE 40	3, 5/16" AND 3/8"ga.	AWS E7018 E6010	1/8" OR 5/32" 1/8" OR 5/32"	115 – 220 110 – 170

ASPHALT SURFACE APPLICATION:

16. ASPHALT SHALL CONFORM TO TYPE A 1/2" MIXED ROCK PERFORMANCE GRADE 64–16 MIX DESIGN.
17. CLEAN METAL SURFACES OF ALL FOREIGN MATTER.
18. APPLY A TACK COAT OVER THE FLOOR SURFACE. (CALTRANS TACK OIL SPEC.)
19. FILL AND COMPACT ALL CORRUGATIONS WITH ASPHALT TO THE TOP OF THE FLOOR.
20. OVERLAY A LEVELING COURSE AND ADDITIONAL COURSES AS NECESSARY TO FINAL WEARING COURSE AND COMPACT TO REQUIRED DENSITY. (1/2" AC PG-64 MIX DESIGN)
21. THE FINAL WEARING COURSE SHOULD HAVE A 2" CROWN AT THE CENTERLINE OF THE ROADWAY SLOPED TO 1" AT EACH OUTER EDGE OF THE DECK.

INSTRUCTIONS:

1. USE CONTECH 9"x3" BRIDGE PLANK (OR APPROVED EQUAL) THAT IS HS 25 RATED, 3 GA WEIGHING 15.3 PSF.
2. INSERT HOLE SPACING AND PLANK LENGTH DIMENSIONS. BE SURE TO INCLUDE BOTH WELD AND WEEP HOLES, IF REQUIRED. USE FEET AND INCHES (NOT INCHES ONLY) FOR DIMENSIONS. ROUND OFF DIMENSIONS TO THE NEAREST WHOLE INCH.
3. INSERT QUANTITY, GAGE AND MARK NUMBER (IF REQUIRED). FOR ANY VARIATIONS USE SEPARATE SHEETS.
4. COMPLETE TITLE AND JOB INFORMATION SECTIONS AS APPROPRIATE.

NOTES:

1. WEEP HOLES ARE OPTIONAL IN 9" x 3" BRIDGE PLANK. THE RECOMMENDED LOCATION FOR WEEP HOLES IS AT A QUARTER POINT BETWEEN THE CENTERLINE OF ADJACENT STRUCTURALS.
2. THE STANDARD HOLE SIZES ARE 15/16" AT THE LEADING EDGE AND 1-1/8" DIAMETER AT THE FOLLOWING EDGE.
3. ALL SHOP PUNCHED PLANK WILL HAVE HALF HOLES AT EACH END OF THE PLANK.
4. FABRICATION LIMITATIONS MAY REQUIRE PLANT BUTT WELDING OF PLANKS. WHEN BUTT WELDED, PLANKS WILL BE GROUND SMOOTH ON UNDERSIDE CRESTS AND AT OVERLAPPING EDGE SURFACES.
5. THIS DRAWING WILL BE USED BY THE PLANT FOR FABRICATION. PROVIDE COMPLETE AND ACCURATE DIMENSIONS (ROUNDED OFF TO THE NEAREST WHOLE INCH).
6. ALL DIMENSIONS ARE SUBJECT TO MANUFACTURING TOLERANCES.

ITEM NO: 2023-2782

City of Ukiah

AGENDA SUMMARY REPORT

SUBJECT: Consideration of Award of Bid for the Recycled Water Project – Phase 4, Specification 23-01, and Approval of Corresponding Budget Amendment(s).

DEPARTMENT: Public Works

PREPARED BY: Seth Strader, Administrative Analyst

PRESENTER: Sean White, Water Resources Director

ATTACHMENTS:

1. April 19, 2023 - Agenda Item 13c

Summary: Council will consider awarding a contract for the Recycled Water Project – Phase 4, Specification 23-01, and consider approval of corresponding budget amendment(s).

Background: The City Council approved the plans, specification and estimate for the Recycled Water Project – Phase 4 on April 19, 2023. See Attachment 1. This project will be funded by grant received from the State Water Resource Control Board in the amount of $53.7 million. These funds will be used for the reimbursement of funds already spent for the design of the project and for the actual construction and materials. The project will expand the ability for the City to produce recycled water and extend the deliverability of it to further green areas like Pomolita Middle School, Frank Zeek Elementary, Ukiah High, Todd Grove Park Recreation Area, the Cemetery and more. This will reduce the demand of potable water for non-drinking use.

The bid opening is scheduled for June 20, 2023 at 2:00p.m.

Discussion: Subsequent to the bid opening, Staff will be submitting a supplementary memo to Council with an award recommendation for consideration in time for the June 21, 2023, Council Meeting. The memo will be accompanied by the bid tabulation and the lowest responsible bidder's bid documents.

Recommended Action: Award of bid for the Recycled Water Project - Phase 4, Specification 23-01, and approve corresponding budget amendment(s).

BUDGET AMENDMENT REQUIRED: YES

CURRENT BUDGET AMOUNT: 83027330.80230.18052: $0

PROPOSED BUDGET AMOUNT: 83027330.80230.18052: $TBD

City of Ukiah

AGENDA SUMMARY REPORT

SUBJECT: Approval of Plans and Specifications for the Recycled Water Project Phase 4, Specification 23-01, and Authorize Staff to Issue Bids.

DEPARTMENT: Public Works

PREPARED BY: Seth Strader, Administrative Analyst

PRESENTER: Sean White, Water Resources Director

ATTACHMENTS:

1. January 19, 2022, Staff Report
2. Map
3. Drawings
4. Specifications - Volume 1
5. Specifications - Volume 2

Summary: Staff is requesting City Council Approval of Plans and Specifications for the Recycled Water Project Phase 4, and authorization for Staff to issue bids for Specification Number 23-01.

Background: The City of Ukiah coordinated with Carollo Engineers on Phases 1-3 of the Recycled Water Project. Upon completion of these three phases, City Staff and Carollo discussed with the California State Water Resource Control Board (CSWRCB) the possibility of the pursuit of Prop 68 grant funds to be used for the further construction and expansion of the Recycled Water Project increasing the ability to support green spaces like parks, sports fields, schools, agriculture and industrial uses and reduce the demand of potable water.

Public Works Staff requested that Carollo begin design of a possible Phase 4 of the project, which was approved by City Council at the meeting of January 19, 2022 (Attachment 1). These designs included the demolition of existing infrastructure, new storage ponds, pump stations and pump station upgrades, surveys and geotechnical work, other infrastructure upgrades like valves, additional pipelines and more.

Discussion: The City was successful in receiving the Prop 68 grant totaling $53.7 million from the State Water Resources Control Board (SWRCB) to fund this project, which will extend the delivery of recycled water from it's current terminus at Ukiah Softball Complex west across Highway 101 up Brush Street, through Low Gap Road, providing recycled water to the facilities at Pomolita Middle School, the Cemetary, Ukiah High, Todd Grove Park, Anton Stadium, Giorno FIeld, Frank Zeek Elementry and Vinewood Park. See Attachment 2 for a map of the project.

The drawings for the project can be found in Attachment 3; the plans and specifications for the project can be found in Attachment 4.

Construction of the project is anticipated to begin mid-July, and Staff is working on a comprehensive outreach plan, including direct mail, social media, email updates, and a dedicated webpage to help keep the community informed throughout.

Recommended Action: Approve Plans and Specifications for the Recycled Water Project Phase 4 and Authorize Staff to Issue Bids for Specification Number 23-01.

BUDGET AMENDMENT REQUIRED: N/A

CURRENT BUDGET AMOUNT: N/A

ITEM NO: 2022-1219

City of Ukiah

AGENDA SUMMARY REPORT

SUBJECT: Approve Contract Amendment Eight with Carollo Engineers for the Design Efforts of the Recycled Water Phase 4 Project in the amount of $4,600,773 and approval of corresponding budget amendment.

DEPARTMENT: Public Works
PREPARED BY: Jason Benson, Senior Civil Engineer
PRESENTER: Tim Eriksen, Director of Public Works/City Engineer

ATTACHMENTS:

1. Recycled Water Ph4 CO2 WWTP_12JAN2022

Summary: The City Council will consider giving approval of a contract amendment with Carollo Engineers for the design efforts of the Recycled Water Phase 4 project in the amount of $4,600,773 and approval of corresponding budget amendment.

Background: The City Council approved contract amendments and the budget required for Carollo Engineers to continue with Recycled Water Phase 4 Design on November 7, 2018. The items issued in the Scope of Work to perform are Tasks 1-9: Project Management, Funding, Preliminary Design, Permitting and Easement, Field Investigation Services and Hydraulics, Bid Support, Engineering Services during Construction (ESDC), and Construction Management. This work is to be completed with the issued budget of $2,627,484.75.

Two amendments, numbers 5 and 6, have been issued to the Carollo Contract 1314-231 for Phase 4 design work. Amendment 5 for Tasks 1-3: Project Management, Funding, Preliminary Design; and, Amendment 6 for Task 5: Field Investigation Services and Hydraulics. These amendments were approved 1/16/2019 and 5/3/2019, respectively. The four prior amendments approved for this contract work were for: additional geotechnical and environmental work, Recycled Water Phase 3 design, Chlorine Contact Basin (CCB) design, and additional CCB and Recycled Water Phase 3 design.

Amendment 7 was issued to the Carollo Contract 1314-231 for Phase 4 design work under Tasks 1-6: Project Management, Funding, Preliminary Design, Permitting and Easement, Field Investigation Services and Hydraulics, and Final Design. Amendment 7 was approved by City Council on 9/16/2020.

The 30% Design drawings and the Preliminary Design Report (PDR) were completed and submitted to the City in August 2019. This information was used by Carollo to submit an application for the State Revolving Fund (SRF) funding and coordination with the State.

The 60% Design drawings were completed and submitted to the City, and the City reviewed and provided comment in September 2021. The 90% Design drawings were completed and submitted to the City, and the City reviewed and provided comment in January 2022. During project design meetings between City Staff and Carollo Engineers, it was tentatively agreed to have the design complete, shovel ready, and ready for the bidding process, pending project funding sources, in Spring 2022.

Discussion: City Staff met with Carollo Engineers and California State Water Resources Control Board (CSWRCB) Staff in early November 2021. The topic of this meeting was to discuss the potential for a Prop. 68

and Infrastructure Grant to fully pay for the overall construction of the project, and would equate to approximately $25M. This would include design cost to date expended by the City, and may include City Staff cost during construction. The City directed Carollo Engineers to provide a change order for all scope changes and future engineering efforts (Attachment 1), per CSWRCB discussion. Carollo Engineers has worked diligently to provide the scope changes. The City is only engaging in the changes that will be covered by the new grant.

On the water side of the Wastewater Treatment Plan (WWTP) process, recycled water is the final product from the Advanced Waste Treatment (AWT) and the Chlorine Contact Basin (CCB). Once treated water leaves the CCB, water is discharged to the Recycled Water ponds south of the WWTP. In order to have sufficient recycled water supply for all customers, an additional storage facility for secondary water is needed at the WWTP. The current process at the WWTP requires a lag time between process equipment to operate efficiently, and will remove using the percolation ponds for temporary storage. This will eliminate water loss to the environment and remove extra work time and cost by the WWTP crew to operate and maintain equipment. A new pond and pump station will provide storage of the secondary water before entering the process into the AWTs.

The overall recycled water pipeline layout, the associated tank and pump station located at the Water Treatment Plant (WTP), and the appurtenances of it does not require design revisions since the last submittal of deliverables (December 2021).

Carollo Engineers has prepared a revised Scope of Work and the necessary actions to perform Task 1-9. This includes a cost Change Order for the additional work for Task 1-6 and to include Task 7-9. The added cost is for a revision to the project design and the documents associated with this process (Task 1-6), and will incorporate the design changes for a new pond and pump station at the WWTP. Other added cost is for Task 7-9: Bid Support, Engineering Services during Construction (ESDC), Construction Management. Task 7-9 will be initiated through Task Orders to Carollo and approved for cost expenditure only when the project construction phases begin. Carollo Engineers has prepared a contract change order for a revised budget for the remaining and modified Tasks for the revised total contract budget of $6,471,103 (Attachment 1) for Phase 4. Carollo Engineers has prepared a contract change order for a revised budget for the remaining and modified Tasks to be completed at $4,600,773 (Attachment 1). This will increase the total contract value for all Recycled Water project work performed by Carollo Engineers (Phases 1-4 and CCB) to $10,644,367.

City Staff has discussed the grant options and procedures for applications with CSWRCB and Carollo Engineers. In order to get through the grant application and finalization process, Carollo Engineers will have to perform administrative and engineering design work before the CSWRCB provides the City with a definative answer of the grant award to the City for construction and design cost of Phase 4. This will include geotechnical work, materials testing, site survey, production of design drawings, Engineer's Estimate for construction, and the preliminary report of findings. The estimated cost to the City for Carollo to get through the grant process is approximately fifty percent of the proposed amount for Task 1-6 in the amount of $864,433. This will include preliminary design of the WWTP pond and pump station upgrades, and if the grant is not approved, this design will already be in place for needed operational and critical plant updates. If the grant *is* approved, these costs will likely be eligible for reimbursement. Past and future amendments provide a Task Order to Carollo Engineers which only allows them to proceed with the scope of work when authorized by the City. To date, through Amendment 7 (dated September 4, 2020), Carollo Engineers is completing work described under Task 1-6. If the grant is not awarded or the City does not wish to continue work with Carollo Engineers for Task 7-9, Amendments for this work will not be executed by the City.

Recommended Action: Approve contract amendment eight with Carollo Engineers for the design efforts of the Recycled Water Phase 4 project in the amount of $4,600,773 and approval of corresponding budget amendment. .

GENERAL NOTES

1. FOLLOWING NOTES ARE GENERAL AND APPLY TO ALL SHEETS OF THESE CONTRACT DOCUMENTS AS IF THEY WERE WRITTEN IN THEIR ENTIRETY ON EACH SHEET.
2. CONTRACTOR SHALL VERIFY ALL DIMENSIONS BEFORE STARTING WORK AND SHALL IMMEDIATELY NOTIFY THE ENGINEER OF ANY DISCREPANCIES. CONTRACTOR SHALL BE RESPONSIBLE FOR FIELD VERIFYING ALL EXISTING CONDITIONS INCLUDING LOCATION AND DIMENSIONS OF ALL EXISTING CONSTRUCTION AND UTILITIES. CONTRACTOR SHALL NOTIFY ENGINEER IF THERE IS A CONFLICT BETWEEN THE CONTRACT DOCUMENTS AND EXISTING CONSTRUCTION BEFORE PROCEEDING WITH WORK.
3. UNLESS DETAILED, SPECIFIED, OR OTHERWISE INDICATED ON THE DRAWINGS, CONSTRUCTION SHALL BE AS INDICATED IN THE APPLICABLE TYPICAL DETAILS AND GENERAL NOTES. TYPICAL DETAILS SHALL APPLY EVEN THOUGH NOT REFERENCED AT SPECIFIC LOCATIONS ON DRAWINGS.
4. WHERE NO CONSTRUCTION DETAILS ARE SHOWN OR NOTED FOR ANY PART OF WORK. DETAILS SHALL BE IN THE SAME AS FOR OTHER SIMILIAR WORK.
5. CONTRACTOR SHALL COMPLY WITH LOCAL CONSTRUCTION STORM WATER DISCHARGE REGULATIONS AND REQUIREMENTS.
6. PRIOR TO EXCAVATION FOR NEW STRUCTURES, ELECTRICAL CONDUIT, FABRICATION OF NEW PIPING AND/OR OTHER PROPOSED UTILITIES, CONTRACTOR SHALL BE RESPONSIBLE FOR VERIFYING THE LOCATION OF ALL EXISTING PIPING AND UTILITIES IN THE CONSTRUCTION AREA. THE CONTRACTOR SHALL TEMPORARILY RELOCATE CONFLICTING EXISTING UTILITIES AT TIE-IN/CONNECTION LOCATIONS AND REINSTALL THEM AS REQUIRED TO ELIMINATE THE CONFLICT AT NO ADDITIONAL COST TO THE OWNER.
7. ALL PIPELINES 12" AND LARGER SHALL HAVE A MINIMUM COVER OF 48" UNLESS THE COVER DEPTH IS SPECIFICALLY INDICATED ON THE DRAWINGS. PIPE SMALLER THAN 12" SHALL HAVE A MINIMUM COVER OF 36" UNLESS NOTED OTHERWISE. PIPES SHALL BE ROUTED AS SHOWN UNLESS MINOR REVISIONS ARE NECESSARY TO MISS EXISTING PIPES, STRUCTURES, ETC. CONTRACTOR SHALL BE RESPONSIBLE FOR FURNISHING ALL FITTINGS AND ADAPTERS REQUIRED TO MAKE THE ROUTING CHANGES AT NO ADDITIONAL COST TO THE OWNER. CONTRACTOR SHALL INCLUDE COST FOR THIS IN THE BID.
8. EXISTING FACILITY AND UTILITY INFORMATION SHOWN ON THE DRAWINGS WAS OBTAINED FROM AVAILABLE RECORDS OR ELECTRONIC FILES. NEITHER THE OWNER NOR ENGINEER ASSUMES ANY RESPONSIBILITY FOR FACILITIES AND UTILITIES NOT SHOWN OR NOT IN THE LOCATION SHOWN. THE CONTRACTOR SHALL FIELD VERIFY ALL LOCATIONS, SIZES, MATERIAL TYPES, AND ELEVATIONS SHOWN AROUND OR NEAR AREAS OF NEW CONSTRUCTION PRIOR TO START OF CONSTRUCTION.
9. THE CONTRACTOR SHALL TAKE ALL PRECAUTIONARY MEASURES NECESSARY TO PROTECT FROM DAMAGE EXISTING FACILITIES AND UTILITIES SHOWN OR NOT SHOWN THAT ARE TO REMAIN IN PLACE. ALL FACILITIES DAMAGED BY THE CONTRACTOR'S OPERATIONS SHALL BE EXPEDITIOUSLY REPAIRED OR RECONSTRUCTED TO THE ORIGINAL OR BETTER CONDITION AT THE CONTRACTOR'S EXPENSE WITHOUT ADDITIONAL COMPENSATION.
10. CONTRACTOR SHALL MAKE CONNECTIONS TO EXISTING PIPE, EQUIPMENT, ETC. AS REQUIRED AND SHALL PROVIDE ALL FITTINGS, ADAPTERS, AND APPURTENANCES REQUIRED TO MAKE THE CONNECTIONS. PROVIDE ALL SUPPORTS REQUIRED FOR A RIGIDLY SUPPORTED COMPLETE AND WORKING SYSTEM.
11. ADJUST ALL VALVE BOXES, VAULTS, PULL BOXES, AND MANHOLES TO FINISHED GRADE UNLESS OTHERWISE SHOWN OR DIRECTED. MANHOLES IN OPEN FIELDS SHALL BE SET TWELVE INCHES ABOVE FINISHED GRADE AND VAULTS SHALL BE SIX INCHES ABOVE FINISHED GRADE.
12. THE CONTRACTOR SHALL CONTACT THE PROPER UTILITY REPRESENTATIVE AS FOLLOWS FOR QUESTIONS OR COORDINATION OF CONSTRUCTION RELATED TO EXISTING UTILITIES. THE CONTACT INFORMATION IS PROVIDED BELOW:

UTILITY NAME	UTILITY TYPE	CONTACT PERSON	CONTACT NUMBER
CITY OF UKIAH	WATER, SEWER, STORMWATER, ELECTRIC	JASON BENSON	(707) 510-5485
COMCAST	CABLE	STEVE STEVENS	(707) 462-1184
PG&E	GAS, ELECTRIC	DAVE KELLY	(800) 743-5000 ext 00
PACIFIC BELL	TELEPHONE	CONSTRUCTION & ENGINEERING	(510) 645-2929
LEVEL 3 COMMUNICATIONS	FIBER NETWORK		(877) 366-8344 ext 2
ROGINA WATER CO.	WATER	DAN ROGINA	707-462-4443
UKIAH VALLEY SANIT. DIST.	SEWER	FRANK MCMICHAEL	707-462-4429
WILLOW COUNTY WATER DISTRICT	WATER	DAVE REDDING	707-462-2666
MILLVIEW COUNTY WATER DISTRIC	WATER	-	707-462-7229

13. CONTRACTOR SHALL VERIFY THAT PIPING SHOWN TO BE ABANDONED OR AS ABANDONED PREVIOUSLY IS NO LONGER IN SERVICE. LINES IN SERVICE SHALL BE MAINTAINED UNTIL NO LONGER REQUIRED.
14. ALL EXISTING PIPES THAT ARE TO BE ABANDONED IN PLACE OR REMOVED MAY NOT BE SHOWN. WHERE PIPING IS TO BE ABANDONED AND MUST REMAIN IN SERVICE UNTIL COMPLETION OF OTHER PHASES OF WORK, AND IT CONFLICTS WITH NEW PIPING, TEMPORARILY RELOCATE PIPING AS REQUIRED TO MAINTAIN SERVICE.
15. CONTRACTOR SHALL REROUTE THE EXISTING PIPING IF REQUIRED TO MISS THE PROPOSED STRUCTURES. THE EXISTING PIPE SHALL REMAIN IN SERVICE UNTIL NEW PIPING IS READY TO BE PLACED INTO SERVICE. DOWNTIME SHALL BE A MAXIMUM OF 2 HOURS, UNLESS SPECIFIED OR SHOWN OTHERWISE.
16. THE CONTRACTOR SHALL TAKE SPECIAL PRECAUTIONS IN THE VICINITY OF ANY OVERHEAD ELECTRIC LINES. CONTRACTOR SHALL ABIDE BY THE NATIONAL ELECTRIC CODE AND ANY REQUIREMENT BY THE OWNER OF THE ELECTRIC LINES.
17. PROVIDE ALL SHEETING/SHORING REQUIRED TO PROTECT EXISTING STRUCTURES, PIPES AND FACILITIES.
18. CONTRACTOR SHALL VERIFY LOCATION OF ALL ARCHITECTURAL, MECHANICAL, AND ELECTRICAL ITEMS BEFORE PLACING ANY STRUCTURAL STEEL OR CONCRETE. ALSO, STRUCTURAL DIMENSIONS AND OPENINGS CONTROLLED BY ARCHITECTURAL, MECHANICAL, OR ELECTRICAL EQUIPMENT SHALL BE VERIFIED BY THE CONTRACTOR PRIOR TO CONSTRUCTION.
19. MECHANICAL AND ELECTRICAL EQUIPMENT SUPPORTS, ANCHORAGES, OPENINGS, RECESSES, AND REVEALS NOT SHOWN ON THE STRUCTURAL DRAWINGS, THAT ARE REQUIRED BY OTHER CONTRACT DRAWINGS, SHALL BE PROVIDED PRIOR TO CASTING CONCRETE.
20. THE CONTRACTOR SHALL POTHOLE EXISTING UTILITIES THAT MAY BE AFFECTED BY CONSTRUCTION UNDER THIS CONTRACT PRIOR TO SUBMITTING PIPE LAY DRAWINGS TO CONSTRUCTION MANAGER WITHIN NINETY (90) DAYS OF NOTICE TO PROCEED BUT NOT LESS THAN THIRTY (30) DAYS PRIOR TO EXCAVATION IN THE VACINITY OF THOSE UTILITIES. UTILITIES TO BE POTHOLED INCLUDE ALL THAT CROSS THE PIPELINE ALIGNMENTS TO CONFIRM CLEARANCE BETWEEN THE EXISTING UTILITY AND THE NEW RECYCLED WATER PIPELINE AND PARALLEL UTILITIES WITHIN TEN (10) FEET OF THE ALIGNMENT CENTERLINES. THE CONTRACTOR SHALL REPORT POTENTIAL UTILITY CONFLICTS TO THE CONSTRUCTION MANAGER IMMEDIATELY AFTER THEY ARE DISCOVERED. NO DELAY CLAIMS WILL BE ACCEPTED IF THE APPARENT CONFLICT IS RESOLVED BY THE CONSTRUCTION MANAGER WITHIN 30 DAYS AFTER IT IS REPORTED. NOT ALL EXISTING ELECTRIC UTILITY POLES AND OVERHEAD WIRES ARE SHOWN ON THE DRAWINGS. THE CONTRACTOR SHALL LOCATE THESE FACILITIES IN THE FIELD AND MAKE PROVISIONS AS NEEDED TO PERFORM CONSTRUCTION WORK WITHOUT DAMAGE TO EXISTING FACILITIES.

GENERAL NOTES CONTINUED

21. THE CONTRACTOR SHALL NOTIFY UNDERGROUND SERVICE ALERT (USA) AT LEAST 48 HOURS IN ADVANCE OF ANY EXCAVATION (1-800-277-2600). THE CONTRACTOR SHALL COMPLY WITH ALL APPLICABLE REGULATIONS PRIOR TO AND DURING EXCAVATIONS.
22. CONTRACTOR SHALL BE RESPONSIBLE FOR FIELD VERIFYING ALL EXISTING CONDITIONS INCLUDING LOCATION AND DIMENSIONS OF ALL EXISTING CONSTRUCTION AND UTILITIES. CONTRACTOR SHALL NOTIFY ENGINEER IF THERE IS A CONFLICT BETWEEN THE CONTRACT DOCUMENTS AND EXISTING CONSTRUCTION BEFORE PROCEEDING WITH WORK.
23. CONTRACTOR SHALL COMPLY WITH TRAFFIC RESTRICTIONS DETAILED IN THE SPECIFICATIONS, INCLUDING SECTION 01140. AT THE CLOSE OF EACH WORKING DAY, EXCAVATIONS MUST BE COVERED WITH STEEL PLATES (NON-SKID SURFACE TYPE) AND TWO WAY TRAFFIC SHALL BE RESUMED. FOR CONSTRUCTION OUTSIDE OF CITY LIMITS, THE CONTRACTOR SHALL SUBMIT A TRAFFIC CONTROL PLAN TO MENDOCINO COUNTY, AND SHALL IMPLEMENT TRAFFIC CONTROL COORDINATED WITH THE TRAFFIC CONTROL PLAN AND IN ACCORDANCE WITH THE SPECIFICATIONS AND THE COUNTY ENCROACHMENT PERMIT REQUIREMENTS.
24. CONTRACTOR SHALL USE CAUTION WHILE WORKING AROUND EXISTING OVERHEAD ELECTRIC UTILITIES AND POLES. ELECTRIC UTILITY POLES SHALL BE SUPPORTED PER UTILITY OWNERS SPECIFICATIONS DURING EXCAVATION.
25. CONTRACTOR SHALL ASSUME THAT EACH PROPERTY HAS AN EXISTING GAS, WATER, SEWER, ELECTRIC, AND CABLE LATERAL WHICH MAY NOT BE SHOWN ON THE PLANS.

CUP	COPPER PIPE
CV	CHECK VALVE
CW	COLD WATER
CWV	COMBINATION WASTE AND VENT
CY	CUBIC YARD

D

D	DEPTH, DIGITAL OR DISCRETE, DRAIN
D/W	DRIVEWAY
DBL	DOUBLE
DDR	DESICCANT DRYER
DEG or °	DEGREE
DEMO	DEMOLISH, DEMOLITION
DET	DETAIL
DFL	DECANT/FILTRATE
DG	DOOR GRILLE
DI	DROP INLET
DIA or Ø	DIAMETER
DIAG	DIAGONAL
DIF	DIFFUSER
DIFF	DIFFERENCE
DIG	DIGESTER
DIM	DIMENSION
DIP	DUCTILE IRON PIPE
DISCH	DISCHARGE
DIW	DEIONIZED WATER
DL	DEAD LOAD, DRAIN LINE
DLV	DOOR LOUVER
DMJT	DISMANTLING JOINT
DMP	DAMPER
DMS	DIAPHRAGM SEAL
DN	DOWN
do	do
DO	DOOR OPENING
DP	DEEP (OR DEPTH)
DPV	DIAPHRAGM VALVE
DR	DOOR, DRAIN, DRIVE
DRT	DRIP TRAP
DRV	DRAIN VALVE
DS	DIGESTED SLUDGE, DOWN SPOUT
DSW	DISTILLED WATER, DOOR SWITCH
DUC	DUST COLLECTOR
DUH	DUCT HEATER UNIT
DW	DISTILLED WATER
D/W	DRIVEWAY APRON
DWD	DEWATERING DRAIN
DWG(S)	DRAWING(S)
DWL(S)	DOWEL(S)

E

E	EAST
EA	EACH
EC	END OF CURVE
ECC RED	ECCENTRIC REDUCER
ECU	EVAPORATOR COOLING UNIT
ED	EQUIPMENT DRAIN
EF	EXHAUST FAN, EACH FACE
EFF	EFFLUENT
EG	EXHAUST GRILLE, EXISTING GROUND
EIFS	EXTERIOR INSULATION AND FINISH SYSTEM
EJ	EXPANSION JOINT
EJR	INJECTOR/REDUCTOR
EL	ELEVATION
ELEC	ELECTRICAL
ELL	ELBOW
EMBED	EMBEDMENT
EMH	ELECTRICAL MANHOLE
EOA	END OF ALIGNMENT
EOP	EDGE OF PAVEMENT
EP	EDGE OF PAVING
EPS	EXPANDED POLYSTYRENE
EPV	ECCENTRIC PLUG VALVE
EQ	EQUAL
EQUIP	EQUIPMENT
ER	EXHAUST REGISTER
ES	EACH SIDE
ESEW	EMERGENCY SHOWER AND EYE WASH
ESS	EMERGENCY HAND SWITCH
ET	ELECTRICALLY HEAT TRACED
EUG	ELECTRICAL UNDERGROUND
EUH	ELECTRIC UNIT HEATER
EVC	ELECTRIC UNIT HEATER, END OF VERTICAL CURVE
EVR	EVAPORATOR
EW	EACH WAY
EWC	ELECTRIC WATER COOLER
EWEF	EACH WAY EACH FACE
EWH	ELECTRIC WATER HEATER, EXHAUST
EX	EXISTING
EXIST	EXISTING
EXP	EXPANSION, EXPANSION TANK
EXPO	EXPOSED
EXT	EXTERIOR

F

FACT	FACTORY
FAD	FOUL AIR DUCT
FB	FLAT BAR
FBW	FILTER BACKWASH
FC	FACE OF CURB, FLEXIBLE COUPLING
FCA	FLANGE COUPLING ADAPTER
FCO	FLOOR CLEANOUT
FCU	FAN COIL UNIT
FD	FIRE DAMPER, FLOOR DRAIN, FOUND
FDC	FIRE DEPARTMENT CONNECTION
FDL	FLOOR DRAIN LINE
FDR	FEEDER
FEFF	FINAL EFFLUENT
FG	FLAP GATE
FH	FIRE HYDRANT
FILT	FILTRATE
FIN	FINISH, FINAL
FIN FL	FINISHED FLOOR
FIN GR	FINISHED GRADE
FL	FLOOR, FLOW LINE
FLA	FOUL AIR
FLD	FILTER DRAIN
FLE	FILTER EFFLUENT
FLEX	FLEXIBLE
FLG	FLANGE, OR FLANGED
FLGA	FLANGE ADAPTER
FLR	FILTER
FM	FORCE MAIN
FMSS	FORCE MAIN SANITARY SEWER
FND	FOUNDATION
FO	FUEL OIL, FIBER OPTIC OR CATV
FOB	FLAT ON BOTTOM
FOC	FACE OF CURB
FOT	FLAT ON TOP
FPM	FEET PER MINUTE
FPP	FLEXIBLE PLASTIC PIPE
FRP	FIBERGLASS REINFORCED PLASTIC
FRPP	FIBERGLASS REINFORCED PLASTIC PIPE
FRS	FROTH SPRAY
FS	FAR SIDE, FIRE SERVICES
FSP	FABRICATED STEEL PIPE
FSTN	FASTEN(ED)
FT or '	FOOT, FEET
FTG	FOOTING
FUP	FUEL DISPENSER
FV	FLAP VALVE
FW	FLUSHING WATER, FINISHED WATER
FX	FIRE EXTINGUISHER
FXC	FIRE EXTINGUISHER CABINET
FXE	FIRE EXTINGUISHER - ELECTRICAL

G

G	GAS, GROUND, GUTTER
GA	GAUGE or GAGE
GAL	GALLONS
GALV	GALVANIZE(D)
GAV	GRAVITY VENTILATOR
GB	GRADE BREAK
GBT	GRAVITY BELT THICKENER
GC	GROOVED COUPLING
GEL	GRAVITY EXHAUST LOUVER
GEN	GENERAL, GENERATOR
GL	GLASS
GLV	GLOBE VALVE
GM	GAS METER
GND	GROUND
GPD	GALLONS PER DAY
GPM	GALLONS PER MINUTE
GR	GRADE
GRTG	GRATING
GRV	GRAVITY VENTILATOR
GSP	GALVANIZED STEEL PIPE
GV	GATE VALVE
GYP	GYPSUM

H

H	EXPLOSION-PROOF, HIGH, HORIZONTAL
H1E	HOOK ONE END
H2E	HOOK TWO ENDS
HAS	HEADED ANCHOR STUD
HB	HOSE BIBB
HDG	HOT DIPPED GALVANIZED
HDPE	HIGH DENSITY POLYETHYLENE
HDW	HARDWARE
HDWL	HEADWALL
HEF	HOOD EXHAUST FAN
HGT	HEIGHT
HORIZ	HORIZONTAL
HP	HEAT PUMP, HORSEPOWER, HIGH PRESSURE, HIGH POINT
HPA	HIGH PRESSURE AIR
HPT	HIGH POINT
HPU	HEAT PUMP UNIT AIR
HR	HANDRAIL, HOSE REEL, HOUR
HSF	HOOD SUPPLY FAN
HSS	HOLLOW STRUCTURAL SECTION (STEEL)
HTX	HEAT EXCHANGER
HV	HOSE VALVE
HW	HOT WATER, HEADWALL
HWL	HIGH WATER LEVEL, HEADWALL
HWR	HOT WATER RETURN
HWS	HOT WATER SUPPLY
HWY	HIGHWAY
HxW	HEIGHT BY WIDTH
HYD	HYDRANT

I

I	INTERSECTION OF ANGLE
IA	INSTRUMENT AIR
ID	INSIDE DIAMETER, INSIDE DIMENSION, IDENTIFICATION
I.F.	INSIDE FACE
IN or "	INCHES
INCL	INCLUDE, INCLUDING
INF	INFLUENT
INJ	INJECTOR
INSTR	INSTRUMENTATION
INSUL	INSULAT(E)(ED)(ING)(ION)
INT	INTERIOR
INV	INVERT
IP	IRON PIPE
IRR	IRRIGATION
ISR	INTRINSICALLY SAFE RELAY

J

JNCT	JUNCTION
JST	JOIST
JT	JOINT

K

KGV	KNIFE GATE VALVE

L

L	ANGLE (STRUCTURAL), LENGTH, LOUVER
LAB	LABORATORY
LAT	LATERAL
LAV	LAVATORY
LB(S)	POUND(S)
LDF	LIQUID DIESEL FUEL
LDFR	LIQUID DIESEL FUEL RETURN
LF	LINEAL FEET
LG	LONG
LH	LEFT HAND
LHR	LEFT HAND REVERSE
LHRA	LEFT HAND REVERSE ACTIVE
LHRB	LEFT HAND REVERSE BEVEL
LL	LIVE LOAD
LLH	LONG LEG HORIZONTAL
LLV	LONG LEG VERTICAL
LONG	LONGITUDINAL
LP	LOW PRESSURE
LPA	LOW PRESSURE AIR
LPG	LIQUIFIED PROPANE GAS
LPT	LOW POINT
LR	LONG RADIUS
LS	LAB SINK
LT	LEFT
LWL	LOW WATER LEVEL

M

M	MOTOR
MAINT	MAINTENANCE
MAN	MANUAL
MASY	MASONRY
MATL	MATERIAL
MAU	MAKE-UP AIR UNIT
MAX	MAXIMUM
MB	MACHINE BOLT
MC	MECHANICAL COUPLING
MCJ	MASONRY CONTROL JOINT
MD	MOTORIZED DAMPER
MECH	MECHANICAL
MET	METAL
MFR	MANUFACTURER
MG/L	MILLIGRAMS PER LITER
MGD	MILLION GALLONS PER DAY
MH	MANHOLE
MIN	MINIMUM
MISC	MISCELLANEOUS
MIX	MIXER
MJ	MECHANICAL JOINT
MK	MARK
ML	MIXED LIQUOR
MO	MASONRY OPENING
MOD	MODIFIED
MOIST	MOISTURE
MON	MONUMENT
MOS	MOISTURE SEPARATOR
MPM	METERING PUMP
MS	MOP SINK
MTD	MOUNTED

N

N	NORTH, NEUTRAL
NA	NOT APPLICABLE
NC	NORMALLY CLOSED
NEV	VALVE, NEEDLE
NG	NATURAL GRADE, NATURAL OR LP GAS
NIC	NOT IN CONTRACT
NO., #	NUMBER
NOM	NOMINAL
NPT	NATIONAL PIPE THREAD
NPW	NON-POTABLE WATER
NS	NEAR SIDE
NTS	NOT TO SCALE
NW	NORTHWEST
NWPRR	NORTHWESTERN PACIFIC RAILROAD

O

O	OPEN
OBD	OPPOSED BLADE DAMPER
OC	ON CENTER
OD	OUTSIDE DIAMETER, OUTSIDE DIMENSION
OED	OPEN EQUIPMENT DRAIN
O.F.	OUTSIDE FACE

BENCHMARK INFORMATION

HPGN- D CA 01 CG

THE STATION IS LOCATED ON U.S. HIGHWAY 101, ABOUT 9 MI (14.5 KM) NORTH OF HOPLAND AND ABOUT 4 MI (6.4 KM) SOUTH OF UKIAH. TO REACH THE STATION FROM THE COUNTY COURTHOUSE AT THE CORNER OF NORTH STATE STREET AND PERKINS STREET IN UKIAH, GO EAST ON PERKINS STREET FOR 0.52 MI (0.84 KM) TO THE SOUTHBOUND ENTRANCE TO HIGHWAY 101. GO SOUTH ON THE ON RAMP AND ALONG HIGHWAY 101 FOR 3.74 MI (6.02 KM) TO THE COX-SCHRADER ROAD EXIT TO THE RIGHT. PROCEED ALONG THE OFF RAMP FOR 0.14 MI (0.23 KM) TO THE SOUTH SIDE OF ROBINSON OVERCROSSING(BRIDGE NO. 10-86) AND THE STATION ON THE LEFT AT POST MILE 20.70. THE STATION IS A SURVEY DISK ENCASED IN PVC PIPE WITH ACCESS COVER SET IN CONCRETE FLUSH WITH THE GROUND, 43 FT (13.1 M) SOUTHWEST OF THE WEST END OF THE SOUTH RAIL OF THE OVERCROSSING, 40 FT (12.2 M) SOUTH OF THE EXTENDED CENTERLINE OF THE BRIDGE, 15 FT (4.6 M) EAST OF THE CENTERLINE OF THE RAMP, 12.6 FT (3.8 M) SOUTH OF A FREEWAY ENTRANCE SIGN, 3.7 FT (1.1 M) EAST OF THE BACK OF THE EAST RAMP CURB AND 3.0 FT (0.9 M) NORTHEAST OF A WITNESS

HPGN- UKIAH AIRPORT RESET

THE STATION IS LOCATED AT THE NORTH END OF UKIAH MUNI AIRPORT NEAR THE RUNWAY END OF 15. THE STATION IS 141.8 FT (43.2 M) EAST OF THE AIRPORT PERIMETER FENCE, 93.8 FT (28.6 M) NORTHWEST OF RM NO 3, 88.6 FT (27.0 M) WEST OF THE WESTERLY EDGE OF THE TAXIWAY, 2.0 FT (0.6 M) EAST OF A 4 INCH X 4 INCH WOODEN WITNESS POST, AND 2.9 FT (0.9 M) WEST OF A 4 INCH X 4 INCH WOODEN WITNESS POST. THE STATION IS USCGS TRIANGULATION DISK SET IN THE TOP OF A SQUARE 10 INCH CONCRETE MONUMENT SET FLUSH WITH THE GROUND AND STAMPED UKIAH AIRPORT 1949 1963.

NOTES:

1. BEARINGS AND DISTANCES ARE IN GRID.
2. HORIZONTAL DATUM-BETWEEN FOUND HPGN POINTS DESIGNATED AS UKIAH AIRPORT RESET AND HPGN D CA 01 CG. USE COMBINED SCALE FACTOR 0.99988998 WITH EPOCH DATE 2007.00. USE RECIPROCAL 1.000110032 TO ACHIEVE GROUND DISTANCES.
3. VERTICAL DATUM BASED ON NGS BENCH MARK DESIGNATES AS UKIAH RESET NAVD 1988=622.50.

DESIGN CRITERIA

	UNITS	VALUE
RECYCLED WATER PUMP STATION		
QUANTITY	EA	4
DUTY	-	3 DUTY + 1 STANDBY
TYPE OF PUMPS	-	SPLIT CASE CENTRIFUGAL
CAPACITY, EA	GPM	1,000
TOTAL DYNAMIC HEAD	FT	240
DRIVER TYPE	-	VFD
MOTOR HORSEPOWER, EA	HP	100
RECYCLED WATER STORAGE TANK		
TOTAL CAPACITY	MG	1.5
DIAMETER	FT	120
FLOOR ELEVATION	FT	595.08
TOP OPERATIONAL WATER LEVEL	FT	620.00
OVERFLOW LEVEL	FT	620.00
RECYCLED WATER PIPELINES		
RESIDUAL PRESSURE AT SERVICE	PSI	50
WASTEWATER TREATMENT PLANT FLOW CONDITIONS		
AVERAGE DRY WEATHER (ADWF)	MGD	3.01
PEAK WEEK DRY WEATHER (PWDWF)	MGD	3.40
AVERAGE WET WEATHER (AWWF)	MGD	6.89
PEAK WEEK WET WEATHER (PWWWF)	MGD	15.8
PEAK HOUR WET WEATHER (PHWWF)	MGD	24.5
COAGULANT FEED SYSTEM		
COAGULANT	-	FERRIC CHLORIDE
CONCENTRATION	% BY WT	40
PUMP TYPE	-	DIAPHRAGM
QUANTITY (EXISTING/NEW)	EA	2 / 1
CAPACITY, EA	GPH	34.2 (E) / 20.4 (E) / 20.4 (N)
MINIMUM DOSAGE	mg/L	20
MAXIMUM DOSAGE	mg/L	50
MOTOR HORSEPOWER, EA	HP	0.5 (E) / 0.5 (E) / 0.5 (N)
ADVANCED WATER TREATMENT (AWT) CLARIFIER/FILTER SYSTEM		
AWT CLARIFIER/FILTER UNITS		
QUANTITY (EXISTING)	EA	4
MINIMUM CAPACITY, EA	MGD	1.2
MAXIMUM CAPACITY, EA	MGD	2
LENGTH	FT	40
WIDTH	FT	12
HEIGHT	FT	10
CLARIFIER		
MINIMUM LOADING, EA	GPM/SF	6
MAXIMUM LOADING, EA	GPM/SF	10
MEDIA DEPTH	IN	48
MEDIA EFFECTIVE SIZE	MM	1.5-3
AVERAGE RUN TIME	HRS	4
FILTER		
MINIMUM LOADING, EA	GPM/SF	3
MAXIMUM LOADING, EA	GPM/SF	5
MEDIA DEPTH	IN	30
BACKWASH	GPM/SF	15
AIR WASH BLOWERS		
TYPE	-	POSITIVE DISPLACEMENT
QUANTITY (NEW)	EA	3
CAPACITY, EA	SCFM	447
MOTOR HORSEPOWER, EA	HP	20
PRODUCTION AUGMENTATION UNIT (PAU)		
QUANTITY	EA	1
CAPACITY, EA	MG	5
CAROUSEL PUMP STATION		
PUMP TYPE	-	VERTICAL TURBINE
QUANTITY (EXISTING/NEW)	EA	2 / 1
CAPACITY, EA	GPM	4000
MOTOR HORSEPOWER, EA	HP	40
PAU PUMP STATION		
PUMP TYPE	-	VERTICAL TURBINE
QUANTITY (NEW)	EA	1
CAPACITY, EA	GPM	1750
MOTOR HORSEPOWER, EA	HP	20

GENERAL NOTES:

1. THE DEMOLITION DRAWINGS HEREIN ARE PROVIDED TO THE CONTRACTOR FOR REFERENCE IN DETERMINING THE SCOPE OF DEMOLITION REQUIRED. THE CONTRACTOR SHALL MAKE SUCH FIELD INVESTIGATIONS AS NECESSARY TO SATISFY THEMSELVES AS TO THE FIELD CONDITIONS. THE USE OF THESE DRAWINGS SHALL BE AT THE CONTRACTOR'S DISCRETION. THE CONTRACTOR IS CAUTIONED TO REVIEW EXISTING REFERENCE DRAWINGS AVAILABLE FROM THE CITY.
2. THE DEMOLITION DRAWINGS HEREIN HAVE BEEN PRODUCED BY SCANNING DESIGN DRAWINGS OF THE EXISTING ELEMENT(S) TO BE DEMOLISHED. WHERE POSSIBLE, A FIELD VERIFICATION WAS PERFORMED AND MAJOR DEVIATIONS HAVE BEEN NOTED. CONTRACTOR SHALL FIELD VERIFY SITE CONDITIONS TO SATISFY THEMSELVES PER NOTE 1. ORIGINAL DRAWINGS ARE AVAILABLE FROM OWNER FOR CONTRACTOR'S REFERENCE.
3. NOT ALL DEMOLITION WORK REQUIRED ON THIS PROJECT IS SHOWN ON THE DEMOLITION DRAWINGS. SEE OTHER CONTRACT DRAWINGS FOR ADDITIONAL DEMOLITION WORK REQUIRED. SEE YARD PIPING DRAWINGS FOR ADDITIONAL BELOW GRADE PIPING DEMOLITION.
4. COORDINATE DEMOLITION WORK WITH ALL APPLICABLE REQUIREMENTS OF THE CONTRACT DOCUMENTS.
5. SALVAGE EQUIPMENT PER SPECIFICATION SECTION 01738.
6. REFER TO SPECIFICATION SECTION 01140 FOR WORK RESTRICTIONS PRIOR TO DEMOLITION.
7. EXISTING CONDITIONS:
   a. FIELD VERIFY ALL EXISTING DIMENSIONS, ELEVATIONS, AND CONDITIONS RELATED TO WORK PRIOR TO DEMOLITION, SHOP DRAWING PREPARATION, AND FABRICATION.
   b. NOTIFY ENGINEER IMMEDIATELY IF CONDITIONS NOT COVERED BY THESE DRAWINGS ARE EXPOSED DURING CONSTRUCTION INCLUDING BUT NOT LIMITED TO:
      I. SIZES OR DIMENSIONS DIFFERING FROM THE CONTRACT DOCUMENTS.
      II. DAMAGE OR DETERIORATION TO MATERIALS AND COMPONENTS.
      III. CONDITIONS OR DETAILS DIFFERENT FROM THOSE SHOWN ON THE DRAWINGS.
8. RESTORE TO ITS PRECONSTRUCTION CONDITION ANY EXISTING CONSTRUCTION THAT IS DAMAGED AS A RESULT OF DEMOLITION.
9. SITE DEMOLITION WILL IMPACT EXISTING DRAINAGE PATTERNS. MAINTAIN SITE DRAINAGE PATTERNS DURING CONSTRUCTION. REROUTE EARTHEN SWALES AND PROVIDE TEMPORARY FACILITIES AS NECESSARY.
10. UNLESS OTHERWISE INDICATED, WHERE EQUIPMENT, BRACKETS, PIPE SUPPORTS, BASE PLATES, CLAMPS, ETC ARE REMOVED, FASTENER SHALL BE CUT OFF 1-INCH BELOW SURFACE. PATCH HOLE WITH NON-SHRINK GROUT.
11. WHERE ANY EQUIPMENT OR PIPING IS CALLED OUT TO BE DEMOLISHED OR REMOVED, THE ASSOCIATED SUPPORTS FOR THAT EQUIPMENT OR PIPE SHALL ALSO REMOVED.
12. DISCONNECT AND DEMOLISH POWER AND CONTROL WIRING BETWEEN THE DEMOLISHED EQUIPMENT AND ITS ASSOCIATED MCC OR CONTROL PANEL.
13. PROTECT EXISTING RECEPTACLES AND LIGHT SWITCHES. PROTECT EXISTING CONDUITS TO SWITCHES, LIGHTS, AND RECEPTACLES.
14. REMOVE CABLES FROM ABANDONED IN-SLAB OR BURIED CONDUITS. GRIND ABANDONED CONDUITS DOWN AND FILL CONDUIT PENETRATION WITH DRY-PACK MORTAR PER SPECIFICATION SECTION 03600. PLACE DRY-PACK MORTAR IN HOLES IN LAYERS WITH THICKNESS NOT EXCEEDING TIE HOLE DIAMETER AND HEAVILY COMPACT EACH LAYER.
15. FOR EQUIPMENT BEING DEMOLISHED OR HAVING ITS ELECTRICAL AND CONTROL CONDUITS AND WIRES BEING REPLACED, DEMOLISH ALL ASSOCIATED CONDUITS AND WIRE BETWEEN EQUIPMENT AND ITS ASSOCIATED MCC OR CONTROL PANEL UNLESS OTHERWISE NOTED.

GENERAL NOTES:

1. REFER TO GENERAL NOTES ON 00D01.

KEY NOTES:

1. DEMOLISH VALVES.
2. DEMOLISH AIR BLOWER.
3. DEMOLISH PRIMARY COAGULANT FEED PUMP.
4. DEMOLISH AIR PIPING AND SUPPORTS.
5. REMOVE FILTER MEDIA AND FILTER GRAVEL SUPPORT.
6. DEMOLISH EXISTING PNEUMATIC WASTE GATE ACTUATOR ON EACH AWT CLARIFIER/FILTER UNIT. REFER TO PHOTO 6/85D03. OTHER WASTE GATES NOT SHOWN FOR CLARITY.
7. REMOVE ADSORPTION CLARIFIER MEDIA.
8. DEMOLISH THE SURFACE WASH SWEEPS (TYPICAL OF 12) AND ASSOCIATED PIPING AND SUPPORTS.
9. EXISTING 4" SW PIPE TO BE ABANDONED N PLACE. CUT PIPE FLUSH WITH EXISTING GRADE AND PROVIDE PERMANENT BLIND FLANGE.
10. REPLACE EXISTING 6-INCH ELBOW WITH A TEE AS INDICATED ON 85M02.
11. TEMPORARILY RELOCATE AIR COMPRESSOR AND ASSOCIATED PIPING TO FACILITATE INSTALLATION OF NEW BLOWERS PER 85M02. AIR COMPRESSOR SHALL REMAIN IN SERVICE UNTIL THE PNEUMATIC WASTE GATE ACTUATORS HAVE BEEN REPLACED FOR ALL FOUR OF THE AWT CLARIFIER/FILTER UNITS.
12. CONTRACTOR SHALL STORE ONE EXISTING BLOWER ONSITE UNTIL ALL THE NEW BLOWERS HAVE BEEN INSTALLED AND ARE FULLY OPERABLE.
13. DEMOLISH 6-INCH AIR PIPING AFTER ALL EXISTING BLOWERS HAVE BEEN DEMOLISHED. REFER TO SPECIFICATION SECTION 01140 FOR POSSIBLE WORK SEQUENCING AND 85M02.
14. RESTORE EXISTING PENETRATION TO MATCH EXISTING WALL.

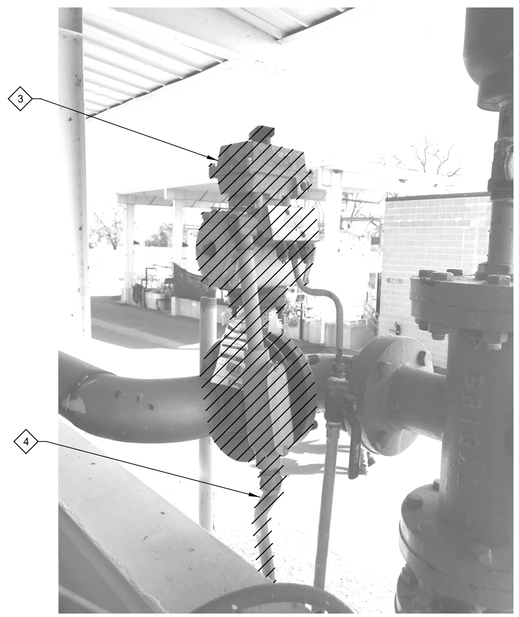
GENERAL NOTES:



1. REFER TO GENERAL NOTES ON 00D01.

KEY NOTES:

1. DEMOLISH VALVE. TYPICAL OF EIGHT VALVES FOR THE FILTERS.
2. DEMOLISH AIR BLOWER AND ASSOCIATED PIPING AND SUPPORTS.
3. DEMOLISH SOLENOID VALVE. TYPICAL OF FOUR SOLENOID VALVES FOR FILTERS.
4. DEMOLISH EXISTING EXPOSED CONDUITS AND ALL CONDUCTORS ASSOCIATED WITH DEMO EQUIPMENT FROM POWER AND CONTROL SOURCE TO EQUIPMENT LOCATION. THIS IS TYPICAL FOR TWO AIR BLOWER, EIGHT FILTER VALVES, AND FOUR AIR SCOUR VALVES, AND FOUR SOLENOID VALVES.
5. DEMOLISH EXISTING LOCAL CONTROL PANEL FOR TWO AIR BLOWERS.
6. DEMOLISH SURFACE WASH SYSTEM EQUIPMENT AND ASSOCIATED PIPING AND SUPPORTS.
7. EXISTING 4" SW PIPE TO BE ABANDONED IN PLACE. CUT PIPE FLUSH WITH EXISTING GRADE AND PROVIDE PERMANENT BLIND FLANGE.

NOTES

GENERAL NOTES:

1. FOLLOWING NOTES ARE GENERAL AND APPLY TO ALL SHEETS OF THESE CONTRACT DOCUMENTS AS IF THEY WERE WRITTEN IN THEIR ENTIRETY ON EACH SHEET.
2. CONTRACTOR SHALL VERIFY ALL DIMENSIONS BEFORE STARTING WORK AND SHALL IMMEDIATELY NOTIFY THE ENGINEER OF ANY DISCREPANCIES. CONTRACTOR SHALL BE RESPONSIBLE FOR FIELD VERIFYING ALL EXISTING CONDITIONS INCLUDING LOCATION AND DIMENSIONS OF ALL EXISTING CONSTRUCTION AND UTILITIES. CONTRACTOR SHALL NOTIFY ENGINEER IF THERE IS A CONFLICT BETWEEN THE CONTRACT DOCUMENTS AND EXISTING CONSTRUCTION BEFORE PROCEEDING WITH WORK.
3. UNLESS DETAILED, SPECIFIED, OR OTHERWISE INDICATED ON THE DRAWINGS, CONSTRUCTION SHALL BE AS INDICATED IN THE APPLICABLE TYPICAL DETAILS AND GENERAL NOTES. TYPICAL DETAILS SHALL APPLY EVEN THOUGH NOT REFERENCED AT SPECIFIC LOCATIONS ON DRAWINGS.
4. WHERE NO CONSTRUCTION DETAILS ARE SHOWN OR NOTED FOR ANY PART OF WORK. DETAILS SHALL BE IN THE SAME AS FOR OTHER SIMILAR WORK.
5. CONTRACTOR SHALL COMPLY WITH LOCAL CONSTRUCTION STORM WATER DISCHARGE REGULATIONS AND REQUIREMENTS.
6. PRIOR TO EXCAVATION FOR NEW STRUCTURES, ELECTRICAL CONDUIT, FABRICATION OF NEW PIPING AND/OR OTHER PROPOSED UTILITIES, CONTRACTOR SHALL BE RESPONSIBLE FOR VERIFYING THE LOCATION OF ALL EXISTING PIPING AND UTILITIES IN THE CONSTRUCTION AREA. THE CONTRACTOR SHALL TEMPORARILY RELOCATE CONFLICTING EXISTING UTILITIES AT TIE-IN/CONNECTION LOCATIONS AND REINSTALL THEM AS REQUIRED TO ELIMINATE THE CONFLICT AT NO ADDITIONAL COST TO THE OWNER.
7. ALL PIPELINES 12" AND LARGER SHALL HAVE A MINIMUM COVER OF 36" UNLESS THE COVER DEPTH IS SPECIFICALLY INDICATED ON THE DRAWINGS. PIPE SMALLER THAN 12" SHALL HAVE A MINIMUM COVER OF 30" UNLESS NOTED OTHERWISE. PIPES SHALL BE ROUTED AS SHOWN UNLESS MINOR REVISIONS ARE NECESSARY TO MISS EXISTING PIPES, STRUCTURES, ETC. CONTRACTOR SHALL BE RESPONSIBLE FOR FURNISHING ALL FITTINGS AND ADAPTERS REQUIRED TO MAKE THE ROUTING CHANGES AT NO ADDITIONAL COST TO THE OWNER. CONTRACTOR SHALL INCLUDE COST FOR THIS IN THE BID.
8. EXISTING FACILITY AND UTILITY INFORMATION SHOWN ON THE DRAWINGS WAS OBTAINED FROM AVAILABLE RECORDS OR ELECTRONIC FILES. NEITHER THE OWNER NOR ENGINEER ASSUMES ANY RESPONSIBILITY FOR FACILITIES AND UTILITIES NOT SHOWN OR NOT IN THE LOCATION SHOWN. THE CONTRACTOR SHALL FIELD VERIFY ALL LOCATIONS, SIZES, MATERIAL TYPES, AND ELEVATIONS SHOWN AROUND OR NEAR AREAS OF NEW CONSTRUCTION PRIOR TO START OF CONSTRUCTION.
9. THE CONTRACTOR SHALL TAKE ALL PRECAUTIONARY MEASURES NECESSARY TO PROTECT FROM DAMAGE EXISTING FACILITIES AND UTILITIES SHOWN OR NOT SHOWN THAT ARE TO REMAIN IN PLACE. ALL FACILITIES DAMAGED BY THE CONTRACTOR'S OPERATIONS SHALL BE EXPEDITIOUSLY REPAIRED OR RECONSTRUCTED TO THE ORIGINAL OR BETTER CONDITION AT THE CONTRACTOR'S EXPENSE WITHOUT ADDITIONAL COMPENSATION.
10. CONTRACTOR SHALL MAKE CONNECTIONS TO EXISTING PIPE, EQUIPMENT, ETC. AS REQUIRED AND SHALL PROVIDE ALL FITTINGS, ADAPTERS, AND APPURTENANCES REQUIRED TO MAKE THE CONNECTIONS. PROVIDE ALL SUPPORTS REQUIRED FOR A RIGIDLY SUPPORTED COMPLETE AND WORKING SYSTEM.
11. ADJUST ALL VALVE BOXES, VAULTS, PULL BOXES, AND MANHOLES TO FINISHED GRADE UNLESS OTHERWISE SHOWN OR DIRECTED. MANHOLES IN OPEN FIELDS SHALL BE SET TWELVE INCHES ABOVE FINISHED GRADE AND VAULTS SHALL BE SIX INCHES ABOVE FINISHED GRADE.
12. THE CONTRACTOR SHALL CONTACT THE PROPER UTILITY REPRESENTATIVE AS FOLLOWS FOR QUESTIONS OR COORDINATION OF CONSTRUCTION RELATED TO EXISTING UTILITIES.

    SEE SCHEDULE ON SHEET 00G03
13. CONTRACTOR SHALL VERIFY THAT PIPING SHOWN TO BE ABANDONED OR AS ABANDONED PREVIOUSLY IS NO LONGER IN SERVICE. LINES IN SERVICE SHALL BE MAINTAINED UNTIL NO LONGER REQUIRED BY THE PLANT.
14. ALL EXISTING PIPES THAT ARE TO BE ABANDONED IN PLACE OR REMOVED MAY NOT BE SHOWN. WHERE PIPING IS TO BE ABANDONED AND MUST REMAIN IN SERVICE UNTIL COMPLETION OF OTHER PHASES OF WORK, AND IT CONFLICTS WITH NEW PIPING, TEMPORARILY RELOCATE PIPING AS REQUIRED TO MAINTAIN SERVICE BY THE PLANT.
15. CONTRACTOR SHALL REROUTE THE EXISTING PIPING IF REQUIRED TO MISS THE PROPOSED STRUCTURES. THE EXISTING PIPE SHALL REMAIN IN SERVICE UNTIL NEW PIPING IS READY TO BE PLACED INTO SERVICE. DOWNTIME SHALL BE A MAXIMUM OF 2 HOURS, UNLESS SPECIFIED OR SHOWN OTHERWISE.
16. ALL SIDEWALKS TO BE 3'-0" WIDE UNLESS SHOWN OTHERWISE.
17. THE CONTRACTOR SHALL TAKE SPECIAL PRECAUTIONS IN THE VICINITY OF ANY OVERHEAD ELECTRIC LINES. CONTRACTOR SHALL ABIDE BY THE NATIONAL ELECTRIC CODE AND ANY REQUIREMENT BY THE OWNER OF THE ELECTRIC LINES.
18. PROVIDE ALL SHEETING/SHORING REQUIRED TO PROTECT EXISTING STRUCTURES, PIPES AND FACILITIES.
19. CONTRACTOR SHALL VERIFY LOCATION OF ALL ARCHITECTURAL, MECHANICAL, AND ELECTRICAL ITEMS BEFORE PLACING ANY STRUCTURAL STEEL OR CONCRETE. ALSO, STRUCTURAL DIMENSIONS AND OPENINGS CONTROLLED BY ARCHITECTURAL, MECHANICAL, OR ELECTRICAL EQUIPMENT SHALL BE VERIFIED BY THE CONTRACTOR PRIOR TO CONSTRUCTION.
20. MECHANICAL AND ELECTRICAL EQUIPMENT SUPPORTS, ANCHORAGES, OPENINGS, RECESSES, AND REVEALS NOT SHOWN ON THE STRUCTURAL DRAWINGS, THAT ARE REQUIRED BY OTHER CONTRACT DRAWINGS, SHALL BE PROVIDED PRIOR TO CASTING CONCRETE.

GENERAL PIPELINE NOTES:

1. DIMENSIONS TO STRUCTURES, REFERENCED PIPING, PAVING, AND OTHER IMPROVEMENTS IS APPROXIMATE. THE CONTRACTOR SHALL FIELD VERIFY ALL DIMENSIONS AND CONDITIONS 14 DAYS IN ADVANCE OF THE CONSTRUCTION PROGRESS. THE CONTRACTOR SHALL REPORT ANY DISCREPANCIES TO THE ENGINEER.
2. CONTRACTOR SHALL MAINTAIN A MINIMUM CLEARANCE OF 10 FEET HORIZONTAL AND 3 FEET VERTICAL BETWEEN THE SEWER LINES AND EXISTING WATER LINES.
3. REFER TO THE GEOTECHNICAL REPORT LOCATED IN THE APPENDIX OF THE SPECIFICATIONS FOR ADDITIONAL INFORMATION ON THE GEOTECHNICAL CONDITIONS AND BORING INFORMATION.
4. IN ALL LOCATIONS WHERE TRENCH PLATE IS USED FOR VEHICULAR OR PEDESTRIAN TRAFFIC, THE CONTRACTOR SHALL APPLY SKID RESISTANT COATING ON THE TRENCH PLATES AND COLD MIX ASPHALT CONCRETE AT THE EDGES. THE TRENCH PLATES SHALL BE NOTCHED INTO THE ASPHALT, CONCRETE, OR TRAVELED SURFACE TO PREVENT SLIPPAGE AND ROCKING UNDER TRAFFIC.
5. THE CONTRACTOR SHALL MAINTAIN ACCESS TO ALL PROPERTIES ADJACENT TO THE WORK, THROUGHOUT THE CONSTRUCTION PERIOD.
6. ALL OPEN TRENCHES, WORK AREAS AND SHAFTS SHALL HAVE A SHORING SYSTEM IN ACCORDANCE WITH OSHA, STATE AND LOCAL REQUIREMENTS.
7. THE CONTRACTOR SHALL COMPLY WITH ALL FEDERAL, STATE, COUNTY, AND LOCAL LAWS AND ORDINANCES RELATING TO THE SAFETY AND CHARACTER OF WORK, EQUIPMENT AND PERSONNEL. THIS INCLUDES BUT IS NOT LIMITED TO SHEETING, SHORING, BRACING, VENTILATION, CONFORMANCE WITH TRAFFIC CONTROL AND MAINTENANCE OF BARRICADES AND WARNING DEVICES.
8. LAYOUT DRAWINGS ARE REQUIRED FOR PIPING INSTALLED.
9. ALL ROAD DITCHES, FENCE LINES, PASTURES AND SIMILAR AREAS SHALL BE RESTORED PER SPECIFICATION 02952.
10. ALL CROPPED AREAS DISTURBED SHALL HAVE THE TOPSOIL REPLACED AND THE ENTIRE AREA DISTURBED SHALL BE RIPPED 2 FT DEEP PER THE LAND OWNERS REQUIREMENTS.
11. CONTRACTOR SHALL TAKE ALL PRACTICAL PRECAUTIONS TO MINIMIZE DISTURBANCES TO STREAMS, VEGETATION, TREES AND CROP LANDS. WHEREVER PRACTICAL LEAVE EXISTING TREES AND VEGETATED AREAS UNDISTURBED.

