AGENDA SUMMARY REPORT

SUBJECT: Receive Community Development Director's Report.

DEPARTMENT: Community Development

PREPARED BY: Craig Schlatter, Community Development Director

PRESENTER: Craig Schlatter, Community Development Director

ATTACHMENTS:

1. Planning Division Projects Report - 10-1-24

Summary: Planning Commission will receive the Community Development Director's Report.

Background: Director's Reports are bi-monthly oral reports given by the Community Development Director on the status of projects of the Planning Division of the Community Development Department. Updates may include, but are not limited to, application status of major and minor discretionary permits, the implementation status of advanced planning and related 2040 General Plan programs and projects, and updates related to the activities of other divisions of the Department.

Discussion: The October 2024 Report is expected to provide updates in the following areas:

- Overview of New Business planned for upcoming Planning Commission meetings; and
- October 2024 Planning Division Projects Report (Attachment 1).
 - This is a monthly report produced on the first of each month. Updates that have occurred since the first of the month are provided to the Commission verbally during the report. The October 2024 report and previous monthly reports are also located on the Planning Division Services webpage, under Current Planning Reports and listed by year:
<https://cityofukiah.com/community-development/planning-services/>

Recommended Action: Receive Community Development Director's report.

AGENDA SUMMARY REPORT

SUBJECT: Planning Commission Educational Workshop: Receive Training and Discuss Planning-Related Topics of Interest with Staff.

DEPARTMENT: Community Development

PREPARED BY: Craig Schlatter, Community Development Director

PRESENTER: Craig Schlatter, Community Development Director; Darcy Vaughn, Assistant City Attorney

ATTACHMENTS:

1. Ukiah DZC- Table 29 Exception Procedures
2. How-to-Prepare-Findings-and-Conditions-of-Approval
3. Ukiah DZC 9231.14 Nonconforming Structures

Summary: Planning Commission will receive training and presentation materials and discuss questions and content with Staff.

Background: This Planning Commission Educational Workshop has been scheduled to afford the opportunity for the Planning Commission to discuss questions and concepts of note with Staff. The Commission has identified the following five (5) topics of interest:

1. The differences between variances and exceptions, particularly within the Downtown Zoning Code.
2. How Findings should be drafted and best practices for doing so.
3. Nonconforming structures within the Downtown Zoning Code - definition and overview.
4. Barriers to redeveloping vacant commercial property throughout Ukiah and how to address barriers.
5. The challenge of vacant and unmaintained/abandoned properties in Ukiah and what the City can do to improve these properties.

Discussion: As background information and to provide resources prior to the Commission's workshop, below Staff has addressed each of the noted topics of interest, including relevant attachments. Additional information and resources may be provided at the workshop.

1. The Differences between Variances and Exceptions, Particularly within the Downtown Zoning Code

The Downtown Zoning Code (code) is contained within Division 9, Chapter 2, Article 18 of Ukiah City Code. Ukiah City Code (UCC) can be accessed at this link: <https://www.codepublishing.com/CA/Ukiah/>. On the left-hand side of the Contents page, navigate to Article 18 by clicking on the relevant dropdown menu. Note that the use of italicized font is used below to cite language directly from the code.

The code notes within Section 9231.7: *Variances are prohibited within the boundaries of this code. Deviations from the requirements of this code are allowed through an exception as provided for in section 9231.5 of this code.*

Section 9231.5: *Where this code allows specific requirements to be modified, such modification may be allowed with approval of an exception. Table 29: Exception Procedures, establishes two (2) levels of exceptions, major and minor, and the procedures for the review and processing of exceptions. See Attachment 1 for the Table 29 Exception Procedures.*

Section 9232.3(E) Definitions "E" defines "Exception" as: *A ruling that would permit a practice that is not consistent with a standard of this code. This code distinguishes between major and minor exceptions (see section 9231.5 of this code, Exceptions, and Table 29: Exception Procedures).*