UTILITY NOTES:

1. EXISTING UTILITIES IN THE PROJECT MAY BE IN A FRAGILE CONDITION. THE CONTRACTOR SHALL EXERCISE NECESSARY CAUTION WHEN WORKING NEAR EXISTING UTILITIES.
2. PLAN LOCATIONS AND ELEVATIONS OF EXISTING UTILITIES ARE BASED ON RECORD DRAWINGS, POTHOLING AND SURVEY INFORMATION AND ARE CONSIDERED APPROXIMATE ONLY. WHERE NO ELEVATIONS ARE SHOWN, NO INFORMATION WAS AVAILABLE DURING THE DESIGN PERIOD.
3. SOME UTILITY SERVICES MAY NOT BE SHOWN ON THESE DRAWINGS. THE CONTRACTOR SHALL TAKE NECESSARY MEASURES TO LOCATE AND PROTECT SERVICE DURING CONSTRUCTION.
4. CONTRACTOR SHALL CALL THE "LOCAL UTILITY LOCATOR" AT 1-800-277-2600 PRIOR TO ANY EXCAVATION ACTIVITIES.
5. THE LOCATION, SIZE, AND MATERIALS OF EXISTING UNDERGROUND UTILITIES SHOWN ON THESE DRAWINGS ARE APPROXIMATE AND IS SHOWN FOR BIDDING PURPOSES. THE CONTRACTOR SHALL BE RESPONSIBLE TO CONTACT THE UTILITY OWNERS SO THAT THOSE UTILITIES MAY MARK THE LOCATION OF THEIR UTILITIES PRIOR TO ANY EXCAVATION ACTIVITIES. THE CONTRACTOR SHALL BE RESPONSIBLE TO LOCATE AND PROTECT EXISTING UTILITIES.

EARTHWORK NOTES:

1. CLEAR THE CONSTRUCTION AREA OF NATURAL OBSTRUCTIONS EXISTING FOUNDATIONS, BUILDINGS, FENCES, LUMBER, WALLS, STUMPS, BRUSH, WEEDS, RUBBISH, TREES, BOULDERS, AND ANY OTHER ITEMS WHICH INTERFERES WITH CONSTRUCTION OPERATIONS OR ARE DESIGNATED FOR REMOVAL.
2. GRUB OUT AND DISPOSE OF TREE TRUNKS AND ROOT MATERIAL BELOW THE GROUND SURFACE REMAINING AFTER CLEARING.
3. DISPOSE OF THE UNACCEPTABLE BACKFILL MATERIAL FROM THE CLEARING AND GRUBBING OPERATIONS AT NO ADDITIONAL COST TO THE OWNER.
4. STRIP AND STOCKPILE THE TOPSOIL. THE DEPTH OF STRIPPING SHALL BE ESTIMATED TO BE 12-INCHES BUT WILL BE DETERMINED IN THE FIELD AS SOIL CONDITIONS DICTATE.
5. REPLACE STOCKPILED SOIL AND RESTORE SITE AS SPECIFIED.
6. ROCK AND AGGREGATE STORAGE AREAS SHALL BE RESTORED BY EXCAVATING ANY SOILS CONTAINING ROCK OR AGGREGATE AND BACKFILLING WITH TOPSOIL. SOIL REMOVED MAY BE USED FOR TRENCH BACKFILL ABOVE THE PIPE ZONE AND 3 FEET BELOW FINISHED GRADE.

1. THE LOCATIONS OF UTILITIES SHOWN ARE APPROXIMATE. CONTRACTOR IS RESPONSIBLE FOR FIELD VERIFICATION OF ALL RELEVANT EXISTING UTILITIES.

KEY NOTES:

1. PRIOR TO INSTALLING THE NEW 6" SLUDGE PIPE, CONTRACTOR SHALL FIELD VERIFY THE LOCATION, CONDITION, MATERIAL, OUTSIDE DIAMETER OF THE EXISTING 6" SLUDGE LINE (APPROXIMATELY 4 FEET BELOW GRADE), AND NOTIFY THE ENGINEER. USE FITTINGS/COUPLINGS AS REQUIRED.
2. PRIOR TO INSTALLING THE NEW 6" SLUDGE PIPE, CONTRACTOR SHALL FIELD VERIFY THE LOCATION, CONDITION, MATERIAL, OUTSIDE DIAMETER OF THE EXISTING 12" SLUDGE LINE (APPROXIMATELY 4 FEET BELOW GRADE), AND NOTIFY THE ENGINEER. USE FITTINGS/COUPLINGS AS REQUIRED.

LAST SAVED BY: JDiDonato

PLAN

FILE: 8660F10C04

CUT: 31974 CUBIC YARDS
FILL: 2747 CUBIC YARDS

GENERAL NOTES:

1. CONTRACTOR TO VERIFY THE HORIZONTAL AND VERTICAL LOCATIONS OF ALL EXISTING UTILITIES PRIOR TO THE START OF CONSTRUCTION AND NOTIFY THE ENGINEER OF ANY DISCREPANCIES OR CONFLICTS.
2. CLEAR, GRUB, AND STRIP CONSTRUCTION AREAS PRIOR TO EARTHWORK ACTIVITIES PER SPECIFICATION SECTION 02200.
3. REFER TO SPECIFICATION SECTION 02300 AND 02301 FOR EARTHWORK AND BACKFILL REQUIREMENTS.
4. THE CONTRACTOR SHALL REMOVE ALL EXISTING SLUDGE MATERIAL. THE SLUDGE MATERIALS SHALL BE REMOVED TO AN APPROXIMATE ELEVATION OF 567 FEET.

KEY NOTES:

1. FINISHED GRADE OF THE BOTTOM OF THE PAU SHALL BE SLOPED FROM THE TOE OF THE SLOPE TO THE PUMP STATION INLET.
2. RECYCLED WATER INFRASTRUCTURE SHALL REMAIN IN SERVICE DURING CONSTRUCTION. PROTECT IN PLACE.
3. REFER TO SHEET 91C07 FOR PAU INLET PIPING ALIGNMENT AND PROFILE.
4. REFER TO SHEET 91C08 FOR PAU OUTLET PIPING ALIGNMENT AND PROFILE.
5. REFER TO SHEET 91S04 FOR PAU INLET STRUCTURE.
6. ACCESS ROAD ON TOP OF BERM SHALL CONSIST OF 6-INCHES AB OVER GEOTEXTILE FABRIC WITH 1-FOOT SUBGRADE AT 95% RC UNLESS OTHERWISE NOTED. ACCESS ROAD TO BE SEALED IN ACCORDANCE WITH SPECIFICATION SECTION 02747.
7. THE CONTRACTOR SHALL DECOMMISSION THE EXISTING BURIED ELECTRIC UTILITY BEFORE PAU CONSTRUCTION. REFER TO SPECIFICATION SECTION 01140 FOR WORK RESTRICTIONS. THE CONTRACTOR SHALL REESTABLISH THE BURIED ELECTRIC UTILITY AS SHOWN ON THE ELECTRIC SITE PLAN. REFER TO DWG 01E02.
8. 8" THICK SLAB ON GRADE WITH #5@12" O.C. EACH WAY. REFER TO DETAIL 5/91C04.
9. 8" THICK SLOPED SLAB ON GRADE (WALL) WITH #5@12" O.C. EACH WAY. REFER TO DETAIL 5/91C04 AND DETAIL 7/91C04.
10. CONSTRUCTION JOINTS IN SLAB ON GRADE SPACED AT MAXIMUM 20'-0" O.C. IN EACH DIRECTION. THE JOINTS SHALL AS PER TYPICAL DETAIL S110 WITH WATER STOP AND EXTEND THROUGH THE SLOPED SLAB ON GRADE (WALL).
11. EXPANSION JOINT PER DETAIL 6 /91C04 TYPICAL ALL AROUND THE BASIN.
12. TOP OF THE BERM CONCRETE LINER DETAIL PER DETAIL 7/91C04 TYPICAL ALL AROUND THE BASIN.
13. ADJUST CONSTRUCTION JOINT LOCATION TO ACCOMMODATE INLET STRUCTURES.

CIVIL

PLAN AND PROFILE ALIGNMENT A
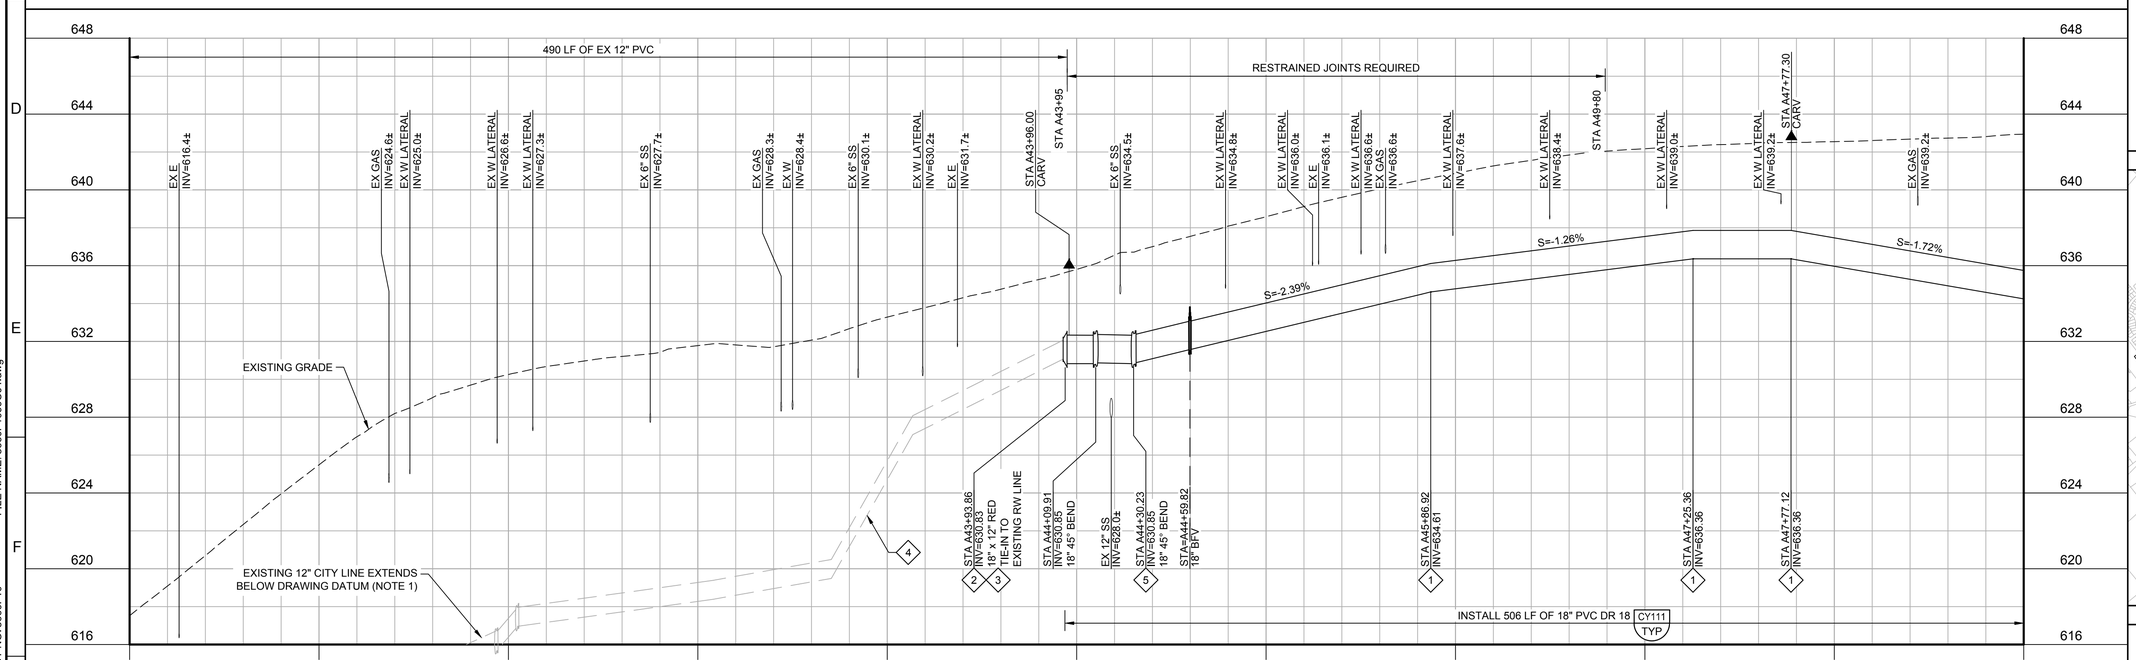
STA A29+00 TO STA A39+00



VERIFY SCALES
BAR IS ONE INCH ON ORIGINAL DRAWING
0 1"
IF NOT ONE INCH ON THIS SHEET, ADJUST SCALES ACCORDINGLY

JOB NO. 8660F.10
DRAWING NO. 99C03
SHEET NO. 33 OF 200

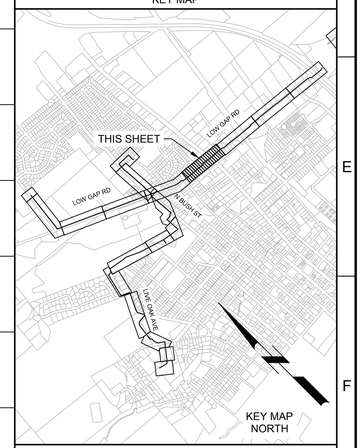
PLAN

FILE: 8660F1001C102

PROFILE

FILE: 8660F1001C102

GENERAL NOTES:



1. SEE CITY AS BUILTS FOR EXISTING 12 INCH RW ALIGNMENT AND PIPE INFORMATION.
2. CONTRACTOR TO VERIFY ALL UTILITY CROSSINGS PRIOR TO CONSTRUCTION.
3. THE CONTRACTOR SHALL ASSUME THAT ANY VERTICAL BENDS SHOWN ARE ROTATED FROM CORRESPONDING HORIZONTAL BENDS UNLESS NOTED OTHERWISE.

KEY NOTES:

1. VERTICAL BEND ACHIEVED BY PULLING JOINT IN PIPE. MAXIMUM ALLOWED DEFLECTION IS HALF OF THE MANUFACTURER'S SPECIFIED DEFLECTION. CONTRACTOR MAY DEFLECT MORE THAN ONE JOINT TO ACHIEVE TOTAL DEFLECTION.
2. CONTRACTOR TO VERIFY EXACT TIE-IN LOCATION TO EXISTING 12 INCH RW LINE PRIOR TO CONSTRUCTION. CONTRACTOR SHALL CONFIRM EXISTING JOINT RESTRAINT PRIOR TO OPEN CUT EXCAVATION. IF JOINT RESTRAINT IS NOT PRESENT, CONTRACTOR SHALL INSTALL JOINT RESTRAINTS OF SUFFICIENT LENGTH.
3. REMOVE EXISTING CAP.
4. SEE CITY AS BUILTS FOR EXISTING 12" RW ALIGNMENT AND PIPE INFORMATION.
5. VERTICAL BEND ACHIEVED BY ROLLING HORIZONTAL BEND.

PLAN

FILE: 8660F1001C102

PROFILE

FILE: 8660F1001C102

GENERAL NOTES:

1. CONTRACTOR TO VERIFY ALL UTILITY CROSSING PRIOR TO CONSTRUCTION.
2. THE CONTRACTOR SHALL ASSUME THAT ANY VERTICAL BENDS SHOWN ARE ROTATED FROM CORRESPONDING HORIZONTAL BENDS UNLESS NOTED OTHERWISE.
3. CONTRACTOR TO REPLACE ALL ROAD STRIPING DAMAGED BY PIPELINE REPLACEMENT PER SECTION 02762. CONTRACTOR SHALL REPLACE ENTIRETY OF DAMAGED STRIPING.

KEY NOTES:

1. VERTICAL BEND TO BE ACHIEVED BY PULLED PIPE. MAXIMUM ALLOWED DEFLECTION IS HALF OF THE MANUFACTURER'S SPECIFIED DEFLECTION. CONTRACTOR MAY DEFLECT MORE THAN ONE JOINT TO ACHIEVE TOTAL DEFLECTION.
2. VERTICAL BEND TO BE ACHIEVED BY ROTATING HORIZONTAL BEND.

GENERAL NOTES:

1. USE STRUCTURAL DRAWINGS IN CONJUNCTION WITH PROJECT DRAWINGS BY OTHER DISCIPLINES AND WITH THE SPECIFICATIONS.

2. UNLESS DETAILED, SPECIFIED, OR INDICATED OTHERWISE, CONSTRUCTION SHALL BE AS INDICATED IN THE GENERAL NOTES AND TYPICAL DETAILS.

3. PRESENTATION CONVENTIONS FOR STRUCTURAL DRAWINGS:

   A. SCREENED LINE WORK INDICATES EXISTING CONDITIONS.
   B. WRITTEN DIMENSIONS TAKE PRECEDENCE OVER SCALED SIZES.
   C. PLANS ARE TREATED AS HORIZONTAL SECTIONS. (I.E.: "PLAN AT ELEVATION 110" SHOWS CONSTRUCTION AT AND BELOW ELEVATION 110.)

4. VERIFY DIMENSIONS AND CONDITIONS BEFORE BEGINNING WORK. ADVISE ENGINEER IMMEDIATELY OF DISCREPANCIES BETWEEN EXISTING CONDITIONS AND DIMENSIONS, AND INFORMATION SHOWN ON THESE DRAWINGS. CONFIRM THE FOLLOWING BEFORE PREPARATION AND SUBMITTAL OF SHOP DRAWINGS:

   A. DIMENSIONS AND WEIGHTS FOR EQUIPMENT SELECTED.
   B. SIZES AND LOCATIONS OF EQUIPMENT PADS FOR EQUIPMENT SELECTED.

5. TYPICAL DETAILS ARE INCLUDED ON THE "TS" DRAWINGS.

   A. TYPICAL DETAILS ARE INTENDED TO APPLY AT LOCATIONS DESCRIBED BY THEIR TITLES, EVEN WHEN NOT SPECIFICALLY REFERENCED ON THE DRAWINGS.
   B. IN STRUCTURAL TYPICAL DETAILS, ORIENTATION OF BARS IN EACH MAT OF REINFORCEMENT (WHETHER "LINES" OR "DOTS"ARE CLOSER TO THE FACE OF THE CONCRETE) IS GENERALLY ARBITRARY. SEE DRAWINGS OF EACH STRUCTURE FOR ORIENTATION REQUIRED AT THAT STRUCTURE.

6. SEE CIVIL DRAWINGS FOR STRUCTURE COORDINATES. POINTS ON THE STRUCTURES TO WHICH SITE COORDINATES REFER ARE SHOWN ON THE STRUCTURAL PLANS.

7. DRAWINGS PREPARED BY OTHER DISCIPLINES INCLUDE OPENINGS, ANCHORS, PIPES, CONDUITS, AND OTHER ITEMS THAT ARE EMBEDDED INTO OR PASS THROUGH STRUCTURES.

   A. CONFIRM SIZE AND LOCATIONS OF OPENINGS, PENETRATIONS AND EMBEDMENT FOR ITEMS AND EQUIPMENT FURNISHED.
   B. IN GENERAL, OPENINGS, EMBEDMENTS, AND PENETRATIONS LESS THAN 12 INCHES IN DIAMETER ARE NOT SHOWN ON THE STRUCTURAL DRAWINGS.
   C. SEE MECHANICAL DRAWINGS FOR DETAILS OF PIPE PENETRATIONS, PIPE SUPPORTS, AND ASSOCIATED STRUCTURAL REQUIREMENTS.
   D. SEE MECHANICAL DRAWINGS FOR EQUIPMENT PADS AND PIPE SUPPORTS.

8. SEE STRUCTURAL DRAWINGS FOR LOCATIONS AND SIZES OF DOOR AND WINDOW OPENINGS.

STRUCTURAL DESIGN CRITERIA - GENERAL:

SEE DRAWINGS OF INDIVIDUAL STRUCTURES FOR SPECIFIC DESIGN CRITERIA BASED ON THESE OVERALL CRITERIA FOR THE SITE.

1. BUILDING CODE:

   A. 2022 CALIFORNIA BUILDING CODE ("CBC 2022") WITH ASCE 7-16.
   B. LOCAL AMENDMENTS: UKIAH CITY CODE.

2. STRUCTURE RISK CATEGORY: III EXCEPT FOR TANK, RISK CATEGORY IV

3. DEAD LOADS: CALCULATED FOR STRUCTURE SELF-WEIGHT.

4. LIVE LOADS: (REDUCTIONS NOT USED)

   A. FLOOR LIVE LOAD: SEE PLANS.
   B. GRATING AND CHECKERED PLATE: 100 PSF (UNO).
   C. ROOF LIVE LOAD: SEE PLANS (20 PSF MINIMUM).
   D. EQUIPMENT LOADS: SEE PLANS.
   E. CONCENTRATED AND IMPACT LOADS: SEE PLANS.

5. FLUID PRESSURE LOADS: 63 PSF/FT (UNO).

6. WIND DESIGN DATA:

   A. SPECIAL WIND REGION: NO
   B. WIND-BORNE DEBRIS REGION: NO
   C. BASIC WIND SPEED (3 SEC GUST, 33 FEET ABOVE GROUND): 110 MPH.

7. EARTHQUAKE DESIGN DATA:

   A. EARTHQUAKE DESIGN DATA FOR EACH STRUCTURE AS PER SPECIFICATIONS 01850.

8. CONSTRUCTION LOADS:

   A. STRUCTURES HAVE BEEN DESIGNED FOR OPERATING LOADS ON COMPLETED FACILITIES. UNTIL CONSTRUCTION IS COMPLETE AND MEMBERS HAVE ACHIEVED THEIR DESIGN STRENGTH, PROTECT STRUCTURES AS REQUIRED BY SHORING, BRACING, AND BALANCING.

GEOTECHNICAL REPORT / FOUNDATION DESIGN CRITERIA:

1. GEOTECHNICAL INVESTIGATION REPORT:

   TITLE: GEOTECHNICAL REPORT CITY OF UKIAH RECYCLED WATER PIPELINE PHASE 4 DESIGN PROJECT
   PREPARED BY: CRAWFORD AND ASSOCIATES.
   REPORT NO: CRAWFORD FILE NO. 19-503.1 DATED: FEBRUARY 2023.

2. FOUNDATION DESIGNS ARE BASED ON RECOMMENDATIONS IN THE GEOTECHNICAL INVESTIGATION REPORT.

   A. NET ALLOWABLE BEARING PRESSURE SEE PLANS.

   B. LATERAL EARTH PRESSURE (UNO):
   SURCHARGE: EQUIVALENT TO 2 FEET OF SOIL ABOVE FINISHED GRADE.

	STATIC	SEISMIC
ACTIVE (PSF/FT):	50	50
AT REST (PSF/FT):	65	65
SLIDING COEFFICIENT OF FRICTION:	0.3	0.3

TYPICAL STRUCTURAL MATERIALS:

1. MATERIALS SHALL CONFORM TO THE FOLLOWING REQUIREMENTS UNLESS OTHERWISE INDICATED ON THE DRAWINGS.

2. SEE PROJECT SPECIFICATIONS AND NOTES ON DRAWINGS OF SPECIFIC STRUCTURES FOR DETAILED AND LOCATION-SPECIFIC REQUIREMENTS.

REINFORCING STEEL (FOR CONCRETE AND MASONRY):

1. DEFORMED BARS:
   A. TYPICAL: ASTM A 615, GRADE 60.
   B. WHERE INDICATED ON THE DRAWINGS: ASTM A 706.
   C. ASTM A615 GRADE 80 SPIRALS FOR PILES AS INDICATED ON DRAWINGS.

2. WELDED WIRE FABRIC: ASTM A 1064.

CONCRETE:

1. NORMAL DENSITY.

2. MINIMUM SPECIFIED CONCRETE COMPRESSIVE STRENGTH, f'c (AT 28 DAYS UNO).

   A. STRUCTURES: "CLASS A"& DRILLED PIERS f'c = 4500 PSI.
   B. FILL AND THRUST BLOCKS: "CLASS C" f'c = 2500 PSI.
   C. PIPE ENCASEMENT: "CLASS A" f'c = 4500 PSI.
   D. ELECTRICAL DUCT ENCASEMENT: "CLASS CE" f'c = 3000 PSI.
   E. STORAGE POND: "CLASS A" f'c = 5000 PSI.

STRUCTURAL STEEL:

1. SECTIONS

   A. SHAPES W, WT: ASTM A 992 (Fy = 50 KSI)
   B. SHAPES S, ST, M, MT, HP, C, MC, L: ASTM A 36 (Fy = 36 KSI)
   C. PLATES AND BARS: ASTM A 36 (Fy = 36 KSI)
   D. PIPES: ASTM A 53, GRADE B (Fy = 35 KSI)
   E. HOLLOW STRUCTURAL SECTIONS:
      ROUND: ASTM A 500, GRADE B (Fy = 42 KSI)
      SQUARE AND RECTANGULAR: ASTM A 500, GRADE B (Fy = 46 KSI)

2. CONNECTIONS:

   A. BOLTS - STEEL TO STEEL:
      ASTM A 325 HIGH-STRENGTH BOLTS, WITH LOAD INDICATOR WASHERS.
   B. BOLTS - STEEL TO CONCRETE OR MASONRY:
      ANCHOR BOLTS WITH HEX FORGED HEAD.
      ASTM F 593, STAINLESS TYPE 316
      ASTM F 1554, GRADE 36 GALVANIZED.
   C. WELDS - SHIELDED METAL ARC PROCESS USING E70-XX ELECTRODES.

STAINLESS STEEL:

1. ANSI TYPE 316/316L EXCEPT WHERE TYPE 304/304L IS INDICATED ON THE DRAWINGS.

2. SECTIONS: SHAPES AND BARS: ASTM A 276.

3. BOLTED CONNECTIONS - BOLTS AND ANCHOR BOLTS:

   A. MATCH ALLOY OF THE STRUCTURAL MEMBERS CONNECTED.
   B. TYPE 316/316L: ASTM F 593, GRADE B8M, CLASS 1, HEAVY HEX.
   C. TYPE 304/304L: ASTM F 593, GRADE B8, CLASS 1, HEAVY HEX.

4. WELDED CONNECTIONS:

   A. TYPE 316L: E316L-15 ELECTRODES.
   B. TYPE 304L: E304L-15 ELECTRODES.

STRUCTURAL ALUMINUM:

1. SECTIONS

   A. SHAPES: ASTM B 308, ALLOY 6061-T6.
   B. SHEET AND PLATE: ASTM B 209, ALLOY 6061-T6.

2. BOLTED CONNECTIONS - BOLTS AND ANCHOR BOLTS:

   A. STAINLESS STEEL - TYPE 316, ASTM F 593, GRADE B8M, CLASS 1, HEAVY HEX.

3. WELDED CONNECTIONS:

   A. GAS METAL ARC (MIG) OR GAS TUNGSTEN ARC (TIG) PROCESS USING FILLER ALLOY 4043 ELECTRODES.

CONSTRUCTION:

CONFORM TO THE FOLLOWING REQUIREMENTS UNLESS OTHERWISE INDICATED ON THE DRAWINGS.

EXCAVATION AND BACKFILLING:

1. EXPOSE AND PREPARE SUBGRADE AS SHOWN ON THE DRAWINGS AND SPECIFIED. OBTAIN ENGINEER'S OBSERVATION OF SUBGRADE SURFACES, AS EXPOSED AND AS PREPARED, BEFORE PROCEEDING WITH FOUNDATION CONSTRUCTION.

2. DO NOT PLACE BACKFILL AGAINST WALLS UNTIL STRUCTURES SUPPORTING THE TOP OF THE WALL ARE IN PLACE, ARE COMPLETE, AND (IN THE CASE OF CONCRETE) HAVE CURED TO THEIR MINIMUM SPECIFIED 28-DAY COMPRESSIVE STRENGTH.

3. WHERE BACKFILL MUST BE PLACED AGAINST WALLS BEFORE STRUCTURES ABOVE ARE COMPLETE, PROVIDE BRACING FOR WALLS. KEEP BRACING IN PLACE UNTIL THE STRUCTURE ABOVE IS COMPLETE AND (IN THE CASE OF CONCRETE) HAS CURED TO ITS MINIMUM SPECIFIED 28-DAY COMPRESSIVE STRENGTH.

CONCRETE:

1. SEE S101/TYP FOR CONCRETE NOTES, INCLUDING CLEAR COVER AND LAP SPLICE LENGTH REQUIREMENTS FOR REINFORCING.

2. SUBMIT LOCATIONS OF CONSTRUCTION JOINTS NOT SHOWN ON THE DRAWINGS FOR ACCEPTANCE BY THE ENGINEER BEFORE FORM LAYOUT.

3. PROVIDE CHAMFER AT EXPOSED EDGES OF CAST-IN-PLACE CONCRETE. SEE SPECIFICATION 03102 FOR CHAMFERS.

4. PROVIDE REINFORCING:

   A. AT CORNERS AND JUNCTIONS - AS INDICATED IN S144/TYP, SUPPLEMENT WITH ADDED BARS WHERE INDICATED ON THE DRAWINGS.
   B. AT OPENINGS - AS INDICATED IN S180/TYP.

5. WELDING OF REINFORCING IS NOT PERMITTED UNLESS DETAILED ON THE DRAWINGS OR ACCEPTED IN ADVANCE BY THE ENGINEER.

6. MAINTAIN MINIMUM 3 INCHES CLEAR CONCRETE COVER BETWEEN REINFORCING AND EMBEDMENTS.

7. FINISH CONCRETE AS SPECIFIED IN SECTION 03366.

8. CONCRETE PADS

   A. (E) EQUIPMENT PAD SEE S302/TYP.

   B. (HK) HOUSEKEEPING PAD FOR ELECTRICAL EQUIPMENT SEE S350/TYP.

MASONRY:

1. SEE S400/TYP FOR MASONRY NOTES, INCLUDING LAP SPLICE LENGTHS.

2. PROVIDE REINFORCING:

   A. AT CORNERS AND JUNCTIONS AS INDICATED IN S412/TYP.
   B. AT OPENINGS AS INDICATED IN S410/TYP.

3. WELDING OF REINFORCING IS NOT PERMITTED UNLESS DETAILED ON THE DRAWINGS OR ACCEPTED IN ADVANCE BY THE ENGINEER.

4. GROUTING:

   A. FULLY GROUTED.

STEEL, STAINLESS STEEL, AND ALUMINUM - CONNECTIONS:

1. BOLTED:

   A. MADE USING 3/4-INCH DIAMETER BOLTS.
   B. HAVING A MINIMUM OF 2 BOLTS, SPACED NOT CLOSER THAN 3 INCHES ON CENTER.
   C. WITH A DISTANCE OF AT LEAST 1 1/2 INCHES FROM CENTER OF BOLT TO ANY EDGE OF A PLATE OR STRUCTURAL ELEMENT.

2. WELDED:

   A. FILLET WELDS: PER AWS CODE BASED ON THE THICKNESS OF THE MATERIALS BEING JOINED, AND FULL LENGTH OF THE JOINT.

3. INTERFACE BETWEEN MATERIALS:

   A. AT BOLTED CONNECTIONS THAT INCLUDE DIFFERENT METALS (E.G.: STEEL AND STAINLESS STEEL, OR ALUMINUM AND STEEL) PROVIDE ISOLATING SLEEVES AND WASHERS AS SPECIFIED IN SECTION 05190.
   B. WHERE ALUMINUM IS IN CONTACT WITH MASONRY OR CONCRETE, COAT ALUMINUM SURFACES AS SPECIFIED IN SECTION 09960.

4. POST-INSTALLED ANCHORS IN CONCRETE AND MASONRY:

   A. INSTALL IN FULL COMPLIANCE WITH ACCEPTED BUILDING CODE EVALUATION REPORT AND MANUFACTURER'S INSTRUCTIONS.
   B. DO NOT CUT, DAMAGE, OR INTERRUPT EXISTING REINFORCEMENT TO INSTALL ANCHORS. USE NON-DESTRUCTIVE TESTING EQUIPMENT TO IDENTIFY LOCATIONS OF REINFORCEMENT IN MEMBERS BEFORE DRILLING HOLES FOR ANCHORS.

METAL FABRICATIONS:

1. HANDRAILS AND GUARDRAILS:

   A. ALUMINUM, EXCEPT WHERE OTHER MATERIALS ARE NOTED.

2. GRATING:

   A. ALUMINUM WITH TYPE 316 STAINLESS STEEL FASTENERS, UNLESS OTHERWISE NOTED.
   B. GRATING AND ITS SEATS OR SUPPORTS SHALL BE OF THE SAME MATERIAL.
   C. UNLESS INDICATED ON THE DRAWINGS AS "REMOVABLE GRATING", SECURELY FASTEN GRATING TO SUPPORTS AS INDICATED IN S559/TYP.

3. COVER PLATES:

   A. ALUMINUM WITH TYPE 316 STAINLESS STEEL FASTENERS, UNLESS OTHERWISE NOTED.
   B. COVER PLATE AND ITS SEATS OR SUPPORTS SHALL BE OF THE SAME MATERIAL.

SPECIAL INSPECTION

1. SPECIAL INSPECTION IS REQUIRED FOR THE FOLLOWING STRUCTURAL MATERIALS AND CONSTRUCTION. SEE SPECIFICATION SECTION 01455 FOR DETAILS.

2. DIVISION 2 SITE CONSTRUCTION (EARTHWORK)

   A. EXCAVATION DEPTH.
   B. ADEQUACY OF EXPOSED SURFACE TO PROVIDE REQUIRED SUPPORT.
   C. PREPARATION OF SOILS/SURFACES SUPPORTING CONSTRUCTION.
   D. FILL AND BACKFILL.

3. DIVISION 3 CONCRETE:

   A. LOCATIONS.
   B. FORMWORK AND MEMBER SIZES.
   C. REINFORCING STEEL.
   D. ANCHORS: CAST-IN AND POST-INSTALLED.
   E. CONCRETE MIX AND PLACEMENT.
   F. PROTECTION AND CURING PROCEDURES.

4. DIVISION 4 MASONRY

   A. LOCATIONS.
   B. MEMBER SIZES.
   C. REINFORCING STEEL.
   D. ANCHORS: BUILT-IN AND POST-INSTALLED.
   E. MORTAR AND JOINTS.
   F. GROUT AND GROUTING.
   G. PROTECTION AND CURING PROCEDURES.

5. DIVISION 5 METALS

   A. GENERAL ALL METALS:
      1) MEMBER LOCATIONS.
      2) MEMBER SIZES/TYPES.
      3) ANCHORS - CAST-IN AND BUILT-IN ANCHOR BOLTS.
      4) ANCHORS - POST-INSTALLED MECHANICAL AND ADHESIVE.

   B. STRUCTURAL STEEL (CARBON AND STAINLESS).
      1) HIGH-STRENGTH BOLTING.
      2) WELDING.

   C. STRUCTURAL ALUMINUM.
      1) BOLTING.
      2) WELDING.

STRUCTURAL OBSERVATION:

1. STRUCTURAL OBSERVATION IS REQUIRED DURING AND AT SPECIFIC STAGES OF CONSTRUCTION WHILE CORRECTIONS CAN BE MADE.

2. ALL STRUCTURAL IN ALL AREAS:

   A. FOUNDATIONS
      1. AFTER REINFORCING STEEL AND STRUCTURAL EMBEDS ARE IN PLACE, BUT PRIOR TO CASTING OF CONCRETE.
   B. CONCRETE WALLS
      1. AFTER REINFORCING STEEL AND STRUCTURAL EMBEDS ARE IN PLACE, BUT PRIOR TO CASTING OF CONCRETE.
   C. ELEVATED SLABS
      1. AFTER REINFORCING STEEL AND STRUCTURAL EMBEDS ARE IN PLACE, BUT PRIOR TO CASTING OF CONCRETE.

STRUCTURAL SYMBOLS:

1. SEE DRAWING 00G03 FOR KEY TO DRAWING TITLES AND SECTION CUTS, AND FOR DEFINITION OF MATERIALS SHADING PATTERNS.

2. WELDING: SYMBOLS: IN ACCORDANCE WITH AMERICAN WELDING SOCIETY (AWS) A2.4.

STRUCTURAL ABBREVIATIONS:

1. SEE DRAWING 00G03 FOR GENERAL LIST OF ABBREVIATIONS USED ON DRAWINGS.

2. ABBREVIATIONS FOR NAMES OF TECHNICAL GROUPS MAY BE FOUND IN THE PROJECT SPECIFICATIONS.

3. STRUCTURAL MEMBERS:

A. STEEL: ABBREVIATIONS AND DESIGNATIONS ARE IN ACCORDANCE WITH THE AMERICAN INSTITUTE OF STEEL CONSTRUCTION'S STEEL CONSTRUCTION MANUAL, CURRENT EDITION.

B. ALUMINUM: ABBREVIATIONS AND DESIGNATIONS ARE IN ACCORDANCE WITH THE ALUMINUM ASSOCIATION'S ALUMINUM DESIGN MANUAL, CURRENT EDITION.

4. ABBREVIATIONS FOR STRUCTURAL DRAWINGS:
   WHEN USED ON THE STRUCTURAL DRAWINGS, THE FOLLOWING ABBREVIATIONS HAVE THE MEANINGS LISTED.

REINFORCEMENT:		OTHER:	
BO	BOTTOM OF	L	ANGLE
EF	EACH FACE	PL	PLATE
I.F.	INSIDE FACE		
O.F.	OUTSIDE FACE		
T.O.	TOP OF		
#	NUMBER (REINFORCING BAR SIZE)		

DEFERRED DESIGN SUBMITTALS

AS DEFINED IN THE BUILDING CODE, DEFERRED DESIGN SUBMITTALS ARE PORTIONS OF THE DESIGN THAT ARE NOT SUBMITTED AT THE TIME OF PERMIT APPLICATION, AND THAT ARE TO BE REVIEWED BY THE REGISTERED DESIGN PROFESSIONAL AND SUBSEQUENTLY SUBMITTED TO THE BUILDING OFFICIAL.

DEFERRED DESIGN SUBMITTALS FOR THIS PROJECT INCLUDE:

1. DIVISION 5 METALS.

   A. 05500 TRASH RACK GRATING.

GENERAL NOTES:

1. FOR GENERAL STRUCTURAL NOTES, REFER TO DRAWING 00S01.
2. REFER TO SHEET 99M02 FOR PUMP DETAILS AND LOCATION.

KEY NOTES:

1. CONTRACTOR TO COORDINATE HEIGHT OF THE CURB WALL WITH PUMP MANUFACTURER. MAX HEIGHT OF THE CURB WALL IS 2'-0".
2. CONTRACTOR TO COORDINATE SIZE OF THE OPENING WITH MECHANICAL.
3. END REBAR WITH STD HOOK.
4. VERIFY DIMENSIONS WITH MANUFACTURER.

NOTES

1. SIZES OF EQUIPMENT PADS INDICATED ON THE DRAWINGS ARE APPROXIMATE. EXACT DIMENSIONS SHALL BE DETERMINED BY THE CONTRACTOR FOR THE EQUIPMENT FURNISHED. ALL FLOOR MOUNTED EQUIPMENT SHALL BE SET ON CONCRETE PADS CONFORMING TO DETAILS SHOWN ON THE TYPICAL STRUCTURAL DRAWINGS.
2. DIELECTRIC COUPLINGS, FLANGES OR UNIONS SHALL BE INSTALLED AT ALL CONNECTIONS OF COPPER PIPE TO OTHER TYPES OF METALLIC PIPING.
3. HVAC PIPING AND DUCTWORK DRAWINGS DO NOT SHOW ALL DRAINS, VENTS, OFFSETS AND FITTINGS ETC. REQUIRED FOR THE COMPLETE SYSTEM. SMALL PIPING IS SHOWN APPROXIMATELY TO SCALE BUT NOT EVERY FITTING AND OFFSET IS SHOWN. THE CONTRACTOR SHALL FURNISH, INSTALL AND TEST ALL HVAC SYSTEMS TO PROVIDE THE COMPLETE SYSTEM.
4. UNLESS OTHERWISE SHOWN ON THE DRAWINGS ALL FLOOR SLAB AND WALL PENETRATIONS SHALL BE AS SHOWN ON THE TYPICAL DETAILS.
5. NOT ALL AND ONLY CERTAIN TYPES OF SUPPORTS ARE SHOWN ON THE HVAC DRAWINGS. UNLESS OTHERWISE DETAILED ON THE DRAWINGS ALL PIPE AND DUCT SUPPORTS SHALL BE DESIGNED, FURNISHED AND INSTALLED BY THE CONTRACTOR AS SPECIFIED.
6. THIS IS A GENERAL LIST OF SYMBOLS. NOT ALL ITEMS SHOWN HERE APPEAR ON CONTRACT DRAWINGS.
7. TYPICAL DETAILS SHALL BE USED FOR ALL PERMANENT WORK EVEN THOUGH THEY ARE NOT CALLED OUT AT ALL LOCATIONS WHERE THEY APPLY.
8. COORDINATE FINAL LOUVER SIZE AND LOCATION WITH ARCHITECTURAL AND STRUCTURAL DRAWINGS.
9. PROVIDE TURNING VANES IN ALL ELBOWS. (SHOWN OR NOT)

GENERAL NOTES:

1. CONTRACTOR SHALL PROVIDE NEW NUTS, BOLTS, AND GASKETS FOR ALL CONNECTIONS, INCLUDING REINSTALLATION OF ANY EXISTING PIPING COMPONENTS. DO NOT REUSE THE OLD NUTS, BOLTS, AND GASKETS.
2. CONTRACTOR SHALL COORDINATE WITH THE CITY, THE LOCATION, AND ORIENTATION OF VALVES AND VALVE ACTUATORS.
3. SEE CIVIL DRAWINGS FOR YARD PIPING CONTINUATION.

KEY NOTES:

1. EXISTING VALVE ABANDONED IN PLACE.
2. VALVE IS 20 +/- FT DEEP. REFER TO SPECIFICATION SECTION 15112 AND SPECIFICATION SECTION 13447.
3. AREA IS A DIAGRAMMATIC VIEW OF PAD EAST OF DECHLORINATION STRUCTURE. CONTRACTOR TO FIELD VERIFY AREA.
4. REPLACE CHLORINE ANALYZER 4 PER SPECIFICATION SECTION 17505. THE EXISTING ENCLOSURE IS TO REMAIN IN USE. PROTECT EXISTING ENCLOSURE IN PLACE. REFER TO ELECTRICAL (60E01) AND INSTRUMENTATION (60N01) DRAWINGS FOR ADDITIONAL INFORMATION.
5. SAMPLE PUMP 5 IS A SUBMERSIBLE PUMP THAT IS USED FOR DECHLORINATED SAMPLES. PUMP SENDS FLOW TO A THREE-WAY AUTOMATED ACTUATION VALVE.
6. SAMPLE PUMP 4 IS A ROTARY PUMP THAT IS USED FOR CHLORINATED SAMPLES. PUMP SENDS FLOW TO A THREE-WAY AUTOMATED ACTUATION VALVE.
7. EXISTING CONCRETE PAD. CONTRACTOR TO FIELD VERIFY DIMENSIONS.
8. TIE INTO EXISTING THREE-WAY VALVE.
9. CONTRACTOR SHALL PROVIDE A DRAIN CONFIGURATION THAT MATCHES THE EXISTING CONFIGURATION.

KEY TAGS:

DRAWING NO. 85M01
SHEET NO. 75 OF 200

A **PLAN**
SCALE: 3/16"=1'-0"
FILE: 8660F1085M0101

GENERAL NOTES:

1. BACKGROUND IS BASED ON THE 1994 RECORD DRAWINGS. CONTRACTOR TO FIELD VERIFY EXISTING DIMENSIONS.
2. CONTRACTOR SHALL PROVIDE NEW NUTS, BOLTS, AND GASKESTS FOR ALL CONNECTIONS, INCLUDING REINSTALLATION OF ANY EXISTING PIPING COMPONENTS. DO NOT REUSE THE OLD NUTS, BOLTS, AND GASKETS.
3. CONTRACTOR SHALL COORDINATE WITH THE CITY THE LOCATION AND ORIENTATION OF VALVES AND VALVE ACTUATORS.
4. SEE CIVIL DRAWINGS FOR YARD PIPING CONTINUATION.
5. REFER TO SPECIFICATION SECTION 11802 FOR WORK ON THE FOUR AWT CLARIFIER/FILTER UNITS.

KEY NOTES:

1. PROVIDE BUTTERFLY VALVE PER SPECIFICATION SECTION 15112 AND ACTUATORS PER SPECIFICATION SECTION 13447.
2. REPLACE FILTER MEDIA AND FILTER GRAVEL SUPPORT.
3. REPLACE ADSORPTION CLARIFIER MEDIA.
4. REPLACE EXISTING PNEUMATIC WASTE GATE ACTUATOR ON EACH AWT CLARIFIER/FILTER UNIT WITH A LINEAR ACTUATOR. REFER TO PHOTO 6/85D03. OTHER WASTE GATES NOT SHOWN FOR CLARITY.
5. CONTRACTOR TO FULLY RECOAT THE CLARIFIER/FILTER TANKS PER SPECIFICATION SECTION 09960 DURING THE MEDIA REPLACEMENT PROCESS.
6. ABANDON LINE IN PLACE. REFER TO 85D01 AND 85D02.
7. PROVIDE A TEE TO TIE INTO THE EXISTING AERATION AIR LINE. REFER TO PHOTO 6/85D03 FOR THE TIE-IN LOCATION.
8. PROVIDE A COAGULANT PUMP PER SEPCIFICATION SECTION 11242. REFER TO PHOTO 4/85D03 FOR THE PUMP THAT WILL BE REPLACED.
9. PROVIDE A RAPID MIX PUMP PER SPECIFICATION SPECIFICATION SECTION 11242.
10. BLIND FLANGE TEE ONCE EXISTING 6-INCH PIPING HAS BEEN REMOVED. REFER TO 85D01 AND SPECIFICATION SECTION 01140.
11. PENETRATE WALL AS REQUIRED FOR NEW 8-INCH AIR PIPING.
12. REINSTALL EXISTING VENTURI FLOW METER.

CU-99422	ELECTRICAL BUILDING	-	211	95	-	-	-	-	-	208	1	25	MITSUBISHI TRUYA042	5, 6

NOTES:

1 SIDE SUPPLY/BOTTOM RETURN CONNECTION
2 PROVIDE 24 VOLT CONTROL VOLTAGE.
3 WIRED THERMOSTAT PROVIDED BY MANUFACTURER.
4 PROVIDE CONDENSING UNIT SIZED PER AIR HANDLER MANUFACTURER TO PROVIDE COOLING REQUIREMENTS AS INDICATED FOR ASSOCIATED AIR HANDLER.
5 CONTROL SYSTEM SPECIFIED IN SECTION 23_09_13 - INSTRUMENTATION AND CONTROL DEVICES FOR HVAC.
6 FLOOR/GRADE MOUNTED MINI SPLIT SYSTEM CONDENSER.

GENERAL NOTES:

1. MOUNT THERMOSTATS AT 48" AFF AND LABEL WITH ITS CONTROLLING DEVICE.
2. REFRIGERANT AND CONDENSATE DRAIN PIPING SHALL NOT BE ROUTED ABOVE ELECTRICAL EQUIPMENT. REFRIGERANT PIPING SHALL BE INSULATED PER SPECIFICATION 15000.
3. PIPE SUPPORTS SHALL BE INSTALLED PER DETAIL MP132/TYP, MP218/TYP, AND MP215/TYP. INSTALL WALL PENETRATIONS PER DETAIL MP302/TYP.

KEY NOTES:

1 MINI-SPLIT FAN COIL UNIT SUSPENDED FROM CEILING. BOTTOM OF UNIT AT 10'-0 AFF.
2 OUTDOOR CONDENSER UNIT. MOUNT UNIT ON EQUIPMENT PAD PER S300/TYP.
3 1" SCHEDULE 40 PVC CONDENSATE DRAIN ROUTED TO 18" DRYWELL. SLOPE LINES AT A MINIMUM OF 2% SLOPE.
4 ROUTE REFRIGERANT LINES DOWN INTERIOR SIDE OF WALL.

GENERAL NOTES:

1. EXISTING UNDERGROUND DUCT BANK AND CONDUIT ROUTING MAY NOT REFLECT ACTUAL FIELD CONDITION. CONTRACTOR SHALL VERIFY BEFORE EXCAVATION FOR NEW INSTALLATION.

(#) KEY NOTES:

1. AFTER EXISTING 12KV CONDUCTORS BETWEEN TRANSFORMER TRF-3E AND PEDESTAL PD-983 ARE REMOVED BY COUED, DEMOLISH EXISTING UNDERGROUND 12KV CONDUITS WHERE NEEDED TO ACCOMMODATE CONSTRUCTION OF NEW STRUCTURES OR UNDERGROUND EQUIPEMENT.
2. INSTALL UNDERGROUND 12KV CONDUITS ACCORDING TO TRENCH SECTION. NEW 12KV ROUTING PROVIDED HERE IS APPROXIMATE. CONTRACTOR SHALL MEET ON SITE AND COORDINATE EXACT UNDERGROUND 12KV CONDUIT ROUTING WITH CITY OF UKIAH ELECTRIC DEPARTMENT (COUED).
3. CONTRACTOR TO PROVIDE MV VAULT ACCORDING TO CITY OF UKIAH ELECTRIC DEPARTMENT (COUED) MV VAULT CONSTRUCTION DETAIL. REFER TO SPECIFICATION SETCTION 16210 FOR UTILITY CONSTRUCTION DETAILS. COORDINATE THE EXACT VAULT LOCATION WITH COUED.
4. INSTALL CONDUITS ADJACENT TO HAND RAILS ACCORDING TO TYPICAL DETAIL EM104/TYP.
5. INSTALL CONDUITS UNDERGROUND ACCORDING TO TYPICAL DETAIL EM015/TYP.

Project Name:	Ukiah WTP - 2023	Report Page: (Page 1 of 8)
Project Address:		Date Prepared: 2023-03-22T19:54:39-04:00

A. GENERAL INFORMATION

01	Project Location (city)	935 River St, Ukiah, CA	04	Total Illuminated Hardscape Area (ft²)	12500
02	Climate Zone	2			
03	Outdoor Lighting Zone per Title 24 Part 1 10.114 or as designated by Authority Having Jurisdiction (AHJ):				
☐	LZ-0: Very Low - Undeveloped Parkland	☐ LZ-2: Moderate - Urban Clusters	☐	LZ-4: High - Must be reviewed by CA Energy Commission for Approval	
☐	LZ-1: Low - Rural Areas	☒ LZ-3: Moderately High - Urban Areas			
05	Occupancy Types within Project				
•	All Other Occupancies				

B. PROJECT SCOPE

This table includes outdoor lighting systems that are within the scope of the permit application and are demonstrating compliance using the prescriptive path outlined in 140.7 / 170.2(e)6 or 141.0(b)2l, / 180.2(b)4ibv for alterations.

My Project Consists of:

01	02
☒ New Lighting System	Must Comply with Allowances from 140.7 / 170.2(e)6
☐ Altered Lighting System	Is your alteration increasing the connected lighting load (Watts)? ○ Yes ○ No

03	04	05
% of Existing Luminaires Being Altered[1]	Sum Total of Luminaires Being Added or Altered	Calculation Method
☐ < 10% ☐ >= 10% and < 50% ☐ >= 50%		

Please proceed to Table F, Outdoor Lighting Fixture Schedule to define the project's luminaires.

[1] *FOOTNOTES: % of Existing Luminaires Being Altered = (Sum Total of Luminaires Being Added or Altered / Existing Luminaires within the Scope of the Permit Application) x 100.*

F. OUTDOOR LIGHTING FIXTURE SCHEDULE

For new or altered lighting systems demonstrating compliance with 140.7 / 170.2(e)6 all new luminaires being installed and any existing luminaires remaining or being moved within the spaces covered by the permit application are included in the Table below. For altered lighting systems using the Existing Power method per 141.0(b)2L only new luminaires being installed and replacement luminaires being installed as part of the project scope are included (ie, existing luminaires remaining or existing luminaires being moved are not included). Outdoor lighting attached to multifamily buildings and controlled from the inside of a dwelling unit are included in Table H. and are not included here. All other multifamily outdoor lighting is included here.

Designed Wattage:

01	02		03	04	05	06	07	08	09	10	
Name or Item Tag	Complete Luminaire Description		Watts per luminaire[1, 2]	How is Wattage determined	Total Number Luminaires[2]	Luminaire Status[3]	Excluded per 140.7(a) / 170.2(e)6A	Design Watts	Cutoff Req. > 6,200 initial lumen output - 130.2(b) / 160.5(c)1[4]	Field Inspector	
										Pass	Fail
A	AMERICAN ELECTRIC LIGHTING - ATBM P10	☐ Linear	85	Mfr. Spec	6	New	☐	510	Provided	☐	☐
							Total Design Watts:	510			

* NOTES: Selections with a * require a note in the space below explaining how compliance is achieved.
EX: Luminaire is lighting a statue; EXCEPTION 2 to 130.2(b)

[1] *FOOTNOTES: Authority Having Jurisdiction may ask for Luminaire cut sheets to confirm wattage used for compliance per 130.0(c) / 160.5(b)*
[2] *For linear luminaires, wattage should be indicated as W/ft instead of Watts/luminaire. Total linear feet should be indicated in column 05 instead of number of luminaires.*
[3] *Select "New" for new luminaires in a new outdoor lighting project, or for added luminaires in an alteration. Select "Altered" for replacement luminaires in an alteration. Select "Existing to Remain" for existing luminaires within the project scope that are not being altered and are remaining. Select "Existing Reinstalled" for existing luminaires which are being removed and reinstalled as part of the project scope.*
[4] *Compliance with mandatory shielding requirements is required for luminaires with initial lumen output >= 6,200 unless exempted by 130.2(b)/ 160.5(c)*

H. OUTDOOR LIGHTING CONTROLS

This table demonstrates compliance with controls requirements for all new or altered luminaires installed as part of the permit application. For alteration projects, luminaires which are existing to remain (ie untouched) and luminaires which are removed and reinstalled (wiring only) do not need to be included in this table even if they are within the spaces covered by the permit application.
Outdoor lighting for nonresidential buildings, parking garages and common service areas in multifamily buildings must be documented separately from outdoor lighting attached to multifamily buildings and controlled from the inside of a dwelling unit

Mandatory Controls for Nonresidential Occupancies, Parking Garages & Common Areas in Multifamily Buildings

01	02	03	04	05	
Area Description	Shut-Off 130.2(c)1 / 160.5(c)	Auto-Schedule 130.2(c)2 / 160.5(c)	Motion Sensor 130.2(c)3 / 160.5(c)	Field Inspector	
				Pass	Fail
Pump Station and Recycled Water Storage: "A"	Astronomical Timer	NA: Not permitted by H&LS	NA: Industrial Sites Lighting	☐	☐

[1] *FOOTNOTE: Text has been abbreviated, please refer to Table 160.5-A to confirm compliance with the specific light source technologies listed.*
[2] *Authority having jurisdiction may ask for cutsheets or other documentation to confirm compliance of light source.*
[3] *Recessed luminaires marked for use in fire-rated installations, and recessed luminaires installed in non-insulated ceilings are excepted from ii and iii.*

I. LIGHTING POWER ALLOWANCE (per 140.7 / 170.2(e))

This table includes areas using allowance calculations per 140.7 / 170.2(e). General Hardscape Allowance is per Table 140.7-A/Table 170.2-K while "Use it or lose it" Allowances are per Table 140.7-B /Table 170.2-S. Indicate which allowances are being used to expand sections for user input. Luminaires that qualify for one of the "Use it or lose it" allowances shall not qualify for another "Use it or lose it" allowance.
Outdoor lighting attached to multifamily buildings and controlled from the inside of a dwelling unit are included in Table H. and are not included here. All other multifamily outdoor lighting is included here.

RESPONSIBLE PERSON'S DECLARATION STATEMENT

I certify the following under penalty of perjury, under the laws of the State of California:

1. The information provided on this Certificate of Compliance is true and correct.
2. I am eligible under Division 3 of the Business and Professions Code to accept responsibility for the building design or system design identified on this Certificate of Compliance (responsible designer)
3. The energy features and performance specifications, materials, components, and manufactured devices for the building design or system design identified on this Certificate of Compliance conform to the requirements of Title 24, Part 1 and Part 6 of the California Code of Regulations.
4. The building design features or system design features identified on this Certificate of Compliance are consistent with the information provided on other applicable compliance documents, worksheets, calculations, plans and specifications submitted to the enforcement agency for approval with this building permit application.
5. I will ensure that a completed signed copy of this Certificate of Compliance shall be made available with the building permit(s) issued for the building, and made available to the enforcement agency for all applicable inspections. I understand that a completed signed copy of this Certificate of Compliance is required to be included with the documentation the builder provides to the building owner at occupancy.

CERTIFICATE OF COMPLIANCE			NRCC-LTI-E
Project Name:	Ukiah WTP - 2023	Report Page:	(Page 1 of 8)
Project Address:		Date Prepared:	2023-03-22T19:33:49-04:00

This document is used to demonstrate compliance with requirements in 110.9, 110.12(c), 130.0, 130.1, 140.6 and 141.0(b)2 for indoor lighting scopes using the prescriptive path for nonresidential and hotel/motel occupancies. It is also used to document compliance with requirements in 160.5, 170.2(e) and 180.2(b)4 for indoor lighting scopes using the prescriptive path for multifamily occupancies. Multifamily includes dormitory and senior living facilities.

A. GENERAL INFORMATION

F. INDOOR LIGHTING FIXTURE SCHEDULE

This table includes all planned permanent and portable lighting other than dwelling unit/ hotel/ motel room lighting. Multifamily dwelling unit and hotel/motel room lighting is documented in Table T. If using Table T to document lighting in multifamily common use areas providing shared provisions for living, eating, cooking or sanitation, those luminaires are not included here.

Designed Wattage: Conditioned Spaces

01	02	03	04	05	06	07	08	09	10	
Name or Item Tag	Complete Luminaire Description	Modular (Track) Fixture	Small Aperture & Color Change[1]	Watts per luminaire[2]	How is Wattage determined	Total Number of Luminaires	Excluded per 140.6(a)3 / 170.2(e)2C	Design Watts	Field Inspector	
									Pass	Fail
B	HOLOPHANE , EVT4 6000LM PCL	No	NA	71	Mfr. Spec	3	No	213	☐	☐
					Total Designed Watts: CONDITIONED SPACES			213		

[1]FOOTNOTE: Design Watts for small aperture and color changing luminaires which qualify per 140.6(a)4B / 170.2(e)2D is adjusted to be 75% /80% of their rated wattage. Table F automatically makes this adjustment, the permit applicant should enter full rated wattage in column 05.

[2]Authority Having Jurisdiction may ask for Luminaire cut sheets to confirm wattage used for compliance per 130.0(c) / 160.5(b). Wattage used must be the maximum rated for the luminaire, not the lamp.

G. MODULAR LIGHTING SYSTEMS

This section does not apply to this project.

H. INDOOR LIGHTING CONTROLS (Not including PAFs)

This table includes lighting controls for conditioned and unconditioned spaces.

STATE OF CALIFORNIA
Outdoor Lighting CALIFORNIA ENERGY COMMISSION

CERTIFICATE OF COMPLIANCE		NRCC-LTO-E
Project Name:	Ukiah WWTP - 2023	Report Page: (Page 1 of 7)
Project Address:		Date Prepared: 2023-03-22T19:27:20-04:00

This document is used to demonstrate compliance with requirements in 110.9, 130.0, 130.2, 140.7, and 141.0(b)2I, for outdoor lighting scopes using the prescriptive path for nonresidential and hotel/motel occupancies. It is also used to document compliance with requirements in 160.5, 170.2(e)6, 180.1(a) and 180.2(b)4iv for outdoor lighting scopes using the prescriptive path for multifamily and mixed-use occupancies. Multifamily includes dormitory and senior living facilities.

A. GENERAL INFORMATION

01	Project Location (city)	300 Plant Rd, Ukiah, CA	04	Total Illuminated Hardscape Area (ft²) 8431
02	Climate Zone	2		
03	Outdoor Lighting Zone per Title 24 Part 1 10.114 or as designated by Authority Having Jurisdiction (AHJ):			
☐	LZ-0: Very Low - Undeveloped Parkland	☐ LZ-2: Moderate - Urban Clusters	☐	LZ-4: High - Must be reviewed by CA Energy Commission for Approval
☐	LZ-1: Low - Rural Areas	☒ LZ-3: Moderately High - Urban Areas		
05	Occupancy Types within Project			
• All Other Occupancies				

B. PROJECT SCOPE

This table includes outdoor lighting systems that are within the scope of the permit application and are demonstrating compliance using the prescriptive path outlined in 140.7 / 170.2(e)6 or 141.0(b)2I. / 180.2(b)4iBv for alterations.

My Project Consists of:

01	02		
☒ New Lighting System	Must Comply with Allowances from 140.7 / 170.2(e)6		
☐ Altered Lighting System	Is your alteration increasing the connected lighting load (Watts)?	○ Yes	○ No
03	04	05	
% of Existing Luminaires Being Altered[1]	Sum Total of Luminaires Being Added or Altered	Calculation Method	
☐ < 10% ☐ >= 10% and < 50% ☐ >= 50%			

Please proceed to Table F. Outdoor Lighting Fixture Schedule to define the project's luminaires.

[1] *FOOTNOTES: % of Existing Luminaires Being Altered = (Sum Total of Luminaires Being Added or Altered / Existing Luminaires within the Scope of the Permit Application) x 100.*

F. OUTDOOR LIGHTING FIXTURE SCHEDULE

For new or altered lighting systems demonstrating compliance with 140.7 / 170.2(e)6 all new luminaires being installed and any existing luminaires remaining or being moved within the spaces covered by the permit application are included in the Table below. For altered lighting systems using the Existing Power method per 141.0(b)2L only new luminaires being installed and replacement luminaires being installed as part of the project scope are included (ie, existing luminaires remaining or existing luminaires being moved are not included). Outdoor lighting attached to multifamily buildings and controlled from the inside of a dwelling unit are included in Table H. and are not included here. All other multifamily outdoor lighting is included here.

Designed Wattage:

01	02		03	04	05	06	07	08	09	10	
Name or Item Tag	Complete Luminaire Description		Watts per luminaire[1, 2]	How is Wattage determined	Total Number Luminaires[2]	Luminaire Status[3]	Excluded per 140.7(a) / 170.2(e)6iA	Design Watts	Cutoff Req. > 6,200 initial lumen output - 130.2(b) / 160.5(c)1[4]	Field Inspector	
										Pass	Fail
A	AMERICAN ELECTRIC LIGHTING - ATBM P10	☐ Linear	85	Mfr. Spec	4	New	☒	---	Provided	☐	☐
							Total Design Watts:	0			

* NOTES: Selections with a * require a note in the space below explaining how compliance is achieved.
EX: Luminaire is lighting a statue; EXCEPTION 2 to 130.2(b)

[1] *FOOTNOTES: Authority Having Jurisdiction may ask for Luminaire cut sheets to confirm wattage used for compliance per 130.0(c) / 160.5(b)*
[2] *For linear luminaires, wattage should be indicated as W/ft instead of Watts/luminaire. Total linear feet should be indicated in column 05 instead of number of luminaires.*
[3] *Select "New" for new luminaires in a new outdoor lighting project, or for added luminaires in an alteration. Select "Altered" for replacement luminaires in an alteration. Select "Existing to Remain" for existing luminaires within the project scope that are not being altered and are remaining. Select "Existing Reinstalled" for existing luminaires which are being removed and reinstalled as part of the project scope.*
[4] *Compliance with mandatory shielding requirements is required for luminaires with initial lumen output >= 6,200 unless exempted by 130.2(b)/ 160.5(c)*

G. SHIELDING REQUIREMENTS (BUG)

This section does not apply to this project.

H. OUTDOOR LIGHTING CONTROLS

This table demonstrates compliance with controls requirements for all new or altered luminaires installed as part of the permit application. For alteration projects, luminaires which are existing to remain (ie untouched) and luminaires which are removed and reinstalled (wiring only) do not need to be included in this table even if they are within the spaces covered by the permit application.
Outdoor lighting for nonresidential buildings, parking garages and common service areas in multifamily buildings must be documented separately from outdoor lighting attached to multifamily buildings and controlled from the inside of a dwelling unit

Mandatory Controls for Nonresidential Occupancies, Parking Garages & Common Areas in Multifamily Buildings

01	02	03	04	05	
Area Description	Shut-Off 130.2(c)1 / 160.5(c)	Auto-Schedule 130.2(c)2 / 160.5(c)	Motion Sensor 130.2(c)3 / 160.5(c)	Field Inspector	
				Pass	Fail

I. LIGHTING POWER ALLOWANCE (per 140.7 / 170.2(e))

This table includes areas using allowance calculations per 140.7 / 170.2(e). General Hardscape Allowance is per Table 140.7-A/Table 170.2-R while "Use it or lose it" Allowances are per Table 140.7-B /Table 170.2-S. Indicate which allowances are being used to expand sections for user input. Luminaires that qualify for one of the "Use it or lose it" allowances shall not qualify for another "Use it or lose it" allowance. Outdoor lighting attached to multifamily buildings and controlled from the inside of a dwelling unit are included in Table H. and are not included here. All other multifamily outdoor lighting is included here.

DOCUMENTATION AUTHOR'S DECLARATION STATEMENT

I certify that this Certificate of Compliance documentation is accurate and complete.

Documentation Author Name: Hadi Rismanchi	Documentation Author Signature:
Company: Carollo Engineers	Signature Date: March 22, 2023
Address: 2795 Mitchell Drive	CEA/ HERS Certification Identification (if applicable):
City/State/Zip: Walnut Creek, CA 94598	Phone: 925-977-3152

RESPONSIBLE PERSON'S DECLARATION STATEMENT

I certify the following under penalty of perjury, under the laws of the State of California:

1. The information provided on this Certificate of Compliance is true and correct.
2. I am eligible under Division 3 of the Business and Professions Code to accept responsibility for the building design or system design identified on this Certificate of Compliance (responsible designer)
3. The energy features and performance specifications, materials, components, and manufactured devices for the building design or system design identified on this Certificate of Compliance conform to the requirements of Title 24, Part 1 and Part 6 of the California Code of Regulations.
4. The building design features or system design features identified on this Certificate of Compliance are consistent with the information provided on other applicable compliance documents, worksheets, calculations, plans and specifications submitted to the enforcement agency for approval with this building permit application.
5. I will ensure that a completed signed copy of this Certificate of Compliance shall be made available with the building permit(s) issued for the building, and made available to the enforcement agency for all applicable inspections. I understand that a completed signed copy of this Certificate of Compliance is required to be included with the documentation the builder provides to the building owner at occupancy.

Plot Date: 05-APR-2023 2:23:56 PM

GENERAL NOTES:

1. EXISTING EQUIPMENT AND SIZES ARE FROM OWNER RECORD DRAWINGS, AND MAY NOT REFLECT EXACT LOCATIONS AND SIZES FOR EXISTING EQUIPMENT IN FIELD. CONTRACTOR SHALL FIELD VERIFY WHERE NEEDED.

KEY NOTES:

1. MOUNT NEW ANALYZER UNIT ON THE EXISTING ANALYZER EQUIPMENT MOUNTING STAND, AND RECONNECT EXISTING POWER CIRCUITS TO THE NEW UNIT. EXTEND POWER CONDUITS AND CONDUCTORS AS LONG AS NEEDED TO REACH EQUIPMENT CONDUCTOR TERMINATION POINT.
2. PROVIDE EXPANSION FITTINGS FOR ALL CONDUITS TRANSITIONING BETWEEN DUCT BANK TO EXPOSED ROUTING ACCORDING TO DETAIL EM219/TYP.
3. GROUND NEW DUCT BANK TO EXISTING GROUND RING.

A 01E02 **PLAN**
SCALE: 1/2"=1'-0"
FILE: 8660F1089E0101

GENERAL NOTES:

1. EXISTING EQUIPMENT LOCATIONS AND SIZES ARE FROM OWNER RECORD DRAWINGS, AND MAY NOT REFLECT EXACT LOCATIONS AND SIZES FOR EXISTING EQUIPMENT IN FIELD. CONTRACTOR SHALL FIELD VERIFY WHERE NEEDED.
2. REFER TO DRAWING 89D01 FOR LOCATION OF FOLLOWING ELECTRICAL EQUIPMENT TO BE DEMOLISHED:
   - MAIN DISCONNECT SWITCH, 200 A, 3-POLE
   - MOTOR CONTROL CABINET
   -1 KVA TRANSFORMER

KEY NOTES:

1. POWER, CONTROL, SIGNAL AND COMMUNICATION PULL BOX. SIZE PULL BOX ACCORDING TO NEC. PULL BOX MINIMUM DIMENSIONS SHALL BE 30"W X 20"D X 30" H. PROVIDE A DIVIDER INSIDE THE PULL BOX WITH SEPARATE ACCESS DOORS AND SEPARATE THE CABLE PULLING SPACE BETWEEN SIGNAL/COMMUNICATION AND POWER/CONTROL CIRCUITS. ACCESS DOORS SHALL BE FACING EAST.
2. PROVIDE EXPANSION FITTINGS FOR ALL CONDUITS TRANSITIONING BETWEEN DUCT BANK TO EXPOSED ROUTING ACCORDING TO DETAIL EM219/TYP.
3. REPLACE EXISTING PUMP MOTOR WITH NEW MOTOR.
4. DISCONNECT SWITCH IS FOR 480V POWER SOURCE TO FLOW DIVERSION METERING VAULT ACTUATED VALVES. TERMINATE CONDUCTORS ON LINE SIDE OF DISCONNECT SWITCH.
5. DISCONNECT SWITCH IS FOR 120V POWER SOURCE TO FLOW DIVERSION METERING VAULT FLOW METER FIT-99105. TERMINATE CONDUCTORS ON LINE SIDE OF DISCONNECT SWITCH.
6. TO LIGHTING FIXTURES AND RECEPTACLES.

SCALE: 1/4" = 1'-0"
FILE: 8660F1099E0101

GENERAL NOTES:

1. EXISTING EQUIPMENT LOCATION AND SIZES ARE FROM OWNER RECORD DRAWINGS, AND MAY NOT REFLECT EXACT LOCATIONS AND SIZES FOR EXISTING EQUIPMENT IN FIELD. CONTRACTOR SHALL FIELD VERIFY WHERE NEEDED.

KEY NOTES:

1. PROVIDE MCC TOP HAT ENCLOSURE TO HOUSE PNL-RWPS POWER. ACCOMMODATE NEW TAP OF EXISTING MCC-E BUS WITH PNL-RWPS POWER CABLES. ENCLOSURE MANUFACTURER AND MODEL SHALL BE THE SAME AS EXISTING MCC-E. PROVIDE ALL THE NECESSARY PARTS AND ACCESSORIES TO COMPLETE CABLE TERMINATION IN MCC-E. CONTRACTOR TO PROVIDE MANUFACTURER FIELD SERVICES TO COMPLETE TOP HAT INSTALLATION. CONTRACTOR SHALL SUBMIT TOP HAT AND TAP DESIGN FOE ENGINEER REVIEW.
2. RELOCATE SPD ENCLOSURE IF NEEDED TO PROVIDE ADEQUATE SPACE FOR PNL-RWPS INSTALLATION.
3. CONDUITS RISE FROM DUCT BANK PER DETAIL EM020/TYP AND EM219/TYP, AND ENTER TO THE BUILDING'S ATTIC SPACE, ABOVE ELECTRICAL BUILDING.
4. SUPPORT CONDUITS ON BUILDING SIDE WALL WITH PREFORMED CHANNELS ACCORDING TO DETAIL EM903/TYP.
5. ROUTE CONDUITS THROUGH ATTIC SPACE ABOVE ELECTRICAL ROOM. SUPPORT CONDUITS IN ATTIC SPACE PER DETAIL EM901/TYP.
6. HEAD SPACE ABOVE MCC IS APPROXIMATELY 8". TOP HAT HIGHER THAN 8" MAY NEED TO BE PARTIALLY PLACED IN CEILING, BETWEEN JOISTS. COORDINATE NEW TOP HAT ENCLOSURE ACTUAL SIZE, CONDUIT ENTRY, AND ACCESS LOCATION WITH EATON. IF IT IS DETERMINED DURING FIELD VERIFICATION THAT ENCLOSURE MOUNTING SPACE IS OBSTRUCTED BY CEILING JOISTS, AND MODIFICATION TO CEILING JOISTS IS NEEDED, CONTACT STRUCTURAL ENGINEER OF RECORD FOR DIRECTION.
7. IF NEEDED FOR TOP HAT CONSTRUCTION, RELOCATE EXISTING CONDUITS. PROTECT EXISTING CABLES AND RE-TERMINATE AFTER CONDUIT WORK. REFER TO SPECIFICATION SECTION 01140 FOR WORK RESTRICTIONS.

B PLAN
01E01
SCALE: 3/4" = 1'-0"
FILE: 8660F1099E0101

GENERAL NOTES:

1. EMBEDDED CONDUIT IN SLAB SHALL BE INSTALLED PER DETAILS EM115/TYP, EM116/TYP, AND EM117/TYP. EMBEDDED CONDUITS WITH DIAMETER LARGER THAN TWO INCHES SHALL NOT STACK OR CROSS IN CONCRETE SLAB.
2. COORDINATE CONDUIT STUB UP LOCATIONS INSIDE ELECTRICAL ROOM WITH ELECTRICAL EQUIPMENT CONDUIT ENTRY OPENING AT BOTTOM OF ENCLOSURE.
3. SUPPORT EXPOSED CONDUITS AS NEEDED ACCORDING TO DETAILS EM102/TYP AND EA030/TYP.

KEY NOTES:

1. SPACE IS RESERVED FOR FUTURE RECYCLED PUMP VFD.
2. CONDUITS SHALL REMAIN ENCASED IN DUCT BANK TO STUB UP LOCATION.
3. PROVIDE MINIMUM OF 6" SPACE BETWEEN BOTTOM OF THE BUILDING SLAB AND TOP OF THE DUCT BANK.
4. CONTRACTOR SHALL INSTALL THERMOSTAT, AND PROVIDE NECESSARY CONDUITS AND CABLES ACCORDING TO MANUFACTURER INSTALLATION REQUIREMENTS.
5. CONTRACTOR SHALL VERIFY MAXIMUM OVER CURRENT PROTECTION RATING FOR HVAC UNIT, AND CHANGE CIRCUIT BREAKER RATING AND CABLE SIZE ACCORDINGLY PER NEC. SUBMIT ANY CHANGES TO ENGINEER FOR REVIEW.
6. SIZE RADIO PANEL ACCORDING TO RADIO EQUIPMENT DIMENSIONS AND MANUFACTURER RECOMMENDATIONS. RADIO PANEL MINIMUM DIMENSIONS SHALL BE 20" H x 20" W x 12" D.

ACTUATORS

- DIAPHRAGM
- ELECTRIC DISCRETE
- ELECTRIC MODULATING
- ELECTRIC HYDRAULIC
- HAND
- HYDRAULIC
- PNEUMATIC
- SOLENOID

- HYDRAULIC MODULATING
- PNEUMATIC SINGLE SOLENOID OPEN/CLOSE
- PNEUMATIC SINGLE SOLENOID w/ SPEED CONTROL
- PNEUMATIC DUAL SOLENOID OPEN/CLOSE
- PNEUMATIC DUAL SOLENOID OPEN/HOLD/CLOSE
- PNEUMATIC DUAL SOLENOID OPEN/CLOSE w/ SPEED CONTROL
- PNEUMATIC MODULATING
- PNEUMATIC MODULATING OPEN/CLOSE w/ SPEED CONTROL

PIPING

- AIR GAP
- BLIND FLANGE
- CAPPED OR PLUGGED
- CONCENTRIC INCREASER
- CONCENTRIC REDUCER
- DRAIN
- ECCENTRIC INCREASER
- FLANGED CONNECTION
- TEE
- UNION
- ECCENTRIC REDUCER
- EXPANSION COUPLING
- EXPANSION JOINT VIBRATION CENTER
- FLEXIBLE CONNECTION
- QUICK DISCONNECT

PUMPS

- AIR DRIVEN
- CENTRIFUGAL
- CHEMICAL FEED DIAPHRAGM
- DIAPHRAGM
- GEAR
- PERISTALTIC OR HOSE
- PISTON
- PROGRESSIVE CAVITY
- OR SUBMERSIBLE
- VERTICAL TURBINE
- VERTICAL CHOPPER
- WATER CHAMP

BLOWERS/ COMPRESSORS

- CENTRIFUGAL SINGLE STAGE BLOWER
- CENTRIFUGAL MULTI STAGE BLOWER
- RECIPROCATING COMPRESSOR
- SCREW COMPRESSOR
- FAN
- LIQUID RING COMPRESSOR
- ROTARY LOBE BLOWER

CHECK VALVES

- BACK FLOW PREVENTER
- BALL
- DIAPHRAGM CHECK
- DOUBLE FLAP
- FLAPPER
- SPRING LOADED GENERAL
- SPRING LOADED SWING
- SWING

PRESSURE VALVES

- BACKPRESSURE REGULATING SELF CONTAINED
- BACKPRESSURE REGULATING EXTERNAL TAP
- PRESSURE REDUCING SELF CONTAINED
- PRESSURE REDUCING EXTERNAL PRESSURE TAP
- REGULATING
- PRESSURE RELIEF
- VACUUM RELIEF

VALVES

- 3-WAY
- 3-WAY PLUG
- 4-WAY
- AIR-RELIEF
- ANGLE
- BALL
- BALL V-NOTCH
- BUTTERFLY
- BUTTERFLY-BURIED VALVE BOX
- CONE
- DIAPHRAGM
- FLOAT
- GATE
- GATE-BURIED VALVE BOX
- GLOBE
- HOSE
- MUD
- NEEDLE
- PINCH
- PLUG ECCENTRIC
- PLUG ECCENTRIC w-VALVE BOX
- PLUG ECCENTRIC LUBRICATED
- PLUG ECCENTRIC LUBRICATED BURIED VALVE BOX
- PLUG CONCENTRIC
- PLUG CONCENTRIC -BURIED VALVE BOX
- PLUG CONCENTRIC LUBRICATED
- PLUG CONCENTRIC LUBRICATED BURIED VALVE BOX
- PUMP DISCHARGE
- TELESCOPING

VALVE DESIGNATIONS

NO	NORMALLY OPEN
NC	NORMALLY CLOSED
FO	FAIL OPEN
FC	FAIL CLOSE
FLP	FAIL LAST POSITION

MISC

- AIR / CHEMICAL DIFFUSER
- BASKET STRAINER
- BLOW-OFF SILENCER
- CALIBRATION COLUMN
- COALESCER
- DESICCANT DRYER
- EDUCTOR/EJECTOR
- EQUIPMENT/INSTRUMENT LOCATOR
- EXHAUST FAN
- EYEWASH
- FILTER
- FILTER SEPARATOR
- FINE FILTER
- FIRE ALARM/SENSOR
- FLAME ARRESTER
- FLAME ARRESTER w/THERMALLY OPERATED VALVE
- FLOW CONDITIONER
- GAS CANNON
- GRINDER
- HEAT EXCHANGER
- HOIST
- HORIZONTAL MIXER
- HOSE CONNECTION
- INLET STRAINER
- INLINE STATIC MIXER
- INLINE DUCT DAMPER
- LOUVER OR DAMPER
- MATERIAL CHANGE
- MIXER
- MOTOR
- NOZZLE
- ORIFICE RESTRICTION
- PERISTALTIC COMPOSITE SAMPLER
- OR PULSATION DAMPENER
- REFRIGERATED DRYER
- RUPTURE DISK
- SAMPLE PORT
- SIGHT TUBE
- SMOKE DETECTOR
- STRAINER - MECHANICALLY CLEANED
- STRAINER WITH BLOW OFF
- STRAINER WYE TYPE
- VAPOR HEATER
- VAPORIZER
- VENT
- VENT TO ATMOSPHERE

GENERAL NOTES:

1. ENCLOSURE DRAWING REPRESENTS DESIGN INTENT. CONTRACTOR TO SUPPLY AS-BUILT DRAWINGS SHOWING FINAL ENCLOSURE LAYOUT WITH ALL EQUIPMENT, MANUFACTURERS, AND PART NUMBERS.
2. REFER TO ELECTRICAL PLANS FOR LOCATION OF ALL ENCLOSURES.
3. CONSTRUCT PANEL TO MEET THE FULL INTENT OF ARTICLE 409 OF THE NATIONAL ELECTRIC CODE.
4. FOLLOW ALL UL 508 AND 508 SUPPLEMENT 5B TO DETERMINE SHORT CIRCUIT RATINGS.
5. NO 480VAC CIRCUITS SHALL TERMINATE IN OR PASS THROUGH CONTROL CABINETS.
6. ALL CONDUIT PENETRATIONS SHALL BE LOCATED AT THE TOP OR BOTTOM OF THE ENCLOSURE. NO SIDE, FRONT, OR REAR PENETRATIONS ALLOWED.
7. QUANTITY OF COMPONENTS VARY AS REQUIRED FOR EACH CABINET.

PCM-4 PANEL ELEVATION INTERIOR

PCM-4 PANEL ELEVATION EXTERIOR

EXISTING PLC-3 PANEL ELEVATION INTERIOR (NOT SHOWING THE COMPLETE INTERIOR)

KEY NOTES:

1. REMOVE EXISTING PLC RACK AND MODULES AND RETURN TO THE OWNER. PROVIDE AND INSTALL NEW PLC AS SPECIFIED IN CONTRACT DRAWINGS AND SPECIFICATION 17720. TRACE AND FIELD VERIFY ALL EXISTING IO WIRING AND NETWORK CONNECTIONS BEFORE REMOVING WIRES FROM THE EXISTING PLC. WHERE POSSIBLE, TERMINATE EXISTING IO WIRES TO THE NEW PLC IN THE SAME SLOT NUMBER AND IO POINT AS THEY WERE PREVIOUSLY CONNECTED TO THE EXISTING PLC.
2. REMOVE PLC PROCESSOR AND RETURN TO THE OWNER. PROVIDE AND INSTALL ETHERNET SWITCH IN THE SPACE WHERE THE OLD PROCESSOR WAS PREVIOUSLY INSTALLED AS SPECIFIED IN CONTRACT DRAWINGS AND SPECIFICATION 17733. CONNECT NETWORK CONNECTIONS AS SHOWN ON CONTRACT DRAWING 04N02.
3. PROVIDE AND INSTALL NEW FIBER PATCH PANEL IN PLC-4 AS SPECIFIED IN CONTRACT DRAWING AND SPECIFICATION 17733. TRACE AND FIELD VERIFY EXISTING FIBER CONNECTIONS. THE TWO EXISTING FIBER CONNECTIONS COMING FROM PLC-70299 AND PLC-12199 PANELS SHALL BE DISCONNECTED FROM THE EXISTING FIBER PATCH PANEL LOCATED IN PLC-3 AND SHALL BE CONNECTED TO THESE NEW PATCH PANELS AS SHOWN ON 04N02.
4. UTILIZE THE IDENTIFIED EMPTY SPACES AS NEEDED FOR ANY NEW RELAYS, TERMINAL BLOCKS, FUSES AND CIRCUIT BREAKERS THAT MAY BE REQUIRED PER CONTRACT DRAWINGS AND SPECIFICATIONS.
5. REMOVE EXISTING CHART RECORDER, REDIPANEL KEYPAD MODULE, ANNUNCIATOR, PUSH BUTTONS, PILOT LIGHTS, AND SELECTOR SWITCHES AND RETURN TO THE OWNER. EXISTING CHART RECORDER, REDIPANEL KEYPAD MODULE, ANNUNCIATOR, PUSH BUTTONS, PILOT LIGHTS, AND SELECTOR SWITCHES FUNCTIONALITY SHALL BE REPLICATED ON THE NEW LOI AND SCADA AS NEEDED.
6. CUT ONE LARGE SQUARE HOLE IN THE AREA SHOWN. GASKET AND BOLT A PLATE TO COVER THE HOLE. THIS PLATE SHALL BE UTILIZED TO INSTALL THE NEW LOI.
7. USE APPROPRIATE PLUGS TO INDIVIDUALLY COVER THE PILOT LIGHTS, SELECTOR SWITCHES, AND PUSH BUTTONS TO MAINTAIN THE PANEL'S NEMA RATING.
8. PROVIDE AND INSTALL NEW LOCAL OPERATOR INTERFACE AS SPECIFIED IN CONTRACT DRAWINGS AND SPECIFICATION 17721. LOI SHALL BE INSTALLED ON THE PLATE SPECIFIED IN KEY NOTE 6.
9. ALL EXISTING PROGRAMMING SHALL BE REPROGRAMMED IN THE NEW PLC. ADDITIONALLY, THE NEW PLC AND LOI SHALL PROVIDE THE SAME FUNCTIONALITY AS WAS PRESENT INCLUDING THE ITEMS REMOVED PER KEY NOTE 5.

GENERAL NOTES:

1. SCHEMATIC WIRING IS BASED ON ONE OF THE NAMED MANUFACTURERS. REVISE SCHEMATIC AS REQUIRED TO PERFORM THE OPERATION SHOWN HERE. IF ANOTHER MANUFACTURER IS SELECTED, CONTRACTOR IS RESPONSIBLE FOR PROVIDING FOR NECESSARY DIFFERENCES WITH NO ADDITIONAL COST TO THE OWNER, INCLUDING BUT NOT LIMITED TO DIFFERENCE IN MCC FOOTPRINT, WIRING CHANGES, ADDITIONAL CONTROL RELAYS, ETC.
2. SIZE CONTROL POWER TRANSFORMER IN ACCORDANCE WITH ALL INDICATED LOADS.
3. PROVIDE EXPANSION MODULES AND ANY OTHER APPLICABLE CONVERTER MODULES AS NEEDED FOR FUNCTIONALITY SHOWN.

KEY NOTES:

1. HARDWIRED CONTROLS:
   A. WHEN THE LOCAL-OFF-REMOTE (LOR) SELECTOR SWITCH IS IN THE LOCAL POSITION, AN OPERATOR SHALL START THE EQUIPMENT BY PRESSING START PUSH BUTTON.
   B. WHEN THE LOCAL-OFF-REMOTE (LOR) SELECTOR SWITCH IS IN THE LOCAL POSITION, THE SPEED OF THE EQUIPMENT SHALL BE ADJUSTED USING THE SPEED POTENTIOMETER.
   C. WHEN THE LOCAL-OFF-REMOTE (LOR) SELECTOR SWITCH IS IN THE LOCAL POSITION, AN OPERATOR SHALL STOP THE EQUIPMENT BY PRESSING THE STOP PUSH BUTTON.
   D. WHEN THE LOCAL-OFF-REMOTE (LOR) SELECTOR SWITCH IS IN THE OFF POSITION, THE EQUIPMENT IS PROHIBITED FROM BEING STARTED.
   E. WHEN THE LOCAL-OFF-REMOTE (LOR) SELECTOR SWITCH IS IN THE REMOTE POSITION, SCADA/HMI SHALL CONTROL THE EQUIPMENT.

   HARDWIRED INTERLOCKS/OVERLOAD PROGRAMMED INTERLOCKS:
   A. IN A HIGH MOTOR TEMPERATURE CONDITION, THE EQUIPMENT SHALL SHUT OFF AND A HIGH TEMPERATURE ALARM SIGNAL SHALL BE SENT TO THE PLANT PLC.
   B. IN A LOW DISCHARGE FLOW CONDITION, THE EQUIPMENT SHALL SHUT OFF AFTER AN OPERATOR ADJUSTABLE TIMER AND A LOW FLOW ALARM SIGNAL SHALL BE SENT TO THE PLANT PLC. FLOW SWITCH SHALL BE RESET THROUGH TO PCS.

GENERAL NOTES:

1. SCHEMATIC WIRING IS BASED ON ONE OF THE NAMED MANUFACTURERS. REVISE SCHEMATIC AS REQUIRED TO PERFORM THE OPERATION SHOWN HERE. IF ANOTHER MANUFACTURER IS SELECTED, CONTRACTOR IS RESPONSIBLE FOR PROVIDING FOR NECESSARY DIFFERENCES WITH NO ADDITIONAL COST TO THE OWNER, INCLUDING BUT NOT LIMITED TO DIFFERENCE IN MCC FOOTPRINT, WIRING CHANGES, ADDITIONAL CONTROL RELAYS, ETC.
2. SIZE CONTROL POWER TRANSFORMER IN ACCORDANCE WITH ALL INDICATED LOADS.
3. PROVIDE EXPANSION MODULES AND ANY OTHER APPLICABLE CONVERTER MODULES AS NEEDED FOR FUNCTIONALITY SHOWN.

KEY NOTES:

1. HARDWIRED CONTROLS:

   A. WHEN THE LOCAL-OFF-REMOTE (LOR) SELECTOR SWITCH IS IN THE LOCAL POSITION, AN OPERATOR SHALL START THE EQUIPMENT BY PRESSING START PUSH BUTTON.

   B. WHEN THE LOCAL-OFF-REMOTE (LOR) SELECTOR SWITCH IS IN THE LOCAL POSITION, THE SPEED OF THE EQUIPMENT SHALL BE ADJUSTED USING THE SPEED POTENTIOMETER.

   C. WHEN THE LOCAL-OFF-REMOTE (LOR) SELECTOR SWITCH IS IN THE LOCAL POSITION, AN OPERATOR SHALL STOP THE EQUIPMENT BY PRESSING THE STOP PUSH BUTTON.

   D. WHEN THE LOCAL-OFF-REMOTE (LOR) SELECTOR SWITCH IS IN THE OFF POSITION, THE EQUIPMENT IS PROHIBITED FROM BEING STARTED.

   E. WHEN THE LOCAL-OFF-REMOTE (LOR) SELECTOR SWITCH IS IN THE REMOTE POSITION, SCADA/HMI SHALL CONTROL THE EQUIPMENT.

   HARDWIRED INTERLOCKS/OVERLOAD PROGRAMMED INTERLOCKS:

   A. IN A HIGH MOTOR TEMPERATURE CONDITION, THE EQUIPMENT SHALL SHUT OFF AND A HIGH TEMPERATURE ALARM SIGNAL SHALL BE SENT TO THE PLANT PLC.

   B. IN A LOW DISCHARGE FLOW CONDITION, THE EQUIPMENT SHALL SHUT OFF AFTER AN OPERATOR ADJUSTABLE TIMER AND A LOW FLOW ALARM SIGNAL SHALL BE SENT TO THE PLANT PLC. FLOW SWITCH SHALL BE RESET THROUGH THE PCS.

   C. IN LOW LEVEL CONDITION, THE EQUIPMENT SHALL SHUT OFF AND A LEVEL LOW SIGNAL SHALL BE SENT TO THE PLC.

   D. IN HIGH HIGH LEVEL CONDITION, A HIGH HIGH LEVEL ALARM SIGNAL SHALL BE SENT TO THE PLANT PLC TO SHUT DOWN CAROUSEL PUMP NO. 3.

NOTES:

1. DIMENSIONS SHOWN ARE MINIMUM.
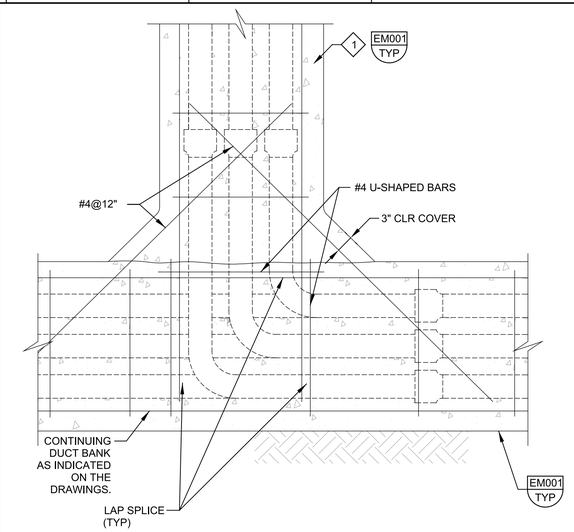
2. ADJUST SIZE OF DUCT BANK BASED UPON THESE GUIDELINES AND SPECIFICATION SECTION 16133 TO ACCOMMODATE ACTUAL NUMBER OF CONDUITS WITHIN DUCT BANK. REFER TO DUCT BANK SECTIONS, AND CONDUIT SCHEDULE FOR NUMBER AND SIZE OF CONDUITS.
3. MAKE PROVISIONS TO PREVENT CONDUIT FLOTATION DURING CONCRETE PLACEMENT & CURING.

KEY NOTES:

1. #4 REINFORCING STEEL 12" MAXIMUM ON CENTER AROUND ENTIRE PERIMETER OF DUCT BANK.
2. #4 REINFORCING STEEL STIRRUPS 6" MAXIMUM ON CENTER ALONG LENGTH OF DUCT BANK.
3. MINIMUM OF THREE PRECAST CONCRETE BAR SUPPORTS PLACED UNDER STIRRUPS AT MIN 4'-0" ON CENTER ALONG LENGTH OF DUCT BANK OR CLOSER SPACING AS NECESSARY TO PREVENT SAGGING OR MOVEMENT OF THE REBAR.
4. REFER TO DUCTBANK SECTIONS AND CONDUIT SCHEDULES FOR CONDUIT REQUIREMENTS.
5. TIE CONDUIT TO BOTTOM REINFORCING STEEL AT MIN 2'-0" ON CENTER OR CLOSER SPACING ALONG THE LENGTH AS REQUIRED TO MAINTAIN CONDUIT LOCATION AND TO PREVENT IT FROM FLOATING DURING CONCRETE POUR.

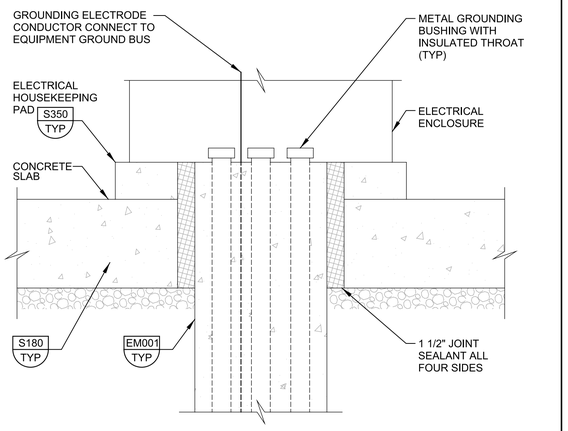


EM002 TYP R — REDUCED DEPTH REINFORCED CONCRETE DUCT BANK

NOTES:

1. ALL DIMENSIONS ARE MINIMUM UNLESS OTHERWISE INDICATED ON THE DRAWINGS.
2. REFER TO THE SPECIFICATIONS FOR TRENCH BACKFILL REQUIREMENTS.

EM015 TYP S — DIRECT BURIED CONDUIT OR CABLE

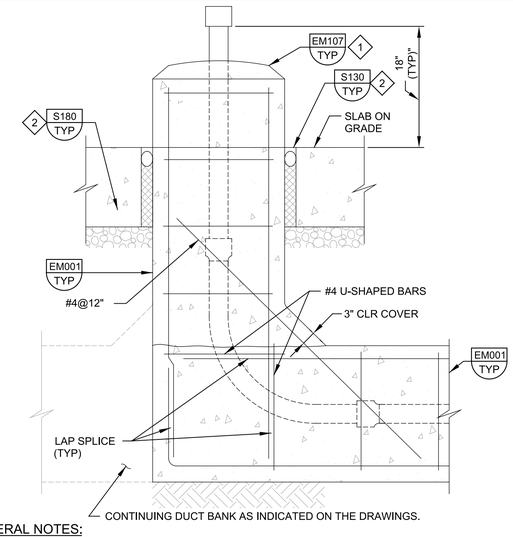


GENERAL NOTES:

1. REFER TO THE SPECIFICATIONS FOR MATERIAL REQUIREMENTS.

KEY NOTES:

1. ADJUST DUCT SPACING TO FIT OPENING IN THE SLAB AND EQUIPMENT ABOVE.



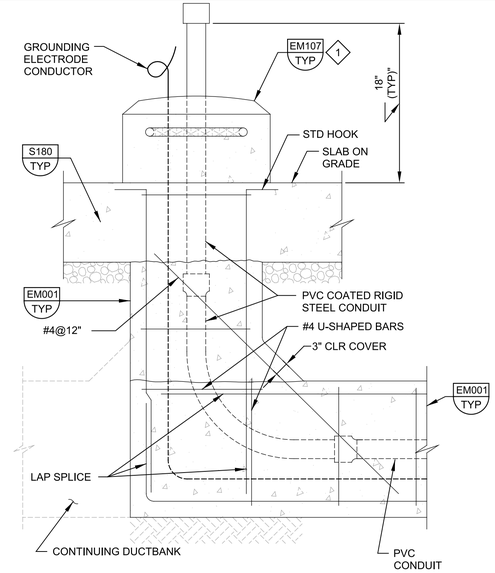
EM020 TYP S — DUCT BANK RISER

GENERAL NOTES:

1. OPENING SIZE IN CONCRETE HOUSE KEEPING PAD IS SET BY CONDUIT SIZE AND NUMBER OF CONDUITS. CONDUITS AT TOP OF HOUSE KEEPING PAD MUST FIT IN MANUFACTURER PROVIDED WINDOW IN BOTTOM OF ELECTRICAL ENCLOSURE.

EM022 TYP S — DUCT BANK ENTRY INTO ELECTRICAL EQUIPMENT

GENERAL NOTES:



1. REFER TO THE SPECIFICATIONS FOR MATERIAL REQUIREMENTS.

KEY NOTES:

1. PROVIDE CONDUIT HOUSE KEEPING CURB AT ALL LOCATIONS WHERE THE CONDUIT IS NOT PROTECTED BY AN EQUIPMENT PAD.
2. SHALL ONLY BE PROVIDED FOR DUCT BANK RISER THROUGH NEW CONCRETE SLAB.

EM032 TYP R — RISER FROM DUCT BANK SLAB ON GRADE

12-06-21

KEY NOTES:

1. PROVIDE CONDUIT HOUSE KEEPING CURB AT ALL LOCATIONS WHERE THE CONDUIT IS NOT PROTECTED BY AN EQUIPMENT PAD.

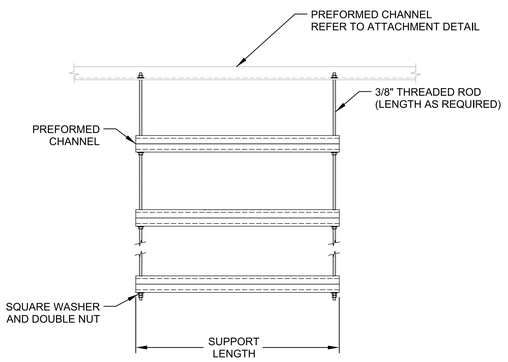
GENERAL NOTES:

1. PROVIDE MINIMUM INTERIOR DIMENSIONS AS SHOWN IN THE ELECTRICAL HANDHOLE AND MANHOLE SCHEDULE (MAXIMUM INTERIOR DIMENSIONS: 60"WIDE x 60"LONG x 60"DEEP)
2. BOND ALL METALLIC ITEMS INSIDE HANDHOLE TO GROUND ROD USING #4 AWG BARE COPPER CABLE.
3. SEE DRAWINGS FOR ORIENTATION, NUMBER, AND SIZE OF DUCT BANKS AT EACH HANDHOLE.

KEY NOTES:

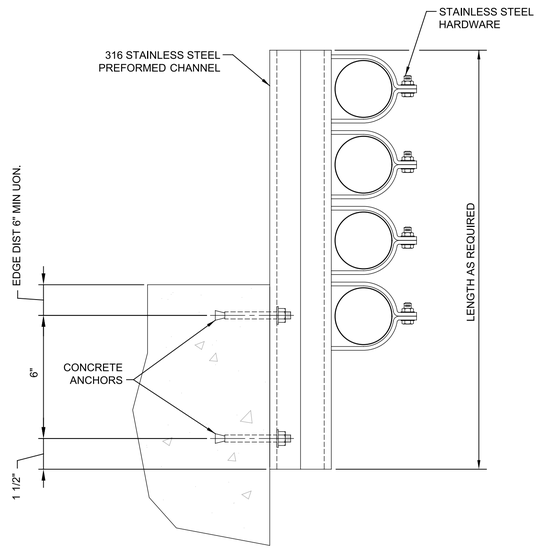
1. SEE THE MANHOLE AND HANDHOLE SCHEDULE FOR REQUIRED LOAD RATING OF HATCH.
2. BOND DUCT BANK GROUND CABLE TO GROUND ROD. REFER TO THE SPECIFICATIONS FOR CONNECTION REQUIREMENTS.
3. INSTALL DUCT BANKS ONLY THROUGH CAST-IN OPENINGS OR PREFORMED KNOCKOUT PANELS. PROVIDE KNOCKOUTS ON EACH WALL AROUND HANDHOLE.
4. PROVIDE MINIMUM 4 INCH DIAMETER, GRAVEL FILLED PENETRATION THROUGH FLOOR OF HANDHOLE. SET SUMP OPENING OVER MINIMUM 18" SQUARE FILTER FABRIC TO ISOLATE GRAVEL FROM BASE MATERIAL BELOW.
5. COAT EXTERIOR WALLS BELOW GRADE WITH BITUMINOUS DAMP PROOFING.
6. MAXIMUM TOP SLAB OVERHANG IS TYPICAL AROUND 4 SIDES OF HANDHOLE.
7. GROUNDING CABLE CONNECTION. REFER TO THE SPECIFICATIONS FOR CONNECTION REQUIREMENTS.
8. PROVIDE ONE PULLING IRON ON EACH WALL OF HANDHOLE.
9. BASE MATERIAL: PROVIDE MIN 12" COMPACTED AGGREGATE BASE COURSE.



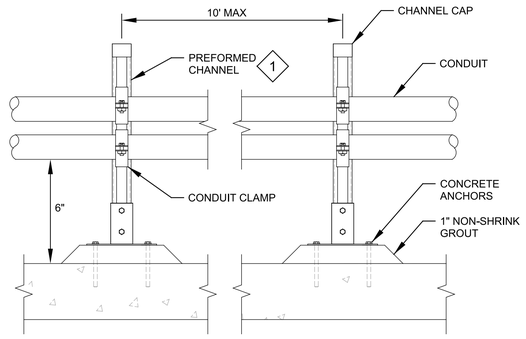
EM056 TYP J — ELECTRICAL HANDHOLE PRECAST CONCRETE W/HATCH

KEY NOTES:

1. PROVIDE GROUNDING FITTING FOR METALLIC CONDUITS ENTERING MANHOLE. BOND GROUNDING FITTING TO DUCTBANK GROUNDING CONDUCTOR.
2. FOR FIRST 12'-0" FROM INSIDE FACE OF STRUCTURE, STIRRUP SPACING IN INCHES = (H-4)/2 WHERE H = CONCRETE ENCASEMENT HEIGHT IN INCHES.
3. ADDITIONAL #4 x 12'-0" @ 12" ON ALL FOUR FACES OF ENCASEMENT. ALTERNATE WITH TYPICAL REINFORCEMENT FOR 6" SPACING.
4. PROVIDE ADDITIONAL REINFORCEMENT AROUND OPENING AS REQUIRED. FOR CAST-IN-PLACE STRUCTURES, PROVIDE REINFORCEMENT PER S180 TYP



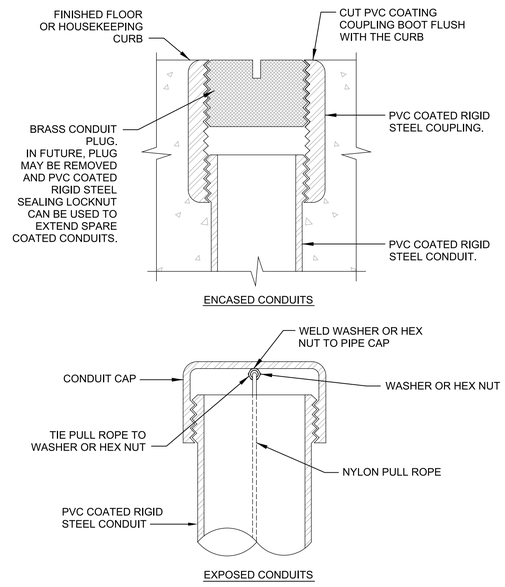
EM070 TYP S — ENCASED CONDUITS AT MANHOLES OR STRUCTURES - W/O WATERSTOP



GENERAL NOTES:

1. PROVIDE NUMBER AND LENGTH OF PREFORMED CHANNEL SUPPORTS AS REQUIRED BY EQUIPMENT AND MATERIALS TO BE INSTALLED.
2. PROVIDE SEISMIC BRACING PER THE SPECIFICATIONS.
3. REFER TO SPECIFICATIONS FOR MATERIAL REQUIREMENTS.

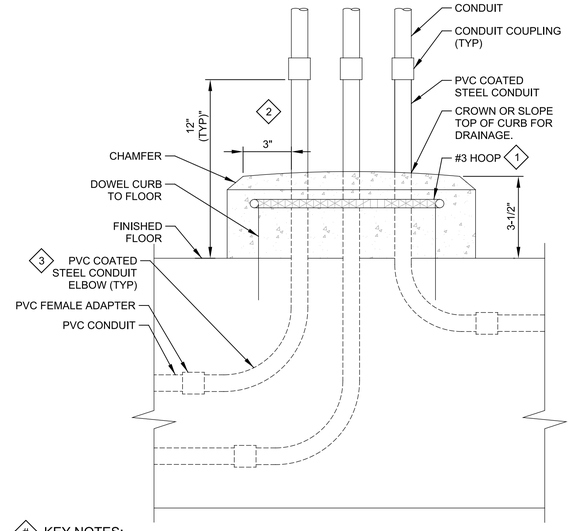
EM102 TYP S — TRAPEZE SUPPORT



EM103 TYP S — CONDUIT SUPPORT

KEY NOTES:

1. SIZE PREFORMED CHANNEL FOR CONDUITS INDICATED ON THE DRAWINGS.



EM104 TYP S — CONDUIT FLOOR SUPPORT FOR ELECTRICAL CONDUITS

GENERAL NOTES:

1. PROVIDE 2" MIN CLEAR BETWEEN ADJACENT CONDUITS

EM105 TYP S — SPARE CONDUIT DETAIL

KEY NOTES:

1. COORDINATE REINFORCING STEEL REQUIREMENTS WITH THE GENERAL CONTRACTOR.
2. TYPICAL BOTH SIDES, FRONT AND REAR.
3. FIELD BEND 1" CONDUITS. PROVIDE MANUFACTURED PCS ELBOWS FOR CONDUITS 1.25" AND LARGER.

EM107 TYP S — CONDUIT HOUSEKEEPING CURB

NOTES:

1. PROVIDE NON-DESTRUCTIVE TESTING TO DETERMINE LOCATIONS OF REINFORCEMENT. MAINTAIN MIN 2" CLEAR BETWEEN CORE DRILLED OPENING AND REINFORCEMENT.
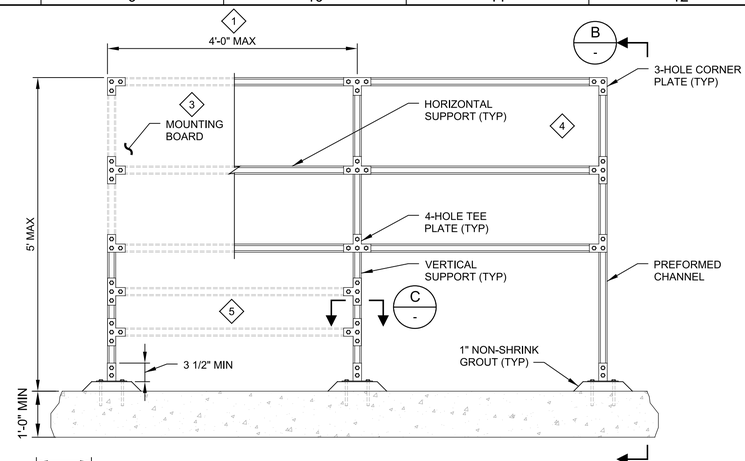
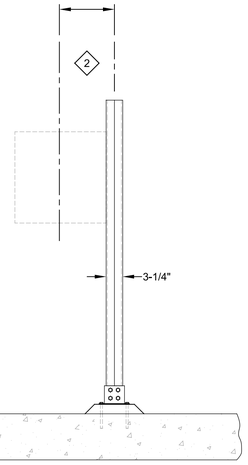
2. ROUGHEN SURFACE OF OPENING TO A 1/4" AMPLITUDE AND APPLY EPOXY CEMENT BONDING AGENT IMMEDIATELY PRIOR TO GROUTING.
3. PROVIDE 8" MINIMUM CENTER-TO-CENTER SPACING FOR CONDUITS.



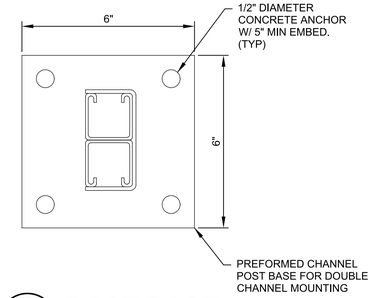
EM173 TYP S — CORE HOLE PENETRATION FULLY GROUTED CMU WALL



NOTES:

1. WHERE SEPARATE FOUNDATION IS REQUIRED, SEE SECTION B.
2. COAT ALUMINUM SURFACES IN CONTACT WITH CONCRETE PER SPECIFICATIONS.
3. USE STAINLESS STEEL FASTENERS FOR MOUNTING DEVICES.
4. WEIGHT OF DEVICE(S) SHALL NOT EXCEED 100 POUNDS.

EM201 TYP S — DEVICE SUPPORT AND MOUNTING

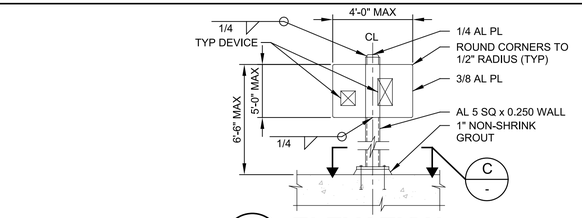


B SECTION

GENERAL NOTES:

1. AS SHOWN, THE MOUNTING STAND IS SUITABLE FOR THE FOLLOWING DESIGN CRITERIA.
   - STAINLESS STEEL OR HOT-DIPPED GALVANIZED PREFORMED CHANNEL
   - BASIC WIND SPEED (3 SECOND GUST. 33 FEET ABOVE GROUND) : 120 MPH
   - WIND EXPOSURE CATEGORY: C
   - NON -SPECIAL WIND REGIONS
   - SEISMIC DESIGN CATEGORY: A THROUGH D
   - RISK CATEGORY: III AND IV
   - MAXIMUM EQUIPMENT LOAD OF 100 LBS PER VERTICAL SUPPORT

   SUBMIT DESIGN CALCULATIONS FOR EACH INSTALLATION THAT EXCEEDS THE SPECIFIED DESIGN CRITERIA OR DIMENSIONAL LIMITATIONS IN THIS DETAIL. REFER TO THE SPECIFICATIONS FOR DESIGN CALCULATION SUBMITTAL REQUIREMENTS.
2. THE TOTAL SURFACE AREA OF ALL EQUIPMENT AND MOUNTING BOARDS SHALL NOT EXCEED 12 SQUARE FEET PER VERTICAL SUPPORT.
3. REFER TO THE SPECIFICATIONS FOR MATERIAL REQUIREMENTS.
4. WHERE CONCRETE ANCHORS COME IN CONTACT WITH DISSIMILAR METALS, ISOLATE DISSIMILAR METALS AS SPECIFIED IN THE SPECIFICATIONS.
5. VERTICAL SUPPORTS SHALL CONSIST OF PREFORMED DOUBLE CHANNELS. HORIZONTAL SUPPORTS SHALL CONSIST OF PREFORMED SINGLE CHANNELS.



EM211 TYP S — OUTDOOR EQUIPMENT MOUNTING STAND

C POST BASE

◇# KEY NOTES:

1. FOR MOUNTING STANDS WIDER THAN 4 FEET PROVIDE EQUALLY SPACED VERTICAL SUPPORTS AT 4 FOOT MAXIMUM SPACING.
2. MAXIMUM OFFSET TO THE CENTERLINE OF EQUIPMENT OR ENCLOSURES IS 1'-6".
3. PROVIDE A MOUNTING BOARD FOR INSTRUMENTS AND DEVICES WEIGHING LESS THAN 20 POUNDS THAT CANNOT BE MOUNTED DIRECTLY TO PREFORMED CHANNEL. EQUIPMENT ANCHORAGE TO THE MOUNTING BOARD SHALL BE DESIGNED BY THE CONTRACTOR.
4. PROVIDE ADDITIONAL PREFORMED CHANNEL SUPPORTS FOR ENCLOSURES THAT CAN BE MOUNTED DIRECTLY TO THE PREFORMED CHANNEL.
5. OPTIONAL HORIZONTAL SUPPORTS AND AVAILABLE SPACE FOR JUNCTION BOXES.

GENERAL NOTES:

1. USE ELEVATION B WHERE A SEPARATE FOUNDATION IS REQUIRED.
2. COAT ALUMINUM SURFACES IN CONTACT W/ CONCRETE PER SPECIFICATIONS.
3. USE STAINLESS STEEL FASTENERS FOR MOUNTING DEVICES.
4. WEIGHT OF DEVICE(S) SHALL NOT EXCEED 300 POUNDS.

LAST SAVED BY: ggraham

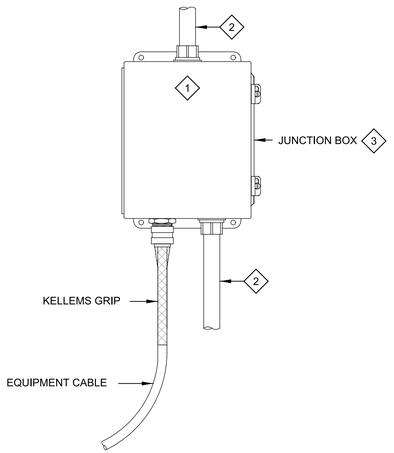
GENERAL NOTES:

1. REFER TO THE SPECIFICATIONS FOR MATERIAL REQUIREMENTS.

KEY NOTES:

1. CONTRACTOR SHALL PROVIDE A WATERPROOF AND WEATHERTIGHT SEAL AROUND THE CONDUIT PENETRATION. SEAL SHALL INCLUDE CAULKING AND PLATE AS RECOMMENDED BY MANUFACTURER. SUBMIT TO ENGINEER OF RECORD FOR REVIEW BEFORE INSTALLATION.
2. DO NOT ATTACH THE CONDUIT TO THE BUILDING BEFORE THE EXPANSION FITTING.

EM219 TYP — CONDUIT PENETRATION ABOVE GRADE

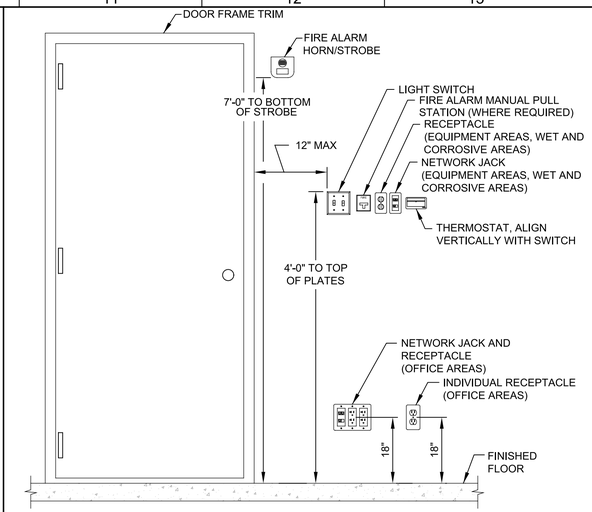


GENERAL NOTES:

1. CONDUIT AND ENCLOSURE REQUIREMENTS AS SPECIFIED.

KEY NOTES:

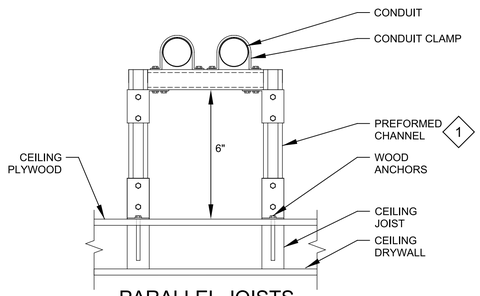
1. CONDUIT IS NOT INCLUDED IN THE CONDUIT SCHEDULE.
2. SIZE CONDUIT IN ACCORDANCE WITH THE NEC.
3. REFER TO CONDUIT SCHEDULE FOR CONDUIT SIZE, WIRE SIZE AND QUANTITY.



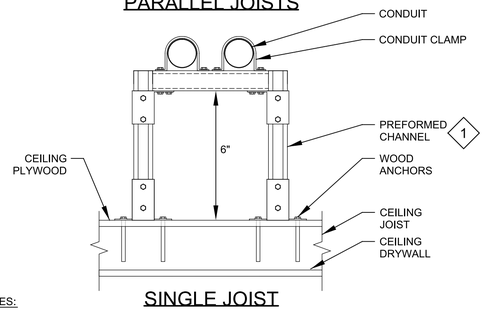
EM221 TYP S — DISCONNECT CONDUIT INSTALLATION

KEY NOTES:

1. PROVIDE TERMINAL STRIPS TO TRANSITION FROM THE EQUIPMENT CABLE TO FIELD WIRING.
2. POWER AND CONTROL CONDUITS. REFER TO THE ELECTRICAL DRAWINGS, CONDUIT AND CABLE SCHEDULE FOR DETAILS.
3. REFER TO SPECIFICATIONS AND PLANS FOR NEMA TYPE.



EM315 TYP S — SUBMERSIBLE EQUIPMENT CABLE CONNECTION DETAIL

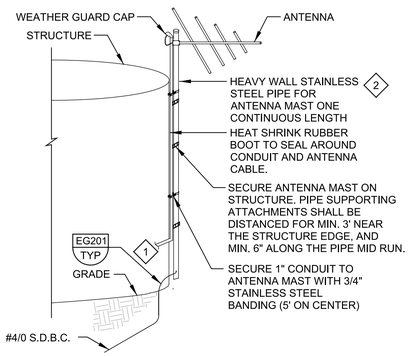


NOTES:

1. ALL SWITCHES AND RECEPTACLES SHALL BE EMBEDDED IN THE WALL UNLESS OTHERWISE INDICATED ON THE DRAWINGS.

EM725 TYP S — OUTLET BOX MOUNTING

PARALLEL JOISTS



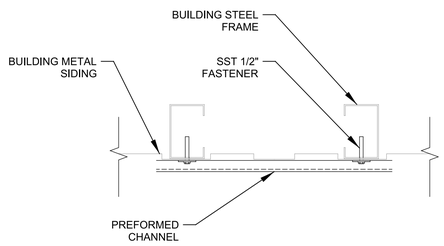
SINGLE JOIST

KEY NOTES:

1. SIZE PREFORMED CHANNEL FOR CONDUITS INDICATED ON THE DRAWINGS.

EM901 TYP J — CONDUIT SUPPORT ABOVE CEILING JOIST FOR ELECTRICAL CONDUITS

11/24/2021



KEYNOTE:

1. TO FIELD MOUNTED JUNCTION BOX.
2. SUPPORT STEEL PIPE ON STRUCTURE WITH PREFORMED CHANNEL AND STRAP CLAMPS. REFER TO PLAN DRAWINGS FOR ATTACHMENT DETAILS AND NOTES.

EM902 TYP J — ANTENNA MAST MOUNTING DETAIL

11/24/2021

EM903 TYP J — ATTACHMENT TO STEEL FRAMING WALL

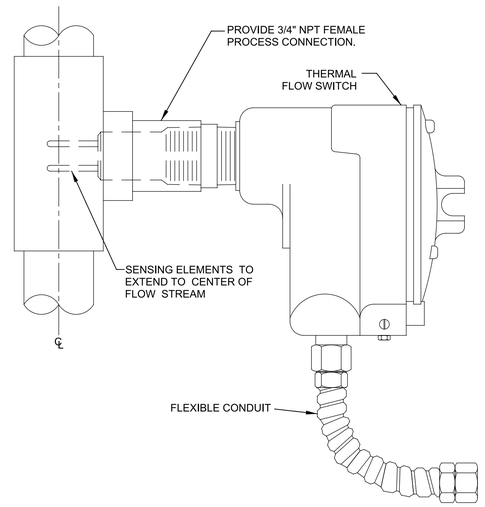
◇# KEY NOTES:

1. PRESSURE CONTROL VALVE AND GAUGE ARE REQUIRED AT PRESSURE EXCEEDING 40 PSI.
2. PROVIDE ISOLATION VALVE AND ROTAMETER WITH FLOW CONTROL FOR EACH INSTRUMENT.
3. MINIMIZE SAMPLE LINE LENGTH TO KEEP SAMPLE FLOW LAG TO A MINIMUM.
4. PROVIDE AIR GAPS FOR ALL DRAINS.
5. PROVIDE GLOBE VALVE FOR FLOW CONTROL.

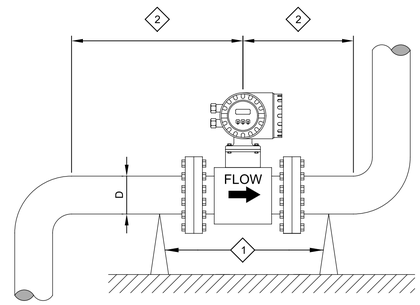
NA090 SAMPLE PANEL PLUMBING DETAIL

TYP R — 11/9/2022



NOTES:

1. MOUNT THE SWIVEL / PIVOT / PIPE CLAMP ASSEMBLY TO A GUARDRAIL OR HORIZONTAL PIPE AS INDICATED ON THE PLAN DRAWINGS.



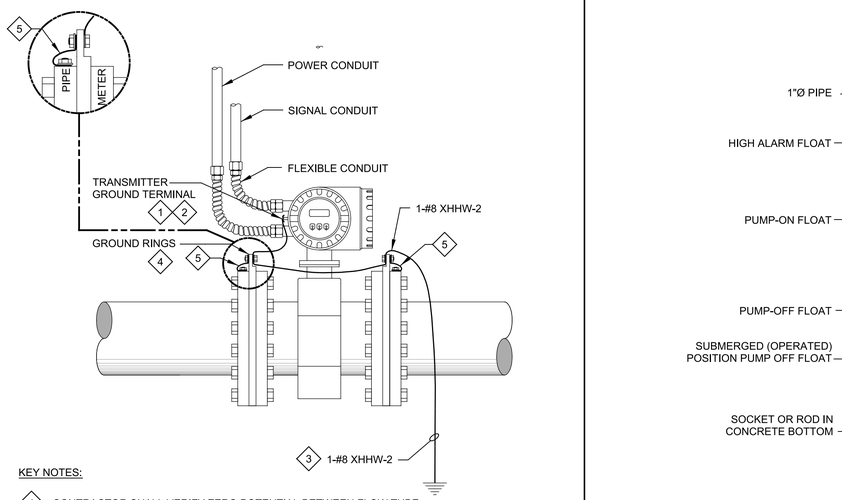
NA901 PIPE MOUNTING STAND - WEIR LEVEL PROBE

TYP J — 03/8/2023

NF111 THERMAL FLOW SWITCH MOUNTING DETAIL

TYP S

GENERAL NOTES:



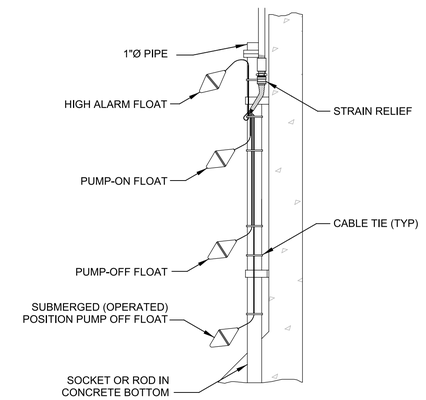
1. FOLLOW MANUFACTURER'S RECOMMENDED MAXIMUM TORQUE SETTINGS. DO NOT OVER-TORQUE FLANGE BOLTS. OVERTIGHTENING THE FASTENERS WILL DEFORM SEALING FACES OR DAMAGE THE LINE.
2. ALWAYS TIGHTEN FLANGE BOLTS UNIFORMLY AND IN DIAGONALLY OPPOSITE SEQUENCE.
3. MOUNT METER SO THAT IT REMAINS FULLY FLOODED.
4. FOR METERS SPECIFIED WITH ZERO DIAMETER FEATURE, REFER TO THE MECHANICAL DRAWINGS FOR INSTALLATION.

◇# KEY NOTES:

1. PIPE SUPPORTS BY MECHANICAL CONTRACTOR. NO SUPPORTS SHALL BE INSTALLED AT THE METER HOUSING.
2. INSTALL METER SUCH THAT THERE ARE NO PIPE BENDS FOR 5 PIPE DIAMETERS UPSTREAM AND 3 PIPE DIAMETERS DOWNSTREAM OF THE METER.

NF130 MAGNETIC FLOWMETER MOUNTING DETAIL

TYP S

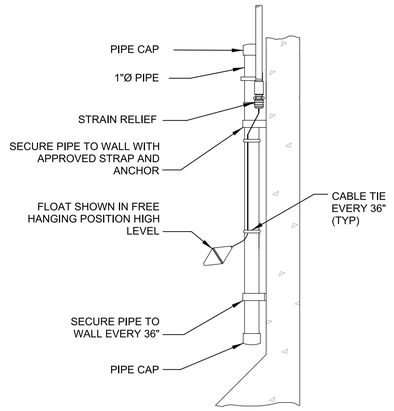


KEY NOTES:

1. CONTRACTOR SHALL VERIFY ZERO POTENTIAL BETWEEN FLOW TUBE, EARTH GROUND AND TRANSMITTER GROUND TERMINAL.
2. CONNECT TRANSMITTER GROUND TERMINAL TO GROUND RINGS.
3. CONNECT METER BODY TO EARTH GROUND POTENTIAL.
4. EQUALIZE POTENTIAL VIA GROUND RINGS BETWEEN FLUID AND MAGMETER.
5. PROVIDE BONDING JUMPER ON CONDUCTIVE PIPES.

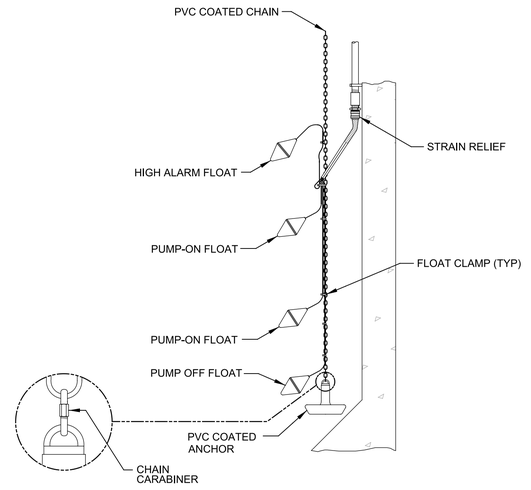
NF136 INTEGRAL MAGNETIC FLOWMETER GROUNDING DETAIL

TYP S



GENERAL NOTES:

1. NUMBER OF FLOATS SHALL BE AS SHOWN ON SCHEMATICS AND P&IDS.
2. FLOATS SHOWN IN FREE HANGING POSITION.



NL100 FLOAT SWITCH INSTALLATION

TYP S

NL101 FLOAT SWITCH INSTALLATION

TYP S

NOTES:

1. NUMBER OF FLOATS AS SHOWN ON DRAWINGS.

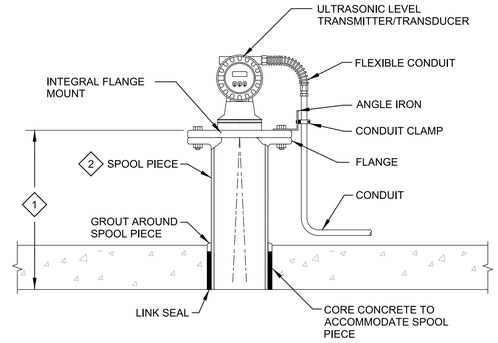
NL132 TYP S — DROP-IN PRESSURE TRANSMITTER DESICCANT J-BOX DETAIL

NL133 TYP S — PRESSURE TRANSDUCER ANCHOR WEIGHT DETAIL

GENERAL NOTES:



1. LENGTH OF ANTENNA EXTENSION AND SPOOL PIECE SHALL BE AS REQUIRED TO INSTALL LCD DISPLAY.
2. CONTRACTOR SHALL SCAN THE EXISTING REBAR IN THE SLAB AND CORE DRILL MAXIMUM 8" DIAMETER CONCRETE WITHOUT DAMAGING THE EXISTING STEEL REINFORCEMENT IN SLAB. THE CORE DRILL SHALL BE LOCATED SUCH THAT THERE WILL BE MINIMUM 1 1/2" CLEARANCE (CONCRETE COVER) BETWEEN EXISTING REBAR AND CORE DRILL.