The Downtown Zoning Code does not provide a definition of Variance within Section 9232. However, Variance is defined elsewhere in the City's zoning code- in Division 9, Chapter 2, Article 21, as follows: *A permit that grants a minor modification or variation of the strict application of any of the provisions of this chapter when the strict application of any of the provisions of this chapter when the strict application would deprive a property of privileges enjoyed by other property in the same vicinity, district, and zone. Variance definition shall not be construed as to permit those uses not permitted by the zone.*

2. How Findings should be Drafted and Best Practices for Doing So

At the March 18, 2022, Planning Commissioners Academy, the League of California Cities presented a session titled "How to Prepare Findings and Conditions of Approval." The PowerPoint slides for this presentation are included as Attachment 2.

3. Nonconforming Structures within the Downtown Zoning Code- Definition and Overview

Regulations pertaining to nonconforming structures in the downtown are contained within Section 9231.14, Nonconforming Structures, included as Attachment 3. Staff will provide an overview of this code section, including application, during the workshop.

4. Barriers to Redeveloping Vacant Commercial Property throughout Ukiah and How to Address Barriers

Since the loss of State redevelopment funding approximately 12 years ago, the City has had few financial resources for assisting property owners with the redevelopment of commercial properties. In this section, Staff will provide an overview of barriers and identify how other similarly-sized cities have addressed these barriers. Staff will also provide a brief overview of current policy work being undertaken with the Downtown Zoning Code Ad Hoc Committee.

5. The Challenge of Vacant and Unmaintained/Abandoned Properties in Ukiah and what the City can do to Improve these Properties

At its June 3, 2024, special budget hearing meeting, the Ukiah City Council identified this challenge to Staff. As a result of this input, on June 4, 2024, Staff amended the Fiscal Year 2024-25 budget objectives for the Code Compliance Division to include the following new objective:

"2025-3: Collaborate with the Planning Division to assess current policies and regulations, and develop recommendations to address and prevent abandoned, neglected, blighted buildings, and underutilized properties."

Staff is currently developing a Vacant and Abandoned Properties Ordinance for possible introduction to the Council at a future date. During the workshop, Staff will provide an overview of similar ordinances around the state.

Recommended Action: Receive training presentation and materials and discuss with Staff.

1. Applications for multiple permits are subject to the requirements of section 9231.10 of this code, Concurrent Permits. 2. Submittal requirements for an exception depend on the standard (building, site, architectural, tree) from which the exception is requested. 3. Any exception application reviewed by the Zoning Administrator or the Planning Commission may be approved, conditionally approved, or denied. 4. Approval authority has made all applicable findings based on project plans and the documentation provided as part of the application and said findings are not vague and conclusionary. The findings shall be sufficiently detailed to apprise a reviewing court of the basis for the action by bridging the gap. 5. The Zoning Administrator may refer any application to the Planning Commission for public hearing and decision.

HOW TO PREPARE FINDINGS AND CONDITIONS OF APPROVAL

League of California Cities
Planning Commissioners Academy
March 17, 2022

Moderator: Joel Rojas

Development Services Director, San Juan Capistrano
Immediate Past President, Planning and Community Development Department CalCities

Speaker: Patricia Curtin

Land Use and Public Agency Lawyer, Wendel Rosen LLP
Former Planning Commissioner, Lafayette

FINDINGS

- Findings explain how a city processed evidence presented in reaching a decision.
- Documenting the city's thought process.
- “Bridge the gap” between the evidence and ultimate decision.

PURPOSE OF FINDINGS

- Provides a framework for making decisions, thereby enhancing the integrity of the process and promotes transparency
- Facilitates orderly analysis and reducing the likelihood the city will leap randomly from evidence to conclusions
- Serves a public relations function by demonstrating that decision-making is careful, reasoned, and equitable
- Enables the parties to determine whether and on what basis they should seek judicial review and remedies
- Apprises the reviewing court of the basis for the city's decisions. See *Topanga Ass'n for a Scenic Community v. Central Los Angeles*, 11 Cal.3d 506 (1974)

WHEN ARE FINDINGS NECESSARY?