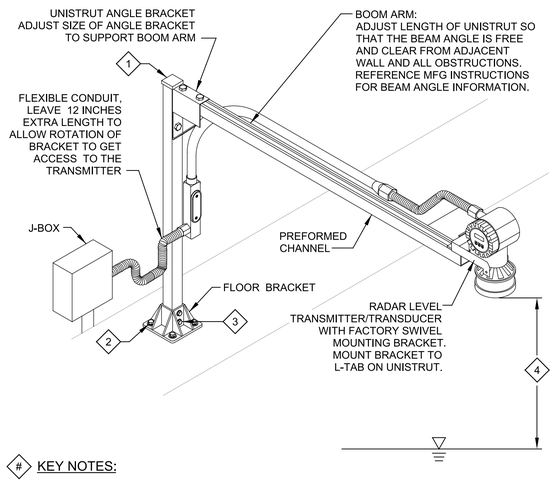
KEY NOTES:

1. 1 INCH LARGER THAN DIAMETER OF RADAR HORN.
2. PROVIDE ANTENNA EXTENSION SUCH THAT THE RADAR HORN EXTENDS INTO THE STRUCTURE, PER MANUFACTURER'S RECOMMENDATION.
3. VERIFY SUITABLE ANTENNA EXTENSION IS AVAILABLE.

NL153 TYP R — RADAR INSTRUMENT MOUNTING DETAIL

11/9/2022

GENERAL NOTES:

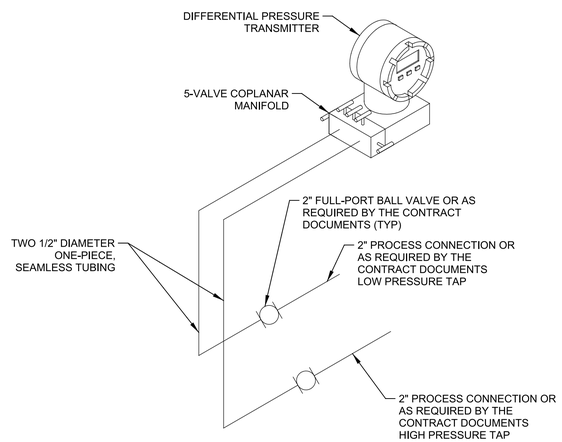


1. DO NOT DAMAGE OR CUT ANY EXISTING REBAR.
2. CONTRACTOR SHALL SCAN THE EXISTING REBAR IN THE SLAB AND CORE DRILL MAXIMUM 8" DIAMETER CONCRETE WITHOUT DAMAGING THE EXISTING STEEL REINFORCEMENT IN SLAB. THE CORE DRILL SHALL BE LOCATED SUCH THAT THERE WILL BE MINIMUM 1 1/2" CLEARANCE (CONCRETE COVER) BETWEEN EXISTING REBAR AND CORE DRILL.

KEY NOTES:

1. MINIMUM DISTANCE BETWEEN HIGHEST POSSIBLE LEVEL, INCLUDING OVERFLOW, AND PROBE FACE SHALL BE MANUFACTURER'S BLANKING ZONE PLUS 2 INCHES.
2. MINIMUM 6 INCHES DIAMETER. INCREASE DIAMETER AS REQUIRED TO ALLOW CONE ANGLE TO CLEAR BOTTOM OF THE TANK NOZZLE. MAXIMUM 8 INCHES DIAMETER OPENING.

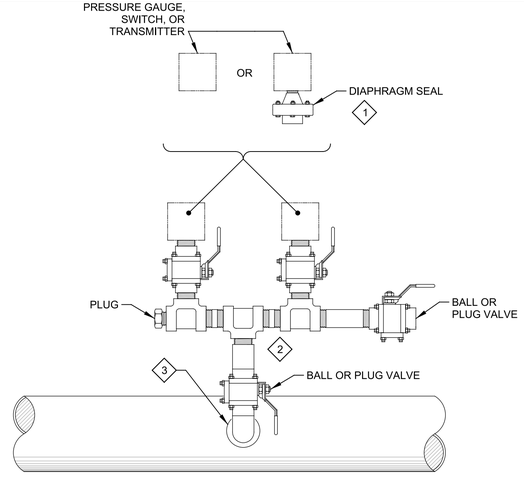
NL175 TYP R — ULTRASONIC LEVEL TRANSMITTER MOUNTING DETAIL



11/9/2022

KEY NOTES:

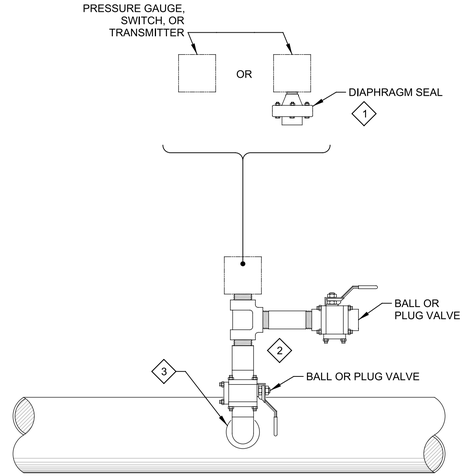
1. CONTRACTOR SHALL FURNISH END CAPS AND CHANNEL CAPS ON ALL EXPOSED PREFORMED CHANNEL.
2. USE APPROVED CONCRETE ANCHOR AND FASTENERS.
3. TO ACCESS TRANSDUCER/TRANSMITTER REMOVE BOLTS FROM FLOOR BRACKET.
4. MINIMUM DISTANCE BETWEEN HIGHEST POSSIBLE LEVEL, INCLUDING OVERFLOW, AND PROBE FACE SHALL BE MANUFACTURER'S BLANKING ZONE PLUS 2 INCHES.



NL180 TYP R — RADAR LEVEL TRANSDUCER/TRANSMITTER FLUME OR BASIN MOUNTING DETAIL

GENERAL NOTES:

1. SLOPE BOTH 1/2" IMPULSE LINES DOWN AWAY FROM THE DP TRANSMITTER TOWARDS BOTH PROCESS CONNECTIONS A MINIMUM OF 1" PER 1/2" OF HORIZONTAL RUN.
2. INSTALL TRANSMITTER USING MANUFACTURER PROVIDED PIPE MOUNTING BRACKET ATTACHED TO AN APPROVED STRUCTURE.
3. SUPPORT ALL 1/2" TUBING EVERY 48" OF RUN MAXIMUM OR AS NEEDED.



NP188 TYP S — DIFFERENTIAL PRESSURE TRANSMITTER GAS OR AIR APPLICATIONS WITH COPLANAR MANIFOLD

KEY NOTES:

1. USE THE INSTRUMENT DATA SHEETS IN DIVISION 17 OR DIVISIONS 40 SPECS TO IDENTIFY INDIVIDUAL REQUIREMENTS FOR DIAPHRAGM SEALS.
2. ALL VALVE AND PIPE MATERIAL SHALL BE COMPATIBLE WITH PROCESS FLUID.
3. THREADED TAP OR SADDLE CONNECTION FOR DUCTILE IRON PIPE. WELD-O-LET OR THREAD-O-LET FOR WELDED PIPE. TEE OR REDUCING TEE FOR NON-METALLIC PIPE.

NP501 TYP S — MULTIPLE PRESSURE INSTRUMENTS MOUNTING DETAIL

KEY NOTES:

1. USE THE INSTRUMENT DATA SHEETS IN DIVISION 17 OR DIVISIONS 40 SPECS TO IDENTIFY INDIVIDUAL REQUIREMENTS FOR DIAPHRAGM SEALS.
2. ALL VALVE AND PIPE MATERIAL SHALL BE COMPATIBLE WITH PROCESS FLUID.
3. THREADED TAP OR SADDLE CONNECTION FOR DUCTILE IRON PIPE. WELD-O-LET OR THREAD-O-LET FOR WELDED PIPE. TEE OR REDUCING TEE FOR NON-METALLIC PIPE.

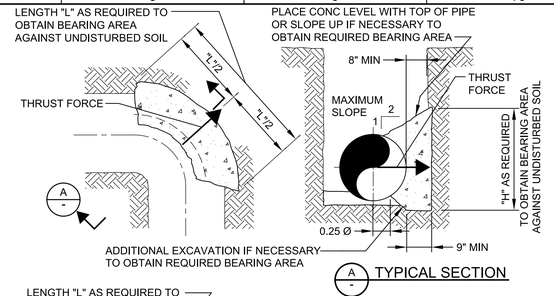
CY111 TYP J — PIPE TRENCH



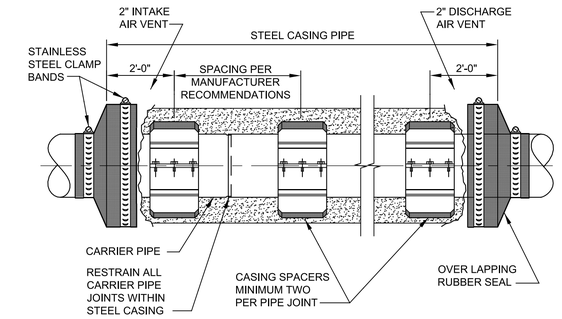
SHEET 1 OF 2 08/19/22

NOTES:

1. IN GENERAL, TRENCH WALLS SHALL BE VERTICAL. IN OPEN FIELD CONSTRUCTION, THE WALLS MAY BE SLOPE TO REMOVED THE NEED FOR SHORING, CM TO APPROVE SLOPED TRENCHING PRIOR TO SLOPED EXCAVATION.
2. WHERE MECHANICAL RESTRAINTS ARE USED, THE MINIMUM CLEARANCES SHALL BE MAINTAINED FROM TRENCH WALL TO OUTSIDE OF PIPE RESTRAINT MATERIALS. THE MINIMUM CLEARANCE SHALL NOT BE LESS THAN 9-INCH TO ENSURE ADEQUATE SPACE FOR APPLICATION OF CORROSION PROTECTION OF JOIN RESTRAINT.
3. FOR PAVED AREAS, TRENCH BACKFILL SHALL BE CLASS II AB AT 95% COMPACTION. FOR UNIMPROVED AREAS, TRENCH BACKFILL SHALL BE NATIVE MATERIAL AT 90% COMPACTION AND UPPER 30" SHALL BE NATIVE MATERIAL AT 85% COMPACTION.
4. REPLACE ALL TRAFFIC STRIPING AS REQUIRED.
5. REFER TO SECTION 02318 FOR TRENCH WIDTH.

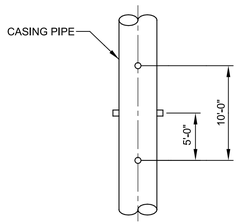
CY111 TYP J — PIPE TRENCH

SHEET 2 OF 2 08/19/22



NOTES:

1. BEARING AREA IS THE AREA REQUIRED TO OBTAIN A MAXIMUM PRESSURE NOT GREATER THAN 1500 PSF AT THE TOP OF THRUST BLOCK WHEN THE PIPE IS SUBJECTED TO ITS TEST PRESSURE. OR BEARING AREA INDICATED ON THE DRAWINGS USING A PASSIVE RESISTANCE OF 200 PSF/FT DEPTH.
2. CONCRETE SHALL BE CLASS "A" OR "C".
3. THRUST BLOCK SHALL BEAR ON UNDISTURBED SOIL.



CY131 TYP SN — THRUST RESTRAINT - BURIED THRUST BLOCK

SHEET 2 OF 3 08/19/22

CASING / CARRIER PIPE		
8-12" SPACER WIDTH		
CARRIER PIPE SIZE	CASING ID	MIN THICKNESS *
18"	29"	0.500"

* CASING WALL THICKNESS TO BE VERIFIED BY CONTRACTOR'S ENGINEER (LICENSED IN THE STATE WHERE PROJECT IS LOCATED) FOR MAXIMUM JACKING LOADS AND PIPE BENDING.

NOTES:

1. STEEL CASING PIPE SHALL CONFORM TO THE REQUIREMENTS OF ASTM A283, GRADE B, C, OR D. ALL JOINTS SHALL BE WELDED. INTERIOR JOINTS SHALL BE GROUND TO SMOOTH FINISH. ALL WELDING SHALL BE PERFORMED IN ACCORDANCE WITH AWWA C206, "AWWA STANDARD FOR FIELD WELDING OF STEEL WATER PIPE." COATINGS FOR STEEL CASING ARE NOT REQUIRED.
2. CASING PIPE SHALL BE LAID TRUE TO LINE AND GRADE WITH NO BENDS OR CHANGES IN GRADE FOR THE FULL LENGTH OF THE CASING.
3. ADVANCE PRODUCTS AND SYSTEMS, INC., OR EQUAL, CASING SPACERS AND END SEALS SHALL BE INSTALLED PER MANUFACTURER'S SPECIFICATIONS.
4. ALL PIPE JOINTS WITHIN THE CASING ARE TO BE FULLY RESTRAINED.
5. ANNULAR SPACE BETWEEN CARRIER PIPE AND CASING TO BE FILLED WITH CLSM PER THE SPECIFICATIONS.
6. CONTACT GROUT SHALL BE PLACED BETWEEN THE CASING PIPE AND THE GROUND PER THE SPECIFICATIONS.
7. CASINGS SHALL BE INSTALLED TO THE GRADE SHOWN ON THE DRAWINGS, WITH A MAXIMUM VERTICAL DEVIATION OF +0" AND -2", AND A MAXIMUM HORIZONTAL DEVIATION OF ±2" PROVIDED THE ALIGNMENT DOES NOT CONFLICT WITH OTHER UTILITIES AND/OR RIGHTS-OF-WAY.
8. CONTRACTOR TO PROVIDE LOCATIONS OF INTAKE AND DISCHARGE AIR VENTS.

NOTES:

1. SEE SPECIFICATIONS FOR ACCEPTABLE BACKFILL MATERIALS.

S055 TYP S — STRUCTURAL BACKFILL - OUTSIDE STRUCTURE

07/08/16

1. SEE DIVISION 03 SPECIFICATION FOR REQUIREMENTS FOR CONCRETE CONSTRUCTION.
2. UNLESS OTHERWISE INDICATED ON THE DRAWINGS, MINIMUM REINFORCEMENT OF CONCRETE WALLS OR SLABS SHALL BE AS FOLLOWS. CONTACT ENGINEER FOR LOCATIONS INSIDE CONCRETE.
   10" THICK OR LESS: .....#5 @ 12" EACH WAY.
   MORE THAN 10" THICK: .....#5 @ 12" EACH WAY, EACH FACE.
3. WALL REINFORCEMENT AT CORNERS OR JUNCTIONS OF WALLS SHALL BE CONTINUOUS, LAP SPLICED, OR TERMINATED IN AN ACI STANDARD 90 DEGREE HOOK. SEE DETAIL S144/TYP.
4. UNLESS OTHERWISE INDICATED ON THE DRAWINGS, DOWELS BETWEEN ADJACENT CONCRETE PLACEMENTS SHALL BE THE SAME SIZE AND SPACING AS THE REINFORCEMENT WHICH IS SPLICED TO THE DOWELS.
5. SLAB, BEAM AND COLUMN REINFORCING BARS SHALL HAVE A MINIMUM EXTENSION OR ANCHORAGE INTO SUPPORTS IN ACCORDANCE WITH ACI 318 AND ACI 350.
6. PROVIDE STIRRUP SUPPORT BARS SHALL BE TO SECURE TOP BARS AGAINST DISPLACEMENT AS REQUIRED.
7. UNLESS OTHERWISE INDICATED ON THE DRAWINGS, CONCRETE COVER OVER #11 AND SMALLER REINFORCING BARS SHALL BE AS FOLLOWS:
   A. SLABS AND JOISTS:
      FORMED CONCRETE SURFACES AND UNFORMED TOP SURFACES FOR DRY CONDITIONS
      #7 BARS AND SMALLER.....1"
      #8 BARS AND LARGER.....1 1/2"
      FORMED CONCRETE SURFACES AND UNFORMED TOP SURFACES EXPOSED TO WEATHER, IN CONTACT WITH SOIL OR FLUIDS, OR LOCATED OVER FLUIDS.....2"
   B. BEAMS AND COLUMNS:
      FORMED CONCRETE SURFACES FOR DRY CONDITIONS:
      STIRRUPS, SPIRALS, AND TIES.....1 1/2"
      PRINCIPAL REINFORCEMENT.....2"
      FORMED CONCRETE SURFACES EXPOSED TO WEATHER, IN CONTACT WITH SOIL OR FLUIDS, OR IN BEAMS LOCATED OVER FLUIDS:
      STIRRUPS AND TIES.....2"
      PRINCIPAL REINFORCEMENT.....2 1/2"
   C. WALLS:
      FORMED CONCRETE SURFACES FOR DRY CONDITIONS:
      #7 BARS AND SMALLER.....1"
      #8 BARS AND LARGER.....1 1/2"
      FORMED CONCRETE SURFACES EXPOSED TO WEATHER, OR IN CONTACT WITH SOIL OR FLUIDS.....2"
   D. FOOTINGS AND SLABS ON GRADE:
      FORMED VERTICAL CONCRETE SURFACES.....2"
      AT UNFORMED CONCRETE SURFACES CAST AGAINST SOIL, ROCK, OR CONCRETE WORK MATS.....3"
      TOP SURFACE OF FOOTINGS AND SLABS.....SAME AS SLABS
8. WATERSTOPS:
   A. PROVIDE WATERSTOPS AT JOINTS IN SLABS AND WALLS OF LIQUID-CONTAINING STRUCTURES, AND PORTIONS OF STRUCTURES BELOW THE DESIGN GROUNDWATER LEVEL. MAKE WATERSTOPS CONTINUOUS THROUGH STRUCTURE, SPLICING WATERSTOPS IN SLABS WITH WATERSTOPS IN WALLS.
   B. END WATERSTOPS 3" BELOW TOP OF WALLS. WHERE TOP OF WALL IS COVERED BY A SLAB WITHOUT WATERSTOPS, CONTINUE WATERSTOP TO WALL/SLAB JOINT. WHERE TOP OF WALL IS COVERED BY A SLAB WITH WATERSTOPS, MAKE WATERSTOPS CONTINUOUS, SPLICING WATERSTOPS IN WALLS WITH WATERSTOPS IN SLAB.
9. CURE CONCRETE IN ACCORDANCE WITH THE CONTRACT DOCUMENTS. WHERE WATER CURING IS SPECIFIED, MEMBRANE CURING IS NOT ALLOWED.
   A. THE CONTRACTOR IS WARNED THAT WATER CURING IS DIFFICULT AT TIMES DUE TO WIND AND DRY CONDITIONS. STUDY SPECIFICATION REQUIREMENTS AND FURNISH ADEQUATE SYSTEMS TO PROVIDE WATER CURING WHERE REQUIRED.
   B. KEEP WATER CURED SURFACES VISIBLY MOIST AT ALL TIMES. FLOOD TOPS OF WALLS NOT LESS THEN 3 TIMES DAILY.
10. DO NOT PLACE BACKFILL AGAINST WALLS UNTIL:
    A. WALLS HAVE BEEN CAST TO FULL HEIGHT OF STRUCTURE AND CONCRETE HAS REACHED THE MINIMUM SPECIFIED COMPRESSIVE STRENGTH (f'c).
    B. CONNECTING SLABS AND BEAMS HAVE BEEN CAST AND CONCRETE IN THOSE ELEMENTS HAS REACHED THE MINIMUM SPECIFIED COMPRESSIVE STRENGTH (f'c).
11. LAP SPLICES:
    A. SEE TABLE 1 OF THIS DETAIL FOR LAP SPLICE LENGTHS.
    B. WHEN MULTIPLE BARS ARE SPLICED AT THE SAME SECTION, THE "CLEAR BAR SPACING" IS DEFINED AS THE MINIMUM CLEAR DISTANCE BETWEEN THE BARS OUTSIDE THE SPLICE LENGTH MINUS ONE BAR DIAMETER.
    C. UNLESS OTHERWISE INDICATED ON THE DRAWINGS, BARS AT A LAP SPLICE SHALL BE IN CONTACT WITH EACH OTHER.
    D. "TOP BARS" ARE HORIZONTAL REINFORCEMENT AT LOCATIONS WHERE MORE THAN 12 INCHES OF FRESH CONCRETE IS CAST IN THE MEMBER BELOW THE BAR.
12. FORM EXPOSED CONCRETE CORNERS AND EDGES WITH 3/4" CHAMFER UNLESS OTHERWISE INDICATED ON THE DRAWINGS.

S101 TYP S — REINFORCED CONCRETE NOTES

SHEET 1 OF 3 03/12/19

S101 TYP S — REINFORCED CONCRETE NOTES

SHEET 2 OF 3 03/12/19

TABLE 1: REINFORCING BAR LAP SPLICES: f'c = 4000 PSI, Fy = 60,000 PSI

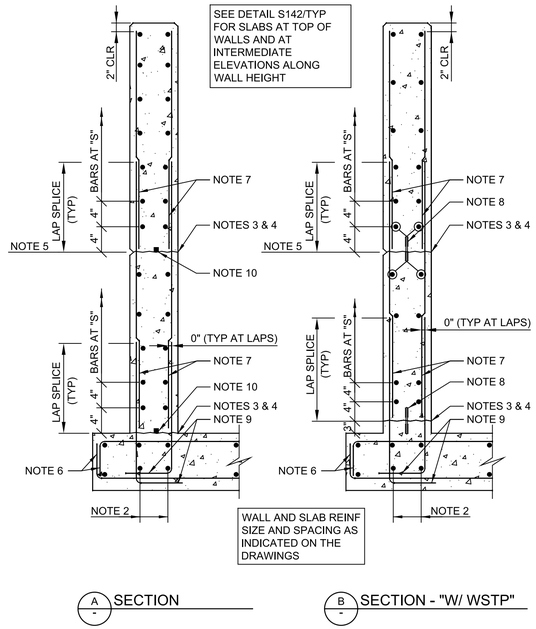
WATER BEARING SLAB LESS THAN 12" THICK



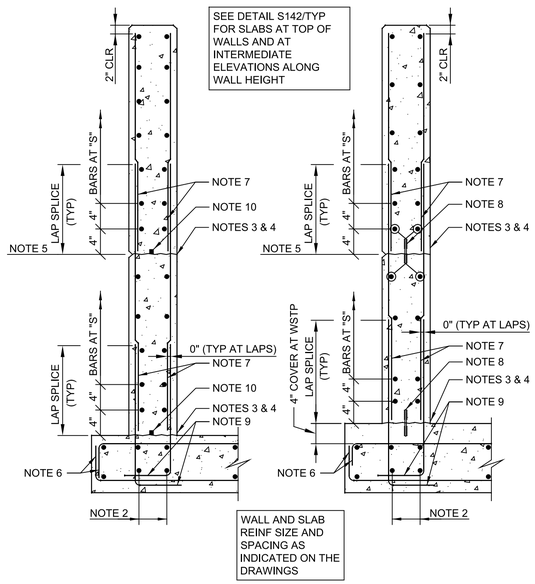
NOTES:

1. 9" WATERSTOP WITH CENTER BULB CENTERED ON JOINT - SEE DETAIL S106/TYP. PROVIDE WIRE TIES MAX 2'-0" OC. HOG RINGS MAY BE USED IN LIEU OF WIRE LOOPS. THOROUGHLY CLEAN WATERSTOP BEFORE PLACING CONCRETE IN SECOND POUR.
2. JOINT EDGES:
   A. FOR WALLS AND BOTTOM OF EXPOSED SLABS: FORM EDGES WITH 3/4" CHAMFER.
   B. FOR SLABS: EDGE TOP AND ENDS WITH 1/4" RADIUS.
3. "W"=1" UNLESS OTHERWISE INDICATED ON PLANS. (MIN JOINT WIDTH = 3/8". MAX JOINT WIDTH = 2")
4. USE DETAIL A ONLY AT SOIL SIDE OF SLABS ON GRADE. USE DETAIL B AT ALL OTHER LOCATIONS.

S130 EXPANSION JOINT

TYP S

S140 CONSTRUCTION JOINT - WALLS



TYP S, N

NOTES:

1. "S" EQUALS TYPICAL BAR SPACING INDICATED ON THE DRAWINGS.
2. PLACE AND ALIGN BARS BEFORE PLACING DOWELS. BAR SIZE TO MATCH SLAB BARS.
3. WATER-BLAST JOINT FACE AND PROJECTING REINFORCEMENT BEFORE PLACING CONCRETE.
4. PLACE CEMENT GROUT OVER JOINT FACE IMMEDIATELY BEFORE PLACING CONCRETE. (SEE SPECIFICATIONS.)
5. CONSTRUCTION JOINT WHERE INDICATED ON THE DRAWINGS. WHERE WALL SURFACE IS EXPOSED TO VIEW IN THE FINISHED WORK, PROVIDE V-GROOVE PER DETAIL S162/TYP.
6. STANDARD 90° HOOK WHERE INDICATED ON THE DRAWINGS. (ALTERNATE: PROVIDE 180° HOOK WHERE REQUIRED BY SLAB THICKNESS.)
7. DOWELS: SAME SIZE AND SPACING AS VERTICAL WALL BARS, UNLESS OTHERWISE NOTED.
8. 6" PVC WATERSTOP CENTERED VERTICALLY ON JOINT. PROVIDE WIRE TIES MAX 2'-0" OC. HOG RINGS MAY BE USED IN LIEU OF WIRE LOOPS. THOROUGHLY CLEAN WATERSTOP BEFORE PLACING CONCRETE.
9. STANDARD 90° HOOK UNLESS OTHERWISE INDICATED ON THE DRAWINGS.
10. WHERE DRAWINGS INDICATE "W/ STRIP WSTP" PROVIDE LOW EXPANSION HYDROPHILIC WATERSTOP AT TOP SURFACE OF JOINT AND CENTERED BETWEEN VERTICAL BARS.

S140 CONSTRUCTION JOINT - WALLS

TYP S, N

S141 CONSTRUCTION JOINT - WALLS

TYP S, N

NOTES:

1. "S" EQUALS TYPICAL BAR SPACING INDICATED ON THE DRAWINGS.
2. PLACE AND ALIGN BARS BEFORE PLACING DOWELS. BAR SIZE TO MATCH SLAB BARS.
3. WATER-BLAST JOINT FACE AND PROJECTING REINFORCEMENT BEFORE PLACING CONCRETE.
4. PLACE CEMENT GROUT OVER JOINT FACE IMMEDIATELY BEFORE PLACING CONCRETE. (SEE SPECIFICATIONS.)
5. CONSTRUCTION JOINT WHERE INDICATED ON THE DRAWINGS. WHERE WALL SURFACE IS EXPOSED TO VIEW IN THE FINISHED WORK, PROVIDE V-GROOVE PER DETAIL S162/TYP.
6. STANDARD 90° HOOK WHERE INDICATED ON THE DRAWINGS. (ALTERNATE: PROVIDE 180° HOOK WHERE REQUIRED BY SLAB THICKNESS.)
7. DOWELS: SAME SIZE AND SPACING AS VERTICAL WALL BARS, UNLESS OTHERWISE NOTED.
8. 6" PVC WATERSTOP CENTERED VERTICALLY ON JOINT. PROVIDE WIRE TIES MAX 2'-0" OC. HOG RINGS MAY BE USED IN LIEU OF WIRE LOOPS. THOROUGHLY CLEAN WATERSTOP BEFORE PLACING CONCRETE.
9. STANDARD 90° HOOK UNLESS OTHERWISE INDICATED ON THE DRAWINGS.
10. WHERE DRAWINGS INDICATE "W/ STRIP WSTP" PROVIDE LOW EXPANSION HYDROPHILIC WATERSTOP AT TOP SURFACE OF JOINT AND CENTERED BETWEEN VERTICAL BARS.

S142 TYP — CONSTRUCTION JOINT - WALLS AT ELEVATED SLABS

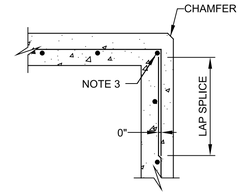
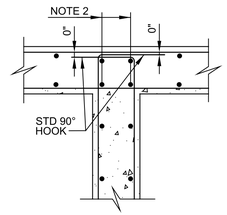
S,N | SHEET 2 OF 3 | 03/12/19

NOTES:

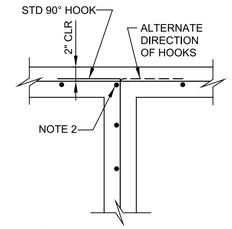


1. "S" EQUALS TYPICAL BAR SPACING INDICATED ON THE DRAWINGS.
2. AT INTERSECTION, MAKE BAR SIZE THE LARGER OF BAR SIZES IN ADJACENT SLAB OR WALL. PLACE BARS AT SAME LAYERS AS IN ADJACENT SLAB OR WALL.
3. WATER-BLAST JOINT FACE AND PROJECTING REINFORCEMENT BEFORE PLACING CONCRETE.
4. PLACE CEMENT GROUT OVER JOINT FACE IMMEDIATELY BEFORE PLACING CONCRETE. (SEE SPECIFICATIONS)
5. CONSTRUCTION JOINT WHERE INDICATED ON THE DRAWINGS. WHERE WALL SURFACE IS EXPOSED TO VIEW IN THE FINISHED WORK, PROVIDE V-GROOVE PER DETAIL S162/TYP.
6. STANDARD 90° HOOK UNLESS OTHERWISE INDICATED ON THE DRAWINGS.
7. STANDARD 180° HOOK (ALTERNATE: 90° HOOK ROTATED OUT OF VERTICAL PLANE IF APPROVED BY ENGINEER.)
8. 6" PVC WATERSTOP CENTERED VERTICALLY ON JOINT. PROVIDE WIRE TIES MAX 2'-0" OC. HOG RINGS MAY BE USED IN LIEU OF WIRE LOOPS. THOROUGHLY CLEAN WATERSTOP BEFORE PLACING CONCRETE.
9. 1 BAR DIAMETER CLEAR.
10. WHERE DRAWINGS INDICATE "W/ STRIP WSTP" PROVIDE LOW EXPANSION HYDROPHILIC WATERSTOP AT TOP SURFACE OF JOINT AND CENTERED BETWEEN VERTICAL BARS.
11. STANDARD 180° HOOK WHERE INDICATED ON THE DRAWINGS.

S142 TYP — CONSTRUCTION JOINT - WALLS AT ELEVATED SLABS



S,N | SHEET 3 OF 3 | 03/12/19

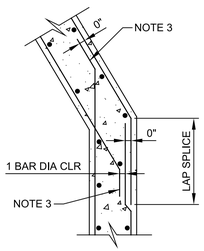


A - DETAIL - CORNER: DOUBLE MAT

B - DETAIL - CORNER: SINGLE MAT

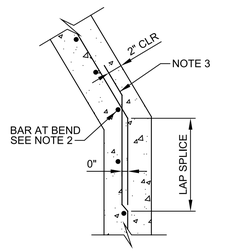
C - DETAIL - INTERSECTION: DOUBLE MAT

D - DETAIL - INTERSECTION: SINGLE MAT



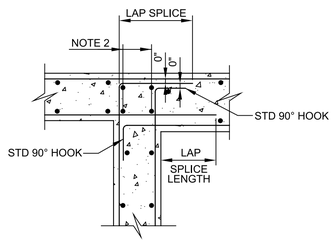
NOTES:

1. BAR SIZE, SPACING, AND ORIENTATION OF BAR LAYERS SHALL BE AS INDICATED ON THE DRAWINGS.
2. AT INTERSECTION, MAKE BAR SIZE THE LARGER OF BAR SIZES IN CONNECTING WALLS. PLACE BARS IN SAME LAYERS AS AT CONNECTING WALLS (TYP).
3. BAR TAILS: 12 BAR DIAMETERS PLUS 12".



S144 TYP — WALL REINFORCEMENT AT CORNERS & INTERSECTIONS

SHEET 1 OF 2



S | 05/31/16

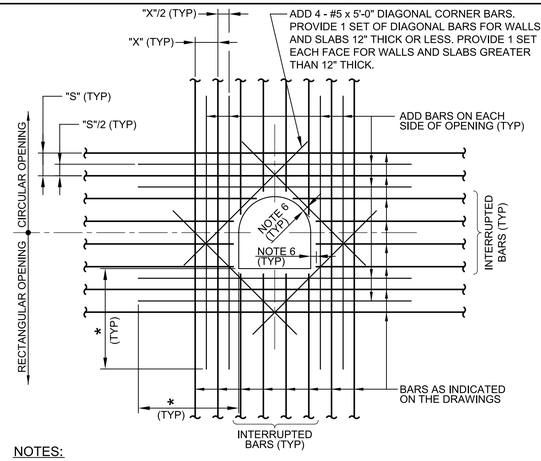
S144 TYP — WALL REINFORCEMENT AT CORNERS & INTERSECTIONS

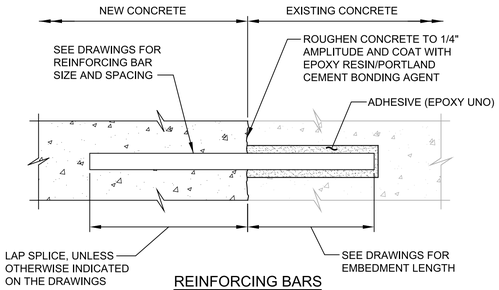


SHEET 2 OF 2

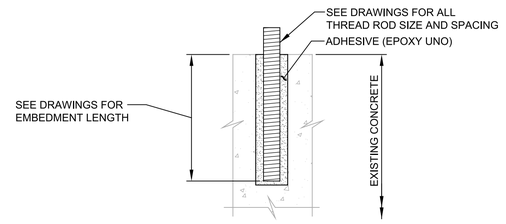
S | 05/31/16

S162 TYP — V-GROOVE JOINT

N | 07/21/16



NOTES:



1. AREA OF ADD BARS AT EACH EDGE OF OPENING IN EACH DIRECTION SHALL BE EQUAL TO OR GREATER THAN 1/2 THE CROSS SECTIONAL AREA OF THE INTERRUPTED BARS.
2. PROVIDE STANDARD ACI HOOKS ON BARS IF STRAIGHT EXTENSION PAST THE OPENING, CANNOT BE ACHIEVED.
3. PLACE ADD BARS IN SAME PLANES AS INTERRUPTED REINFORCING.
4. PLACE #5 DIAGONAL BARS ON INSIDE OF INTERRUPTED REINFORCING.
5. * DIMENSION EQUALS OPENING DIMENSION MEASURED PERPENDICULAR TO ADD BARS PLUS LAP SPLICE LENGTH.
6. 2" CLEAR TO CONCRETE OPENINGS OR OUTSIDE FACE OF PIPES AND PIPE SLEEVES. DO NOT OVERCUT REINFORCEMENT FOR EASIER PLACEMENT OF WEEP RINGS AND FLANGES.
7. ADD BARS ARE NOT REQUIRED AT SIDES OF OPENINGS PARALLEL TO AND WITHIN 6" OF A WALL OR BEAM.

S180 TYP — ADDITIONAL REINFORCING AT OPENINGS IN CONCRETE SLABS OR WALLS

S, N | 03/12/19

REINFORCING BARS

ALL-THREAD RODS

NOTE:

1. INSTALLATION OF REINFORCING BARS AND ALL THREAD RODS AS INDICATED IN THE SPECIFICATIONS.

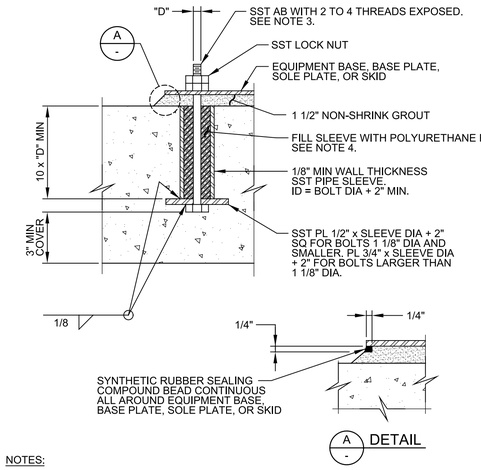
NOTE:

1. DIMENSIONS AS REQUIRED TO SUIT EQUIPMENT OR AS INDICATED ON THE DRAWINGS.

S300 TYP S — EQUIPMENT SLAB

12/15/20

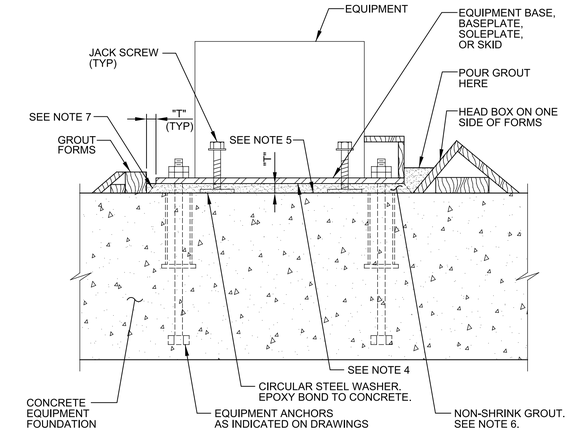


NOTES:

1. "D" = DIAMETER OF ANCHOR BOLT.
2. THE EDGE DISTANCE ON THE ANCHOR BOLTS SHALL NOT BE LESS THAN 6" OR 8 x "D".
3. PAD DIMENSIONS AND ANCHOR BOLT SIZE SHALL CONFORM TO EQUIPMENT MANUFACTURER'S REQUIREMENTS.
4. HEIGHT TO SUIT EQUIPMENT FURNISHED OR AS INDICATED ON THE DRAWINGS.
5. PROVIDE HOOPS OR CORNERS PER DETAIL S144/TYP.
6. FIELD LOCATE EXISTING REINFORCEMENT IN SLAB BEFORE DRILLING. ADJUST DOWEL LOCATIONS TO AVOID REINFORCEMENT.

S304 TYP N — EQUIPMENT BASE ON EXISTING CONCRETE

12/29/2017

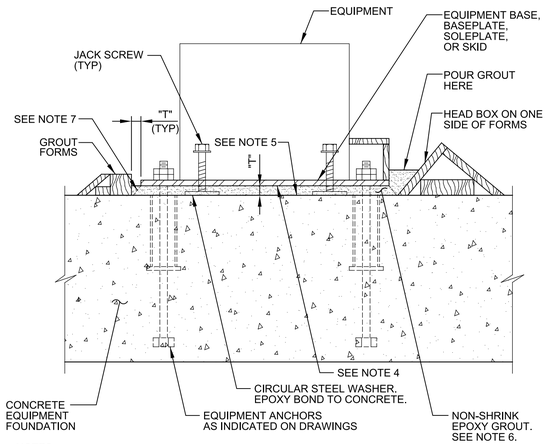


NOTES:

1. "D" = DIAMETER OF ANCHOR BOLT.
2. ANCHOR BOLT DIAMETER AS INDICATED ON THE DRAWINGS. IF NOT INDICATED ON THE DRAWINGS, THE ANCHOR BOLT SIZE SHALL BE AS RECOMMENDED BY THE EQUIPMENT MANUFACTURER.
3. DO NOT USE ALL THREAD RODS AS A SUBSTITUTE FOR BOLTS WITH A BOLT HEAD.
4. COMPLETELY REMOVE ANY POLYURETHANE FOAM FROM CONCRETE, EQUIPMENT BASE, BASE PLATE, SOLE PLATE, OR SKID, AND ANCHOR BOLTS ABOVE TOP OF CONCRETE.
5. DO NOT USE LEVELING NUTS TO SUPPORT AND LEVEL EQUIPMENT BASE, BASE PLATE, SOLE PLATE, OR SKID.

S312 TYP N — ANCHOR BOLT - IN SLEEVE

05/20/15

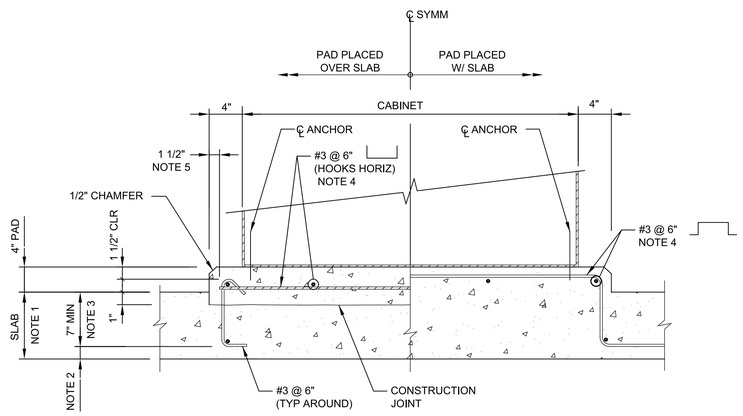


NOTES:

1. "T" = EQUALS GROUT THICKNESS INDICATED ON THE DRAWING. 1" MINIMUM GROUT THICKNESS.
2. FILL ANCHOR SLEEVES WITH POLYURETHANE FOAM BEFORE GROUTING.
3. DO NOT USE LEVELING NUTS ON EQUIPMENT ANCHORS.
4. PREPARE SURFACE OF EQUIPMENT BASES, BASE PLATES, SOLE PLATES, AND SKIDS IN CONTACT WITH GROUT AS SPECIFIED IN SECTION 15050 (46_05_10).
5. PREPARE SURFACES OF CONCRETE FOUNDATION IN CONTACT WITH GROUT AS SPECIFIED IN SECTION 15050 (46_05_10).
6. PLACE NON-SHRINK GROUT AS SPECIFIED IN SECTION 15050 (46_05_10).
7. AFTER GROUT SETS, TRIM GROUT TO 45 DEGREE CHAMFER.

S320 TYP N — EQUIPMENT GROUTING WITH NON-SHRINK GROUT

12/15/20

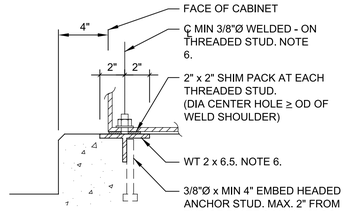


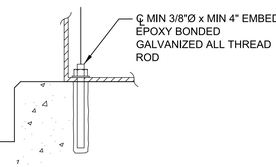
NOTES:

1. "T" = EQUALS GROUT THICKNESS INDICATED ON THE DRAWING. 1" MINIMUM GROUT THICKNESS.
2. FILL ANCHOR SLEEVES WITH POLYURETHANE FOAM BEFORE GROUTING.
3. DO NOT USE LEVELING NUTS ON EQUIPMENT ANCHORS.
4. PREPARE SURFACE OF EQUIPMENT BASES, BASE PLATES, SOLE PLATES, AND SKIDS IN CONTACT WITH GROUT AS SPECIFIED IN SECTION 15050 (46_05_10).
5. PREPARE SURFACES OF CONCRETE FOUNDATION IN CONTACT WITH GROUT AS SPECIFIED IN SECTION 15050 (46_05_10).
6. PLACE NON-SHRINK EPOXY GROUT AS SPECIFIED IN SECTION 15050 (46_05_10).
7. AFTER GROUT SETS, TRIM GROUT TO 45 DEGREE CHAMFER.

S322 TYP N — EQUIPMENT GROUTING WITH NON-SHRINK EPOXY GROUT

12/29/17





NOTES:

1. SEE STRUCTURAL DRAWINGS FOR THICKNESS OF SLAB BELOW PAD. SLAB REINFORCEMENT NOT SHOWN.
2. SEE S101/ TYP FOR MIN CONCRETE COVER REQUIREMENTS.
3. CONTACT ENGINEER FOR INSTRUCTIONS WHERE HOOK EMBEDMENT IS LESS THAN DIMENSION SHOWN.
4. FOR EQUIPMENT WITH CONDUIT WINDOWS BELOW, ADJUST BAR LOCATIONS TO FIT BETWEEN WINDOWS.
5. LOCATE VERTICAL EDGE OF PAD AND VERTICAL FACE OF #3s USING VERTICAL 2x FORM DURING SLAB PLACEMENT.
6. HOT DIP GALVANIZE WT AND HEADED ANCHOR STUD ASSEMBLY. TOUCH UP GALVANIZING AFTER FIELD WELDING THREADED STUDS.

S350 TYP S — ELECTRICAL EQUIPMENT HOUSEKEEPING PAD

02/21/14

1. UNLESS OTHERWISE INDICATED ON THE DRAWINGS, MINIMUM WALL REINFORCEMENT SHALL BE AS FOLLOWS:

   A. VERTICAL REINFORCEMENT:
   #5 AT 1'-4" IN GROUTED CELLS. CENTERED IN 8" WALLS. EACH FACE IN 12" WALLS.
   ADDITIONAL REINFORCEMENT (SAME SIZE AS VERTICAL WALL BARS UNO):
   VERTICAL BARS AT CORNERS AND INTERSECTIONS: SEE DETAIL S412/TYP.
   VERTICAL BARS EACH SIDE AT MASONRY CONTROL JOINTS: SEE DETAIL S430/TYP.
   VERTICAL BARS IN FIRST 2 CELLS AT EACH JAMB OF WALL OPENINGS: SEE DETAIL S412/TYP.

   B. HORIZONTAL REINFORCEMENT:
   3/16" DIA LADDER JOINT REINFORCEMENT AT 16" OC VERTICAL. SEE DETAIL S414/TYP.
   HORIZONTAL BOND BEAMS AT LOCATIONS INDICATED IN DETAIL S410/TYP AND IN WALL SECTIONS FOR EACH STRUCTURE.
   BOND BEAM REINFORCEMENT: #5 AT 1'-4" IN GROUTED CELLS. CENTERED IN 8" WALLS. EACH FACE IN 12" WALLS.

2. LAP SPLICES:

   A. UNLESS OTHERWISE INDICATED ON THE DRAWINGS, THE BARS AT A LAP SPLICE SHALL BE IN CONTACT WITH EACH OTHER.

   B. BAR LAP SPLICES NOT SPECIFIED ON THE DRAWINGS OR IN THE FOLLOWING TABLE SHALL NOT BE LESS THAN 72 BAR DIAMETERS.

   C. THE MASONRY SIDE COVER OVER THE REINFORCING BARS SHALL NOT BE LESS THAN 2 INCHES FROM FACE OF MASONRY TO THE EXTERIOR FACE OF THE BAR.

REINFORCING BAR LAP SPLICES: f'm = 1500 psi, Fy = 60,000 psi				
BAR SIZE	LAP SPLICE LENGTH (INCHES)			
	8" CMU: BAR CENTERED IN WALL	8" CMU: BAR @ FACE OF WALL	12" CMU: BAR CENTERED IN WALL	12" CMU: BAR @ FACE OF WALL
#4	21"	26"	21"	26"
#5	26"	40"	26"	40"
#6	42"	54"	40"	54"
#7	58"	63"	46"	63"

CITY OF UKIAH, MENDOCINO COUNTY, CALIFORNIA
NOTICE TO BIDDERS FOR RECYCLED WATER PROJECT – PHASE 4 SPECIFICATION NO. 23-01

NOTICE IS HEREBY GIVEN that sealed standard proposals for RECYCLED WATER PROJECT – PHASE 4 will be received at the Office of the City Clerk, Ukiah Civic Center, 300 Seminary Avenue, Ukiah California until 2:00 p.m. on Friday, June 2, 2023. Bids shall be addressed to the City Clerk and shall be endorsed "RECYCLED WATER PROJECT – PHASE 4." Bids are required for the entire work described herein. No fax bids will be accepted. As soon thereafter as possible, the bids will be publicly opened and read in the Council Chambers at 300 Seminary Avenue, Ukiah. The bid opening will also be visible via live streaming at http://www.cityofukiah.com/meetings/.

Plans and Special Provisions may be inspected and/or copies obtained from the City's website at www.cityofukiah.com/purchasing. No bid will be considered unless it is made on the forms furnished by the City and is made in accordance with the details of the Special Provisions. Each bidder must be licensed as required by law. Further information regarding the work or these specifications can be obtained by calling Seth Strader, Administrative Analyst at (707) 467-5719 or by email at sstrader@cityofukiah.com.

The City Council reserves the right to reject any or all bids and to determine which proposal is, in its opinion, the lowest responsive bid by a responsible bidder and which it deems in the best interest of the City to accept. The City Council also reserves the right, but not the obligation, to waive any irregularity or failure to strictly comply with the bidding requirements, that the City determines in the reasonable exercise of its discretion does not provide the bidder with a competitive advantage over other bidders.

No contractor or subcontractor may be listed on a bid proposal for a public works unless registered with the Department of Industrial Relations ("DIR") pursuant to Labor Code section 1725.5 except as allowed. under Labor Code section 1771.1(the prime contractor shall be responsible for posting job site notices as prescribed by regulation. This project is subject to compliance monitoring and enforcement by the DIR.

Pursuant to provisions of Section 1770, including amendments thereof, of the Labor Code of the State of California, the DIR Director has ascertained the general prevailing rate of wages for straight time, overtime, Saturdays, Sundays and Holidays including employer payment for health and welfare, vacation, pension and similar purposes for the City of Ukiah. Copies of his General Prevailing Wage Determination are available on the Internet at web address: http://www.dir.ca.gov/DLSR/PWD/ The prime contractor for the work herein shall possess a current, valid State of California, Class A (General Engineering) Contractor's License. Pursuant to California Public Contract Code §22300, this contract includes provisions that allow substitutions of certain types of securities in lieu of the City withholding a portion of the partial payments due the Contractor to insure performance under this contract.

By order of the City Council, City of Ukiah, County of Mendocino, State of California.

Dated:_____ _____
Kristine Lawler, City Clerk, City of Ukiah, California

PUBLISH TWO TIMES:

INSTRUCTIONS TO BIDDERS

RECYCLED WATER PROJECT – PHASE 4 shall be performed in accordance with the Plans and Special Provisions therefor adopted, to which special reference is hereby made.

Each bidder must supply all the information required by the bid documents and Special Provisions.

Minority business enterprises will be afforded full opportunity to submit bids in response to this invitation and will not be discriminated against on the grounds of race, color or national origin in consideration for an award of any contract entered into pursuant to this advertisement. Women will be afforded equal opportunity in all areas of employment. However, the employment of women shall not diminish the standards or requirements for the employment of minorities.

All proposals or bids shall be accompanied by a cashier's check or certified check payable to the order of the City of Ukiah amounting to 10 percent of the bid, or by a bond in said amount and signed by the bidder and a corporate surety, payable to said City. Said check shall be forfeited, or said bond shall become payable to said City in case the bidder depositing the same does not, within fifteen (15) days after written notice that the contract has been awarded to him: (a) enter into a contract with the City and (b) furnish certificates of insurance and endorsements, a bond of faithful performance and a payment bond as described in the Special Provisions.

No bidder shall withdraw his or her bid for a period of thirty (30) calendar days after the date set by the City for the opening thereof.

The Contractor and any subcontractors shall each possess a valid City of Ukiah Business License prior to the start of any work.

The Contractor shall furnish a project schedule to the Engineer prior to the start of any work and start work as scheduled.

The work is to be completed within seven hundred and seven (707) calendar days. The Contractor will pay to the City the sum of five hundred ($500.00) dollars per day for each and every calendar day's delay beyond the time prescribed.

The staff shall notify a bidder by telephone or email, if it intends to recommend the rejection of the bidder’s bid. Any bid protest must be filed with the City Clerk not more than five calendar days following the bid opening, or 2 calendar days following notice that staff is recommending the rejection of a bid. If any such timely written protest is filed, all bidders shall be provided a copy of the protest within 2 calendar days of its receipt, which may be delivered to the bidders as an email attachment. All such bidders may file with the City Manager a written objection or other response to the protest.

All objections or responses filed not more than 5 days after receipt of the written protest will be presented to the City Council at its next regular meeting occurring not less than 12 calendar days following the bid opening. The City Council will resolve the bid protest at that meeting based on the written protest, any staff recommendation and all timely written objections and responses. In accordance with the Brown Act, any person may address the City Council on this item during the meeting. The City Council action on the protest shall represent a final decision by the City on the protest.

Examination of Site, Drawings, Etc.

Each bidder shall visit the site of the proposed work and fully acquaint himself with local conditions, construction and labor required so that he or she may fully understand the facilities, difficulties and restrictions attending the execution of the work under the Contract. Bidders shall thoroughly examine and be familiar with the Plans and Special Provisions. The failure of any bidder to receive or examine any form, instrument, addendum, or other document, or to visit the site and acquaint himself with conditions there existing, shall in no way relieve the bidder from any obligation with respect to his or her proposal or to the contract. The drawings for the work show conditions as they are supposed or believed by the Engineer to exist; but, it is neither intended nor shall it be inferred that the conditions as shown thereon constitute a representation by the Engineer, the City or its officers that such conditions are actually existent, nor shall the City, the Engineer or any of their officers or representatives be liable for any loss sustained by the Contractor as a result of a variance between the conditions shown on the drawings and the conditions actually revealed during the progress of the work or otherwise.

The bidder's attention is directed to the possible existence of obstructions and public improvements within the limits of the work or adjacent thereto, which may or may not be shown on the Drawings. Any bid shall take into consideration that conditions may exist underground or otherwise that are not known to the City or easily detected during a site inspection that could impact the time or cost of completing the project. The City expects the bids to anticipate such conditions so that it can know for budgeting and other purposes the total cost to complete the project before accepting a bid and undertaking the legal obligation to construct the project. In awarding the contract the City relies on the contractor's representation that its bid anticipates differing site conditions and the additional time or cost that such conditions may necessitate.

The bidder shall investigate to his or her satisfaction the conditions to be encountered, the character, quality and quantities of work to be performed and materials to be furnished and the requirements of the Plans, Special Provisions, Standard Specifications, Standard Plans, and Contract Documents. The submission of a proposal shall be considered conclusive evidence that the bidder has made such examination and has accepted the project workplace as a safe workplace to perform the work of the Contract.

Bidder Inquiries and Questions

Inquiries and questions must be submitted in writing via email to the following designated contact person:

Seth Strader, Administrative Analyst
Email: sstrader@cityofukiah.com

The City reserves the right to not respond to inquiries or questions submitted within 3 business days of the bid opening.

Location of the Work

All of the work to be performed is within the City of Ukiah. Project is primarily located at the following locations and as indicated on the Drawings:

- City of Ukiah Water Treatment Plant: 935 River Street, Ukiah, CA 95482
- City of Ukiah Wastewater Treatment Plant: 300 Plant Road, Ukiah, CA 95482
- Various locations within the City of Ukiah for the recycled water distribution system pipelines.

Pre-Bid Conference

A mandatory pre-bid conference will be held at the time and location indicated in the Advertisement or invitation to bid where representatives of Owner and Engineer will be present to discuss the Project.

A. Proposals will not be accepted from Bidders who do not attend the conference.
B. It is each Bidder's responsibility to sign in at the pre-bid conference to verify its participation.
    1. Bidders must sign in using the name of the organization that will be submitting a Bid.
C. An Addendum will be issued with a list of qualified Bidders that attended the pre-bid conference and who are eligible to submit a Bid for this Project.
D. Information presented at the pre-bid conference does not alter the Contract Documents.
    1. Owner will issue Addenda to make any changes to the Contract Documents that result from discussions at the pre-Bid conference.
    1. Information presented, and statements made at the pre-bid conference will not be binding or legally effective unless incorporated in an Addendum.

GENERAL CONDITIONS

SECTION 1. PROPOSAL REQUIREMENTS AND GENERAL CONDITIONS

1-01. Definitions. Whenever any word or expression defined in this section, or pronoun used in its stead, occurs in these contract documents, it shall have and is mutually understood to have the meaning given:

a. "City of Ukiah" or "City" shall mean the City of Ukiah, Mendocino County, California, acting through its City Council or any other board, body, official or officials to which or to whom the power belonging to the Council shall by virtue of any act or acts, hereafter pass or be held to appertain.

b. "Engineer" shall mean the Engineer duly and officially appointed by the City to supervise and direct the work of construction under this contract, acting personally or through agents or assistants duly authorized by him, such agents or assistants acting within the scope of the particular duties entrusted to them.

c. "Inspector" shall mean the engineering or technical inspector or inspectors duly authorized or appointed by the Engineer, limited to the particular duties entrusted to him or her or them.

d. "Contractor" shall mean the party entering into contract with the City of Ukiah for the performance of work covered by this contract and his or her authorized agents or legal representatives.

e. "Date of signing of contract" or words equivalent thereto, shall mean the date upon which this contract, with the signature of the Contractor affixed, together with the prescribed bonds, shall be or shall have been delivered to the City or its duly authorized representatives.

f. "Day" or "days", unless herein otherwise expressly defined, shall mean a calendar day or days of twenty-four hours each.

g. "The work" shall mean and include all the work specified, indicated, shown or contemplated in the contract to construct the improvement, including all alterations, amendments or extensions thereto made by contract change order or other written orders of the Engineer.

h. "Contract drawings", "drawings", "plans" shall mean and include 1) all drawings or plans which may have been prepared by or on behalf of the City, as a basis for proposals, when duly signed and made a part of this contract by incorporation or reference, 2) all drawings submitted in pursuance of the terms of this contract by the successful bidder with his or her proposal and by the Contractor to the City if and when approved by the Engineer and 3) all drawings submitted by the Engineer to the Contractor during the progress of the work as provided for herein.

i. Where "as shown", "as indicated", "as detailed" or words of similar import are used, it shall be understood that reference to the drawings accompanying these Special Provisions is made unless stated otherwise.

Where "as directed", "as permitted", "approved" or words of similar import are used, it shall be understood that the direction, requirements, permission, approval or acceptance of the Engineer is intended unless stated otherwise.

As used herein, "provide" or "install" shall be understood to mean "provide or install complete in place", that is, "furnish and install". "Shall" is mandatory; "may" is permissive.

1-02. Examination of Plans, Special Provisions and Site of Work. The bidder shall examine carefully the Proposal, Plans, Special Provisions, Contract forms and the site of the work contemplated therefor. It will be assumed that the bidder has investigated to his or her satisfaction the conditions to be encountered and the character, quality and requirements of all Plans, Special Provisions, Standard Specifications, and Standard Plans involved.

1-03. Proposal. Bids shall be made on the blank forms prepared by the City. All bids shall give the prices bid, both in writing and in figures and shall be signed by the bidder or his or her authorized representative, with his or her address. If the bid is made by an individual or partner, his or her name and the post office address of his or her business or partnership, along with his or her signature or the signature of one or more partners must be shown; if made by a corporation, the bid shall show the name of the state under the laws of which the corporation is chartered, the name of the corporation and the title of the person who signs on behalf of the corporation.

Each proposal shall be enclosed in a sealed envelope, endorsed as specified in the notice to bidders. Bidders are warned against making erasures or alterations of any kind and proposals which contain omissions, erasures, conditions, alterations, additions not called for, additional proposals or irregularities of any kind may be rejected.

1-04. Withdrawal of Bids. Any bid may be withdrawn at any time prior to the hour fixed in the notice to bidders for the openings of bids, provided that a request in writing, executed by the bidder or his or her duly authorized representative, for the withdrawal of such bid is filed with the City. The withdrawal of a bid will not prejudice the right of a bidder to file a new bid.

1-05. Public Opening of Bids. Bids will be opened and read publicly at the time and place indicated in the notice to bidders. Bidders or their agents are invited to be present.

1-06. Bid Guaranty. Each bid must be accompanied by a certified check, cashier's check or bidder's bond executed by an admitted surety insurer, payable to the order of the City of Ukiah in an amount not less than 10 percent of the bid as a guarantee that the bidder will enter into a contract, if awarded the work.

1-07. Qualification of Bidders. No contractor or subcontractor may be listed on a bid proposal for a public works project (submitted on or after March 1, 2015) unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5 [with limited exceptions from this requirement for bid purposes only under Labor Code section 1771.1(a)]. No contractor or subcontractor may be awarded a contract for public work on a public works project (awarded on or after April 1, 2015) unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. The prime contractor shall be responsible for posting job site notices as prescribed by regulation. This project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

Each bidder shall be licensed under the provisions of Chapter 9, Division 3 of the Business and Professions Code and shall be skilled and regularly engaged in the general class or type of work called for under this contract. A statement setting forth this experience and business standing shall be submitted by each bidder on the form provided herewith. It is the intention of the City to award a contract only to a bidder who furnishes satisfactory evidence that he or she has the requisite experience and ability and that he or she has sufficient capital, facilities and equipment to enable him or her to prosecute the work successfully and promptly within the time and in the manner agreed.

In determining the degree of responsibility to be credited to a bidder, the City may weigh evidence that the bidder or his or her personnel charged with the responsibility in the work, has performed satisfactorily other contracts of like nature and magnitude or comparable difficulty at similar rates of progress.

1-08. Disqualification of Bidders. More than one bid from an individual business, partnership, corporation or association, under the same or different names, will not be considered. Reasonable grounds for believing that any bidder is financially interested in more than one bid for the work will cause the rejection of all bids in which he or she is so interested. If there is reason to believe that collusion exists among the bidders, none of the participants in such collusion will be considered. Bids in which the prices obviously are unbalanced may be rejected.

1-09. Identification of Subcontractors. All bids shall comply with the Subletting and Subcontracting Fair Practices Act (Public Contract Code Section 4100 and following) and shall set forth:

> (a) The name and the location of the place of business of each subcontractor who will perform work or labor, or render service to the prime contractor in or about the construction of the work, or to a subcontractor licensed by the State of California who, under subcontract to the prime contractor, specially fabricates and installs a portion of the work according to detailed drawings contained in the

plans and Special Provisions, in an amount in excess of one-half of 1 percent of the prime contractor's total bid.

(b) The portion of the work which will be done by each such subcontractor. The prime contractor shall list only one subcontractor for each such portion defined by the prime contractor in his or her bid.

1-10. General Provisions of the Standard Specifications. All provisions of the General Provisions, Sections 1 through 11, of the Standard Specifications, shall be applicable to the contract except as modified by these Special Provisions. The Standard Specifications are set forth in Section 12-06 of these Special Provisions.

1-11. Addenda. If it becomes necessary to revise any part of these plans and specifications after they have been released, the City will issue an addendum containing the revision. All addenda will be posted on the City's website at www.cityofukiah.com/purchasing with the rest of the bid documents. Anyone who intends to submit a bid in response to this Request for Bid must check the website frequently for any posted addenda. Anyone submitting a bid will be deemed to have seen and agreed to be bound by the posted addenda.

SECTION 2. AWARD AND EXECUTION OF CONTRACT

2-01. Award of Contract. Award of the contract, if it be awarded, will be to the lowest responsible bidder whose bid complies with all the specified requirements. The award, if made, will be made within thirty (30) days after opening of the bids. The City reserves the right to reject any and all bids and to waive any irregularity in the proposal not pertaining to cost.

2-02. Return of Proposal Guaranties. All bid guaranties will be held until the contract has been fully executed, after which they will be returned upon request to the respective bidders whose bids they accompany.

2-03. Execution of Contract. The contract agreement shall be executed in duplicate by the successful bidder and returned, together with the contract bonds, insurance certificates and endorsements, within fifteen (15) days after written notice of the award of the contract. After execution by the City; one copy shall be filed with the City and one copy shall be returned to the Contractor. If the bidder fails or refuses to enter into the contract agreement within the required time, then the bid guaranty accompanying the bid shall be forfeited to the City.

SECTION 3. SCOPE AND INTENT OF CONTRACT

3-01. Effect of Inspection and Payments. Neither the inspection by the Engineer or an inspector, nor any order, measurement or approved modification, nor certificate or payment of money, nor acceptance of any part or whole of the work, nor any extension of time, nor any possession by the City or its agents, shall operate as a waiver of any provision of this contract or of any power reserved therein to the City, or of any right to damages thereunder; nor shall any breach of this contract be held to be a waiver of any subsequent breach. All remedies shall be construed as cumulative.

3-02. Effect of Extension of Time. The granting of any extension of time on account of delays which, in the judgement of the City, are avoidable delays shall in no way operate as a waiver on the part of the City of its rights under this contract.

3-03. Extra Work. If extra work orders are given in accordance with provisions of this contract, such work shall be considered a part hereof and shall be subject to each and all of its terms and requirements.

3-04. Assignment of Contract. The contract may be assigned or sublet in whole or in part only upon the written consent of the City acting through its authorized agents. Consent will not be given to any proposed assignment which would relieve the original contractor or its surety of their responsibilities under the contract nor will the Engineer consent to any assignment of a part of the work under the contract.

3-05. Subcontractors. The Contractor shall be as fully responsible for the acts and omissions of his or her subcontractors and of persons either directly or indirectly employed by them, as he or she is for the acts and omissions of persons directly employed by him.