- Decisions made in a nonlegislative/adjudicatory role (variances, use permits, subdivision maps, design proposals).
- Not **required** for legislative acts (general plan adoption, rezoning) unless required by state law or local ordinance.
- State law requires specific findings when reducing number of housing units or not approving a housing project.
- Imposing conditions/fees or requiring dedication to development. Must demonstrate the condition has a “rough functionality” to the development’s impact.

FORM

- Provide written findings. Generally in or attached to the resolution approving/denying the project.
- Conclusory findings are not adequate. Need to explain how the agency derived at its decision.
- Use the word “because” - “The proposed project subject to the use permit is consistent with the General Plan because . . .”.
- Tie the findings to requirements in the city’s plans, standards and/or codes.

IMPORTANT TO MAKE A CLEAR RECORD

The Planning Commission's decision is based on, but is not limited to:

- The **Environmental Impact Report (EIR)** and the appendices and technical reports cited in and/or relied upon in the EIR.
- The **staff reports**, City files and records and other documents, prepared for and/or submitted to the City relating to the EIR, and the Project.
- The evidence, facts, findings and other determinations set forth in this **resolution**.
- The **General Plan** and its related EIR, and the Municipal Code.
- All **designs, plans, studies, data and correspondence** submitted to the City in connection with the EIR and/or the Project.
- All documentary and oral **evidence received at public meetings**, and hearings or submitted to the City during the comment period relating to the EIR and/or Project.
- All **other matters of common knowledge to the City**, including, but not limited to, City, state, and federal laws, policies, rules, regulations, reports, records and projections related to development within the City and its surrounding areas.

SAMPLE FINDINGS

General Plan Consistency Findings.

No. 1 -

- **Poor Example** - The proposed single family project of 12 units is consistent with the General Plan land use designation.
- **Good Example**- The proposed project is consistent with the General Plan land use designation of Residential because the proposed project (2 acre site) includes 10 units which is within the density range allowed by the Residential designation (0-6 units/gross acre) that is identified for the site.

NO. 2 -

- **Poor Example** The proposed rezoning to light industrial is consistent with all applicable General Plan policies.
- **Good Example** – Re-designating the site from business/office to light industrial is consistent with the General Plan because it is consistent with the following applicable General Plan policies:
 - 2.1.1 - Promote a combination of employment and residential uses that provide both jobs and housing for the City's residents.
 - 2.1.4 - Promote the placement of the most intensive non-residential development (Light Industrial) in the Planning Area as defined in Figure 2-3.

- 2.4.1 - The City does not support or accommodate general Heavy Industrial uses. The City does allow and encourage Light Industrial and uses in appropriate locations.
- 2.4.3 - Ensure there is adequate land available to accommodate industrial development.
- 5.1.3 - Actively recruit businesses and industries that are compatible with the General Plan's land use and implementation goals and policies.

SITE DEVELOPMENT PLAN FINDINGS

No. 1 -

- **Poor Example** - Streets and pedestrian facilities are adequate to carry the traffic expected to be generated by the SDP.
- **Good Example** - Streets and pedestrian facilities are adequate to carry the quantity and type of traffic expected to be generated by the SDP because the existing streets will be improved as required by condition of approval no. 10 that requires the widening of the street to four lanes with a separate sidewalk along the eastern side of the street. These modifications to the street widths will carry traffic safely in and out of the site as explained at page 17 of the traffic report attached to the Staff Report. Furthermore, the proposed landscape buffer and meandering sidewalk will provide a connection between neighborhoods allowing for pedestrians to walk safely within and around the neighborhood.

NO. 2 -

- **Poor Example** - The site is physically suitable for the type and density/intensity of development being proposed.
- **Good Example** - The site is physically suitable for the type and density/intensity of development being proposed because the proposed development is similar in size and intensity to the residential development surrounding the site. The proposed development allows 10,000 sq. ft. lots with 1 dwelling unit and the surrounding existing development consists of 10,000-12,000 sq. ft. lots with 1 dwelling unit.

NO. 3 -

- **Poor Example** - The proposed planned unit development (PUD) would produce a development of superior quality than might otherwise occur under the standard zoning designation of R-5.
- **Good Example** - The proposed PUD would produce a comprehensive development of superior quality than might otherwise occur from the strict application of the zoning standards requiring single family homes on 5,000 sq. ft. lots because the proposed development clusters density at the center of the site allowing for more open space at the perimeter, thereby preserving the visual character along Main Street. In addition, the project proposal includes varied types of housing, one and two story and duplexes. This development provides an opportunity for single, elderly and first time homeowners to locate in the city. In addition, the project provides five acres of public open space with picnic facilities and bathrooms and seven miles of walking trails along the perimeter of the development.

Housing Accountability Act **(“Anti-NIMBY Law”)** **(Gov. Code § 65589.5)**

Adopted in 1982 in response to the housing crisis.

Amended over the years and most recently in 2019 (SB 330 – Housing Crisis Act).

Precludes denial of a housing project or reducing its density if it complies with “applicable, objective general plan and zoning standards and criteria, including design review standards,” without making specific written findings based on a preponderance of the evidence, even if the project does not include affordable housing.
Sect. 65589.5(j)

Can only deny housing project if:

A) Project would have a specific, adverse impact on public health or safety.

A “specific adverse impact” means a significant, quantifiable, direct and unavoidable impact, based on objective, identified written public health or safety standards, policies, or conditions in existence on date application was deemed complete.

B) There is no feasible way to satisfactorily mitigate or avoid the adverse impact other than disapproving the project or lowering its density.

AFFORDABLE HOUSING PROJECTS

A City shall not disapprove an affordable project, or condition approval in a manner that renders the housing development project infeasible for development of the affordable units, unless it makes written findings, based upon a preponderance of the evidence in the record.

CAN ONLY DENY AN AFFORDABLE HOUSING PROJECT IF:

- The City has adopted a housing element in accordance with Government Code § 65588, is in substantial compliance with the Housing Element law, and the City has met or exceeded its share of the regional housing need of the income category proposed for the housing project.
- The project would have a specific adverse impact upon the public health or safety that cannot be satisfactorily mitigate without rendering the housing development project unaffordable, or development of the emergency shelter financially infeasible; inconsistency with the zoning ordinance or general plan land use designation shall not constitute a specific, adverse impact upon public health or safety.

- The denial of the project or imposition of conditions is required in order to comply with state or federal law (e.g., CEQA), and there is no feasible method to comply without rendering the housing development project unaffordable.
- The project is proposed on land zoned for agriculture or resource preservation that is surrounded on at least two sides by land being used for agriculture or preservation purposes, or the site does not have an adequate water or wastewater facility to serve the project.
- The project is inconsistent with both the city's zoning ordinance and general plan land use designation as specified in the general plan as it existed on the date the application was deemed complete, and the city had adopted a revised housing element in accordance with §65588 that is in substantial compliance with the Housing Element law.

CONDITIONS OF APPROVAL

WHAT ARE CONDITIONS OF APPROVAL?

- Requirements placed on discretionary projects (use permits, development plans, etc.)
- Must be consistent with federal, state and local laws
- Detail the requirements for implementing the approved project

WHO PREPARES CONDITIONS OF APPROVAL?

- Planning staff in coordination with other City departments
- Applicant may have input to ensure conditions of approval are feasible to implement
- Most agencies have standard conditions of approval that are provided to the applicant early in the review process
- Decisionmakers may also add conditions during the hearing process

WHO, WHAT, WHEN, WHY AND HOW

- **Who** is responsible for reviewing and approving (local agency)?
- **What** is the condition trying to implement ?
- **When** will it be implemented (e.g., timing, triggers)?
- **Why** is the condition needed (end result)?
- **How** will compliance be demonstrated (plans, agreement, etc.)?