The Contractor shall cause appropriate provisions to be inserted in all subcontracts relative to the work to bind subcontractors to the terms of this Contract which are applicable to the work of subcontractors.

Nothing contained in this contract shall be construed to create or shall be relied upon to create any contractual relationship between any subcontractor and the City and no action may be brought by any subcontractor against the City based on this contract.

3-06. Interpretation of Special Provisions and Drawings. The Special Provisions and the Contract Drawings are intended to be explanatory of each other. Any work indicated in the Contract Drawings and not in the Special Provisions, or vice versa, is to be executed as if indicated in both. In case of a discrepancy or conflict between the Technical Specifications and Contract Plans, the Technical Specifications shall govern. All work shown on the Contract Drawings, the dimensions of which are not figured, shall be accurately followed to the scale to which the drawings are made, but figured dimensions are in all cases to be followed, where given, though they differ from scaled measurements. Large scale drawings shall be followed in preference to small scale drawings. Should it appear that the work to be done, or any of the matters relative thereto, are not sufficiently detailed or explained in these contract documents, including the contract drawings, the Contractor shall apply to the Engineer for such further explanations as may be necessary and shall conform thereto as part of this contract, so far as may be consistent with the terms of this contract. In the event of any doubt or questions arising respecting the true meaning of the Special Provisions, reference shall be made to the Engineer and his or her decision thereon shall be final. If the Contractor believes that a clarification or interpretation justifies an increase in the contract price or contract time, the Contractor must comply with the written notice provisions of Sections 9-05 and 10-07 of these Special Provisions. Contractor's attention is directed to Section 12-06 of the Technical Specifications regarding the Standard Specifications and Standard Plans.

3-07. Addenda. If it becomes necessary to revise any part of these plans and specifications after they have been released, the City will issue an addendum containing the revision. All addenda will be posted on the City's website at www.cityofukiah.com/purchasing with the rest of the bid documents. Anyone who intends to submit a bid in response to this Request for Bid must check the website frequently for any posted addenda. Anyone submitting a bid will be deemed to have seen and agreed to be bound by the posted addenda.

3-08.

of City Officials. No city official, nor the Engineer, nor any authorized assistant of any of them, shall be personally responsible for any liability arising under this contract.

3-09. Dispute Resolution. Claims of $375,000 or less by the Contractor that arise under this Contract are subject to the mandatory dispute resolutions provisions in Public Contract Code Sections 20104-20104.6.

SECTION 4. BONDS

4-01. Faithful Performance Bond. As a part of the execution of this contract, the Contractor shall furnish a bond of a surety company or other securities providing equivalent protection such as cash, letter of credit, or certificates of deposit, acceptable to the City, conditioned upon the faithful performance of all covenants and stipulations under this contract. The amount of the bond shall be 100 percent of the total contract price, as this sum is set forth in the agreement.

4-02. Material and Labor Bond. As a part of the execution of this contract, the Contractor shall furnish a bond of a surety company or other securities providing equivalent protection such as cash, letter of credit or certificates of deposit acceptable to the City in a sum not less than 50 percent of the total contract price, as this sum is set forth in the agreement for the payment in full of all persons, companies or corporations who perform labor upon or furnish materials to be used in the work under this contract, in accordance with the provisions of Sections 3247 through 3252 inclusive of the Civil Code of the State of California and any acts amendatory thereof.

4-03. Defective Material and Workmanship Bond. As a condition precedent to the completion of this contract, the Contractor shall furnish a bond of a surety company acceptable to the City in an amount not less than 5 percent (5%) of the final contract price, to hold good for a period of one (1) year after the completion and acceptance of the work, to protect the City against the results of defective materials, workmanship and

equipment during that time. This bond shall be delivered to the City before the final payment under this contract will be made.

4-04. Notification of Surety Companies. The surety companies shall familiarize themselves with all of the conditions and provisions of this contract and they waive the right of special notification of any change or modification of this contract or of extension of time, or decreased or increased work, or of the cancellation of the contract, or of any other act or acts by the City or its authorized agents, under the terms of this contract; and failure to so notify the aforesaid surety companies of changes shall in no way relieve the surety companies of their obligation under this contract.

SECTION 5. INSURANCE REQUIREMENTS FOR CONTRACTORS (WITH CONSTRUCTION RISKS)

Contractor shall procure and maintain for the duration of the contract insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the work hereunder by the Contractor, his or her agents, representatives, employees or subcontractors.

5-01. Minimum Scope of Insurance

Coverage shall be at least as broad as:

1. Insurance Services Office Commercial Liability Coverage (occurrence form CG 0001).
2. Insurance Services Office form number CA 0001 (Ed. 1/87) covering Automobile Liability, code 1 (any auto).
3. Worker's Compensation insurance as required by the State of California and Employer's Liability Insurance.
4. Course of Construction insurance covering for “all risks” of loss.

5-02. Minimum Limits of Insurance

Contractor shall maintain limits no less than:

1. General Liability: $2,000,000 per occurrence for bodily injury, personal injury and property damage including operations, products and completed operations. If Commercial General Liability Insurance or other form with a general aggregate limit is used, either the general aggregate limit shall apply separately to this project/location or the general aggregate limit shall be twice the required occurrence limit.

2. Automobile Liability: $2,000,000 per accident for bodily injury and property damage.

3. Employer's Liability: $1,000,000 per accident for bodily injury and property damage.

4. Course of Construction: Completed value of the project with no co-insurance penalty provisions.

5. Contractor’s Pollution Liability Insurance: Contractor shall purchase and maintain a policy covering third-party injury and property damage claims, including clean-up costs, as a result of pollution conditions arising from Contractor’s operations and completed operations. This insurance shall be maintained for no less than three years after final completion.
   Contractor’s Pollution Liability:

   Each Occurrence $2,000,000

6. Contractor’s Professional Liability Insurance: If Contractor will provide or furnish professional services under this Contract, through a delegation of professional design services or otherwise, then Contractor shall be responsible for purchasing and maintaining applicable professional liability insurance. This insurance shall provide protection against claims arising out of performance of professional design or related services, and caused by a negligent error, omission, or act for which the insured party is legally liable. It shall be maintained throughout the duration of the Contract and for a minimum of two years

after Substantial Completion. If such professional design services are performed by a Subcontractor, and not by Contractor itself, then the requirements of this paragraph may be satisfied through the purchasing and maintenance of such insurance by such Subcontractor.

Contractor's Professional Liability:

Each Claim $2,000,000

5-03. Deductibles and Self-insured Retentions. Any deductibles or self-insured retentions must be declared to and approved by the City. At the option of the City, either: the insurer shall reduce or eliminate such deductibles or self-insured retentions as respects the City, its officers, officials, employees and volunteers; or the Contractor shall provide a financial guarantee satisfactory to the City guaranteeing payment of losses and related investigations, claim administration and defense expenses.

5-04. Other Insurance Provisions

The general liability and automobile liability policies are to contain, or be endorsed to contain, the following provisions:

1. The City, its officers, officials, employees and volunteers, and Design Engineer are to be covered as Additional Insured with respect to liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the contractor; and with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts or equipment furnished in connection with such work or operations. General liability coverage can be provided in the form of an endorsement to the Contractor's insurance, or as a separate owner's policy.

2. The workers' compensation policy is to be endorsed with a waiver of subrogation. The insurance company, in its endorsement, agrees to waive all rights of subrogation against the City, its officers, officials, employees and volunteers for losses paid under the terms of this policy which arises from the work performed by the named insured for the City.

3. For any claims related to this project, the Contractor's insurance coverage shall be primary insurance as respects the City, its officers, officials, employees or volunteers. Any insurance or self-insurance maintained by the City, its officers, officials, employees or volunteers shall be excess of the Contractor's insurance and shall not contribute with it.

4. Each insurance policy required by this clause shall be endorsed to state that coverage shall not be canceled by either party, except after thirty (30) days' prior written notice by certified mail, return receipt requested, has been given to the City.

5. Coverage shall not extend to any indemnity coverage for the active negligence of the additional insured in any case where an agreement to indemnify the additional insured would be invalid under Subdivision (b) of Section 2782 of Civil Code.

6. Course of Construction policies shall contain the following provisions:
   a.) The City shall be named as loss payee.

7. Each policy shall contain a cross liability or severability of interest clause or endorsement.

5-05. Acceptability of Insurers

Insurance is to be placed with insurers with a current A.M. Best's rating of no less than the following:

A++ VII	A- VIII
A+ VII	B++ X
A VII	B+ X

5-06. Verification of Coverage. Contractor shall furnish the City with original certificates and amendatory endorsements effecting coverage required by this clause. The endorsements shall be on forms provided by the

City or on other than the City's forms, provided those endorsements or policies conform to the requirements. All certificates and endorsements are to be received within 15 days from written notice of contract award, and the work shall not commence until the certificates and endorsements have been approved by the City. The City reserves the right to require complete certified copies of all required insurance policies, including endorsements affecting the coverage required by these Special Provisions at any time.

5-07. Subcontractors. Contractor shall include all subcontractors as insureds under its policies or shall furnish separate certificates and endorsements for each subcontractor. All coverages for subcontractors shall be subject to all of the requirements stated herein.

SECTION 6. RESPONSIBILITIES AND RIGHTS OF CONTRACTOR

6-01. Legal Address of Contractor. Both the address given in the proposal and the Contractor's office in the vicinity of the work are hereby designated as places to either of which drawings, samples, notices, letters or other articles or communications to the Contractor may be mailed or delivered. The delivery at either of these places of any such thing from the City or its agents to the Contractor shall be deemed sufficient service thereof upon the Contractor and the date of such service shall be the date of such delivery. The address named in the proposal may be changed at any time by notice in writing from the Contractor to the City. Nothing herein contained shall be deemed to preclude or render inoperative the service of any drawing, sample, notice, letter or other article or communication to or upon the Contractor personally.

6-02. Office of Contractor at Site. During the performance of this contract, the Contractor shall maintain a suitable office at the site of the work which shall be the headquarters of a representative authorized to receive drawings and any such thing given to the said representatives or delivered at the Contractor's office at the site of work in his or her absence shall be deemed to have been given to the Contractor.

6-03. Attention to Work. The Contractor shall give his or her personal attention to and shall supervise the work to the end that it shall be prosecuted faithfully and when he or she is not personally present on the work, he or she shall at all reasonable times be represented by a competent superintendent or foreman who shall receive and obey all instructions or orders given under this contract and who shall have full authority to execute the same and to supply materials, tools and labor without delay and who shall be the legal representative of the Contractor. The Contractor shall be liable for the faithful observance of any instructions delivered to him or her or to his or her authorized representative.

6-04. Liability of Contractor. The Contractor shall do all of the work and furnish all labor, materials, tools and appliances, except as otherwise herein expressly stipulated, necessary or proper for performing and completing the work herein required in the manner and within the time herein specified. The mention of any specific duty or liability imposed upon the Contractor shall not be construed as a limitation or restriction of any general liability or duty imposed upon the Contractor by this contract, said reference to any specific duty or liability being made herein merely for the purpose of explanation.

The right of general supervision by the City shall not make the Contractor an agent of the City and the liability of the Contractor for all damages to persons or to public or private property, arising from the Contractor's execution of the work, shall not be lessened because of such general supervision.

Until the completion and final acceptance by the City of all the work under and implied by this contract, the work shall be under the Contractor's responsible care and charge. The Contractor shall rebuild, repair, restore and make good all injuries, damages, re-erections and repairs, occasioned or rendered necessary by causes of any nature whatsoever, excepting only acts of God and none other, to all or any portions of the work, except as otherwise stipulated.

To the fullest extent permitted by law, Contractor shall indemnify and hold harmless the City and its officers, directors, agents and employees from and against all claims, damages, losses and expenses including but not limited to attorneys' fees, costs of suit, expert witness fees and expenses and fees and costs of any necessary private investigators arising out of or resulting from the performance of the work, provided that any such claim, damage, loss or expense (1) is attributable to bodily injury, sickness, disease or death, or to injury to or destruction of tangible property, other than the work itself, including the loss of use resulting therefrom and (2) is caused in whole or in part by any act or omission of the Contractor, any subcontractor, or anyone directly or

indirectly employed by any of them, or anyone for whose acts any of them may be liable, regardless of whether or not it is caused in part by a party indemnified hereunder, or by the negligence or omission of a party indemnified herein.

In any and all claims against the City or any of its agents or employees by any employee of the Contractor, any subcontractor, anyone directly or indirectly employed by any of them, or anyone for whose acts any of them may be liable, the indemnification obligation shall not be limited in any way by any limitation on the amount or type of damages, compensation or benefits payable by or for the Contractor or any subcontractor under workers' or workmen's compensation acts, disability benefit acts, or other employee benefit acts. The obligation to indemnify shall extend to and include acts of the indemnified party which may be negligent or omissions which may cause negligence.

The City shall have the right to estimate the amount of such damage and to cause the City to pay the same and the amount so paid for such damage shall be deducted from the money due the Contractor under this contract; or the whole or so much of the money due or to become due the Contractor under this contract as may be considered necessary by the City, shall be retained by the City until such suits or claims for damages shall have been settled or otherwise disposed of and satisfactory evidence to that effect furnished to the City.

6-05. Protection of Persons and Property. The Contractor shall furnish such watchman, guards, fences, warning signs, walks and lights as shall be necessary and shall take all other necessary precautions to prevent damage or injury to persons or property.

All property line fences and improvements in the vicinity of the work shall be protected by the Contractor and, if they are injured or destroyed, they and any other property injured by the Contractor, his or her employees or agents, shall be restored to a condition as good as when he or she entered upon the work.

6-06. Protection of City Against Patent Claims. All fees, royalties or claims for any patented invention, article or method that may be used upon or in any manner connected with the work under this contract shall be included in the price bid for the work and the Contractor and his or her sureties shall protect and hold the City, together with all of its officers, agents, servants and employees, harmless against any and all demands made for such fees or claims brought or made on account of this contract. The Contractor shall, if requested by the Engineer, furnish acceptable proof of a proper release from all such fees or classes.

Should the Contractor, his or her agents, servants or employees, or any of them be enjoined from furnishing or using any invention, article, material or appliance supplied or required to be supplied or used under this contract, the Contractor shall promptly substitute other articles, materials or appliance, in lieu thereof, of equal efficiency, quality, finish, suitability and market value and satisfactory in all respects to the Engineer. Or, in the event that the Engineer elects, in lieu of such substitution, to have supplied and to retain and use, any such invention, article, material or appliance, as may by this contract be required to be supplied, in that event the Contractor shall pay such royalties and secure such valid licenses as may be requisite and necessary for the City, its officers, agents, servants and employees, or any of them, to use such invention, article, material or appliance without being disturbed or in any way interfered with by any proceeding in law or equity on account thereof. Should the Contractor neglect or refuse to make the substitution promptly, or to pay such royalties and secure such licenses as may be necessary, then in that event the Engineer shall have the right to make such substitution, or the City may pay such royalties and secure such licenses and charge the cost thereof against any money due to the Contractor from the City or recover the amount thereof from him or her and his or her sureties notwithstanding final payment under this contract may have been made.

6-07. Protection of Contractor's Work Property. The Contractor shall protect his or her work, supplies and materials from damage due to the nature of the work, the action of the elements, trespassers, or any cause whatsoever under his or her control, until the completion and acceptance of the work. Neither the City nor any of its agents assumes any responsibility for collecting indemnity from any person or persons causing damage to the work of the Contractor.

6-08. Regulations and Permits. The Contractor shall secure and pay for all permits, give all notices and comply with all laws, ordinances, rules and regulations bearing on the conduct of the work as drawn and specified. If the Contractor observes that the Plans and Special Provisions are at variance therewith, he or she shall promptly notify the Engineer in writing and any necessary changes shall be adjusted as provided in the contract for changes in the work. The contractor and any subcontractors shall each secure and maintain a valid

City of Ukiah Business License. The City of Ukiah will issue a no fee encroachment permit to the Contractor allowing him or her to perform work within City right of way or within City property after the Contract Documents have been executed and insurance certificates and endorsements have been approved by the City.

6-09. Construction Utilities. The Contractor shall be responsible for providing for and in behalf of his or her work under this contract, all necessary utilities, such as special connection to water supply, telephones, power lines, fences, roads, watchmen, suitable storage places, etc.

6-10. Approval of Contractor's Plans. The approval by the Engineer of any drawing or any method of work proposed by the Contractor in accordance with paragraph 8-06 shall not relieve the Contractor of any of his or her responsibility for his or her errors therein and shall not be regarded as any assumption of risk or liability by the City or any officer or employee thereof and the Contractor shall have no claim under this contract on account of the failure or partial failure or inefficiency of any plan or method so approved. Such approval shall be considered to mean merely that the Engineer has no objection to the Contractor's using, upon his or her own full responsibility the plan or method approved.

6-11. Suggestions to the Contractor. Any plan or method of work suggested by the Engineer to the Contractor, but not specified or required, if adopted or followed by the Contractor in whole or in part, shall be used at the risk and responsibility of the Contractor; and the Engineer and the City shall assume no responsibility thereof.

6-12. Termination of Unsatisfactory Subcontracts. Should any subcontractor fail to perform in a satisfactory manner the work undertaken by him, such subcontract shall be terminated immediately by the Contractor upon notice from the Engineer.

6-13. Preservation of Stakes and Marks. The Contractor shall preserve carefully bench marks, reference points and stakes and in case of destruction he or she shall replace his or her stakes, reference points and bench marks and shall be responsible for any mistakes that may be caused by their unnecessary loss or disturbance. Contractor’s attention is directed to Section 7-03 of these Special Provisions.

6-14. Assistance to Engineer. At the request of the Engineer the Contractor shall provide men from his or her force and tools, stakes and other materials to assist the Engineer temporarily in making measurements and surveys and in establishing temporary or permanent reference marks. Payment for such materials and assistance will be made as provided for under the caption "Extra Work," provided, however, that the cost of setting stakes and marks carelessly lost or destroyed by the Contractor's employees will be assessed to the Contractor.

6-15. Removal of Condemned Materials and Structures. The Contractor shall remove from the site of the work, without delay, all rejected and condemned materials or structures of any kind brought to or incorporated in the work and upon his or her failure to do so, or to make satisfactory progress in so doing, within forty-eight (48) hours after the service of a written notice from the Engineer, the condemned material or work may be removed by the City and the cost of such removal shall be taken out of the money that may be due or may become due the Contractor on account of or by virtue of this contract. No such rejected or condemned material shall again be offered for use by the Contractor under this Contract.

6-16. Proof of Compliance with Contract. In order that the Engineer may determine whether the Contractor has complied with the requirements of this contract, not readily enforceable through inspection and tests of the work and materials, the Contractor shall, at any time when requested, submit to the Engineer properly authenticated documents or other satisfactory proofs as to his or her compliance with such requirements.

6-17. Errors and Omissions. If the Contractor, in the course of the work, finds any errors or omissions in plans or in the layout as given by survey points and instruction, or if he or she finds any discrepancy between the plans and the physical conditions of the locality, he or she shall immediately inform the Engineer, in writing and the Engineer shall promptly verify the same. Any work done after such discovery, until authorized, will be done at the Contractor's risk.

6-18. Cooperation. The Contractor shall cooperate with all other contractors who may be performing work in behalf of the City and workmen who may be employed by the City on any work in the vicinity of the work to be done under this contract with the work of such contractors or workmen. he or she shall make good promptly, at

his or her own expense, any injury or damage that may be sustained by other contractors or employees of the City at his or her hands.

Any difference or conflict which may arise between the Contractor and other contractors, or between the contractor and workmen of the City in regard to their work shall be adjusted and determined by the Engineer. If the work of the Contractor is delayed because of any acts or omissions of any other contractor or of the City, the Contractor shall on that account have no claim against the City other than for an extension of time.

6-19. Right of Contractor to Stop Work. Under the following conditions the Contractor shall have the right, if he or she so desires, to stop the work and terminate the contract upon ten (10) days written notice to the Engineer and recover from the City payment for all work actually performed and for all satisfactory materials actually delivered to the site of the work for permanent incorporation therein, all as may be shown by the estimate of the Engineer.

(1) If the work is stopped under an order of any court or other competent public authority for a period of time of three (3) months through no act or fault of the Contractor or of anyone employed by him.

(2) If the Engineer fails to issue the monthly certificate for payment in accordance with the terms of this contract.

(3) If the City fails to pay the Contractor within sixty (60) days after it shall have become due, as provided by the terms of this contract, any sum certified by the Engineer or awarded by the City.

All provided that if such action to terminate the contract be not instituted by the Contractor within ten (10) days after the alleged existence of such condition and if written notice of such action be not at that time delivered to the City and the Engineer, then such right shall lapse until another occasion arises according to this section.

6-20. Hiring and Dismissal of Employees. The Contractor shall employ only such foremen, mechanics and laborers as are competent and skilled in their respective lines of work and whenever the Engineer shall notify the Contractor that any person on the work is, in his or her opinion, incompetent, unfaithful, intemperate or disorderly, or refuses to carry out the provisions of this contract, or uses threatening or abusive language to any person on the work representing the City, or is otherwise unsatisfactory, such person shall be discharged im mediately from the work and shall not be re-employed upon it except with the consent of the Engineer.

6-21. Wage Rates.

1. Contractor shall pay all mechanics and laborers employed or working upon the site of the work unconditionally and without subsequent deductions or rebate on any account the full amounts due at the time of payment at wage rates not less than those contained in the applicable prevailing wage determination, regardless of any contractual relationship which may be alleged to exist between the Contractor and subcontractors and such laborers and mechanics.

2. Contractor shall comply with the California Labor Code Section 1775. In accordance with said Section 1775, Contractor shall forfeit as a penalty to the Owner, $50.00 (or the higher minimum penalty as provided in Section 1775(B)(ii) – (iii)) for each calendar day or portion thereof, for each workman paid less than the stipulated prevailing rates for such work or craft in which such workman is employed for any work done under the Contract by him or her or by any subcontractor under him or her in violation of the provisions of the Labor Code and in particular, Labor Code Sections 1770 to 1780, inclusive. In addition to said penalty and pursuant to Section 1775, the difference between such stipulated prevailing wage rates and the amount paid to each workman for each calendar day or portion thereof for which each workman was paid less than the stipulated prevailing wage rate shall be paid to each workman by the Contractor.

3. Pursuant to the provision of Section 1770 of the Labor Code of the State of California, Owner has ascertained the general prevailing rate of wages (which rate includes employer payments for health and welfare, vacation, pension and similar purposes) applicable to the work to be done, for straight time work. The holiday wage rate listed shall be applicable to all holidays recognized in the collective bargaining agreement of the particular craft, classification or type of workmen concerned. Copies of the

General Prevailing Wage Determination are available on the Internet at web address: http://www.dir.ca.gov/DLSR/PWD The Contractor shall post the wage determination at the site of work in a prominent place where it can easily be seen by the workers.

4. City will not recognize any claim for additional compensation because the Contractor has paid any rate in excess of the prevailing wage rate obtained by the Contractor. The possibility of wage increases is one of the elements to be considered by the Contractor in determining his or her bid and will not in any circumstances be considered as the basis for a claim against the City.

5. The Labor Commissioner through the Division of Labor Standards Enforcement (DLSE) may at any time require contractors and subcontractors to furnish electronic certified payroll records directly to DLSE. Commencing with contracts awarded or after April 1, 2015, all contractors and subcontractors must furnish electronic certified payroll records directly to the DLSE.

6. Travel and Subsistence Payments.

   Contractor shall make travel and subsistence payments to each workman needed to execute the work in accordance with the requirements in Section 1773.8 of the Labor Code (Chapter 880, Statutes of 1968).

7. Apprentices.

   Attention is directed to the provisions in Sections 1777.5 (Chapter 1411, Statutes of 1968) and 1777.6 of the California Labor Code concerning the employment of apprentices by the Contractor or any subcontractor under him. Contractor and any subcontractor under him or her shall comply with the requirements of said sections in the employment of apprentices.

   Information relative to apprenticeship standards, wage schedules and other requirements may be obtained from the Director of Industrial Relations, ex officio the Administrator of Apprenticeship, San Francisco, California, or from the Division of Apprenticeship Standards and its branch offices.

6-22. Cleaning Up. The Contractor shall not allow the site of the work to become littered with trash and waste material, but shall maintain the same in a neat and orderly condition throughout the construction period. The Engineer shall have the right to determine what is or is not waste material or rubbish and the place and manner of disposal.

On or before the completion of the work, the Contractor shall without charge therefore carefully clean out all pits, pipes, chambers or conduits and shall tear down and remove all temporary structures built by him or her and shall remove rubbish of all kind from any of the grounds which he or she has occupied and leave them in first class condition.

6-23. Guaranty. All work shall be guarantied for a period of one year from the date of acceptance by the City. The Contractor shall promptly make all needed repairs arising out of defective materials, workmanship and equipment.

Guarantee and Correction Period refer to the period of time following substantial completion. Acceptance by the City means formal notification of substantial completion as distinguished from acceptance for purposes of final payment.

The City is hereby authorized to make such repairs if within ten days after the mailing of a notice in writing to the Contractor or his or her agent, the Contractor shall neglect to make or undertake with due diligence the aforesaid repairs, provided, however, that in case of an emergency where, in the opinion of the City delay would cause serious loss or damage, repairs may be made without notice being sent to the Contractor and the Contractor shall pay the costs thereof.

Pursuant to the provisions of Section 4-03 of these Special Provisions, the Contractor shall furnish a Defective Material and Workmanship Bond in an amount not less than 5 percent of the final contract price, which shall be effective for a period of one (1) year after the completion and acceptance of the work.

6-24. **Contractor's General Warranty and Guarantee.** Contractor warrants and guarantees to Owner that all Work will be in accordance with the Contract Documents and will not be defective. Engineer is entitled to rely on Contractor's warranty and guarantee. Owner's rights under this warranty and guarantee are in addition to, and are not limited by, the one (1)-year guaranty period.

SECTION 7. RESPONSIBILITIES AND RIGHTS OF CITY

7-01. Authority of the Engineer. All work done under this contract shall be done in a workmanlike manner and shall be performed to the reasonable satisfaction of the Engineer, who shall have general supervision of all work included hereunder. To prevent disputes and litigation, the Engineer (1) shall in all cases determine the amount, quality, acceptability and fitness of the several kinds of work and materials which are to be paid for under this contract, (2) shall decide all questions relative to the true construction, meaning and intent of the Special Provisions and Drawings, (3) shall decide all questions which may arise relative to the classifications and measurements of quantities and materials and the fulfillment of this contract and (4) shall have the power to reject or condemn all work or material which does not conform to the terms of this contract. his or her estimate and decision in all matters shall be a condition precedent to an appeal for arbitration, or the right of the Contractor to receive, demand, or claim any money or other compensation under this agreement and a condition precedent to any liability on the part of the City to the Contractor on account of this contract. Whenever the Engineer shall be unable to act, in consequence of absence or other cause, then such engineer as the Engineer or the City shall designate, shall perform any and all of the duties and be vested with any or all of the powers herein given to the Engineer.

7-02. Inspection. The City will provide engineering personnel for the inspection of the work.

The Engineer and his or her representatives shall at all times have access to the work whenever it is in preparation or progress and the Contractor shall provide proper facilities for such access and inspection.

If the Special Provisions, the Engineer's instruction, laws, ordinances, or any public authority require any work to be specially tested or approved, the Contractor shall give the Engineer timely notice of its readiness for inspection and, if the inspection is by an authority other than the Engineer, of the date fixed for such inspection. Inspections by the Engineer shall be promptly made at the source of supply where practicable. If any work shall be covered up without approval or consent of the Engineer, it must, if required by the Engineer, be uncovered for examination and properly restored at the Contractor's expense.

Re-examination of any work may be ordered by the Engineer and, if so ordered, the work must be uncovered by the Contractor. If such work is found to be in accordance with the contract documents, the City shall pay the cost of re-examination and replacement. If such work is not in accordance with the contract documents, the Contractor shall pay such cost.

Properly authorized and accredited inspectors shall be considered to be the representatives of the City limited to the duties and powers entrusted to them. It will be their duty to inspect materials and workmanship of those portions of the work to which they are assigned, either individually or collectively, under instructions of the Engineer and to report any and all deviations from the Drawings, Special Provisions and other contract provisions which may come to their notice. Any inspector may be considered to have the right to order the work entrusted to his or her supervision stopped, if in his or her opinion such action becomes necessary, until the Engineer is notified and has determined and ordered that the work may proceed in due fulfillment of all contract requirements.

7-03. Surveys. Contractor shall furnish all land surveys, establish all base lines and bench marks and make sufficient detailed surveys needed for working points, lines and elevations. The Contractor shall develop all slope stakes and batter boards. Contractor shall also develop all additional working points, lines and elevations as he or she may desire to facilitate his or her methods and sequence of construction.

7-04. Rights-of-Way. The City will provide all necessary rights-of-way and easements in or beneath which work will be performed by the Contractor under this contract.

7-05. Retention of Imperfect Work. If any portion of the work done or material furnished under this contract shall prove defective and not in accordance with the Plans and Special Provisions, and if the imperfection in the same shall not be of sufficient magnitude or importance to make the work dangerous or undesirable, the Engineer shall have the right and authority to retain such work instead of requiring the imperfect work to be removed and reconstructed, but he or she shall make such deductions therefor in the payments due or to become due the Contractor as may be just and reasonable.

7-06. Changes in the Work. The Engineer shall have the right, in writing, to order additions to, omissions from, or corrections, alterations and modifications in the line, grade, form, dimensions, plan, or kind or amount of work or materials herein contemplated, or any part thereof, either before or after the beginning of construction. However, the arithmetical sum of the cost to the City of additions and subtractions from the work under this contract shall not exceed 10 percent of original contract amount or $5,000, whichever is the greater, unless based upon a supplementary agreement to be made therefore.

The order of such additions, omissions, corrections, alterations and modifications shall be in writing and signed by the Engineer and, in order, shall then be binding upon the Contractor. The Contractor shall proceed with the work as changed and the value of such change shall be determined as provided for in section 10-07 of these Special Provisions.

Such alterations shall in no way affect, vitiate, or make void this contract or any part thereof, except that which is necessarily affected by such alterations and is clearly the evident intention of the parties to this contract.

7-07. Additional Drawings by City. The drawings made a part of this contract at the time of its execution are intended to be fairly comprehensive and to indicate in more or less detail the scope of the work. In addition to these drawings, however, the Engineer shall furnish such additional drawings from time to time during the progress of the work as are necessary to make clear or to define in greater detail the intent of the Special Provisions and the contract drawings and the Contractor shall make his or her work conform to all such drawings.

7-08. Additional and Emergency Protection. Whenever, in the opinion of the Engineer, the Contractor has not taken sufficient precautions for the safety of the public or the protection of the works to be constructed under this contract, or of adjacent structures or property which may be injured by the processes of construction on account of such neglect and whenever, in the opinion of the Engineer, an emergency shall arise and immediate action shall be considered necessary in order to protect public or private, personal or property interest, then and in that event, the Engineer, with or without notice to the Contractor may provide suitable protection to the said interests by causing such work to be done and such material to be furnished as shall provide such protection as the Engineer may consider necessary and adequate.

The cost and expense of such work and material so furnished shall be borne by the Contractor and, if the same shall not be paid on presentation of the bills therefor, then such costs shall be deducted from any amounts due or to become due the Contractor.

The performance of such emergency work under the direction of the Engineer shall in no way relieve the Contractor from any damages which may occur during or after such precaution has been taken by the Engineer.

7-09. Suspension of Work. The City may at any time suspend the work or any part thereof by giving five (5) days written notice to the Contractor. The work shall be resumed by the Contractor within ten (10) days after the date fixed in the written notice from the City to the Contractor so to do. The City shall reimburse the Contractor for expense incurred by the Contractor in connection with the work under this contract as a result of such suspension.

If the work, or any part thereof, shall be stopped by the notice in writing aforesaid and if the City does not give notice in writing to the Contractor to resume work at a date within ten (10) days of the date fixed in the written notice to suspend, then the Contractor may abandon that portion of the work so suspended and he or she will be entitled to the estimates and payments for all work done on the portions so abandoned, if any, plus 5 percent of the value of the work so abandoned, to compensate for loss of overhead, plant expense and anticipated profit.

7-10. Right of City to Terminate Contract. If the Contractor should be adjudged a bankrupt, or if he or she should make a general assignment for the benefit of his or her creditors, or if a receiver should be appointed on account of his or her insolvency, or if he or she should persistently or repeatedly refuse or should fail, except in

cases for which extension of time is provided, to supply sufficient properly skilled workmen or proper materials, or if he or she should fail to make prompt payments to subcontractors or for material or labor, or persistently disregard laws, ordinances or the instructions of the Engineer, or otherwise be guilty of a substantial violation of any provision of the contract, then the City, upon the certificate of the Engineer that sufficient cause exists to justify such action, may, without prejudice to any other right or remedy and after giving the Contractor seven days written notice, terminate the employment of the Contractor and take possession of the premises and of all materials, tools and appliances and finish the work by whatever method the City may deem expedient. In such case, the Contractor shall not be entitled to receive any further payment until the work is finished. If the unpaid balance of the contract price shall exceed the expense of finishing the work, including compensation for additional managerial and administrative services, such excess shall be paid to the Contractor. If such expense shall exceed such unpaid balance, the Contractor shall pay the difference to the City. The expense incurred by the City as herein provided and the damage incurred through the Contractor's default, shall be certified by the Engineer. In the event that a termination under this section is determined to be improper, such termination shall be deemed a constructive termination for convenience taken pursuant to section 7-12 below.

7-11. Use of Completed Portions. The City shall have the right to take possession of and use any completed or partially completed portions of the work, notwithstanding the time for completing the entire work or such portions which may not have expired; but such taking possession and using shall not be deemed an acceptance of any work not completed in accordance with the contract documents. If such prior use increases the cost of or delays the work, the Contractor shall be entitled to such extra compensation, or extension of time or both, as the Engineer may determine.

7-12. **Right of City to Terminate Contract for Convenience**. The City may terminate performance of the work called for by the contract documents in whole or, from time to time, in part, if the City determines that a termination is in the City's best interest. The Contractor shall terminate all or any part of the work upon delivery to the Contractor of a notice of termination specifying that the termination is for the convenience of the City, the extent of termination, and the effective date of such termination. After receipt of notice of termination, and except as directed by the Engineer, the Contractor shall, regardless of any delay in determining or adjusting any amounts due under this termination for convenience clause, immediately proceed with the following obligations:

1. Stop work as specified in the notice.
2. Complete any work specified in the notice of termination in a least cost/shortest time manner while still maintaining the quality called for under the contract documents.
3. Leave the property upon which the Contractor was working and upon which the facility (or facilities) forming the basis of the contract documents is situated in a safe and sanitary manner such that it does not pose any threat to the public health or safety.
4. Terminate all subcontracts to the extent that they relate to the portions of the work terminated.
5. Place no further subcontracts or orders, except as necessary to complete the continued portion of the contract.
6. Submit to the Engineer, within ten (10) calendar days from the effective date of the notice of termination, all of the usual documentation called for by the contract documents to substantiate all costs incurred by the Contractor for labor, materials and equipment through the effective date of the notice of termination. Any documentation substantiating costs incurred by the Contractor solely as a result of the City's exercise of its right to terminate this Contract pursuant to this clause, which costs the contractor is authorized under the contract documents to incur, shall: (1) be submitted to and received by the Engineer no later than 30 calendar days after the effective date of the notice of termination; (2) describe the costs incurred with particularity; and (3) be conspicuously identified as "Termination Costs occasioned by the City's Termination for Convenience."

Termination of the contract shall not relieve Surety of its obligation for any just claims arising out of or relating to the work performed. In the event that the City exercises its right to terminate this contract pursuant to this clause, the City shall pay the Contractor, upon the Contractor's submission of the documentation required by this clause and other applicable provisions of the contract documents, the following amounts:

All actual reimbursable costs incurred according to the provisions of this contract.

1. A reasonable allowance for profit on the cost of the Work performed, provided Contractor establishes to the satisfaction of the Engineer that it is reasonably probable that Contractor would have made a profit had the contract been completed and provided further, that the profit allowed shall in no event exceed fifteen (15%) percent of the costs.
2. A reasonable allowance for Contractor's administrative costs in determining the amount payable due to termination of the contract under this Article.

Notwithstanding any other provision of this Article, when immediate action is necessary to protect life and safety or to reduce significant exposure or liability, the City may immediately order Contractor to cease work on the project until such safety or liability issues are addressed to the satisfaction of the City or the contract is terminated.

SECTION 8. WORKMANSHIP, MATERIALS and EQUIPMENT

8-01. General Quality. Materials and equipment shall be new and of a quality equal to that specified or approved. Work shall be done and completed in a thorough and workmanlike manner.

8-02. Quality in Absence of Detailed Specifications. Whenever under this contract it is provided that the Contractor shall furnish materials or manufactured articles or shall do work for which no detailed specifications are set forth, the materials or manufactured articles shall be of the best grade in quality and workmanship obtainable in the market from firms of established good reputation, or, if not ordinarily carried in stock, shall conform to the usual standards for first-class materials or articles of the kind required, with due consideration of the use to which they are to be put. In general, the work performed shall be in full conformity and harmony with the intent to secure the best standard of construction and equipment of the work as a whole or in part.

8-03. Materials and Equipment Specified by Name. Whenever any material or equipment is indicated or specified by patent or proprietary name or by the name of the manufacturer, such specification shall be considered as used for the purpose of describing the material or equipment desired and shall be considered as followed by the words "or approved equal". The Contractor may offer any material or equipment which shall be equal in every respect to that specified, provided that written approval first is obtained from the Engineer.

8-04. Source of Materials. Price, fitness and quality being equal, preference shall be given by the Contractor for supplies grown, manufactured or produced in the State of California and, next, for such products partially produced in this State in accordance with Government Code Section 4332.

8-05. Storage of Materials. Materials shall be so stored to ensure the preservation of their quality and fitness for the work. They shall be so located and disposed that prompt and proper inspection thereof may be made.

8-06. Drawings, Samples and Tests. As soon as possible after execution of the contract, the Contractor shall submit to the Engineer, in quintuplicate, sufficient information including, if necessary, assembly and detail drawings to demonstrate fully that the equipment and materials to be furnished comply with the provisions and intent of these Special Provisions and Drawings. If the information thus submitted indicates the equipment or materials is acceptable, the Engineer will return one copy stamped with his or her approval; otherwise, one copy will be returned with an explanation of why the equipment or material is unsatisfactory. The Contractor shall have no claims for damages or for extension of time on account of any delay due to the revision of drawings or rejection of material. Fabrication or other work performed in advance of approval shall be done entirely at the Contractor's risk. After approval of equipment or material, the Contractor shall not deviate in any way from the design and specifications given without the written consent of the Engineer.

When requested by the Engineer, a sample or test specimens of the materials to be used or offered for use in connection with the work shall be prepared at the expense of the Contractor and furnished by him or her in such quantities and sizes as may be required for proper examination and tests, with all freight charges prepaid and with information as to their sources.

All samples shall be submitted before shipment and in ample time to permit the making of proper tests, analyses, or examination before the time at which it is desired to incorporate the material into the work. All tests of materials furnished by the Contractor shall be made by the Engineer. Samples shall be secured and tested whenever necessary to determine the quality of the material.

SECTION 9. PROSECUTION OF WORK

9-01. Equipment and Methods. The work under this contract shall be prosecuted with all materials, tools, machinery, apparatus and labor and by such methods as are necessary to the complete execution of everything described, shown, or reasonably implied. If at any time before the beginning or during the progress of the work,

any part of the Contractor's plant or equipment, or any of his or her methods of execution of the work, appear to the Engineer to be unsafe, inefficient, or inadequate to insure the required quality or the rate of progress of the work, he or she may order the Contractor to increase or improve his or her facilities or methods and the Contractor shall comply promptly with such orders; but, neither compliance with such orders nor failure of the Engineer to issue such orders shall relieve the Contractor from his or her obligation to secure the degree of safety, the quality of the work and the rate of progress required of the Contractor. The Contractor alone shall be responsible for the safety, adequacy and efficiency of his or her plant, equipment and methods.

9-02. Time of Completion. The Contractor shall promptly begin the work under this contract and shall complete and make ready for full use all portions of the project made the subject of this contract within the time set forth in the agreement bound herewith.

9-03. Avoidable Delays. Avoidable delays in the prosecution or completion of the work shall include all delays which might have been avoided by the exercise of care, prudence, foresight and diligence on the part of the Contractor. The City will consider as avoidable delays within the meaning of this contract (1) delays in the prosecution of parts of the work, which may in themselves be unavoidable, but do not necessarily prevent or delay the prosecution of other parts of the work nor the completion of the whole work within the time herein specified, (2) reasonable loss of time resulting from the necessity of submitting plans to the Engineer for approval and from the making of surveys, measurements, inspections, and testing and (3) such interruptions as may occur in the prosecution of the work on account of the reasonable interference of other contractors employed by the City which do not necessarily prevent the completion of the whole work within the time herein specified.

9-04. Unavoidable Delays. Unavoidable delays in the prosecution or completion of the work under this contract shall include all delays which may result, through cause beyond the control of the Contractor and which he or she could not have provided against by the exercise of care, prudence, foresight and diligence. Orders issued by the City changing the amount of work to be done, the quantity of material to be furnished or the manner in which the work is to be prosecuted and unforeseen delays in the completion of the work of other contractors under contract with the City will be considered unavoidable delays, so far as they necessarily interfere with the Contractor's completion of the whole of the work. Delays due to normally adverse weather conditions will not be regarded as unavoidable delays. However, truly abnormal amounts of rainfall, temperatures or other weather conditions for the location of the work and time of year may be considered as unavoidable delays if those conditions necessarily cause a delay in the completion of the work.

9-05. Notice of Delays. Whenever the Contractor foresees any delay in the prosecution of the work and, in any event, immediately upon the occurrence of any delay which the contractor regards as an unavoidable delay, he or she shall notify the Engineer in writing of the probability of the occurrence of such delay and its cause, in order that the Engineer may take immediate steps to prevent, if possible, the occurrence or continuance of the delay, or, if this cannot be done, may determine whether the delay is to be considered avoidable or unavoidable, how long it continues and to what extent the prosecution and completion of the work are to be delayed thereby.

9-06. Extension of Time. Should any delays occur which the Engineer may consider unavoidable, as herein defined, the Contractor shall, pursuant to his or her application, be allowed an extension of time proportional to said delay or delays, beyond the time herein set forth, in which to complete this contract; and liquidated damages for delay shall not be charged against the Contractor by the City during an extension of time granted because of unavoidable delay or delays.

Any claim by Contractor for a time extension based on unavoidable delays shall be based on written notice delivered to the Engineer within 15 days of the occurrence of the event giving rise to the claim. Failure to file said written notice within the time specified shall constitute a waiver of said claim. Notice of the full extent of the claim and all supporting data must be delivered to the Engineer within 45 days of the occurrence unless the Engineer specifies in writing a longer period. All claims for a time extension must be approved by the Engineer and incorporated into a written change order.

9-07. Unfavorable Weather and Other Conditions. During unfavorable weather and other conditions, the Contractor shall pursue only such portions of the work as shall not be damaged thereby. No portions of the work whose satisfactory quality or efficiency will be affected by any unfavorable conditions shall be constructed while these conditions remain, unless, by special means or precautions approved by the Engineer, the Contractor shall be able to overcome them.

The Contractor shall be granted a time extension of one day for each unfavorable weather day which prevents him or her from placing concrete forms or placing and finishing concrete or asphalt concrete. Such unfavorable weather day is defined as a rain day where precipitation prevents the contractor from performing the work more than four (4) continuous hours within the authorized work period or a temperature day where the ambient temperature is below that specified for the placement of materials associated with the controlling work item for more than four (4) continuous work hours of the authorized work period.

9-08. Saturday, Sunday, Holiday and Night Work. No work shall be done between the hours of 6 p.m. and 7 a.m., nor on Saturdays, Sundays or legal holidays except such work as is necessary for the proper care and protection of work already performed, or except in cases of absolute necessity and in any case only with the permission of the Engineer.

It is understood, however, that night work may be established as a regular procedure by the Contractor if he or she first obtains the written permission of the Engineer and that such permission may be revoked at any time by the Engineer if the Contractor fails to maintain at night adequate force and equipment for reasonable prosecution and to justify inspection of the work.

9-09. Hours of Labor. Eight (8) hours of labor shall constitute a legal day's work and the Contractor or any subcontractor shall not require or permit more than eight hours of labor in a day from any person employed by him or her in the performance of the work under this contract, unless paying compensation for all hours worked in excess of eight (8) hours per day at not less than 1½ times the basic rate of pay. The Contractor shall forfeit to the City, as a penalty, the sum of twenty-five dollars ($25.00) for each workman employed in the execution of the contract by him or her or by any subcontractor, for each calendar day during which such laborer, workman, or mechanic is required or permitted to labor more than eight hours in violation of the provisions of Section 1810 to 1816, inclusive, (Article 3, Chapter 1, Part 7, Division 2) of the Labor Code of the State of California and any acts amendatory thereof.

SECTION 10. PAYMENT

10-01. Certification by Engineer. All payments under this contract shall be made upon the presentation of certificates in writing from the Engineer and shall show that the work covered by the payments has been done and the payments thereof are due in accordance with this contract.

10-02. Progress Estimates and Payment. The Engineer shall, within the first seven (7) days of each month, make an estimate of the value of the work performed in accordance with this contract during the previous calendar month.

The first estimate shall be of the value of the work satisfactorily completed in place and meeting the requirements of the contract. And every subsequent estimate, except the final estimate, shall be of the value of the work satisfactorily completed in place since the last preceding estimate was made; provided, however, that should the Contractor fail to adhere to the program of completion fixed in this contract, the Engineer shall deduct from the next and all subsequent estimates the full calculated accruing amount of the liquidated damages to the date of said estimate, until such time as the compliance with the program has been restored.

The estimate shall be signed by the Engineer and, after approval, the City shall pay or cause to be paid to the Contractor in the manner provided by law, an amount equal to 95 percent of the estimated value of the work satisfactorily performed and complete in place.

Engineer will, within 7 days after receipt of each Application for Payment, including each resubmittal, either indicate in writing a recommendation of payment and present the Application to Owner, or return the Application to Contractor indicating in writing Engineer’s reasons for refusing to recommend payment. In the latter case, Contractor may make the necessary corrections and resubmit the Application.

10-03. Substitution of Securities.

1. At such times that Pubic Contract Code Section 22300 is in effect Contractor may propose the substitution of securities of at least equal market value for any moneys to be withheld to ensure performance under the Contract. Market value shall be determined as of the day prior to the date such substitution is to take place. Such substitution shall be made at the request and expense of the Contractor. The securities shall be one or more of the following types:

(a) Bonds or interest-bearing notes or obligations of the United States, or those for which the faith and credit of the United States are pledged for the payment of principal and interest.

(b) Bonds or interest-bearing notes on obligations that are guaranteed as to principal and interest by a federal agency of the United States.

(c) Bonds of the State of California, or those for which the faith and credit of the State of California are pledged for the payment of principal and interest.

(d) Bonds or warrants, including, but not limited to, revenue warrants, of any county, city, metropolitan water district, California water district, California water storage district, irrigation district in the State of California, municipal utility district, or school district of the State of California, which are rated by Moody's or Standard and Poor as A or better.

(e) Bonds, consolidated bonds, collateral trust debentures, consolidated debentures, or other obligations issued by federal land banks or federal intermediate credit banks established under the Federal Farm Loan Act, as amended; debentures and consolidated debentures issued by the Central Bank for Cooperatives and banks for cooperatives established under the Farm Credit Act of 1933, as amended; bonds, or debentures of the Federal Home Loan Bank Board established under the Federal Home Loan Bank Act; and stock, bonds, debentures and other obligations of the Federal National Mortgage Association established under the National Housing Act as amended and bonds of any Federal Home Loan Mortgage Corporation.

(f) Commercial paper of "prime" quality as defined by a nationally recognized organization which rates such securities. Eligible paper is further limited to issuing corporations: (1) organized and operating within the United States; (2) having total assets in excess of five hundred million dollars ($500,000,000); and (3) approved by the Pooled Money Investment Board of the State of California. Purchases of eligible commercial paper may not exceed 180 days' maturity, nor represent more than 10 percent of the outstanding paper of an issuing corporation.

(g) Bills of exchange or time drafts on and accepted by a commercial bank, otherwise known as bankers acceptances, which are eligible for purchase by the Federal Reserve System.

(h) Certificates of deposits issued by a nationally or state-chartered bank or savings and loan association.

(i) The portion of bank loans and obligations guaranteed by the United States Small Business Administration or the United States Farmers Home Administration.

(j) Student loan notes insured under the Guaranteed Student Loan Program established pursuant to the Higher Education Act of 1965, as amended (20 U.S.C. 1001, et seq.) and eligible for resale to the Student Loan Marketing Association established pursuant to Section 133 of the Education Amendments of 1972, as amended (20 U.S.C. 1087-2).

(k) Obligations issued, assumed or guaranteed by International Bank for Reconstruction and Development, the Inter-American Development Bank, the Asian Development Bank, or the Government Development Bank of Puerto Rico.

(l) Bonds, debentures and notes issued by corporations organized and operating within the United States. Such securities eligible for substitution shall be within the top three ratings of a nationally recognized rating service.

2. The securities shall be deposited with City or with any commercial bank as escrow agent, who shall arrange for transfer of such securities to the Contractor upon satisfactory completion of the contract. Any interest accrued or paid on such securities shall belong to the Contractor and shall be paid upon satisfactory completion of the contract.

The market value of the securities deposited shall at all times be maintained in an amount at least equal, in the sole judgment of City, to the moneys to be withheld pursuant to the Contract Documents to ensure performance of the Contract. In order to comply with this condition, Contractor shall deposit additional securities as necessary upon request by City or the escrow agent.

3. Upon acceptance of any Proposal that includes substituting securities for amounts withheld to ensure performance, a separate escrow agreement satisfactory in form and substance to City shall be prepared and executed by City, the Contractor and the escrow agent, which may be City. The escrow agreement shall specify, among other matters, value of securities to be deposited; procedures for valuing the securities and for adding or withdrawing securities to maintain the market value of the deposited securities at least equal to the amount of moneys which would otherwise be withheld; the terms and conditions of conversion to cash in case of the default by the Contractor; and terms, conditions and procedure for termination of the escrow. City shall have no obligation to enter any such Agreement that does not provide the City with the unilateral right to convert securities to cash and to gain immediate possession of the cash.

10-04. Acceptance. The work must be accepted by vote of the City Council of the City of Ukiah when the whole shall have been completed satisfactorily. The Contractor shall notify the Engineer, in writing, of the completion of the work, whereupon the Engineer shall promptly, by personal inspection, satisfy himself as to the actual completion of the work in accordance with the terms of the contract and shall thereupon recommend acceptance by the City Council.

10-05. Final Estimate and Payment. The Engineer shall, as soon as practicable after the final acceptance of the work done under this contract, make a final estimate of the amount of work done thereunder and the value thereof.

Such final estimate shall be signed by the Engineer, and after approval, the City shall pay or cause to be paid to the Contractor, in the manner provided by law, the entire sum so found to be due hereunder, after deducting therefrom all previous payments and such other lawful amounts as the terms of this contract prescribe.

In no case will final payment be made in less than thirty-five (35) days after the filing of the notice of completion with the County Recorder.

10-06. Delay Payments. Should any payment due the Contractor or any estimate be delayed, through fault of the City beyond the time stipulated, such delay shall not constitute a breach of contract or be the basis for a claim for damages, but the City shall pay the Contractor interest on the amount of the payment at the rate of 6 percent per annum for the period of such delay. The terms for which interest will be paid shall be reckoned, in the case of any monthly or progress payment, from the twentieth day of the month next succeeding the month in which the work was performed to the date of payment of the estimate; and in the case of the final estimate, from the forty-fifth day after acceptance to the date of payment of the final estimate.

The date of payment of any estimate shall be considered the day on which the payment is offered or mailed as evidenced by the records of the Treasurer of the City. If interest shall become due on any delayed payment, the amount thereof, as determined by the City, shall be added to a succeeding payment. If the interest shall become due on the final payment, it shall be paid on a supplementary voucher to interest or any sum or sums which, by the terms of this contract, the City is authorized to reserve or retain.

10-07. Extra Work and Work Omitted. Whenever corrections, alterations, or modifications of the work under this contract ordered by the Engineer and approved by the City increase the amount of work to be done, such added work shall be known as "extra work"; and when such corrections, alterations, or modifications decrease the amount of work to be done, such subtracted work shall be known as "work omitted".

When the Contractor considers that any changes ordered involve extra work, he or she shall immediately notify the Engineer in writing and subsequently keep him or her informed as to when and where extra work is to be performed and shall make claim for compensation therefor each month not later than the first day of the month following that in which the work claimed to be extra work was performed and he or she shall submit a daily complete statement of materials and labor used and expenses incurred on account of extra work performed, showing allocation of all materials, labor and expenses.

All such claims shall state the date of the Engineer's written order and the date of approval by the City authorizing the work on account of which claim is made. Unless such notification is made in writing within the time specified and unless complete statements of materials used and expenses incurred on account of such extra work are furnished as above required, the Contractor shall not be entitled to payment on account of extra work and Contractor shall be deemed to have waived the right to make any future claims for compensation for such extra work.

When changes decrease the amount of work to be done, they shall not constitute a claim for damages on account of anticipated profits on the work that may be omitted.

10-08. Compensation for Extra Work or Work Omitted. Whenever corrections, additions, or modifications in the work under this contract change the amount of work to be done or the amount of compensation due the Contractor, excepting increases or decreases in contract items having unit contract prices for each measurable quantity installed in place, and such changes have been ordered in writing by the Engineer and approved by the City prior to the Contractor performing the extra work, then a price may be agreed upon. Failing such an agreement in price, the Contractor shall be compensated for performing extra work pursuant to the provisions of Section 4-1.03 D,"Extra Work", and Section 9-1.03,"Force Account Payment" of the Standard Specifications.

This method of determining the price of work shall not apply to the performance of any work which is required or reasonably implied to be performed or furnished under this contract.

10-09. Compensation to the City for Extension of Time. In case the work called for under this contract is not completed within the time limit stipulated herein, the City shall have the right as provided hereinabove, to extend the time of completion thereof. If the time limit be so extended, the City shall have the right to charge to the Contractor and to deduct from the final payment for the work the actual cost to the City of engineering, inspection, superintendence and other overhead expenses which are directly chargeable to the contract and which accrue during the period of such extension, except that the cost of final unavoidable delays shall not be included in such charges.

10-10. Liquidated Damages for Delay. It is agreed by the parties to the contract that time is of the essence and that, in case all the work is not completed before or upon the expiration of the time limit as set forth, damage, other than those cost items identified in section 10-09, will be sustained by the City and that it is and will be impracticable to determine the actual amount of damage by reason of such delay; and it is therefore agreed that the Contractor will pay to the City the sum of five hundred dollars ($500.00) per day for each and every calendar day's delay beyond the time prescribed.

In compliance with the provisions of California Public Contract Code § 7102, the Contractor will be compensated for damages incurred due to delays in completing the work due solely to the fault of the City, where such delay is unreasonable under the circumstances and not contemplated by the parties. The Contractor and City agree that determining actual damages is impracticable and extremely difficult. As such, the Contractor shall be entitled to the appropriate time extension and to payment of liquidated damages in the sum of $250 per day of delay in excess of the time specified for the completion of the work. Such amount shall constitute the only payment allowed and shall necessarily include all overhead (direct or indirect), all profit, all administrative costs, all bond costs, all labor, materials, equipment and rental costs, and any other costs, expenses and fees incurred or sustained as a result of such delay. The Contractor expressly agrees to be limited solely to the liquidated damages for all such delays as defined in this subsection.

SECTION 11. MISCELLANEOUS

11-01. Notice. Whenever any provision of the contract documents requires the giving of written notice, it shall be deemed to have been validly given if delivered in person to the individual or to a member of the firm or to an officer of the corporation for whom it is intended, or if delivered at or sent by registered or certified mail, postage prepaid, to the last business address known to the giver of the notice. If mailed, the notice shall be deemed received on the date of delivery stated in the return receipt.

11-02. Computation of Time. When any period of time is referred to in the Contract Documents by days, it shall be computed to exclude the first and include the last day of such period. If the last day of any such period

falls on a Saturday or Sunday or on a day made a legal holiday by the law of the applicable jurisdiction, such day shall be omitted from the computation.

11-03. Claims Procedure

Contractor shall timely comply with all notices and requests for changes to the contract time or contract price, as a prerequisite to filing any claim governed by this Article. The failure to timely submit a notice of delay or notice of change, or to timely request a change to the contract time or contract price, or to timely provide any other notice or request required herein shall constitute a waiver of the right to further pursue the claim under the contract or at law.

A. **Intent.** Effective January 1, 1991, Section 20104 et seq., of the California Public Contract Code prescribes a process utilizing informal conferences, non-binding judicial supervised mediation, and judicial arbitration to resolve disputes on construction claims of $375,000 or less. Effective January 1, 2017, Section 9204 of the Public Contract Code prescribes a process for negotiation and mediation to resolve disputes on construction claims. The intent of this Article is to implement Sections 20104 et seq. and Section 9204 of the California Public Contract Code. This Article shall be construed to be consistent with said statutes.

B. **Claims.** For purposes of this Article, "Claim" means a separate demand by the Contractor, for (A) a time extension, (B) payment of money or damages arising from work done by or on behalf of the Contractor pursuant to the Contract, or (C) an amount the payment of which is disputed by the District. Claims governed by this Article may not be filed unless and until the Contractor completes all procedures for giving notice of delay or change and for the requesting of a time extension or change order. Claims governed by this Article must be filed no later than the date of final payment. The claim shall be submitted in writing to the District and shall include on its first page the following in 16 point capital font: "THIS IS A CLAIM." Furthermore, the claim shall include the documents necessary to substantiate the claim. Nothing herein is intended to extend the time limit or supersede notice requirements otherwise provided by contract for the filing of claims, including all requirements pertaining to compensation or payment for extra work, disputed work, and/or changed conditions. Failure to follow such contractual requirements shall bar any claims or subsequent lawsuits for compensation or payment thereon.

C. **Supporting Documentation.** The Contractor shall submit all claims in the following format:

Summary of claim merit and price, reference Contract Document provisions pursuant to which the claim is made
List of documents relating to claim:
Specifications
Drawings
Clarifications (Requests for Information)
Schedules
Other
Chronology of events and correspondence
Analysis of claim merit
Analysis of claim cost
Time impact analysis in CPM format

If Contractor's claim is based in whole or in part on an allegation of errors or omissions in the Drawings or Specifications for the project, Contractor shall provide a summary of the percentage of the claim subject to design errors or omissions and shall obtain a certificate of merit in support of the claim of design errors and omissions.

D. City's Response. Upon receipt of a claim pursuant to this Article, City shall conduct a reasonable review of the claim and, within a period not to exceed 45 days, shall provide the Contractor a written statement identifying what portion of the claim is disputed and what portion is undisputed. Any payment due on an undisputed portion of the claim will be processed and made within 60 days after the City issues its written statement.

If the City needs approval from its governing body to provide the Contractor a written statement identifying the disputed portion and the undisputed portion of the claim, and the City's governing body does not meet within the 45 days or within the mutually agreed to extension of time following receipt of a claim sent by registered mail or certified mail, return receipt requested, the City shall have up to three days following the next duly publicly noticed meeting of the City's governing body after the 45-day period, or extension, expires to provide the Contractor a written statement identifying the disputed portion and the undisputed portion.

Within 30 days of receipt of a claim, the City may request in writing additional documentation supporting the claim or relating to defenses or claims the District may have against the Contractor. If additional information is thereafter required, it shall be requested and provided pursuant to this subdivision, upon mutual agreement of City and the Contractor. The City's written response to the claim, as further documented, shall be submitted to the Contractor within 30 days (if the claim is less than $15,000, within 15 days) after receipt of the further documentation, or within a period of time no greater than that taken by the Contractor in producing the additional information or requested documentation, whichever is greater.

E. Meet and Confer. If the Contractor disputes the City's written response, or the City fails to respond within the time prescribed, the Contractor may so notify the City, in writing, either within 15 days of receipt of the City's response or within 15 days of the City's failure to respond within the time prescribed, respectively, and demand in writing an informal conference to meet and confer for settlement of the issues in dispute. Upon receipt of a demand, the City shall schedule a meet and confer conference within 30 days for settlement of the dispute.

F. Mediation. Within 10 business days following the conclusion of the meet and confer conference, if the claim or any portion of the claim remains in dispute, the City shall provide the Contractor a written statement identifying the portion of the claim that remains in dispute and the portion that is undisputed. Any payment due on an undisputed portion of the claim shall be processed and made within 60 days after the City issues its written statement. Any disputed portion of the claim, as identified by the Contractor in writing, shall be submitted to nonbinding mediation, with the City and the Contractor sharing the associated costs equally. The City and Contractor shall mutually agree to a mediator within 10 business days after the disputed portion of the claim has been identified in writing, unless the parties agree to select a mediator at a later time.

If the parties cannot agree upon a mediator, each party shall select a mediator and those mediators shall select a qualified neutral third party to mediate with regard to the disputed portion of the claim. Each party shall bear the fees and costs charged by its respective mediator in connection with the selection of the neutral mediator.

For purposes of this section, mediation includes any nonbinding process, including, but not limited to, neutral evaluation or a dispute review board, in which an independent third party or board assists the parties in dispute resolution through negotiation or by issuance of an evaluation. Any mediation utilized shall conform to the timeframes in this section.

Unless otherwise agreed to by the City and the Contractor in writing, the mediation conducted pursuant to this section shall excuse any further obligation under Public Contract Code Section 20104.4 to mediate after litigation has been commenced.

The mediation shall be held no earlier than the date the Contractor completes the work or the date that the Contractor last performs work, whichever is earlier. All unresolved claims shall be considered jointly in a single mediation, unless a new unrelated claim arises after mediation is completed.

G. Procedures After Mediation. If following the mediation, the claim or any portion remains in dispute, the Contractor must file a claim pursuant to Chapter 1 (commencing with Section 900) and Chapter 2 (commencing with Section 910) of Part 3 of Division 3.6 of Title 1 of the Government Code prior to initiating litigation. For purposes of those provisions, the running of the period of time within which a claim must be filed shall be tolled from the time the Contractor submits his or her written claim pursuant to subdivision (a) until the time the claim is denied, including any period of time utilized by the meet and confer conference.

H. Civil Actions. The following procedures are established for all civil actions filed to resolve claims of $375,000 or less:

Within 60 days, but no earlier than 30 days, following the filing or responsive pleadings, the court shall submit the matter to non-binding mediation unless waived by mutual stipulation of both parties or unless mediation was held prior to commencement of the action in accordance with Public Contract Code section 9204 and the terms of this Contract. The mediation process shall provide for the selection within 15 days by both parties of a disinterested third person as mediator, shall be commenced within 30 days of the submittal, and shall be concluded within 15 days from the commencement of the mediation unless a time requirement is extended upon a good cause showing to the court.

If the matter remains in dispute, the case shall be submitted to judicial arbitration pursuant to Chapter 2.5 (commencing with Section 1141.10) of Title 3 of Part 3 of the Code of Civil Procedure, notwithstanding Section 1114.11 of that code. The Civil Discovery Act of 1986 (Article 3 (commencing with Section 2016) of Chapter 3 of Title 3 of Part 4 of the Code of Civil Procedure) shall apply to any proceeding brought under this subdivision consistent with the rules pertaining to judicial arbitration. In addition to Chapter 2.5 (commencing with Section 1141.10) of Title 3 of Part 3 of the Code of Civil Procedure, (A) arbitrators shall, when possible, be experienced in construction law, and (B) any party appealing an arbitration award who does not obtain a more favorable judgment shall, in addition to payment of costs and fees under that chapter, also pay the attorney's fees on appeal of the other party.

I. Government Code Claims. In addition to any and all contract requirements pertaining to notices of and requests for compensation or payment for extra work, disputed work, construction claims and/or changed conditions, the Contractor must comply with the claim procedures set forth in Government Code Sections 900, et seq. prior to filing any lawsuit against the City. Such Government Code claims and any subsequent lawsuit based upon the Government Code claims shall be limited to those matters that remain unresolved after all procedures pertaining to extra work, disputed work, construction claims, and/or changed conditions have been followed by Contractor. If no such Government Code claim is submitted, or if the prerequisite contractual requirements are not satisfied, no action against the City may be filed. **A Government Code claim must be filed no earlier than the date the work is completed or the date the Contractor last performs work on the project, whichever occurs first. A Government Code claim shall be inclusive of all unresolved claims unless a new unrelated claim arises after the Government Code claim is submitted.**

J. Non-Waiver. The City's failure to respond to a claim from the Contractor within the time periods described in this Article or to otherwise meet the time requirements of this Article shall result in the claim being deemed rejected in its entirety.

11-04. Arbitration. Subject to exhaustion of all other applicable contractual and administrative remedies, including Public Contract Code Section 9201, any unresolved claim arising under this contract shall be subject to binding arbitration pursuant to Article 7.1 (commencing with Section 10240) of Chapter 1 of Part 2 of the California Public Contract Code.

11-05. Litigation and Forum Selection. Contractor and City stipulate and agree that any litigation relating to the enforcement or interpretation of this contract, arising out of Contractor's performance or relating in any way to the work shall be brought in Mendocino County and that venue will lie in Mendocino County.

Except as otherwise expressly provided by law, the parties waive any objections they might otherwise have to the propriety of jurisdiction or venue in the state courts in Mendocino County and agree that California law shall govern any such litigation.

The duties and obligations imposed by these General Conditions and the rights and remedies available hereunder to the parties hereto and, in particular but without limitation, the warranties, guaranties and obligations imposed upon the Contractor and all of the rights and remedies available to the City thereunder, shall be in addition to and shall not be construed in any way as a limitation of, any rights and remedies available to any or all of them which are otherwise imposed or available by law or contract, by special warranty or guaranty, or by other provisions of the contract documents and the provisions of this paragraph shall be as effective as if repeated specifically in the contract documents in connection with each particular duty, obligation, right and remedy to which they apply. All warranties and guaranties made in the contract document shall survive final payment and termination or completion of this contract. The City disclaims an express or implied warranty that the plans and specifications identify all site conditions that could affect the time or cost to complete the Work.

11-05. Waiver. The Contractor shall strictly comply with all notices and other contract requirements. Waiver by the City of any failure of the Contractor to comply with any term of the contract, including the notice provisions, shall not be deemed a waiver of a subsequent breach.

TECHNICAL SPECIFICATIONS

SECTION 12. GENERAL INFORMATION

12-01. Location and Scope of Work. All of the work to be performed is within the City of Ukiah and consists of construction of Recycled Water Project Phase 4 - Specification No. 23-01, including: construction of new and rehabilitation of existing facilities related to the City of Ukiah's recycled water production, storage, and distribution; repair and reconstruction of existing improvements affected by the Work; and incidentals for complete and usable facilities. General locations of the work:

1. City of Ukiah Water Treatment Plant: 935 River Street, Ukiah, CA 95482.
2. City of Ukiah Wastewater Treatment Plant: 300 Plant Road, Ukiah, CA 95482.
3. Various locations within the City of Ukiah for the recycled water distribution system pipelines.

The Contractor should familiarize himself with the local conditions of the project sites. Failure to do so will in no way relieve him of the responsibility for performing any of the work or operations required as a part of this contract. Further information regarding the work or these specifications can be obtained from Seth Strader at (707) 463-6233.

12-02. Arrangement of Technical Specifications. The Technical Specifications are arranged in sections covering the various phases of work as follows:

Section No.	Title
12	General Information
13	Construction Details
14	Exclusions from General Conditions
15	Amendments to General Conditions

12-03. Arrangement of Plans. General locations and linear quantities of the work are shown in Appendix "A". A map will be provided to the successful bidder showing the exact locations of the work to be done.

12-04. Business Licenses. The Contractor and any subcontractors shall each secure and maintain a valid City of Ukiah Business License prior to the start of any portion of the work.

12-05. Permits. The Contractor shall provide, procure, and pay for all permits required to complete this work.

12-06. Standard Specifications and Standard Plans. The Standard Specifications and Standard Plans of the California State Department of Transportation, 2018, are hereby made a part of these Special Provisions and are hereinafter referred to as "California Standard Specifications" and "California Standard Plans."

Whenever in the California Standard Specifications and the California Standard Plans the following terms are used, they shall be understood to mean and refer to the following:

Department of Transportation - The City Council.

Director of Public Works - The City of Ukiah Director of Public Works.

Engineer - The Engineer, designated by the City Council, acting either directly or through properly authorized agents, such agents acting within the scope of the particular duties entrusted to them.

Laboratory - The designated laboratory authorized by the City of Ukiah to test materials and work involved in the contract.

State - The City of Ukiah

Other terms appearing in the California Standard Specifications and the California Standard Plans shall have the intent and meaning specified in Section I, Definition of Terms of the California Standard Specifications.

In case of discrepancy between the contract documents, the order of precedence from the highest to lowest is as follows:

1. (City) Special Provisions
2. (City) Project Plans
3. City Standard Plans and Details
4. California Standard Plans
5. California Standard Specifications

12-07. Temporary Facilities. All temporary facilities are the responsibility of the Contractor. The removal of said facilities shall be the responsibility of the Contractor. The Contractor shall be responsible for any and all damages to existing facilities which are a result of the work.

12-08. Public Convenience and Safety. The Contractor shall conduct operations so as to cause the least possible obstruction and inconvenience to public traffic. The Contractor shall, at his or her expense, furnish such flag persons and furnish, erect, construct and maintain such fences, barriers, lights, signs, detours, pedestrian walkways, driveway ramps and bridging as may be necessary to give adequate warning to the public that work is in progress and that dangerous conditions exist, to provide access to abutting properties and to permit the flow of pedestrian and vehicular traffic to safely and expeditiously pass the work.

12-09. Maintaining Traffic. Attention is directed to Section 7-1.08, "Public Convenience," 7-1.09, "Public Safety," 7-1.092, "Lane Closure," and 7-1.095, "Flagging Costs," of the California Standard Specifications.

Streets shall be open to through vehicular traffic during non-working hours. All public traffic shall be permitted to pass through the work with as little inconvenience and delay as possible.

Full costs for "Maintaining Traffic", including "Flagging Costs", shall be considered as included in the various items of work and no additional compensation will be made.

12.10. Stream Pollution. The Contractor shall exercise every reasonable precaution to prevent muddying or silting of live streams, and the Contractor's attention is called to the fact that the terms of this contract do not relieve him or her of responsibility for compliance with Sections 5650 and 12015 of the Fish and Game Code or other applicable statutes relating to pollution prevention or abatement.

12-11. Warranties. Unless otherwise indicated, the Contractor shall warrant all materials provided and work performed under this contract for a period of one year from the date of final acceptance. He shall replace promptly and at his own expense any materials and/or workmanship which fail during this warranty period.

12-12. Utilities. No water, sewer or electrical services will be provided by the owner. It is the Contractor's sole responsibility to arrange such services as necessary.

12-13. Preconstruction Conference. A preconstruction conference will be held before any work will be allowed to commence. This meeting will cover inspection, schedule for work, and among other items, the responsibilities and procedures of each of the interested parties to assure that the project will be completed in accordance with the contract documents.

12-14. Safety Requirements. The Contractor shall comply with all pertinent provisions of the Department of Labor "Safety and Health Regulations for Construction (29 FCS Part 1518, 36 CFR 7340)", with additions or modifications thereto, in effect during construction of this project.

SECTION 13 - CONSTRUCTION DETAILS

13-01. Volume 1 - Technical Specifications Division 00 through Division 13

13-02. Volume 2 - Technical Specifications Division 15 through Division 17 and Appendices
- Appendix A of the Specifications - Mitigation Monitoring and Reporting Program
- Appendix B of the Specifications - WWTP Geotechnical Report (Revision 2)
- Appendix C of the Specifications - Recycled Water Pipeline Geotechnical Report

13-03. Volume 3 - Drawings

SECTION 14. EXCLUSIONS FROM GENERAL CONDITIONS

14-01. Provisions to be Excluded from General Conditions. The following designated provisions of the General Conditions are hereby determined to be inapplicable to the proposed work and, therefore, are hereby excluded from the terms of the Notice to Bidders, Proposal, Agreement and other contract documents as though entirely omitted from said General Conditions:

No other exclusions.

SECTION 15. AMENDMENTS TO GENERAL CONDITIONS

15-01. Sections of General Conditions to be Amended.

The following designated sections of the Special Provisions are hereby amended to read as follows:

No amendments.

BID SUBMITTAL CHECKLIST

The following is a checklist to assist you in your submission of your bid documents. Please make sure you include the following when submitting your bid documents to reduce the risk of having your bid rejected:

Did you include?...

- **Proposal** (Page ___)
  - Unit prices filled out clearly.
  - Extended prices filled out clearly and calculated correctly
  - Total bid amount filled out clearly and calculated correctly
  - Sign the proposal, and provide complete information
  - CLSB No. and expiration date
  - Department of Industrial Relations Public Works Contractor Registration Number

- **Fair Employment Practices Certification** (Page ___)
  - Filled out completely per instruction

- **Worker's Compensation Certificate** (Page ____)
  - Filled out completely per instruction

- **Certification of Non-Discrimination in Employment** (Page ___)
  - Filled out completely per instruction

- **List of Proposed Subcontractors** (Page _____)
  - Filled out completely per instruction

- **Statement of Experience** (Page ____)

- **Signature of Bidder** (Page _____)
  - Filled out completely per instruction
  - Authorized signature provided

- **Bidder's Bond** (Page _____)
  - Filled out completely per instruction

- **Non-Collusion Affidavit** (Page _____)
  - Filled out completely per instruction
  - Notarized

- **Addenda Issued**
  - Check the City website for any addenda issued: www.cityofukiah.com/purchasing

CITY OF UKIAH
MENDOCINO COUNTY, CALIFORNIA

PROPOSAL

FOR
RECYCLED WATER PROJECT – PHASE 4

Specification No. 23-01

The undersigned, as bidder,
declares that he or she has examined thoroughly all of the contract documents herein contained, that this proposal is made without collusion with any other person, firm or corporation and that all laws and ordinances relating to the interest of public officers in this contract have been complied with in every respect.

AND he or she proposes and agrees, if this proposal is accepted,

1) that he or she will contract with the City of Ukiah, Mendocino County, California, in the form of the copy of the agreement herein contained

   a) to provide all necessary machinery, tools, apparatus and other means of construction;

   b) to furnish all materials;

   c) to provide all superintendence, overhead expenses and all labor and expenses of whatever nature necessary to complete the job in conformity with the specifications and drawings and other contract provisions herein or reasonably implied hereby or as necessary to complete the work in the manner and within the time named herein and according to the requirements and to the reasonable satisfaction of the City Engineer;

   d) to pay all charges of freight transportation and hauling;

2) that he or she indemnifies the City against any loss or damage arising from any act of the undersigned as Contractor; and

3) that he or she will accept as full payment therefor the following sums:

The Bidder certifies the following:

1) This Bid is genuine and not made in the interest of or on behalf of any undisclosed individual or entity and is not submitted in conformity with any collusive agreement or rules of any group, association, organization, or corporation.
2) Bidder has not directly or indirectly induced or solicited any other Bidder to submit a false or sham Bid.
3) Bidder has not solicited or induced any individual or entity to refrain from bidding.
4) Bidder has not engaged in corrupt, fraudulent, collusive, or coercive practices in competing for the Contract as defined below:
   a) Corrupt practice means the offering, giving, receiving, or soliciting of anything of value likely to influence the action of a public official in the bidding process.
   b) Fraudulent practice means an intentional misrepresentation of facts made (a) to influence the bidding process to the detriment of Owner, (b) to establish bid prices at artificial non-competitive levels, or (c) to deprive Owner of the benefits of free and open competition.
   c) Collusive practice means a scheme or arrangement between 2 or more Bidders, with or without the knowledge of Owner, a purpose of which is to establish bid prices at artificial, non-competitive levels.
   d) Coercive practice means harming or threatening to harm, directly or indirectly, persons or their property to influence their participation in the bidding process or affect the execution of the Contract.

This Bid will remain subject to acceptance for [60] days after the Bid opening, or for such longer period of time that Bidder may agree to in writing upon request of Owner.

In accordance with California Public Contract Code Section 2200 et seq., ("Iran Contracting Act of 2010"), Bidder certifies that Bidder is not identified on the list created by the California Department of General Services (DGS) in accordance with California Public Contract Code Section 2203(b) as a Person engaging in investment activities in Iran.

BIDDING SCHEDULE

In the case of any discrepancy between the unit price and the total set forth for the item, the unit price shall prevail; provided, however, that if the amount set forth as a unit price is ambiguous, unintelligible or uncertain for any reason, or is omitted, or in the case of lump sum items, is not the same amount as the entry in the "Total" column, then the amount set forth in the "Total" column for the item shall prevail in accordance with the following:

1. As to lump sum items, the amount set forth in the "Total" column shall be the unit price;
2. As to unit basis items, the amount set forth in the "Total" column shall be divided by the estimated quantity for the item and the price thus obtained shall be the unit price.

The Total Base Bid shall be the sum of the items in the "Total" column. In case of discrepancy between the sum of the items in the "Total" column and the amount entered as Total Base Bid, the sum of the "Total" column items shall prevail. The bid comparison will be based on the sum of the items in the "total" column for each bidder.

The Unit prices for the various Construction Items below include all costs associated with the General Conditions, Special Provisions, Requirements of the Construction Contract, and represent the total, complete, in-place cost for each specific Construction Item in accordance with the Construction Documents, including all elements, work components, accessories, and connections, shown in applicable details or required to yield a complete, sound and functional component or system appropriate for its intended function, whether or not such is specifically described or listed in any description of measurement or payment. The total amount of the Construction items below shall represent the total and complete cost of the fully functional Project. All work not specifically listed below be required to complete the work of the various construction items and the cost of such shall be considered as included throughout the various unit prices indicated.

Lowest bid will be based on the lowest Base Bid.

BIDDER'S BOND

KNOW ALL MEN BY THESE PRESENTS,

That we, _____

_____, as PRINCIPAL and

_____

_____, as SURETY,

are held and firmly bound unto the City of Ukiah in the penal sum of 10 PERCENT OF THE TOTAL AMOUNT OF THE BID of the Principal above named, submitted by said Principal to the City of Ukiah, as the case may be, for the work described below, for the payment of which sum in lawful money of the United States, well and truly to be made, to the City Clerk to which said bid was submitted, we bind ourselves, our heirs, executors, administrators and successors jointly and severally, firmly by these presents. In no case shall the liability of the surety hereunder exceed the sum of $_____

THE CONDITION OF THIS OBLIGATION IS SUCH,

That whereas the Principal has submitted the above mentioned bid to the City of Ukiah, as aforesaid, for certain construction specifically described as follows, for which bids are to be opened at the Office of the City Clerk, Ukiah Civic Center, Ukiah, California, on JUNE 2, 2023 for RECYCLED WATER PROJECT - PHASE 4.

NOW, THEREFORE, If the aforesaid Principal is awarded the contract and, within the time and manner required under the specifications, after the prescribed forms are presented to him or her for signatures, enters into a written contract, in the prescribed form, in accordance with the bid and files two bonds with the City of Ukiah, one to guarantee faithful performance and the other to guarantee payment for labor and materials, as required by law, then this obligation shall be null and void; otherwise, it shall be and remain in full force and virtue.

CITY OF UKIAH
Mendocino County, California

AGREEMENT

FOR

RECYCLED WATER PROJECT – PHASE 4

Specification No. 23-01

THIS AGREEMENT, made this _____ day of _____, 20____, by and between the City of Ukiah, Mendocino County, California, hereinafter called the City and _____ hereinafter called the Contractor,

WITNESSETH:

WHEREAS, the City has caused to be prepared in accordance with law, specifications, drawings and other contract documents for the work herein described and shown and has approved and adopted these contract documents, specifications and drawings and has caused to be published in the manner and for the time required by law a notice to bidders inviting sealed proposals for doing the work in accordance with the terms of this contract and

WHEREAS, the Contractor, in response to the notice to bidders, has submitted to the City a sealed proposal accompanied by a proposal guaranty in an amount of not less than 10 percent of the bid price for the construction of the proposed work in accordance with the terms of this contract and

WHEREAS, the City, in the manner prescribed by law, has publicly opened, examined and canvassed the proposals submitted and as a result has determined and declared the Contractor to be the lowest and best regular responsible bidder for the work and for the sums named in the proposal,

NOW, THEREFORE, THIS AGREEMENT WITNESSETH:

Article 1. Work to be Done and Contract Days Allowed.

That the Contractor shall provide all necessary machinery, tools, apparatus and other means of construction; shall furnish all materials, superintendence, overhead, expenses, all labor and expenses of whatever nature necessary for completion of the work in conformity with the Special Provisions and other contract documents hereto attached and according to such instructions as may be given by the Engineer. The Contractor shall complete the work within seven hundred and seven (707) calendar days. Contract days shall be counted starting with the 10th day following receipt of notice that the contract has been executed by the City. Contractor, at his or her option, may begin work prior to start of counting contract days, however, in no event shall the Contractor start work without giving notification to the Engineer at least 72 hours prior to the start of work, without obtaining an encroachment permit from the City, or without having submitted certificates of insurance that have been accepted and approved by the Engineer

Article II. Contract Prices.

That the City shall pay the Contractor the prices stated in the proposal submitted by the Contractor, for complete performance of the contract by the Contractor. The Contractor hereby agrees to accept the prices as full compensation for all material and appliances necessary to the work, for all labor and use of tools and other implements necessary to execute the work contemplated in this contract; for all loss or damage arising out of the nature of the work or from the action of the elements, or from any unforeseen obstructions or difficulties which may be encountered in the prosecution of the work; for all risks of every description connected therewith; for all expenses of the work, as herein specified; for all liability and other insurance, for all overhead and other expenses incident to the work; all according to the Contract Drawings, the Special Provisions, the Details, the instructions and the requirements of the City.

Article III. Labor Discrimination.

Attention is directed to Section 1735 of the Labor Code, which reads as follows:

> "No discrimination shall be made in the employment of persons upon public works because of the race, color, national origin or ancestry, or religion of such persons and every contractor for public works violating this section is subject to all the penalties imposed for a violation of this chapter."

In connection with the performance of work under this contract, the Contractor agrees as follows:

(a) The Contractor will not willfully discriminate against any employee or an applicant for employment because of race, color, religion, ancestry, or national origin. The Contractor will take affirmative action to ensure that applicants are employed and that employees are treated during employment without regard to their race, color, religion, ancestry, or national origin. Such action shall include, but not be limited to, the following: employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the awarding authority setting forth the provisions of this Fair Employment Practice section.

(b) The Contractor will send to each labor union or representative of workers with which he or she has a collective bargaining agreement or other contract or understanding, a notice, to be provided by the awarding authority, advising the said labor union or worker's representative of the Contractor's commitments under this section, to employees and applicants for employment.

(c) The Contractor will permit access to his or her records of employment, employment advertisements, application forms and other pertinent data and records by the Fair Employment Practices Commission, City of Ukiah or any other appropriate agency of the State of California designated by the awarding authority, for the purposes of investigation to ascertain compliance with the Fair Employment Practices section of this contract.

(d) A finding of willful violation of the Fair Employment Practices section of this Contract or of the Fair Employment Practices Act shall be regarded by the awarding authority as a basis for determining the Contractor to be not a "responsible bidder" as to future contracts for which such Contractor may submit bids, for revoking the Contractor's pre-qualification rating, if any and for refusing to establish, reestablish or renew a pre-qualification rating for the Contractor.

The City of Ukiah shall deem a finding of willful receipt of written notice from the Fair Employment Practices Act to have occurred upon that it has investigated and determined that the Contractor has violated the Fair Employment Practices Act and has issued an order under Labor Code Section 1426 or obtained an injunction under Labor Code Section 1429.

Upon receipt of such written notice from the Fair Employment Practices Commission, the City shall notify the Contractor that unless he or she demonstrates to the satisfaction of the awarding authority within a stated period that the violation has been corrected, his or her pre-qualification rating will be revoked at the expiration of such period.

(e) The Contractor agrees that should the City determine that the Contractor has not complied with the Fair Employment Practices section of this Contract, then pursuant to Labor Code Section 1735 and 1775 the Contractor shall, as a penalty to the City, forfeit for each calendar day or portion thereof, for each person who was denied employment as a result of such non-compliance, the penalties provided in the Labor Code for violation of prevailing wage rates. Such monies may be recovered from the Contractor. The City may deduct any such damages from any monies due the Contractor.

(f) Nothing contained in this Fair Employment Practices section shall be construed in any manner of fashion so as to prevent the City or the State of California from pursuing any other remedies that may be available at law.

(g) Prior to awarding the Contract, the Contractor shall certify to the awarding authority that he or she has or will meet the following standards for affirmative compliance, which shall be evaluated in each case by the awarding authority:

(1) The Contractor shall provide evidence, as required by the City that he or she has notified all supervisors, foremen and other personnel officers in writing of the content of the anti-discrimination clause and their responsibilities under it.

(2) The Contractor shall provide evidence, as required by the City, that he or she has notified all sources of employees' referrals (including unions, employment agencies, advertisements, Department of Employment) of the content of the anti-discrimination clause.

(3) The Contractor shall file a basic compliance report, as required by the City. Willfully false statements made in such reports shall be punishable as provided by law. The compliance report shall also spell out the sources of the work force and who has the responsibility for determining whom to hire, or whether or not to hire.

(4) Personally, or through his or her representatives, the Contractor shall, through negotiations with the unions with whom he or she has agreements, attempt to develop an agreement which will:

a. Spell out responsibilities for nondiscrimination in hiring, referral, upgrading and training.

b. Otherwise implement an affirmative anti-discrimination program in terms of the unions' specific areas of skill and geography to the end that qualified minority workers will be available and given and equal opportunity for employment.

(5) The Contractor shall notify the City of opposition to the anti-discrimination clause by individuals, firms or organizations during the period of its pre-qualification.

(h) The Contractor will include the provisions of the foregoing paragraphs 1 through 5 in every first tier subcontract so that such provisions will be binding upon each such subcontractor.

(i) The "Fair Employment Practices Certification" must be completed and signed prior to the time of submitting the bid.

Article IV. Parts of the Contract.

That the complete contract consists of the following documents, all of which shall be considered a part of this agreement.

1. Notice to Bidders
2. Wage Rates
3. General Conditions
4. Technical Specifications
5. Proposal
6. Fair Employment Practices Certification
7. Agreement
8. Performance Bond
9. Payment Bond
10. Special Provisions
11. Contract Drawings and Construction Details
12. Standard Drawings
13. Indemnification Agreement
14. Addenda (numbers **[ ]** to **[ ]**, inclusive)
15. Exhibits to this Agreement:
    a. List of Proposed Subcontractors
    b. Non-Collusion Affidavit
    c. Bidding Schedule
    d. Statement of Experience of Bidder
    e. Signatures of Bidder
    f. Worker's Compensation Certificate
    g. Certification of Nondiscrimination in Employment
    h. List of Equipment Manufacturers
    i. Escrow Agreement for Security Deposits in Lieu of Retention
16. Notice to Proceed
17. Change Orders
18. Field Orders
19. Work Change Directives

INDEMNIFICATION AGREEMENT

This Indemnification Agreement is made and entered in Ukiah, California, on _____, 20____, by and between the City of Ukiah (Ukiah) and _____ (Contractor).

Contractor is

_____

_____ for Ukiah.

As a condition of issuing the work order, attached hereto, Ukiah requires assurance that Contractor will protect Ukiah from damage or damage claims which arise from its performance of the work.

Accordingly, Contractor agrees as follows:

1. **Indemnification**. Contractor shall indemnify and hold harmless Ukiah and its officers, agents, and employees from and against any claim, loss, or damage, including the legal and other costs of defending against any claim of damage or loss which arises out of the Contractor's negligent or wrongful performance under the work order attached hereto, except for claims, losses, or damages resulting from the sole and exclusive negligence or other wrongful conduct of Ukiah or its officers, agents and employees.

TITLE: _____

CITY OF UKIAH
Mendocino County, California

PERFORMANCE BOND

BOND No._____

KNOW ALL PERSONS BY THESE PREESNTS:

THAT WHEREAS, the City of Ukiah, organized and operating under the laws of the State of California, (hereinafter referred to as the "City") has awarded to _____, (hereinafter referred to as the "Contractor") an agreement for Contract No. _____ (hereinafter referred to as the "Project").

WHEREAS, the work to be performed by the Contractor is more particularly set forth in the Contract for the Project dated _____, (hereinafter referred to, together with all attachments and exhibits thereto, as "Contract Documents"), the terms and conditions of which are expressly incorporated herein by reference; and

WHEREAS, the Contractor is required by the Contract Documents to perform the terms thereof and to furnish a bond for the faithful performance of said Contract Documents.

NOW, THEREFORE, we, _____, the undersigned Contractor and _____, as Surety, a corporation organized and duly authorized to transact business under the laws of the State of California, are held firmly bound until the City in the sum of _____ ($_____), for which amount well and truly to be made, we bind ourselves, our heirs ,executors and administrators, successors and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH that, if the Contractor, his or its heirs, executors, administrators, successors or assigns, shall in all things stand to and abide by, and well and truly keep and perform the covenants, conditions and agreements in the Contract Documents and any alteration thereof made as therein provided, on its part, to be kept and performed at the time and in the manner therein specified, and in all respects according to their intent and meaning; and shall faithfully fulfill all obligations; and shall indemnify and save harmless the City, its officials, officers, employees, and authorized volunteers, as stipulated in said Contract Documents, then this obligation shall become null and void; otherwise it shall be and remain in full force and effect.

As part of the obligation secured hereby and in addition to the face amount specified therefore, there shall be included costs and reasonable expenses and fees including reasonable attorneys' fees, incurred by the City in enforcing such obligation.

As a condition precedent to the satisfactory completion of the Contract Documents, unless otherwise provided for in the Contract Documents, the above obligation shall hold good for a period of one (1) year after the acceptance of the work by the City, during which time if Contractor shall fail to make full, complete, and satisfactory repair and replacements and totally protect the City from loss or damage resulting from or caused by defective materials or faulty workmanship. The obligations of Surety hereunder shall continue so long as any obligation of Contractor remains. Nothing herein shall limit the City's rights or the Contractor or Surety's obligations under the Contract Documents, law or equity, including, but not limited to, California Code of Civil Procedure Section 337.15.

Whenever Contractor shall be, and is declared by the City to be, in default under the Contract Documents, the Surety shall remedy the default pursuant to the Contract Documents, or shall promptly, at the City's option:

i. Take over and complete the Project in accordance with all terms and conditions in the Contract Documents; or

ii. Obtain a bid or bids for completing the Project in accordance with all terms and conditions in the Contract Documents and upon determination by Surety of the lowest responsive and responsible bidder, arrange for a contract between such bidder, the Surety and the City, and make available as work progresses sufficient funds to pay the cost of completion of the Project, less the balance of the contract price, including other costs and damages for which Surety may be liable. The term "balance of the contract price" as used in this paragraph shall mean the total amount payable to Contractor by the City under the Contract and any modification thereto, less any amount previously paid by the City to the Contractor and any other set offs pursuant to the Contract Documents.

iii. Permit the City to complete the Project in any manner consistent with California law and make available as work progresses sufficient funds to pay the cost of completion of the Project, less the balance of the contract price, including other costs and damages for which Surety may be liable. The term "balance of the contract price" as used in this paragraph shall mean the total amount payable to Contractor by the City under the Contract and any modification thereto, less any amount previously paid by the City to the Contractor and any other set offs by the City pursuant to the Contract Documents.

Surety expressly agrees that the City may reject any contractor or subcontractor which may be proposed by Surety in fulfillment of its obligations in the event of default by the Contractor.

Surety shall not utilize Contractor in completing the Project nor shall Surety accept a bid from Contractor for completion of the Project if the City, when declaring the Contractor in default, notifies Surety of the City's objection to Contractor's further participation in the completion of the Project.

The Surety, for value received, hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the Contract Documents or to the Project to be performed thereunder shall in any way affect its obligation on this bond, and it does hereby waive notice of any such change, extension of time, alteration or addition to the terms of the Contract Documents or to the Project.

CITY OF UKIAH
Mendocino County, California

PAYMENT BOND

BOND No. _____

KNOW ALL PERSONS BY THESE PRESENTS:

WHEREAS, the City of Ukiah ("City") has awarded to _____ ("Contractor/Principal") a contract (City Agreement No. _____, dated _____, _____, referred to as the "Agreement") for the work described as _____. The Agreement is incorporated by this reference into this Payment Bond ("Bond"); and

WHEREAS, Contractor/Principal is required to furnish a bond in connection with the Agreement and pursuant to California Civil Code section 9550;

NOW, THEREFORE, we _____, the undersigned Contractor/Principal, and _____ ("Surety"), a corporation organized and existing under the laws of the State of _____, and duly authorized to transact business under the laws of the State of California, as Surety, are held firmly bound until the City, and to any and all persons, companies, or corporations entitled by law to file stop payment notices under California Civil Code Section 9100, or any person, company, or corporation entitled to make a claim on this bond, in the sum of $_____, for which payment will and truly be made, we bind ourselves, our heirs, executors and administrators, successors and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH that if Contractor/Principal, its heirs, executors, administrators, successors, or assigns, or subcontractor, shall fail to pay any person or persons named in Civil Code section 9100; or fail to pay for any materials, provisions, or other supplies, used in, upon, for , or about the performance of the work contracted to be done, or for any work or labor thereon of any kind, or for amounts due under the Unemployment Insurance Code, with respect to work or labor thereon of any kind; or shall fail to deduct, withhold, and pay over to the Employment Development Department, any amounts required to be deducted, withheld, and paid over by Unemployment Insurance Code Section 13020 with respect to work and labor thereon of any kind, then Surety will pay for the same, in an amount not exceeding the amount herein above set forth, and in the event suit is brought upon this bond, also will pay such reasonable attorneys' fees as shall be fixed by the court, awarded and taxed as provided in California Civil Code Section 9550, et seq.

It is further stipulated and agreed that the Surety of this bond shall not be exonerated or released from the obligation of the bond by any change, extension of time for performance, addition, alteration or modification in, to, or of any contract, plans, or specifications, or agreement pertaining or relating to any scheme or work of improvement herein above described; or pertaining or relating to the furnishing of labor, materials, or equipment therefor; nor by any change or modification of any terms of payment or extension of time for payment pertaining or relating to any scheme or work of improvement herein above described; nor by any rescissions or attempted rescission of the contract, agreement or bond; nor by any conditions precedent or subsequent in the bond attempting to limit the right of recovery of claimants otherwise entitled to recover under any such contract or agreement or under the bond; nor by any fraud practiced by any person other than the claimant seeking to recover on the bond; and that this bond be construed most strongly against the Surety and in favor of all persons for whose benefit such bond is give; and under no circumstances shall the Surety be released from liability to those for whose benefit such bond has been given, by reason of any breach of contract between the Owner and Contractor/Principal or on the part of any oblige named in such bond; that the sole condition of recovery shall be that the claimant is a person described in California Civil Code section 9100, and who has not been paid the full amount of his or her claim; and that the Surety does hereby waive notice of any such change, extension of time, addition, alteration or modification herein mentioned, including but not limited to the provisions of section 2819 and 2845 of the California Civil Code.

Any notice to Surety may be given in the manner specified in the Agreement and delivered or transmitted to Surety as follows:

NOTE: Signatures of those executing for Surety must be properly acknowledged, the bond must be accompanied by a properly acknowledged Power of Attorney from the Surety authorizing its agent to bind it to this bond. A copy of such Power of Attorney must be in file with the City.

DIRECTIONS FOR PREPARATION OF PERFORMANCE AND MATERIAL AND LABOR BOND

1. Individual sureties, partnerships, or corporations not in the surety business will not be acceptable.

2. The name of the Principal shall be shown exactly as it appears in the Contract.

3. The penal sum shall not be less than required by the Specifications.

4. If the Principals are partners or joint venturers, each member shall execute the bond as an individual and state his place of residence.

5. If the Principal is a corporation, the bond shall be executed under its corporate seal.
If the corporation has no corporate seal, it shall so state and affix a scroll or adhesive seal following the corporate name.

6. The official character and authority of the person(s) executing the bond for the Principal, if a corporation, shall be certified by the Secretary or Assistant Secretary thereof under the corporate seal, or copies attached to such records of the corporation as will evidence the official character and authority of the officer signing, duly certified by the Secretary or Assistant Secretary, under the corporate seal, to be true copies.

7. The current power-of-attorney of the person signing for the surety company must be attached to the bond.

8. The date of the bond must not be prior to the date of the Contract.

9. The following information must be placed on the bond by the surety company:

   a. The rate of premium in dollars per thousand; and

   b. The total dollar amount of premium charged.

10. The signature of a witness shall appear in the appropriate place attending to the signature of each party of the bond.

11. Type or print the name underneath each signature appearing on the bond.

12. An executed copy of the bond must be attached to each copy of the Contract (original counterpart) intended for signing.

LIST OF EQUIPMENT MANUFACTURERS

ARTICLE 1 — SELECTED MANUFACTURER/SUPPLIER

1.01 Bidder shall edit Table 1. List of Selected Equipment Manufacturers by circling the manufacturer or supplier that will furnish the respective item of equipment for the Work.

1.02 If Bidder fails to circle a manufacturer or supplier for each piece of equipment identified, the Bidder shall provide the first listed ("A") manufacturer or supplier for its Bid at no increase in the Contract amount or may be cause for rejection of the Bid.

1.03 Acceptance of a manufacturer or supplier listed by the Bidder shall not constitute a waiver of any provision of the Contract Documents.

Table 1. List of Selected Equipment Manufacturers:

Section	Equipment	Manufacturer/Supplier
11242	Liquid Chemical Diaphragm-Type Metering Pumps	A. Prominent Fluid Controls, Inc.
11294B	Heavy-Duty Fabricated Stainless Steel Slide Gates	A. A. H. Fontaine, Series 20. B. Whipps, Inc., Series 900. C. Waterman Industries, SS-250. D. Rodney Hunt, Series A-113 or A-114. E. Hydro Gate, Model HG-561. RW Gate, Model RW1000-S.
11312D	Vertical Turbine Short Setting Centrifugal Pumps	A. Flowserve. B. Sulzer/Johnson Pumps. C. Peerless Pump. D. Weir/Floway. E. National Pump Co. F. Cascade Pump Company.
11312O	Horizontal ANSI Centrifugal Pumps	A. Flowserve Co. B. ITT, Ind.
11313E	Horizontal Self-Priming Sample Centrifugal Pumps	A. Gorman Rupp Company, AMT. B. Barnes Pumps.
11376A	Rotary-Lobe Blowers	A. Kaeser Compressors, Com-paK Series. B. Aerzen. C. FPZ Inc.

Section	Equipment	Manufacturer/Supplier
13447	Electric Actuators	A. Rotork Controls Inc. B. Limitorque Corp. C. Auma.
16262	Variable Frequency Drives 0.50 - 50 Horsepower	A. Eaton. B. Allen-Bradley. C. Siemens-Robicon. D. Schneider Electric. E. GE by ABB. F. ABB.

ESCROW AGREEMENT FOR SECURITY DEPOSITS IN LIEU OF RETENTION

This escrow agreement is made and entered into by and between _____ whose address is _____ hereinafter called "Owner," _____ whose address is _____ hereinafter called "Contractor," and _____ whose address is _____ hereinafter called "Escrow Agent."

For the consideration hereinafter set forth, Owner, Contractor, and Escrow Agent agree as follows:

1. In accordance with California Public Contract Code, Section 22300, the Contractor has the option to deposit securities with Escrow Agent as a substitute for retention earnings required to be withheld by Owner pursuant to the construction contract entered into between Owner and Contractor for _____ in the amount of _____ dated _____ (hereafter referred to as the "contract"). Alternatively, on written request of Contractor, Owner shall make payments of the retention earnings directly to Escrow Agent. When Contractor deposits the securities as a substitute for the contract earnings, Escrow Agent shall notify Owner within 10 days of the deposit. The market value of the securities at the time of the substitution shall be at least equal to the cash amount then required to be withheld as retention under the terms of the contract between Owner and Contractor. Securities shall be held in the name of the _____ and shall designate Contractor as the beneficial owner.
2. Owner shall make progress payments to Contractor for those funds which otherwise would be withheld from progress payments pursuant to the contract provision, provided that Escrow Agent holds securities in the form and amount specified above.
3. When Owner makes payment of retentions earned directly to Escrow Agent, Escrow Agent shall hold them for the benefit of Contractor until such time as the escrow created under this contract is terminated. Contractor may direct the investment of the payments into securities. All terms and conditions of this Agreement and the rights and responsibilities of the parties shall be equally applicable and binding when Owner pays Escrow Agent directly.
4. Contractor shall be responsible for paying all fees for the expenses incurred by Escrow Agent in administering the escrow account. These expenses and payment terms shall be determined by the Contractor and Escrow Agent.
5. The interest earned on the securities or the money market accounts held in escrow and all interest earned on the interest shall be for the sole account of Contractor and shall be subject to withdrawal by Contractor at any time and from time to time without notice to Owner.
6. Contractor shall have the right to withdraw all or any part of the principal in the escrow account only by written notice to the Escrow Agent accompanied by written authorization from Owner to the Escrow Agent that Owner consents to the withdrawal of the amount sought to be withdrawn by Contractor.
7. Owner shall have a right to draw upon the securities in the event of default by Contractor. Upon 7 days' written notice to the Escrow Agent from Owner of the

default, Escrow Agent shall immediately convert the securities to cash and shall distribute the cash as instructed by Owner.

8. Upon receipt of written notification from Owner certifying that the contract is final and complete, and that Contractor has complied with all requirements and procedures applicable to the contract, Escrow Agent shall release to Contractor all securities and interest on deposit less escrow fees and charges of the escrow account. The escrow shall be closed immediately upon disbursement of all moneys and securities on deposit and payments of fees and charges.
9. Escrow Agent shall rely on the written notifications from Owner and Contractor pursuant to Sections above, inclusive, of this Agreement and Owner and Contractor shall hold the Escrow Agent harmless from the Escrow Agent's release, conversion, and disbursement of the securities and interest as set forth above.
10. The names of the persons who are authorized to give written notice or to receive written notice on behalf of Owner and on behalf of Contractor in connection with the foregoing, and exemplars of their respective signatures are as follows:

On behalf of Owner:	On behalf of Contractor:
Title	Title
Name	Name
Signature	Signature
Address	Address

On behalf of the Escrow Agent:

Title

Name

Signature

Address

At the time the escrow account is opened, Owner and Contractor shall deliver to the Escrow Agent a fully executed counterpart of this Agreement.

CERTIFICATE OF SUBSTANTIAL COMPLETION

Owner:	Owner's Project No.:
Engineer:	Engineer's Project No.:
	Contractor's Project No.:
Contractor:	
Project:	
Contract Name:	

This ☐ Preliminary ☐ Final Certificate of Substantial Completion applies to:

☐ All Work ☐ The following specified portions of the Work:

[Describe the portion of the work for which Certificate of Substantial Completion is issued]

Date of Substantial Completion: **[Enter date, as determined by Engineer]**

The Work to which this Certificate applies has been inspected by authorized representatives of Owner, Contractor, and Engineer, and found to be substantially complete. The Date of Substantial Completion of the Work or portion thereof designated above is hereby established, subject to the provisions of the Contract pertaining to Substantial Completion. The date of Substantial Completion in the final Certificate of Substantial Completion marks the commencement of the contractual correction period and applicable warranties required by the Contract.

A punch list of items to be completed or corrected is attached to this Certificate. This list may not be all-inclusive, and the failure to include any items on such list does not alter the responsibility of the Contractor to complete all Work in accordance with the Contract Documents.

Amendments of contractual responsibilities recorded in this Certificate should be the product of mutual agreement of Owner and Contractor; see the General Conditions.

The responsibilities between Owner and Contractor for security, operation, safety, maintenance, heat, utilities, insurance, and warranties upon Owner's use or occupancy of the Work must be as provided in the Contract, except as amended as follows:

Amendments to Owner's Responsibilities: ☐ None ☐ As follows:

[List amendments to Owner's Responsibilities]

Amendments to Contractor's Responsibilities: ☐ None ☐ As follows:

[List amendments to Contractor's Responsibilities]

The following documents are attached to and made a part of this Certificate:

[List attachments such as punch list; other documents]

This Certificate does not constitute an acceptance of Work not in accordance with the Contract Documents, nor is it a release of Contractor's obligation to complete the Work in accordance with the Contract Documents.

SECTION 00820

FEDERAL AND STATE FUNDING REQUIREMENTS

ARTICLE 1 — GENERAL

1.01 This section comprises the construction contract provisions required by funding programs.

A. The provisions, regulations, code references, certifications and other items included apply to this Project.

ARTICLE 2 — SRF REQUIREMENTS

2.01 Anticipated funding sources for this project includes the state of California's Water Recycling Funding Program (WRFP), through the Clean Water State Revolving Fund (SRF). This section summarizes the SRF program requirements the contractor is required to comply with. If there are conflicts between this section and other provisions or sections, the requirements stated in this section shall take precedence over the other provisions, except where similar provisions are more stringent, in which case the more stringent conditions will be implemented.

2.02 Bids must include a signed copy of Attachment A - Certification of Compliance with WRFP/SRF Conditions.

2.03 The loan or grant recipient is the City of Ukiah and will be referenced as the Owner.

2.04 Project records

A. Contractor and Subcontractors shall maintain separate books, records and other materials relative to Project. Contractor shall submit a copy of all such records to the Owner as a condition for final payment. Contractor and Subcontractors shall make such books, records, and other material available at all reasonable times (at a minimum during normal business hours) to inspection, copying, and audit by the Owner, the United States Environmental Protection Agency (USEPA), State Water Resources Control Board (SWRCB), or any authorized representatives of the aforementioned. Contractor and Subcontractors shall allow interviews during normal business hours of any employees who might reasonably have information related to such records. Contractor shall include a similar duty regarding audit, interviews, and records retention in all subcontracts related to the Contract. Obligations under this provision shall survive the expiration or termination of the Contract.

ARTICLE 3 — DEBARMENT AND SUSPENSION

3.01 Contractor certifies that it will not knowingly enter into a contract with anyone who is ineligible under the 2 CFR part 180 and part 1532 (per Executive Order 12549, 51 FR 6370, February 21, 1986) or who is prohibited under Section 306 of the Clean Air Act or Section 508 of the Clean Water Act to participate in the Project. Suspension and debarment information can be accessed at http://www.sam.gov. Contractor represents

and warrants that it has or will include a term or conditions requiring compliance with this provision in all of its subcontracts under this Agreement.

3.02 The contract is a covered transaction for purposes of 2 CFR Part 180 and 2 CFR Part 3000. As such, the Contractor is required to verify that none of the Contractors, its principals (defined at 2 CFR § 180.995), or its affiliates (defined at 2 CFR § 180.905) are excluded (defined at 2 CFR § 180.940) or disqualified (defined at 2 CFR § 180.935).

3.03 The Contractor must comply with 2 CFR Part 180, Subpart C and 2 CFR Part 3000, Subpart C and must include a requirement to comply with these regulations in any subcontract.

3.04 If it is later determined that the Contractor did not comply with 2 CFR Part 180, Subpart C and 2 CFR Part 3000, Subpart C, in addition to remedies available to the Owner, the Federal Government may pursue available remedies, including, but not limited to, suspension and/or debarment.

3.05 The bidder or proposer agrees to comply with the requirements of 2 CFR Part 180, Subpart C and 2 CFR Part 3000, Subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its subcontracts.

3.06 Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions

A. The Contractor certifies, by submission of this proposal, that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared negligible, or voluntarily excluded from participation in this transaction by any federal department or agency.

B. Where the Contractor is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to the bid.

C. The Contractor also certifies that it and its principals:
   1. Have not within a three-year period preceding this bid been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (federal, state or local) transaction or contract under a public transaction; violation of federal or state anti-trust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
   2. Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (federal, state or local) with commission of any of the offenses enumerated this certification; and
   3. Have not within a three-year period preceding this bid had one or more public transactions (federal, state or local) terminated for cause or default. Where the Contractor is unable to certify to any of the above, such owner shall attach an explanation to the bid;
   4. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the federal

government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment;

D. The Contractor shall incorporate the foregoing requirements in all subcontracts.

ARTICLE 4 — PREVAILING WAGE REQUIREMENTS

4.01 Contractor shall comply with State of California Prevailing wage determinations.

A. Contractor agrees to be bound by all applicable provisions of State Labor Code regarding prevailing wages. California Division of Industrial Relations (DIR) requirements may be found at: http://www.dir.ca.gov/lcp.asp. For more information, please refer to DIR's Public Works Manual at: http://www.dir.ca.gov/dlse/PWManualCombined.pdf.

B. This contract is subject to enforcement by DIR with regard, specifically but not limited to, the following:
   1. Pursuant to Section 1773 of the Labor Code, the general prevailing wage rates in the county, or counties, in which the work is to be done have been determined by the DIR. These wages are available from the DIR website at https://www.dir.ca.gov. The effective general prevailing wage rates, which have been determined and are on file with the DIR are referenced but not printed in the Contract Documents.
   2. Pursuant to Section 1725.5 of the Labor Code, no contractor or subcontractor may be listed on a bid proposal, or awarded a contract, for public work on a public works project unless registered with the DIR.

ARTICLE 5 — RUSSIAN SANCTIONS

5.01 Contractor is required to comply with the economic sanctions imposed in response to Russia's actions in Ukraine, including with respect to, but not limited to, the federal executive orders identified in California Executive Order N-6-22, located at https://www.gov.ca.gov/wp-content/uploads/2022/03/3.4.22-Russia-Ukraine-Executive-Order.pdf and the sanctions identified on the United States Department of the Treasury website (https://home.treasury.gov/policy-issues/financial-sanctions/sanctions-programs-and-country-information/ukraine-russia-related-sanctions).

5.02 Contractor is required to comply with all applicable reporting requirements regarding compliance with the economic sanctions, including, but not limited to, those reporting requirements set forth in California Executive Order N-6-22 for all Recipients with one or more agreements with the State of California with an aggregated value of Five Million Dollars ($5,000,000) or more, including:

A. Desisting from making any new investments or engaging in financial transactions with Russian institutions or companies that are headquartered or have their principal place of business in Russia;

B. Not transferring technology to Russia or companies that are headquartered or have their principal place of business in Russia; and

C. Direct support to the government and people of Ukraine.

ARTICLE 6 — PROJECT RECORDS

6.01 Contractor and Subcontractors shall maintain separate books, records and other materials relative to Project. Contractor shall submit a copy of all such records to the Owner as a condition for final payment. Contractor and Subcontractors shall make such books, records, and other material available at all reasonable times (at a minimum during normal business hours) to inspection, copying, and audit by the Owner, the United States Environmental Protection Agency (USEPA), or any authorized representatives of the aforementioned. Contractor and Subcontractors shall allow interviews during normal business hours of any employees who might reasonably have information related to such records. Contractor shall include a similar duty regarding audit, interviews, and records retention in all subcontracts related to the Contract. Obligations under this provision shall survive the expiration or termination of the Contract.

ARTICLE 7 — DRUG FREE WORKPLACE REQUIREMENTS

7.01 Comply with 55 FR 21690, 21694, MAY 25, 1990.

7.02 Workplaces under grants, for contractors other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the contractor does not identify the workplaces at the time of application, or upon award, if there is no application, the contractor must keep the identity of the workplace(s) on file in its office and make the information available for federal inspection. Failure to identify all known workplaces constitutes a violation of the contractor's drug-free workplace requirements.

7.03 Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or state highway department while in operation, state employees in each local unemployment office, performers in concert halls or radio studios).

7.04 If the workplace identified to the board changes during the performance of the grant, the contractor shall inform the board of the change(s), if it previously identified the workplaces in question.

7.05 Definitions of terms in the non-procurement suspension and debarment common rule and drug-free workplace common rule apply to this certification. Contractors' attention is called, in particular, to the following definitions from these rules: controlled substance means a controlled substance in schedules i through v of the controlled substances act (21 U.S.C. 812) and as further defined by regulation (21 CFR 1308.11 through 1308.15);conviction means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the federal or state criminal drug statutes; criminal drug statute means a federal or non-federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance; employee means the employee of a contractor directly engaged in the performance of work under a grant, including: (i) all direct charge employees; (ii) all indirect charge employees unless their impact or involvement is insignificant to the performance of the grant; and, (iii) temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the contractor's payroll. This definition does not include

workers not on the payroll of the contractor (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the contractor's payroll; or employees of subrecipients or subcontractors in covered workplaces.

7.06 Certification regarding drug-free workplace requirements for alternate i. (contractors other than individuals)

A. The contractor certifies that it will or will continue to provide a drug-free workplace by:

1. Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the contractor's workplace and specifying the actions that will be taken against employees for violation of such prohibition;
2. Establishing an ongoing drug-free awareness program to inform employees about—
    a. The dangers of drug abuse in the workplace;
    b. The contractor's policy of maintaining a drug-free workplace;
    c. Any available drug counseling, rehabilitation, and employee assistance programs; and
    d. The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;
3. Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the published statement;
4. Notifying the employee in the published statement that, as a condition of employment
5. Under the grant, the employee will—
    a. Abide by the terms of the statement; and
    b. Notify the employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;
6. Notifying the board in writing, within ten calendar days after receiving notice from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to every grant officer or other designee on whose grant activity the convicted employee was working, unless the federal agency has designated a central point for the receipt of such notices. Notice shall include the identification number(s) of each affected grant;
7. Taking one of the following actions, within 30 calendar days of receiving notice, with respect to any employee who is so convicted—
    a. Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the rehabilitation act of 1973, as amended; or
    b. Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a federal, state, or local health, law enforcement, or other appropriate agency;
8. Making a good faith effort to continue to maintain a drug-free workplace through implementation of these requirements.

ARTICLE 8 — EEOC: AFFIRMATIVE ACTION REQUIREMENTS

8.01 Comply with Notice of Requirement for Affirmative Action to Ensure Equal Employment Opportunity (Executive Order 11246) located at 41 CFR § 60-4.2.

ARTICLE 9 — ENVIRONMENTAL COMPLIANCE

9.01 The Contractor, and all subcontractors at any tier, shall comply with all applicable standards, orders, or requirements issued under Section 306 of the Clean Air Act (42 U.S.C. 1857[h]), Section 508 of the Clean Water Act (33 U.S.C. 1368), Executive Order 11738 (Administration of the Clean Air Act and the Federal Water Pollution Control Act with Respect to Federal Contracts, Grants, or Loans), and 40 CFR Part 15.

9.02 Permits and environmental compliance requirements: As indicated in Section 01150 - Mitigation and Monitoring Requirements.

ARTICLE 10 — EQUAL EMPLOYMENT OPPORTUNITY AUTHORITIES EO 11246

10.01 The Contractor shall comply with Executive Order 11246, entitled 'Equal Employment Opportunity,' as amended by Executive Order 11375, and as supplemented in Department of Labor regulations (41 CFR Part 60). (EO 11246, 30 FR 12319, September 28, 1965).

10.02 Contractor's compliance with Executive order 11246 shall be based on implementation of the Equal Opportunity Clause, and specific affirmative active obligations required by the Standard Federal Equal Employment Opportunity Construction Contract Specifications, as set forth in 41 CFR Part 60-4.

ARTICLE 11 — RIGHTS TO INVENTIONS MADE UNDER A CONTRACT OR AGREEMENT

11.01 Contractor shall report to Construction Manager any discovery or invention that arises during the course of the Work to the non-federal entity. Contractor shall promptly report inventions to the Construction Manager (within 60 days) after the inventor discloses it in writing to Contractor. The awarding agency shall determine how rights in the invention/discovery shall be allocated consistent with Government Patent Policy and Title 37 CFR § 401.

ARTICLE 12 — SIGNAGE REQUIREMENTS

12.01 Comply with signage requirements as specified in Section 01500 - Temporary Facilities and Controls.

12.02 Add SRF required information and logos as directed by Engineer.

ARTICLE 13 — CIVIL RIGHTS OBLIGATIONS

13.01 Contractor shall comply with the following federal non-discrimination requirements:

A. Title VI of the Civil Rights Act of 1964, which prohibits discrimination based on race, color, and national origin, including limited English proficiency (LEP). (42 U.S.C 2000D, *et. seq)*

B. Section 504 of the Rehabilitation Act of 1973, which prohibits discrimination against persons with disabilities. (29 U.S.C. 794, supplemented by EO 11914, 41 FR 17871, April 29, 1976 and EO 11250, 30 FR 13003, October 13, 1965)

C. The Age Discrimination Act of 1975, which prohibits age discrimination. (42 U.S.C 6101 *et. seq)*

D. Section 13 of the Federal Water Pollution Control Act Amendments of 1972, which prohibits discrimination on the basis of sex.

E. 40 CFR Part 7, as it relates to the foregoing.

ARTICLE 14 — EEOC: ELIMINATION OF SEGREGATED FACILITIES. (41 CFR 60-1.8)

14.01 The contractor must ensure that facilities provided for employees are provided in such a manner that segregation on the basis of race, color, religion, sex, sexual orientation, gender identity, or national origin cannot result. The contractor may neither require such segregated use by written or oral policies nor tolerate such use by employee custom. The contractor's obligation extends further to ensuring that its employees are not assigned to perform their services at any location, under the contractor's control, where the facilities are segregated. This obligation extends to all contracts containing the equal opportunity clause regardless of the amount of the contract. The term “facilities,” as used in this section, means waiting rooms, work areas, restaurants and other eating areas, time clocks, restrooms, washrooms, locker rooms, and other storage or dressing areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing provided for employees; Provided, that separate or single-user restrooms and necessary dressing or sleeping areas shall be provided to assure privacy between the sexes.

END OF SECTION

ATTACHMENT A - CERTIFICATION OF COMPLIANCE WITH WATER RECYCLING FUNDING PROGRAM/STATE REVOLVING FUND CONDITIONS

CERTIFICATION OF COMPLIANCE WITH WATER RECYCLING FUNDING PROGRAM/STATE REVOLVING FUND CONDITIONS

This certification relates to the City of Ukiah's Water Recycling Project – Phase 4 Refinements Contract proposed by the Owner which expects to finance the proposed Construction Contract with assistance from the Water Recycling Funding Program (WRFP)/State Revolving Fund (SRF) loan program supported in part with funds directly made available by the State of California - Proposition 68 and Senate Bill 129. I am the undersigned prospective construction contractor or subcontractor.

I certify that I have read the SRF Program Requirements and agree to incorporate the following into the bid and/or contract:

- DEBARMENT AND SUSPENSION (EXECUTIVE ORDER 2549)
- EQUAL EMPLOYMENT OPPORTUNITY (EXECUTIVE ORDER 1246)
- PREVAILING WAGE STANDARDS PROVISION

I agree that I will obtain identical certifications from prospective lower-tier construction subcontractors prior to the award of any lower-tier construction subcontracts with a price exceeding $10,000. I also agree that I will retain such certifications in my files.

The Contractor certifies that neither it nor its principals is presently debarred.

DOCUMENT 00823

ESCROW BID DOCUMENTS

ARTICLE 1—SCOPE

1.01 The 3 lowest Bidders shall submit, within the specified time after receipt of Bids, 1 copy of all documentary information generated in preparation of Bid prices for this Project. This material is hereinafter referred to as "Escrow Bid Documents." The Escrow Bid Documents of the Successful Bidder will be held in escrow for the duration of the contract.

1.02 The Successful Bidder agrees, as a condition of award of the contract, that the Escrow Bid Documents constitute the complete, only, and all documentary information used in preparation of his Bid. No other Bid preparation information shall be considered in resolving disputes.

1.03 Nothing in the Escrow Bid Documents shall change or modify the terms or conditions of the Contract Documents.

ARTICLE 2—OWNERSHIP

2.01 The Escrow Bid Documents are, and shall always remain, the property of Contractor, subject only to joint review by Owner and Contractor, as provided in this Document.

2.02 Owner stipulates and expressly acknowledges that the Escrow Bid Documents, as defined in this Document, constitute trade secrets. This acknowledgment is based on Owner's express understanding that the information contained in the Escrow Bid Documents is not known outside the Bidder's business, is known only to a limited extent and only by a limited number of employees of the Bidder, is safeguarded while in Bidder's possession, is extremely valuable to Bidder, and could be extremely valuable to Bidder's competitors by virtue of it reflecting Bidder's contemplated techniques of construction. Owner acknowledges that the Bidder expended substantial sums of money in developing the information included in the Escrow Bid Documents and further acknowledges that it would be difficult for a competitor to replicate the information contained therein. Owner further acknowledges that the Escrow Bid Documents and the information contained therein are made available to Owner only because such action is an express prerequisite to award of the contract. Owner further acknowledges that the Escrow Bid Documents include a compilation of information used in the Bidder's business, intended to give the Bidder an opportunity to obtain an advantage over competitors who do not know of or use the contents of the documentation. Owner agrees to safeguard the Escrow Bid Documents, and all information contained therein, against disclosure to the fullest extent permitted by law.

ARTICLE 3—PROGRAM

3.01 Escrow Bid Documents will be used to assist in the negotiation of price adjustments and Change Orders and in the settlement of disputes, claims, and other controversies. They will not be used for pre-award evaluation of Contractor's anticipated methods of construction or to assess Contractor's qualifications for performing the Work.

ARTICLE 4—FORMAT AND CONTENTS

4.01 Bidders may submit Escrow Bid Documents in their usual cost-estimating format. It is not the intention of this section to cause the Bidder extra work during the preparation of the Bid, but to ensure that the Escrow Bid Documents will be adequate to enable complete understanding and proper interpretation for their intended use. The Escrow Bid Documents shall be in the language of the Specifications.

4.02 It is required that the Escrow Bid Documents clearly itemize the estimated costs of performing the work of each Bid item contained in the Bid schedule. Bid items should be separated into subitems as required to present a complete and detailed cost estimate and allow a detailed cost review. The Escrow Bid Documents shall include all quantity takeoffs; crew; equipment; calculations of rates of production and progress; copies of quotations from equipment manufacturers, Subcontractors, and Suppliers; and memoranda, narratives, consultants' reports, add/deduct sheets, and all other information used by the Bidder to arrive at the prices contained in the Bid Form. Estimated costs should be broken down into the Bidder's usual estimate categories, such as direct labor, repair labor, equipment operation, equipment ownership, expendable materials, permanent materials, and subcontract costs as appropriate. Plant and equipment and indirect costs should be detailed in the Bidder's usual format. Contractor's allocation of plant and equipment, indirect costs, contingencies, markup, and other items to each Bid item shall be included.

4.03 All costs shall be identified. For Bid items amounting to less than $10,000, estimated unit costs are acceptable without a detailed cost estimate, provided that labor, equipment, materials, and subcontracts, as applicable, are included, and provided that indirect costs, contingencies, and markup, as applicable, are allocated.

4.04 Bidding Documents provided by the Owner should not be included in the Escrow Bid Documents unless needed to comply with the requirements of this section.

ARTICLE 5—SUBMITTAL

5.01 The Escrow Bid Documents shall be submitted in a sealed container within 72 hours after the time of receipt of Bids. The container shall be clearly marked on the outside with the Bidder's name, date of submittal, project name, and the words "Escrow Bid Documents."

5.02 The Escrow Bid Documents shall be accompanied with the completed Attachment A Certificate of Bid Documentation, signed by an individual authorized by the Bidder to execute the Bid Form, stating that the material in the Escrow Documentation constitutes the complete, only, and all documentary information used in preparation of the Bid and that he has personally examined the contents of the Escrow Bid Documents container and has found that the documents in the container are complete.

5.03 Prior to award, Escrow Bid Documents of the apparent Successful Bidder will be unsealed, examined, organized, and inventoried by representatives of Owner, together with members of Contractor's staff who are knowledgeable in how the Bid was prepared.

5.04 This examination is to ensure that the Escrow Bid Documents are authentic, legible, and complete. It will not include review of, and will not constitute approval of, proposed construction methods, estimating assumptions, or interpretations of Contract Documents. This examination is subject to the condition that, as trade secrets, the Escrow Bid Documents are proprietary and confidential as described in this Document. Examination will not alter any condition(s) or term(s) of the contract.

5.05 If all the documentation required in this Document has not been included in the original submittal, additional documentation shall be submitted, at Owner's discretion, prior to award of the contract. The detailed breakdown of estimated costs shall be reconciled and revised, if appropriate, by agreement between Contractor and Owner before making the award.

5.06 If the contract is not awarded to the apparent Successful Bidder, the Escrow Bid Documents of the Bidder next to be considered for award shall be processed as described above.

5.07 Timely submission of complete Escrow Bid Documents is an essential element of the Bidder's responsibility and a prerequisite to contract award. Failure to provide the necessary Escrow Bid Documents will be sufficient cause for Owner to reject the Bid.

5.08 If the Bidder's proposal is based on subcontracting any part of the Work, each Subcontractor whose total subcontract price exceeds 5 percent of the total Contract Price proposed by the Bidder shall provide separate Escrow Bid Documents to be included with those of the Bidder. These documents will be opened and examined in the same manner and at the same time as the examination described above for the apparent Successful Bidder.

5.09 If Contractor subcontracts any portion of the Work after award, Owner retains the right to require Contractor to submit Escrow Bid Documents from the Subcontractor before the subcontract is approved.

5.10 Escrow Bid Documents submitted by unsuccessful Bidders will be returned unopened, unless opened as provided above, as soon as they are no longer needed by Owner and no later than immediately following award of the contract.

ARTICLE 6—STORAGE

6.01 The Escrow Bid Documents of the Successful Bidder will be placed in escrow prior to award of the contract, for the life of the contract, in a mutually agreeable institution. The cost of storage will be paid by Owner.

ARTICLE 7—EXAMINATION AFTER AWARD OF CONTRACT

7.01 The Escrow Bid Documents shall be examined by both Owner and Contractor, at any time deemed necessary after award of the contract by either Owner or Contractor, to assist in the negotiation of price adjustments and Change Orders, or the settlement of disputes.

7.02 Examination of the Escrow Bid Documents after award of the contract is subject to the following conditions:

7.03 As trade secrets, the Escrow Bid Documents are proprietary and confidential as described in this Document.

7.04 Owner and Contractor shall each designate, in writing to the other party and a minimum of 10 days prior to examination, representatives who are authorized to examine the Escrow Bid Documents. No other person shall have access to the Escrow Bid Documents.

7.05 Access to the Escrow Bid Documents will take place only in the presence of duly designated representatives of both Owner and Contractor.

ARTICLE 8—FINAL DISPOSITION

8.01 The Escrow Bid Documents will be returned to Contractor at such time as the contract has been completed and final settlement has been achieved.

CHANGE ORDER

Owner:	Owner's Project No.:
Engineer:	Engineer's Project No.:
Contractor:	Contractor's Project No.:
Project:	
Contract Name:	
Date Issued:	Effective Date of Change Order:

The Contract is modified as follows upon execution of this Change Order:

Description:

[Description of the change]

Attachments:

[List documents related to the change]

In signing a Change Order, the Owner and Contractor acknowledge and agree that:

1. The Change Order constitutes full mutual accord and satisfaction for the change to the Work. The stipulated compensation (Contract Price or Contract Times, or both) set forth in the Change Order includes not only all direct costs of Contractor such as labor, material, job overhead, and profit markup, but also includes any costs for modifications or changes in sequence of work to be performed, delays rescheduling, disruptions, extended direct overhead or general overhead, acceleration, material, or other escalation which includes wages and other impact costs.

2. This Change Order will become a supplement to the Contract and all Contract provisions will apply hereto.

3. It is understood that this Change Order shall be effective on the date the Owner authorizes the Change Order by their signature.

4. No reservation of rights to pursue subsequent claims on the Change Order will be made by either party.

5. No subsequent claim or amendment of the Contract Documents will arise out of or as a result of the Change Order.

Change in Contract Price	Change in Contract Times [State Contract Times as either a specific date or a number of days]

END OF DOCUMENT

SECTION 01110

SUMMARY OF WORK

PART 1 GENERAL

1.01 SUMMARY

A. Section includes: Detailed description of the Work.

1.02 THE WORK

A. The Work consists of:
   1. Construction of Recycled Water Project Phase 4 - Specification No. 23-01, including: construction of new and rehabilitation of existing facilities related to the City of Ukiah's recycled water production, storage, and distribution; repair and reconstruction of existing improvements affected by the Work; and incidentals for complete and usable facilities**.**
   2. Commissioning of the Work.

1.03 LOCATION OF PROJECT

A. The Work is primarily located at the following locations and as indicated on the Drawings:
   1. City of Ukiah Water Treatment Plant: 935 River Street, Ukiah, CA 95482.
   2. City of Ukiah Wastewater Treatment Plant: 300 Plant Road, Ukiah, CA 95482.
   3. Various locations within the City of Ukiah for the recycled water distribution system pipelines.

PART 2 PRODUCTS (NOT USED)

PART 3 EXECUTION (NOT USED)

END OF SECTION

SECTION 01116

CONTRACT DOCUMENT LANGUAGE

PART 1 GENERAL

1.01 SUMMARY

A. Section Includes: Explanation of arrangement, language, reference standards, and format.

1.02 REFERENCES

A. Construction Specifications Institute (CSI):
   1. MasterFormat™.
   2. SectionFormat™.
   3. PageFormat™.

1.03 PROJECT MANUAL ARRANGEMENT

A. Document and Section numbers used in Project Manual, and Project Manual arrangement are in accordance with CSI MasterFormat™, except where departures have been deemed necessary.