GOOD EXAMPLE

- Prior to the issuance of the first building permit **[when]** the applicant shall design and submit for review plans for a pedestrian access corridor between Blocks F and G **[what]**. Approval of the access corridor shall provide connectivity between the Plaza District (Block F) and Central Park (Block G) **[why]**. The corridor shall be consistent with the design of the Plaza District mixed use concept, be well lit and include appropriate site amenities as set forth in the Plaza District Master Plan in Section 3 **[how]**. Prior to the submittal of construction documents, the applicant shall obtain approval of the design by the Zoning Administrator **[who]**.

SAMPLE COA #1

WHAT IS MISSING...?

- The applicant shall submit a residential parking plan designating portions of the common area parking for exclusive use by Phase 2 residents. The plan shall specify parking allocations by unit and any restrictions necessary to preserve the parking rights established for individual residential units.
- Missing “when” and “who.”

REVISED CONDITION

- Prior to issuance of a building permit [**when**], the applicant shall submit a residential parking plan [**how**] designating portions of the common area parking for exclusive use by the Phase 2 residents [**why**], for review and approval of the Zoning Administrator [**who**]. The plan shall specify parking allocations by unit and any restrictions necessary to preserve the parking rights established for individual residential unit [**what**].

SAMPLE COA #2

WHAT IS MISSING...?

- A landscaping and irrigation plan for all areas shown on the site plan shall be prepared. The landscaping plan shall include the project's frontage and side yards.

REVISED CONDITION

- The applicant shall prepare a landscaping and irrigation plan for all areas shown on the site plan for review and approval of the Community Development Director **[who]** prior to the issuance of the first building permit **[when]**. The landscaping plan shall include the frontage and side yards **[what]**, conform to the City's Water Efficient Landscape Ordinance, the Guidelines for Implementation of the City Water Efficient Landscape Ordinance **[why]** and shall be installed prior to final occupancy. The plan shall be prepared by a licensed landscape architect and shall be certified to be in compliance with the City's Water Conservation Ordinance **[what]**.

SAMPLE COA #3

WHAT IS MISSING...?

- Public art shall be designed and located at the entry of the project so that it can be viewed by the public at large.

REVISED CONDITION

- Prior to recordation of the final map **[when]**, the applicant shall submit a plan **[what]** for review and approval of the Zoning Administrator **[who]** showing the design and location of the public art piece. The design shall preserve the character and integrity of the historic Main Street bridge **[why]**. The art shall be located in such a manner that it is visible from the intersection of Main Street/Maple Avenue and shall not be obstructed by landscaping **[how]**.

SAMPLE COA #4

WHAT IS MISSING...?

- Prior to building permit issuance, the applicant shall revise the project plans to demonstrate a reduced breezeway width between the existing garage and the proposed garage.

REVISED CONDITION

- Prior to building permit issuance **[when]**, the applicant shall submit for review and approval of the Zoning Administrator **[who]** revisions to the project plans **[how]**, date-stamped “Received April 3, 2014”, reducing the breezeway width to 5 feet between the existing garage and the proposed garage **[what]** to ensure architectural compatibility with the existing home **[why]**.

SAMPLE COA #5

WHAT IS MISSING...?

- Applicant shall investigate the historical landslide area located on the property and ensure proposed improvements will not cause any landslide risk. Applicant will be responsible for implementation of any necessary mitigation measures.

REVISED CONDITION

- Prior to issuance of the final map **[when]**, applicant shall contract with a licensed Geotechnical Engineer to investigate the historical landslide area located on the property **[how]** and ensure proposed improvements will not cause any landslide risk to the property or surrounding properties **[why]**. The geotechnical findings and remediation recommendations **[what]** shall be submitted for review and approval of the City Engineer **[who]**. The applicant will be responsible for implementation of any mitigation measures as outlined by the geotechnical engineer to ensure long term stability of the site.