B. Sections are written in CSI SectionFormat™, Three-Part Section Format, except where departures have been deemed necessary.

C. Page format for Sections in the Project Manual is in PageFormat™, except where departures have been deemed necessary.

1.04 CONTRACT DOCUMENT LANGUAGE

A. Specification Section Paragraphs entitled "Section Includes" summarize briefly what is generally included in the section.
   1. Requirements of Contract Documents are not limited by "Section Includes" paragraphs.

B. Specifications have been partially streamlined by intentionally omitting words and phrases, such as "the Contractor shall," "in conformity therewith," "shall be" following "as indicated," "a," "an," "the" and "all."
   1. Assume missing portions by inference.

C. Phrase "by Engineer" modifies words such as "accepted," "directed," "selected," "inspected," and "permitted," when they are unmodified.

D. Phrase "to Engineer" modifies words such as "submit," "report," and "satisfactory," when they are unmodified.

E. Colons (:) are used to introduce a list of particulars, an appositive, an amplification, or an illustrative quotation:
   1. When used as an appositive after designation of product, colons are used in place of words "shall be."

F. Word "provide" means to manufacture, fabricate, deliver, furnish, install, complete, assemble, erect in place, test, or render ready for use or operation, including necessary related material, labor, appurtenances, services, and incidentals.

G. Words "Contractor shall" are implied when direction is stated in imperative mood.

H. Term "products" includes materials and equipment as specified in Section 01600 - Product Requirements - Plant and Section 01601 - Product Requirements - Linear Infrastructure.

PART 2 PRODUCTS (NOT USED)

PART 3 EXECUTION (NOT USED)

END OF SECTION

SECTION 01140

WORK RESTRICTIONS

PART 1 GENERAL

1.01 SUMMARY

A. Section includes: Requirements for sequencing and scheduling the Work affected by existing site and facility, work restrictions, and coordination between construction operations and plant operations.

1.02 SUBMITTALS

A. Method of Procedure (MOP) Submittals:
   1. Baseline Schedule with MOP tasks.
      a. Submit Baseline Schedule, as specified in Section 01321 - Schedules and Reports with proposed MOPs.
   2. Progress Schedules with MOP tasks.
   3. MOP Forms.
   4. MOP Logs.
      a. Submit MOP Log at construction progress meetings.

1.03 METHOD OF PROCEDURE (MOP)

A. Comply with MOP Instructions as specified in Attachment A - Method of Procedure (MOP).

B. Prepare MOP for the following conditions:
   1. Shutdowns, diversions, and tie-ins to the existing facility.
   2. Process start-up activities.
   3. Power interruption and tie-ins.
   4. Switch over between temporary and permanent facilities, equipment, piping, and electrical and instrumentation systems.
   5. Process constraints requiring interruption of operating processes or utilities.

C. Other Work not specifically listed may require MOPs as determined necessary by the Contractor, Owner, or Engineer.

D. No consideration will be given to claims of additional time and cost associated to preparing MOPs required by the Owner and Engineer to complete this work in a manner that facilitates proper operation of the facility and compliance with effluent discharge criteria.

E. Where required to minimize treatment process interruptions while complying with specified constraints, provide temporary pumping, power, lighting, controls, instrumentation, and safety devices.

1.04 GENERAL CONSTRAINTS ON WORK AND SCHEDULING OF WORK

A. Plant access for Contractor will be at the discretion of the Owner.

B. Perform abandoned pipe Work as specified in Section 01738 -Selective Alterations and Demolition.

C. Wastewater projects:
   1. The City of Ukiah Wastewater Treatment Plant is the City of Ukiah's only means of treating domestic and industrial wastewater prior to discharging to the Russian River. Impairing the operational capabilities of this treatment plant will result in serious environmental damage and monetary fines.
   2. Conduct Work in a manner that will not impair the operational capabilities of essential elements of the treatment process or reduce the capacity of the entire treatment plant below levels sufficient to treat the quality of raw wastewater to the water quality limitations specified in the discharge permit.
   3. Conduct commissioning activities as specified in Section 01756 - Commissioning in a manner that will not impair the operational capabilities of essential elements of the treatment process or reduce the capacity of the entire treatment plant below levels sufficient to treat the quality of raw wastewater to the water quality limitations specified in the discharge permit.
      a. Conduct PCIS Optimization and Fine-Tuning as specified in Section 01756 - Commissioning.
   4. The status of the treatment plant shall be defined as "operational" when it is capable of treating the entire quantity of wastewater received to the water quality limits specified in the discharge permit.

1.05 COMPLIANCE WITH NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM PERMIT

A. The existing facility is operating under the terms of a National Pollutant Discharge Elimination System permit issued by the State Water Resources Control Board.
   1. This permit specifies the water quality limits that the plant must meet prior to discharge of effluent.
   2. A copy of the existing permit is on file for review from the Owner.

B. Perform work in a manner that will not prevent the existing facility from achieving the finished water quality requirements established by regulations.

C. Bear the cost of penalties imposed on the Owner for discharge violations caused by actions of the Contractor.

D. Conduct the Work and provide temporary facilities required to keep the existing plant continuously operational

E. Do not remove or demolish existing facilities required to keep the existing plant operational at the capacities specified until the existing facilities are replaced by temporary, new, or upgraded facilities or equipment.
   1. Test replacement facilities to demonstrate operational success prior to removing or demolishing existing facilities.

1.06 UTILITIES

A. Provide advance notice to and utilize services of Underground Services Alert (U.S.A.) for location and marking of underground utilities operated by utility agencies other than the Owner.

B. Maintain electrical, telephone, water, gas, sanitary facilities, and other utilities within existing facilities in service. Provide temporary utilities when necessary.

C. New yard utilities were designed using existing facility drawings.
   1. Field verification of utilities locations was not performed during design.
   2. Services crossed or located nearby by new yard utilities may require relocation and possible shutdowns.
   3. Pipe alignments as indicated on the Drawings.

1.07 WORK BY OTHERS

A. Where proper execution of the Work depends upon work by others, inspect and promptly report discrepancies and defects.

1.08 SHUTDOWN CONSTRAINTS

A. General shutdown constraints:
   1. Execute the Work while the existing facility is in operation.
   2. Some activities may be accomplished without a shutdown.
   3. Apply to activities of construction regardless of process or work area.
   4. Activities that disrupt plant or utilities operations must comply with these shutdown constraints.
   5. Organize work to be completed in a minimum number of shutdowns.
   6. Provide thorough advanced planning, including having required equipment, materials, and labor on hand at time of shutdown.
   7. Shutdown MOPs:
      a. Advise the Engineer a minimum of 3 weeks prior to need for any complete or partial plant shutdown for tie-ins.
      b. Prepare and submit MOP to Engineer for any complete or partial plant shutdown required a minimum of 2 weeks prior to the shutdown.
      c. Owner’s written approval of MOP is required prior to beginning Work.
   8. Where required to minimize treatment process interruptions while complying with specified constraints, provide temporary pumping, power, lighting, controls, instrumentation, and safety devices.
   9. Final determination of the permitting of shutdowns will be the sole judgment of the Owner.
   10. Owner maintains the ability to abort on the day of the scheduled shutdown.
   11. Unplanned shutdowns due to emergencies are not specified in this Section.

B. Unit process availability work limitations:
   1. Shutdowns and tie-ins or other activities that disrupt plant operations are prohibited unless the following unit process availability conditions exist and unless otherwise approved in writing by the Owner and Engineer.

2. At a minimum, the following facilities must be in service in order to proceed with a scheduled shutdown.
    a. Headworks including screening and grit removal and pumping.
    b. Aeration basins.
    c. Secondary sedimentation.
    d. Filters.
    e. Existing solids dewatering and hauling.

C. Plant water system.
1. Maximum shutdown duration: 2 hours.
2. Only 1 shutdown of the plant water system will be allowed to make piping connections.

D. Process, electrical and instrumentation - tie-in shutdowns:
1. Schedule no more than 1 tie-in shutdown per day.

1.09 WORK RESTRICTIONS

A. General:
1. Maximum plant flow work limitation:
    a. Activities that disrupt plant operations are prohibited during the following flow conditions, unless otherwise approved in writing by the Owner and Engineer.
        1) Flow condition: Flow above 4.0 million gallons per day.

B. Seasons:
1. Dry Weather: June 1 to September 30.
2. Wet Weather: October 1 to May 31.

C. Constraints and Possible Work Sequence for Key Project Elements:
1. Advanced Water Treatment (AWT) System:
    a. Constraints:
        1) General:
            a) Conduct work on AWT units during the dry weather season.
            b) All AWT units shall be operational during the wet weather season.
            c) Work on each tank shall be completed within 4 months after initiation.
            d) At least two tanks need to be online at a time while performing work that does not require all AWT units to be offline.
            e) It may be necessary to shut down all four AWT units for portions of the work. When this occurs, all four AWT units may be shut down for no more than 8 hours; depending on the recycled water demand in the distribution system, this duration may be reduced at the discretion of the Owner.
        2) Air Scour Piping (8 inch AA) and Supports:
            a) Penetrate new air scour piping to the filter side of the AWT tanks before the tank has been recoated and filter media has been replaced.
            b) New air scour piping supports shall be field welded before the AWT tanks are recoated.

b. Possible Work Sequence:
    1) AWT Units:
        a) Procure all equipment and materials required for AWT improvements.
        b) Isolate the first two AWT units via the MOP process:
            (1) Drain the AWT units in coordination with the Owner.
            (2) Perform demolition work as indicated on the drawings:
                (a) Remove the surface wash sweeps and associated piping.
                (b) Remove pneumatic actuator from waste gate.
                (c) Remove filter media and gravel support.
                (d) Remove adsorption clarifier media.
            (3) Install new air scour piping and weld pipe supports onto AWT tank.
            (4) Penetrate air scour piping into AWT tank.
            (5) Recoat the interior and exterior of the AWT tank.
            (6) Place new filter gravel support and filter media into the filter side of the AWT tank.
            (7) Place the adsorption clarifier media into the clarifier side of the AWT tank.
            (8) Perform testing and commissioning as specified in 11802 and 01756.
        c) Isolate the other two AWT units via the MOP process:
            (1) Drain the AWT units in coordination with the Owner.
            (2) Perform demolition work as indicated on the drawings:
                (a) Remove the surface wash sweeps and associated piping.
                (b) Remove pneumatic actuator from waste gate.
                (c) Remove air compressor from the blower room.
                (d) Remove filter media and gravel support.
                (e) Remove adsorption clarifier media.
            (3) Install new air scour piping and weld pipe supports onto AWT tank.
            (4) Penetrate air scour piping into AWT tank.
            (5) Recoat the interior and exterior of the AWT tank.
            (6) Place new filter gravel support and filter media into the filter side of the AWT tank.
            (7) Place the adsorption clarifier media into the clarifier side of the AWT tank.
        d) Perform testing and commissioning as specified in 11802 and 01756.
    2) Replacing Valves on the Clarifier and Filter Sides:
        a) Procure all valves and materials required for valve improvements.
        b) Shut down all four AWT units via the MOP process.
        c) Demolish the valves.
        d) Install the new valves and actuators.
        e) Operations personnel to resume normal operation of the plant and bring at least two AWT units back online.
        f) Perform testing and commissioning as specified in 11802 and 01756.

2. Air Wash Blowers:
    a. Constraints:
        1) Conduct work on blowers during the dry weather season.
        2) Work on each blower shall be completed within 4 months after initiation.
        3) The blower system may be offline for no more than 6 hours.
        4) Keep one decommissioned blower onsite until all commissioning has been completed per Section 01756.
    b. Possible Work Sequence:
        1) Procure all equipment and materials required for air system improvements.
        2) Via the MOP process, isolate the western air wash blower.
        3) Demolish the isolated blower and its associated piping and concrete pad.
        4) Remove the air compressor from the blower room and relocate it while pneumatic waste gate rams are still in use.
        5) Install the new tee at the elbow of the existing air piping (6-inch AA) and a valve in the closed position to divert air to the clarifiers while installing the new blowers.
        6) Install at least one new blower, its associated piping, and concrete pad, as space in the room allows.
        7) Connect the new air blowers to the AWT system using a tee downstream of the newly installed tee and valve on the existing air piping (6-inch AA).
        8) Once sufficient air can be supplied by the new blowers, open the valve for new blowers to provide air to the clarifiers and demolish the remaining existing blower and air piping (6-inch AA).
        9) Blind flange the tee that connected the demolished existing air piping (6-inch AA) from the demolished existing blower.
        10) Perform testing and commissioning as specified in 11802 and 01756.
3. Coagulant Feed Pump:
    a. Constraints:
        1) Work on coagulant pump shall be completed within a month after initiation.
    b. Possible Work Sequence:
        1) Procure all equipment and materials required for backwash piping improvements.
        2) Isolate the existing pump to be replaced via the MOP process.
        3) Demolish existing pump.
        4) Install the new pump.
        5) Perform testing, start-up, and commissioning as specified in Section 01756.
4. Rapid Mix System:
    a. Constraints:
        1) Conduct work on the rapid mix system during the dry weather season.
        2) Work on the rapid mix pump system shall be completed within 3 months after initiation.
        3) It may be necessary to shut down all four AWT units to complete the Work related to this element. All four AWT units may be shut down for no more than 8 hours; depending on the recycled water demand

in the distribution system, this duration may be reduced at the discretion of the Owner.

b. Possible Work Sequence:
    1) Procure all equipment and materials required for rapid mix pump installation.
    2) Install the rapid mix pump and assemble all necessary piping for the system prior to final connection.
    3) Excavate around the final effluent pipe for access to install the rapid mix diffuser and piping.
    4) Operations personnel to shut down the AWT pumps and close valves to the clarifier side of all AWT tanks.
    5) Open the drain valves on the piping entering the AWT tanks to drain the pipe as much as possible. Use sump pumps routed to the nearest plant drain as required.
    6) Assemble the rapid mix diffuser assembly prior to installation.
    7) Access the pipe using the vault and use a sump pump to remove excess water as needed.
    8) Install rapid mix diffuser assembly.
    9) Operations personnel to resume normal operation of the plant, which will fill the pipe.
    10) Perform testing, start-up, and commissioning as specified in Section 01756.

5. Chlorine Sampler at Backwash Pump Station:
    a. Constraints:
        1) Work on the chlorine sampler shall be completed within 4 weeks after initiation.
        2) The final connection to the existing piping shall be completed in a single shutdown of less than 8 hours.
    b. Possible Work Sequences:
        1) Procure all equipment and materials required for the chlorine analyzer replacement.
        2) Isolate the existing pump and chlorine analyzer.
        3) Perform demolition work as indicated on the drawings:
            a) Remove existing sample pump.
            b) Remove existing chlorine analyzer.
        4) Install new sample pump and chlorine analyzer.
        5) Perform testing, start-up, and commissioning as specified in Section 01756.
6. Backwash Piping (Area 87):
    a. Constraints:
        1) Conduct work on AWT units during the dry weather season.
        2) Work on valve shall be completed within 4 months after initiation.
        3) This Work shall be completed prior to completion of the rehabilitation of the first AWT.
        4) The final connection to the existing piping shall be completed in a single shutdown of less than 8 hours.
        5) Contractor shall field verify dimensions of the backwash discharge header and prepare pipe layout drawings prior to installation of new piping configuration.

b. Possible Work Sequence:
    1) Field verify dimensions and pipe material of backwash discharge header prior to submitting new shop drawings.
    2) Procure all equipment and materials required for backwash piping improvements.
    3) Assemble the piping configuration prior to installation.
    4) Install new configuration.
    5) Perform testing, start-up, and commissioning as specified in Section 01756.

7. Chorine Sampler at Dechlorination Structure:
    a. Constraints:
        1) Replace valve during the dry weather season.
        2) Work on valve shall be completed within a week after initiation.
        3) The final connection to the existing piping shall be completed in a single shutdown of less than 8 hours.
        4) Discharge to the Russian River is not allowed while replacing the chlorine analyzer.
    b. Possible Work Sequence:
        1) Procure all equipment and materials required for replacing the chlorine sampler.
        2) Assemble required new piping prior to installation.
        3) Close valve leading to the Russian River and divert flow to the Carousel Pump Station.
        4) Perform demolition work as indicated on the drawings:
            a) Remove piping exiting the three-way valve and entering the chlorine analyzer.
            b) Remove existing chlorine analyzer.
        5) Install new piping and chlorine analyzer.
        6) Perform testing, start-up, and commissioning as specified in Section 01756.

8. Valves at Dechlorination Structure:
    a. Constraints:
        1) Northern-most Valve (FCV-60102):
            a) Replace valve during the dry weather season.
            b) Work on valve shall be completed within a week after initiation.
            c) The final connection of the valve to the existing piping shall be completed in a single shutdown of less than 8 hours. Actuation of valve maybe be completed later.
        2) Southern-most Valve (FCV-60100):
            a) Replace valve between July 1 and September 1.
                (1) Work shall occur during a low flow day, defined as 2.5 million gallons per day (mgd) or less.
            b) Work on this valve shall not occur concurrently with any other shutdown.
            c) Work on valve shall be completed within a week after initiation.
            d) The final connection to the existing piping shall be completed in a single shutdown of less than 8 hours. Actuation of valve maybe be completed later.
    b. Possible Work Sequences:
        1) Procure all equipment and materials required for replacing the valves.

2) FCV-60102:
    a) Shut down operation and draw down the level in the wet well.
    b) Drain the 24-inch pipe entering the dechlorination structure.
    c) Remove the existing valve.
    d) Install the new valve and leave it in the closed position.
    e) Operations personnel to resume normal operation of the plant, which will fill the pipeline behind the closed valve.
    f) Complete work by actuating the valve.
    g) Perform testing, start-up, and commissioning as specified in Section 01756.
3) FCV-60100:
    a) Stop work in all other areas to focus on replacing valve.
    b) Excavate the area to access the valve.
    c) Divert flow to a secondary clarifier.
    d) Shut down operation and drain the 24-inch pipe as much as possible.
    e) Install the new valve and leave it in the closed position.
    f) Operations personnel to resume normal operation of the plant, which will fill the pipeline behind the closed valve.
    g) Complete work by actuating the valve.
    h) Perform testing, start-up, and commissioning as specified in Section 01756.

9. Carousel Pump Station:
    a. Constraints:
        1) Conduct work during the dry weather season.
        2) Work shall be completed within 4 months after initiation.
        3) Installation of the new pump shall be completed in a single shutdown of less than 8 hours.
        4) Perform pipe work before work starts on the Production Augmentation Unit (PAU).
    b. Possible Work Sequence:
        1) Procure all equipment and materials required for the Carousel Pump Station.
        2) Install new pump.
        3) Excavate trench for pipe entering PAU and lay the pipe.
        4) Perform testing, start-up, and commissioning as specified in Section 01756.
10. Production Augmentation Unit (PAU):
    a. Constraints:
        1) General:
            a) Work shall be completed within 4 months after initiation.
        2) Penetration into Structure 80:
            a) Conduct work during the dry weather season.
                (1) Work shall occur during a low flow day, defined as 2.5 million gallons per day (mgd) or less.
            b) Work shall be completed within a week after initiation.
            c) Penetration into Structure 80 shall be completed in a single shutdown of less than 8 hours.

b. Possible Work Sequence:
    1) PAU and PAU Pump Station:
        a) Procure all equipment and materials required for the PAU pump station and PAU.
        b) Excavate area to construct the PAU Pump station.
        c) Construct structure.
        d) Install new pump and slide gate.
        e) Excavate trench for pipe alignment entering the PAU pump station and lay piping.
        f) Grade PAU and line it.
        g) Excavate trench for pipe alignment going to Structure 80.
        h) Lay piping to Structure 80.
        i) Connect pipe to the penetration at Structure 80.
        j) Perform testing, start-up, and commissioning as specified in Section 01756.
    2) Penetration into Structure 80:
        a) Procure all equipment and materials required for the PAU pump station and PAU.
        b) Excavate the area around Structure 80 where penetration will be made.
        c) Operations personnel to stop normal operation and drain Structure 80's wet well.
        d) Penetrate into Structure 80's wall.
        e) Blind flange pipe until ready to connect to the PAU Pump Station.

11. Digester Overflow Routing:
    a. Constraints:
        1) Work shall be completed within 7 months after initiation.
        2) Contractor shall field the location, condition, pipe material, and outside diameter for existing 6 inch and 12 inch buried sludge piping prior to submitting new steel pipe shop drawings.
        3) Perform work before work starts on the PAU.
    b. Possible Work Sequence:
        1) Excavate to field location, condition, pipe material, and outside diameter for existing 6 inch and 12 inch buried sludge piping prior to submitting new shop drawings.
        2) Procure all equipment and materials required for digester overflow routing.
        3) Isolate the existing 6 inch sludge piping.
        4) Excavate and cut existing 6 inch sludge piping to provide a new 90-degree elbow.
        5) Remove the cut portion of the 6 inch sludge pipe extending into the PAU.
        6) Excavate trench for new 6 inch sludge pipe and lay it.
        7) Perform testing, start-up, and commissioning as specified in Section 01756.

12. Electrical Work:
    a. Constraints:
        1) Electrical, communication, instrumentation and process control improvements must be completed prior to or concurrently with the rest of the associated Work.
        2) All existing loads shall remain powered and functional at all times except for up to 2 hours during relocation(s).
13. Instrumentation and Controls Work:
    a. Constraints:
        1) Electrical, communication, instrumentation and process control improvements must be completed prior to or concurrently with the rest of the associated Work.
        2) All existing I/O points shall remain uninterrupted and functional at all times except for up to 2 hours during relocation(s).

D. Yard piping, electrical duct banks, and trenches:
    1. Provide 1 open fire lane, designed for H-20 loadings, at all times during construction.

E. Provide safe, continuous access to process control equipment for plant operations and maintenance personnel.

F. Maintain truck access as required for plant operations and personnel.

G. Piping:
    1. Provide temporary piping during construction for existing and new equipment to maintain plant operation in service during construction.

PART 2 PRODUCTS (NOT USED)

PART 3 EXECUTION (NOT USED)

END OF SECTION

ATTACHMENT A - METHOD OF PROCEDURE (MOP)

“METHOD OF PROCEDURE” (MOP)
Instructions and Forms

Definition and Purpose

“Method of Procedure” (MOP) is a detailed document submitted by the Contractor to request process shutdown(s), utility tie-in(s), work in areas that may risk unanticipated outages, or flow diversions to accommodate site construction activities during a project. Such activities may include (but are not limited to) new tie-ins to utilities or structures, mechanical modifications to process piping or equipment, demolition, bulkhead installation, and cleaning processes.

The MOP provides a detailed plan to the Owner and Engineer that describes specific aspects of the work including purpose, time of execution, and anticipated impacts on treatment processes. The MOP also includes contingency measures and provisions for rapid closure in the event that shutdown or work progress difficulties are encountered. Information from relevant trades associated with the requested shutdown, diversion, or tie-in is also included.

The Owner should use the information within the MOP to define operational procedures and methods to safely and successfully assist the Contractor.

MOP Process Summary

WHO	STEP	TIMING
Contractor	1. Identify MOPs needed on MOP Log and Baseline Schedule.	No later than 7 days prior to Preconstruction Scheduling Meeting
Contractor, Owner, Engineer	2. Pre-MOP Meeting.	More than 28 days prior to work
Contractor	3. Submits MOP.	No later than 28 days prior to work
Owner	4. Reviews MOP.	
Owner	5. MOP finalized.	No later than 7 days prior to work
Contractor	6. Complete Readiness Checklist.	No later than 5 days prior to work
Contractor	7. Complete Safety Checklist.	Immediately prior to commencing work
Contractor	8. Complete Work.	
Contractor	9. Update MOP Log and Progress Schedules.	Monthly

MOP Process Detail

STEP 1. Identifies MOPs needed on MOP Log and Baseline Schedule.

Contractor submits a preliminary list of anticipated project MOPs on MOP Log. MOPs identified but not limited to those shutdowns, diversions, or tie-ins described in the Contract Documents. Incorporate MOPs as tasks in Baseline Schedule. Date scheduled MOPs to coincide with the appropriate construction activities.

STEP 2. Pre-MOP Meeting.

Contractor requests a Pre-MOP Meeting with the Owner and Engineer to discuss the nature of the shutdown, diversion, or tie-in, and to gather the information necessary to complete the MOP Form. The pre-MOP meeting may be waived by the Owner or Engineer if the work is deemed to be minor.

STEP 3. Submits MOP.

Contractor completes the MOP Form and submit 3 copies for approval to the Owner's Project Manager (OPM).

STEP 4. Reviews MOP.

OPM distributes MOP Form for review by the Owner's Construction Coordinator, O&M Representative, and Engineer's Project Representative. Review MOP Form for completeness, accuracy, compliance with both the construction schedule, constraints defined in contract documents, and to ensure that the requested work does not negatively impact plant operations or other concurrent project activities. Additional information may be requested to better understand the nature of and method for completing the Work.

STEP 5. MOP finalized.

Once the MOP is agreed to by all parties, the MOP will be finalized by signature. Copies are distributed to the Owner, Engineer, and Contractor.

STEP 6. Complete Readiness Checklist.

Contractor verifies everything is ready for the work.

STEP 7. Complete Safety Checklist.

Contractor ensures safety.

STEP 8. Complete work.

Contractor complete work.

STEP 9. Update MOP Log and Progress Schedules.

Contractor updates MOP Log weekly and distributes at the regularly scheduled construction progress meetings.

ATTACHMENT C - READINESS CHECKLIST

READINESS CHECKLIST
(5 days prior to work)

Checklist provided as a guide but is not all inclusive.

1. Confirm all parts and materials are on site: _____
2. Review work plan: _____
3. Review contingency plan: _____

ATTACHMENT D - SAFETY CHECKLIST

SAFETY CHECKLIST
(Just prior to commencing work)

Checklist provided as a guide but is not all inclusive.

1. Location awareness:
   a. Emergency exits: _____
   b. Emergency shower and eyewash: _____
   c. Telephones and phone numbers: _____
   d. Shut-off valve: _____
   e. Electrical disconnects: _____
2. Inspect work area:
   a. Take time to survey the area you are working in. Ensure that what you want to do will work. Do you have enough clearance? Is your footing secure? Do you have adequate lighting and ventilation? Are surrounding utilities out of the way for you to perform your work?
3. SDS (Safety Data Sheets):
   a. Understand the chemicals and substances in the area you are working in by reading the SDS.
4. Lockout/Tagout Procedure:
   a. Lockout/tagout energy sources before beginning work.
   b. Make sure all valves associated with the work are locked out and tagged out on each side of the penetration.
   c. Make sure the lines are depressurized.
5. Overhead work:
   a. Use appropriate personal protective equipment; i.e., safety harness, lifeline, etc.
   b. Select appropriate tie-off points; i.e., structurally adequate, not a pipe or conduit, etc.
   c. Spotter assigned and in position.
   d. Pipe rack access; i.e., check design capacity, protective decking or scaffolding in place, exposed valves or electrical switches identified and protected.
6. Safety equipment:
   a. Shepherd's hook.
   b. ARC flash protection.
   c. Fire extinguisher.
   d. Other: _____.
7. Accidents:
   a. Should accidents occur, do not shut off and do not attempt to correct the situation, unless you are absolutely positive that your action will correct the problem and not adversely affect other people or equipment.
8. Review process start-up documents:
   a. In the event the system is shutdown, the Control Center should have a working knowledge of the process start-up procedures in order to deal effectively with unforeseen events.
9. Evacuation procedures:
   a. Do not obstruct evacuation routes.
   b. Take time to survey the area for evacuation routes.

SECTION 01150

MITIGATION AND MONITORING REQUIREMENTS

PART 1 GENERAL

1.01 SUMMARY

A. Section includes: Mitigation and monitoring requirements relating to environmental impacts.

1.02 REFERENCES

A. California Code of Regulations (CCR).
   1. Title 13, Section 2485 - Airborne Toxics Control Measure to Limit Diesel-Fueled Commercial Motor Vehicle Idling.

1.03 SUBMITTALS

A. General:
   1. Submit data as specified in Section 01330 - Submittal Procedures.
   2. As described in Appendix A - Mitigation Monitoring and Reporting Program.

B. Dust abatement program:
   1. Certifications that construction equipment is maintained and properly tuned.

C. Qualifications of wildlife biologist performing worker education and biological resource surveys.

D. Pre-construction biological resource surveys.

E. Archeological reports.

F. Qualifications of archaeological monitor present during construction activities impacting soils below fill deposits.

G. Daily site report for archaeological monitor.

H. Cultural sensitivity training materials and certificates of completion for construction crew.

PART 2 MITIGATION AND MONITORING REQUIREMENTS FOR ENVIRONMENTAL IMPACTS

2.01 GENERAL

A. Contractor is responsible for implementation of all of the mitigation measures described in Table A of Appendix A - Mitigation Monitoring and Reporting Program.

B. If any discovery of any potential tribal cultural resource and/or archaeological or historical resource is made, the following actions must occur:
   1. Contractor must notify the Party Contacts and the Division's Deputy Director by phone and email as well as the Division by phone at 916-327-9978 and by emailing CleanWaterSRF@waterboards.ca.gov within 24 hours.
      a. Party Contacts:

	State Water Board	City of Ukiah
Section:	Division of Financial Assistance	-
Name:	Jody Hack, Project Manager	Sage Sangiacomo, City Manager
Phone:	916-341-5811	707-463-6221
Email:	Jody.Hack@waterboards.ca.gov	ssangiacomo@cityofukiah.com

      b. Division's Deputy Director:

	State Water Board
Section:	Division of Financial Assistance
Name:	Joe Karkoski, Deputy Director
Phone:	916-341-5618
Email:	Joe.Karkoski@waterboards.ca.gov

   2. If discovery is made during construction or Project implementation, Contractor must ensure that all work in the area of the find will cease until a qualified archaeologist has evaluated the situation and made recommendations regarding preservation of the resource, and the Division has determined what actions should be taken to protect and preserve the resource.
   3. Contractor must implement appropriate actions as directed by the Division.

2.02 HAZARDS AND HAZARDOUS MATERIAL

A. As described in Table A of Appendix A - Mitigation Monitoring and Reporting Program and as specified in Section 01354 - Hazardous Material Procedures.

PART 3 EXECUTION (NOT USED)

END OF SECTION

SECTION 01220

MEASUREMENT AND PAYMENT

PART 1 GENERAL

1.01 SUMMARY

A. Section includes: Procedures for measurement and payment of Work under this Contract for lump sum items and unit prices.

1.02 REFERENCES

A. Occupational Safety and Health Administration (OSHA).

1.03 LUMP SUM ITEMS

A. Items 4, 19, and 31: Temporary Excavation Support:
   1. Measurement:
      a. Sheeting, shoring, and bracing, or equivalent method for the protection of life and limb in trenches and open excavation, in accordance with California Labor Code §6707.
      b. Requirements as specified in Section 02260 - Excavation Support and Protection.
      c. Measurement for payment will be Lump Sum.
   2. Payment:
      a. Lump sum.

B. Items 3, 6, 7, 8a, 8c, 8d, 8e, 8f, 9, 10, 11, 12, 13, 14, 15a, 15b, 16, 17, 18, 21, 22, 23, 24, 25, 27a, 27b, 28, 29, 30, 40, 45, 46, 47, and 48: Lump sum Item:
   1. Measurement:
      a. Includes costs including Contractor's fee for overhead and profit for continuous, full-time management of the Contract as described in the Contract Documents, covering a period of time not less than from the Notice to Proceed through the entire length of the allowable Contract Times specified in the Contract Documents.
   2. Payment:
      a. Lump sum.

C. Item 2: Traffic Control:
   1. Measurement:
      a. Includes work required for management including but not limited to temporary striping, signage, delineators, K-rails, cones, labor, flagmen, temporary fence, and equipment necessary for traffic control during the course of the work.
      b. Measurement for payment shall be by percent complete.
   2. Payment:
      a. Lump sum.

D. Items 5, 20, and 32: Dewatering:
   1. Measurement:
      a. Includes work for dewatering and other appurtenant work and materials.
      b. Measurement for payment shall be based on each.
   2. Payment:
      a. Per lump sum.

1.04 UNIT PRICE ITEMS

A. Measurement of quantities:
   1. Work paid at a unit price times number of units measured will be measured by Engineer in accordance with United States Standard Measures:
      a. 1 ton shall consist of 2,000 pounds avoirdupois.
   2. Provide and pay for accurate scales:
      a. Use platform scales of sufficient size and capacity to permit the entire vehicle or combination of vehicles to rest on the scale platform while being weighed.
      b. Combination vehicles may be weighed as separate units provided they are disconnected while being weighed.
      c. Have scales inspected and certified as often as necessary to ascertain accuracy.
      d. Furnish weigh slips and daily summary weigh sheets to Engineer.
      e. When material is shipped by rail, certified car weights will be acceptable, provided that not more than the actual weight of material will be paid, without consideration of minimum car weight used for assessing freight tariff:
      f. Car weight will not be acceptable for materials passing through mixing plants.
      g. Daily, or at shorter intervals when necessary to ensure accuracy, weigh empty trucks used to haul material paid by weight:
      h. Provide such trucks with plain, unique, permanent, legible identification marks.
   3. Reinforcing steel, steel shapes, castings, and similar items paid by weight will be measured by handbook weights for the type and quantity indicated for the Work.

B. Item 8b: AWT Tank Coating (per Specification Section 09960):
   1. Measurement:
      a. Includes removal of existing coating as required and surface preparation.
      b. Includes environmental controls as required for coating application.
      c. Includes new coating as specified in Section 09960 - High-Performance Coatings.
      d. Measurement and payment shall be by square foot of coating applied.
   2. Payment:
      a. Per square foot applied.

C. Items 33, 34, 35, 36, 37, 38, and 39: PVC pipeline in trench:
   1. Measurement:
      a. Includes work for pipe materials and installation; protection and support of utilities adjacent to the Work; excavation, temporary excavation support, soil hauling and disposal, geogrid, stabilization fabric, backfilling,

compaction, fine grading, elevation adjustments; pipe testing; marking tape; and other appurtenant work and materials.
b. Includes work for completely restoring property affected by construction operations to its original or required condition, including fence replacement, preliminary grading, placement of topsoil, fine grading, grass sodding or seeding (if required), and final cleanup including removal of stormwater pollution prevention systems and removal of equipment or materials related to construction.
c. Includes work for hydrostatic testing, disinfection (water line only), and activation of pipeline, if applicable.
d. Measurement for payment shall be by linear foot from starting point through center of manholes (sewer only) or to the outside face of launching and receiving shafts at the tunnel break-out or break-in.

2. Payment:
a. Per linear foot installed.

D. Item 26: Construct New Manholes:
1. Measurement:
a. Includes work for constructing new manholes as indicated on the Drawings.
b. Also included is saw cutting and removal of existing pavement outside of the limits of trenching for new pipeline, excavation outside the limits of the new piping, furnishing and installing cast-in-place concrete manhole base with smooth shaped channels, bedding, backfill, compaction, elevation adjustments, pipe stub outs, connections to pipes, joint seals, patch liner at joints and pipe penetrations, air testing of manholes, and temporary pavement or surfacing, restoration of existing improvements and installation of manhole frames and covers.
c. Measurement for payment shall be based on each.

2. Payment:
a. Unit price.

E. Items 41, 42, 43, 44: Recycled Water Pipeline Valves and Appurtenances:
1. Measurement:
a. Includes work as indicated on the Drawings.
b. Measurement for payment shall be based on each.

2. Payment:
a. Unit price.

PART 2 PRODUCTS (NOT USED)

PART 3 EXECUTION (NOT USED)

END OF SECTION

SECTION 01260

CONTRACT MODIFICATION PROCEDURES

PART 1 GENERAL

1.01 SUMMARY

A. Section Includes:
   1. Administrative and procedural requirements for executing a change in the Work.

1.02 PRELIMINARY REQUIREMENTS

A. Change Order Cost Basis Summary Form:
   1. Submit a sample to Engineer for review within 15 calendar days following Notice to Proceed.
      a. Items will be reviewed and their value, percentage, or calculation method mutually agreed to by the Contractor and Owner prior to executing a Change Order on the Project.
   2. Used by the Contractor for pricing each Change Order required for additions, deletions, or revisions in the Work.
   3. Include the following information:
      a. Agreed upon markups, percentages, and procedures for calculating all surcharges, etc. associated with the Cost of the Change Order Work.
      b. References for unit price information and special unit price information.
      c. Attachments with the following information:
         1) Certified labor rates breakdown.
         2) Equipment rates.
         3) Bond and insurance rates (PI&I).

1.03 REQUEST FOR INFORMATION OR INTERPRETATION (RFI)

A. Contractor may issue RFIs to request interpretation of the documents or to request for information that may be missing.

B. General Instructions:
   1. Number RFIs consecutively.
      a. Add a consecutive letter to the RFI number on modified submittals of the same RFI (i.e., RFI 4B).
   2. Provide RFI for 1 item.
      a. There may be exceptions when multiple items are so functionally related that expediency indicates review of the group of items as a whole.
      b. RFIs with multiple items will be rejected without review.

3. Contractor sign and date RFIs indicating review and approval.
    a. Contractor’s signature indicates that they have satisfied RFI review responsibilities and constitutes Contractor's written approval of RFI.
    b. RFIs without Contractor's signature will be returned to the Contractor unreviewed. Subsequent submittal of this information will be counted as the first resubmittal.

C. Engineer will render a written clarification, interpretation, or decision on the issue submitted or initiate an amendment or supplement to the Contract within 21 days.
    1. In the event the Contractor identifies an RFI as critical to the progress of the project, Engineer will make every effort to reduce the RFI response time.

1.04 PRELIMINARY PROCEDURES

A. Owner or Engineer may initiate changes by submitting a Request for Proposal (RFP) to Contractor including the following information:
    1. Detailed description of the Change, Products, and location of the change in the Project.
    2. Supplementary or revised drawings or specifications.
    3. Projected time span for making the change, and a specific statement if overtime work is authorized.
    4. A specific period of time during which the requested price will be considered valid.
    5. Such request is for information only, and is not an instruction to execute the changes, or to stop work in progress.

B. Contractor may initiate changes by submitting a Change Proposal to Engineer containing the following:
    1. Description of proposed changes.
    2. Reason for making changes.
    3. Specific period of time during which requested price will be considered valid.
    4. Effect on Total Contract Cost and/or Contract Time.
    5. Documentation supporting any change in Total Contract Cost and/or Contract Time, as appropriate.

1.05 WORK CHANGE DIRECTIVE AUTHORIZATION

A. In lieu of a Request for Proposal (RFP), Engineer may issue a Work Change Directive Authorization for Contractor to proceed with a change for subsequent inclusion in a Change Order.

B. Authorization will describe changes in the Work, both additions and deletions, with attachments of revised Contract Documents to define details of the change and will designate method of determining any change in the Contract Sum and/or the Contract Time, as appropriate.

C. Owner and Engineer will sign and date the Work Change Directive Authorization as authorization for the Contractor to proceed with the changes.

D. Contractor may sign and date the Work Change Directive Authorization to indicate agreement with the terms.

1.06 DOCUMENTATION OF CHANGE PROPOSALS

A. Change proposal:
   1. Support with sufficient substantiating data to allow Engineer to evaluate the quotation.
      a. Lump sum.
      b. Unit prices: Use previously established unit prices.
      c. Time-and-material/force account basis:
         1) Name of the Owner's authorized agent who ordered the work, and date of the order.
         2) Dates and times work was performed, and by whom.
         3) Time record, summary of hours worked, and hourly rates paid.
         4) Receipts and invoices for:
            a) Equipment used, listing dates and times of use.
            b) Products used, listing of quantities.
            c) Subcontracts.
   2. Provide additional data to support time and cost computations:
      a. Labor required.
      b. Equipment required.
      c. Products required:
         1) Recommended source of purchase and unit cost.
         2) Quantities required.
      d. Taxes, insurance, and bonds.
      e. Credit for work deleted from Contract, similarly documented.
      f. Overhead and profit.
      g. Justification for change to Contract Time.

1.07 PREPARATION OF CHANGE ORDERS AND FIELD ORDERS

A. Engineer will prepare each Change Order and Field Order.

B. Change Orders:
   1. Will describe changes in the Work, both additions and deletions, with attachments of revised Contract Documents to define details of the change.
   2. Will provide an accounting of the adjustment in the Contract Sum and in the Contract Time.
   3. Recommendation of Change Proposal is indicated by Engineer's signature.
   4. Upon signature and execution by Owner, the Change Proposal becomes a Change Order altering the Contract Time and Total Contract Cost, as indicated.
      a. Owner's Representative will transmit one signed copy each to Contractor and Engineer.
   5. Contractor may only request payment for changes in the Work against an approved Change Order.
   6. If either Engineer or Owner's Representative disapproves the Change Proposal, the reason for disapproval will be stated.
      a. A request for a revised proposal or cancellation of the proposal will be shown.

C. Field Orders:
   1. Order minor changes in the Work without changes in Contract Price or Contract Times.

1.08 LUMP-SUM/FIXED PRICE CHANGE ORDER

A. Content of Change Orders will be based on, either:
   1. Engineer's Proposal Request and Contractor's responsive Change Proposal as mutually agreed between Owner and Contractor.
   2. Contractor's Change Proposal for a change, as recommended by Engineer.

B. Owner and Engineer will sign and date the Change Order to establish the change in Contract Sum and in Contract Time and serve as authorization for the Contractor to proceed with the changes.

C. Contractor will sign and date the Change Order to indicate agreement with the terms.

1.09 UNIT PRICE CHANGE ORDER

A. Content of Change Orders will be based on, either:
   1. Engineer's definition of the scope of the required changes.
   2. Contractor's Change Proposal for a change, recommended by Engineer.
   3. Survey of completed work.

B. The amounts of the unit prices to be:
   1. Those stated in the Contract.
   2. Those mutually agreed upon between Owner and Contractor.

C. When quantities of each of the items affected by the Change Order can be determined prior to start of the work:
   1. Owner and Engineer will sign and date the Change Order as authorization for Contractor to proceed with the changes.
   2. Contractor will sign and date the Change Order to indicate agreement with the terms.

D. When quantities of the items cannot be determined prior to start of the work:
   1. Engineer or Owner will issue a Work Change Directive authorization directing Contractor to proceed with the change on the basis of unit prices, and will cite the applicable unit prices.
   2. At completion of the change, Engineer will determine the cost of such work based on the unit prices and quantities used.
   3. Contractor shall submit documentation to establish the number of units of each item and any claims for a change in Contract Time.

E. Owner and Engineer will sign and date the Change Order to establish the change in Contract Sum and in Contract Time and serve as authorization for the Contractor to proceed with the changes.

F. Contractor will sign and date the Change Order to indicate their agreement with the terms.

1.10 TIME AND MATERIAL/FORCE ACCOUNT CHANGE ORDER/WORK CHANGE DIRECTIVE AUTHORIZATION

A. Engineer will issue a Work Change Directive for the Owner's signature authorizing Contractor to proceed with the changes.

B. At completion of the change, Contractor shall submit itemized accounting and supporting data as specified in this Section.

C. Engineer will determine the allowable cost of such work, as provided in the Contract Documents.

D. Owner and Engineer will sign and date the Change Order to establish the change in Contract Sum and in Contract Time and serve as authorization for the Contractor to proceed with the changes.

E. Contractor will sign and date the Change Order to indicate their agreement.

1.11 CORRELATION WITH CONTRACTOR'S SUBMITTALS

A. Periodically revise Schedule of Values and Applications for Payment forms to record each Change Order as a separate item of Work, and to record the adjusted Contract Sum.

B. Periodically revise the Construction Schedule to reflect each change in Contract Time. Revise subschedules to show changes for other items of work affected by the changes.

C. Upon completion of work under a Change Order, enter pertinent changes in Record Documents.

PART 2 PRODUCTS (NOT USED)

PART 3 EXECUTION (NOT USED)

END OF SECTION

SECTION 01292

SCHEDULE OF VALUES

PART 1 GENERAL

1.01 SUMMARY

A. Section includes: Requirements for preparation, format, and submittal of Schedule of Values.

1.02 PREPARATION

A. Schedule of Values shall be a listing of all cost loaded, on-site construction activities from the progress schedule, listed in numerical order, showing that the sum total of all cost-loaded activities equal the Contract value.

B. When the schedule is changed or revised to include added or deleted work, the Schedule of Values shall also be revised such that the sum total of all cost-loaded activities continuously equal the current Contract value.
   1. Equate the aggregate of these costs to the Lump Sum Contract Price.

C. Prepare Schedule of Values identifying costs of Major Items of Work.

1.03 SUBMITTALS

A. Submit Schedule of Values for the Preliminary Schedule as specified in, Section 01321 - Schedules and Reports.

PART 2 PRODUCTS (NOT USED)

PART 3 EXECUTION (NOT USED)

END OF SECTION

SECTION 01294

APPLICATIONS FOR PAYMENT

PART 1 GENERAL

1.01 SUMMARY

A. Section includes: Procedures for preparation and submittal of Applications for Payment.

1.02 FORMAT

A. Develop satisfactory spreadsheet-type form generated by downloading cost data from the Progress Schedule.
   1. Submit payment requests and attach spreadsheet with cost data related to Progress Schedule.

B. Fill in information required on form.

C. When Change Orders are executed, add Change Orders at end of listing of scheduled activities:
   1. Identify change order by number and description.
   2. Provide cost of change order in appropriate column.

D. After completing, submit Application for Payment.

E. Engineer will review application for accuracy. When accurate, Engineer will transmit application to Owner for processing of payment.

F. Execute application with signature of responsible officer of Contractor.

1.03 SUBSTANTIATING DATA

A. Provide Substantiating Data identifying:
   1. Project.
   2. Application number and date.
   3. Cost flow summary.
   4. Updated schedule of values.
   5. Progress schedule.
   6. Detailed list of enclosures.
   7. Stored products log.
   8. Equipment log.
   9. Submit “certified” payroll, if applicable.
   10. Record (as-built) documents.
   11. Photos and videos from current pay period.
   12. Applicable unconditional waiver and release on progress payment for previous payment made by Owner.

1.04 SUBMITTALS

A. Submit Application for Payment and Substantiating Data with cover letter.

1.05 PAYMENT REQUESTS

A. Prepare progress payment requests on a monthly basis. Base requests on the breakdowns of costs for each scheduled activity and the percentage of completion for each activity.

B. Indicate total dollar amount of work planned for every month of the project. Equate sum of monthly amounts to Lump Sum Contract Price.

C. Generate Progress Payment request forms by downloading cost data from the schedule information to a spreadsheet type format.

D. Identify each activity on the Progress Schedule that has a cost associated with it, the cost for each activity, the estimated percent complete for each activity, and the value of work completed for both the payment period and job to date.

E. Prepare summary of cost information for each Major Item of Work listed in the Schedule of Values. Identify the value of work completed for both the payment period and job to date.

F. Payment period:
   1. Monthly Application for Payment period shall begin on the 1st day of each month, and end on the last day of each month.
   2. Submit Application for Payment to Engineer no later than the 5th day of each month for work completed the previous month.
   3. Engineer will finalize and submit recommendation for Application for Payment to Owner by the 15th day of each month to allow time for processing and approval.

1.06 COST SUMMARIES

A. Prepare Summary of Cost Information for each Major Item of Work listed in the Schedule of Values. Identify the Value of Work Completed for both the payment period and job to date.

B. Cash flow summary: Prepare cash flow summary, indicating total dollar amount of work planned for each month of the project. Equate sum of monthly amounts to Lump Sum contract price.

PART 2 PRODUCTS (NOT USED)

PART 3 EXECUTION (NOT USED)

END OF SECTION

SECTION 01312

PROJECT MEETINGS

PART 1 GENERAL

1.01 SUMMARY

A. Section includes: Requirements for conducting conferences and meetings for the purposes of addressing issues related to the Work, reviewing and coordinating progress of the Work and other matters of common interest, and includes the following:
   1. Qualifications of Meeting Participants.
   2. Basic Meeting Requirements
   3. Pre-construction Conference.
   4. Pre-construction Safety Conference.
   5. Pre-submittal Conference.
   6. Web Based Construction Document Management Software Training.
   7. Progress Meetings.
   8. Schedule Update Meetings.
   9. Quality Control Meetings.
   10. Pre-Installation Meetings.
   11. Maintenance Of Plant Operations (MOPO) Meetings.
   12. Commissioning Coordination Meetings.
   13. Instrumentation and Control Coordination Meetings.
   14. Close-out Meeting.
   15. Post Construction Meeting.

1.02 QUALIFICATIONS OF MEETING PARTICIPANTS

A. Representatives of entities participating in meetings shall be qualified and authorized to act on behalf of entity each represents.

1.03 BASIC MEETING REQUIREMENTS

A. Attendees:
   1. Meeting leader shall require attendance of parties directly affecting, or affected by, Work being discussed at the meeting.

B. Location:
   1. In location convenient for most invitees.

C. Notification:
   1. Meeting leader shall notify attendees of meeting, including an agenda, a minimum of 7 days prior to meeting.

D. Agenda:
   1. Meeting leader shall prepare copies of agenda for participants and distribute at the meeting.
   2. Minimum requirements:
      a. Meeting purpose.
      b. Review minutes of previous meeting.
      c. Safety and security.
      d. Discuss issues.
      e. Action items.
      f. Next meeting.

E. Meeting minutes:
   1. Meeting leader shall provide draft minutes within 7 days of meeting and send to all attendees for comment within 7 days.
   2. Meeting leader shall incorporate comments from attendees and submit final meeting minutes to attendees within 7 days of receipt of comments.

1.04 PRE-CONSTRUCTION CONFERENCE

A. Engineer leads the meeting.

B. Timing:
   1. Upon issuance of Notice to Proceed, or earlier when mutually agreeable.

C. Attendees:
   1. Contractor's project manager and superintendent, Owner, Engineer, representatives of utilities, major subcontractors and others involved in performance of the Work, and others necessary to agenda.

D. Agenda minimum requirements:
   1. Meeting purpose:
      a. To establish working understanding between parties and to discuss Construction Schedule, shop drawing and other submittals, cost breakdown of major lump sum items, processing of submittals and applications for payment, and other subjects pertinent to execution of the Work.
   2. Review minutes of previous meeting.
   3. Adequacy of distribution of Contract Documents.
   4. Distribution and discussion of list of major subcontractors and suppliers.
   5. Proposed progress schedules and critical construction sequencing.
   6. Major equipment deliveries and priorities.
   7. Project coordination.
   8. Designation of responsible personnel.
   9. Procedures and processing of:
      a. Field decisions.
      b. Proposal requests.
      c. Submittals.
      d. Change Orders.
      e. Request for Information/Interpretations.
      f. Applications for Payment.
      g. Record Documents.

10. Use of premises:
    a. Office, construction, and storage areas.
    b. Owner's requirements.
11. Construction facilities, controls, and construction aids.
12. Temporary utilities.
13. Safety and first aid procedures.
14. Security procedures.
15. Housekeeping procedures.
16. Safety and security.
17. Review proposed photographer submittal.
18. Action items.
19. Next meeting.

1.05 PRE-CONSTRUCTION SAFETY CONFERENCE

A. Engineer leads the meeting.

B. Timing:
    1. Upon issuance of Notice to Proceed, or earlier when mutually agreeable.

C. Attendees:
    1. Contractor's project manager, safety representative, and superintendent; Owner, Engineer, representatives of utilities, major subcontractors and others involved in performance of the Work, and others necessary to agenda.

D. Agenda minimum requirements:
    1. Meeting purpose:
        a. To establish safety procedures and identify lead participants.
    2. Review minutes of previous meeting.
    3. Safety and first aid procedures.
    4. Review of Experience Modification Rating for Contractor and each subcontractor.
    5. Security procedures.
    6. Housekeeping procedures.
    7. Safety and security.
    8. Action items.
    9. Next meeting.

1.06 PRE-SUBMITTAL CONFERENCE

A. Engineer leads the meeting.

B. Timing:
    1. Prior to producing any submittals.

C. Attendees:
    1. Contractor's project manager and superintendent, Owner, Engineer, representatives of utilities, major subcontractors, individual equipment manufacturers furnishing major pieces of equipment, and others involved in performance of the Work, and others necessary to agenda.

D. Agenda minimum requirements:
    1. Meeting purpose:
        a. Reviewing the entire Project, equipment, schedules, and submittal requirements.
    2. Review equipment list.
    3. Review submittal schedule.
    4. Format of submittals.
    5. Procedures and processing of submittals.
        a. Review turn-around time.
    6. Discuss specific electrical and instrumentation and controls submittal requirements.
    7. Safety and security.
    8. Action items.
    9. Next meeting.

1.07 PROGRESS MEETINGS

A. Engineer will lead the meeting.

B. Timing:
    1. Hold meetings throughout progress of the Work at maximum weekly intervals.

C. Attendees:
    1. Owner, Engineer, Contractor, Contractor's Project Manager, superintendent, quality control manager, project scheduler, major subcontractors and suppliers as appropriate to agenda topics for each meeting.
    2. Additional invitees:
        a. Owner utility companies when the Work affects their interests, and others necessary to agenda.

D. Agenda minimum requirements:
    1. Meeting purpose:
        a. To discuss project progress.
    2. Review minutes of previous meeting.
    3. Safety and security.
    4. Construction schedule summary.
    5. Review of 6 weeks schedule.
        a. Contractor shall provide printed hard copies for each attendee.
    6. Review of off-site fabrication and delivery schedules.
    7. Review of submittals schedule and status of submittals.
    8. Request for information (RFI's) status.
    9. MOP's/shutdown coordination.
    10. Change order management status.
    11. Maintenance of quality standards (QA/QC).
    12. Field observations, problems, and conflicts.
    13. Commissioning.
    14. Partnering recognition status (optional).
    15. General Items.
    16. Action items.
    17. Next meeting.

1.08 SCHEDULE UPDATE MEETINGS

A. Contractor leads the meeting.

B. Timing:
   1. Hold meetings throughout progress of the Work at maximum monthly intervals.

C. Attendees:
   1. Owner, Engineer, Contractor, Contractor's Project Manager, General Superintendent, project scheduler, major subcontractors and suppliers as appropriate to agenda topics for each meeting.
   2. Additional invitees:
      a. Owner utility companies when the Work affects their interests and others necessary to the agenda.

D. Agenda minimum requirements:
   1. Meeting purpose:
      a. Discuss project schedule.
   2. Review minutes of previous meeting.
   3. Review Monthly Schedule, (Actual Progress and Variance).
      a. "Activities Started/Completed" this period.
      b. "Activities Started/Completed" "Variance" Baseline vs. current.
      c. "Added/Deleted Activities".
      d. "Revised Activity Descriptions".
      e. Any significant Proposed Logic Changes.
   4. Review milestone "Substantial Completion" Schedule:
      a. "Critical" Activities - "Critical Area, Float and Vital Statistics".
   5. Review "Cumulative and Monthly Costs" graph.
   6. Review "Budgeted Cost" indicating the Current Project Budgeted Cost.
   7. Safety and security.
   8. Action items.
   9. Next meeting.

1.09 QUALITY CONTROL MEETINGS

A. Contractor leads the meeting.

B. Timing:
   1. Hold meetings throughout progress of the Work at maximum weekly intervals.

C. Attendees:
   1. Engineer, Construction Manager and staff, Contractor's Quality Control Manager, and staff.

D. Agenda minimum requirements:
   1. Meeting purpose:
      a. Discuss quality control activities.
   2. Review minutes of previous meeting.
   3. Review of Work progress and schedule.
   4. Review of out-of-compliance inspection or test results.
   5. Field observations, problems, and decisions.

6. Review of offsite fabrication and delivery schedules.
7. Planned progress during succeeding work period.
8. Coordination of required inspections and tests.
9. Review 6-week schedule report with upcoming inspections and special tests.
10. Maintenance of quality and work standards.
11. Other business relating to Work.
12. Safety and security.
13. Action items.
14. Next meeting.

1.10 PRE-INSTALLATION MEETINGS

A. Contractor leads the meeting.

B. Timing:
   1. When specified in Technical Sections or requested by Engineer, convene pre-installation meeting at Project site before commencing Work of specific section.

C. Attendees:
   1. Require attendance of parties directly affecting, or affected by installation, including Engineer, specific work crews, Owner's construction, operations, and maintenance staff.

D. Agenda minimum requirements:
   1. Meeting purpose:
      a. Review conditions of installation, preparation and installation procedures.
      b. Review coordination with related work.
   2. Review minutes of previous meeting.
   3. Safety and security.
   4. Action items.
   5. Next meeting.

1.11 PRE-SHUTDOWN MEETINGS

A. Contractor leads the meeting.

B. Timing:
   1. Short-term and longer-term shutdowns and other tie-ins that require an Owner approved MOP require a pre-shutdown meeting at Project site at least 3 working days prior to commencing shutdown for tie-in or modification of specific plant systems.

C. Attendees:
   1. Require attendance of parties directly affecting, or affected by shutdown, including Engineer, specific work crews, Owner's construction, operations, and maintenance staff.

D. Agenda minimum requirements:
    1. Meeting purpose:
        a. Coordinate shutdown activities.
    2. Review minutes of previous meeting.
    3. Review accepted Construction Method of Procedure (MOP), as specified in Attachment A of Section 01140 - Work Restrictions, including conditions of shutdown, preparation, and installation procedures.
    4. Review timelines and sequences.
    5. Review responsibilities.
    6. Review dry run plan and schedule, as necessary.
    7. Review coordination with related work.
    8. Safety and security.
    9. Action items.
    10. Next meeting.

1.12 COMMISSIONING COORDINATION MEETINGS

A. Contractor leads the meeting.

B. Timing:
    1. Separate commissioning coordination meetings will be scheduled as required by Engineer.

C. Attendees:
    1. Require attendance of parties directly affecting, or affected by process start-up and testing, including Engineer, Commissioning Coordinator, specific work crews, Owner’s operations, and maintenance staff.

D. Agenda minimum requirements:
    1. Meeting purpose:
        a. Coordinate commissioning activities.
    2. Review minutes of previous meeting.
    3. Review Commissioning Schedule.
    4. Review Owner Training Schedule.
    5. Review test plans.
    6. Review accepted Construction Method of Procedure (MOP), as specified in Attachment A of Section 01140 - Work Restrictions.
    7. Owner makes final decision for commissioning GO or NO GO.
    8. Safety and security.
    9. Action items.
    10. Next meeting.

1.13 INSTRUMENTATION AND CONTROL COORDINATION MEETINGS

A. Meetings and conferences as specified in Section 17050 - Common Work Results for Process Control and Instrumentation Systems.

1.14 CLOSE-OUT MEETING

A. Engineer leads the meeting.

B. Timing:
   1. After punch list items are completed.

C. Attendees:
   1. Owner, Engineer, Contractor, Contractor's Project Manager, and Superintendent.

D. Agenda minimum requirements:
   1. Meeting purpose:
      a. Coordinate close-out activities.
   2. Review minutes of previous meeting.
   3. Review punch list completion.
   4. Transfer of record documents.
   5. Finalize payment.
   6. Safety and security.
   7. Action items.
   8. Next meeting.

1.15 POST CONSTRUCTION MEETING

A. Engineer leads the meeting.

B. Attendees:
   1. Engineer, Contractor, appropriate manufacturers, and installers of major units of constructions, affected subcontractors, and Owner's operations and maintenance staff.

C. Timing:
   1. About 11 months after date of Substantial Completion.

D. Location:
   1. Meet in Owner's office or other mutually agreed upon place.

E. Agenda minimum requirements:
   1. Meeting purpose:
      a. Review project for compliance with Contract Documents.
   2. Inspect the Work and draft list of items to be completed or corrected.
   3. Review service and maintenance contracts and take appropriate corrective action when necessary.
   4. Complete or correct defective work and may extend correction period .
   5. Safety and security.
   6. Action items.
   7. Next meeting.

PART 2 PRODUCTS (NOT USED)

PART 3 EXECUTION (NOT USED)

END OF SECTION

SECTION 01321

SCHEDULES AND REPORTS

PART 1 GENERAL

1.01 SUMMARY

A. Section includes: Schedules and reports.

1.02 SUBMITTAL REQUIREMENTS

A. Submit preliminary and baseline schedule.

B. Submit preliminary and baseline schedule of values.

C. Submit preliminary and baseline schedule of submittals.

D. Submit, on a monthly basis, updated schedules as specified.

E. Submit final schedule update as specified.

F. Submit revised schedules and time impact analyses as specified.

G. Submit schedules in the media and number of copies as follows:
   1. Provide each submittal in PDF format and in other formats specified in this Section.
   2. 3 sets of the CPM network and/or bar chart (as specified by the Owner) on D-size sheets.
      a. Color-coding to be specified by the Owner.
   3. 3 sets of tabular reports listing all activities sorted numerically identifying duration, early start, late start, early finish, late finish, total float, and all predecessor/successor information.
   4. 2 sets of CPM Schedule data electronic files in a native backed-up file (.xer).

1.03 SCHEDULER

A. Designate, in writing and within 5 calendar days after Notice of Award, the person responsible for preparation, maintenance, updating, and revision of all schedules.

B. Qualifications of scheduler:
   1. Authority to act on behalf of Contractor.
   2. A minimum of 5 years verifiable experience in preparation of construction schedules for projects of similar value, size, and complexity.
   3. Knowledge of critical path method (CPM) scheduling utilizing Primavera P6 Professional software.

C. References:
   1. Submit written reference of 3 project Owners who have personal experience with this scheduler on previous projects.
   2. Identify name, address, telephone number, project name, and cost.

D. Owner reserves the right to disapprove scheduler when submitted by Contractor if not qualified.

E. Owner reserves the right to remove scheduler from the project if found to be unqualified.

1.04 SCHEDULING FORMAT AND SOFTWARE

A. Schedule format: Utilize CPM format.

B. Prepare computerized schedule utilizing Primavera P6 Professional software, most current version.
   1. Provide 1 licensed copy of the scheduling software to the engineer, registered in the Engineer's name, for the duration of the project.
   2. The provided copy of the software shall be a standalone version for installation on a standalone computer.

C. Contractor and Engineer must agree on the format.

1.05 PRECONSTRUCTION SCHEDULING MEETING

A. Engineer will conduct Preconstruction Scheduling Meeting with Contractor's Project Manager, General Superintendent, and scheduler within 7 calendar days after Notice to Proceed.
   1. This meeting is separate from the Preconstruction Conference Meeting and is intended to exclusively cover schedule issues.

B. At the meeting, review scheduling requirements.
   1. These include schedule preparation, reporting requirements, labor and equipment loading, updates, revisions, and schedule delay analysis
   2. Present schedule methodology, planned sequence of operations, cost and resource loading methodology, and proposed activity coding structure.
   3. Naming convention: Name schedule files with the year, month and day of the data date, revision identifier, and a description of the schedule.
      a. Example 1: 2014_07_30 rev 1 draft baseline schedule.xer.
      b. Example 2: 2014_09_30 rev 2 sep final update.xer.
   4. Coding structure:
      a. Submit proposed coding structure, identifying the code fields and the associated code values it intends to use in the project schedule.
      b. A minimum, include code fields for Project Segment or Phase, Area of Work, Type of Work, Submittal/Procurement/Construction and Responsibility/Subcontractor. Refer to NETWORK DETAILS AND GRAPHICAL OUTPUT for listing of activity categories to be included in the schedule.

C. Filing: Post submitted files to Owner's construction document control system.

1.06 REVIEW AND ACCEPTANCE OF SCHEDULES

A. Engineer will review Baseline Schedule, Schedule Updates, Schedule Revisions and Time Impact Analyses to ascertain compliance with specified project constraints, compliance with milestone dates, reasonableness of durations and sequence, accurate inter-relationships, and completeness.

B. Engineer and Owner will issue written comments following completion of review of Baseline Schedule within 21 calendar days after receipt.

C. Written comments on review of Schedule Updates and Schedule Revisions and Time Impact Analyses will be returned to Contractor within 14 calendar days after receipt by Engineer.

D. Revise and resubmit schedule in accordance with Engineer’s comments within 7 calendar days after receipt of such comments or request joint meeting to resolve objections.

E. If Engineer requests a meeting, the Contractor and all major subcontractors must participate in the meeting with Engineer.
   1. Revise and resubmit schedule within 7 calendar days after meeting.

F. Use accepted schedule for planning, organizing, and directing the work and for reporting progress.

G. Engineer’s submittal review response:
   1. When schedule reflects Owner's and Contractor's agreement of project approach and sequence, schedule will be accepted by Owner.
   2. Engineer’s submittal review response for schedule submittal will be “Receipt Acknowledged - Filed for Record” including applicable comments.
   3. Acceptance of the schedules by the Owner is for general conformance with the Contract Documents and for Owner’s planning information and does not relieve the Contractor of sole responsibility for planning, coordinating, and executing the Work within the contract completion dates. Omissions and errors in the accepted schedules shall not excuse performance less than that required by the Contract Documents. Acceptance by the Owner in no way constitutes an evaluation or validation of the Contractor’s plan, sequence or means, methods, and techniques of construction.

1.07 SCHEDULE UPDATES

A. Any update:
   1. Prepare update using most recent accepted version of schedule including:
      a. Actual start dates of activities that have been started.
      b. Actual finish dates of activities that have been completed.
      c. Percentage of completion of activities that have been started but not finished.
      d. Actual dates on which milestones were achieved.
      e. Update activities by inputting percent complete figures with actual dates.
      f. Use retained logic in preparing Schedule Updates.

g. When necessary, input remaining durations for activities whose finish dates cannot be calculated accurately with a percent complete figure only.
h. Revisions to the schedule may be included that have been previously approved as specified in this Section under Revisions to Schedule.

B. Monthly updates:
1. Submit written narrative report in conjunction with each Schedule Update including descriptions of the following:
a. Activities added to or deleted from the schedule are to adhere to cost and other resource loading requirements.
1) Identify added activities in manner distinctly different from original activity designations.
b. Changes in sequence or estimated duration of activities.
c. Current or anticipated problems and delays affecting progress, impact of these problems and delays and measures taken to mitigate impact.
d. Assumptions made and activities affected by incorporating change order work into the schedule.
2. Submit updated schedule and materials specified under Submittal of Progress Schedules, 5 calendar days before the monthly schedule update meeting.
3. Since Monthly Schedule Update is the application for progress payment required as specified in Section 01294 - Applications for Payment, submittal and acceptance of the monthly Schedule Update is a condition precedent to the making of any progress payments.

C. Weekly progress meeting:
1. Update the schedule prior to weekly progress meeting.
a. Identify overall progress of each Major Item of Work in the Summary Schedule.
b. If there are significant changes to the schedule, submit a written report at the weekly progress meeting.
2. Should monthly Schedule Update show project completion earlier than current Contract completion date, show early completion time as schedule activity, identified as “Project Float”.
3. Should monthly Schedule Update show project completion later than current Contract completion date, prepare and submit a Schedule Revision in accordance with the Revisions to Schedule.

1.08 REVISIONS TO SCHEDULE

A. Submit Revised Schedule within 5 days:
1. When delay in completion of any activity or group of activities indicates an overrun of the Contract Time or milestone dates by 20 working days or 5 percent of the remaining duration, whichever is less.
2. When delays in submittals, deliveries, or work stoppages are encountered making necessary the replanning or rescheduling of activities.
3. When the schedule does not represent the actual progress of activities.
4. When any change to the sequence of activities, the completion date for major portions of the work, or when changes occur which affect the critical path.
5. When Contract modification necessitates schedule revision, submit schedule analysis of change order work with cost proposal.

B. Create a separate submittal for Schedule Revisions.
   1. Comply with schedule updates as specified in this Section.
   2. Do not submit with Schedule Updates.

C. Schedule Revisions will not be reflected in the schedule until after the revision is accepted by the Owner.
   1. This includes Schedule Revisions submitted for the purpose of mitigating a Contractor-caused project delay (Recovery Schedule).

1.09 ADJUSTMENT OF CONTRACT TIMES

A. Contract Time will be adjusted only for causes specified in Contract Documents.
   1. Non-excusable delay:
      a. Non-excusable delays include actions or inactions of the Contractor, or events for which the Contractor has assumed contractual responsibility (including actions or inactions of subcontractors, suppliers, or material manufacturers at any tier) that would independently delay the completion of the Work beyond the current Contract completion date).
      b. No time extensions will be granted for non-excusable delays.
   2. Excusable delay:
      a. Events which are unforeseeable, outside the control of, and without the fault or negligence of either the Owner or the Contractor (or any party for whom either is responsible), which would independently delay the completion of the Work beyond the current Contract completion date.
      b. The Contractor is entitled to a time extension only.
      c. No other damages will be approved.
   3. Compensable delay:
      a. Actions or inactions of the Owner, or events for which the Owner has assumed contractual responsibility, which would independently delay the completion of the Work beyond the current Contract completion date.
      b. The Contractor is entitled to a time extension and delay damages.
   4. Concurrent delay:
      a. Concurrent delay is any combination of the above 3 types of delay occurring on the same calendar date.
      b. Exception to concurrent delay: Cases where the combination consists of 2 or more instances of the same type of delay occurring on the same calendar date. When one cause of delay is Owner-caused or caused by an event which is beyond the control and without the fault or negligence of either the Owner or the Contractor and the other Contractor-caused, the Contractor is entitled only to a time extension and no delay damages.

B. If the Contractor believes that the Owner has impacted its work, such that the project completion date will be delayed, the Contractor must submit proof demonstrating the delay to the critical path.
   1. This proof, in the form of a Time Impact Analysis, may entitle the Contractor to an adjustment of Contract Time.

C. Time Impact Analysis:
    1. Use the accepted schedule update that is current relative to the time frame of the delay event (change order, third party delay, or other Owner-caused delay). Represent the delay event in the schedule by:
        a. Inserting new activities associated with the delay event into the schedule.
        b. Revising activity logic.
        c. Revising activity durations.
    2. If the project schedule's critical path and completion date are impacted as a result of adding this delay event to the schedule, a time extension equal to the magnitude of the impact may be warranted.
    3. The Time Impact Analysis submittal must include the following information:
        a. A fragment of the portion of the schedule affected by the delay event.
        b. A narrative explanation of the delay issue and how it impacted the schedule.
        c. A schedule file used to perform the Time Impact Analysis.

D. When a delay to the project as a whole can be avoided by revising preferential sequencing or logic, and the Contractor chooses not to implement the revisions, the Contractor will be entitled to a time extension and no compensation for extended overhead.

E. Indicate clearly that the Contractor has used, in full, all project float available for the work involved in the request, including any float that may exist between the Contractor's planned completion date and the Contract completion date.
    1. Utilize the latest version of the Schedule Update accepted at the time of the alleged delay, and all other relevant information, to determine the adjustment of the Contract Time.

F. Adjustment of the Contract Times will be granted only when the Contract Float has been fully utilized and only when the revised date of completion of the Work has been pushed beyond the Contract completion date.
    1. Adjustment of the Contract Times will be made only for the number of days that the planned completion of the work has been extended.

G. Actual delays in activities which do not affect the critical path work or which do not move the Contractor's planned completion date beyond the Contract completion date will not be the basis for an adjustment to the Contract Time.

H. If completion of the project occurs within the specified Contract Time, the Contractor is not entitled to job-site or home office overhead beyond the Contractor's originally planned occupancy of the site.

I. Notify Engineer of a request for Contract Time adjustment.
    1. Submit request as specified in the Contract Documents.
    2. In cases where the Contractor does not submit a request for Contract Time adjustment for a specific change order, delay, or Contractor request within the specified period of time, then it is mutually agreed that the particular change order, delay, or Contractor request has no time impact on the Contract completion date and no time extension is required.

J. The Engineer will, within 30 calendar days after receipt of a Contract Time adjustment, request any supporting evidence, review the facts, and advise the Contractor in writing.
   1. Include the new Progress Schedule data, if accepted by the Owner, in the next monthly Schedule Update.
   2. When the Owner has not yet made a final determination as to the adjustment of the Contract Time, and the parties are unable to agree as to the amount of the adjustment to be reflected in the Progress Schedule, reflect that amount of time adjustment in the Progress Schedule as the Engineer may accept as appropriate for such interim purpose.
   3. It is understood and agreed that any such interim acceptance by the Engineer shall not be binding and shall be made only for the purpose of continuing to schedule the Work, until such time as a final determination as to any adjustment of the Contract Time acceptable to the Engineer has been made.
   4. Revise the Progress Schedule prepared thereafter in accordance with the final decision.

1.10 SCHEDULE PREPARATION

A. Preparation and submittal of Progress Schedule represents Contractor's intention to execute the Work within specified time and constraints.
   1. Failure to conform to requirement may result in termination for cause.

B. Contractor's bid covers all costs associated with the execution of the Work in accordance with the Progress Schedule.

C. During preparation of the preliminary Progress Schedule, Engineer will facilitate Contractor's efforts by being available to answer questions regarding sequencing issues, scheduling constraints, interface points, and dependency relationships.

D. Prepare schedule utilizing Precedence Diagramming Method (PDM).

E. Prepare schedule utilizing activity durations in terms of working days.
   1. Do not exceed 15 working day duration on activities except concrete curing, submittal review, and equipment fabrication and deliveries.
   2. Where duration of continuous work exceeds 15 working days, subdivide activities by location, stationing, or other sub-element of the Work.
   3. Coordinate holidays to be observed with the Owner and incorporate them into the schedule as non-working days.

F. Failure to include an activity required for execution of the Work does not excuse Contractor from completing the Work and portions thereof within specified times and at price specified in Contract.
   1. Contract requirements are not waived by failure of Contractor to include required schedule constraints, sequences, or milestones in schedule.
   2. Contract requirements are not waived by Owner’s acceptance of the schedule. In event of conflict between accepted schedule and Contract requirements, terms of Contract govern at all times, unless requirements are waived in writing by the Owner.

G. Reference schedule to working days with beginning of Contract Time as Day "1".

H. Baseline Schedule and Project Completion:
   1. Should Contractor submit a Baseline Schedule showing project completion more than 20 working days prior to Contract completion date, Owner may issue Change Order, at no cost to Owner, revising time of performance of Work and Contract completion date to match Contractor's schedule completion date.
   2. Adjust accordingly any Contract milestone dates.

I. Imposed dates, hidden logic prohibited: Do not use imposed dates or hidden logic in preparation of schedule.

J. Interim milestone dates, operational constraints:
   1. In event there are interim milestone dates and/or operational constraints set forth in Contract, show them on schedule.
   2. Do not use Zero Total Float constraint or Mandatory Finish Date on such Contract requirements.

K. Contract float is for the mutual benefit of both Owner and Contractor.
   1. Changes to the project that can be accomplished within this available period of float may be made by Owner without extending the Contract Time, by utilizing float.
   2. Time extensions will not be granted nor delay damages owed until Work extends beyond currently accepted Contract completion date.
   3. Likewise, Contractor may utilize float to offset delays other than delays caused by Owner.
   4. Mutual use of float can continue until all available float shown by schedule has been utilized by either Owner or Contractor, or both. At that time, extensions of the Contract Time will be granted by Owner for valid Owner-caused or third party-caused delays which affect the planned completion date and which have been properly documented and demonstrated by Contractor.
   5. Non-sequestering of float: Pursuant to float sharing requirements of Contract, schedule submittals can be rejected for, use of float suppression techniques such as preferential sequencing or logic, special lead or lag logic restraints, extended activity durations or imposed dates.

L. Resource loading and leveling: Input labor and equipment data on each schedule activity.
   1. Manpower data consist of the man-hours estimated to perform each task, categorized by trade.
   2. Equipment data consist of equipment hours estimated to perform each task, categorized by piece of equipment. Optimize and level manpower and equipment requirements.
   3. Resource leveling reflect a reasonable plan for accomplishing Work.
   4. Individual activities may be sequenced within limits of available float.
   5. Keep to a minimum critical or near critical paths resulting from use of labor or equipment restraints.
   6. Near critical path identified as path with 15 or less working days of float.

M. Schedule logic:
   1. Assembled to show order in which Contractor proposes to carry out Work, indicate restrictions of access, availability of Work areas, and availability and use of manpower, materials, and equipment.
   2. Form basis for assembly of schedule logic on the following criteria:
      a. Which activities must be completed before subsequent activities can be started?
      b. Which activities can be performed concurrently?
      c. Which activities must be started immediately following completed activities?
      d. What major facility, equipment, or manpower restrictions are required for sequencing these activities?

N. Major subcontractor, parallel prime contractor sign off:
   1. Provide written confirmation of concurrence from all major subcontractors and independent prime contractors on site with all schedule submittals.
   2. Term “major subcontractor” as used in this Section means any subcontractor, at any tier, with a subcontract worth 5 percent or more of the total cost of the Work.

O. Schedule windows for Owner-furnished, Contractor-installed equipment or materials:
   1. Immediately after Award of Contract, obtain from Engineer anticipated delivery dates of Owner furnished equipment or materials.
   2. Show these dates in the schedule in same manner indicated by Engineer.

P. Commissioning schedule:
   1. Commissioning activities and milestones shall be an integral part of the overall project schedule.
   2. Commissioning activities and milestones shall be extracted from the main project schedule to provide a separate commissioning schedule that is submitted each time the project schedule is submitted.

Q. Cost loading: All schedules:
   1. Only on-site construction activities.
   2. The sum total of all cost loaded activities equal to the current value of the Contract, including change orders, at all times.
   3. Payment for mobilization or payment for materials or equipment delivered to the site, not yet incorporated into the Work,
   4. Owner acceptance of the Baseline Schedule creates the Schedule of Values required as specified in Section 01292 - Schedule of Values
   5. Provide updated Schedule of Values as the monthly Payment Application as specified in Section 01294 - Applications for Payment.
   6. Payments will not be made until updated Schedule of Values is accepted.

1.11 NETWORK DETAILS AND GRAPHICAL OUTPUT

A. Produce a clear, legible, and accurate calendar based, time scaled, and graphical network diagram.
   1. Group activities related to the same physical areas of the Work. Produce the network diagram based upon the early start of all activities.

B. Include for each activity, the description, activity number, estimated duration in working days, total float, and all activity relationship lines.

C. Illustrate order and interdependence of activities and sequence in which Work is planned to be accomplished.
   1. Incorporate the basic concept of the precedence diagram network method to show how the start of 1 activity is dependent upon the start or completion of preceding activities and its completion restricts the start of following activities.

D. Indicate the critical path for the project.

E. Delineate the specified contract duration and identify the planned completion of the Work as a milestone.
   1. Show the time period between the planned and Contract completion dates, if any, as an activity identified as project float unless a Change Order is issued to officially change the Contract completion date.

F. Identify system shutdown dates, system tie-in dates, specified interim completion or milestone dates and contract completion date as milestones.

G. Include, in addition to construction activities:
   1. Submission dates and review periods for major equipment submittals, shoring submittals, and indicator pile program:
      a. Shoring reviews: Allow 4-week review period for each shoring submittal.
      b. Pile indicator program: Allow 3-week review period for analysis of program.
   2. Any activity by the Owner or the Engineer that may affect progress or required completion dates.
   3. Equipment and long-lead material deliveries over 8 weeks.
   4. Approvals required by regulatory agencies or other third parties.

H. Produce network diagram on 22-inch by 34-inch sheets with grid coordinate system on the border of all sheets utilizing alpha and numeric designations.

I. Identify the execution of the following:
   1. Bid items as indicated in Section 01220 - Measurement and Payment.

1.12 WEATHER DAY ALLOWANCE

A. Definition:
   1. Weather conditions that prevent or inhibit the Contractor’s performance of the Work and affect the Critical Path indicated on the Schedule shall be referred to as a Weather Day.
   2. A Weather Day is defined as the Contractor being unable to perform at least 4 hours of work on the Critical Path.

B. Allowance:
   1. Include as a separate identifiable activity on the critical path, an activity labeled "Weather Days Allowance".

C. Actual weather day:
   1. Insert a weather delay activity in critical path to reflect actual weather day occurrences when weather days are experienced and accepted by Engineer.
   2. Reduce duration of Weather Days Allowance activity as weather delays are experienced and inserted into the Schedule. Remaining weather days in Weather Day Allowance at completion of project is considered float.
   3. The Contractor shall provide a written notice to the Engineer of the occurrence of a weather day within 2 days after the onset of such weather and shall describe in reasonable detail the type of weather encountered and the Work interfered with or interrupted.
      a. A schedule update will not suffice as a written notice.
      b. The Engineer will determine if the weather day constitutes a use of a portion of the Weather Day Allowance.
      c. After use of all the Weather Day Allowance, the Engineer will determine if the Contractor is entitled to an extension of the Contract Time due to weather conditions.
      d. Weather days are considered excusable delay as defined in this Section.

1.13 ALLOWANCE FOR OWNER-CAUSED DELAY

A. Allowance:
   1. Include as a separate identifiable activity on the critical path, an activity labeled "Allowance for Owner-Caused Delay."
   2. Insert this activity at the end of the schedule, following the Project Completion Milestone.
   3. Duration of this activity is specified in Bid Form.
      a. The duration of this Owner-Caused Delay Allowance is in addition to the contractual time frame.

B. Actual delay:
   1. Insert an activity in critical path to reflect actual Owner-caused delay occurrences when Owner-caused delay days are experienced and accepted by Engineer.
      a. Identify this activity as an Owner-caused delay.
   2. Reduce duration of Owner-Caused Delay Allowance activity as Owner-caused delays are experienced and inserted into the schedule. Remaining days in Owner-Caused Delay Allowance at completion of project is considered float.

1.14 PRELIMINARY SCHEDULE AND PRELIMINARY SCHEDULE OF VALUES

A. Due date:
   1. Submit proposed preliminary schedule and Preliminary Schedule of Values within 14 calendar days after Notice to Proceed.
   2. Meet with Engineer within 7 calendar days after receipt of Preliminary Schedule and Preliminary Schedule of Values to review and make necessary adjustments.
   3. Submit revised preliminary schedule and Preliminary Schedule of Values within 5 calendar days after meeting.

4. Update Preliminary Schedule and Preliminary Schedule of Values monthly during first 90 calendar days after Notice to Proceed.
    a. Use Preliminary Schedule and Preliminary Schedule of Values as the payment application as specified in Section 01294 - Applications for Payment.

B. Format:
    1. Schedule of manpower and costs for all activities for first 90 calendar days of Work after receipt of Notice to Proceed.
        a. Provide realistic and level manpower and costs so as not to have unusual manpower requirements.
    2. Schedule of costs:
        a. Schedule of Values as specified in Section 01292 - Schedule of Values for first 90 calendar days of Work.
        b. Submittal and acceptance of Preliminary Schedule is condition precedent to making of progress payments as specified in Section 01294 - Applications for Payment and payments for mobilization costs otherwise provided for in the Contract.
        c. Proceed with pay item Work after Preliminary Schedule and schedule of costs have been accepted by Owner.

C. Incorporate unchanged, the accepted Preliminary Schedule as first 90 calendar days of activity in Contractor's Baseline Schedule.

1.15 SCHEDULE OF SUBMITTALS

A. Schedule of Submittals shall include submittals required in the Contract Documents but not limited to test plans, training plans, test procedures, operation and maintenance manuals, shop drawings, samples, record documents, and specifically required certificates, warranties, and service agreements.
    1. Data for "Or Equals" or substitutions shall be submitted with the Schedule of Submittals.

B. Preliminary Schedule of Submittals:
    1. Due date: After Preliminary Schedule has been submitted and accepted by Owner.
    2. Format:
        a. Include submittals anticipated in the first 90 calendar days after award of contract using early start dates.
        b. Indicate week and month anticipated for submittal to Engineer.
        c. Indicate "Priority" submittals where review time can impact Contractor's schedule.
            1) "Priority" indication will not alter review times specified in Section 01330 - Submittal Procedures.
            2) Engineer will endeavor to provide early review of "Priority" submittals where possible.
        d. List of "Or Equals" or substitutions.
    3. Submittal of Preliminary Schedule of Submittals shall be a condition precedent to Owner making progress payments during the first 90 calendar days after award of contract.

C. Final Schedule of Submittals:
   1. Due date: 30 days after Baseline Schedule has been submitted and accepted by Owner.
   2. Format:
      a. Include submittals using early start dates.
      b. Include all submittals, including those required in the Preliminary Schedule of Submittals.
      c. Indicate week and month anticipated for submittal to Engineer.
      d. Indicate “Priority” submittals where review time can impact Contractor’s schedule.
         1) “Priority” indication will not alter review times specified in Section 01330 - Submittal Procedures.
         2) Engineer will endeavor to provide early review of “Priority” submittals where possible.
      e. Data for “Or Equals” or substitutions.
   3. Submittal of Final Schedule of Submittals shall be a condition precedent to Owner making progress payments after the first 90 calendar days after Notice to Proceed.

D. Provide updated Schedule of Submittals with updated schedules if schedule revisions change listing and timing of submittals.

1.16 BASELINE SCHEDULE AND BASELINE SCHEDULE OF VALUES

A. Due date: No more than 45 calendar days after Notice to Proceed.

B. Format:
   1. Schedule: Show sequence and interdependence of all activities required for complete performance of all Work, beginning with date of Notice to Proceed and concluding with date of final completion of Contract.
   2. Schedule of Values: As specified in Section 01292 - Schedule of Values.

C. Acceptance of the Baseline Schedule and Baseline Schedule of Values by the Owner is a condition precedent to making payments as specified in Section 01294 - Applications for Payment after the first 90 calendar days after Notice to Proceed.

1.17 SUMMARY SCHEDULE

A. Due date: At weekly progress meetings and after each Schedule Update or Schedule Revision.

B. Format:
   1. Consolidate groups of activities associated with Major Items of Work shown on Baseline Schedule.
   2. intended to give an overall indication of the project schedule without a large amount of detail.

1.18 COST FLOW SUMMARY

A. Due date: After Baseline Schedule has been submitted and accepted by the Owner, submit on a monthly basis as specified in Section 01294 - Applications for Payment.

B. Format:
   1. Tabular and graphic report showing anticipated earnings each month of the Contract period.
   2. Base tabulation on the summation of the cost-loaded activities each month.
   3. Show planned amounts.
   4. Show actual earned amounts and anticipated remaining earnings.
   5. Spreadsheet format of all schedule activities showing cost and percentage completion during the current month for which payment is sought.

1.19 PROGRESS SCHEDULE AND UPDATED SCHEDULE OF VALUES

A. Due date: Submit on a monthly basis as specified in Section 01294 - Applications for Payment.

B. Format: Schedule of Values: As specified in Section 01292 - Schedule of Values.

1.20 WEEKLY SCHEDULE

A. Due date: At every weekly progress meeting.

B. Format:
   1. Contractor and Engineer must agree on the format.
   2. 6-Week Schedule showing the activities completed during the previous week and the Contractor’s schedule of activities for following 5 weeks.
   3. Use the logic and conform to the status of the current progress schedule when producing a Weekly Schedule in CPM schedule or a bar chart format.
      a. In the event that the Weekly Schedule no longer conforms to the current schedule, Contractor may be required to revise the schedule as specified in this Section.
   4. The activity designations used in the Weekly Schedule must be consistent with those used in the Baseline Schedule and the monthly Schedule Updates.

1.21 MANPOWER SCHEDULE

A. Due date: With progress payments after Baseline Schedule has been submitted and accepted by Owner.

B. Format:
   1. Schedule histogram depicting total craft manpower and craft manpower for Contractor’s own labor forces and those of each subcontractor.
   2. Submit electronically in Excel format, with 1 paper copy.

C. Progress payments after the first 90 calendar days after Notice to Proceed will not be made until manpower schedule is provided.

1.22 EQUIPMENT SCHEDULE

A. Due date: With any progress payment after Baseline Schedule has been submitted and accepted by Owner if it includes payment for equipment.

B. Format:
   1. Tabular report listing each major piece of construction equipment to be used in performing the Work.
   2. Include major equipment for Contractor and each subcontractor.
   3. Submit electronically in Excel format with 1 paper copy.

C. Progress payments after the first 90 calendar days after Notice to Proceed will not be made until equipment schedule is provided.

1.23 COMMISSIONING SCHEDULE

A. Proposed Commissioning Schedule:
   1. Schedule requirements: As specified in Section 01756 - Commissioning.
   2. Submittal due date: Within 120 days after Notice to Proceed.
   3. Engineer response due within 20 calendar days of receipt.
   4. Contractor responsible for updating schedule and resubmitting within 10 calendar days of receipt of Engineer and Owner comments.

B. Construction Schedule can include the Commissioning Schedule after Engineer acceptance of the Proposed Commissioning Schedule.
   1. Capable of extracting a stand-alone Commissioning Schedule.
   2. Capable of extracting a stand-alone Owner Training Schedule.

C. Monthly update requirements:
   1. Highlight percentages of completion, actual start and finish dates, and remaining durations, as applicable.
   2. Include activities not previously included in the previously accepted detail work plan Commissioning Schedule.
   3. Change Order required for any change to contractual dates.
   4. Reviews of these submittals by Engineer will not be construed to constitute acceptance within the time frames, durations, or sequence of work for each added activity.

1.24 FINAL SCHEDULE

A. The final Schedule Update becomes the As-Built Schedule.
   1. The As-Built Schedule reflects the exact manner in which the project was constructed by reflecting actual start and completion dates for all activities accomplished on the project.
   2. Contractor’s Project Manager and scheduler sign and certify the As-Built Schedule as being an accurate record of the way the project was actually constructed.

B. Retainage will not be released until final Schedule Update is provided.

PART 2 PRODUCTS (NOT USED)

PART 3 EXECUTION (NOT USED)

END OF SECTION

SECTION 01322

WEB BASED CONSTRUCTION DOCUMENT MANAGEMENT

PART 1 GENERAL

1.01 SUMMARY

A. Section includes:
   1. Requirements for web-based construction document management.

1.02 REQUIREMENTS

A. Owner, Engineer, Construction Manager, and Contractor shall utilize Autodesk Build web-based construction management software for submission of data and documents.
   1. Web based construction management software is available to all Contractor's personnel, subcontractor personnel, suppliers, consultants, Owner, Construction Manager, and Engineer at no cost.
   2. The joint use of this system is to facilitate electronic exchange of information, automation of key processes, and overall management of Contract Documentation.
   3. Web based construction management software shall be the primary means of project information submission and management.

1.03 USER ACCESS LIMITATIONS

A. Provide a list of Contractor's key web based construction management software personnel for the Engineer's acceptance.

B. The Engineer reserves the right to perform a security check on all potential users.
   1. The Contractor will be allowed to add additional personnel and subcontractors to the web-based construction management software.
   2. Subcontractors and suppliers will be given access to web-based construction management software by and through the Contractor.
   3. Contractor is responsible for adding and removing users from the system after the initial setup by the Engineer.

C. The Engineer will grant initial access to the web-based construction management software by creating user profiles to accepted Contractor personnel.
   1. User profiles will define levels of access into the system; determine assigned function based authorizations and user privileges.

1.04 JOINT OWNERSHIP OF DATA

A. Data entered in a collaborative mode (entered with the intent to share as determined by permissions and workflows within the web-based construction management software system) by Engineer and Contractor will be jointly owned.

1.05 AUTOMATED SYSTEM NOTIFICATION AND AUDIT LOG TRACKING

A. Review comments made (or lack thereof) by Owner on Contractor submitted documentation shall not relieve Contractor from compliance with requirements of the Contract Documents.

B. Contractor is responsible for managing, tracking, and documenting the Work to comply with the requirements of the Contract Documents.

C. Owner’s acceptance via automated system notifications or audit logs extends only to the face value of the submitted documentation and does not constitute validation of the Contractor's submitted information.

1.06 COMPUTER REQUIREMENTS

A. Contractor shall use computer hardware and software that meets the requirements of the web-based construction management software system as recommended by the web-based construction management software to access and utilize the web-based construction management software.

B. As recommendations are modified by the web-based construction management software, Contractor will upgrade their system(s) to meet or exceed the recommendations.
   1. Upgrading of Contractor's computer systems will not be justification for a cost or time modification to the Contract.

C. Contractor shall ensure that connectivity to the web-based construction management software system is accomplished through DSL, cable, T-1, or wireless communications systems.
   1. The minimum bandwidth requirements for using the system is 128 kb/s. It is recommended a faster connection be used when uploading pictures and files into the system.

D. Web-based construction management software supports the current and prior 2 major versions of Chrome, Mozilla's Firefox, Microsoft’s Internet Explorer, and Apple’s Safari on a rolling basis.
   1. Each time a new version of one of these browsers is released the web-based construction management software will begin supporting the update and stop supporting the fourth-oldest version.

1.07 CONTRACTOR RESPONSIBILITY

A. Contractor shall be responsible for the validity of their information placed in the web-based construction management software and for the abilities of their personnel.

B. Entry of information exchanged and transferred between the Contractor and its subcontractors and suppliers on the web-based construction management software shall be the responsibility of the Contractor.

C. Accepted users shall be knowledgeable in the use of computers, including Internet Browsers, email programs, cad drawing applications, and Adobe Portable Document Format (PDF) document distribution program.

D. Contractor shall utilize the existing forms in the web-based construction management software to the maximum extent possible. If a form does not exist in the web-based construction management software the Contractor must include a form of their own or provided by Engineer as an attachment to a submittal.

E. Adobe PDF documents will be created through electronic conversion rather than optically scanned whenever possible. Contractor is responsible for the training of their personnel in the use of the web-based construction management software (outside what is provided by Owner) and the other programs indicated above as needed.

1.08 TRAINING

A. The Owner has arranged and paid for web-based training on using web-based construction management software for the Contractor.

B. Contractor shall arrange and pay for the facilities and hardware/software required to facilitate Contractor's training.

PART 2 PRODUCTS

2.01 DESCRIPTION

A. Web-based construction management software provided by Autodesk Build.

PART 3 EXECUTION

3.01 WEB-BASED CONSTRUCTION MANAGEMENT SOFTWARE UTILIZATION

A. Web-based construction management software shall be utilized in connection with all document and information management required by these Contract Documents.

3.02 SUBMITTALS

A. Use the web-based construction management software feature for Master Submittals List.
   1. Contractor shall select from the predefined submittals list.

B. Content: As specified in Section 01330 - Submittal Procedures.

C. Format: As specified in Section 01330 - Submittal Procedures.

D. Submit Portable Document Format (PDF) documents to the web-based construction management software submittal work flow process and forms.
   1. Consolidate electronic format submittals with multiples pages into a single file.

E. Hardcopy submittals:
   1. Contractor shall provide 3 hard copies of submittals within 14 days of the Submittal being closed.
   2. Hardcopy requirements as specified in Section 01330 - Submittal Procedures.

F. Samples:
   1. Contractor shall enter submittal data information into the web-based construction management software.
   2. Attach a copy of the submittal form(s) to the sample.

G. Record And Closeout Submittals:
   1. Operation and maintenance data as specified in Section 01782 - Operation and Maintenance Manuals.
   2. Extra materials, spare parts, etc.

3.03 REQUESTS FOR INFORMATION/INTERPRETATION (RFI)

A. Use web-based construction management software for RFIs as specified in Section 01260 - Contract Modification Procedures.

3.04 OFFICIAL CORRESPONDENCE

A. Use web-based construction management software for memos, notices, change proposals, or any official correspondence.

3.05 INSPECTION REQUESTS

A. Use web-based construction management software to request inspection for a portion of Work that is ready for inspection and prior to covering up the Work.

3.06 FINANCIAL SUBMITTALS

A. Use web-based construction management software for financial submittals as specified in Section 01330 - Submittal Procedures.

3.07 OTHER

A. Use web-based construction management software for daily reports, meeting agendas and minutes, and other construction documents.

END OF SECTION

SECTION 01330

SUBMITTAL PROCEDURES

PART 1 GENERAL

1.01 SUMMARY

A. Section includes: Requirements and procedures for submittals to confirm compliance with Contract Documents.

1.02 GENERAL INSTRUCTIONS

A. Contractor is responsible to determine and verify field measurements, field construction criteria, materials, dimensions, catalog numbers and similar data, and check and coordinate each item with other applicable approved shop drawings and Contract Document requirements.

B. Provide submittals:
   1. That are specified or reasonably required for construction, operation, and maintenance of the Work.
   2. That demonstrate compliance with the Contract Documents.

C. Where multiple submittals are required, provide a separate submittal for each specification section.
   1. In order to expedite construction, the Contractor may make more than 1 submittal per specification section, but a single submittal may not cover more than 1 specification section:
      a. The only exception to this requirement is when 1 specification section covers the requirements for a component of equipment specified in another section.
      b. For example, circuit breakers are a component of switchgear. The switchgear submittal must also contain data for the associated circuit breakers, even though they are covered in a different specification section.

D. Prepare submittals in the English language. Do not include information in other languages.

E. Present measurements in customary American units (feet, inches, pounds, etc.).

F. Must be clear and legible, and of sufficient size for presentation of information.

G. Page size other than drawings:
   1. Minimum page size will be 8 1/2 inches by 11 inches:
   2. Maximum page size will be 11 inches by 17 inches.

H. Drawing sheet size:
   1. Maximum sheets size: 22-inch by 34-inch.
      a. Minimum plan scale: 1/8-inch equals 1 foot-0 inches.
      b. Minimum font size: 1/8 inch minimum.
   2. 11-inch by 17-inch sheet:
      a. Minimum plan scale: 1/8-inch equals 1 foot-0 inches.
      b. Minimum font size: 1/8 inch minimum.

I. Show dimensions, construction details, wiring diagrams, controls, manufacturers, catalog numbers, and all other pertinent details.

J. Provide submittal information from only 1 manufacturer for a specified product. Submittals with multiple manufacturers for 1 product will be rejected without review.

1.03 SUBMITTAL ORGANIZATION

A. Organize submittals in exactly the same order as the items are referenced, listed, and/or organized in the specification section.

B. For submittals that cover multiple devices used in different areas under the same specification section, the submittal for the individual devices must list the area where the device is used.

C. Bookmarks:
   1. Bookmarks shall match the table of contents.
   2. Bookmark each section (tab) and heading.
   3. Drawings: Bookmark at a minimum, each discipline, area designation, or appropriate division.
   4. At file opening, display all levels of bookmarks as expanded.

D. Where applicable (i.e., except for drawings, figures, etc.) submittal content shall be electronically searchable utilizing the PDF file as submitted.

E. Thumbnails optimized for fast web viewing.

F. Sequentially number pages within the tabbed sections:
   1. Submittals that are not fully indexed and tabbed with sequentially numbered pages, or are otherwise unacceptable, will be returned without review.

G. Attachments:
   1. Specification section: Include with each submittal a copy of the relevant specification section.
      a. Indicate in the left margin, next to each pertinent paragraph, either compliance with a check (√) or deviation with a consecutive number (1, 2, 3).
      b. Provide a list of all numbered deviations with a clear explanation and reason for the deviation.
   2. Drawings: Include with each submittal a copy of the relevant Drawing, including relevant addendum updates.
      a. Indicate either compliance with a check (√) or deviation with a consecutive number (1, 2, 3).

b. Provide a list of all numbered deviations with a clear explanation and reason for the deviation.
c. Provide field dimensions and relationship to adjacent or critical features of the Work or materials.

H. Contractor: Prepare submittal information in sufficient detail to show compliance with specified requirements.
1. Determine and verify quantities, field dimensions, product dimensions, specified design and performance criteria, materials, catalog numbers, and similar data.
2. Coordinate submittal with other submittals and with the requirements of the Contract Documents.
3. Check, verify, and revise submittals as necessary to bring them into conformance with Contract Documents and actual field conditions.

I. Contractor: Prepare "Or Equal" submittal information.
1. Provide standard submittal requirements.
a. In addition, provide in sufficient detail to show reason for variance from specified product and impacts.
2. Provide reason the specified product is not being provided.
3. Explain the benefits to the Owner for accepting the "Or Equal".
4. Itemized comparison of the proposed "Or Equal" with product specified including a list of significant variations:
a. Design features.
b. Design dimensions.
c. Installation requirements.
d. Operations and maintenance requirements.
e. Availability of maintenance services and sources of replacement materials.
5. Reference projects where the product has been successfully used:
a. Name and address of project.
b. Year of installation.
c. Year placed in operation.
d. Name of product installed.
e. Point of contact: Name and phone number.
6. Define impacts:
a. Impacts to other contracts.
b. Impacts to other work or products.
7. Contractor represents the following:
a. Contractor bears the burden of proof of the equivalency of the proposed "Or Equal".
b. Proposed "Or Equal" is equal or superior to the specified product.
c. Contractor will provide the warranties or bonds that would be provided on the specified product on the proposed "Or Equal", unless Owner requires a Special Warranty.
d. Contractor will coordinate installation of accepted "Or Equal" into the Work and will be responsible for the costs to make changes as required to the Work.
e. Contractor waives rights to claim additional costs caused by proposed "Or Equal" which may subsequently become apparent.

J. Contractor: Prepare substitution submittal information.
    1. Provide standard submittal requirements.
        a. In addition, provide in sufficient detail to show reason for variance from specified product and impacts.
    2. Provide reason the specified product is not being provided.
    3. Explain the benefits to the Owner for accepting the substitution.
    4. Itemized comparison of the proposed substitution with product specified including a list of significant variations:
        a. Design features.
        b. Design dimensions.
        c. Installation requirements.
        d. Operations and maintenance requirements.
        e. Availability of maintenance services and sources of replacement materials.
    5. Reference projects where the product has been successfully used:
        a. Name and address of project.
        b. Year of installation.
        c. Year placed in operation.
        d. Name of product installed.
        e. Point of contact: Name and phone number.
    6. Define impacts:
        a. Impacts to Contract Price.
            1) Required license fees or royalties.
            2) Do not include costs under separate contracts.
            3) Do not include Engineer’s costs for redesign or revision of Contract Documents.
        b. Impacts to Contract Time.
        c. Impacts to Contract Scope.
        d. Impacts to other contracts.
        e. Impacts to other work or products.
    7. Contractor represents the following:
        a. Contractor shall pay associated costs for Engineer to evaluate the substitution.
        b. Contractor bears the burden of proof of the equivalency of the proposed substitution.
        c. Proposed substitution does not change the design intent and will have equal performance to the specified product.
        d. Proposed substitution is equal or superior to the specified product.
        e. Contractor will provide the warranties or bonds that would be provided on the specified product on the proposed substitution, unless Owner requires a Special Warranty.
        f. Contractor will coordinate installation of accepted substitution into the Work and will be responsible for the costs to make changes as required to the Work.
        g. Contractor waives rights to claim additional costs caused by proposed substitution which may subsequently become apparent.

1.04 SUBMITTAL IDENTIFICATION NUMBERING

A. Number each submittal using the format defined below:

	Spec Section Number	Dash	Initial Submittal - Sequential Number	Decimal Point	Subsequent Submittal Revisions Sequential Number
Example 1 Description	*Cast-In-Place Concrete*		*8th initial submittal*		
	03300	-	0008		
Example 2 Description	*Cast-In-Place Concrete*		*8th initial submittal*		*First revision to the 8th initial submittal*
	03300	-	0008	.	1

1.05 SUBMITTALS IN ELECTRONIC MEDIA FORMAT

A. General: Provide all information in PC-compatible format using Windows® operating system as utilized by the Owner and Engineer.

B. Text: Provide text documents and manufacturer's literature in Portable Document Format (PDF).

C. Graphics: Provide graphic submittals (drawings, diagrams, figures, etc.) utilizing Portable Document Format (PDF).

1.06 SUBMITTAL PROCEDURE

A. Engineer: Review submittal and provide response:
   1. Review description:
      a. Engineer will be entitled to rely upon the accuracy or completeness of designs, calculations, or certifications made by licensed professionals accompanying a particular submittal whether or not a stamp or seal is required by Contract Documents or Laws and Regulations.
      b. Engineer's review of submittals shall not release Contractor from Contractor's responsibility for performance of requirements of Contract Documents. Neither shall Engineer's review release Contractor from fulfilling purpose of installation nor from Contractor's liability to replace defective work.
      c. Engineer's review of shop drawings, samples, or test procedures will be only for conformance with design concepts and for compliance with information given in Contract Documents.
      d. Engineer's review does not extend to:
         1) Accuracy of dimensions, quantities, or performance of equipment and systems designed by Contractor.

2) Contractor's means, methods, techniques, sequences, or procedures except when specified, indicated on the Drawings, or required by Contract Documents.
3) Safety precautions or programs related to safety which shall remain the sole responsibility of the Contractor.

e. Engineer can Approve or Not Approve any exception at their sole discretion.

2. Review timeframe:
   a. Except as may be provided in technical specifications, a submittal will be returned within 30 days.
   b. When a submittal cannot be returned within the specified period, Engineer will, within a reasonable time after receipt of the submittal, give notice of the date by which that submittal will be returned.
   c. Engineer's acceptance of progress schedule containing submittal review times less than those specified or agreed to in writing by Engineer will not constitute Engineer's acceptance of review times.
   d. Critical submittals:
      1) Contractor will notify Engineer in writing that timely review of a submittal is critical to the progress of Work.
3. Schedule delays:
   a. No adjustment of Contract Times or Contract Price will be allowed due to Engineer's review of submittals, unless all of the following criteria are met:
      1) Engineer has failed to review and return first submission within the agreed upon time frame.
      2) Contractor demonstrates that delay in progress of Work is directly attributable to Engineer's failure to return submittal within time indicated and accepted by Engineer.
4. Review response will be returned to Contractor with one of the following dispositions:
   a. Approved:
      1) No Exceptions:
         a) There are no notations or comments on the submittal and the Contractor may release the equipment for production.
      2) Make Corrections Noted - See Comments:
         a) The Contractor may proceed with the Work, however, all notations and comments must be incorporated into the final product.
         b) Resubmittal not required.
      3) Make Corrections Noted - Confirm:
         a) The Contractor may proceed with the Work, however, all notations and comments must be incorporated into the final product.
         b) Submit confirmation specifically addressing each notation or comment to the Engineer within 15 calendar days of the date of the Engineer's transmittal requiring the confirmation.

b. Not approved:
    1) Correct and resubmit:
        a) Contractor may not proceed with the Work described in the submittal.
        b) Contractor assumes responsibility for proceeding without approval.
        c) Resubmittal of complete submittal package is required within 30 calendar days of the date of the Engineer's submittal review response.
    2) Rejected - See Remarks:
        a) Contractor may not proceed with the Work described in the submittal.
        b) The submittal does not meet the intent of the Contract Documents. Resubmittal of complete submittal package is required with materials, equipment, methods, etc. that meet the requirements of the Contract Documents.
c. Receipt acknowledged - Filed for record:
    1) This is used in acknowledging receipt of informational submittals that address means and methods of construction such as schedules and work plans, conformance test reports, health and safety plans, etc.
d. Receipt acknowledged with comments - Resubmit:
    1) This is used in acknowledging receipt of informational submittals that address means and methods of construction such as schedules and work plans, conformance test reports, health and safety plans, etc. Feedback regarding missing information, conflicting information, or other information that makes it incomplete can be made with comments.

B. Contractor: Prepare resubmittal, if applicable:
    1. Clearly identify each correction or change made.
    2. Include a response in writing to each of the Engineer's comments or questions for submittal packages that are resubmitted in the order that the comments or questions were presented from the 1st and subsequent submittals and numbered consistent with the Engineer's numbering.
        a. Acceptable responses to Engineer's comments are listed below:
            1) "Incorporated" Engineer's comment or change is accepted and appropriate changes are made.
            2) "Response" Engineer's comment not incorporated. Explain why comment is not accepted or requested change is not made. Explain how requirement will be satisfied in lieu of comment or change requested by Engineer.
        b. Reviews and resubmittals:
            1) Contractor shall provide resubmittals which include responses to all submittal review comments separately and at a level of detail commensurate with each comment.
            2) Contractor responses shall indicate how the Contractor resolved the issue pertaining to each review comment
                a) Responses such as "acknowledged" or "noted" are not acceptable.
            3) Resubmittals which do not comply with this requirement may be rejected and returned without review.

4) Contractor shall be allowed no extensions of any kind to any part of their contract due to the rejection of non-compliant submittals.
5) Submittal review comments not addressed by the Contractor in resubmittals shall continue to apply whether restated or not in subsequent reviews until adequately addressed by the Contractor to the satisfaction of the reviewing and approving authority.

c. Any resubmittal that does not contain responses to the Engineer's previous comments shall be returned for Revision and Resubmittal. No further review by the Engineer will be performed until a response for previous comments has been received.

3. Resubmittal timeframe:
   a. Contractor shall provide resubmittal within 15 days.
   b. When a resubmittal cannot be returned within the specified period, Contractor shall notify Engineer in writing.
4. Review costs:
   a. Costs incurred by Owner as a result of additional reviews of a particular submittal after the second time it has been reviewed shall be borne by Contractor.
   b. Reimbursement to Owner will be made by deducting such costs from Contractor's subsequent progress payments.

1.07 PRODUCT DATA

A. Edit submittals so that the submittal specifically applies to only the product furnished.

B. Neatly cross out all extraneous text, options, models, etc. that do not apply to the product being furnished, so that the information remaining is only applicable to the product being furnished.

1.08 SHOP DRAWINGS

A. Contractor to field verify elevation, coordinates, and pipe material for pipe tie-in to pipeline or structure prior to the preparation of shop drawings.

B. Indicate project designated equipment tag numbers for submittal of devices, equipment, and assemblies.

1.09 SAMPLES

A. Details:
   1. Submit labeled samples.
   2. Samples will not be returned.
   3. Provide number of sample submittals as below:
      a. Total: 3 minimum.
         1) Owner: 1.
         2) Engineer: 2.
         3) Contractor: None.

SECTION 01340

PHOTOGRAPHIC AND VIDEOGRAPHIC DOCUMENTATION

PART 1 GENERAL

1.01 SUMMARY

A. Section includes requirements for photographs and videos.

B. The purpose of the photographs and videos is to document the condition of the facilities prior to the Contractor beginning work at the Project site, the progress of the Work, and the Project site after Substantial Completion of the Work.

C. The scope of the photographic and videographic documentation shall be the sole responsibility of the Contractor but shall be acceptable to the Engineer.

1.02 SUBMITTALS

A. Photographer qualifications.

B. Pre-construction photographs and videos: Submit prior to beginning work at the Project site or prior to the Preconstruction Conference specified in Section 01312 - Project Meetings, whichever occurs earlier.

C. Construction photographs and videos: Submit with each application for payment.

D. Post-construction photographs and videos: Submit with project closeout documents as specified in Section 01770 - Closeout Procedures.

1.03 PHOTOGRAPHER

A. Photographer qualified and equipped to photograph either interior or exterior exposures, with lenses ranging from wide angle to telephoto.

B. Submit example work of previous photographs and video recording meeting the requirements of this Section.
   1. Provide to Engineer no later than the pre-construction conference.
   2. Provide photographs used for site examination.
   3. Provide video of site examination.
   4. Provide samples that used same camera and lighting equipment proposed for the Work.
   5. Engineer will review work examples to determine if the quality of the images is acceptable.
   6. Contractor is responsible for modifications to equipment and/or inspection procedures to achieve report material of acceptable quality.
   7. Do not commence Work prior to approval of the material by the Engineer.
   8. Once accepted, the standard report material shall serve as a standard for the remaining work.

1.04 KEY PLAN

A. Submit key plan of Project site with notation of vantage points marked for location and direction of each photograph.

B. Include the same label information as the corresponding set of photographs.

1.05 PHOTOGRAPHS

A. Provide prints of each photograph for each area of Work.

B. Provide a digital copy of each photograph for each area of Work.
   1. Monthly: Indexed digital flash drive.
   2. Project record documents:
      a. Catalog and index prints in chronological sequence.
      b. Include typed table of contents.

C. Provide flyover aerial digital photographs of each area of Work.
   1. Prior to first flight, meet with Owner and Engineer to define required photo views and Work areas to be photographed.
   2. Take 5 photos from each view.
   3. Views:
      a. Take photos at oblique angles from the north, south, east, and west directions.
      b. Take photos directly overhead.
   4. Some shots may cover the entire Project site and some may detail the areas under construction at the time of photography.
   5. Submit 5 proofs of each view within 7 calendar days of the date the photographs were taken.
      a. Engineer will select the preferred photograph from each view that will be printed.
   6. Frequency of flyover aerial digital photos: Quarterly.

1.06 PRE-CONSTRUCTION PHOTOGRAPHS AND VIDEOS

A. Provide photographs and video of the condition entire site including each area of Work prior to the start of Work.
   1. Areas to be photographed and videoed shall include the site of the Work and all existing facilities, either on or adjoining the Project site, including the interior of existing structures, that could be damaged as a result of the Contractor's Work.
   2. Include general condition, structures, vegetation, staging, storing, working, parking areas and excavation areas.

1.07 CONSTRUCTION PHOTOGRAPHS AND VIDEOS

A. Provide photographs and videos of construction in each area of Work throughout progress of Work including a key plan designating where each photograph was taken.

B. Take site and interior photographs and videos from differing directions of building demolition, pre-excavation, footing excavation, soil testing, utility crossings, installation of bypass piping, excavation of access pits, installation of lining system in pipes, rehabilitation of manholes, building modifications, utilities, electrical and instrumentation modifications, and other applicable activities indicating relative progress of the work.

C. Take photos a maximum of 7 calendar days prior to submittal.

1.08 POST-CONSTRUCTION PHOTOGRAPHS AND VIDEOS

A. Provide photographs of the entire site including each area of Work at the completion of Work.
   1. Include general condition, structures, vegetation, staging, storing, working, parking areas and excavation areas.
   2. Take photos and video from same points in same direction as pre-construction examination.

B. Submittal of photos and videos is a condition of final payment.

PART 2 PRODUCTS

2.01 MEDIA

A. Paper media:
   1. Commercial grade, glossy surface, acid-free photographic paper.
   2. Submit 3 prints of each photographic view within 7 days of taking photographs.
   3. Format:
      a. Ground photos: Color, matte finish, 8-1/2-inch by 11-inch size, mounted on soft card stock.
      b. Aerial photos: Color, matte finish, 11-inch by 17-inch size, mounted on soft card stock.
      c. Mount each print in a separate, archival type, non-glare, 3-hole punched protector.
   4. Identification: On photograph, provide the following information:
      a. Name of project.
      b. Date stamp: Unless otherwise indicated, date and time stamp each photograph as it is being taken so stamp is integral to photograph.
      c. Description of vantage point, indicating location and direction by compass point.
   5. Provide a suitably sized 3-ring binder for each set of prints.
      a. Furnish binders in sufficient quantities to hold entire set of prints taken for the duration of the Contract.
      b. Label binder spine and front with project name.

B. Digital media:
   1. Flash drive compatible with current Microsoft Windows.
   2. Provide photos as individual, indexed JPG files with the following characteristics:
      a. Compression shall be set to preserve quality over file size.

b. Highest resolution JPG images shall be submitted. Resizing to a smaller size when high resolution JPGs are available shall not be permitted.
c. JPG image resolution shall be 5 megapixels at 2,400 by 1,800 or higher.
d. Images shall have rectangular clean images. Artistic borders, beveling, drop shadows, etc., are not permitted.

3. Identification: On photograph, provide the following information:
   a. Name of project.
   b. Date stamp: Unless otherwise indicated, date and time stamp each photograph as it is being taken so stamp is integral to photograph.
   c. Description of vantage point, indicating location and direction by compass point.

C. Videos:
1. Video quality shall be 720p HD or greater in MPG, AVCHD, AVI, or MP4 format.
2. Digital color video format.
3. Provide audio portion of the composite video sufficiently free from electrical interference and background noise to provide complete intelligibility of oral report.
4. Identification: On each copy provide a label with the following information:
   a. Name of project.
   b. Date video was recorded.
5. Submit 1 copy of each video within 7 days of recording.
6. Display continuous running time.
7. At start of each video recording, record weather conditions from local newspaper or television and the actual temperature reading at Project site.

SECTION 01354

HAZARDOUS MATERIAL PROCEDURES

PART 1 GENERAL

1.01 SUMMARY

A. Section includes: Procedures required when encountering hazardous materials at the Work site.

1.02 REFERENCES

A. California Code of Regulations (CCR):
   1. Title 8 - Industrial Relations.
   2. Title 22 Division 4.5 - Environmental Health Standards for the Management of Hazardous Waste.

B. California Occupational Safety and Health Administration (Cal-OSHA).

C. Occupational Safety and Health Administration (OSHA).

D. United States Code of Federal Regulation (CFR):
   1. Title 29 - Labor:
      a. 1926.62 - Lead.
   2. Title 40 - Protection of Environment:
      a. 261 - Identification and Listing of Hazardous Waste.

1.03 SUBMITTALS

A. Submit laboratory reports, hazardous material removal plans, and certifications.

1.04 OPERATING DIGESTERS

A. Observe safety precautions in vicinity of operating digesters which contain digester gases, including methane, hydrogen sulfide, and carbon dioxide.

1.05 HAZARDOUS MATERIALS PROCEDURES

A. Hazardous materials are those defined by 40 CFR and State specific codes.

B. Forward to Engineer, copies of reports, permits, receipts, and other documentation related to remedial work.

C. Assume responsibility for worker health and safety, including health and safety of subcontractors and their workers.
   1. Instruct workers on recognition and reporting of materials that may be hazardous.

D. File requests for adjustments to Contract Times and Contract Price due to the finding of Hazardous Materials in the Work site in accordance with Contract Documents.
   1. Minimize delays by continuing performance of the Work in areas not affected by hazardous materials operations.

E. When hazardous materials have been found:
   1. Prepare and initiate implementation of plan of action.
   2. Notify immediately Owner, Engineer, and other affected persons.
   3. Notify such agencies as are required to be notified by laws and regulations with the times stipulated by such laws and regulations.
   4. Designate a Certified Industrial Hygienist to issue pertinent instructions and recommendations for protection of workers and other affected persons' health and safety.
   5. Identify and contact subcontractors and licensed personnel qualified to undertake storage, removal, transportation, disposal, and other remedial work required by, and in accordance with, laws and regulations.

SECTION 01357

DELEGATED DESIGN PROCEDURES

PART 1 GENERAL

1.01 SUMMARY

A. Section includes: Delegated Design Procedures.

1.02 GENERAL

A. Delegated Design - Professional design services assigned to the Contractor by express delegation in the Contract Documents. Work is “Delegated Design” where the Technical Sections require the Contractor to provide professional design services and to submit signed and sealed documents from a registered Professional Engineer.

B. Contractor’s Professional Engineer - The design professional retained by the Contractor to perform Delegated Design.

C. Owner may require Contractor to provide professional design services for a portion of the Work by express delegation in the Contract Documents.
   1. Requirements of Delegated Design component as specified in the technical section and as indicated on the Drawings.
   2. Such delegation will specify the performance and design criteria that such services must satisfy, and the Submittals that Contractor must furnish to Engineer with respect to the Delegated Design.

D. Contractor shall cause such Delegated Design services to be provided pursuant to the professional standard of care by a properly licensed design professional, whose signature and seal shall appear on drawings, calculations, specifications, certifications, and submittals prepared by such design professional.
   1. Contractor shall not be responsible for the adequacy of performance or design criteria specified by Owner or Engineer.
   2. Contractor is not required to provide professional services in violation of applicable Laws and Regulations.
   3. Such design professional shall issue certifications of design required by Laws and Regulations.
   4. If a Shop Drawing or other Submittal related to the Owner-delegated design is prepared by Contractor, a Subcontractor, or others for submittal to Engineer, then such Shop Drawing or other Submittal shall bear the written approval of Contractor’s design professional when submitted by Contractor to Engineer.

E. Owner and Engineer shall be entitled to rely upon the adequacy, accuracy, and completeness of the services, certifications, and approvals performed or provided by the design professionals retained or employed by Contractor under Delegated Design, subject to the professional standard of care and the performance and design criteria stated in the Contract Documents.

F. Engineer's review, approval, and other determinations regarding design drawings, calculations, specifications, certifications, and other Submittals furnished by Contractor pursuant to a Delegated Design will be only for the following limited purposes:
    1. Confirming that submittal is in conformance with the performance and design criteria specified in the Contract Documents.

1.03 CONTRACTOR'S PROFESSIONAL ENGINEER

A. Contractor or Subcontractor shall retain a licensed professional engineer to perform Delegated Design.

B. Qualifications:
    1. Holding a current license to perform the specified design in the same jurisdiction as the Project site.
    2. Experienced in designing similar systems of similar complexity.

C. Insurance:
    1. Provide Contractor's Professional Engineer's Professional Liability Insurance as specified Section 5 of the General Conditions.

D. Responsibilities:
    1. Review and design in accordance with system performance and design criteria stated in the Contract Documents.
        a. Prepare written requests for clarifications or interpretations of performance or design criteria for submittal to Engineer by Contractor.
    2. Sign and seal design reports, calculations, design drawings and specifications, and other design Submittals for the Delegated Design Work.
    3. Review and submit written approval of submittals related to the Delegated Design Work.
    4. Design modifications to the Delegated Design Work as required.
    5. Visit the Site, as required, to verify that installation of the Delegated Design Work is in conformance with the Delegated Design drawings and specifications.
    6. Submit through Contractor to Engineer written, signed, and sealed certification that the installed Delegated Design Work complies with Contractor's professional engineer's design.

1.04 SUBMITTALS

A. Prior to the start of Delegated Design:
    1. Contractor's Professional Engineer's qualifications:
        a. Experience for the Delegated Design.
        b. Evidence of professional engineering license.
    2. Contractor's Professional Engineer Professional Liability Insurance certificate.

B. Delegated Design:
    1. Product data:
        a. Details related to the Delegated Design as specified in technical sections to completely describe the system.

2. Design documents with signature and seal from the Contractor's Professional Engineer.
    a. Design documents include but are not limited to drawings, calculations, specifications, inspection reports, and certifications.
3. Lists and schedules:
    a. Prepare and submit lists or schedules of items where delegated design is required by the Contract Documents.
    b. Group items by location in the Work.
        1) When "Area Numbers" are indicated on the Contract Drawings, group lists in accordance with those "areas."
        2) For work without area numbers, group using logical divisions acceptable to Engineer.
        3) Group items within each "area" as follows:
            a) Systems.
            b) Components.
            c) Supports.
            d) Anchorage.
            e) Bracing.

C. Construction services:
1. Contractor's Professional Engineer's comments on submittals.
2. Other construction documents, as required.

1.05 ENGINEER RESPONSE TO DELEGATED DESIGN SUBMITTALS

A. The Engineer response will be either of the following:
1. Approved. Make Corrections Noted - See Comments:
    a. The Contractor may proceed with the Work, however, all notations and comments must be incorporated into the final product.
    b. The review was for the limited purpose of determining that the document was stamped by a Professional Engineer and that such design is generally consistent with and will not negatively affect the design concept presented in the Contract Documents.
2. Rejected - See Remarks:
    a. Contractor may not proceed with the Work described in the submittal.
    b. The submittal does not meet the intent of the Contract Documents.
    c. Resubmittal of complete submittal package is required with materials, equipment, methods, etc. that meet the requirements of the Contract Documents.

SECTION 01410

REGULATORY REQUIREMENTS

PART 1 GENERAL

1.01 SUMMARY

A. Section includes: Regulatory authorities and codes.

1.02 AUTHORITIES HAVING JURISDICTION (AHJ)

A. Also referred to as the permitting agency.

B. Building Department: City of Ukiah.

C. Fire Department: City of Ukiah.

D. California Department of Fish and Wildlife.

E. California Department of Transportation (Caltrans).

1.03 APPLICABLE CODES

A. Products in contact with drinking water
   1. Materials in contact with drinking waters: In accordance with NSF 61 and NSF 372.
      a. Certification by an independent ANSI accredited third party, including, but not limited to, NSF International, as being lead free.
   2. Materials in contact with drinking waters: In accordance with California Health and Safety Code, Section 116875.

B. California Code of Regulations (CCR), California Building Standards Code, CCR Title 24:
   1. Building code:
      a. California Building Code (CBC), Title 24, Part 2 – 2022.
   2. Electrical code:
      a. California Electrical Code (CEC), Title 24, Part 3 – 2022.
   3. Mechanical code:
      a. California Mechanical Code (CMC), Title 24, Part 4 – 2022.
   4. Plumbing code:
      a. California Plumbing Code (CPC), Title 24, Part 5 – 2022.
   5. Energy code:
      a. California Energy Code (CEC), Title 24, Part 6 – 2022.
   6. Historical building code:
      a. California Historical Building Code (CHBC), Title 24, Part 8 – 2019.
   7. Fire code:
      a. California Fire Code (CFC), Title 24, Part 9 – 2022.

8. Existing building code:
    a. California Existing Building Code (CEBC), Title 24, Part 10 – 2019.
9. Green building standards code:
    a. California Green Building Standards Code (CALGreen), Title 24, Part 11 – 2022.

SECTION 01439

MOCKUPS

PART 1 GENERAL

1.01 SUMMARY

A. Section includes: Mockups of specific assemblies to be installed on this Project.

1.02 VISUAL MOCKUPS

A. Definition:
   1. Visual mockup:
      a. Separate mockup construction incorporating elements specified in various Sections, intended to illustrate materials and workmanship in an assembly, and used for technical and aesthetic evaluation. Mockup shall not be a part of the finished construction. Mockup shall be accepted by Engineer prior to beginning this work on the building.
         1) Configuration and extent of mockup: As required to illustrate the design intent for Engineer's evaluation.
         2) Place mockup on-site in a location where it will not be disturbed or damaged during construction.

B. Maintain and protect Visual Mockups from damage during construction, and dispose of mockups when no longer required, as determined by Engineer.

1.03 BENCHMARK MOCKUPS

A. Definition:
   1. Benchmark mockup:
      a. In-place portions of assemblies to be repeated throughout the Work.
      b. Accepted benchmark mockups are intended to serve as a standard by which the work will be judged.
      c. Accepted benchmark mockups may be incorporated into the final construction.

B. Construct benchmark mockups to verify selections made under sample submittals, to demonstrate aesthetic effects, to set quality standards for materials and execution, and to set quality standards for fabrication and installation.

C. Acceptance of benchmark mockups incorporated in the Work does not constitute approval of deviations from the Contract Documents unless Engineer specifically approves such deviations in writing.

D. Protect benchmark mockup from damage and ensure it is not disturbed at time of Project Completion.

1.04 MOCKUP DESCRIPTION

A. General: Provide mockups as specified below:
   1. Mockup construction schedule: Indicate time required for mockup construction, Engineer's and Owner's review and acceptance, and removal/demolition work associated with mockups, in Construction Progress Schedule.

B. Building façade colored and textured concrete (visual mockup):
   1. Provide building façade mock-up involving the following Sections:
      a. Section 03300 - Cast-in-Place Concrete.
   2. Mockup shall consist of a 4-inch thick vertical concrete panel divided into three-36 inch by 36-inch sections.
      a. Each section shall have the texture imparted by specified formliner and be finished with specified concrete stain in color selected by Engineer.
      b. The stain shall be applied at a 1:1 dilution ratio at the first section, a 1:10 dilution ratio at the second section, and a 1:20 dilution ratio at the third section.

C. Structural Concrete F4 Finish and tie-hole repair (visual mockup):
   1. Provide concrete finish mock-up involving the following Sections:
      a. Section 03300 - Cast-in-Place Concrete.
      b. Section 03366 - Tooled Concrete Finishes.
   2. Mockup shall consist of a 4-inch thick vertical concrete panel divided into two-36 inch by 36-inch sections.
      a. One section shall demonstrate the F4 concrete. The section shall include 1 horizontal and 1 vertical form joint.
      b. The other section shall demonstrate the tie-hole repair. A minimum of 4 tie-holes shall be included.

PART 2 PRODUCTS

2.01 MATERIALS

A. Materials as specified in the following Sections:
   1. Section 03300 - Cast-in-Place Concrete.
   2. All other products and materials as required for a complete mockup.

PART 3 EXECUTION

3.01 MOCKUP MATERIALS

A. Contractor is cautioned to not purchase all materials for the project that are involved in any one mockup until after the mockup has been reviewed and accepted by the Engineer.

END OF SECTION

SECTION 01450

QUALITY CONTROL

PART 1 GENERAL

1.01 SUMMARY

A. Section includes:
   1. Quality control and control of installation.
   2. Tolerances.
   3. References.
   4. Mock-up requirements.
   5. Authority and duties of Owner's representative or inspector.
   6. Sampling and testing.
   7. Testing and inspection services.
   8. Contractor's responsibilities.

1.02 QUALITY CONTROL AND CONTROL OF INSTALLATION

A. Monitor quality control over suppliers, manufacturers, products, services, site conditions, and workmanship, to produce Work of specified quality.

B. Comply with manufacturers' instructions, including each step in sequence.

C. When manufacturers' instructions conflict with Contract Documents, request clarification from Engineer before proceeding.

D. Comply with specified standards as minimum quality for the Work except where more stringent tolerances, codes, or specified requirements indicate higher standards or more precise workmanship.

E. Perform Work by persons qualified to produce required and specified quality.

F. Verify field measurements are as indicated on Shop Drawings or as instructed by manufacturer.

G. Secure products in place with positive anchorage devices designed and sized to withstand stresses, vibration, physical distortion, or disfigurement.

H. When specified, products will be tested and inspected either at point of origin or at Work site:
   1. Notify Engineer in writing well in advance of when products will be ready for testing and inspection at point of origin.