9231.14 NONCONFORMING STRUCTURES

A. Continued, Transferred, or Sold: Nonconforming structures may be continued, transferred, or sold, but only in compliance with the provisions of this section.

B. Nonconforming Structures and Involuntary Damage: Nonconforming status shall terminate if a nonconforming structure is involuntarily damaged or destroyed by accident (e.g., fire, explosion, etc.) or natural disaster (e.g., earthquake, etc.); provided, that the structure may be repaired or reoccupied in the following manner:

1. Damage Up to Fifty Percent (50%) of Market Value:

A nonconforming structure involuntarily damaged up to fifty percent (50%) of its current market value (as defined by subsection D of this section) may be reconstructed, repaired, restored, and used as before; provided, that the restoration is initiated (as defined in subsection D of this section) within twelve (12) months, and is substantially completed within twenty-four (24) months from the date of application for the required building permit.

a. Process for Reconstruction, Repair, Restoration:

(1) The applicant provides documentation, satisfactory to the Planning Director, supporting the claim that the damage or destruction occurred involuntarily;

(2) No expansion of the gross floor area or number of dwelling units occurs;

(3) The replacement structure is in compliance with the current building code and would not be detrimental to the public health, safety, or welfare or materially injurious to the properties or improvements in the immediate vicinity of the replacement structure;

(4) A building permit is issued no later than twelve (12) months after the date of the destruction, and construction is diligently pursued to completion.

If the preceding requirements are not met, the replacement structure shall comply with all of the regulations of the applicable zoning district in effect on the date of application for the required building permit.

2. Damage to Fifty Percent (50%) or More of Market Value:

A nonconforming structure involuntarily damaged to fifty percent (50%) or more of its current market value (as defined in subsection D of this section) shall not be reconstructed, repaired, or restored, except in conformity with the applicable requirements of the applicable zoning district.

C. Nonconforming Structures and Voluntary Repair and Maintenance: The ordinary and normal repair and maintenance work that may be required to keep a nonconforming structure in sound condition may be made in compliance with this

subsection. A nonconforming structure may undergo ordinary repair and maintenance only in the following manner:

1. Minor Repair: Minor normal repair and maintenance may be made to a nonconforming structure:

a. Provided, that no structural alterations are made (exception: see section 9231.16 of this code), and the work does not exceed fifty percent (50%) of the current market value of the structure during any calendar year;

b. For the purposes of this subsection the cost of any required foundation work shall not be counted within the fifty percent (50%) limitation.

2. Major Repair: Major repair to a nonconforming structure, when the cost of repairing or replacing the damaged portion of the structure exceeds fifty percent (50%) of the current market value of the structure before damage or destruction, may occur with Planning Commission approval of a major use permit; provided, that the Commission first determines that the major repairs are necessary to correct hazards to public health or safety.

3. Other Voluntary Modifications: The reconstruction or structural alteration of a nonconforming structure may be allowed with Zoning Administrator approval of a minor use permit; provided, that the review authority first determines that the modification is necessary to secure added safety or to reduce the fire hazard and/or to secure aesthetic advantages through the alignment, architecture, or closer conformity to surrounding allowed structures in the immediate neighborhood, and only in compliance with subsections C1 and C2 of this section.

D. Definitions:

1. Restoration Is Initiated: As used in this subsection, “restoration is initiated” requires that, at a minimum, a complete building permit application has been filed.

2. Current Market Value:

a. As used in this subsection, “current market value” is the market value of the structure immediately before the occurrence of the damage.

b. For the purposes of administering the provisions of this subsection, the applicant shall submit an appraisal from a licensed appraiser and the City’s Building Official shall verify the appraiser’s determination of the current market value of the damaged structure, which determination shall be final unless appealed in compliance with section 9266 of this code. (Ord. 1139, §2 (Exh. A, 12.140), adopted 2012)
